The Senate amendment (section 203) authorizes $196,626,000 for fiscal year 1990 to fund the exchange programs and salaries for the Bureau of Educational and Cultural Affairs.

The conference substitute (section 221) authorizes: (1) $97,460,000 for the Fulbright Academic Exchange Programs for fiscal year 1990 and $101,358,000 for fiscal year 1991; (2) $41,817,000 for the International Visitors Program for fiscal year 1990 and $43,490,000 for fiscal year 1991; and (3) $5,500,000 for the Hubert Humphrey Fel-

lowship Program for fiscal year 1990 and $5,720,000 for fiscal year 1991 and (4) $6,400,000 in fiscal year 1990 and $6,656,000 in fiscal year 1991 for Arts America; $43,323,000 in fiscal year 1990 and $45,056,000 in fiscal year 1991 for salaries and expenses.

The conferees are concerned about the reduced support in recent years of certain Bureau of Educational and Cultural Affairs activities which are funded from the Salaries and Expenses account. Many of these small but important programs have been cut from 20 to 40 percent. Funding for the Division of Advising, Teaching, and Specialized Services (formerly Student Support Services) is of special concern because of its importance to the entire higher education exchange infrastructure. The conferees urge the Agency to maintain, and possibly increase, allocations for such programs.

OFFICE OF CITIZENS EXCHANGES

The Senate amendment (sec. 214) renames USIA's Private Sector Office to Office of Citizens Exchanges and merges the office with the Youth Exchange Office.

The House bill contains no comparable provision.

The conference substitute (sec. 222) renames USIA's Private Sector Office to Office of Citizens Exchanges.

YOUTH EXCHANGES

The Senate amendment (sec. 1034) amends the Mutual Educational and Cultural Exchange Act to expand the types of programs allowed under the Samantha Smith Memorial Exchange Program.

The House bill contains no comparable provision.

The conference substitute (sec. 223) is the same as the Senate amendment.

U.S.-SOVIET EXCHANGES

The Senate amendment (sec. 215) authorizes the President to negotiate and implement an agreement with the Soviet Union for the use of lend-lease debt to finance U.S.-Soviet exchanges.

The House bill contains no comparable provision.

The conference substitute (sec. 224) is the same as the Senate amendment.

SCHOLARSHIPS FOR TIBETAN AND BURMESE

The Senate amendment (sec. 216) requires that USIA make available not less than 30 scholarships to Tibetan students and professionals outside Tibet and not less than 15 scholarships for Burmese students and professionals outside Burma.

The House bill (1101) contains a similar provision.

The conference substitute (sec. 225) is similar to the Senate amendment but provides a waiver of the provision if an adequate number of qualified students and professionals cannot be identified.

HUMPHREY FELLOWSHIP PROGRAM

The House bill (sec. 209) expresses the sense of Congress that USIA should review the Humphrey Fellowship Program and consider expanding the placement in and exposure of its participants to process of Federal, State, and local governments.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 226) is similar to the House bill with a technical modification.

PART C—VOICE OF AMERICA

AUTHORIZATIONS OF APPROPRIATIONS

The House bill (section 301) authorizes the following amounts for Voice of America activities:

$170,235,000 for fiscal year 1990 and $177,044,000 for fiscal year 1991 for salaries and expenses for the Voice of America;

$65,000,000 is authorized for fiscal year 1990 and $13,208,000 for fiscal year 1991 for the acquisition and construction of radio facilities; and

$12,700,000 is authorized for fiscal year 1990 and $13,208,000 for fiscal year 1991 for radio broadcasting to Cuba.

The Senate amendment (section 202 authorizes the following amounts for the Voice of America:

$183,924,000 for Voice of America salaries and expenses;

$12,700,000 ia authorized for the "Voice of America: Cuba Service"; and

$71,000,000 is authorized for radio construction.

The conference substitute (section 231) authorizes the following amounts for Voice of America:

$170,024,000 for fiscal year 1990 and $176,825,000 for 1991 for salaries and expenses;

$69,000,000 for the fiscal year 1990 and $122,000,000 for fiscal year 1991 for acquisition and construction of radio facilities;

$12,700,000 for fiscal year 1990 and $13,208,000 for fiscal year 1991 for radio broadcasting to Cuba; and

$3,000,000 for fiscal year 1990 and $3,120,000 for fiscal year 1991 for VOA Europe.

VOA HIRING PRACTICES

The Senate amendment (sec. 209) prohibits the VOA from hiring candidates that have been pre-approved by a foreign government entity.

The House bill contains no comparable provision.

The conference substitute (sec. 232) is the same as the Senate amendment.

VOA CHILD SURVIVAL PROGRAM

The Senate amendment (sec. 217) requires VOA to establish and maintain a series of public service announcements on child survival techniques.

The House bill contains no comparable provision.

The conference substitute (sec. 233) is the same as the Senate amendment.

VOA BROADCASTS TO TIBET

The Senate amendment (sec. 218) requires VOA to initiate broadcasts to Tibet in Tibetan.

The House bill contains no comparable provision.

The conference substitute (sec. 234) requires broadcasts to begin within 90 days of enactment, authorizes $1 million for this program, and requires a report from USIA on the implementation of this program. In addition, funds appropriated in excess of amounts authorized for USIA-T.V. in fiscal years 1990 and 1991 may be used only if transferred for VOA broadcasts to Tibet in Tibetan.

VOA THAILAND RADIO FACILITIES

The Senate amendment (sec. 221) allows USIA to enter into five-year contracts for the construction of the VOA's Thailand radio facilities.

The House bill contains no comparable provision.

The conference substitute (sec. 235) is the same as the Senate amendment.

VOA BROADCASTS TO CHINA

The Senate amendment (sec. 222) requires VOA to broadcast not less than twelve hours per day to the People's Republic of China for fiscal year 1990.

The House bill contains no comparable provision.

The conference substitute (sec. 236) is the same as the Senate amendment.

VOA EQUIPMENT ABROAD

The House bill (sec. 302) expresses the sense of Congress that USIA and VOA take every step necessary to properly maintain and enhance equipment abroad in order to avoid deterioration.

The House bill contains no comparable provision.

The conference substitute (sec. 237) is the same as the House amendment.

PART B—TELEVISION BROADCASTING TO CUBA

The House bill (Part B of Title II) provides for television broadcasting to Cuba which shall be designated "USIA Television Marti Program". The TV Marti broadcast shall be in accordance with all Voice of America (VOA) broadcast standards. The Federal Communication Commission (FCC) shall assign a suitable frequency which will not result in objectionable interference with the broadcasts of domestic licensee. The House bill: (1) allow the FCC to modify a license or permit of a licensee or permittee; (2) directs the FCC to exercise the authority of the President in assigning a frequency to TV Marti; (3) requires the FCC to direct TV Marti to cease broadcasting if its broadcast causes objectionable interference; (4) requires the FCC to take necessary and appropriate actions to assist domestic licensees in overcoming the adverse effects of objectionable interference caused by TV Marti; (5) requires the FCC to monitor interference of Cuban television and radio stations and the operations of TV Marti; and (6) expresses the sense of the Congress that the President should establish a task force to analyze the level of interference from Cuban television and radio stations by United States broadcasters and to seek solutions to this problem.

In addition, the House bill establishes TV Marti within USIA and requires the Director of USIA to appoint a head of the Service. The Service is to be administered separately from other television functions of the USIA. The House bill also amends the Radio Broadcasting to Cuba Act to include oversight of television broadcasting to Cuba and authorizes other government agencies to assist USIA in carrying out the provisions of this Act.

The House bill provides for compensation to be paid to domestic broadcasters who are adversely affected by Cuban broadcast interference or direct interference caused by the transmission of TV Marti; authorizes an initial $5,000,000 for compensation and an additional $5,000,000, if necessary, from other funds appropriated to USIA; authorizes $16 million in fiscal years 1990 and 1991, for television broadcasting to Cuba, contingent on a Presidential determination that testing of television broadcasting to Cuba has demonstrated such broadcasting is feasible and will not interfere with the operation of domestic licensees, and defines certain terms used in this act.

The Senate amendment (title VII) is similar to the House provisions with the following exceptions. Under the Senate provisions TV Marti's frequency would be allocated by the FCC and assigned by the National Telecommunications and Information Administration (NTIA). If objectionable interference occurred from the broadcast of TV Marti, the FCC would notify the NTIA which would then have 72 hours before being required to order TV Marti to cease

broadcasting. The Senate does not provide for any compensation to domestic broadcasters adversely affected by objectionable interference. The Senate amendment contains a provision that prohibits any branch or agency from ordering an incumbent domestic broadcaster to change its frequency in order to eliminate objectionable interference. The Senate amendment also authorizes TV Marti for fiscal year 1990 only.

The conference substitute (secs. 241-248) authorizes USIA to provide for the open communication to Cuba through the use of television broadcasting. This program which will be referred to as the "USIA Television Marti Program".

The conference substitute requires the Director of the USIA to establish within the Voice of America a Television Marti Service. The Director of USIA shall appoint a head of the Service who shall report to the Director of VOA.

The Federal Communications Commission (FCC) is required to assign, by order, a frequency on which television broadcasting to Cuba may operate. The FCC shall by rule establish procedures for the assignment of a frequency. For all purposes other than the initial grant of a license, the operation of the broadcast station authorized shall be treated as all other FCC licensees are treated pursuant to the Communications Act of 1934. Further, the FCC shall make no assignment in the event of "objectionable interference". Evidence of objectionable interference shall come from the results of testing television broadcasting to Cuba that was funded in title V of the Departments of Commerce, Justice and State, the Judiciary and Related Agencies Appropriations Act, 1989 (Public Law 100-459) as well as from other parties.

The conference substitute also prohibits any branch or agency from compelling an incumbent domestic licensee (as defined in this Act) to change its frequency in order to eliminate the objectionable interference caused by the broadcast of the Service.

The committee of conference understands that the term "objectionable interference" shall be applied in the same manner as such term is applied by the FCC and other domestic broadcasters and understand that the FCC currently defined objectionable interference as: (1) occuring if the domestic television licensee's primary service area, within the Grade B coverage contour, is subjected to an interfering signal with a field strength of 28 decibels below the desired signal (for 10 kHz frequency offset operations by the Service) or of 45 decibels below the desired signal (if 10 kHz frequency offset if not employed by the Service); and (2) occurring to domestic television licensees beyond their primary service area whenever reception of a regularly used signal is impaired by the signals radiated by the Service, regardless of the quality of the reception or the strength of the signal so used.

If a frequency is awarded to provide television broadcasting service to Cuba, transmissions from the service shall be in accordance with technical and operational parameters specified by the FCC. Television broadcasting to Cuba shall be designed and constructed such that objectionable interference is not caused to domestic television licensees.

In the event that the signal of the Service interferes with a domestic licensee, the FCC must direct the Service to cease broadcasting until such time that the objectionable interference has been eliminated. In addition to receipt of complaints from any person concerning objectionable interference from television broadcasting to Cuba, the FCC shall determine through its own monitoring or on its own action that objectionable interference is being caused by the Service. The FCC shall exercise its discretion to distinguish between the complaint which is frivolous or totally lacking in merit and the complaint which on its face is serious. This act does not give the FCC discretion to permit operation of television broadcasting to Cuba which does cause objectionable interference to other domestic broadcasters.

The FCC is empowered to assist any domestic television licensee which may be subject to objectionable interference from television broadcasting to Cuba. The FCC may authorize a domestic television licensee to increase its power in order to offset any adverse effect of such interference. This authorization is necessary because it appears that the maximum-to-minimum ratio of the radiation pattern that can be achieved, demonstrated and maintained with a directional antenna of this type is approximately 30 db (a field ratio of 32 to 1). Once the allowable power toward a domestic station is established, the power radiated to Cuba could be no more than 30 db greater than this value. The FCC is expected to ensure that television broadcasting to Cuba does not create objectionable interference such that the present service of domestic television stations is threatened. Other corrective action may include the use of directional increases in effective radiated power in order to offset the interference caused by the Service over an affected geographic area. All such actions are intended to regain those coverage areas lost to interference caused by the Service and should only be employed, as appropriate, consistent with domestic interference protection standards such that interference is not caused to other domestic licensees.

The FCC is required to monitor the signal of television broadcasting to Cuba and report periodically to the appropriate committees of Congress. Should the FCC, pursuant to such monitoring, order the Service to cease broadcasting, they must immediately report such action to the appropriate committees of Congress after such notice. The FCC will continue to report to Congress on the progress toward eliminating the objectionable interference in such a manner as to keep the Congress fully informed of the operations of the Service.

The conference substitute authorizes $16 million in each of fiscal years 1990 and 1991, contingent on a Presidential determination that testing of television broadcasting to Cuba has demonstrated such broadcasting to be feasible and will not interfere with the operation of domestic licensees. The President's finding will be based upon tests conducted by an inter-agency task force which includes representatives of USIA, FCC, Department of Commerce and other appropriate agencies. It is the responsibility of the FCC to keep the appropriate committees of Congress informed of the progress made by this interagency task force in its testing of television broadcasting to Cuba. If the President finds that television broadcasting to Cuba is feasible, the FCC shall commerce its responsibilities as provided for in this Act. The President shall submit a report to Congress which includes all of the findings of testing of television broadcasting to Cuba, thirty days before he makes a determination. The President may extend the test period for a period of 30 days to allow the Service to continue broadcasting during the period of time between the Presidents' report to Congress and his determination.

The conference substitute amends the Radio Broadcasting to Cuba Act to expand the duties of the Advisory Board on Radio Broadcasting to Cuba to include oversight to television broadcasting to Cuba. This action is not intended to replace or shorten the term of any member of the current board.

House section 227 "Facility Compensation" is deleted in the conference substitute.

TITLE III—BOARD FOR INTERNATIONAL BROADCASTING

AUTHORIZATION OF APPROPRIATIONS

The House bill (sec. 401) authorizes the appropriation of $412,175,000 for fiscal year 1990 and $210,943,000 for fiscal year 1991 for Board for International Broadcasting.

The Senate amendment (sec. 301) authorizes the appropriation of $398,247,000 for fiscal year 1990.

The conference substitute (sec. 301) authorizes the appropriation of $379,675,000 for fiscal year 1990 and $223,043,000 for fiscal year 1991 for Board for International Broadcasting.

The committee of conference directs the Board for International Broadcasting to ensure that specifications for transmitting equipment (including all subsystems required to get the signal to the antennas, i.e. transmitter, transmission lines, switches, baluns, etc., as defined in Annex 7 of the Agreement Between the Government of the United States and the Government of Israel for the Establishment and Operation of a Radio Relay Station in Israel) be prepared in such a way as to maximize the participation of United States firms in accordance with provisions of the Agreement. The committee of conference is concerned about early drafts of the specifications that could have the effect of giving outright preference in at least one major subsystem of such transmitting equipment to non-U.S. firms. The committee of conference emphasizes that such draft specifications could run counter to the clear terms of the Agreement, as well as the intention of Congress in authorizing the joint BIB/VOA relay station in Israel. The committee of conference believes that in the process of drafting technical specifications, U.S. firms should not be inappropriately excluded from the outset from the competition for such contracts.

REQUIREMENT FOR AUTHORIZATION OF APPROPRIATIONS

The House bill (sec. 403) requires that any appropriation made available to the Board for International Broadcasting be explicitly authorized before any such funds may be obligated or expended.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 302) is the same as the House bill.

RADIO FREE AFGHANISTAN

The Senate amendment (sec. 303) requires the continuation of BIB broadcasts to Afghanistan until there is a government in Kabul that has been constituted through a free act of self-determination.

The House bill contains no comparable provision.

The conference substitute (sec. 304) is the same as the Senate amendment.

TITLE IV—INTERNATIONAL ORGANIZATIONS AND COMMISSIONS

MEMBERSHIP IN VARIOUS ORGANIZATIONS

The House bill (sec. 602) authorizes the President to maintain U.S. membership in the International Sugar Organization and the International Tropical Timber Organization and to pay the U.S. assessed contributions to those organizations from the "Contributions to International Organizations" account.

The Senate amendment (sec. 401 and sec. 641) contains similar provisions.

The conference substitute (sec. 401) is the same as the House bill.

MEMBERSHIP IN WILDLIFE CONVENTIONS

The Senate amendment (sec. 643 and sec. 644) authorizes U.S. participation in the International Union for the Conservation of Nature and Natural Resources and authorizes $1.511 million for fiscal year 1990 dues and arrearages in support of U.S. participation in the Convention on International Trade in Endangered Species of Wild Fauna and Flora, the International Tropical Timber Organization, the World Heritage Convention, and the International Union for the Conservation of Nature and Natural Resources.

The House bill contains no comparable provision.

The conference substitute (sec. 402 and sec. 403) is similar to the Senate amendment with a technical modification.

COMMISSION ON THE UKRAINE FAMINE

The Senate amendment (sec. 1066) authorizes to be appropriated $100,000, to remain available until expended, for the Commission on the Ukraine Famine.

The House bill contains no comparable provision.

The conference substitute (sec. 404) is the same as the Senate amendment.

VOTING PRACTICES AT THE UNITED NATIONS

The Senate amendment (sec. 403) requires the Annual Report to the Congress on Voting Practices at the United Nations to include an analysis of the extent to which member countries supported U.S. policy objectives at the U.N. and an analysis of U.N. decisions taken by consensus. In addition, with respect to plenary votes, the Senate amendment requires a listing of all such votes on issues that directly affect U.S. interests, a brief description of the issues involved in each such vote, and an explanation of the U.S. position on each such issues.

The House bill (sec. 610) contains a similar provision.

The conference substitute (sec. 406) is similar to the Senate amendment with a technical modification.

DENIAL OF VISAS TO CERTAIN REPRESENTATIVES OF THE UNITED NATIONS

The House bill (section 602) provided in subsection (d)(2)(A) that funds authorized to be appropriated for payment to the United Nations or its specialized agencies for assessed contributions for calendar years prior to 1989, could not be expended in any period when an individual expelled from another country for engaging in activities inconsistent with their diplomatic status, was admitted to the United States and accredited as a United Nations representative.

The Senate amendment contains no comparable provision.

The conference substitute (section 407) directs the President to use his authorities pursuant to the United Nations Headquarters Agreement Act to deny any individual's admission to the U.S. as a UN representative if the President determines that the individual has engaged in espionage directed against the United States and poses a threat to U.S. national security interests.

UNESCO

The House bill (sec. 606) requires the Secretary of State to report within 30 days of enactment on the activities after December 31, 1984, of the United Nations Educational, Scientific, and Cultural Organization.

The Senate amendment (sec. 404) contains congressional findings regarding UNESCO and expresses the sense of Congress that the Secretary of State should monitor changes achieved in UNESCO and work to promote the progress necessary to permit U.S. reentry in UNESCO.

The conference substitute (sec. 408) combines the two provisions and makes technical modifications.

INTERNATIONAL COMMITTEE OF THE RED CROSS

The House bill (sec. 603) repeals section 742(a) of the Public Law 100-204, which required that the U.S. annual contribution to the International Committee of the Red Cross be not less than 10 percent of the ICRC's regular budget.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 410) provides that the Secretary of State shall not be required to make a contribution pursuant to section 742 of Public Law 100-204 of an amount greater than an amount which is 10 percent of the ICRC's regular 1989 budget.

INTERNATIONAL COURT OF JUSTICE

The House bill (sec. 608) contains congressional findings regarding the International Court of Justice and expresses the sense of Congress commending and supporting efforts of the United States to broaden the compulsory jurisdiction and enhance the effectiveness of the ICJ.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 411) is similar to the House bill with a technical modification.

INTERNATIONAL BOUNDARY AND WATER COMMISSION

The Senate amendment (sec. 118) reauthorizes the ongoing activities of the International Boundary and Water Commission and provides new authorization to handle flood emergencies resulting from floodwaters of the Tijuana or Colorado Rivers, to cover certain emergencies dealing with sanitation problems and projects, and to conduct technical and other investigations into the drainage of transboundary storm waters.

The House bill (sec. 604) contains a similar provision.

The conference substitute (sec. 412) is the same as the Senate amendment.

U.S. PARTICIPATION IN INTERNATIONAL AND BILATERAL COMMISSIONS

The House bill (sec. 130) requires a report within 180 days from the Secretary of State on all international and bilateral commissions in the which the United States participates.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 413) is similar to the House bill and clarifies that the commissions referred to are those funded under section 103 of this Act.

MEMBERSHIP OF THE PLO IN U.N. AGENCIES

The Senate amendment (sec. 405) prohibits the payment of any assessed contribution or voluntary contribution to the United Nations or any of its specialized agencies that admits the PLO with the same standing as a member nation.

The House bill contains no comparable provision.

The conference substitute (sec. 414) is similar to the Senate amendment and allows funds withheld pursuant to this section to remain available until expended and be reprogrammed to any other account of the Department of State or AID to carry out the general purposes for which such funds were appropriated.

UNITED NATIONS RELIEF AND WORKS AGENCY

The House bill (sec. 605) expresses the sense of Congress concerning the need for broad-based commitment of international financial support for the United Nations Relief and Works Agency to guarantee the necessary resources for the continued work of the organization.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 415) is the same as the House bill.

MIDDLE EAST PEACE CONFERENCE

The Senate amendment (sec. 1063) contains congressional findings regarding United Nations General Assembly Resolution 3379 and proposals for an international peace conference on the Middle East, and expresses the sense of Congress that the adoption of UNGA resolution 3379 makes the United Nations and any of its constituent bodies inappropriate fora for the sponsorship of an international conference on the Arab-Israeli conflict.

The House bill contains no comparable provision.

The conference substitute (sec. 416) declares that the United Nations General Assembly and the affiliated agencies are inappropriate fora for an international conference on the Arab-Israeli conflict, but preserves a possible role for the United Nations Security Council.

CONTRIBUTIONS FOR PEACEKEEPING ACTIVITIES IN SOUTHERN AFRICA

The Senate amendment (sec. 1060) tracks closely the provisions of the Dire Urgent Supplemental Appropriations Act of 1989 which control the disbursement of U.S. contributions to U.N. peacekeeping activities in Southern Africa. The Senate amendment requires the President to certify that conditions have been met on a number of grounds before he can authorize the disbursement of funds to the U.N. Among these are Cuban compliance to remove all troops from Angola, Cuban adherence to a timetable of northward movement during the withdrawal phase, and Cuban non-attacks on the Union for the Total Independence of Angola (UNITA). These provisions and others are specific items in the Tripartite Accords, signed at the United Nations on December 22, 1988 by Cuba, Angola, and South Africa. In addition, also in accordance with the Tripartite Accords, the President must certify that all military forces of the South West Africa People's Organization (SWAPO) strictly comply with deployment provisions.

The House bill (sec. 609) is similar to the Senate amendment, but does not include language on the disbursement of U.S. funds.

The conference substitute (sec. 417) is the same as the Senate amendment.

ASIA FOUNDATION

The House bill (title V) provides $16,200,000 for fiscal year 1990 and

$16,848,000 for fiscal year 1991 for the Asia Foundation. In addition, the House bill provides that $2,500,000 in each fiscal year be made available only for the expansion of programs and services for Oceania.

The Senate amendment (sec. 105) provides $18 million for fiscal year 1990 for the Asia Foundation.

The conference substitute (sec. 501) provides $13,900,000 for fiscal year 1990 and $18 million in fiscal year 1991 for the Asia Foundation. In addition, the substitute earmarks $1,324,000 in each of the fiscal years 1990 and 1991 for the expansion of programs and services for Oceania.

THE INTER-AMERICAN FOUNDATION

The House bill (section 701) authorizes the appropriation of $16,932,000 for fiscal year 1990 and $20,000,000 for fiscal year 1991 for the activities of the InterAmerican Foundation.

The Senate amendment contains no comparable provision.

The conference substitute (section 601) authorizes the appropriation of $16,932,000 for fiscal year 1990 and $25,000,000 for fiscal year 1991 for the activities of the Inter-American Foundation.

TITLE VII—REFUGEE AND OTHER PROVISIONS

UNHCR AUDIT REQUIREMENT

The Senate amendment (sec. 501) deletes the requirements in section 8 of the Migration and Refugee Assistance Act of 1962 that the annual audits of United Nations High Commissioner for Refugees programs be conducted by an independent consultant selected by the Executive Committee of the UNHCR and that such audits be made available to the Department of State through the Executive Committee.

The House bill contains no comparable provision.

The conference substitute (sec. 701) is the same as the Senate amendment.

TIBETAN AND BURMESE REFUGEES

The Senate amendment (sec. 502) expresses the sense of Congress regarding a number of international and foreign policy refugee issues and earmarks $500,000 for assistance to displaced Tibetans in India and Nepal and $250,000 for displaced Burmese in India and Nepal.

The House bill contains no comparable provision.

The conference substitute (sec. 702) retains the earmarks and makes technical modifications.

REPORT ON BURMESE STUDENTS

The Senate amendment (sec. 504) requires the Attorney General, in consultation with the Secretary of State, to report on the immigration policy of the United States regarding Burmese pro-democracy protestors who have fled from the military government of Burma and are currently located in border camps or inside Thailand.

The House bill contains no comparable provision.

The conference substitute (sec. 703) is similar to the Senate amendment with a modification requiring that the report be submitted by the Secretary of State

BULGARIAN REFUGEES

The Senate amendment (sec. 1017) contains congressional findings regarding the treatment of the ethnic Turkish minority in Bulgaria and authorizes the appropriation of $10 million for the Republic of Turkey for shelter, food and other basic needs to ethnic Turkish refugees fleeing the People's Republic of Bulgaria and resettling in Turkey.

The House bill contains no comparable provision.

The conference substitute (sec. 704) earmarks $10 million from the Migration and Refugee Assistance account to carry out the purposes of this section. It is the understanding of the committee of conference that the funds authorized by this section for the Republic of Turkey will be used for resettlement on the sovereign territory of Turkey only and not in any other country.

The committee of conference expresses its concern about the plight of more than 50,000 Kurdish refugees from Iraq in Turkey and urges the executive branch to consider providing assistance to the Government of Turkey for those refugees.

ADDITIONAL REFUGEE ISSUES

The committee of conference is concerned that Malaysian authorities have recently engaged in a pattern of "push-offs" of Vietnamese seeking asylum on the east coast of Malaysia, with more than 2,000 persons being denied first asylum in Malaysia since May 1989. These push-offs violate commitments made by the Malaysian Government to maintain the practice of granting first asylum, have put at risk the lives of thousands of asylum-seekers, and have resulted in the deaths of at least 4 asylum-seekers. The committee of conference urges the Malaysian Government to bring its actions into conformity with internationally recognized humanitarian standards by immediately reinstating the policy and practice of granting first asylum.

In addition, the committee of conference are concerned about the possible phase-out of U.S.-funded "supplementary activities" to the UNHCR antipiracy effort in Southeast Asia, especially the Malaysia and Thailand-based program in counseling for victims of violence. The committee of conference believes that this program has played a significant role in easing the trauma faced by victims of rape and witnesses to killings, and urges the executive branch to work to ensure that this worthy effort may continue.

TITLE VIII—PLO COMMITMENTS COMPLIANCE ACT OF 1989

The Senate amendment (secs. 801-804) (1) contains congressional findings regarding United States policy toward contact with the Palestine Liberation Organization; (2) reiterates the policy of the United States that any dialogue with the PLO be contingent on the PLO's recognition of Israel's right to exist; (3) expresses the sense of Congress that the U.S., in any discussions with the PLO, should seek the prevention of terrorism and the implementation of concrete steps by the PLO consistent with its commitment to recognize Israel and renounce terrorism; and (4) requires the Secretary of State to submit quarterly reports regarding progress toward the goals of this section and a report concerning the policies of Arab states toward the Middle East peace process.

The House bill contains no comparable provision.

The conference substitute (secs. 801-804) is the same as the Senate amendment.

TITLE IX—PEOPLE'S REPUBLIC OF CHINA

POLICY TOWARDS ADDITIONAL SANCTIONS AGAINST THE PEOPLE'S REPUBLIC OF CHINA

The Senate amendment (sec. 901) condemns the PRC government's repression of the pro-democracy movement; states the sense of the Senate concerning additional measures which the President should take in response to the repression; suspends certain programs and activities of the U.S. government vis-a-vis the PRC pending a report by the President that either the Government of the PRC has made progress on a program of political reform, or it is in the national interest to terminate one or more suspensions.

The House bill contains no comparable provision.

The conference substitute (sec. 901 and sec. 902) makes findings and statements of policy concerning the political and human rights situation in China, including Tibet, and the U.S. response to that situation; states the sense of Congress concerning steps which the President should take if the repression in China continues or deepens; continues the suspension of certain programs and activities of the U.S. government vis-a-vis the PRC (including the Overseas Private Investment Corporation, the Trade and Development Program, Munitions Control Licenses, transfer of crime control and detection instruments and equipment, export of satellites for launch by the PRC, nuclear cooperation with the PRC, and liberalization of export controls on a multilateral basis); and authorizes the President to terminate one or more of the suspensions if he submits a report either that the Government of the PRC has made progress on a program of political reform, or that it is in the national interest to terminate one or more of the suspensions; and requires the President to submit a report on developments in China, the impact of bilateral and multilateral sanctions, and developments in US policy towards the PRC.

The committee of conference remains extremely concerned about the political and human rights situation in China and recognizes that the United States and the PRC government share geopolitical interests, and that the United States has an interest in China's economic modernization and the improvement of the standard of living of the Chinese people.

However, multifaceted cooperation with the government of China will continue to require, as it has required in the past, the support of the American public. The terror and repression with which the PRC government responded to the democracy movement in China seriously undermined American support for US-PRC relations, as evidenced by the actions taken in this title. The American public and the Congress will be reluctant to resume relations at the level which existed before the June crackdown, much less develop ties further, unless there is a significant improvement in the political and human rights situation in China, including Tibet. The committee of conference is also concerned about conditions in Hong Kong, and express their desire that the PRC live up to its international undertakings with respect to the Joint Declaration of 1984.

The committee of conference does acknowledge the need for the President to retain flexibility in the conduct of foreign policy. Consequently, this provision provides two separate conditions under which the President may terminate one or more of the suspensions: that he reports to the Congress that the PRC government has made progress on a program of political reform; or that he deems that it is in the national interest to take such action.

With respect to the latter waiver authority, Congress recognizes that the President must weigh several elements in determining what is in the U.S. national interest, espe-

cially human rights and national security considerations. Although U.S. economic interests are part of the national interest, it is the intent of Congress that the economic interest of the U.S. and of individual American companies not be the sole factor in a Presidential determination to apply the national-interest waiver. Prior to a Presidential determination that a termination of one or more suspensions are "in the national interest of the United States," Congress expects that the President will report to Congress on the basis for such a determination.

TITLE XI—BUDGET ACT COMPLIANCE

COMPLIANCE WITH CONGRESSIONAL BUDGET ACT

The House bill (sec. 801) requires that any spending authority provided under this act shall be effective for any fiscal year only to the extent or in such amounts as are provided in advance in appropriations acts and limits the effectiveness of contract authority provided under this act only to the extent that budget authority has been provided in advance by an appropriation act or to the extent or in such amounts as are provided in advance in appropriation acts.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 1101) is the same as the House bill.

TITLE X—MISCELLANEOUS PROVISIONS

REWARDS FOR COMBATING TERRORISM

The Senate amendment (sec. 1020) amends section 36(c) of the State Department Basic Authorities Act of 1956 to increase the limit on individual rewards for information on international terrorist incidents from $500,000 to $2 million.

The House bill contains no comparable provision.

The conference substitute (sec. 1001) is the same as the Senate amendment.

ASSIGNMENT OF COMMERCIAL OFFICERS

The Senate amendment (sec. 1027) requires the U.S. Foreign and Commercial Service to assign not less than three officers and necessary support staff to the U.S. Mission to the European Community in Brussels within 90 days of enactment.

The House bill contains no comparable provision.

The conference substitute (sec. 1002) is the same as the Senate amendment.

BENJAMIN FRANKLIN HOUSE MUSEUM

The Senate amendment (sec. 1011) contains congressional findings regarding the former London residence of Benjamin Franklin and expresses the sense of Congress calling on relevant agencies and departments of the Federal government to recognize the important goals of the Friends of Benjamin Franklin House and the American Franklin Friends Committee.

The House bill contains no comparable provision.

The conference substitute (sec. 1004) is the same as the Senate amendment.

ASSOCIATION OF DEMOCRATIC NATIONS

The Senate amendment (sec. 1026) contains congressional findings regarding the proposal of Prime Minister Benazir Bhutto of Pakistan for the establishment of an Association of Democratic Nations to promote the right of democracy and expresses the sense of the Senate that the President should give serious consideration to this proposal and report to Congress by December 31, 1989 on the merits and estimated costs of establishing such an Association.

The House bill contains no comparable provision.

The conference substitute (sec. 1005) is the same as the Senate amendment.

As a complement to the proposal of Prime Minister Bhutto, the conferees support the work of the Committee for a Community of Democracies—USA (CCD-USA) and recommend that of the funds available for USIA or the National Endowment for Democracy at least $100,000 be available to assist in covering CCD-USA's annual operating expenses for its program to promote solidarity and cooperation among all of the world's democracies and thereby enhance CCD-USA's own efforts to obtain other private funding. This funding can help continue the United States' leading role in furthering cooperation and coordination of efforts to strengthen democratic institutions and societies in the world.

HUMAN RIGHTS IN CUBA

The Senate amendment (sec. 1050) contains congressional findings regarding human rights abuses by the Government of Cuba, and calls on the Secretary General of the United Nations to act on the resolution approved by the Commission of Human Rights on March 9, 1989 and to urge the Government of Cuba to release persons held in detention because of human rights activity.

The House bill contains no comparable provision.

The conference substitute (sec. 1006) is similar to the Senate amendment with a technical modification updating the congressional findings.

BOUNDARY AGREEMENTS WITH THE SOVIET UNION

The Senate amendment (sec. 1062) expresses the sense of the Senate that all agreements concluded between the United States and the Soviet Union on boundary issues should be submitted to the Senate in treaty form for advice and consent.

The House bill contains no comparable provision.

The conference substitute (sec. 1007) requires that all boundary agreements be approved by Congress in accordance with its constitutional responsibilities.

REPORT ON OCEANIA

The House bill (sec. 127) requires the Secretary of State to submit an annual report to Congress which addresses U.S. policy toward the South Pacific, examines instability and Communist influence in the region, assesses economic growth, and makes recommendations for a strong U.S. presence in the region.

The Senate amendment contains no comparable provision.

The conference substitute (sec. 1008) is similar to the House bill, but limits the report to fiscal years 1990 and 1991.

LATIN AMERICAN AND CARIBBEAN DATA BASE

The Senate amendment (section 125) authorizes $1,300,000, of funds available for salaries and expenses of the Department of State, to provide support for the establishment of a Latin American and Caribbean Data Base in fiscal year 1990. The amendment sets forth conditions regarding the data base. The amendment requires that the data base not be significantly duplicative of existing services.

The House bill contains no similar provision.

The conference substitute (section 1010) is the same as the Senate amendment with a technical modification.

The committee of conference notes with approval that substantial progress has been made toward establishment of this data base as required in the Foreign Relations Authorization Act for fiscal years 1988 and 1989. The committee of conference expects that the State Department will continue to provide timely and effective support for the data base.

REDUCTION IN AGGREGATE AUTHORIZATION

The House bill (sec. 1201) reduces the aggregate authorization of appropriations under this act by $125 million. In addition, the House bill (sec. 1202) expresses the sense of Congress that certain programs authorized by this legislation be exempt from the aggregate reduction.

The Senate amendment contains no comparable provisions.

The conference substitute deletes the provisions.

OILSPILL TREATY BETWEEN THE UNITED STATES AND CANADA

The Senate amendment (secs. 171 and 172) contains congressional findings regarding the shipment of oil through the Arctic Ocean and the Great Lakes by Canada and legal liability in the event of an oilspill. The Senate amendment also calls on the Secretary of State and the Foreign Minister of Canada to begin negotiations on a treaty dealing with recovery of damages, contingency plans, and coordinated actions in the event of an oilspill in the Arctic Ocean, and requires a report on these efforts no later than January 1, 1990.

The House bill contains no comparable provision.

The conference substitute deletes the provisions.

GLOBAL ENVIRONMENT PROTECTION ACT

The Senate amendment (secs. 611, 621-622, 631-33, 661, and 671-74) contains provisions dealing with global environment protection as follow:

Amends the Foreign Assistance Act to establish a new program of commercial debt-for-nature exchanges;

Establishes policies on multilateral coordination of foreign assistance programs to address global warming, tropical deforestation, sustainable development, and biological diversity;

Establishes policies and goals for incorporating environmental considerations in debt restructuring plans;

Directs U.S. Executive Directors of the multilateral development banks to negotiate for the creation of departments responsible for environmental protection and resource conservation, and guidelines for restoration, protection, or sustainable use policies;

Requires the Secretary of State to report on the political, economic, commercial and security implications of providing assistance in the form of technology transfers designed to improve energy efficiency;

Expresses the sense of Congress that the President should persuade world leaders to convene an International Energy Conference; and

Requires the President to submit a coordinated national policy of global climate change by February 1, 1990.

The House bill contains no comparable provisions.

The conference substitute deletes the provisions in anticipation that these issues will be addressed in separate legislation. The conferees agree that the President, through the Environmental Protection Agency, shall develop a policy plan on global climate change, pursuant to section 1103(b) of Public Law 100-204, and that that plan shall

be submitted to the Congress no later than February 1, 1990.

EXPEDITED PROCEDURE FOR DRUG CERTIFICATION LEGISLATION

The Senate amendment (sec. 1002) amends section 481(h)(6)(B) of the Foreign Assistance Act of 1961 to bring procedures for Committee on Foreign Relations of the Senate consideration of resolutions of decertification on major drug producing countries under the 1986 Drug Act into conformity with procedures provided by that act for other committees of jurisdiction. The Senate amendment (sec. 1036) also contains a provision negating the effect of section 1002.

The House bill contains no comparable provisions.

The conference substitute deletes the provisions.

ISSUANCE OF COMMERCIAL ARMS LICENSES

The Senate amendment (Sec. 1004) amends the Arms Export Control Act to require that the Office of Munitions Control notify applicants within 10 days of receiving an application of any outside agency referrals to which the application must go, set 30 calendar days as a target for making a determination on most license applications for exports to NATO countries or other major allies, and report on a semiannual basis on the percentage of cases which have fallen within these time frames.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

USE OF HERBICIDES IN DRUG ERADICATION PROGRAMS

The Senate amendment (sec. 1006) requires the Assistant Secretary of State for International Narcotics Matters to report on the use of aerial application of herbicides to eradicate cocaine or opium.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

PRESIDENT'S FOREIGN INTELLIGENCE ADVISORY BOARD

The Senate amendment (sec. 1008) contains congressional findings regarding the President's Foreign Intelligence Advisory Board and requires each member of the Board to file a full financial disclosure report with the Office of Government Ethics 30 days after enactment of this Act and every 180 days thereafter.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

INTERNATIONAL AGRICULTURAL CONSERVATION RESERVE

The Senate amendment (sec. 1012) contains congressional findings regarding worldwide soil erosion, farm subsidies, and world food production, and requires a report from the Secretary of State within 90 days of enactment on the feasibility of negotiating an international agreement to establish an international agricultural conservation reserve.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

HIGH SEAS DRIFTNET FISHING

The Senate amendment (sec. 1013) contains congressional findings on the detrimental effects of driftnet fishing in international waters, and expresses the sense of the Senate that the agreement between the United States and Japan on driftnet fishing be interpreted to ensure that for the 1990 fishing season electronic position-indicating and vessel-identification devices be installed and operating and that a sufficient number of observers be aboard all Japanese driftnet fishing vessels.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CHEMICAL AND BIOLOGICAL WEAPONS SUPPLIERS GROUPS

The Senate amendment (sec. 1014) contains congressional findings regarding the proliferation of chemical and biological weapons and expresses the sense of Congress that the United States should initiate the establishment of a formal organization of supplier nations to coordinate policies to control the export of such weapons.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

MONITORING SYSTEM FOR THE INF TREATY

The Senate amendment (sec. 1015) requests that the Secretary of State report to the Senate on the installation of an x-ray monitoring system in the Soviet Union pursuant to the INF Treaty.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

NATO-WARSAW PACT MILITARY COMMUNICATIONS LINK

The Senate amendment (sec. 1016) contains congressional findings on the status of conventional force reduction talks between NATO and the Warsaw Pact and the establishment of a direct communications link between NATO and Warsaw Pact forces, expresses the sense of Congress that the President raise with NATO the issue of the establishment of such a link, and requires a report from the President on the technical feasibility, operational characteristics, and costs of establishing such a link.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

HUMAN RIGHTS IN YUGOSLAVIA

The Senate amendment (sec. 1018) contains congressional findings regarding human rights abuses in Yugoslavia and expresses the concern of Congress over such violations.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

TAIWAN

The Senate amendment (sec. 1019) contains congressional findings and expresses the sense of Congress regarding the future of Taiwan.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

DRUG-RELATED EVICTION PROCEDURES IN PUBLIC HOUSING

The Senate amendment (sec. 1021) repeals section 404 of Public Law 101-45, relating to drug-related eviction procedures in public housing.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

IMPORTATION OF DEFENSE ARTICLES FROM POLAND AND HUNGARY

The Senate amendment (sec. 1022) allows the importation by museums or educational institutions of certain defense articles from Hungary and Poland.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SOVIET ARMENIA

The Senate amendment (sec. 1023) contains congressional findings regarding the treatment of Armenians by the Soviet Government and expresses the sense of the Senate: (1) supporting the reconstruction of Soviet Armenia; (2) urging President Gorbachev to continue discussions to reach a settlement to the dispute over Nagorno-Karabagh; and (3) urging that investigations of violence against Armenians be conducted at the highest levels.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

BURMA

The Senate amendment (sec. 1024) contains congressional findings regarding the political and human rights situation in Burma and expresses the sense of Congress condemning the continued violations of human rights by the Burmese Government and supporting an end to martial law and the holding of free and fair elections in Burma.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CLEAN COAL TECHNOLOGY EXPORT PROGRAMS

The Senate amendment (sec. 1025) requires the President to submit a report within 90 days which identifies, inventories, and analyzes clean coal technology export programs within U.S. Government agencies.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CUBA

The Senate amendment (sec. 1028) expresses the sense of the Congress regarding the right of the people of Cuba to participate in a secret ballot plebiscite on the approval or rejection of the current Government of Cuba.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CONTROL OF ILLEGAL DRUGS IN MEXICO

The Senate amendment (sec. 1029) contains congressional findings regarding the production of illegal narcotics in Mexico and the status of U.S.-Mexican relations, and expresses the sense of Congress supporting the Government and people of Mexico's antinarcotics efforts, and urging Mexico to demonstrate its commitment to cooperating with the United States in antinarcotics efforts.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

COPRODUCTION OF KOREAN FIGHTER PROGRAM

The Senate amendment (sec. 1030) contains congressional findings regarding the coproduction of the "Korean Fighter Program", expresses principles for negotiation on such proposed coproduction, and expresses the sense of the Congress that the President should instruct the Secretary of Defense not to enter into any government-to-government memorandum of understanding on the proposed coproduction until thorough review has been conducted and a report submitted to Congress.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

HONG KONG

The Senate amendment (sec. 1031) requires the Secretary of State to report no later than January 1, 1990 on the implications of the crackdown by the Government of the People's Republic of China on pro-democracy demonstrators for the reversion of Hong Kong to the PRC in 1997.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

ROMANIA

The Senate amendment (sec. 1032) contains congressional findings regarding human rights abuses by the Government of Romania and requires the Secretary of State to report 60 days after enactment on additional diplomatic and trade sanctions which could be imposed on Romania.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

YANG WEI

The Senate amendment (sec. 1033) contains congressional findings concerning the arrest and imprisonment of Yang Wei, a Chinese national, and expresses the sense of the Congress that the People's Republic of China should release Yang Wei and all other political prisoners and take all necessary steps toward establishing a democratic society.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

The committee of conference condemns the continued imprisonment of Yang Wei and urges the executive branch to take all feasible steps to ensure the release of Yang Wei and all other political prisoners.

CHINESE STUDENTS IN JAPAN

The Senate amendment (sec. 1037) prohibits the U.S. Embassy in Japan from denying student visas to nationals of the People's Republic of China solely on the basis of recent political events in China where the student can demonstrate an ability to meet all other visa requirements and initiated an education plan including study in the United States prior to June 4, 1989.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

ADMINISTRATOR OF THE PANAMA CANAL COMMISSION

The Senate amendment (sec. 1038) amends title 22 of the U.S. Code to prohibit the appointment of a new Administrator of the Panama Canal Commission unless and until the President certifies that the ruling government of Panama has been democratically elected.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

LEBANON

The Senate amendment (sec. 1039) contains findings regarding the sovereignty and territorial integrity of Lebanon and expresses the sense of the Senate urging an end to the conflict in Lebanon.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

TIANANMEN SQUARE PARK

The Senate amendment (sec. 1041) contains congressional findings regarding the June pro-democracy demonstrations in China and authorizes the designation of a national park as "Tiananmen Square Park". In addition, the Senate amendment expresses the sense of the Senate that the National Park Service support public initiatives to raise private funds to place a replica of the Chinese student demonstrators' Statue of Democracy on the redesignated Tiananmen Square Park.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

COERCIVE POPULATION CONTROL IN CHINA

The Senate amendment (sec. 1042) directs adjudicators of asylum status pursuant to the Immigration and Nationality Act to give fullest possible consideration to applications of Chinese nationals who fear returning to China due to coercive population control policies.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CONSERVATION OF SEA TURTLES

The Senate amendment (sec. 1044) directs the Secretary of State to initiate bilateral and multilateral negotiations with other nations on the conservation of sea turtles.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

EASTERN BLOC MILITARY ASSISTANCE TO CENTRAL AMERICA

The Senate amendment (sec. 1045) contains congressional findings regarding Eastern Bloc military assistance to Nicaragua and the Farabundo Marti Liberation Front (FMLN) of El Salvador and expresses the sense of the Congress that the Soviet Union and its allies should withhold military assistance to Nicaragua and the FMLN and withdraw their military support from Nicaragua.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SOVIET AND VIETNAMESE NATIONALS REFUGEE STATUS

The Senate amendment (secs. 1046 and 1047) directs the Attorney General to establish standard profiles of refugee applicants to identify those with a strong likelihood of qualifying for refugee admissions. These categories of applicants with well established histories of persecution, including certain Soviet and Vietnamese nationals, would qualify for refugee status by demonstrating that they have been subject to certain adverse treatment as specified in the section. In addition, the Senate amendment (sec. 1047) requires the Attorney General to adjust to lawful permanent resident status those Soviet or Vietnamese nationals who were paroled into the United States on or after September 1, 1988 and before September 1, 1990.

The House bill contains no comparable provisions.

The conference substitute deletes the provisions.

CUBAN ALIEN SMUGGLING

The Senate amendment (sec. 1048) directs the Attorney General to investigate allegations of an alien smuggling ring operated by the Government of Cuba.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

CUBAN DRUG TRAFFICKING

The Senate amendment (sec. 1049) requires the Director of National Drug Control Policy to report within 60 days on past involvement of the Government of Cuba in narcotics trafficking and requires the Comptroller General to report within 180 days on the current involvement of the Government of Cuba in narcotics trafficking.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

COMMEMORATION OF VICTIMS OF TERRORISM

The Senate amendment (sec. 1051) contains congressional findings regarding incidents of terrorism involving Americans and authorizes the President to designate December 21, 1989 as "Terrorist Victims Commemoration Day".

The House bill contains no comparable provision.

The conference substitute deletes the provision.

INTERNATIONAL STRIKE FORCE

The Senate amendment (sec. 1052) expresses the sense of Congress that the President and Secretary of State should call for international negotiations to establish an international strike force to pursue and apprehend drug traffickers and terrorists.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

MULTILATERAL ANTI-NARCOTICS STRIKE FORCE

The Senate amendment (sec. 1053) contains congressional findings regarding a multilateral anti-narcotics strike force and authorizes the reallocation of funds from any U.N. program to establish such a strike force.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SCHOOLS ON THE WEST BANK

The Senate amendment (sec. 1054) commends the decision by the Government of Israel to reopen schools on the West Bank beginning July 22, 1989.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

FORMULATION OF U.S. FOREIGN POLICY

The Senate amendment (sec. 1055) directs the Committee on Foreign Relations of the

Senate, in consultation with the Secretary of State, to issue a report to the Senate on the appropriate relationship between the executive and legislative branches in the formulation of U.S. foreign policy.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

ASSISTANCE FOR CAMBODIA

The Senate amendment (sec. 1056) establishes the policy of the United States to support the Cambodian non-communist resistance in its efforts to establish an independent, democratic coalition government in Cambodia, authorizes the President to make available FMS and ESF assistance to the non-communist resistance forces in fiscal year 1990, and prohibits the obligation or expenditure of funds for the purpose of promoting, sustaining or augmenting the capacity of the Khmer Rouge to conduct military or paramilitary operations in Cambodia or Indochina.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

TREATMENT OF HONG KONG AS A SEPARATE FOREIGN STATE

The Senate amendment (sec. 1057) provides that treatment as a separate foreign state for purposes of numerical limitations on immigration shall be considered to have been granted to Hong Kong effective beginning with fiscal year 1990.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SANCTIONS AGAINST SOUTH AFRICA

The Senate amendment (sec. 1058) contains congressional findings regarding multilateral economic sanctions against South Africa as a way to end apartheid and expresses the sense of Congress that the President should take steps to bring about concerted multilateral pressure on the Government of South Africa to end the practice of apartheid.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SITUATION IN SOUTH AFRICA

The Senate amendment (sec. 1059) contains congressional findings and expresses the sense of Congress regarding the political situation in South Africa and suggests that South African political change is moving in a positive direction to end apartheid and resolve regional problems.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

RECOGNITION OF PANAMANIAN PRESIDENT

The Senate amendment (sec. 1061) contains congressional findings concerning the May Presidential elections in Panama and expresses the sense of the Senate regarding the recognition of Guillermo Endara as President of Panama, the expulsion of Manuel Noriega from Panama, and the assumption of the Presidency by Endara.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

DETECTION OF PLASTIC EXPLOSIVES

The Senate amendment (sec. 1064) contains congressional findings regarding the use of plastic explosives by terrorists and expresses the sense of the Senate that the President should initiate negotiations on an international protocol requiring the placement of taggants in all plastic explosives.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

SOVIET GEORGIA

The Senate amendment (sec. 1065) contains findings regarding the history of Soviet Georgia and expresses the sense of the Senate supporting the aspirations of the Georgian nation for democracy and cultural and human rights.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

PROHIBITION ON CERTAIN TRANSACTIONS BETWEEN THE U.S. AND CUBA

The Senate amendment (sec. 1067) expands the current economic sanctions against Cuba by prohibiting the licensing of certain transactions between the overseas subsidiaries of U.S. companies and Cuba.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

USTR REPRESENTATIVE IN TOKYO

The Senate amendment (sec. 1068) expresses the sense of the Senate that the United States Trade Representative have a representative in the U.S. Embassy in Tokyo.

The House bill contains no comparable provision.

The conference substitute deletes the provision.

From the Committee on Foreign Affairs, for consideration of the entire House bill and the entire Senate amendment, and modifications committed to conference:

DANTE B. FASCELL,
LEE H. HAMILTON,
STEPHEN J. SOLARZ,
HOWARD WOLPE,
GEO. W. CROCKETT, Jr.,
SAM GEJDENSON,
MERVYN M. DYMALLY,
HOWARD L. BERMAN,

As additional conferees from the Committee on Armed Services, for consideration of sections 1016 and 1030 of the Senate amendment, and modifications committed to conference:

PAUL S. SARBANES,
CHRISTOPHER J. DODD,
TERRY SANFORD (except for consideration of section 111),
DANIEL PATRICK MOYNIHAN (for the consideration of section 111, only)
RICHARD G. LUGAR,
NANCY LANDON KASSEBAUM,

Managers on the Part of the Senate.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BURTON of Indiana (at the request of Mr. MICHEL), for today, No-

vember 13, 14, and 15, on account of official business.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mrs. BENTLEY) to revise and extend their remarks and include extraneous material:)

Mrs. BENTLEY, for 60 minutes, on November 13.

Mr. MICHEL, for 5 minutes, today.

Mrs. BENTLEY, for 5 minutes today, in lieu of 60 minutes.

Mr. MCEWEN, for 5 minutes, today.

(The following Members (at the request of Mr. STALLINGS) to revise and extend their remarks and include extraneous material:)

Mr. STAGGERS, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. PANETTA, for 5 minutes today.

Mr. LEVIN, for 60 minutes, on November 13.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mrs. BENTLEY) and to include extraneous matter:)

Mr. CLINGER in two instances.
Mrs. ROUKEMA.
Mr. DONALD E. "BUZ" LUKENS.
Mr. CRANE in three instances.
Mr. SHAYS.
Mrs. ROS-LEHTINEN.
Mr. YOUNG of Alaska.
Mr. SCHUETTE.
Mr. GALLEGLY.
Mr. YOUNG of Florida.
Mr. ROHRABACHER.
Mr. SAXTON.
Mr. MACHTLEY.
Mr. DAVIS.
Mr. HORTON.
Mr. BENTLEY.

ENROLLED BILLS SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that the committee had examined and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 1231. An act to establish a commission to investigate and report respecting the dispute between Eastern Airlines and the collective bargaining units, and for other purposes; and

H.R. 2710. An act to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes.

BILLS PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, bills of the House of the following title:

H.R. 3318. An act to redesignate the Federal building in Houston, TX, known as the Concorde Tower, as the "George Thomas 'Mickey' Leland Federal Building," and

H.R. 3287. An act to waive the period of congressional review for certain District of Columbia acts authorizing the issuance of District of Columbia revenue bonds.

ADJOURNMENT

Mr. DURBIN. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 20 minutes p.m.), under previous order, the House adjourned until Monday, November 13, 1989, at 12 noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2004. A letter from the Secretary, Department of Housing and Urban Development, transmitting a report on security expenditures in public housing, pursuant to 42 U.S.C. 11907 Public Law 100-690, section 5102; to the Committee on Banking, Finance and Urban Affairs.

2005. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting copies of the original reports of political contributions by Anthony Cecil Eden Quainton, of Washington, and Bradley P. Holmes, of Virginia, Ambassadors-designate and members of their families, pursuant to 22 U.S.C. 3944(b)(2); to the Committee on Foreign Affairs.

2006. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting copies of the original report of political contributions by R. James Woolsey, of Maryland, for the rank of Ambassador during his tenure of service as U.S. Representative to the Negotiation on Conventional Armed Forces in Europe [CFE], and members of his family, pursuant to 22 U.S.C. 3944(b)(2); to the Committee on Foreign Affairs.

2007. A letter from the Assistant Secretary of State for Legislative Affairs, transmitting copies of the original report of political contributions by Ruth V. Washington, of New York, Ambassador Extraordinary and Plenipotentiary-designate to the Republic of The Gambia, and members of her family, pursuant to 22 U.S.C. 3944(b)(2); to the Committee on Foreign Affairs.

2008. A letter from the Deputy Associate Director for Collection and Disbursements, Department of the Interior, transmitting notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

2009. A letter from the General Counsel, Department of Commerce, transmitting a draft of proposed legislation to amend section 4(b) of Public Law 97-454 regarding the effective date of that act in order to extend authority of the Secretary of Commerce to conduct the quarterly financial report program; to the Committee on Post Office and Civil Service.

2010. A letter from the Comptroller General, General Accounting Office, transmitting the Federal Financing Bank's financial statements for the year ended September 30, 1988, pursuant to 12 U.S.C. 2293; jointly, to the Committees on Banking, Finance and Urban Affairs; Government Operations; and Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 2809. A bill to provide for the transfer of certain lands to the State of California, and for other purposes; with amendments (Rept. 101-337). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. S. 931. An act to protect a segment of the Genesee River in New York; (Rept. 101-338). Referred to the Committee of the Whole House on the State of the Union.

Mr. UDALL: Committee on Interior and Insular Affairs. S. 974. An act to designate certain lands in the State of Nevada as wilderness, and for other purposes; with amendments (Rept. 101-339, Pt. 1). Ordered to be printed.

Mr. ANDERSON: Committee on Public Works and Transportation. H.R. 2668. A bill to authorize the establishment with the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes; with amendments (Rept. 101-340, Pt. 1). Ordered to be printed.

Mr. MOAKLEY: Committee on Rules. House Resolution 268. Resolution to amend the Rules of the House of Representatives to clarify the right of the Speaker to attend

any meeting and to have access to any information in the possession of the Permanent Select Committee on Intelligence; (Rept. 101-341). Referred to the House Calendar.

Mr. FASCELL: Committee of conference. Conference report on H.R. 1487 (Rept. 101-343). Ordered to be printed.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. FASCELL: Committee on Foreign Affairs. H.R. 3611. A bill to combat international narcotics production and trafficking; referred to the Committee on Banking, Finance and Urban Affairs for a period ending not later than November 13, 1989 for consideration of such provisions of the bill as fall within the jurisdiction of that committee pursuant to clause 1(i), rule X (Rep. 101-342, Pt. 1). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. JENKINS (for himself, Mr. ARCHER, and Mr. FLIPPO):

H.R. 3628. A bill to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes; to the Committee on Ways and Means.

By Mr. SAWYER (for himself and Mr. RIDGE):

H.R. 3629. A bill extending the authority of the Secretary of Commerce to conduct the quarterly financial report program under section 91 of title 13, United States Code, through September 30, 1993; to the Committee on Post Office and Civil Service.

By Mr. DINGELL (for himself, Mr. WAXMAN, Mr. LENT, Mr. SHARP, Mr. MADIGAN, Mr. MARKEY, Mr. MOORHEAD, Mr. WALGREN, Mr. RINALDO, Mrs. COLLINS, Mr. WHITTAKER, Mr. SYNAR, Mr. BLILEY, Mr. WYDEN, Mr. OXLEY, Mr. ECKART, Mr. NIELSON of Utah, Mr. SLATTERY, Mr. BILIRAKIS, Mr. SIKORSKI, Mr. SCHAEFER, Mr. BRYANT, Mr. CALLAHAN, Mr. BATES, Mr. MCMILLAN of North Carolina, Mr. COOPER, Mr. BRUCE, Mr. ROWLAND of Georgia, Mr. MANTON, Mr. TOWNS, Mr. MILLER of California, Mr. STARK, Mrs. MORELLA, and Mr. BOUCHER):

H.R. 3630. A bill to amend the Public Health Service Act with respect to the prevention and treatment of substance abuse, including establishing separate block grants with respect to substance abuse and mental health; to the Committee on Energy and Commerce.

By Mr. FOGLIETTA (for himself, Mr. ACKERMAN, Mr. MARTINEZ, Mr. ATKINS, Mr. AUCOIN, Mr. LEWIS of Georgia, Mr. WEISS, Mrs. BOXER, Mr. ROBINSON, Mr. DWYER of New Jersey, Mr. FALEOMAVAEGA, and Mr. OWENS of Utah):

H.R. 3631. A bill to amend the Internal Revenue Code of 1986 to treat employer subsidies for mass transit as working condition fringe benefits; to the Committee on Ways and Means.

By Mrs. KENNELLY:

H.R. 3632. A bill to amend title XIX of the Social Security Act to improve coverage of nursing facility services under the Medicaid Program and to amend the Internal Revenue Code of 1986 to clarify the tax treatment of long-term care insurance; jointly, to the Committees on Ways and Means and Energy and Commerce.

By Mr. KOSTMAYER:

H.R. 3633. A bill to amend the Land and Water Conservation Fund Act of 1965 to authorize the Secretary of the Interior to study land and water areas on islands and to provide technical assistance to protect the natural, historic, cultural, recreational, and scenic values of islands, and for other purposes; to the Committee on Interior and Insular Affairs.

By Mr. THOMAS A. LUKEN (for himself, Mr. RINALDO, Mr. WHITTAKER, Mr. SMITH of New Jersey, Mr. LENT, Mr. ECKART, Mr. TAUKE, Mr. SLATTERY, Mr. SCHAEFER, Mr. BOUCHER, Mr. CALLAHAN, Mr. MANTON, Mr. MCMILLAN of North Carolina, Mr. SWIFT, Mr. TAUZIN, Mr. SIKORSKI, and Mr. BATES):

H.R. 3634. A bill amending the Hazardous Materials Transportation Act with respect to vehicles used for transportation of food and other items intended for human consumption; jointly, to the Committees on Energy and Commerce and Public Works and Transportation.

By Mr. MARLENEE (for himself, Mr. ROBERT F. SMITH, and Mr. SCHUETTE):

H.R. 3635. A bill directing the Secretary of Agriculture to treat equally all producers of agricultural commodities who replanted a crop following a disaster, and to operate a program for the removal and disposition of wheat and feed grains which have been sprout damaged, and for other purposes; to the Committee on Agriculture.

By Mr. MYERS of Indiana:

H.R. 3636. A bill to amend the Internal Revenue Code of 1986 to require certain information relating to fund raising to be included on returns made by tax-exempt organizations; to the Committee on Ways and Means.

By Mr. PANETTA:

H.R. 3637. A bill to amend the Internal Revenue Code of 1986 to allow the allocation of low income housing credits to buildings for which rehabilitation or construction is delayed due to federally declared disasters; to the Committee on Ways and Means.

H.R. 3638. A bill to amend the Internal Revenue Code of 1986 to allow penalty-free withdrawals from individual retirement plans for the repair of residences to the Committee on Ways and Means.

By Mr. RAHALL:

H.R. 3639. A bill to enhance the effectiveness and efficiency of surveying and mapping activities of the U.S. Geological Survey, and for other purposes; to the Committee on Interior and Insular Affairs.

By Mr. ROGERS (for himself, Mr. BUNNING, Mr. HOPKINS, Mr. NATCHER, Mr. PERKINS and Mr. HUBBARD):

H.R. 3640. A bill to clarify the exempting authority of the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935; to the Committee on Energy and Commerce.

By Mr. SCHUMER (for himself and Mr. GEKAS):

H.R. 3641. A bill to amend title 18, United States Code, with respect to environmental crime; to the Committee on the Judiciary.

By Mr. ASPIN:

H. Con. Res. 225. Concurrent resolution directing the Clerk of the House of Representatives to make technical corrections in the enrollment of the bill H.R. 2461; considered and agreed to.

By Mr. MICHEL:

H. Res. 286. Resolution electing Representative RAVENEL of South Carolina to the Committee on Merchant Marine and Fisheries; considered and agreed to.

By Mr. CARDIN:

H. Res. 287. Resolution returning to the Senate the bill S. 686; considered and agreed to.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. BATEMAN introduced a bill (H.R. 3642) for the relief of Izzydor Shever, which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 41: Mr. SKAGGS.

H.R. 94: Mrs. BOXER, Mr. OBERSTAR, Ms. PELOSI, and Mr. SANGMEISTER.

H.R. 98: Mr. PAYNE of New Jersey, Mr. SMITH of Vermont, Mr. HUNTER, Mr. GARCIA, Mr. DE LA GARZA, Mr. TOWNS, Mr. CONYERS, Mr. MORRISON of Washington, Mr. PETRI, Mr. ORTIZ, Mr. RANGEL, Mr. TAUKE, Mr. NIELSON of Utah, Mr. PORTER, Mr. LANTOS, Mr. HENRY, Mrs. BENTLEY, Mr. WOLPE, Mr. STOKES, Mr. ACKERMAN, Ms. PELOSI, Mr. OWENS of New York, Mr. OWENS of Utah, Mr. GRAY, Mr. DORNAN of California, Mr. MANTON, Mr. TORRES, Mr. WOLF, Mr. SIKORSKI, Mr. ROYBAL, Mr. FROST, Mr. ROE, Mr. KOSTMAYER, Mr. KASICH, Mr. DWYER of New Jersey, Mr. HYDE, Mr. BILBRAY, Mr. MCCLOSKEY, Mr. WALSH, Mr. BOEHLERT, Mr. MILLER of Washington, Mr. MORRISON of Connecticut, Mr. CAMPBELL of California, Mr. DOWNEY, Mr. ARMEY, Mr. BATES, Mr. SISISKY, Mr. QUILLEN, Mr. DELAY, Mr. YOUNG of Florida, Mr. FUSTER, Mr. CLARKE, Mr. ANDERSON, Mr. EDWARDS of Oklahoma, Mr. LEWIS of Georgia, Mr. HANSEN, Ms. SLAUGHTER of New York, Mr. BILIRAKIS, Mr. MURTHA, Mr. FAUNTROY, Mr. DONALD E. LUKENS, Mr. BUSTAMANTE, Mr. DARDEN, Mr. HUGHES, Mr. BROOMFIELD, Mr. RAHALL, Mr. STALLINGS, Mr. TRAFICANT, Mr. LIPINSKI, Mr. TANNER, Mr. HUBBARD, Mr. RIDGE, and Mr. DREIER of California.

H.R. 145: Mr. DICKS and Mr. SPRATT.

H.R. 509: Mr. ATKINS, Mrs. BYRON, Mr. DICKINSON, Mr. HUCKABY, Mr. LIGHTFOOT, Mr. LIPINSKI, Mr. NIELSON of Utah, and Mr. QUILLEN.

H.R. 586: Mr. SKAGGS and Mr. STOKES.

H.R. 645: Mr. DYSON.

H.R. 780: Mr. DWYER of New Jersey and Mr. WALGREN.

H.R. 963: Mr. RANGEL.

H.R. 1007: Mr. WISE.

H.R. 1011: Mr. WISE.

H.R. 1069: Mr. HOCHBRUECKNER.

H.R. 1083: Mr. PICKLE, Mr. YATES, Mr. TRAXLER, Mr. FASCELL, Mr. PACKARD, Mr. BLAZ, Mr. JENKINS, Mr. HARRIS, Mr. RUSSO, Mr. ROBERTS, Mr. MAVROULES, Mr. SCHIFF, Mr. VISCLOSKY, Mr. FEIGHAN, and Mr. GEREN.

H.R. 1136: Mr. MARTIN of New York, Mr. SLAUGHTER of Virginia, Mrs. ROUKEMA, Mr. HUGHES, Mr. THOMAS of California, Mr. THOMAS of Wyoming, and Mr. MADIGAN.

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 2273: Mr. ROBINSON.

EXTENSIONS OF REMARKS

PHILOSOPHY OF TEACHING

HON. JOHN M. SPRATT, JR.

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SPRATT. Mr. Speaker, I rise today to call attention to Rita Kay Beard, an outstanding teacher at Hillcrest High School in Dalzell, SC, who was recently selected National Teacher of the Year by IBM.

"Teaching is a calling, not a job," Rita Beard has said. "It is a noble profession. To give it our best demands a positive attitude toward students, parents, administrators, the community, and our positions. No paycheck will equal the 'extra' pay that comes when graduates call, write, or drop by to say thanks for something we did to smooth their paths. Granted they may be few and far between, but one student saved from failure makes it all worthwhile."

That, in sum, is Rita Beard's philosophy as a teacher. And this philosophy led to her selection as National Teacher of the Year by IBM and Classroom Computer Learning magazine. The competition was designed to recognize teachers in grades kindergarten through high school who use computers to improve the quality of education for their students. Rita Beard was nominated by the superintendent of her school district, Dr. Elijah S. McCants, and selected from among 500 entrants in the contest. As the winner, Rita Beard won for her school a lab of IBM computers, software, and printers.

I could speak at length about Rita Beard and the outstanding contributions she has made. But I think the best way to present her is through her own words.

Mr. Speaker, I am proud to submit for the RECORD the words of Rita Beard, as offered in her application for the National Teacher of the Year Award she has won.

PHILOSOPHY OF TEACHING

John F. Kennedy delivered a prophetic statement: "We must educate people today for a future in which the choices to be faced cannot be anticipated by the wisest among us." We must educate students today in such a way that will enable them to function in tomorrow's world. We must provide for the development of knowledge and skills that will permit students, regardless of professional or vocational goals in life, to participate intelligently in society.

One of education's prime responsibilities is to bring relevancy into learning programs. We must strive to provide challenges and successes for each individual student entrusted to us. We realize the American society is an ever-changing society and we must keep abreast of these changes. Therefore, we must constantly evaluate developments in our disciplines and must systematically read literature relative to our teaching field.

"You can lead a horse to water, but you can't make him drink," says the old adage. A student will learn only that which he has a desire to learn. In education, motivation is the desire to learn. As teachers, we should see that each individual student goes about his learning process possessing the highest possible degree of motivation.

The student's motivation is directly related to the teacher's success in making learning meaningful and interesting. Enthusiasm generates interest. The personality of the teacher has an effect on the motivation of students. Students become interested when the teacher exhibits enthusiasm for the subject. Teachers should make every lesson an exciting experience for the students and for the teacher. Enthusiasm is contagious—it spreads directly from the teacher, to the student, to the subject matter. Extreme care should be given in the planning for all classroom and class-related activities to take advantage of every opportunity to motivate each student to achieve.

Teachers should be positive role models for their students by advising student activities and attending school-related programs. The purpose of the school is to guide growth in knowledge, skills, habits, and attitudes which will enable students to live more effectively in the present as well as in the future. Extracurricular activities make a significant contribution to student growth. An adviser becomes part of student life. By participating in these activities the teacher is given the opportunity to talk with students and parents in an informal atmosphere. Students show more respect for teachers who support all phases of the school program.

In dealing with students in the classroom, the teacher must deal with attitudes—attitudes about self, others, and goals. He must set realistic goals of what he wants to do for his students. He also helps students set goals for themselves. He should take time at the beginning of each course to get to know the students—relate to them and their individual needs. Meeting each student's needs is the greatest challenge in teaching. They are all so different. The teacher must take notice of individual needs to help each student become the very best he or she is capable of becoming.

Teaching is a calling, not a job. It is a noble profession. To give it our best demands a positive attitude toward students, parents, administrators, the community, and our positions. No paycheck will equal the "extra" pay that comes when graduates call, write, or drop by to say thanks for something we did to smooth their paths. Granted they may be few and far between, but one student saved from failure makes it all worthwhile.

Teachers should instill in their students the belief that they can succeed if they learn the basic course principles, if they believe in the worth, and if they are willing to work hard and take risks.

EDUCATION ISSUES AND TRENDS

Education issues and trends of today include: teacher accountability, improving basic skills and standardized test scores, student and community apathy, cooperative learning, and choice in education. One of the most crucial issues, however, is the public's perception of education.

In an episode of a school-related television series, the principal made an interesting comment. He said that when he went to school, teachers worried about students chewing gum, talking in class, and failing to do their homework. Today, teachers deal with narcotics, weapons, violence, and teenage pregnancies. These problems vividly indicate some of the changes which have occurred in schools in the past few years.

Two other television series portrayed schools in which the schools struggle with the effects of broken homes, personality disorders, sexual permissiveness, abortions, and sex education. It was indeed rare to see a normal student in a normal learning situation.

In addition to television, newspapers and other news media constantly focus on the negative aspects of the school, particularly when there has been an incident which can be blown out of proportion. Whether it is a violent incident, or school district administrative problems, the media is always ready to report, react, and sometimes exaggerate.

All of the ills and problems of society have reached the schools. The expectation is that somehow schools should be able to solve them and at the same time educate the children; but, who is to blame?

We live in a world of misplaced values. We need to remember that values are instilled at home, by the parents. Parents need to become more involved in their child's education. Their involvement will determine how their child does in school. They need to be at home more for their child, set rules, and set a limit to the number of hours their child can work per week. They need to get involved with their child's education by attending school meetings, programs, and activities. Too many of our young people get little encouragement from their parents to excel in school.

The minimum-wage job is killing education. Students are working too many hours and not spending enough time doing their homework. They arrange their schoolwork around their work schedule. They don't have the time to do their homework or they don't have the discipline to make themselves do it. Our world is getting too advanced for our young people not to get an education.

As teachers we need to constantly strive to be an example by our own values and give strong values to our students. We need to help the students see the possibilities for themselves. We need to be a positive influence and a friend to them. We must encourage parents to participate in school activities. We must build quality relationships with our students. We must love them, nurture them, support them, be proud of them, and teach them all we can. As teachers we need to sell ourselves to the public by making the public aware of the consequences of a good educational system and one that comes from one under stress.

It is time that we join hands with the school district, the community, the state, the parents, and students. We must make sure that we are providing the best educa-

tion possible for our young people. After all, our future is in their hands.

PERSONAL TEACHING STYLE

Teaching style plays a major role in determining the student's level of motivation. It affects classroom discipline and the level of communication between students and teacher.

My classroom activities are designed to build on individual student interests, strengths, needs, and desires. Students are encouraged to assist in selecting projects and other class activities. Being involved provides more effective motivation.

Highly motivated students use time more effectively. An important factor in maintaining high motivation is the use of a wide variety of teaching methods from day to day and within each class period. Boredom reduces time on task, and therefore reduces learning. Methods that work for me include: student/teacher demonstration, role playing, problem solving simulations, gaming strategies of all kinds, overheads and other audiovisual materials, small group and individualized work, brainstorming, questioning techniques, panel discussions, resource speakers, and microcomputers.

My classes are organized so that a variety of activities can be conducted at the same time. By permitting small groups to work on different activities, the individual student needs and interests are being met.

I integrate FBLA (Future Business Leaders of America) and class activities with other course work in English, history, and math classes by giving teachers a listing of free enterprise teaching activities to be used in their classes. I have conducted computer in-services to enable teachers in other departments to utilize computers in their classes.

I make sure that my curriculum challenges all the students in the class regardless of their ability. I want all of my students to succeed.

The Teaching Profession: (a) Would you recommend that your most capable students enter the teaching profession?

I would recommend that my most capable students enter the teaching profession. Teaching has been a very rewarding career for me for the last 10 years even though it has not been easy being a teacher. Teaching is much harder and more time consuming than I expected. Teaching takes a lot of hard work, patience, strength, perseverance, and overcoming of frustrations.

If we are to attract our brightest students and equip them for a teaching career to ensure that tomorrow's youth is well taught, we must serve as a role model for our future teachers. We can do much to enhance the image of our profession, encourage our capable students to enter the profession, and give them the tools they will need to succeed. Here are several tips I would give my students to help them make that most important decision.

Be competent. There is no substitute for competence. An effective teacher never stops learning. It is important to keep current in one's subject area by attending conferences, joining professional organizations, and taking classes. Show enthusiasm for your subject. You will have much competition for your students' attention. If you aren't excited about your subject, your students won't be. Develop effective rapport with your students. Your international skills with students will be remembered by more students and for longer than anything else you do or say. Respect and treat each student as an individual. Care about each student and show a genuine interest in the student as a person worthy of your time and attention. Enlist the help of parents. Most parents hear from teachers only when something has gone wrong. When something goes right, let the parents know. It will buy you a world of support.

The Teaching Profession: (b) What would you do to assist teachers in becoming exemplary?

A teacher has to have the capabilities of becoming exemplary. He must take a long look at himself, recognize his weaknesses and set out to improve them.

An exemplary teacher will show a willingness to accept leadership roles in the department and school. He will work with teachers in his department and school to provide the best curriculum of courses and programs to assure that students are getting the best education. He keeps professional ethics at a high priority, never undermining the school or the school system. He recognizes and compliments his peers.

In his strive for excellence, the exemplary teacher will develop professional relationships with teachers, administrators, and parents. He takes an active role in his professional organizations. This participation keeps him abreast of current trends and new teaching techniques in his area. Through association with colleagues at professional meetings, he will pick up new and practical ideas for the classroom.

An exemplary teacher establishes a good working relationship with his state department. State department personnel can be a tremendous help to the teacher in many ways. Help is available through them for professional growth such as grants, interns, and research opportunities, plus special teaching ideas for the classroom.

To be exemplary, the teacher must be an ambassador of education in the community where he teaches. The teacher serves as a model of the school system for the public in the broadest sense. He needs to cultivate and maintain amicable and harmonious relationships with all persons involved in the education process.

The Teaching Profession: (c) To what extent do you think teachers should be accountable for the outcomes of their students?

Teachers should feel that they are responsible for a trust. Our teaching will affect the future of each student who enters our classroom in some way. This result of teaching is a tremendous trust that is being placed on the shoulders of our profession. Does the placement of this trust actually indicate that teachers should be held accountable or is it simply saying that someone must be held accountable for the results of education?

In the process of improving education, not one single group should be held accountable, but rather all who are concerned with the educational system must become involved and be at least partially accountable. This includes students, teachers, administrators, school board members, parents, and the local community. We are each accountable to society and to ourselves. We should be capable of justifying our performance if called upon to do so. Our performance should be based upon sound educational principles. Each of us is accountable to all others and the responsibility should be shared by all.

Accountability has some consequences both good and bad. It might require that we reevaluate our objectives and how they are achieved. It might require teachers to work harder or be relieved of their duties. It might force us to make changes in our methods of evaluation.

There are many questions to be answered before any determination of "how accountable" can be made. Teachers must be sure they are not leaving out the broad education of their students by substituting only that which can be easily measured. We must not only teach facts. We must not destroy the desired end product of our educational system, a student who can both think and perform intelligently.

National Teacher of the Year: What would be your message to America?

A more competent and productive workforce is needed to keep our nation competitive with other countries. The ability to work together using new technologies will ensure our country's success in the global economy.

America needs an education system that does the job of preparing students to meet the demands of the job market. To cultivate such a system, we must specify the literacy and technological literacy skills that will be needed for competent performance in the workplace.

High school graduates are being called upon to have computer skills as they leave school, whether they go on to college or directly into the job market. Businesses are searching for talented and skilled computer-literate workers to lead them into the 21st century and the information age. What these two facts suggest is that computer education should be one of the highest priorities for schools now and in the future. Computer use should be integrated into all areas of the curriculum so that the students can learn to use technology in as many situations as possible.

The integration and implementation of computer technology in the classrooms is needed in education today, more than ever before. As teachers, our task is to prepare our students for the world of work and to do that we must stay abreast of the changes in society that are being driven by technology.

The impact of computers on society and education will largely be dependent on the effectiveness of our battle for men's minds. It is the teachers who play the key role in motivating and leading students. A rededicated commitment to encouraging students to maximize their talents will pay high dividends. Minimum competency, academic excellence, and intellectual development must be the central roles of education. Teachers' effectiveness will be enhanced by computers to give more time for individual attention, support, challenge, and leadership. The result is a more productive, competitive America with the opportunity for more meaningful jobs and lives.

PETER SECCHIA, UNITED STATES AMBASSADOR TO ITALY

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. TORRICELLI. Mr. Speaker, I am inserting in the RECORD an article concerning Peter Secchia, the new United States Ambassador to Italy:

SECCHIA ENJOYS AMBASSADORSHIP, BUT WARY OF MEDIA

(By John Flesher)

WASHINGTON.—The broad grin, booming voice and forceful presence were still there as the Michigan businessman-turned-diplomat strode down the hall at the Washington Hilton.

"Hi, I'm Pete Secchia," he said, shaking the hand of a man he'd never met as though they were lifelong friends.

Within minutes, the U.S. ambassador to Italy had found the National Italian-American Foundation seminar on international trade. He mingled easily with the crowd, laughing, slapping backs, making introductions. Later he delivered a speech on U.S.-Italian trade relations before dashing to the State Department for a meeting. He had returned to Washington for Italian President Francesco Cossiga's mid-October state visit.

Three months after winning a bruising battle for Senate confirmation, Secchia is enjoying his new job. He's apparently a hit in Italy, where newspapers that complained about "the ambassador of dirty words" before his arrival have labeled him "simpatico" (likeable) and "Il Cugino Peter" (Cousin Peter).

And thus far, he's avoided the foot-in-the-mouth remarks that got him in trouble back home, delaying his confirmation and leading Senate Foreign Relations Committee chairman Claiborne Pell to call Secchia "an embarrassment to the United States."

The lone flap involving him came during his first week on the job, when leftists attacked Secchia for reiterating longstanding U.S. opposition to communist participation in the Italian government.

"The critics were wrong," said Richard Gardner, a Columbia University professor of international law who was ambassador to Italy during the Carter administration.

Gardner, a Democrat, said he sounded out Italian political and government leaders during a recent visit to Italy and during Cossiga's U.S. tour. "They were genuinely pleased with Secchia," he said. "He's a hard worker and a hell of a nice guy."

Representative Paul Henry, a Republican whose district includes Secchia's hometown of Grand Rapids, said Italians like his outgoing style. "He's gone out to small towns to dedicate buildings, he goes to trade fairs," Henry said. "He's no behind-the-walls ambassador."

A Capitol Hill source, speaking on condition of anonymity, said the only complaint making the rounds about Secchia is his lack of fluent Italian. Secchia says he's making progress toward mastering the language.

Secchia, 52, is a second-generation Italian-American who built a $400-million lumber and restaurant conglomerate in Grand Rapids. A longtime Republican Party activist and ally of Gerald Ford, he played a key role in George Bush's 1988 presidential campaign.

His salty language and rough-and-tumble brand of politicking were no secret in Michigan when Bush nominated Secchia for Italian ambassador. But his friends complain that his good qualities—generosity, strong leadership, good husband and father of four were overlooked in the harsh glare of the national spotlight.

"Everybody tolerated the loose lips (in Michigan) because he was such a great community leader and family man," Henry said. But on Capitol Hill, "it was like he had 51 aces and one queen of spades and they picked on the spade."

For his part, Secchia says he's still the same person he was before the criticism. But he is clearly bitter about how he was treated and he holds the Washington media in contempt.

"The Italian press calls me 'ambassador of friendship,' they say 'he's our kind of guy,' but that doesn't get printed over here," he said in an interview en route to the State Department. "The American press doesn't care, they really don't care."

Secchia said he often considered withdrawing from consideration for the ambassadorship. "Look, I've been married to the same woman for 25 years, I've got four kids. I didn't need all those hits," he said.

"I've done a good job at everything I've ever done. Talk to anybody who worked for me or with me on any of my projects and they'll say the same thing. * * * Those news articles were created to cause me trouble, and they did. But they didn't deter me, they didn't stop me, so they failed."

ECONOMICS AND THE MINIMUM WAGE

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. CRANE. Mr. Speaker, over the last few months Congress has been debating the merits of a higher minimum wage. Those of us who oppose raising the minimum wage have continued to make the point that the price we as a nation will pay for an increase will be fewer jobs for unskilled or part-time workers. Common sense and basic economics tells us that this assumption is correct—the more you have to pay for something the less you are going to use it. An article that appeared in the New American of September 25, 1989, exposes the serious flaws in the arguments employed by proponents of minimum wage increases, and leads one to wonder whether these self-proclaimed champions of lower income working Americans are really champions or something quite the opposite.

[From the New American, Sept. 25, 1989]

BETTER OFF UNEMPLOYED?

(By Roger Koopman)

I can think of no single measure that does more mischief to an otherwise expanding economy and job market than a minimum wage law. Minimum wage statutes defy all logic and violate the most basic laws of economics. They are predicated on the dual assumption (1) that employers were put to earth to exploit workers, and (2) that wages will rise only through government coercion. In fact, the only time that "exploitation" exists on either side of a voluntary employment relationship is when government intervention distorts that relationship with politically-imposed requirements on one party or the other.

Furthermore, real wages always increase in direct proportion to the degree of economic freedom that is allowed to exist. Invariably, wages rise faster when allowed to reflect true market conditions of labor productivity, supply, and demand than when they are set artificially by legislative fiat.

Let's first consider the exploitation argument, for this is central to the minimum wage rationale. The thinking goes something like this: Since employers will naturally try to keep their labor costs down during the hiring process (generally a true statement), therefore workers are at the mercy of greedy, exploitive businessmen who force them to accept "unfair wages" and to work for less than what they are worth (a totally false conclusion).

The operative question is: What is a "fair wage?" By definition, it is a freely arrived-at wage, i.e., one which the employer is willing to pay and the employee is willing to accept. It is no more "exploitive" for an employer to negotiate the lowest acceptable wage than it is for the employee to negotiate for the highest acceptable wage. Neither person is forced to accept the other's offer. Indeed, the employer will quickly discover that if his wage offering is too low he will find no takers. His competitors, by bidding more, will establish the free market wage level, will attract the most qualified workers, and will prosper.

HOW ABOUT A MAXIMUM WAGE?

The idea of a minimum wage law to "protect" labor from wages that are too low is no more moral or rational than the idea of a maximum wage law to protect business from wages that are too high. In both cases, the "logic" is the same—that government should intrude on our economic relationships and set fixed standards that apply to all people under all circumstances.

Under the present state of American politics, it is the average wageearner who is regarded as downtrodden and in need of protection. No one worries about what the business person or the independent contractor is earning in the face of market competition that reduces his income. No one has suggested that we pass "minimum profit laws." And yet, government-guaranteed minimum wages and minimum profits are just opposite sides of the very same coin. The principles are identical.

To arrive at the minimum wage mentality requires that one view all people as being part of homogeneous interest groups—never as individuals with diversified interests, capable of acting in their own interests. Call it "paternalism," call it "collectivism," call it whatever you wish—this kind of thinking is inimical to a free society.

But what of the minimum wage advocates' other claim—that wages only rise when mandated by government? Let's examine the facts, my hometown job market being a good example. When the $3.35-per-hour federal minimum was first imposed in 1981, the majority of jobs our employment agency handled were at or near that level. The typical office job, for instance, paid $600 a month: $750 was exceptional. Today, the average office job pays $800-850 per month, and salaries of $1,200 or more are not uncommon. These increases came about naturally, through the marketplace, without any change in the minimum wage. On the national level, the trend has been exactly the same, where only about one-third as many minimum wage jobs exist today as were around in 1981.

FIRST RUNG OF THE LADDER

Minimum wage proponents would quickly point out that there are still people working for $3.35 an hour today—which, adjusted for inflation, is a lower real wage than the 1981 minimum. Obviously, that's true. But therein lies the lesson: In almost every case, these marginal workers, employed at $3.35 an hour in 1989, would have been unemployed in 1981. Who are we to say that they are wrong to work at this wage—that they are better off unemployed?

Indeed, an argument can be made that the $3.35-per-hour job is more important to our economy and to the work force than the $10- or $20-per-hour position. This is because the $3.35-per-hour job represents growth that extends down to those people who, more than anything, need a chance to get their foot on the first rung of the economic ladder—at whatever wage they are worth.

What's important is not the beginning wage, but the beginning. Some will say that $3.35 an hour (or less) is not a "dignified" wage, that people would find more dignity drawing welfare or unemployment benefits. These folks have a right to their opinions, of course, and will never be compelled to accept these wages for themselves. But do they have a right to bind their opinions on others who are out of work or would be thrown out of work by an increase in the minimum wage? In a free society, doesn't each worker have a moral right to decide for himself?

VETERANS DAY HONORS THE BRAVE MEN AND WOMEN WHO FOUGHT TO PROTECT OUR FREEDOMS

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. MORELLA. Mr. Speaker, at 11 a.m. November 11, 1918, an armistice was signed in a railroad car outside of Paris ending the fighting of World War I. This armistice served to protect democracy and freedom in the world and restored the blessings of peace once again to our country.

However, in the 71 years since that blustery European morning which concluded the "war to end all wars," much has changed in the world, and much will continue to change. The United States has had to repeatedly act to preserve our rights and our freedoms in battle. Nevertheless, democracy has been, and currently continues to be, valiantly and courageously protected.

We observe Veterans Day for the many proud American men and women who have served, and are serving, our country to ensure that you and I can speak freely, that we can voice our opposition, to and support of, our Government, and that we continue to possess other rights and privileges which we sometimes take for granted. Veterans Days is for those who fought fiercely on behalf of freedom and justice throughout the world, and then came home to us. Veterans Day is for those, many of them our children, who are presently serving this country abroad and at home. And Veterans Day is especially for those brave men and women who died in battle so that we could live free of tyranny and oppression. Veterans Day never lets us forget that our fellow Americans have not died in vain.

This weekend, in Montgomery County, MD, a number of Veterans Day commemorations will be conducted. There will be ceremonies in Bethesda, at the Woodmont Triangle; in Takoma Park; and in Wheaton, among others. In Wheaton, 4 of the more than 25 million men and women who served in the U.S. Armed Forces during the 4 wars of the 20th century will be guest speakers at the annual Veterans Day ceremony.

Nathan D. Golden, a much-decorated veteran and current resident of the Washington Veteran's Affairs Medical Center nursing home, will speak for those who fought in France in World War I. Representing veterans of World War II will be Cyril J. O'Brien, a Marine Corps infantryman with the Third Marine Division in Bougainville, and a combat correspondent in the battles at Guam and Iwo Jima. My husband, Tony Morella, who was an Air Force captain from 1951 to 1954, will speak for those who served during the Korean war. Carl J. Warren, a recipient of two Purple Hearts for wounds received in action and a recipient of the Silver Star Medal for heroism as a Navy medical corpsman attached to the Third Marine Division, will speak on behalf of those who fought in the Vietnam war.

The Wheaton ceremony will be hosted by Silver Spring Memorial Post No. 2562 of the Veterans of Foreign Wars and its neighbor, Wheaton American Legion Post No. 268. Other groups of veterans in the suburban Maryland area, including the Ernie Pyle Chapter of the Disabled American Veterans, will also be participating.

I am proud to take this opportunity to salute our Nation's veterans for their contributions to the cause of peace and freedom. I know my colleagues will join me this weekend in extending our gratitude and appreciation to our Nation's veterans.

CONGRATULATIONS TO REV. RICHARD H. PURYEAR

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. TORRICELLI. Mr. Speaker, it is with great respect and admiration that I address my colleagues in the House today, for I rise to extend my heartiest congratulations and warmest best wishes to Rev. Richard H. Puryear.

Reverend Puryear was licensed to preach in 1947 and has been in the ministry for 42 years. In 1952, Reverend Puryear founded and organized the Mount Lebanon Baptist Church in Peeksville, NY. He served as pastor of the New Hope Baptist Church in Hackensack, NJ from 1962 to 1969 before founding the Trinity Baptist Church where he has served as pastor for the last 20 years. Pastor Puryear is the eldest clergyman in the city of Hackensack and he is beloved and respected by all his colleagues as well as the citizens of Hackensack.

As Hackensack's senior pastor, Reverend Puryear is involved in numerous religious and community organizations. He currently serves as vice president at-large of the Hampton Ministers Conference, Hampton University, Hampton, VA; member of the community development and reinvestment advisory committee of the Midlantic/North Bank, West Paterson, NJ; member of the board of trustees of the Johnson Free Public Library, Hackensack, NJ; member, advisory board of the Garden State Chorale Chapter, Hackensack, NJ; past president of the Bergen County Fellowship of Black Churches; past president of Hackensack Clergy Association; honorary past master of the Mount Zion Lodge No. 50, Hackensack, NJ.

Pastor Puryear has been noted and awarded for his meritorious outstanding leadership in religion by the National Council of Negro Women, Inc.; the National Association of Business and Professional Negro Women, Inc.; and the Bergen-Passaic Ministerial Alliance of New Jersey as well as the Hampton Minister's Conference, for longevity of service.

Rev. Richard H. Puryear has been married to Mamie Bolden Puryear for the past 48 years. They have three children, Beverly Cheryl, Richard, Jr., and Deborah Anne. Reverend and Mrs. Puryear share five grandchildren, Lori, Brian, Stephanie, Ashley, and Lauren, and one great-grandson, J. Chandler.

Reverend Puryear has dedicated himself to his community and has achieved a distinguished record of service and leadership. I know he will continue to respond to the needs of others and extend his talent and support, energy, and enthusiasm to Trinity Baptist Church.

Mr. Speaker I am proud to join in paying tribute to this exceptional man and his efforts and offer my best wishes for continued success.

THE LONG OVERDUE HONOR FOR VETERANS OF WORLD WAR I

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. YOUNG of Florida. Mr. Speaker, This weekend our Nation celebrates Veterans Day to honor those Americans who have come to the defense of our Nation in its time of need. This national holiday was established on November 11 to commemorate the signing of the armistice that ended World War I.

Unfortunately, 71 years after the official end to that conflict, the veterans of World War I still have never been adequately compensated for their service to protect our sacred freedom. Instead, they have been lost in the transition between the comprehensive educational and medical benefits our Nation affords those who have served since World War II and the special service pensions Congress established for veterans from the American Revolution to the Spanish-American War.

When I first introduced legislation to grant the veterans of "The War To End All Wars" a pension in 1971, there were more than 1.4 million of these veterans living in the United States. Sadly, today they number less than 100,000 and with an average age of 94, time for them is quickly running out. If we are to correct this injustice, we must act now.

Legislation I have again cosponsored will rectify this situation. H.R. 1918, the World War I Service Pension Act of 1989, would finally provide a $150 per month pension to these veterans and $100 for surviving spouses. This modest amount would make a significant dif-

ference to the lives of these forgotten doughboys, marines, and sailors by bringing their benefits in line with those veterans of other wars and by letting them know that we remember their service in preserving our liberty.

As we remember our veterans and the end of the Great War this Saturday, let us also finally remember our oldest veterans and their widows. Seventy-one years later, it is time for us to fulfill our obligation to World War I veterans and grant them their rightful pension.

TRIBUTE TO DR. GEORGE P. EVANS

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. CLINGER. Mr. Speaker, it is with great pride and admiration that I rise today to salute an outstanding individual from Bradford, PA—McKean County—located in my 23d Congressional District. I am speaking of Dr. George P. Evans, faculty adviser of the Bona Venture newspaper at St. Bonaventure University. Dr. Evans has been selected as the 1989 national recipient of the Distinguished Advisor Award for all 4-year colleges and universities. This award is sponsored by College Media Advisors [CMA].

Dr. Evans' selection was based upon numerous recommendations submitted by University administrators, faculty, students, and alumni and judged by an independent selection committee of CMA.

Dr. Evans is an associate professor of mass communications at St. Bonaventure, and is also a former department chairman. He has also been the recipient of fellowships since 1984 from the American Press Institute in Reston, VA, the Poynter Institute for Media Studies in St. Petersburg, FL, and the Gannett Center for Media Studies in New York City.

I would like to acknowledge Dr. Evans' outstanding work with the Bona Venture, in particular his maintenance of responsible and accountable press freedom. His perpetuation of student staffs over the years has produced many award-winning editions. He was cited for "perpetuation of a repertorially sound and financially solvent publication in each of his twenty-one years as advisor."

Dr. Evans has devoted many exceptional years to the educational system. He is on the council of judges for the Columbia Scholastic Press Association and the board of judges for the Associated Collegiate Press and National Scholastic Press Association.

Dr. Evans has been a frequent speaker at press conventions and conferences, including those at Columbia University in New York City. On November 10 of this year he will be a featured speaker at the Pennsylvania Scholastic Press Association's convention in Harrisburg.

The Distinguished Advisor Award from the CMA, which is its highest award for an advisor, will be presented at the groups' annual convention in New Orleans, on November 19, 1989.

Mr. Speaker, individuals like Dr. Evans are an asset to society. On behalf of the 23d Congressional District of Pennsylvania, I would like to congratulate Dr. Evans on his outstanding accomplishments and wish him continued success.

AMERICA WITHOUT RESOURCES—A SECOND RATE POWER FOR THE CENTURY OF THE PACIFIC

HON. DON YOUNG

OF ALASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. YOUNG of Alaska. Mr. Speaker, as we reach the beginning of the last decade of the American century, many are saying that the 21st will be the century of the Pacific. This is predicated upon the assumption that the United States is becoming a second rate power.

It's no wonder, given this Congress' approach to locking up lands and resources so they will never be used. We now have hundreds of millions of acres off limits to any reasonable use.

We import coal. We import oil. We import gas. We import minerals. We import lumber. We import electricity. We import everything. We produce less and less. Instead, we make playgrounds for the rich—parks and wilderness.

This is not the country that pulled Europe's bacon out of the fire during World War II. This is a country grown soft and stupid. There isn't a country in the world doing what we do. Maybe that's why none is slipping as fast as we are.

If we don't have the will to develop our own resources, maybe we should sell our country to the Japanese; at least they'll put us to work on the land. They would never waste God's bounty, as this Congress does.

I include an article written by Mr. Dave Brown, of the U.S. Bureau of Mines, to educate Members about where things come from.

[From the Juneau Empire, Sept. 15, 1989]

MINERALS AND THE ENVIRONMENT: WE DON'T HAVE TO CHOOSE BETWEEN THEM

(By David S. Brown)

What troubles me so often about debates over the environment, which I have heard since I entered government in the late 1960s, is that the issues are so often presented as a false dilemma—the either-or fallacy in logic. The either-or fallacy allows only two possible choices: Either protect the environment or exploit it. In reality, however, there may be a few more options. The diverse, often competing, values that the Earth offers require us to weigh and balance those options through a range of policy options. A quality environment and economic growth and opportunity are not mutually exclusive.

First, let me acknowledge that I support a set of resource values recognized in U.S. laws and deemed important down through history for the success of free, progressive, and secure societies: the importance of access to raw materials. Increasingly, however, mineral raw materials have been viewed at best as not particularly relevant to a sophisticated, technological society, and at worst monstrously destructive of our natural environment. Both perceptions, in my judgment, are wrong.

I start from a very simple premise: Everything is made from something—either renewable or nonrenewable resources. So the substance of things, if you will, and where and how we obtain this is of vital importance and concern. Mineral elements, whether common or exotic, are essential societal building blocks.

You can think of national economies as great pyramids with service and commercial sectors at the top, followed by light, then heavy industries. At the base are agriculture, energy and raw materials. These base industries historically have been singled out for special emphasis and treatment by governments because they create wealth. In 1988, the value of materials produced from raw nonfuel minerals mined in the United States was $300 billion. Dependable, reasonably priced food, energy, and minerals have determined the growth of nations and the course of history. They determine whether a superpower, for example, will have maximum options to protect its security and interests when they are challenged or threatened in the world.

Once, Americans better understood the dependence on the Earth to supply our basic needs. Yet, we now seem to have forgotten that umbilical-like connection to our natural resource base and the need to properly conserve, develop and manage it for today and future generations. Other nations seem not so jaded. The Canadians, the Australians and the Chinese, among others, are committed to the orderly inventorying and use of their mineral storehouses. Certainly, Third World development is inextricably linked to natural resources. Minerals are key to laying the economic infrastructure in much of the Third World. Third World nations understand this completely.

To most Americans, on the other hand, electricity comes from a wall socket, gasoline from a pump and chrome from Detroit. Yet, each American will use 40,000 pounds (lb.) of new materials each year. A new-born citizen in his lifetime will use, among other things: 91,000 lbs. of iron and steel; 795 lbs. of lead; 757 lbs. of zinc; 1,500 lbs. of copper; 3,593 lbs. of aluminum; 360,500 lbs. of coal.

More than 1.1 million lbs. of sand, gravel, stone, clay and cement.

We tend not to sense minerals in our lives because their identities are commonly hidden in the finished product. Yet, what we take for granted comes to us by farsighted planning, exploration, often risky investments and the commercial development of the Earth's diverse mineral endowment.

THE ECONOMY'S MINERAL BASE

Mining may not be the dominant industry it once was in this country, but it is not a relic of the past. Nor can we allow it to become a relic. America's future must be more than Americans selling each other insurance policies, cutting each other's hair and playing with Japanese lap computers. Today's knowledge-information-service-oriented economy rests on a sound, viable minerals base. For example:

When we work at our computers, we are using beryllium, gallium, germanium, lithium, platinum-group elements, quartz crystals, rare-earth minerals, rhenium, selenium, silicon, strontium, tantalum and yttrium.

The aircraft that flies you to business or vacation destinations is made of chromium, titanium, cobalt, manganese, nickel and tantalum.

The list is endless. Energy industries require 29 different nonfuel minerals to har-

ness and deliver the energy they use. Our telephones use 42 different minerals. The electronic industry uses 85 elements. Surgical tools and artificial organs require high-tech metals.

Whether high tech or soft tech, we need minerals, and these minerals need to be found, mined, concentrated, smelted, refined, and made into useful products for consumer and industry. And the matter of where we get these minerals at reasonable costs and in dependable supplies becomes of paramount importance.

The lifeblood of mining is access—access to lands that need to be explored and inventoried for their mineral values. Access to public lands here in the United States is particularly important because those lands have the greatest overall mineral resource potential. Surprisingly, as the last decade of the 20th century approaches, much of these mineral resources are unexplored and undeveloped.

Yet, of the three-quarters of a billion acres of public lands in the United States, more than half is withdrawn or restricted in some form to mining access. Tens of millions of additional acreage are being proposed for similar lockup, even though our national policy for these lands is to have multiple uses such as livestock grazing, wildlife habitat, timber harvesting, recreation and mining. Conflict arises when one of these multiple uses becomes the exclusive use. When preservation, for example, excludes all other uses to which the land can be put, those other values are lost—including the opportunity to explore for minerals.

Minerals are invisible resources. Animals can be counted, water measured, recreation uses calculated, game harvest tallied and even aesthetic qualities observed. But subsurface resources are usually concealed, making them more difficult to assess. You have to have access to assess. A basic geologic principle is the Earth's resources are where you find them, not necessarily where you want them to be.

Often, the same geologic forces that created the mountains and their scenic beauty—the volcanic action, faulting uplifts, and movement of tectonic plates—are also the forces that account for the migration and deposition of minerals in those areas.

To Have and To Have Not: The formation of minerals in the Earth's crust also occurred without regard to our desires or needs. Inequality of mineral distribution is a geologic fact. Some states are more richly endowed than others. Some nations are more blessed with minerals than others. Many Third World countries have vast, yet-untapped mineral resources. The United States, for its part, is both a "have" and "have-not" nation.

About 3,000 mineral elements are found in the Earth's outer crust. The range of products is phenomenal, running from the most precious gems to sands for computer chips to rare strategic minerals upon which our defense security rests.

When it comes to strategic and critical minerals, such as cobalt, manganese, chromium, and platinum-group minerals, the Earth worked overtime in southern Africa. That region holds a virtual monopoly on those elements so essential to modern technologies and defense security. How stable and how reliable a source southern Africa may be in the future is of no small consequence, particularly for the United States, where strategic and critical resources are rare. When they do occur, they often are in lands withdrawn or proposed for withdrawal from exploration and mining access.

Therefore, we import most, if not all, of our strategic and critical minerals. The public policy issue is how can we reduce or mitigate these imports which are, after all, subject to disruption of market distribution. There are several actions which in combination can help lessen, but not eliminate, our strategic and critical mineral import dependence: recycling, conservation, substitution, and increasing domestic supplies. Tremendous advances in our geologic understanding and in exploration and development technologies can allow us to get at strategic and critical minerals without doing harm—even in some environmentally sensitive parts of the United States.

One current example where the multiple-use land concept is under attack is the California desert, where some want to put millions of acres into a wilderness area, making it off limits for exploration and mining.

The California desert area is one of the most highly mineralized areas of the world. Some 65 known minerals worth $1.2 billion a year are mined in the desert. Its unique geologic terrain, for example, houses the richest known commercial deposits of rare-earth elements in the world. Rare-earth elements are used in the new superconductors that could revolutionize electrical transmission, communication and transportation.

The U.S. Geological Survey and the Bureau of Mines have studied only about 20 percent of the total desert area or one-third of the Wilderness Study Area. Our work has revealed significantly more resources than thought possible, particularly minerals used in energy, pollution control systems, and ceramics, and chemical refining.

So, we have here one of those ironies of the American political process. Having declared superconductivity the technological race of the century with the Japanese, at the same time we may be barring access to the one part of the country that has the raw materials that the new technologies require. We should not blindfold ourselves to the earth's mineral endowment.

Being a good steward of the great natural heritage God has given us means knowing what you have and applying foresight and skill to see it is used for the enjoyment and benefit of this and future generations. Having a quality environment and developing mineral resources are not mutually exclusive goals. We can and must have both.

THE FIGHT FOR LITERACY SHOULD START IN OUR SCHOOLS

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. CRANE. Mr. Speaker, if we are to abolish illiteracy by the year 2000, it will be accomplished through changes in our educational system and not through an increase in Federal funding. Some Members of Congress have proposed spending billions of dollars to establish a national literacy center and a Cabinet-level council. This costly scheme would only serve to duplicate the local, State, and national programs already in place. Instead, we should look to our schools as the first bastion against illiteracy. Countless reports and studies have documented students who have been unable to locate the Nation's Capital on a map, or students unable to make change in a store. There are presently 27 million Americans who have left school unable to read or write sufficiently well to understand a newspaper or fill out a job application. There is no shortage of determination to solve the problem of illiteracy, but Washington must resist the temptation to cure the illness of the system by throwing money at it. If I could draw the attention of my colleagues to an article by Martha C. Brown entitled "Fighting Illiteracy: Let's Not Slight 'School Literacy,'" they will see that illiteracy can be prevented, in school, before it ever needs to be confronted later.

[From the Chicago Tribune, Aug. 22, 1989]

"FIGHTING ILLITERACY: LET'S NOT SLIGHT 'SCHOOL LITERACY'"

(By Martha C. Brown)

The price tag on a newly proposed bill to fight illiteracy—close to $3 billion over five years—suggests how enormous the problem is. But pumping more billions into the fight won't banish illiteracy by the year 2000, Sen. Paul Simon's claim for his Comprehensive Illiteracy Elimination bill. Illiterates over age 18 number at least 27 million, approximately 1 out of 6 U.S. adults. Their ranks increase by 2 million each year.

Simon's proposal has two major flaws. First, it would create bureaucracies to duplicate the work of those already in place. Second, it ignores the crucial role of education in preventing illiteracy.

Simon's bill would establish a national literacy center and a Cabinet-level council to oversee literacy programs. We already have a national reading center funded with millions of federal dollars—the Reading Research and Education Center at the University of Illinois. We don't need a Cabinet literacy post, either. The Departments of Labor, Health and Human Services and Education oversee literacy programs. Welfare, immigration and job training programs also help adults learn to read.

These programs, plus those at local and state levels, now cost $1 billion annually. They reach less than 20 percent of the illiterate adults—a discouraging figure, considering the cost in tax dollars and volunteer hours. Even if we could teach twice as many adults to read, how can we speak of eliminating illiteracy when 2 million more illiterates enter the job market each year?

The most serious flaw in Simon's bill is the apparent assumption that the fight against illiteracy should take place outside of our public schools, that we need not concern ourselves about illiterates until they turn 18.

We must teach these adults to read. Even more important, we must prevent more millions of American children from growing up illiterate. It's more human and more economical to prevent illiteracy than to confront the problem after it has wrecked the lives of millions of young people and cost business billions.

The good news is that we do know how to prevent illiteracy. The bad news is that we're not doing it. Legislators and the public aren't aware how easily we could prevent most illiteracy, because they've been misinformed about its cause.

They believe educators' claims that poverty and "learning disabilities" cause reading problems and illiteracy. If poverty were to blame, illiteracy would be a huge problem in the Soviet Union, were the overwhelming majority of children are poor by U.S. standards. The Soviet illiteracy rate is under 5

percent. In Marva Collins' West Side Preparatory School hundreds of poor inner-city children have learned to read well. This and much other evidence contradicts claims that poverty causes illiteracy.

There are serious doubts, too, about learning disabilities. After analyzing the research, Rutgers University psychiatrist Gerald Coles has concluded that the overwhelming majority of children labeled LD because they reverse words and letters (dyslexia) have not organic brain deficiency. These children are victims of poor reading instruction, according to Coles and other highly qualified experts.

Only in America do millions of children spend years in school without learning to read. Everywhere else, school is synonymous with literacy.

How can we prevent illiteracy? For decades, researchers have been telling us that public schools use an ineffective method of teaching reading. They base their conclusions on 124 major studies comparing the look-say method used in public schools with the phonics-first approach. Every study shows phonics first to be superior for teaching children to read.

Ignoring the illiteracy crisis, 90 percent of public schools still use the look-say approach, requiring children to memorize and guess at words. Look-say reading teaches only a smattering of phonics—too little and too late. The new look-say approach, "whole language learning," also neglects phonics.

We could save millions of children from illiteracy by switching to phonics first. Among the few public schools that have tried it is a Tucson, Ariz., school with 58 percent minority students, including many Hispanics. Most are poor and many live in single-parent or foster homes. Yet fewer than 1 percent of these children require remedial help in reading—in contrast with most middle-class suburban school districts, where 25 percent of students need remedial reading.

Such results are typical of schools where children learn to read with phonics first, including Marva Collins' school, Soviet schools and many U.S. private schools. Before public schools adopted look-say reading, millions of poor immigrant children, many with illiterate parents who spoke no English, learned to read in U.S. classrooms.

We've already spent countless billions to deal with illiteracy. Shouldn't we insist that public educators make the changes needed to prevent this massive problem? Simon's bill mentions "family literacy," "work force literacy" and "work site literacy"—but not "school literacy."

Before we can eliminate illiteracy, the teaching in our schools must change. We must also insist that colleges of education stop training teachers to use the look-say method, a continuing failure.

Just how "comprehensive" is the Comprenhensive Illiteracy Elimination proposal? It ignores both the cause of the problem and the need for prevention. It offers scant hope of eliminating illiteracy. Without "Comprehensive" and "Elimination," we're left with "Illiteracy"—plus bigger tax bills.

TRIBUTE TO NORAH HAMILTON STRAUS

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LAGOMARSINO. Mr. Speaker, I ask my colleagues to join me in recognizing an outstanding resident of my district, Ms. Norah Hamilton Straus, as she is honored on National Philanthropy Day this November 17.

National Philanthropy Day was established in 1986 in honor of the more than 89 million Americans who generously give of their time and talents to nonprofit organizations. The work of these giving and caring individuals has produced contributions of over $93 billion annually to more than 350,000 gift supported organizations.

On the occasion of National Philanthropy Day, 1989, the Santa Barbara and Ventura Countries Chapter of the National Society of Fund Raising Executives has selected Norah Hamilton Straus to receive the "1989 Volunteer of the Year" Award.

Ms. Straus' first volunteer post was at age 17 at Bellevue Hospital, followed by the Red Cross, the U.S. Air Force, an orphanage, the Institute of Rehabilitation Medicine, Guide Dogs for the Blind, and the Humane Society.

"Her broad experience, spirited leadership, and enormous creativity are behind the success of our fundraising events," says Dr. Harris Meisel. "She has also been one of the institute's most articulate spokespersons, sharing her support for our work in speeches to civic groups and talking to visionary individuals who want to be of help."

I join the Members of the National Society of Fund Raising Executives in congratulating Norah Hamilton Straus as the "1989 Volunteer of the Year" from the Santa Barbara and Ventura Counties, and convey to her best wishes for continued success in the future.

WALTER SHORENSTEIN'S PROPOSAL FOR A NATIONAL INFRASTRUCTURE AND DISASTER RELIEF POLICY

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LEVINE of California. Mr. Speaker, I rise to call to the attention of my colleagues a superb statement that I had the privilege of hearing last Friday in San Francisco.

The statement was delivered by Walter Shorenstein, one of the most distinguished business and civic leaders in the history of California.

Prior to his remarks, Speaker FOLEY, majority leader GEPHARDT, and Representatives PELOSI, BOXER, FAZIO, ANTHONY, and I met with San Francisco's Mayor Art Agnos and a number of other local leaders, with regard to the tragic and painful human consequences of the bay area earthquake, and we also reviewed some of the damage brought about by the earthquake.

We witnessed in San Francisco a community that has come together in a heroic fashion to respond to the tragedy and challenge of the earthquake.

Mr. Shorenstein, at a private dinner with some of the civic leaders and the House legislative leadership, delivered these very thoughtful and constructive remarks which include some solid suggestions which I believe we should take very seriously.

I commend his remarks to my colleagues.

WALTER H. SHORENSTEIN—ADDRESS TO PUBLIC OFFICIALS AND OTHER GUESTS IN ATTENDANCE ON THE OCCASION OF THE DINNER AND CONSULTATION REGARDING THE BAY AREA EARTHQUAKE CRISIS, SAN FRANCISCO, NOV. 3, 1989

Speaker Foley; Senator Cranston; Majority Leader Gephardt; Congresspersons Anthony, Boxer, Fazio, Levine, Pelosi; Mayor Agnos; Ladies and Gentlemen: I am most pleased with your attendance and the extraordinary response of all of you who have come together for this evening's dinner meeting. Mayor Agnos, we are all appreciative of your superb performance under these crisis circumstances. You have exercised your public duties in a way that has made all of us proud to be part of this magnificent Bay Area. I wish to thank the national and state legislative leadership for their attendance and recognition of the national significance and impact of the earthquake on our area. We regret that the special earthquake session of the State Legislature prevents Speaker of the Assembly Willie Brown and Present pro Tempore David Roberti from being here tonight. They will be apprised of our activities.

In times of crisis, the government has a very significant role.

Obviously, those of us with deep concern for San Francisco and the entire Bay Area need to reflect upon the events of the past few weeks, on today, and tomorrow, and on once again rebuilding a safe and promising future.

I would like to remind you that the San Francisco Bay Area economy is the fourth largest in the United States with a total population of nearly 6 million people. Nearly 3 million people are employed in the Bay Area, representing nearly 2½% of the nation's labor force.

I would like to point out that the State of California has nearly 30 million people and accounts for 15% of the GNP.

Given the importance of the California and San Francisco Bay Area economy to the nation, and the substantial risk of economic and physical loss from a possible future earthquake in California, the Federal Government response needs to be FAR more than an emergency relief program.

We have been thru a period of benign neglect of urban areas and urban problems, amongst which are addressing natural disasters like earthquakes.

The Democratic Party needs to assume the position of leadership in reversing that period of neglect and in monotoring the recovery process. I would urge the Party leadership to demonstrate to us their view of our future, and most importantly, to follow that vision into the future with us.

Looking toward the future on this extraordinary occasion and to give substance to our reason for the leadership being together, I would like to suggest that the following measures, among others, be given consideration by our national and state leaders:

(1) A substantial infrastructure and improvement program to increase the survivability of highways, bridges, and mass transit facilities;

The possible expansion of Bay Areas Rapid Transit (BART) to San Mateo, Santa Clara, and Marin County;

Also, the building of a new "Southern Crossing" bridge with modern technology to relieve a major traffic bottleneck and increase the ability of the Bay Area economy to survive an earthquake;

(2) A national program of earthquake insurance modeled after the flood insurance program to allow cost-efficient earthquake protection for citizens in risk areas;

(3) A national earthquake commission to define a national policy concerning structures, infrastructures, and government responses regarding future earthquakes;

(4) Precautions on the federal, state and local levels to improve the ability to survive an earthquake and reduce the risk of massive loss of life and property from any or all potential earthquakes.

We have all been inspired and appreciative of the enormous spirit that existed in San Francisco after the 1906 earthquake. The citizens of this great city rose to the occasion and rebuilt an even granduer city. Together, we will rise to the occasion again.

We must rededicate ourselves to assure the future survivability of our great Bay Area, the "Gateway to the Pacific". We thank you for recognizing the national importance and significance of our endeavors and we appreciate your being here tonight.

LOW-INCOME HOUSING TAX CREDIT DEADLINE EXTENSION IN THE EVENT OF A FEDERALLY DECLARED DISASTER

HON. LEON E. PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. PANETTA. Mr. Speaker, I rise today to introduce legislation that will bring an important extension to the low-income tax credit deadlines for areas suffering from the recent natural disasters that have struck California and South Carolina.

Federal low-income housing tax credits are vital to the continued development of affordable housing. In order to qualify for these important tax credits, communities must spend a minimum of 10 percent of the development cost by December 31. Unfortunately, due to the effects of the Loma Prieta earthquake in my district and possibly on areas of South Carolina due to Hurricane Hugo, it will be impossible to meet this administrative deadline. As should be the case, all available resources are now being used to counter the devastating effects of the earthquake. However, at the same time, these areas that are going to be even more dependent on affordable housing, are going to lose vital Federal tax incentives to build that housing.

Therefore, I am introducing legislation to extend the deadline for those communities that have suffered from a natural disaster. Specifically, the bill calls for an extension of 6 months, the deadline required by Federal statute for the expenditure of 10 percent of the total cost for those areas affected by a natural disaster. This will give local communities time to respond to the ongoing crisis of the earthquake while not having to lose an important tax incentive by default. These localities are right now fighting the effects of one of the most damaging natural disasters in our history. It is not right that they should have to give up Federal assistance by virtue of an administrative deadline. I strongly urge my colleagues to support this legislation.

The text of the bill follows:

H.R.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ALLOCATION OF LOW INCOME HOUSING CREDITS TO BUILDINGS FOR WHICH REHABILITATION OR CONSTRUCTION IS DELAYED DUE TO FEDERALLY DECLARED DISASTERS.

(a) IN GENERAL.—Clause (ii) of section 42(h)(1)(E) of the Internal Revenue Code of 1986 (relating to 10 percent cost incurred exception to credit allocation requirement) is amended in the first sentence—

(1) by inserting "(I)" after "if", and

(2) by inserting before the period at the end the following: ", or (ii) the taxpayer was unable to satisfy such 10 percent requirement solely because of a federally declared disaster occurring after September 1, 1989".

(b) FEDERALLY DECLARED DISASTER.—Subparagraph (E) of section 42(h)(1) of such Code is amended by adding at the end the following new clause:

"(iii) FEDERALLY DECLARED DISASTER.—For purposes of clause (ii), the term 'federally declared disaster' means any disaster referred to in section 165(i)(1)."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

STATEMENT ON HONORING THE SONG, "RESPECT TO THE AMERICAN FLAG"

HON. CHRISTOPHER SHAYS

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SHAYS. Mr. Speaker, my constituent, Mrs. Inna Berson, of Fairfield, CT, recently sent me a copy of a song she had composed to honor the American flag.

Mrs. Berson emigrated from the Soviet Union to the United States in 1981 and is now an American citizen. As an immigrant, she finds it difficult to believe that Americans would want to desecrate their flag, or that our Constitution permits it. As she states,

Everything here is not perfect but • • • it is the best place in the world. All Americans should realize this fact. The Constitution • • • gives us tremendous freedom but I do not believe it gives us the right to abuse or destroy its symbols.

It seems to me the patriotism Mrs. Berson feels as a recent immigrant, and the effort to which she has gone to express this patriotism, are worthy of recognition. For this reason, I submit for the RECORD the lyrics to the song, "Respect to the American Flag."

RESPECT TO THE AMERICAN FLAG

(Lyric and music by Inna Berson)

1

The American Flag red, white and blue
Its stars and stripes belong to you
The American Flag flying above
It always will be the one I love

Chorus 1

Nobody, nobody, nobody shall abuse the American Flag
Nobody, nobody, nobody shall abuse the Flag

2

The Flag of our country America's might
Ordered by Washington for it we will fight
Made by Betsy Ross to fly on high
From earth to the moon and over the sky

Chorus 2

Nobody, nobody, nobody shall abuse the American Flag
Nobody, nobody, nobody shall abuse the Flag

3

Veterans and young show their respect
And from all who don't we shall it protect
For the American Flag we're proud to stand
And show our pride in this American Land

Chorus 3

Everyone, everyone, everyone stand up
For the Red, White and Blue
Everyone, everyone, everyone—remember
The American Flag belongs to you

Chorus 4

All of us, all of us, all of us
Give respect to the American Flag
All of us, all of us, all of us
Give respect to the American Flag

IN HONOR OF GEORGE LIVANOS

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. MANTON. Mr. Speaker, I rise today to honor George P. Livanos for his outstanding work and dedication to improving the world community. Next week, Mr. Livanos will be presented with the Ionic Medal for his individual contribution to the advancement of human rights, democracy, and the ideals of Hellenism.

Mr. Speaker, George Livanos was born in New Orleans, LA, and graduated from Athens College. He proudly served his country in the U.S. Army during both World War II and the Korean war. Later, as president of Seres Shipping, Inc. and consultant to Ceres Hellenic Shipping Enterprises Ltd., he helped build the Ceres fleet to 84 vessels. At the same time as he was becoming a successful businessman, George also worked to fight world hunger. It was George Livanos who invented the mini bulker concept which proved to be a vital tool in the United Nations Famine Relief Program for Bangladesh.

These accomplishments are just one aspect of George's extraordinary achievements. George is an active member of the boards of many different corporations and institutions including the Atlantic Bank of New York, the Nicholas Institute of Sports Medicine and Athletic Trauma, and the American Farm School. He also is a member of the World Wide Fund for Nature, the 1001: A nature trust and the Club of Rome.

Mr. Speaker, George Livanos also is actively involved in protecting the environment. He

serves as a member of the board of International Tanker Owners Pollution Federation and as chairman of the environmental committee of the Union of Greek Shipowners. He also was instrumental in the formation of the Hellenic Marine Environment Protection Association [HELMEPA]. This organization sponsors educational programs and has cooperated with the European Economic Community and the U.S. Coast Guard in projects designed to promote marine safety and curtail pollution. He also is a member of the industry advisory panel to the World Commission on Environment and Development.

Despite his hectic schedule, George Livanos has always maintained an energetic involvement in the Greek-American community. He has served as president of both the Chian Federation and the American Hellenic Alliance. He also is a member of the archdiocesan council and a trustee of the Greek Orthodox Church of the Holy Trinity.

Finally, of all his many accomplishments, I am sure George is most proud of his closely knit family which includes his wife Fotina, and his children, Peter and Marina.

Mr. Speaker, as a soldier, businessman, philanthropist, environmentalist, and major force in the maritime industry, George Livanos has never been afraid to stand up for what he believes in, and the world is a better place because of it. Today, I ask my colleagues to join me in honoring George P. Livanos for his lifelong commitment to service. His accomplishments are indeed worthy of celebration.

A PRAYER AND ADDRESS GIVEN AT UTAH COUNTY'S WAR MEMORIAL DEDICATION

HON. HOWARD C. NIELSON

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. NIELSON. Mr. Speaker, on July 7, 1989, the Utah County War Memorial was dedicated in my home, Provo, UT. In conjunction with honoring Veterans Day I would like to submit for the RECORD the prayer and one of the addresses given at this ceremony.

The prayer was given by Pearl B. Rex, Utah State coordinator for the National League of Families for the missing in action and prisoners of war in Southeast Asia. Mrs. Rex is the mother of Capt. Robert Alan Rex who is missing in action.

The address was given by Cathlene Caras, wife of Lt. Col. Franklin A. Caras. Caras was missing in action until 2 years ago when his remains were found and returned home.

Both of these women exemplify the courage and dedication of the loved ones who support those who fight for this great country of ours. I extend my appreciation to those who have served, are currently serving, and to those who love and support them.

PRAYER GIVEN BY PEARL B. REX

Our kind eternal Father in Heaven, we are honored to be gathered here today on this important occasion, to honor in a permanent way, those who have paid the supreme sacrifice for us and our beloved country.

We thank Thee for the inspiration their lives and their service have been for all of us. Each time we have opportunity to look at this beautiful black granite Memorial, may it serve to rekindle our patriotism, and may the names hereon exemplify the terrible price paid for our freedoms.

May these names serve to remind us and succeeding generations of the loyalty, bravery, and quiet courage that gave birth to this great nation, and gives us the privilege to live at peace.

We pause this day to remember those who fell in combat, and those whose fate is still unresolved. We will never forget them.

Father in Heaven we thank Thee for thy blessings on this land, and on us. We thank Thee for all those who have answered our country's call to serve. May Thy blessings be with them, with the Veterans of all wars, and we thank Thee for those who still serve this great nation to help maintain our precious freedoms, and to bring peace to oppressed nations.

We ask that Thy protecting spirit always be with them. Grant them strength and courage for the tasks, and trials that may lie ahead.

Father, we are thankful for this opportunity to demonstrate our love and our appreciation for the leaders of our Nation, our State, and our County. Be with them and may the hearts of all World leaders be turned to peace.

We are grateful to those who helped conceive, plan, and see to the construction of this beautiful Memorial. May it always be respected and protected from harm.

We love America, we love and honor these beautiful flags flying here today. They are symbols of our liberty. We are blessed to live in this beautiful land. May we now rededicate our lives to serving Thee, to serving our country, and to serving our fellowman, in the spirit of love, justice, and mercy.

May thy guiding spirit continue to be with us, and to watch over America, we ask in the name of Thy beloved Son, Amen.

TALK GIVEN AT THE UTAH COUNTY WAR MEMORIAL DEDICATION BY MRS. CATHLENE CARAS ON JULY 7, 1989

I'm grateful for special times like the Fourth of July when we can feel Patriotism so strongly in America. It gives us a renewed confirmation and dedication to be a proud and dedicated American. People seem to be more grateful for the freedom and security we have in the land of the free, excited about doing their part to keep it just that way and grateful for all those men and women who have done so much to keep it free and safe for us.

I'm grateful to persons who worked toward getting this beautiful memorial for these men. How fitting that this beautiful Veterans Memorial is made of cold, hard, unmoving black marble. Cold and unmoving, indicative of those men who were killed, taken as prisoners of war, or are missing in action; cut down in the prime of their lives when life had so much left to offer them. Indicative of a place where the cold fact is that only God knows their fate, where life as they knew it ceased to exist and the thoughts of freedom and security of home is all that keeps them alive or struggling to live. This hard black marble is a reminder of the hard, dark days these men and their loved ones endured because of the loss of these men's lives or their freedom.

Recently I read a book in which was a letter written by a woman to her husband during World War I. She wrote, and I quote, "We are mighty proud of you and proud of where you are but, Jock dear, our neighbor 3 months ago received word that her husband was missing. She said she had rather heard he was dead. She said she could hardly stand the uncertainty of it. Jock my dear join with me and pray God that I may never get word that you are missing." End quote.

Twenty-three years ago that letter would not have been so forceful to me but today I could truthfully say I could write a letter like that. Knowing your loved one is missing in action puts you into a total state of limbo where your every thought is filled with fears and doubts.

It puts you in a situation where you are torn between praying he is alive and living with the torment of wondering and worrying about what he has to endure if he is alive. Or trying to pray that he might be dead so he won't have to suffer. You cry as you take table scraps out to feed the cats for you wonder if your husband is starving for food. You spend countless sleepless nights when more hours are devoted to praying than sleeping.

You listen to your children scream out with fear in the night and you know their dreams are as horrifying of their Dad as yours. You pray with all your heart that all the horrible things your mind builds up are not a reality. You come to the realization that you can handle about anything better than not knowing because what you really want is what is best for your loved one.

You watch your children grow from babies to adults and feel the pain of what their Dad must feel as he has missed all those precious years of their lives. All that precious time he has no idea what has happened in any of their lives or even if they are alive. How your heart aches for him for all that he has missed and the fears and worries he had to endure.

The years since my husband was reported as missing in action have truly opened my eyes. I truly respect those people who suffer the trials and the tragedies of war.

I pray that all men who are Prisoners of War may be returned and all of those unaccounted for may be returned to their loved ones.

I want each of you to know that having my husband's body returned to us has been one of the greatest blessings you could imagine. To know that he did not suffer the trials that were so vivid in my mind and in my dreams. To know that he died with Pride serving our country gives me great peace and pride.

I sincerely hope that this beautiful Veterans Memorial will touch the hearts of all who see it. That each may have the desire to do all that we can do to keep our country free. May we always be grateful and respect these men who gave their lives and freedom for us.

Thank you good men, we appreciate what you have done for us and for our country.

MORE SUPPORT FOR THE NATIONAL EARTHQUAKE DAMAGE PREVENTION ACT

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. STARK. Mr. Speaker, Congressman TOM LANTOS of California is joining Representatives BOXER, ROYBAL, PELOSI, and I in

sponsoring the National Earthquake Damage Prevention Act, H.R. 3624.

This bill, described in the November 8 RECORD on page H8170, requires the establishment of building standards so as to reduce the damage and loss of life in major earthquakes—earthquakes which are certain to strike both in the East and the West in the next few decades. The bill then uses the Tax Code to make sure that the new standards are used in new structures. It does this by denying the use of tax-exempt bonds and deductions for interest and depreciation on new structures built after 1996 which do not meet the new standards.

There is an alarming attitude that has swept the Nation which stifles progress on preventing damages from earthquakes. Even in the face of a devastating quake, America is putting its head in the sand.

In California, one of the most earthquake prone States, many refuse to admit the danger of future quakes. The New York Times stated that:

For the most part, people in Los Angeles live in what Robert Butterworth, a psychiatrist who has studied earthquake trauma, termed "a state of perpetual denial."

The U.S. News & World Report reported that "San Francisco Chronicle columnist Herb Caen said the day after the quake:

We live with earthquakes and we live on a fault and we live dangerously. And it's exciting.

As a Californian I have seen that there has been some preparation, but not nearly enough compared to the risks we face. Oris Dengenkolb, a Caltrans engineer who retired in 1981, described the inadequate preparation in the Washington Post:

People at my level, and some of the upper levels, felt it wasn't being done fast enough * * *. We knew there was a quake coming up sooner or later, but the program [for retrofitting bridges] was just dribbled around.

In the East, it is much easier to ignore the mounting threat of earthquakes than it is in California, since earthquakes are relatively rare in the East. Bob Fowler, chairman of the American Institute of Architects' building performance and regulations committee, said it best in the Washington Post:

The fact is that the East Coast is more vulnerable because people aren't thinking about earthquakes. If you're not thinking about earthquakes, you're not as likely to specifically shape what you're building and take pains to guard against them.

Lack of protection from earthquakes in buildings and public structures is exactly what has happened in the East. According to the New York Times:

Many experts agree, the impact will probably be much greater than in California. Easterners, unlike Californians, have paid very little attention to making buildings and other structures earthquake-proof or earthquake-resistant. 'We don't have that mentality here on the East Coast,' said Robert Silman, a New York structural engineer whose firm has worked on 3800 buildings in the [New York] metropolitan area.

Moreover, buildings, highways, bridges, water and sewer systems and communications networks in the East are all older than in the West and consequently more vulnerable to damage. Even under normal conditions, for instance, water mains routinely rupture in New York City. The result, said Dr. John Ebel, a geophysicist who is the assistant director of Boston College's Weston Observatory, is that damage in the East would probably be more widespread, more people could be hurt and killed, depending on circumstances, like time of day, and "it would probably take a lot longer to get these cities back to useful operating levels."

On top of this, scientists say, an earthquake in the East can shake an area 100 times larger than a quake of the same magnitude in California." U.S. News & World Report stated:

A 1985 study by FEMA found that a magnitude 7.6 quake in the east would cause 2,500 deaths, collapse 3000 structures, cause $25 billion in damages and displace a quarter of a million people in Memphis alone it struck during a working day.

The structures in the East would not be safe if there was an earthquake because the people do not see that they are at risk. Although it is not pleasant to recognize that our Nation's buildings and public structures are unable to resist major earthquakes, it is necessary to face that fact, if we are to protect ourselves from the next major earthquake.

This is a national problem that needs a national solution, and the solution is the National Earthquake Damage Prevention Act. This act will establish the building codes necessary to make the whole country safer from the threat of earthquakes.

I urge Members to join in voting for the National Earthquake Damage Prevention Act.

ROBERT N. DOWNEY ASSUMES HELM AT THE SECURITIES INDUSTRY ASSOCIATION

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. MANTON. Mr. Speaker, I would like to call to the attention of my colleagues an article that appeared in a recent edition of the American Banker regarding Robert N. Downey who has just been named chairman of the Securities Industry Association for the coming year. I have had the good fortune to know Bob ever since I became a member of Congress 5 years ago. During that period of time he has proven to be a forceful and articulate advocate for the interests of wall street. I am certain he will carry those same talents into his new position as head of the SIA. Without question, the SIA will be a busy organization during Bob's tenure.

Mr. Speaker, I know my colleagues join me in wishing Bob every success as the SIA's leader. I commend the following article from the American Banker to my colleagues and ask that it be printed in the RECORD at this point.

SECURITIES GROUP NAMES DOWNEY CHAIRMAN FOR 1990

The Securities Industry Association nominated Robert N. Downey, its most outspoken opponent of Glass-Steagall Act modification, as chairman for 1990.

Mr. Downey, a partner at Goldman, Sachs & Co., recently relinquished some responsibility as head of the firm's municipal bond department to focus on running its Washington lobbying efforts. The 53-year-old executive has long been active on the municipal bond and investment banking committees of securities industry trade groups.

Bond committees have been the bulwark of the securities industry's defense against bank incursions because their members have competed most directly with the banks. The Glass-Steagall Act, which bans banks from underwriting and dealing in most securities, does not ban them from underwriting general obligation bonds and some other municipal liabilities.

Mr. Downey succeeds Hardwick Simmons, a vice chairman of Shearson Lehman Hutton Inc., as chairman of the trade group.

In comments on Thursday, the chairman-elect maintained his fighting stance against new bank powers. Commenting on the Federal Reserve Board's recent decisions to allow bank companies limited powers to underwrite and deal in corporate debt and to open the door next year to equities, he said Congress—not federal agencies—should decide such important issues. He raised the savings and loan industry bailout as a possible portentous precedent.

"If one has deposit insurance, you shouldn't be using that to underwrite speculative activity," he said, according to a dispatch from Reuters.

Mr. Downey is assuming his role at a time when many of his colleagues have modified their positions. After years of losing legislative and judicial battles against bank underwriting, several securities industry executives have indicated their willingness to work with banks on some deals and their reluctance to spend additional money on battling banks in Washington.

"SHARP" PROMOTES MINORITY EXCELLENCE IN ENGINEERING

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. MORELLA. Mr. Speaker, I rise today to bring to the attention of my colleagues the Industry Model Summer High School Apprenticeship Research Program [SHARP], which has been undertaken by Fairchild Industries and the Tektronix Corp. These two firms have come together to promote, through carefully crafted internships, the opportunities of minority students in the technical work force.

The two firms have worked with students from Montgomery County, Prince Georges County, the city of Baltimore, Howard County, and the District of Columbia who have shown an interest in science, electronics, engineering, computer science, and space technology.

The success of the program is due in no small part to the efforts of Mr. Martin Titland, Mr. Thomas Bedocs, Mr. Samuel Williamson, Ms. Esther Title, and Ms. Carol Dixon of Fairchild Industries; and Ms. Bonnie Roelofs, and Ms. Patricia Gattons of Tektronix Corp., who worked to ensure that the students were taken into the mainstream of science and space technology projects.

The industry model SHARP program was modeled after the NASA Goddard Space Flight SHARP Program, which has graduated over 100 students, of whom 100 percent have continued their education at universities such as Maryland, Brown, Purdue, Cornell, George Washington, MIT, Howard, and Rutgers.

SHARP has created a scholarship fund to assist minority students in meeting their college expenses, which helps to reduce the financial reliance on the Guaranteed Student Loan Program.

Fairchild and Tektronix are innovative high technology industrial firms which participate with government and private industry to develop space systems, and are major employers in the State of Maryland; and such corporate contributions should be recognized for their impact in creating technical job opportunities for minority students who are underrepresented in the fields of science, space, and technology.

I congratulate Fairchild Industries and Tektronix Corp., their corporate leaders, and the participating students for their commitment to address a critical need to meet the current and future technical challenges of the United States.

TRIBUTE TO DR. TIZIANO GUARESCHI

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. TORRICELLI. Mr. Speaker, it is with great admiration and respect that I rise today to pay tribute to Dr. Tiziano Guareschi. Dr. Guareschi was born in Verona, Italy, and has served with the Italian consulate for over 20 years.

Since beginning his diplomatic service with the Ministry of Foreign Affairs in Rome in 1968, Dr. Guareschi has served in the Soviet Union, Switzerland, and Germany.

In October 1984, he was appointed to serve as Vice Consul of Italy in Newark, NJ, and has directed his efforts toward keeping the Italian community united. He has involved himself in the activities of the Italian-American community by keeping himself in constant contact with the numerous organizations and societies comprised of Italians who have settled in the metropolitan area.

Dr. Guareschi has worked to extend the services the Italian consulate provides for its people. He has emphasized that the consulate should not only be considered an office of administrative affairs, but should also promote cultural and economic relations between Italy and the United States.

At the end of this month, Dr. Guareschi will complete his assignment in Newark and will reassume his service in the Ministry of Foreign Affairs in Rome.

Dr. Tiziano Guareschi is indeed a man who deserves our respect and appreciation, I am proud to join in paying tribute to this exceptional man and his efforts and offer my best wishes for continued success.

ARE POLITICAL PROTESTERS RACKETEERS?

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LaFALCE. Mr. Speaker, I would like to share with my colleagues two editorials discussing the application of the Racketeer Influenced Corrupt Organizations [RICO] Act to political protesters. RICO was enacted to combat organized crime and has been an effective tool to that end. However, as the following two editorials contend, RICO has been applied too broadly. RICO has been invoked in an attempt to gain treble damages and attorney fees from defendants including schools, other nonprofit organizations, utility companies, and Oliver North. While these parties may very well be guilty of some offense, are they racketeers?

The first of the two editorials appeared in the Rochester Democrat & Chronicle on March 7, 1989, shortly after the Philadelphia antiabortion protesters were found liable for civil damages and lawyers' fees under RICO. The second editorial was written for the Buffalo News on October 18, 1989, following the Supreme Court decision not to hear the Philadelphia case. I am pleased to share these insightful commentaries which encourage a congressional examination of RICO.

[From the Rochester, Democrat & Chronicle, Mar. 7, 1989]

A BAD LAW, BADLY MISUSED—MOTHER OF MERCY: THE RICO LAW COULD CRIPPLE THE PRO-LIFE MOVEMENT

What do you call pro-life protesters who block the door to an abortion clinic, then shove and harass and intimidate patients who try to enter?

You call them racketeers, said a federal appeals court last week, ruling that 26 people who demonstrated at a clinic in Philadelphia between 1984 and 1986 were liable for $43,000 in damages and $65,000 in lawyers' fees.

Small change for a mobster, but big bucks for a protester—and one more reason to worry that a law meant to break the back of organized crime is being used to break the back of civil liberties instead.

"RICO," it's called, short for the Racketeer Influenced and Corrupt Organizations Act of 1970. (And, very likely, for the gangster played by Edward G. Robinson in the movie Little Caesar.)

It seemed like a good idea at the time: a law that not only imposed stiff fines and long prison sentences, but also allowed prosecutors to seize the assets of a racketeer before trial.

Ah, but what was a racketeer? Not just drug kingpins and loansharks, but anyone involved in securities fraud, mail fraud or extortion who engages in a "pattern of racketeering."

And what was a pattern of racketeering? Committing two crimes related to one criminal purpose within a 10-year period.

Armed with this bludgeon, prosecutors went after mobsters—and more. They brought Drexel Burnham Lambert to its knees, muscling the Wall Street firm into pleading guilty to six felony counts rather than have its assets frozen and upon conviction, forfeited.

Now the target is the anti-abortion movement. When protesters put financial pressure on clinics, when their coercion of patients has economic results, that can be called extortion. When it happens twice in 10 years, it can be called a pattern of racketeering. Enter RICO.

"We've seen this coming for years," Joseph Scheidler, director of the Pro-Life Action League in Chicago, told us. "If this wins, we really are crippled."

Fine, says lawyer Patricia Ireland of the National Organization for Women.

"I know they're problematic laws * * * but this is a nationwide, concerted effort that's closing down businesses. These people are ruining people's lives."

But no matter how much you might disagree with the goals of the anti-abortion protesters or loathe their methods, RICO is too big, too harsh and too indiscriminate a weapon.

Though it hasn't been used to seize the personal assets of protesters, lawyers on both sides say it could be.

"That's why most of us in the pro-life movement have given everything away," Scheidler told us. "I don't put anything in my name anymore."

But this is America. You are supposed to be innocent until proven guilty. No one should be able to seize your house, your car, your bank account before you are convicted of anything.

By all means, punish protesters who break the law. But don't pretend a protester is a racketeer, or that civil disobedience is a racket. Your group, your cause, might be next.

"Mother of mercy," the dying gangster cries out in the film's last reel, "Is this the end of Rico?"

Sadly, it may be just the beginning.

[From the Buffalo News, October 18, 1989]

PROTESTERS AND RACKETEERS—CONGRESS SHOULD LOOK AT LAW THAT LINKS THEM

The Federal anti-racketeering law, commonly known as RICO, is a tough law. Very, very tough. It makes sense that tough questions have been asked about its use in a case against anti-abortion activists in Pennsylvania.

The Supreme Court has decided that the heavy monetary damages assessed against the activists are based on a legitimate use of RICO. That would be a dangerous decision if it meant that peaceful protesters—against abortion or on any other issue—were subject to prosecution as racketeers. But in this case, where protest went far beyond the usual techniques of civil disobedience, we don't fault the decision.

RICO is the Racketeer Influenced and Corrupt Organizations Act. Passed by Congress in 1970, it has been used to convict and jail prominent figures in organized crime. Financial penalties are very strict. Those convicted can be assessed triple damages plus the legal fees owed by those who brought the suit.

In the Philadelphia case, the Supreme Court upheld a lower court decision that allowed RICO to be invoked against opponents of abortion. For several times a week over nine years, the defendants had picketed and sought to discourage patients from entering a Philadelphia abortion clinic. The decision means 26 protesters must now come up with $108,000 in damages for the clinic they wanted to shut down.

That's a stiff penalty, but the protesters were hardly innocent. They had also been

convicted in state court of trespass, criminal conspiracy and disorderly conduct. They had strayed beyond mere exercise of their First Amendment rights and were actively harassing the clinic—which was operating perfectly legally—and its clients. A federal appeals court found their conduct amounted to extortion, a federal offense.

Significantly, the appellate court distinguished between these particular protesters and protesters in general. To be successful in their legal suits, it said, plaintiffs must prove actual interference with the business of the clinics, or physical disruption and damage inside the clinics. These pertinent conditions ought to help restrain zealous tendences to apply RICO too easily or broadly.

But Congress, which is already examining the RICO statue in response to criticisms that it may be too sweeping, should look at the way it affects these or any protesters.

Are RICO's fines excessive for non-profit organizations? Do other statutes adequately cover offensive behavior? Most important, where is the line beyond which applying RICO can bruise First Amendment rights?

Congress should make sure the Rico law does not disrupt a reasonable balance between the rights of protesters and the rights of their targets. The Supreme Court decision should add breadth and urgency to its search.

EDUCATION SYSTEM NEEDS MORE THAN FUNDING

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. CRANE. Mr. Speaker, the education system in our country continues to be diagnosed as having poor health despite increases in funding to our schools. If we are to play "doctor" on our suffering institutions, it would be wise if we first examine the symptoms that are causing our ills. Students are now living in a new day and age, one which requires survival skills along with enduring morals and intelligence. And yet, students are still subject to the standardized formula established by John Dewey, an educator who once sought to mold society through scientific teaching methods. I don't believe that education, or more specifically, a moment of understanding, can be reduced to a mere burst of synaptic energy in the brain. Young minds need to know that learning isn't bounded by a framework or a standard. It is a mysterious process of growth, enhanced by a moral direction and a higher purpose. Students need help, but not simply in the form of increased Federal spending. I would like to draw the attention of my colleagues to an article called "The Roots of Our Educational Dilemma," by George Roche. In moving the emphasis away from Government intervention, Roche says "education is not, as Bacon thought, a means of showing people how to get what they want, but rather, a means by which they will learn to want what is worth having."

THE ROOTS OF OUR EDUCATIONAL DILEMMA

(By George Roche)

According to some people, our educational problems are all just a matter of money—not enough funds being spent on facilities, teacher salaries, computers, research and so on. The public is sympathetic to this idea. Education is a high priority, so why not spend more?

But the real obstacle to genuine reform is not any lack of resources. As Ronald Reagan noted, "If money alone were the answer, the problem would have been shrinking, not growing." The real obstacle is government interference, exacerbated by spending.

Remember the debates in Congress in the late 1950s and early 1960s, when federal aid to education was being contemplated, and the question was raised: Would government funding lead to government control?

Elected representatives were quick to reassure us. "Of course not," they pledged. "We just want to help. Government isn't getting into the education business or telling teachers how to run the schools. We're just lending a hand—temporarily, of course."

We now know that such assurances were false. Everywhere government money goes, government control follows.

There is a second obstacle to reform, which is more subtle, and, I would allege, more dangerous. We've had over a hundred years of universal public education and "progressive experimentation" which have yielded bitter fruit. John Dewey, the patron saint of modern education, insisted we could mold society and create "model citizens" through scientifically applied teaching methods. Values, especially religious and ethical beliefs, would be downplayed or discarded in favor of secular social goals and collective social attitudes.

Dewey, more than any other individual, has shaped and directed American education. He was the first education expert, a reformer with missionary zeal and the best intentions. Dewey and others denied that there could be, or ought to be, a moral framework underlying human relationships, while at the same time arguing that man, although not a spiritual creature, could be perfected through institutions devised by experts and supported by agencies of the state. A relative handful of professors and intellectuals passed on these notions to their colleagues, to elementary and secondary school teachers, to ministers, to the working press, to novelists, artists, the general public and last—always last—to the politicians. They convinced the world that man is a mere animal, a "trousered ape," and they reduced learning to the Pavlovian formula of stimulus and response. Today, our students are failing to master simple academic skills; our educational establishment is bloated with government funds, but unable to rise above mediocrity despite the efforts of millions of teachers and concerned parents or the many thoughtful recommendations for improvement. Ironically, Dewey's handiwork has resulted in a systematic and ruthless assault on the good citizenship which was its initial goal.

As one of Dewey's contemporaries, J. Allen Smith, remarked ruefully, "The trouble with us reformers is that we made reform a crusade against standards. Well, we've smashed them all, and now neither we nor anyone else have anything left." Learning is not a laboratory exercise, and man is not a laboratory animal. Man can leap beyond mere perceptions of his physical environment. He can dream. He can imagine. Learning is, in short, a miracle which science cannot explain away as just a synaptic convulsion of brain tissue.

But many schools do not explain this to the young. They don't reveal learning as the miracle that it is, because they've become, in many instances, dogmatically secular. And in the absence of moral direction, of higher purpose, they fail in their task of education—fail spectacularly.

One observer put it clearly enough when he said: Education is not, as Bacon thought, a means of showing people how to get what they want, but rather, a means by which they will learn to want what is worth having.

TRIBUTE TO FRANK J. PALMER

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LAGOMARSINO. Mr. Speaker, I ask my colleagues to join me in recognizing an outstanding resident of my district, Mr. Frank J. Palmer, as he is honored on National Philanthropy Day this November 17.

National Philanthropy Day was established in 1986 in honor of the more than 89 million Americans who generously give of their time and talents to nonprofit organizations. The work of these giving and caring individuals has produced contributions of over $93 billion annually to more than 350,000 gift supported organizations.

On the occasion of National Philanthropy Day, 1989, the Santa Barbara and Ventura Counties Chapter of the National Society of Fund Raising Executives has selected Frank J. Palmer to receive the Professional Fundraiser of the Year Award.

A resident of Santa Barbara since 1986, Mr. Palmer is a director and incoming president of the National Society of Fund Raising Executives. He has assisted nonprofit organizations and volunteers since 1956 by planning, organizing, implementing, and evaluating their fundraising efforts. During this time he raised over $20 million for various groups, including the American Heart Association and St. Vincent's Institute of Santa Barbara.

He has served many different agencies in the health and welfare fields as an executive and a fundraiser, and has been involved in the building of schools, churches, rehabilitation and health research centers. For more than 20 years he worked as a professional in the American Heart Association organization, helping to raise millions of dollars in support of heart research and community education programs which have led to the saving of thousands of lives through new diagnostic treatment and prevention techniques. Mr. Palmer was personally involved in the establishment of the American Heart Association Cardiopulmonary Resuscitation Program and standards making possible the first hour program and heart care emergency rooms in the Greater Los Angeles area.

In 1986 Mr. Palmer joined St. Vincent's of Santa Barbara, a residential facility caring for the developmentally disabled under the operation of the Daughters of charity of St. Vincent de Paul.

I join the members of the National Society of Fund Raising Executives in congratulating Frank J. Palmer as professional fundraiser of the year from the Santa Barbara and Ventura

Counties, and convey to him best wishes for continued success in the future.

NOEL PALM'S COMMUNITY SERVICE

HON. MEL LEVINE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LEVINE of California. Mr. Speaker, I rise today to bring to the attention of my colleagues the outstanding record of one of my constituents, Noel Palm, of Manhattan Beach, CA. He is retiring November 30, 1989, after 16 years as a member of the boards of education for school districts in the South Bay of Los Angeles County.

Mr. Palm has been a member of the board of trustees of South Bay Union High School District for the last 8 years. This past year he has been the president of the board. He previously served in all offices of that board, including two terms as president. He also served for 8 years as a trustee for the Manhattan Beach City Elementary School Board.

Mr. Palm and his wife, Sally, are parents of five children—Marcia, Vicki, Karen, Brett, and Todd—all of whom graduated from Aviation High School in the South Bay Union High School District.

Mr. Palm has dedicated his life to serving his community, particularly its young people. For example, he managed a number of teams for the Little League Association of America and he and his wife served on its board of directors.

He also served as representative from the South Bay Union High School District to the board of Southern California Regional Occupational Center, which provides youth with vocational training, an important service for young people who wish to enter the mainsteam of business or academic life.

I urge my colleagues to join me in commending Mr. Palm for his exceptional devotion to his community.

CHILD CARE

HON. CARDISS COLLINS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. COLLINS. Mr. Speaker, when I raised the issue 10 years ago, child care seemed obscure, remote, and frivolous to most Members. Finally, everyone has seen the statistics. Finally, the link between child care and employment opportunity is understood. Finally, it is realized that child care is not so much a woman's issue as a national economic issue. Finally, legislation has reached the floor of the House of Representatives. We can't turn back now.

Poll after poll shows that millions of working Americans want and need more affordable, quality care for their children and expect the Federal Government to help furnish it. With that message ringing loudly and strongly in our ears, we cannot accept the suggestion that child care wait until next year or that child care is not a "must pass" agenda item for 1989.

Already this year, both the House and the Senate have passed comprehensive child care packages by solid margins, and I understand that negotiations to iron out the few differences between the two plans have been productive. Even President Bush has given the impression that he would like Congress to deal with the issue this year.

Mr. Speaker, we have before us an historic opportunity to deliver on promises made nationwide: To provide families with the child case assistance they need to be strong and productive. All we have to do now is seize this opportunity and do it this year. The comprehensive child care provisions in the Budget Reconciliation Act must remain there and be passed into law before we adjourn this year. America's families cannot wait any longer, and neither should we.

TRIBUTE TO DISTINGUISHED EDUCATOR—WILLIAM BENJAMIN SCHIFF

HON. HOWARD L. BERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. BERMAN. Mr. Speaker, I rise today to pay tribute to a distinguished constituent, William Benjamin Schiff. This month culminates his exemplary 32-year career as an educator.

Born March 30, 1929, in Cleveland, OH, Bill moved to the San Fernando Valley during the war years; no small feat considering his parents, two brothers, and two sisters depended upon a 1939 Buick and a handful of gas-ration stamps. Bill graduated from North Hollywood High School and then served honorably with the U.S. Army in Korea from 1950 to 1952. In 1956, Bill received his bachelor of arts degree from Los Angeles State College, performing his student teaching requirements at Rosemont Elementary School. He earned a masters degree in school administration at San Fernando Valley State College in 1961.

As a teacher, Bill brought his unique blend of enthusiasm and love of learning to every grade level in the elementary curriculum. He was a classroom teacher at Prairie Street and Cantara Elementary Schools. He was promoted to assistant principal in 1964, working at Sharp Avenue and Pacoima Elementary Schools. Assuming the principal's chair in 1969, Bill provided direction and leadership at Norwood Street School in central Los Angeles, Knollwood Elementary School in Granada Hills, and Morningside Elementary School in San Fernando.

Throughout his career, Bill Schiff has been dedicated to his students. Anyone who remembers the history lesson when his class built a 20-foot Spanish galleon inside the classroom would agree that Bill predicates virtually every educational decision on what is the best learning environment for the children. Anyone who has counted the holiday seasons that Bill solicited donated toys and then wore a Santa Claus suit to distribute them, knows the compassion and personal generosity which are his second nature.

Maybe the most remarkable lesson Bill teaches is respect for others. At his schools, students worked with teachers, teachers with administration, administration with parents, and the community at large with the school. In his soft-spoken way, Bill gives others the highest degree of honor and honesty. His high expectations for academic performance encourage his students to achieve their fullest potential. It is little wonder his friends and colleagues will recognize Bill's retirement by establishing a scholarship fund in his name.

Bill is a dedicated and loving family man. For 35 years, he has shared his life with Marian. He is a supportive father to his sons Alan, Steven, Kenneth, and their wives Alison, Fran, and Maureen. Three months ago, he became a grandfather to twins Hannah and Jeremy who already express their pride at becoming members of his family. Finally, a tribute to Bill would be incomplete without mentioning that his commitment to education extends to the gridiron of the UCLA Bruins.

Therefore, I ask my colleagues to join me in honoring Bill Schiff, a man who has truly enriched the lives of thousands, especially his students, bringing them the most valuable currencies of knowledge and respect for others.

TRIBUTE TO THE LATE RAYMOND STOTZER

HON. GREG LAUGHLIN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. LAUGHLIN. Mr. Speaker, Texas has experienced a great loss with the death of Raymond Stotzer, engineer-director of the State Department of Highways and Public Transportation.

Hundreds of mourners heard Raymond eulogized at services in New Braunfels October 4. Burial followed in Seguin, in my congressional district.

Texas Governor Bill Clements called Raymond "a dedicated public servant" and said, "His leadership and expertise will not soon be forgotten."

He possessed "a unique combination of brilliance, dedication, and humanitarianism," declared commission chairman Bob Dedman.

Former commission chairman Bob Lanier said, "A big oak tree has fallen with the loss of Raymond." Lanier was commission chairman at the time Raymond was elected to the No. 1 position by the commission.

Commissioner Stoker echoed this same theme, "He had the same respect for maintenance people as he did for commissioners."

Wayne Duddlesten, the newest member of the commission, got to know Raymond well during a short period of time, "He was a man of great spiritual consciousness and commitment."

Raymond graduated from Seguin High School in 1942 and enrolled in Texas A&M University. In 1944, he entered the Navy as an apprentice seaman. In 1946, he was discharged as petty officer second class. In 1947, he received his civil engineering degree from his beloved alma mater, Texas A&M. That same year he went to work for the high-

way department as a field engineer in Seguin. In 1952, he became senior supervising resident engineer in charge of the Comal and Guadalupe residencies.

In 1968, he was named district engineer in Pharr and left his mark with the building of the Queen Isabella Causeway. It is the longest bridge in the State at 12,510 feet and joins the farming and ranching area of south Texas to the coastal recreation area, a mecca for tourists.

His next assignment came in 1974 with his appointment to the district engineer's job in San Antonio. This district provided the dual challenge of urban congestion problems, surrounded by the rural counties and their special needs.

Raymond's experiences were beneficial to Chairman Lanier. Lanier comments, "The question most often asked of me, when I was being asked to come on the commission, was whether I could fairly balance the competing interests of rural and urban districts. Senator John Traeger of Seguin told me, 'If you want to see a guy who fairly balances rural and urban interests I'd like you to meet Raymond Stotzer'. We drove all around the district, and I left thinking this guy was the next potential chief executive officer." That conclusion certainly came as no shock to Senator Traeger, a close friend of Raymond's for more than 40 years. In fact, until his retirement from the Texas Senate in 1985, Senator Traeger carried virtually all legislation critical to advance the Highway department's mission.

In addition to using his deft balancing touch for the rural and urban interests in the San Antonio district, Raymond embarked on another innovation which would save taxpayers millions of dollars and expedite projects significantly.

These were the sort of accomplishments which brought Raymond to the attention of the commission. When Mark Goode retired in September 1986, Raymond was elected by the commission.

To the top job, he brought the same kind of perspective that he had employed throughout his career. He was not interested in personal glory: he truly wanted to serve the public and the "family" within the department. Raymond told the House Transportation Committee during the last session on the legislature that he really believed the top professional positions deserved a pay raise, but if it came to a raise for the executives or the rank and file, he would favor a raise for the rank and file. Fortunately, the legislature found the money to increase the salaries for all department employees. But a big factor was the selflessness that Raymond demonstrated over and over.

Raymond received a great deal of awards for his professional accomplishments. But I would guess, with little fear of contradiction, his most prized had to be the college of engineering award he received from Texas A&M University in April 1989. Raymond commented at that occasion, "To see your fellow man traveling safely and economically to work, church, school, recreation, or wherever, on a modern highway that you are involved in, is a great feeling. I often think our highway department employees fall just one notch below priests, ministers, and doctors, in serving their fellow man."

Raymond is survived by his wife of 44 years, Mary Ann, one daughter, three grandchildren, and his father and stepmother.

A scholarship fund has been established in his name at Texas A&M. In addition, Chairman Lanier announced October 17 he and his wife will underwrite a Raymond Stotzer Award to be presented at the annual short course. Raymond will be missed by his friends and the State of Texas.

CAMBODIA'S TORMENTORS—DOES ANYBODY CARE?

HON. DANA ROHRABACHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. ROHRABACHER. Mr. Speaker, I would like to bring to the urgent attention of my colleagues two articles which appeared in the Washington Post concerning the genocidal rule of the Khmer Rouge in Cambodia. Both were written by survivors of the Cambodian holocaust, and are responses to an article and an editorial which appeared in the Washington Post suggesting, in turn, that there is popular support in Cambodia for the return of the Khmer Rouge and that the United States should be unconcerned about the continued existence of a Vietnamese puppet government in Cambodia.

The first assertion is blatantly false—from 1975 to 1979 the Khmer Rouge slaughtered between 1 and 2 million Cambodians and turned the country into one giant concentration camp. Theirs were among the most vicious and brutal crimes against humanity committed in the second half of the 20th century. The continued strength of these butchers within Cambodia is a reflection of their military might and nothing else.

The second assertion reflects ignorance as to the nature of the Vietnamese-installed regime of Hun Sen and shows an icy indifference to the fate of the Cambodian people. Vietnamese troops invaded and colonized Cambodia under the pretext of ousting the Khmer Rouge, only to continue the cruel repression of the Cambodian people. America represents to oppressed people all over the world a model for individual freedom and self-determination—God given rights to which not only Americans are entitled, but Cambodians as well. To suggest that the enslavement of the Cambodian people is unimportant to Americans is to ignore what American democracy means to those who risk their lives to win freedom and to turn our back on those who need our support the most.

The Khmer Rouge are truly the outlaws of all humanity; the Vietnamese conquerors who replaced them continue to brutally suppress the democratic aspirations of the Cambodian people. It is imperative that the United States Government do everything possible to end the rule of the illegal Vietnamese puppet regime and to prevent the Khmer Rouge from ever again assuming power. Americans share a strong moral bond with the brave Cambodians who are fighting for real freedom and they deserve our stalwart support.

[From the Washington Post, Oct. 30, 1989]

CAMBODIA'S TORMENTORS

(By Dith Pran and Haing Ngor)

We are writing to express our deep dissatisfaction with the flawed article on the Khmer Rouge by Keith Richburg that appeared in The Post Oct. 22. In this article, it is asserted that the Khmer Rouge military successes in Cambodia bespeak a political following for the Khmer Rouge.

We have no affiliation with any Cambodian political grouping, nor do we endorse any political party. We both recently visited Cambodia and the Cambodian displaced-person encampments on the Thai border. We talked face-to-face with our compatriots in the cities and in the countryside.

Contrary to the impression in Mr. Richburg's article, we can confirm that there is virtually no popular support for the Khmer Rouge in either rural or urban areas. The Khmer Rouge are still detested and have almost no following beyond family and friends. The major concern of almost all Cambodians is that the Khmer Rouge will expand by military means and intimidation, regaining control against the popular will of large areas of Cambodia, with the possible resumption of their earlier brutality.

While there is some dispute as to whether up to a million or 2 million Cambodians perished under the Khmer Rouge, virtually every Cambodian family lost a member during that time. The predictable result is a widespread and continuing fear and loathing of the Khmer Rouge inside Cambodia—in urban and rural areas and among the diaspora in the United States, France, and elsewhere. The major hope of Cambodians is: "Khmer Rouge Never Again."

The military successes of the Khmer Rouge are based on their extensive combat experience, ruthless discipline and the major, continuing military support from China through Thailand. Although the headline of the article is "The Hated Khmer Rouge Fights On," there is little in the news story about why the Khmer Rouge are hated and how they are fighting on militarily, which would be of greater interest. Instead, perhaps for the sake of controversy, the article purports to analyze political support for the Khmer Rouge.

Richburg quotes diplomats to the effect that the Khmer Rouge are a "sociological phenomenon" drawing on the "inner feeling all Cambodians have about race, and color and national pride." Yes, almost all Cambodians feel positive about the apparent withdrawal of Vietnamese troops, which among other factors is a result of military pressure from the Khmer Rouge and their Chinese-supplied arsenal. But now that the Vietnamese have announced their withdrawal, attitudes about the Khmer Rouge have little to do with national pride and much to do with stark fear and the Khmer Rouge military muscle.

Cambodians remain disunited politically but there are two things on which most agree; the Vietnamese must totally relinquish control of Cambodia, and any Cambodian regime is preferable to a return of the Khmer Rouge. This widespread consensus and its origins in the pervasive fear of the Khmer Rouge do not come across in the article. We are certainly not supporters of the Vietnamese-installed Hun Sen regime, and wish free elections could be held tomorrow. But this does not mean that there is a following for the Khmer Rouge to take over.

How can Richburg miss these broad attitudes in his reporting? For one thing, there

is little to suggest that he talked to a cross-section of Cambodians. In passing, Richburg does point out that among Cambodians in the cities and towns "apprehension has mounted," but no details are given and one is left with the erroneous impression that in the countryside the Khmer Rouge are somehow less feared or more accepted.

Of only two named Cambodian sources, one is Dr. O Ee, the medical director at Site 8 on the Thai-Cambodian border. He is quoted to the effect that the Khmer Rouge have changed. On the question of Khmer Rouge brutality, Dr. O Ee says "only the West and Vietnam still say that the Khmer Rouge is like that.

Site 8 is a Khmer Rouge encampment, where there are continuing reports of human rights abuses such as forced porterage of military materiel and execution of those who do not comply or attempt escape. So much for the "changed" Khmer Rouge. Furthermore, not to indicate to your readers that Dr. Ee is apparently himself either a Khmer Rouge or working under their control, and therefore certainly not an impartial observer, is a gross reportorial (and editorial) omission.

Among the remaining sources mentioned by Richburg are several diplomats in Bangkok and Phnom Penh. From 1975 to 1979, during the Khmer Rouge reign of terror—when we were both trapped inside Cambodia—journalists often quoted diplomats to the effect that refugee accounts of Khmer Rouge atrocities were exaggerated. In a throwback to those times. Richburg seems to be drawing on the diplomatic drawing rooms for most of his views about Cambodia and the Khmer Rouge.

But your readers deserve a comprehensive and fair assessment of the Khmer Rouge that goes beyond "knowledgeable" diplomatic sources. We suggest that to supplement the Richburg article, The Post dispatch a reporter to survey Cambodian views about the Khmer Rouge in the wake of the announced Vietnamese troop withdrawal. Such a story might also examine current practices of the Khmer Rouge inside Cambodia, on the battlefield and in areas that they control, including the border encampments. Alarmingly, just as in the past Khmer Rouge areas are normally closed to journalists and other outsiders, so information often has to be gathered from escapees and others. But this is a journalistic effort worth making.

The U.S. administration seems unwilling to exert leadership to prevent the threat of a Khmer Rouge return to dominance. When the influential Washington Post conveys the erroneous impression that the Khmer Rouge have a political following in Cambodia and omits describing Khmer Rouge activities, heads in Washington and other capitals go farther into the sand.

If the international community is to prevent a Khmer Rouge return, the first step is balanced and accurate reporting about their actions and the widespread fear that this engenders in the Cambodian people. As long as the Khmer Rouge exist in Cambodia, we have no hope for peace.

[From the Washington Post, Oct. 30, 1989]

DOES ANYBODY CARE?

(By Saren Thach)

I find Richard Cohen's comment "Really, what do we care if a pro-Vietnam government takes over in Cambodia?" (i.e., The People's Republic of Kampuchea—PRK) an insult to Cambodians and Cambodian Americans such as myself (op-ed, Sept. 29). The hands of Hun Sen, Heng Samrin and their colleagues in the PRK are bloodied from the brutal murders of my family and the families of many other Cambodians. Also, I find The Post's plea that "unless and until the United States can bring itself to rely on Hun Sen, it will not have a relevant role in keeping the Khmer Rouge from bidding again for power" extremely naive in regards to who helped fill the "killing fields" in Cambodia ["Cambodia's Agony," editorial, Sept. 3.]

After the fall of Phnom Penh in 1975 and when Heng Samrin was in charge of the eastern portion of Cambodia, he implemented the Khmer Rouge's plan of a forced exodus from populated areas to the countryside. Every echelon of the Khmer Rouge leadership carried out mass executions of the families of the educated, military and civil servants, and even the Buddhist monks. In 1975 in Svay Rieng Province, my oldest brother, after being starved for several months, was ordered to dig his own grave by Heng Samrin's deputies and was then murdered (witnessed by my brother's wife's uncle, who survives).

In 1976 my next oldest brother, a schoolteacher, seeking escape from the constant killings ordered by Heng Samrin in Svay Rieng Province in Cambodia, fled to Tay Ninh Province in Vietnam. But instead of his finding relief from the terror, he was returned by the Vietnamese Communists to Svay Rieng, exchanging him to Heng Samrin's troops for one cow. After that, he was paraded before a meeting of local villagers, repeatedly beaten and cut to ribbons with a hoe and left to die before their eyes—his body to be eaten by wild dogs that night (witnessed by my eldest brother's wife, who survives).

Also in 1975, my wife, several months pregnant, was forced to march for 10 days from Phom Penh to Svay Rieng Province, which borders Vietnam. The long march caused a premature birth, and my baby girl soon died because her starving mother lacked the milk to keep her alive. The same day my wife gave birth she was forced to work immediately in the rice fields. My 4-year-old son was forced by Heng Samrin's troops to walk many miles through the jungle to beg rice from distant relatives. In late 1978, my wife and then 7-year-old son were forced by the Khmer Rouge to march to Pursat province in western Cambodia, and the Khmer Rouge tried to force her to marry one of its cadre. When she refused, they led her to one of the nearby "killing fields" and murdered her and my son (eyewitness account by my surviving brother-in-law).

The Khmer Rouge was composed of two factions, the Western headed by Pol Pot and the Eastern headed by Heng Samrin (the Eastern portion of Cambodia was occupied by the Vietnamese), Hun Sen was a regimental commander under Heng Samrin, and operated in the northeastern province of Kompong Cham. From day one, they and the troops under their command killed indiscriminately anyone in their way, and when overrunning two hospitals, Heng Samrin's and Hun Sen's troops threw hand grenades and later slit the throats of critically ill patients [Washington Post, Sept. 10, 1973]. In July 1973, during the battle to relieve the provincial capital, my special forces unit was sent to relieve the garrison at Kompong Cham, which had been under seige by Hun Sen's troops for three weeks. They discovered hundreds of bodies of men, women and children, young and old, including Buddhist monks, from villages near the provincial capital who had been first tortured and then killed—some executed by a gunshot to the back of the head, others chopped to death with hoes, still others strangled to death or suffocated by plastic bags tied over their heads.

In 1973, Heng Samrin as Eastern commander of the Khmer Rouge, turned his entire command over to the Vietnamese, who trained, armed and fought alongside them, and who were instrumental in the capture of Phnom Penh in 1975. The Khmer Rouge in the east under the command of Heng Samrin and Hun Sen were not particularly tender—massacres of people, especially of the Muslim minority, the Chams, occurred there, And Hun Sen, as a senior military commander in the eastern region, was charged with personally leading the single greatest cross-border massacre of Vietnamese civilians during the Pol Pot days [Bangkok Post, May 2, 1989]

Given Hun Sen's proven record of genocide against the Chams and his subservient role to the Vietnamese, it is likely that this cross-border massacre by Hun Sen and his troops focused on ethnic minorities in Vietnam (Chams and Stieng) and was Vietnamese-inspired. This massacre served two purposes. First it took care of the rebellious Cham and "Montagnards" in that region of Vietnam, who historically disliked the Vietnamese and whom the Vietnamese have been trying to eradicate for centuries. The various "Montagnard" groups made up the majority of the U.S. indigenous Special Forces troops who fought the Communists, and the Vietnamese traditionally referred to them as "moi" or savages.

Second, this gave the Vietnamese the excuse to invade and colonize Cambodia. This explains how Hun Sen, Heng Samrin and others of the Eastern Zone Khmer Rouge could maintain their close relationship with the Vietnamese, even after such a dastardly act as the cross-border massacre. In 1977, Hun Sen and Heng Samrin fled to the open arms of the Vietnamese, not because they objected to the degree of the Khmer Rouge massacres but because they learned they were targeted for execution in a purge led by party cadre Ke Pauk. Pol Pot's "final solution" included a plan to kill off all Cambodians over the age of 13, except for his most trusted inner circle of friends—"the Paris Clique." Pol Pot had great mistrust of the loyalty of Hun Sen, Heng Samrin and the others in the Eastern command because of their close relationship with the Vietnamese.

Regarding Richard Cohen's column: the United States should care if a pro-Vietnam government takes over in Cambodia, especially when its leaders' hands are equally as bloody as those of Pol Pot's Khmer Rouge. Since the United States ratified the Convention on Genocide last year, it is hypocrisy for us not to care. The renowned Jewish author Elie Wiesel said that when governments seek to destroy a people, they must kill twice: first the people, then the memory. Mr. Cohen's game with semantics, calling the mass murder of Cambodians autogenocide rather than genocide, is an attempt to kill the memory.

PLIGHT OF GEORGI BELITZKY

HON. VIC FAZIO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. FAZIO. Mr. Speaker, I rise today to draw attention to the plight of Georgi Belitzky, a Lithuanian Jew who has been refused permission to leave the Soviet Union since 1981.

Georgi Belitzky first applied for permission to emigrate to Israel in 1979. However, the Soviet Ministry of Defense has denied him permission to leave, claiming he has knowledge of state secrets. His wife and sons were allowed to emigrate to Israel 2 weeks after they submitted their applications.

Prior to 1979, Georgi was an employee of the Institute of Mechanics. While employed by the institute, he assisted in military enterprises. He received the lowest level of military clearance and was admitted to military bases, but he was never given access to secret documents. Workers with the same clearance level are allowed to leave the Soviet Union 5 years after they turn in their certificate of clearance. Nevertheless, Georgi has been told that he must wait 30 years to leave.

In April of 1988, Georgi was told that his security classification was to conclude in 1993 instead of 2010. After questioning the Soviet Government's denial of permission to leave for 8 years, Georgi finally learned that the denial was the direct result of his work on a military base in 1975. Georgi also recently learned that the Radio Ministry, where he had previously worked, had removed its objection to his departure. However, at the same time, he received word that the Ministry of Defense again refused his application.

Georgi is one of the Jewish community leaders in his home town of Vilnius. He has helped form a religious study group and a public library on Jewish studies. He and other Lithuanian Jews have petitioned Moscow in hope of having his restriction lifted.

In the spirit of glasnost and improved United States-Soviet relations, I hope that Georgi and other Soviet Jews who desire to leave the country are not denied permission by frivolous and arbitrary obstacles. I strongly urge my colleagues to join with me in urging the Soviet Union to reconsider its practices with regard to Georgi Belitzky and others who wish to emigrate from the Soviet Union.

REPRESENTATIVE MILLER SALUTES JOHN E. DeVITO

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. MILLER of California. Mr. Speaker, one of the most dedicated and talented public servants in the history of Contra Costa County, CA, John E. DeVito, is about to retire as the executive director of the Contra Costa Water District. I want to take a few minutes of the House's time to acknowledge his many accomplishments and contributions to the people of my district and the State of California, and his long years of work with me on behalf of improved water policy for the United States.

John DeVito has spent over 30 years working tirelessly on behalf of the residents of Contra Costa County. The record of leadership that our county has on water quality, on preservation of the Sacramento-San Joaquin Delta and San Francisco Bay, and on leading the way on innovative water policy is, to no small extent, attributable to the dedication and persistence of this talented public servant.

In addition, John has served as the "water professor," educating three generations of elected officials, myself included, in the complexities of water policy and water politics. His detailed knowledge of the history, nuances, and provisions of water law and water lore make him a unique resource as well as a formidable advocate for high quality water.

John DeVito's career began in the mid-1950's, when he worked alongside the titans of California water development, including Bizz Johnson, John McFall, Bernie Sisk, John Baldwin, Wayne Aspinall, and Henry Jackson at the congressional level. Together, these leaders envisioned and built the massive water systems that made possible the economic miracle of modern California.

John came to the Contra Costa Water District in 1956 as an administrative assistant to Tom Carlson. In rapid succession, he became assistant general manager and then general manager in 1964. He was the moving force behind construction of Contra Loma reservoir, which provide Contra Costa County with its own storage facility to protect against quality degradation.

Throughout the years, John has played a key role in many of the subsequent legislative achievements we have been able to record on behalf of the 350,000 customers of the Contra Costa Water District and the peope of California. When I wrote the legislation that mandated the first, comprehensive review of the Bureau of Reclamation's irrigation policies in the Central Valley in 1977, John provided valued advice.

When we reformed the reclamation law in 1982 and 1987, his experience and knowledge of the program was of enormous value in our efforts to curb abuses that resulted in the waste of water and the unjustified subsidization of wealthy agribusinesses.

And in 1986, he played a very important role in helping to develop our legislation to authorize a coordinated operating agreement between the Federal and State governments—predicated on the first, firm guarantees of water quality protection for the delta in history. His work on behalf of the Federal delta protection legislation paralleled much of his work in the 1950's together with my father, the late state Senator George Miller, Jr., on behalf of the State Delta Protection Act.

John's many contributions in the field of water policy have not been limited to serving only the Contra Costa County, however. He has served in a wide range of leadership roles with State and national organizations dealing with water policy, including the Association of California Water Agencies, the Bay Area Water Works Council, the California and the National Water Resources Association, where he organized the Municipal and Industrial Water Committee.

John, and his wife Evelyn, have also been active in a long list of community activities, including the American Cancer Society.

On November 17, many of the leaders of Contra Costa County and the water community will be joining Evelyn and John DeVito for his retirement dinner, an event I very much hope to attend too. I know that every Member of this House joins in wishing John the very best, and in thanking him for his decades of devoted service and enormous achievements on behalf of all Californians. He is the exemplar of the dedicated, conscientious and effective public servant, and I am proud to call him a good friend and teacher as well.

SURVEYING AND MAPPING COOPERATIVE OPPORTUNITY ACT OF 1989

HON. NICK JOE RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. RAHALL. Mr. Speaker, today I am introducing legislation that is long overdue. This legislation would require the U.S. Geological Survey to increase its use of private mapping firms under contract so as to support the USGS in its statutory mandate of providing national mapping and surveying expertise and leadership.

While I have always been a supporter of the programs carried out by the USGS, especially under the recent capable leadership of the bureau's distinguished Director, Dallas Peck, I am concerned that the Survey has not increased its use of the advances and efficiencies in mapping and surveying that exist in the private sector, especially in mapping techniques for scales larger than 1-to-24,000.

In my opinion, the USGS should be more open to utilizing the state-of-the-art technologies that the private sector has developed and is willing to provide for the use of the Federal Government. It is my understanding that the Army Corps of Engineers annually contracts for 60 to 70 percent of its surveying and mapping needs, and that the National Park Service and the Forest Service also contract with private firms for their various mapping activities. In comparison, the National Mapping Division's total fiscal year 1988 budget was around $90 million, of which only $5.7 million was spent under contract. Only 6.3 percent of the fiscal year 1988 USGS National Mapping Division budget was spent under contract.

In light of this situation, I am introducing legislation that establishes a 4-year pilot program which requires the USGS to incrementally increase its percent of mapping activities done by contract with private mapping firms. The Surveying and Mapping Cooperative Opportunity Program, to be established in the National Mapping Division of the USGS, shall apply to all mapping and surveying activities of the National Mapping Division. These activities include the acquisition of topographic-oriented mapping data, the acquisition of hydrographic-oriented mapping data, and the design, compi-

lation, printing, and dissemination of printed, digital, or photographic-based map and chart products, among other activities.

In carrying out the Surveying and Mapping Cooperative Opportunity Program, the USGS is to make annual incremental increases in the percentage of surveying and mapping activities which are performed under contract, beginning with not less than 10 percent in fiscal year 1991, not less than 20 percent in fiscal year 1992, not less than 35 percent in fiscal year 1993, and not less than 50 percent for fiscal year 1994.

This bill also requires annual reports on the implementation of the Surveying and Mapping Cooperative Opportunity Program. These reports are to be done in consultation with the Administrator of the Office of Federal Procurement Policy and shall include an inventory of those surveying and mapping activities that have been performed annually under contract by private firms and by the USGS. This bill also provides for submission of a final report evaluating the program and making recommendations for expansion of this program to other agencies.

The intent of this legislation is to promote partnership with the private sector in the critical areas of mapping and surveying for this Nation's myriad needs. I wish to emphasize that this bill should in no way be construed to indicate any criticism or dissatisfaction of the U.S. Geological Survey. This agency is staffed by some of this Nation's most respected and dedicated scientists, engineers, cartographers, and other professionals. However, as chairman of the Subcommittee on Mining and Natural Resources, which has jurisdiction over the USGS, I believe it is incumbent on the Congress to seek ways to reduce Federal spending while maintaining the highest level of expertise and professionalism. We can begin by providing cooperative opportunities between the Federal agencies and the private sector.

I believe that this is good legislation in that it will promote an atmosphere of cooperation and ease technology transfer between an agency of the Federal Government and the private sector by which we will all benefit.

MICHAEL E. MATCHO, VICE PRESIDENT OF U.S. STEEL WORKERS UNION LOCAL 4889, GREATLY MISSED BY FAMILY AND FRIENDS

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. KANJORSKI. Mr. Speaker, I rise today to ask my colleagues to join me in extending sympathy to the family of Mr. Michael E. Matcho, residents of Wilkes-Barre, PA. Mr. Matcho passed away on May 12, 1989.

A former Democratic committeeman, he worked tirelessly to encourage all citizens to play an active role in government. Mr. Matcho also served as vice president of U.S. Steel Workers Local 4889. The energy and enthusiasm he possessed contributed to his success in life. His zest for life served as an inspiration to those who were fortunate enough to know Michael Matcho.

As a tribute, I would like to place a portion of his obituary in the CONGRESSIONAL RECORD and extend my most sincere condolences to his family and friends:

MICHAEL MATCHO

Michael E. Matcho, Washington Square Apartments, 163 South Washington Street, Wilkes-Barre, and a former resident of North Wilkes-Barre, died Friday evening (May 12, 1989) at the Mercy Hospital, Wilkes-Barre after a short illness.

Born in Wilkes-Barre, he was the son of the late Michael and Anna Dzurko Macho. He was a member of Sacred Heart Roman Catholic Church, North Main Street, Wilkes-Barre.

Until his retirement he had been employed by U.S. Steel Fairless Works, Morrisville, for 20 years. Prior to that he had been employed by Hazard Wire Rope, Wilkes-Barre, for 15 years.

He was a member of the United Steel Workers Union and served as secretary/treasurer of the union local at Fairless for many years. He organized and was the first president of the Steel Workers Organization of Active Retirees at Fairless.

He moved to Trenton, New Jersey, in 1952 and returned to Wilkes-Barre in 1977. He was the former general manager of the Brookside Yanks, a local baseball club, in the late 1940s and early 1950s. He was also a member of the North End Slovak Citizens Club, Wilkes-Barre. For many years he wrote articles for the Sunday Independent for the North End and Brookside sections of Wilkes-Barre. More recently he served as Democratic committeeman in Wilkes-Barre.

He and his wife, the former Elizabeth C. Siemienowicz, celebrated their 52nd wedding anniversary October 17, 1988.

Preceding him in death was a brother, Joseph Matcho. Surviving, besides his wife, Elizabeth, a guest at Valley Crest Nursing Home, Plains Township are sons: Gerald M., Bridgewater, New Jersey; Michael K., Trenton, New Jersey; brothers: John Matcho, George Matcho, and Francis Matcho, all of Wilkes-Barre; sister: Mrs. Mary Masters, Belleville, New Jersey; four grandchildren; several nieces and nephews.

SAVE OUR PLANET'S ECOSYSTEM

HON. DAVID R. OBEY

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. OBEY. Mr. Speaker, I'd like to bring to my colleagues attention an article written for the EPA Journal by former Wisconsin Senator Gaylord Nelson, the founder of Earth Day.

Nelson, who is now Senior Counselor for the Wilderness Society, has proposed that the United States and the Soviet Union reduce military expenditures by 50 percent over the next 10 years, with half of the annual savings devoted to saving our planet's ecosystem. He points out that there are no losers under this proposal and he asks a question each of us ought to ask ourselves and our children: "How much longer are we and the Soviet Union going to expend a total of $600 billion a year on weapons systems that put us both in greater jeopardy while degrading and destroying the very resource base that sustains us?"

Let's face it. We need so many things in our society, yet there never seems to be enough money to pay for them. We need dollars to combat toxic pollution and reverse global climate change. We need research and development into alternative energy source. We need better bridges, transportation systems, and sewage treatment plants and we need to guarantee our children a decent future on this plant.

Senator Nelson is right. The cold war is waning and we have an opportunity to cooperate with the Soviet Union in making tough choices on spending priorities that we have been avoiding for years. To throw away an opportunity to encourage peace and the transfer of billions of wasteful Pentagon dollars for human resources would be a terrible tragedy. I commend this article to my colleagues and ask you to think about our future.

CAN WE WIN WITH THE CRISIS-ORIENTED APPROACH?

(By Gaylord Nelson)

The 20th anniversary of Earth Day is just 10 months away. Twenty million people participated in that dramatic event.

The main purpose of Earth Day was to organize a nationwide, grassroots demonstration of public concern for the environment that would get the attention of the politicians and force the environment issue into the mainstream of political dialogue. The politicians got the message, and they responded with major legislative initiatives at the national, state, and local levels.

While we have made some significant progress here and there since Earth Day, a continuance of efforts at current levels will fall far short of what is needed and will not prevent continued steady environmental decline.

The resiliency of the living planet has already been dangerously compromised. It is rapidly losing its capacity to renew itself. The insults to the land, water, and air are too many and too massive.

In short, threads of the net that hold the world ecosystem together are breaking and unravelling. Only a massive, coordinated worldwide effort will save what is left of the natural world and give nature a chance to repair some of the damage we have caused.

If this sounds like alarmist talk, it is, because the situation is nothing short of alarming.

Plans for a worldwide Earth Day in 1990 are well underway. Indications are that this will be the largest grassroots demonstration in history.

The single most important objective of this 20th anniversary celebration is a worldwide public demonstration so overwhelming that it literally shakes the political leadership of the world out of its lethargy and galvanizes it into a monumental, cooperative effort to stop the deterioration of the planet and begin its restoration.

It is time our leaders recognize that the state of our environment is far more important than the threat of nuclear war, missile gaps, star wars, crime on the streets, communism in Nicaragua, world hunger, national economies, or any of a dozen other issues that occupy the front pages of our daily newspapers.

It is time for our political leaders to recognize an important truth: the fate of the living planet is the most important issue facing mankind. No other issue, now and for all centuries to come, is more relevant to

our way of life than the status of our resources—air, water, soil, minerals, scenic beauty, wildlife habitat, forests, rivers, lakes, and oceans. It is the resource base that determines how we live and defines our habitat and the limitations for survival of all species: plants, animals, and man.

What is needed right now is strong, vigorous, imaginative leadership from President Bush and President Gorbachev. They have it in their power to alter dramatically the course of history, if they will but grasp the opportunity.

The cause is right. The time is ripe. The world is ready. Mr. Bush and Mr. Gorbachev should begin by formally declaring an end to the cold war and the beginning of a new era.

The Soviet economy is a shambles. It desperately needs relief from the burden of unproductive military expendtirues. So does the United States. The national debt overhangs the economy, saps the vitality of our whole economic and social system, weakens our competitiveness, and distorts national priorities. Both nations would benefit from a drastic reduction in military expenditures and a reallocation of resources to the environment and other socially productive enterprises.

President Bush would inspire the world and give it the dramatic leadership it yearns for if he would propose that the United States and the Soviet Union mutually reduce military expenditures by 50 percent in the next 10 years and another 50 percent in the following decade, with half the annual savings allocated to husbanding the ecosystem of the planet. Under this proposal, everyone is a winner—there are no losers.

This is not unilateral disarmament; it is not idealism run amok; it is, plainly and simply, hard-nosed realism. How much longer are we and the Soviet Union going to expend a total of $600 billion a year on weapon systems that put us both in greater jeopardy while degrading and destroying the very resource base that sustains us?

Once Mr. Bush and Mr. Gorbachev reach an agreement in principle, the iron curtain countries, western Europe, and most other countries could be persuaded to follow because it would also serve their own best interests.

Very few Presidents are afforded the opportunity to achieve greatness. Those who did, achieved it because they successfully met a major threat to the security of the nation: war, social turmoil, economic chaos. These were the challenges faced by Washington, Lincoln, and FDR.

Now, for the first time in history, the nation is confronted with a challenge far more serious than any war or economic depression.

Mr. Bush is the first president in contemporary times to define himself as a conservation president. He has a golden opportunity to grasp this issue and lead the world. The United States is the largest industrial power—and the world's greatest polluter. This nation has an obligation to set an example.

Whatever else President Bush does in his presidency will fade into distant memories, but if he successfully initiates the battle to preserve the integrity of the planet, he will be remembered as long as history is written.

INTRODUCTION OF THE PARTNERSHIP FOR LONG-TERM CARE ACT OF 1989

HON. BARBARA B. KENNELLY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1939

Mrs. KENNELLY. Mr. Speaker, the elderly of this Nation have spoken. I think that our experience with the Catastrophic Health Care Act makes that clear. The elderly of this Nation, and their families, need Long-term health care.

They would like a new entitlement program, but frankly we all know that we can't afford one at this time. That is why, Mr. Speaker, I am introducing the Partnership for Long-term Care Act of 1989 which does three things.

The first, and the cornerstone, is a Medicaid asset-waiver program. It is premised on individuals, young and old, taking some responsibility for their own long-term care needs. To the extent that a certified insurance policy pays for long-term care services, these payments are subtracted from covered assets for Medicaid eligibility purposes. For example, assume individuals A, B, and C all purchase long-term care insurance.

Individual A has $25,000 of insurance and $25,000 of assets. To the extent that $25,000 of long-term care expenses are paid out by the insurance company, A becomes eligible for Medicaid long-term care services and is allowed to retain $25,000 of assets.

Individual B has $25,000 of insurance and $100,000 of assets. To the extent that $25,000 of long-term care expenses are paid out by the insurance company, B only has to spend the difference between $75,000 and the State Medicaid eligibility level—about $2000—to be Medicaid eligible and is allowed to retain $25,000 worth of assets.

Individual C has $25,000 of assets and $35,000 of insurance. To the extent that $35,000 of long-term care expenses are paid out by the insurance company, C becomes Medicaid eligible and retains $25,000 of assets.

Now the computer modelling my State of Connecticut has done, indicates that the insurance is most likely to be purchased by middle income individuals and that these individuals are mostly likely to avail themselves of option C. This may seems trivial, however it has important fiscal policy implications. To the extent that individuals elect option C, Medicaid saves the difference—the extent to which insurance protection exceeds assets.

The Connecticut Office of Policy and Management developed the asset waiver model. Nine States, including Connecticut, are currently working on demonstrations aimed at developing public/private partnerships. I think the project has tremendous social and economic potential—social in that our seniors, and their families will be able to plan for much of their own long-term care needs and economic in the form of a valuable new market for the insurance industry and the savings of valuable Medicaid dollars by the State and Federal Governments.

The second component of my bill assures that our scarce public resources are targeted to those who need assistance. Some States have set Medicaid eligibility levels as low as 25 percent of poverty. Therefore, I would require States to establish a medically needy program for individuals below the poverty line. I would also provide a Federal a premium subsidy for those who cannot otherwise afford private long-term care insurance—that is the difference between the cost of insurance and 5 percent of gross income.

And finally, though the market for private long-term care insurance is now in its second and third generation of policies the market has grown dramatically in the past few years. Therefore, I would clarify Federal tax law in several areas to encourage individuals to purchase long-term care policies, employers to offer employees long-term care insurance and clarify the treatment of long-term care insurance reserves.

Finally, I would pay for this bill, which I truly believe is a family bill, not just an elderly bill, by removing the cap from income subject to the Medicare tax.

I would urge my colleagues support.

JACKSONVILLE, UNEXPECTEDLY: THE FLIP SIDE OF FANTASY

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. BENNETT. Mr. Speaker, this past Sunday's edition of the Washington Post, November 5, 1989, had a veritable smorgasbord of information on the city of Jacksonville, FL, which is the dominant city in my congressional district. The two articles, "Jacksonville, Unexpectedly: The Flip Side of Fantasy," and "Jacksonville, Emerges from Backwater, Heads for Big Time," really show the incredible momentum that is driving the city. I am glad the Post has recognized Jacksonville as one of the truly up-and-coming cities of the South and of the Nation. Those of us from Jacksonville have always known that.

I submit for the RECORD excerpts from this article "Jacksonville Unexpectedly: The Flip Side of Fantasy."

JACKSONVILLE UNEXPECTEDLY: THE FLIP SIDE OF FANTASY

(By James T. Yenckel)

Appearances, as they say, are deceiving, and this maxim can apply to cities as well as people. At first glance, Jacksonville seems a young city, sprouting several brash new office buildings mirrored against the fast-flowing waters of the St. Johns River. But for the random luck of history, however, it might well have been known as America's oldest city.

It is, in fact, America's largest city, though you might think this dubious honor should go to New York or Los Angeles. The phrasing here is misleading: largest not in terms of population but in area. In 1968, the city of Jacksonville merged with the neighboring county to form—at 841 square miles—the largest-in-area city in the nation. On the Florida map, it appears as a giant blob that puts Miami to shame.

The city, as I discovered earlier this year, is full of rewards. If you want a peek at Old

Florida, a Florida with substantial roots, this is the place to go.

My own interest in Jacksonville is historical. The stretch of Atlantic Coast from Jacksonville south about 25 miles to St. Augustine and a bit beyond is promoted by state tourism officials as the First Coast, and for good reason. In the mid-16th century—before Jamestown in Virginia and the Plymouth Pilgrims—it became the first battleground for European control of the North American continent. Important remnants of that monumental conflict still exist.

But the beaches should not be bypassed. Along this part of the coast, they extend for miles in wide avenues of packed golden sand. Within Jacksonville itself is a trio of small weathered beach communities—Atlantic Beach, Neptune Beach and Jacksonville Beach—that are popular with the local crowds. In deep winter, you can sunbathe comfortably and take long walks on the sand. By April, timid bathers can wade knee-deep in the surf without shivering, and hardier swimmers who plunge in can stay comfortable as long as they keep moving.

I was most impressed by a 4½-mile-long stretch of undeveloped beach that is a part of Guana River State Park, about a dozen miles south of Jacksonville. Grass-topped sand dunes, 30 to 40 feet high, shield the beach from the passing traffic on Florida A1A. On the beach itself, almost nothing of the modern world intrudes—no trash cans, restrooms or lifeguard stands.

If you prefer your beaches less wild, at least three big resorts in the Jacksonville area combine the diversions of beach, golf and tennis with first-class amenities. To the south of the city, the bustling Marriott at Sawgrass is a sprawling high-rise complex that seems to draw an active young crowd. Nearby is the more subdued—and more relaxing—Ponte Vedra Inn and Club, an old but excellently maintained resort where most of the rooms sit directly on the beach. To the north of Jacksonville is Amelia Island Plantation, a huge villa complex tucked behind coastal sand dunes. It draws many families because of the good facilities for youngsters.

Downtown Jacksonville sits about 12 miles inland from the Atlantic, too far away for sea views. No matter. The wide St. Johns River serves just as nicely, and in recent years the city has begun to take appropriate advantage of its attractive river setting. Two years ago, Jacksonville Landing, a festival marketplace of shops, restaurants, snack stalls and bars opened on the western bank of the river. Along the eastern shore is a mile-long boardwalk of more shops and restaurants called the Riverwalk. Both developments, brightly lighted at night, attract throngs to the riverfront, giving the city a festive look. Water taxis shuttle back and forth constantly.

The first colonists in the Jacksonville area were the French, who built Fort Caroline on a flat knoll overlooking the St. Johns River in 1564. To their misfortune, the Spanish arrived soon after, booted them out in something of a brutal massacre and in 1565 settled St. Augustine. St. Augustine now claims the distinction of being the oldest permanent settlement in the United States. If the French had held out, who knows?

As both river-port and beach community, Jacksonville obviously lives, works and plays by the water. On the golf course or pursuing 16th-century battle sites, you are rarely without a good water view. This is a key to the old city's charm and reason enough to pause on your way to Disney World or points south. I spent most of a week there, free from the crowds elsewhere in the state, and thought myself well rewarded. This is the real Florida, and it makes a refreshing break from too much fantasy.

VETERANS DAY

HON. DAVID E. PRICE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. PRICE. Mr. Speaker, I'm proud to join the millions of people who will spend Veterans Day honoring the brave men and women who have served their country so well.

Each year, we set aside this day of special remembrance to honor our war dead, recognize our war heroes and to express our gratitude for the courageous and selfless service of each and every veteran.

Across the country, we will be marching in parades, including the Veterans Day parade I'll be reviewing in Raleigh, NC, waving American flags and celebrating the heroism of our veterans. Here in the Nation's Capital, a memorial service will be held at Arlington National Cemetery, where the Tomb of the Unknown symbolizes America's commitment to honor our war dead. In my State of North Carolina, veterans groups will be holding numerous events, including a service at the U.S.S. *North Carolina* Battleship Memorial, the World War II ship docked in Wilmington.

But it's important that we honor our veterans in other ways as well. We in the Congress must strive every day to preserve, protect, and maintain veterans' benefits. Certainly, they deserve no less from this country.

I was reminded of that on October 28, as 400 North Carolina veterans gathered in Raleigh to hear the remarks of our distinguished colleague, Representative G.V. "SONNY" MONTGOMERY, the longtime chairman of the House Veterans Affairs Committee. I was honored to host this event, along with my North Carolina colleagues, Representatives TIM VALENTINE and MARTIN LANCASTER.

Under SONNY MONTGOMERY'S leadership, Congress has served as the veteran's advocate, restoring proposed budget cuts in recent years and working hard to improve veterans' programs. Veterans saw legislative milestones in the 100th Congress, as we boosted employment training and counseling for veterans, improved health care programs, made permanent the new GI education bill, established a judicial review procedure and perhaps most importantly, elevated the Veteran's Administration to Cabinet status.

In this 101st Congress, we've already passed a number of important pieces of legislation. So far this year, we've strengthened the veterans' health facility nurses; provided mandated outpatient care for certain veterans; provided cost-of-living increases to service-connected disabled veterans; and made permanent a program establishing Federal job preference for certain Vietnam-era veterans.

We and our veterans will face additional challenges in the years ahead. As SONNY MONTGOMERY told the veterans in Raleigh, the veterans' health care system and the aging veterans' population present formidable challenges to policymakers in Washington. I firmly believe that we in Congress must fulfill our obligations to those who served their country. I urge my colleagues to join me in renewing our commitment to improving the lives of America's veterans. I can think of no better way to mark Veterans Day.

CONGRATULATIONS TO PAUL TAGLIABUE UPON HIS APPOINTMENT AS NATIONAL FOOTBALL LEAGUE COMMISSIONER

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. MORELLA. Mr. Speaker, I rise today to congratulate Paul Tagliabue of Bethesda, MD on his appointment as the seventh commissioner of the National Football League. I would also like to extend my congratulations on this happy occasion to Paul's wife, Chandler, and his two children, Drew and Emily.

It seems as if everyone knows that as the past legal counsel for the NFL, Paul has been in the huddle in most of the major decisions affecting professional football during the past 10 years. It also appears as if everyone is aware that this experience, coupled with a sharp legal insight which he has developed as a senior partner in a major Washington law firm, has more than adequately equipped him to lead th NFL into the 1990's. However, I am not sure that everyone is aware that the new commissioner was also an excellent basketball player and team captain at Georgetown University. As a 6'5" forward, Paul towered over his opponents and averaged 9.0 rebounds a game. Just as a comparison, basketball superstar Patrick Ewing a few years ago finished his distinguished Georgetown career with a 9.2-rebounds-per-game average.

Through his multitude of talents, intelligence, and dedication, it is evident that Paul Tagliabue is uniquely qualified to tackle the demands and complexities of the commissionership. He will undoubtedly quarterback the NFL for many years to come. I salute Paul and wish him continued success.

TRIBUTE TO DRS. ALAN SCHRIESHEIM AND CHARLES TILL

HON. HARRIS W. FAWELL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. FAWELL. Mr. Speaker, I rise today to pay tribute to Dr. Alan Schriesheim, Director and Chief Executive Officer of the U.S. Department of Energy's Argonne National Laboratory, and Dr. Charles Till, Argonne's Associate Laboratory Director for Engineering Research, on their recent election to the National Academy of Engineering.

Dr. Schriesheim was honored for his innovative chemical and chemical engineering research and for his leadership in both the aca-

demic and industrial sectors. Before coming to Argonne in 1983, Dr. Schriesheim worked for 27 years at Exxon Corp., serving as general manager of Exxon's engineering technology department and director of Exxon's corporate research laboratories. A fellow of the New York Academy of Sciences and the American Association for the Advancement of Science, Dr. Schriesheim holds 22 patents and has authored or coauthored more than 70 papers.

Dr. Schriesheim serves on the President's Council on Superconductivity for American Competitiveness, the U.S. Congressional Advisory Committee on Science and Technology, the State of Illinois Governor's Commission on Science and Technology, the Illinois Council of Advisors, and numerous other scientific, technological, and educational advisory committees.

Dr. Schriesheim holds a bachelor of science degree in chemistry from the Polytechnical Institute of Brooklyn and a doctorate in physical organic chemistry from Pennsylvania State University.

Dr. Till was honored for his leadership in fast-reactor technology development. Dr. Till came to Argonne in 1963. Prior to being associate laboratory director, he was director and associate division director of the applied physics division, and manager of the zero power reactor program at Argonne. Before coming to Argonne, Dr. Till was the physicist in charge of the startup of Canada's first prototype heavy-water reactor at Canadian General Electric Co.

Dr. Till is a member of the Department of Energy's United States-Japanese Joint Coordination Committee on reactor information exchange, a past chairman of the Nuclear Energy Agency Committee on Reactor Physics of the Organization for Economic Cooperation and Development, and former technical director of the U.S. delegation for the international negotiation of nonproliferation of fast breeder reactors.

A native of Melfort, SK, Dr. Till holds a bachelor's degree in engineering physics and a master's degree in physics from the University of Saskatchewan, Saskatoon, a master's degree in business administration from the University of Chicago, and a doctorate in nuclear engineering from the University of London.

Mr. Speaker, I congratulate these men on their recent honors and their life-long contributions to science.

MOMENT OF SILENCE FOR VETERANS EVERYWHERE

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. DINGELL. Mr. Speaker, at 11 a.m. on November 11, 1918, an armistice between the Allies and Central Powers ended the fighting of World War I and a widespread silence descended across the Western front for a few moments. As the years passed by, each November 11, at precisely 9 a.m. a moment of silence was observed in towns across the United States, and as traffic and business came to a halt for 2 minutes, the American Legion would send forth buglers to play taps in memory of our World War I veterans. Over time, the remembrances slowed, as our country became engulfed in the bitter struggles of World War II, and the peaceful silence was shattered.

In 1954, after 406,000 Americans died around the world, there was a widespread longing for a way to honor their memory. President Eisenhower filled the desire by signing the bill which proclaimed November 11 as Veterans Day, and called on people everywhere to work for peace and freedom. It is in this spirit which we should always celebrate this day, recalling the bravery and courage of veterans all over the world who gave up their lives in order to preserve democracy. Over a million people have given their lives for our country since the Revolutionary War, and the scars from their deaths will never heal. But from these wounds we have seen the birth of much better things, a system of values honored and respected throughout the world.

On November 11, I suggest we take a moment to think back and reflect on the silence from which Veterans Day emerged. We should remember the victims, respect the survivors and strive to continue their never-ending struggle. Abraham Lincoln spoke of dedicating ourselves to "unfinished work * * * thus far so nobly advanced," and it is with this in mind that we should honor all veterans. Even though this day often conjures up images of violence and bloodshed, this only tells part of the story. It is the other part which President Lincoln was discussing, the patriotism and self-sacrifice of people everywhere who have made this world a better place in which to live. Their work is not yet done, and it is today's and tomorrow's veterans who will continue this process.

As a member of the U.S. Army during the Second World War, I have always felt a special bond with other veterans. I have fought long and hard to preserve their memory, and support their needs in the Congress. Over the past 34 years I have worked to promote better veterans' health care services in southeast Michigan. In 1986, the Veterans' Administration proved that our work can be rewarded, as it chose to proceed with a project which included renovation of an existing Allen Park hospital for long-term care, and construction of a Detroit facility for acute care services. I have played a large role in the ongoing problem-solving process for this project and most recently worked with Congressman BOB TRAXLER, of Michigan, to secure $22 million for a parking lot for the Detroit facility. I plan to continue work on this project and would urge all Members of Congress to do as much as possible to ensure that America's veterans have the services they need and deserve.

These are efforts which truly honor our veterans, by showing that we honor their memory both in substance and in spirit. On this and every other Veterans Day, please think of our veterans and if you know one, just call and say thank you.

MAIL COSTS

HON. RICHARD RAY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. RAY. Mr. Speaker, the subject of the cost of mail from congressional offices, and particularly the cost of so-called newsletters, is getting a lot of bad publicity and I am hearing from the constituents of the Third District of Georgia about it.

The United States faces a major task in reducing our huge Federal debt. It is imperative that we as Representatives do all we can to reduce unnecessary Federal costs and one such way is to voluntarily reduce the cost of junk mail coming out of our offices. Earlier this year, I offered my colleagues an opportunity to save $1,250,000 in postage by discontinuing historical calendars. My offer was rejected.

Mr. Speaker, I have mailed only two newsletters during my 7 years in office, one in 1983 and one in 1984. I requested various supporters and constituents in the Third Congressional District of Georgia to check their impact and effectiveness. To my dismay, the reports were almost entirely negative. We found that great quantities of the mailings were thrown in post office trash containers. The absence of newsletters has had no negative impact and the result has been a substantial savings in labor, printing, and postage costs to the taxpayer. I believe that my fellow citizens of the Third District of Georgia expect me to promptly reply to their mail, but are not overly anxious for me to generate more junk mail for them to discard. I realize that each congressional district is different and I speak only for myself in this respect, but I would urge my colleagues to give consideration to this idea.

I recently researched the cost of mail which comes out of my Washington and district offices. I was only able to come up with an estimate because the House of Representatives Postal Service could not provide congressional mail costs. Apparently, the House Post Office is not keeping records of mail costs. The numbers I established rely upon records kept in my office. However, this is not from any official Postal Service count nor does one apparently exist. I would like these ballpark figures, which I believe to be fairly accurate, to be placed in the RECORD at this point.

Mail costs from Congressman Richard Ray's office

Washington	$7,079
Columbus	750
Warner Robins	750
LaGrange	180
Incoming orange bags	4,500
Total	13,259

Mr. Speaker, there has been considerable resistance from the Franking Commission of the House Committee on Post Office and Civil Service to reveal the cost of franked mail as the Senate does. Our constituents frequently criticize the Congress for various shortcomings and failures, and I want to go on record in urging that we make franked mail costs public.

A CONGRESSIONAL SALUTE TO DR. LEO SUMNER

HON. CLAUDE HARRIS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. HARRIS. Mr. Speaker, I rise today to pay tribute to an outstanding member of the educational community and respected resident of the Seventh District of Alabama, Dr. Leo Sumner. Dr. Sumner retired last year as president of Shelton State Community College after a career in teaching of 36 years.

Dr. Sumner presided over the 1979 merger of Shelton State Technical College with the Tuscaloosa branch of Brewer State Junior College. Under his tenure, the enrollment of the resulting Shelton State Community College increased to more than 4,000 students. Today it is one of Alabama's largest 2-year educational institutions.

In recognition of Dr. Sumner's leadership in shaping the highly successful program at Shelton State, the college named its new building "the Leo Sumner Department of Cosmetology." The dedication of this new building was the highlight of a 4-day celebration '89, designed to commemorate the 10th anniversary of the college merger. At the ceremony, Dr. Sumner was also presented with a copy of the resolution passed by the Alabama Legislature authorizing this honor.

We, in Alabama's Seventh District know that education is an investment in our future. We greatly appreciate the priceless gift of learning that Dr. Sumner has devoted his life to sharing with us. I congratulate him on his exemplary career and wish him health and happiness in his well-earned retirement.

TRIBUTE TO ALEX FIORE

HON. ELTON GALLEGLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. GALLEGLY. Mr. Speaker, I rise today to honor an outstanding leader of the city of Thousand Oaks, CA, Councilman Alex Fiore.

As an old Navy man, Alex might call himself a plankholder of the city, for he has served as a councilman since the city incorporated in 1964. But even after 25 years of hard work and conscientious service to his community, Alex hasn't slowed down or become complacent. He still works as hard as ever to make the Conejo Valley an even better place to live and work.

And as someone who served for 7 years in local government myself, I know just how important Alex's contributions have been to Thousand Oaks.

Alex settled in Thousand Oaks 30 years ago, and has been actively involved in community affairs ever since. A retired vice president for finance and administration for the Rocketdyne Division of Rockwell International, he has served as mayor four times, and has chaired virtually every city commission at one time or another.

Besides his government service, Alex also has found time to assist a wide range of community organizations, including the Thousand Oaks High School Scholarship Foundation, Little League, the Cub Scouts, the YMCA Indian Guides, and Conejo Youth Employment. For his work, he has been honored as "Don Triunfo" and as the chamber of commerce "Man of the Year," and a local park containing three ballfields has been named after him.

And to show just how determined he is to keep in touch with his neighbors, he still sets up shop every Saturday in the local shopping mall and meets with anyone who cares to stop by.

Mr. Speaker, I'm sure my colleagues join me in honoring a man who serves as a role model for elected officials everywhere.

THE CENTENNIAL OF ST. STANISLAUS KOSTKA PARISH, ROCHESTER, NY

HON. FRANK HORTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. HORTON. Mr. Speaker, on Sunday, November 12, 1989, the congregation of St. Stanislaus Kostka Parish will begin its yearlong centennial celebration. The Rochester, NY church was founded by Polish immigrants who made the new parish the focal point of the community which they had also set out to build. One hundred years later, St. Stanislaus is still the focal point of the Rochester Polish community.

The original site for St. Stanislaus was in a remote stretch of fields and orchards in the northern part of town. This location was thought to be ideal for building the new church, homes, and schools which were to become the foundation of the Polish community, a place where Polish traditions could be continued and the Polish language could be spoken. The neighborhood grew rapidly as more immigrants arrived from Poland. By 1906, the parish had more than 400 families. Today, close to 850 families attend St. Stanislaus Kostka Parish and most of the estimated 30,000 Polish-American residents of Monroe County trace their heritage to the church.

In the early years of St. Stanislaus, the parish grew so quickly that it was necessary to build a second church by 1909. The architectural firm of Gordon and Madden designed the new church with a Romanesque exterior featuring arched openings, columns, decorative brick detail, and distinctive gargoyles. Decorations denoting the Polish heritage of the Church dominate the interior including imported stain glass windows, an altar in honor of the "Black Madonna" of Poland, and a mural depicting Polish saints and heroes across the dome of the sanctuary.

This second church is still standing today. It is here that the congregation will celebrate the beginning of the parish's 100th year this Sunday at a special mass led by the Rt. Rev. Matthew H. Clark, Bishop of the Rochester Diocese and St. Stanislaus' pastor, Father Andrew Grzela.

I, myself, have been involved with the Polish community for over 35 years through my positions on the city council, as president of the Rochester Baseball Club which is located near the Polish community, and as a Member of Congress for 14 terms. During this time, I have attended many events in the community and made countless friends. I want to salute the people of Polish heritage of my district in Rochester for their efforts in making St. Stanislaus a stalwart of the community and to thank them for the warm hospitality which was always extended to me there. This friendliness has been a hallmark of the parish for its entire 100 years.

I am pleased to have been invited to participate in the centennial celebration. My wife Nancy and I are looking forward to joining with our friends at St. Stanislaus during this yearlong celebration. I am confident that the parish will be around for another 100 years of service to the Polish community and the entire city of Rochester.

EXPORT 1989—HELPING SMALL BUSINESSES TO EXPORT SUCCESSFULLY

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. MAZZOLI. Mr. Speaker, last month, I had the honor of addressing the closing session of the Export 1989 Conference held in Frankfurt, West Germany.

This event, sponsored in part by the U.S. Department of Commerce, was truly historic in that it was the first international trade show held exclusively for small businesses.

I believe that increasing and expanding U.S. export activities is of vital importance to the economy at this time. In this regard, I am pleased that Kentucky—and in particular Louisville and Jefferson County, which I am privileged to represent in Congress—have taken advantage of international markets. In fact, exports add about $5 billion annually to Kentucky's economy.

On a broader level, since 1970, America's reliance on exports has doubled to nearly 12 percent of the U.S. gross national product, and U.S. small business is an increasingly important player on this world trade stage.

This timing is even more significant in that our world is witnessing the development of a unified, single market in Europe—termed Europe 1992 or EC 92. Americans cannot afford to be shut out from this opportunity, and in order to participate in Europe 1992, our businessmen and women must begin participating now in the development of the regulations which will govern this common market.

U.S. Small businesses traditionally have viewed international trade as too difficult or too complicated to pursue. Small business—more so than large businesses—need incentives, expert counsel, advice and information in order to enter the foreign marketplace successfully.

However, over the last 3 years, surveys of U.S. small businesses have consistently shown that they lack information on export opportunities and do not know where such data is kept or how to access it.

It is, therefore, abundantly clear that government—at the State and local as well as the Federal level—must maintain information on export-import business.

More importantly, government must reach out with that data to an audience of small businessmen and women who, for the most part, do not know they need such data or advice or could profit from it.

Accordingly to a recent survey of small businesses, not currently exporting goods and services, fully 67 percent have not been contacted by any group or agency to inform or encourage them concerning markets available abroad.

Consequently, many potential small business exporters remain only that: potential exporters. They never enter the field of international trade because they do not know the opportunities open to them or because they harbor unfounded fears or apprehensions about the challenges and obstacles to their successfully engaging in foreign trade.

The bottom line is that we must tap this great and dynamic reservoir of small business. Small business needs to be convinced it has a role to play in the international field and then needs the information, the advice, the financing and the nurturing to accomplish their international goals successfully.

Perhaps joint government-industry events—such as Export 1989—will provide the boost, the encouragement for small business to engage in international trade.

I look forward to working with my colleagues as well as other Federal, State and local officials to help U.S. businesses play a competitive role in international trade.

NATIONAL ALZHEIMER'S DISEASE MONTH

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. CLINGER. Mr. Speaker, I rise today in support of House Joint Resolution 185 which was enacted yesterday by my colleagues. House Joint Resolution 185 declares the month of November as "National Alzheimer's Disease Month." Alzheimer's disease afflicts approximately 4 million individuals in the United States today and therefore merits our attention and consideration.

As many here already know, Alzheimer's is a debilitating brain disease that leads to a form of senile dementia. The cause of Alzheimer's disease is still unclear, but its effects are all too apparent. Although the early stages of the disease materialize slowly, it eventually culminates in the loss of all mental and physical capacities. Forgetfulness, repetitiousness and losing one's way are some examples of the impacts that render Alzheimer sufferers helpless.

Sufferers lives are at risk without proper supervision. What were once common household chores and activities become potentially life-threatening actions. The victims lose their independence and, oftentimes, their pride. As a result, Alzheimer's victims constitute 40 to 50 percent of the 1.3 million Americans in nursing homes today, where Alzheimer's is the most common psychiatric disorder.

Despite the lack of a cure, funding for Alzheimer's related work is $80 billion annually. This goes to both the cost of providing care for the Nation's estimated 4 million Alzheimer's patients as well as for research. By acknowledging "National Alzheimer's Disease Month," public awareness of this debilitating disease will be raised. Hopefully, this public recognition will spur on more concentrated efforts to solve the problems related to an Alzheimer's cure and care.

Though progress has been made in Alzheimer's research, we owe it to our afflicted citizens to solve the problem completely. "National Alzheimer's Disease Month" is an effort to do that and I want to thank my colleagues who have joined me in supporting this legislation.

THE MEDAL OF HONOR FOR DAVID S. RUBITSKY

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. ROS-LEHTINEN. Mr. Speaker, the Medal of Honor is awarded for valor at the risk of life above and beyond the call of duty. David S. Rubitsky, a Jewish veteran from World War II is said to have killed more than 500 Japanese soldiers trying to force their way past him in the jungles of New Guinea. A man who singlehandedly saved a battalion but has been denied the Nation's highest military decoration because of antisemitism.

After 23 months of review, Army investigators will decide whether to recommend the Medal of Honor to this most distinguished individual. There is no official documentation of David Rubitsky's December 1942 confrontation with the Japanese and Army investigators have been faced with the nearly impossible task of reconstructing events that took place.

The most compelling evidence so far confirming his actions is a handwritten message on the back of an old photograph, found on the body of a Japanese soldier. The picture had been removed 47 years ago, but was discovered a few months ago stating "600 fine Japanese soldiers died because of a solitary American soldier."

As reported in a New York Times article written by William E. Schmidt, the review of David Rubitsky's case has piqued the interest of the Defense Department to the possibility that discrimination played a role in denying numerous soldiers the Medal of Honor. Throughout this campaign, Mr. Rubitsky has been the object of antisemitic attacks and remarks (that is, swastika graffiti on his property, a shotgun fired at his car, et cetera).

It is sad to note that hatred and hostility continue. As Mr. Rubitsky has said that he was not so much interested in the medal as he was in the justice: "I don't want this to happen to anyone else, black, white, Jewish, or otherwise. We all bleed the same once we're wounded."

I wish to thank David Rubitsky for his extraordinary strength and courage.

A TRIBUTE TO THE BENNINGTON BATTLE MONUMENT CAPSTONE CENTENNIAL CEREMONY

HON. PETER SMITH

OF VERMONT

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SMITH of Vermont. Mr. Speaker, it is with great pride that I rise today to give acknowledgment to one of the most significant events of this great Nation's history. The United States of America is a country of vast diversities in terms of ideologies, cultures, and languages. In spite of these differences the United States came to be one Nation because of the sacrifices made by the brave men and women who fought to gain their freedom in the American Revolution.

On November 11, 1989, the Nation will celebrate Veterans Day. In addition to Veterans Day the small town of Bennington, VT, in my district, will celebrate the significant role it played in bringing about the final outcome of the American Revolution. The name of this celebration is Capstone Day. Capstone Day commemorates the setting of the top stone 100 years ago on the Bennington Battle Monument. The Bennington Battle Monument was completed and dedicated in 1891 as a memorial to the Revolutionary War's Battle of Bennington and it marks the site where vital American military supplies were stored.

The Battle of Bennington was actually fought in Hoosick, NY, and not in Bennington, VT. However, it was Britain's need to sabotage the American military supply site in Bennington, that caused the battle. The British hoped to sustain their drive to divide the colonies by capturing these supplies, but revolutionary troops held strong. The British made two valiant attempts to infiltrate the Bennington supply site on August 16, 1777, but Gen. John Stark of the American Forces and Col. Seth Warner of the Green Mountain Boys decisively defeated the attacks made by British Gen. John Burgoyne's army, and inflicted significant and important losses. It is this particular battle that is believed to be the turning point of the American Revolution. The British could not continue their intended march southward and 2 months later in Saratoga, NY, Burgoyne's army fell.

Our forefathers fought long and hard to gain the basic freedoms found in this country and I request that you join me in paying special tribute to the significant role that Bennington, VT, played in determining the outcome of the American Revolution. It was my privilege and pleasure to have an American flag flown over the Capitol in honor of these two significant events, provided for use as part of the ceremony. I hope you will join me in honoring the Bennington Battle Monument Capstone Centennial Ceremony on November 11, 1989.

OREGON ABORTION RIGHTS GROUP OFFERS ASSISTANCE

HON. BARBARA BOXER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. BOXER. Mr. Speaker, for the benefit of the Members I include a most enlightening letter from the Oregon National Abortion Rights Action League:

NATIONAL ABORTION RIGHTS ACTION LEAGUE,
Portland, OR, October 28, 1989.

Representative BARBARA BOXER,
House of Representatives,
Washington, DC.

DEAR REPRESENTATIVE BOXER: We appreciate so much your willingness to be vocal and strong on the issue of reproductive choice. Your courage was evident in your defense of the bill to reestablish federal funding for low-income victims of rape and incest.

Recently, you have cited a case in which a thirteen-year-old girl was the victim of her father's guilt after becoming inpregnated by him. This young girl was a resident of Idaho, not Oregon. The confusion probably lies in the rest of the story.

When Spring Adams was found to be pregnant, she (or someone) contacted a local Planned Parenthood. The PP raised $200 to assist her in obtaining an abortion. This would not have even covered the cost of the procedure. The Planned Parenthood contacted a local Portland clinic, whose doctor and anesthesiologist agreed to donate their services and the clinic agreed to accept the $200 as payment. The next problem was that Spring Adams and her mother did not have the money to travel to Portland from Idaho.

At that point, Planned Parenthood contacted us. We made a call to one of our supporters, who gave us the money for traveling. On the morning that Spring Adams was to have come to Portland for the procedure, her father killed her and then shot himself.

Since this event, Oregon NARAL has established the Spring Adams Fund, which will provide for travel expenses for women who need to travel from out of state for abortion procedures, when they cannot afford the additional expense. The fund does not provide money for any medical or abortion procedures. After a local columnist shared the story with the Portland community, over $1500 has come into our office for the fund.

Again, we appreciate your support and hope that this clarification is of help to you.

Sincerely,

NANCY E. SAMPSON.

B'NAI B'RITH HELP NEEDY CHILDREN

HON. HELEN DELICH BENTLEY

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mrs. BENTLEY. Mr. Speaker, It is with deep respect and admiration that I pay tribute to the women of B'nai B'rith. As an honorary chairperson of the B'nai B'rith Children's Home luncheon, Baltimore Council, I am delighted to expound upon the truly remarkable accomplishments of this group.

B'nai B'rith is an international Jewish woman's organization devoted to promoting social service and advancement. This organization has continued to play an active role in a wide variety of social concerns. Through legislation and community programs they have worked as the advocates for women and their families by promoting such issues as parental/family leave, day care, pension reform and pay equity for women. They have served as volunteers at veterans hospitals, the "Meals on Wheels" program and other community projects. B'nai B'rith Women also have been responsible for producing educational materials and have fought bigotry while promoting human rights. Through their social service projects, Jewish and Arab university students work together to increase mutual understanding. However, it is the residential treatment centers in Israel which perhaps are their greatest accomplishment.

What began in 1943 as a home for orphaned refugees fleeing the Holocaust, today has grown into one of the most successful institutions in the world. Originally conceived as an emergency measure, to help those children left shattered as a result of the Holocaust, has become B'nai B'rith's most important achievement. Having rehabilitated over 1,000 children since its creation, the Children's Home has pioneered a drug-free therapeutic treatment that counsels and eventually returns troubled young boys and adolescents back into productive and healthy members of society.

Through physical and emotional support, the Children's Home provides love and understanding to those children who have been judged as hopeless by others. Most of the children come from poor to middle class homes and are provided with living quarters including an accredited school on the campus. All are normal to above normal intelligence, yet suffer severe psychiatric problems and learning disabilities. Despite the barriers these children face, the Home has maintained an incredible 70 percent recovery rate and most go on to vocational schools or return to their families. For those who are not ready to take on the responsibility of outside living there is the Group House which eases the transition to the outside world for the older boys. This also has been an unmatched success, with high school and job placement opportunities available throughout their stay.

Through their efforts B'nai B'rith not only have ensured a new future for these young lives, but have secured a nation's most valuable resource, that of its youth. By taking children that would have otherwise been a detriment to society and converting them into responsible and productive members of society, B'nai B'rith has secured a brighter future for all to enjoy.

The success of B'nai B'rith women is without a doubt directly related to their hard work and dedication. Their selfless devotion and volunteerism has meant a new life and new hope to many and because of that, the B'nai B'rith women have continued to go that extra step by giving so much. The Children's Home and Group most certainly will serve as the example by which all others shall follow. We should all ask ourselves; what have we done today to help someone less fortunate, or what have we done today to better our community? All too often we are judged by what we have and not by what we give. Indeed such social awareness is a lesson we all need to learn.

Mr. Speaker, my fellow colleagues, I ask you to join me in saluting the truly remarkable accomplishments and hard work of the Maryland women in B'nai B'rith.

HILSONS CELEBRATE 50 YEARS

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. GILLMOR. Mr. Speaker, on November 23, Elmer and Berdine Hilson, of Mansfield, OH, will celebrate 50 years of marriage. I wish to commend them on this remarkable occasion and on their long, happy dedication and commitment to each other.

The Hilsons spent many years in Creston, OH, and are well-known in Creston for their years of contributions as outstanding members of the community.

A respected businessman, Mr. Hilson took over as the second generation owner of Hilson's Restaurant, a popular establishment which he ran for over 30 years. Mrs. Hilson also devoted many years of hard work to the restaurant while raising the couple's five children. The Hilson Restaurant's homemade doughnuts still have such popularity in Creston that the Hilsons are now obliged to make them each year for the annual Creston Ox Roast, a fact in which the family takes pride.

Mr. and Mrs. Hilson have now chosen to devote time to serving the community through church activities, including walking in the recent parish census and volunteering for the church carnival.

Joining them in celebrating the occasion will be their children—Hal H. Hilson, Darlyene M. Hatfield, Regina A. Wilson, Brian M. Hilson and Daniel G. Hilson; nine grandchildren—Karen Marty, Kimberly A. Hilson, Thomas J. Hilson, Shawna M. Hilson, Bradley M. Hilson, Ted Wilson and Risa Wilson; and one great-grandchild—Jacquelyn Marty.

Mr. Speaker, I am pleased to offer my congratulations to the Hilson family and wish them many more years filled with equally happy celebrations.

CONGRATULATION TO RABBI I. SEGAL, OF FRESNO, CA

HON. CHARLES PASHAYAN, JR.

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. PASHAYAN. Mr. Speaker, Armenian people are surely appreciative of the gracious actions taken by Rabbi I. Segal of Fresno, who recently succeeded in having the Union of American Hebrew Congregation adopt a resolution, "1915 genocide of over 1 million Armenians."

Rabbi Segal called me several weeks ago and told me that he was planning to make an effort to have the resolution adopted in New Orleans. Of paramount importance, the dele-

gates rejected the words "tragedy" and "massacre," and instead used the essential word "genocide." The resolution declared in part: "This genocide is one of those instances of mass destruction which has both proceeded and followed the Holocaust to which UAHC had drawn notice over the years, that their lessons might not be forgotten * * *."

I personally wish to congratulate Rabbi Segal for his contribution to truth and history, and I am sure that all who care about truth and history join me.

VETERANS DAY

HON. RONALD K. MACHTLEY

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. MACHTLEY. Mr. Speaker, I rise today in tribute to this Nation's veterans, a group of which I am proud to be a member. We certainly owe these brave Americans a special honor on this November 11.

I think every American should take a moment this Saturday to stop and think about the tremendous impact our veterans have on our day-to-day activities. Many people unfortunately cling to the belief that veterans are only responsible for past actions; for keeping our Government and our national borders intact. However, we must always—not just on Veterans Day—understand that the bravery and self-sacrifice of these citizens affect the present day lives of every American.

For example, this past Tuesday, many cities and towns in my home State of Rhode Island and around the country held elections for major and local offices. Our right to choose our leaders democratically, as we recently did in Rhode Island, would not exist were it not for the fact that hundreds of thousands of brave Americans were willing to give their lives in defense of our way of life—our cherished right to vote.

During my first 10 months as a Member of Congress, I have received hundreds of phone calls and letters from my constitutents. These people who diligently exercise this right of free speech—the right to petition the Government—should recognize that they owe their freedom to speak out to those Americans who sacrificed everything so that tyranny and totalitarianism could not take this sacred right of free speech away.

Those who have died for this Nation can only fail to the extent that we fail them. They gave their all, and we must do nothing less than to give our best, because if we fail them, we fail our country, we desecrate our heritage, and we belittle the rights and freedoms that they fought to preserve.

I am a strong supporter of the Department of Veterans Affairs. Earlier this year, many veterans were actually denied medical care because of inadequate funding of the VA Department of Medicine and Surgery. Thankfully, Congress was able to pass legislation providing needed relief funds—funds which should have never been put in jeopardy in the first place.

I have also recently issued a new call to arms to protect Veterans' funding. As a veteran myself, I understand the need to protect the programs which assist those who fought for our country.

I would recommend to every American that if you happen to see a veteran this weekend, don't turn away—take the time to say: "Thanks for keeping us free."

URBAN FORESTRY BILL DESERVES QUICK ACTION IN SENATE

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. KLECZKA. Mr. Speaker, planting trees, shrubs, and flowers in our cities may seem of little importance on the national agenda. However, urban forestry contributes to a cleaner and healthier environment, one of top national priorities. In addition, flower-filled parks and tree-lined boulevards increase property values and the pride of citydwellers in their surroundings.

For these reasons, I am pleased that 3 days ago the House passed H.R. 2144, a bill to increase the Federal Government's commitment to improving cityscapes and the environment through urban forestry. Representative JONTZ deserves praise for introducing this worthy legislation.

The bill's $2.8 billion grant program would help many cities, such as Milwaukee, maintain their urban forestry programs while also financing new or experimental arboriculture methods.

In Milwaukee, more than 328,000 trees bring pleasure to residents of my south side congressional district while improving their environment. I am proud that Milwaukee's outstanding success with urban forestry has earned it the National Arbor Day Foundation's "Tree City USA" award for 9 consecutive years.

Milwaukee's program also provides urban forestry leadership internationally. The city's forester, Mr. Robert Skiera, served as president of the International Society of Arboriculture, a 4,500-member organization representing 25 countries worldwide. The city's program also mentored urban foresters from Poland, the Netherlands, and the United Kingdom last year.

Passage of this bill is the first step toward creating an even larger role for our cities in the clean air and environment movement. If it becomes public law, this bill would provide useful aid to cities expanding or creating urban forestry programs, while helping flourishing programs like Milwaukee's continue beautifying the cityscape.

I urge my Senate colleagues to act quickly on this bill.

VETERANS DAY TRIBUTE

HON. JIM SAXTON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SAXTON. Mr. Speaker, with Veterans Day to be commemorated this Saturday, I rise today to pay tribute to those who have served, or currently serve, in the Armed Forces of the United States.

I believe it is also important to point out that this is "National Women Veterans Recognition Week," and therefore, is an opportunity to honor the more than 1.6 million women who have served in our military branches in various capacities.

Three years ago Congress passed, and the President signed, legislation to provide a site here in Washington for construction of a memorial to honor these women, and pay tribute to their achievements.

I was pleased to learn this week that the memorial is a giant step closer to becoming a reality, as a two-member team was picked to design the memorial, which is to be placed at the main gateway to Arlington National Cemetery.

The simple word "recognition," says so much on occasions like this, Mr. Speaker. In the case of all our veterans, recognition is a small, but meaningful payment for services rendered and sacrifices made.

VFW POST 283 CELEBRATES 70TH ANNIVERSARY OF ITS CHARTERING

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. KANJORSKI. Mr. Speaker, I rise today to congratulate the Veterans of Foreign Wars [VFW] Post 283 of Kingston, PA, as its members gather to celebrate the 70th anniversary of its chartering.

The first meeting was held on November 21, 1919, in the Dorranceton High School. Since that time, the post has continued to grow. As the membership increased, the post hall was enlarged to accommodate the various community organizations who use the facility for civic, community, or religious events. In fact, Post 283 became so popular that during the 1951-52 commandership, its membership grew to become the world's largest post with 4,220 members.

In the 1940's, after the end of World War II, Post 283 played a vital role in assisting returning war veterans with the large amount of paperwork which became a necessary procedure for many returning veterans.

In addition, the post has played an active role in the community by sponsoring a number of community service projects. Some of these include a choral club, bowling team, junior drum and bugle corps, Boy and Girl Scout troops, and teenage baseball teams. Post 283 also maintains a blood donor program for its members and immediate family and a diabetic

detection program run in cooperation with the Pennsylvania Department of Health.

VFW Post 283 is dedicated to the veterans of all conflicts including the Spanish American War, World War I and World War II, Korean war, and the Vietnam conflict. Since its beginning, Post 283 has been dedicated to our veterans and to our community. I am sure that my colleagues in the House of Representatives will join with me in congratulating the VFW Post 283 on the 70th anniversary of its chartering.

TRIBUTE TO FERRIS STATE UNIVERSITY'S NEW PRESIDENT, HELEN POPOVICH

HON. BILL SCHUETTE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SCHUETTE. Mr. Speaker, I rise today to ask my colleagues to join me in paying tribute to Dr. Helen Popovich, who will be inaugurated as the new president of Ferris State University in Big Rapids, MI, on November 10, 1989.

This inauguaration is particularly special because Dr. Helen Popovich will become the first woman in Ferris State University's 105-year history to become president. In addition, she will become the first woman president of any of the 13 autonomous public universities in the State of Michigan.

Ferris State University was established in 1884 when Woodbridge N. Ferris, later a two-term Michigan Governor and U.S. Senator, established a private industrial school in downtown Big Rapids. The university was first called the Big Rapids Industrial School, then Ferris Industrial School, and then Ferris Institute. W.N. Ferris started the school to retrain unemployed lumberjacks, and the concept of providing students with an education which prepares them for employment in a changing society is just as relevant today.

In 1950, the school was wiped out by a disastrous fire, but despite the loss, Ferris endured and, in fact, thrived. In November 1987, Ferris gained university status and has become a highly respected institution in the State of Michigan.

Mr. Speaker, I urge my colleagues to join me today in paying tribute to Ferris State University and it's new president, Dr. Helen Popovich. The history of our educational institutions is important in preserving our Nation's history. I salute Dr. Popovich as she becomes the first woman president of Ferris, and I salute Ferris State University as an important player in the history of this country.

VETERANS DAY

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. HOYER. Mr. Speaker, 71 years ago on November 11, World War I finished its destructive course through Europe. In addition to the millions of Europeans killed during the war, 116,000 Americans gave their lives so others could live in peace. Since the end of World War I, the United States has recognized November 11 as a time to celebrate peace, and as a time to remember and honor our veterans.

Although World War I was to be the "war to end wars," history has recorded a more tragic story. Since the 1918 armistice, nearly 30 million Americans have left our shores to fight for democracy. Five hundred thousand servicemen and servicewomen have been killed. Some died in Europe, others in Korea, Vietnam, Beirut, and Grenada. Each veteran died for his country and the principles of freedom, and equality on which our Nation was built.

In remembrance of and gratitude to all our veterans, let us not forget that they risked their lives for us and our children. Their gifts of peace and security protect what past generations have created, preserving this for us and future generations of Americans.

So on this day, November 11, let us thank our veterans for protecting our democratic institutions and principles whose light shines as a beacon for millions of people around the world. Let us thank our veterans for driving back the shadow of nazism and communism in Europe and Korea, and for demonstrating our resolve and support for democracy in Vietnam.

Let us thank them too for the fruits of a strong and stable economy. Let us thank our veterans for the longest period of peace in our Nation's history. But most of all, let us thank our veterans for the safety of our children who may not be forced to fight in foreign lands as they have.

We can thank our veterans for the peace that we know today and the peace that seems to be settling over the world. This new chance for freedom for millions of people around the world is a result of the sacrifices our veterans have made.

Those of us who are not veterans will never know the feeling of losing a friend in combat, or of being shot ourselves. We may not know the deafening sound of shells, or the shear terror of battle. But I assure you, we do know that our speeches, prayers and parades can never adequately express our respect and gratitude to the veterans who have served us so proudly.

BILL SARPALIUS' COMMENTS ABOUT WESLEY MASTERS

HON. BILL SARPALIUS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. SARPALIUS. Mr. Speaker, one of the highest honors a person involved in Texas agriculture can receive is the Gerald W. Thomas Outstanding Agriculturalist Award. Every year, Texas Tech University's College of Agricultural Sciences gives three of these awards—one to an agriculture producer, one to a public servant who helps better agriculture and one to an outstanding agribusinessman.

This year, the agribusiness award is going to a gentleman I have known for many, many years. He has touched my life deeply, and the lives of almost everyone who has known him. He has made truly outstanding contributions to the agribusiness industry in Texas and the Southwest, and he has been a fine community leader for Armarillo and the entire High Plains region of Texas.

Wesley Masters—this year's award winner—is a native of Cotton Center who received bachelor's and master's degrees in agronomy from Texas Tech. In 1968, armed with little more than know-how and sheer determination, he and his late brother, Jesse, formed Center Plains Industries, Inc., in Amarillo. The company specialized in all aspects of fertilizer operations, and within 15 years, it had become a giant in the industry. At its height in the late 1970's and early 1980's, it was the largest ammonia marketing company west of the Mississippi.

By 1984, Wesley had sold Center Plains and had formed a new company—Cepex—with former Treasury Secretary William E. Simon. With Cepex, Wesley set out to rival the accomplishments he enjoyed with Center Plains and, as you would know, he succeeded. Cepex wound up purchasing much of the Phillips Petroleum Co.'s fertilizer operations.

Late last year, Wesley decided to sell Cepex and to work as a consultant to Cepex's purchaser, Farmland Industries. Today, in addition to his work with Farmland Industries, Wesley continues to operate Centergas, which is a leading agribusiness propane distributor. He also has several other land and agricultural investments.

Most people would look back on these outstanding business accomplishments and consider their life fulfilled. Not Wesley. He served for 6 years as a member of the Texas Tech Board of Regents, and was vice chairman of that board until early this year. He was chairman of the search committee that brought Tech its newest president, Dr. Robert Lawless.

He also has served on the Governor's Select Committee on Hazardous Waste and currently is a member of the General Board of Higher Education and Ministry of the United Methodist Church.

Frankly, Mr. Speaker, Wesley's accomplishments are so many and so varied that this House would accomplish no business today if I tried to list them all. So let me end this on a personal note, if I may.

I have known Wesley for a long time now. I have known his lovely wife, Nancy, his three children and four grandchildren as well. I have worked with Wesley and for him, and he has been incredibly kind and helpful to me over the years. I don't know where I would be without him, and more importantly, I don't know where my district would be without him. He is not just an outstanding agriculturalist; he is an outstanding person.

I can think of no person more deserving of the Gerald Thomas Award.

HONORING OUR VETERANS

HON. RONALD D. COLEMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. COLEMAN of Texas. Mr. Speaker, this weekend we will honor our Nation's veterans, paying tribute to the brave men and women who served in the Armed Forces. To honor these people, especially those from my home region of west Texas, I would like to send them the following message.

From a relatively tranquil scene of 71 years ago, a tradition grew of embracing our defenders with respect and appreciation, of rendering tribute to their feats through public ceremony. While to many the term "veteran" likely invokes images of fighting and bloodshed, of suffering and struggle, it is most synonymous with peace. Without those who have been willing to step forward to stand vigil over peace at considerable sacrifice and risk, there would be none.

While we painfully commemorate on Memorial Day those who have given their lives for the cause of peace, I am pleased to join in honoring the men and women who have served in uniform and who are fortunate to be here to receive our admiration and respect for a job well done.

Defending freedom in a dangerous world marked by an uncertain future is a challenge that each generation of Americans must face. Our democracy rests upon a foundation of their courage and selflessness, and nothing threatens our way of life more than apathy toward our defenders.

Veterans Day, November 11, and National Women Veterans Recognition Week, are occasions to proclaim our pride in the examples set by the brave men and women in the struggle for peace and who live right here among us in the 16th Congressional District of Texas. I am proud to represent you in the U.S. Congress.

THE GUNDERSON AMENDMENT TO THE OILSPILL LIABILITY BILL

HON. STEVE GUNDERSON

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. GUNDERSON, Mr. Speaker, after several years of working to protect our rivers and inland waterways from environmental disaster due to oilspills, we finally have a great opportunity to act. The House will vote today to extend this protection to America's coastal waters. By passage of the Gallo amendment, with the change I am offering, we can broaden the protection to include America's rivers and lakes as well.

Much of my time and energy since joining this body has been committed to developing and implementing a Federal program of environmental protection and development for the upper Mississippi River. In 1986, we passed the Upper Mississippi River Environmental Management Program [EMP] to obtain Federal assistance in protecting the river. The program, now in its third year, is specifically aimed at preserving wildlife and habitat along the 261-mile stretch of the upper Mississippi. The need for the program arose because of an increase in barge and shipping traffic and an increase in development on the river to accommodate that traffic.

The EMP is our blueprint for bringing the environmental and recreational aspects of the river back to life. I am happy to report that the plan is working—so well in fact, that it is an outstanding model for similar efforts elsewhere in the United States and around the world. However, despite our success, those of us who live along the Mississippi River to do so with the constant fear that we may lose it all at any moment in the event of a major oilspill.

The oilspill bill we are considering today has become even more urgent since the *Exxon Valdez* accident off the coast of Alaska. I will be the first to admit that the chances of a spill that large on the upper Mississippi are unrealistic. But I also want my colleagues to know that the potential for a disaster on a smaller scale remains.

According to the Wisconsin Department of Natural Resources [DNR], oilspills on the river ranging from 500,000 to 1 million gallons are possible. Consider this: Roughly 1 billion gallons of hazardous liquids—primarily oil and agricultural chemicals, are transported by barge on the Mississippi River every year.

Unfortunately, we've already had a number of spills in our region. Since 1985 we've endured at least one spill every year: In 1986, a single-hulled tanker spilled 4,000 gallons after hitting a bridge; in 1987 we had two spills; in 1988, one oilspill in Illinois dumped over 10,000 gallons into the river, while the St. Louis area had to recover from a sulphuric oxide spill of over 300,000 gallons; another 10,000 gallon oilspill occurred as recently as last April near Memphis, TN.

There are a number of precautions we can take to minimize the risk of such spills on the Mississippi. First, we should require the coordination of regional comprehensive disaster plans with Coast Guard disaster units. We should also place more of these units in the region. Currently, most disaster units are concentrated in San Diego and on the east coast. Second, we should increase the licensing and testing standards for hazardous cargo pilots navigating on the upper river. This portion of the river is much more difficult to navigate than the lower portion and our licensing requirements should reflect that. Third, we should require the use of double-hulled tankers for transport of all oil and hazardous material on the river. In my mind, this precaution is most important. I am pleased that, through my amendment, we may finally act to impose this safeguard.

Earlier this year, I cosponsored Mr. GALLO's bill. I continue to support that fine effort, though I regret it falls short of covering inland shipping under its provisions. The bill requires all vessels of 10,000 tons or more which carry oil or hazardous material to be double-hulled within 15 years. This is the best solution to protecting our coastal regions from a repeat of the *Exxon Valdez* disaster.

However, few if any such vessels on inland waterways are that large. The language I am offering would extend this coverage to all such vessels. It is important to note that, while few barges on the Mississippi River are over 3,000 tons, and thus are capable of carrying no more than 900,000 gallons, they are often tied together—as many as fifteen at a time—during transport. Clearly we need to extend our coverage to this level.

The oilspill legislation we are considering carries several laudable goals. Enacted, the bill would protect our oceans and seashores from shipping oilspills. Where we have neglected to bring the same protections to our inland waterways—America's rivers, lakes and tributaries—may amendment extends these protections. Let's take this historic opportunity to stand up for America's inland waterways, just as we will stand up for America's coastal shores.

A TRIBUTE TO FRANCIS X. FEIGHAN, SR.

HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. STOKES. Mr. Speaker. The city of Lakewood, OH, recently lost one of its most respected citizens. Francis X. Feighan, Sr., a longtime lawyer and the father of our colleague, ED FEIGHAN, passed away on October 26, 1989.

For more than 50 years, Mr. Feighan practiced law and according to interviews "loved every minute of it." His specialty was probate law and he often spoke of the patience it required. He was an outstanding individual whose compassion, dedication, and contributions to the community will never be forgotten. At this point, I would like to share with my colleagues some of the highlights of Mr. Feighan's career.

Francis Feighan, Sr. graduated from St. James School in Lakewood and St. Ignatius High School. He attended John Carroll University for 2 years before transferring to George Washington University where he graduated in 1935. He then entered Western Reserve University's law school. When Mr. Feighan passed the Cuyahoga County Bar examination in 1938, he was the fifth son of the John T. Feighan family to become a lawyer. He then joined the U.S. attorney's staff. Mr. Feighan often recalled the 7 years he was employed as an assistant in that office as the most memorable time in his career, during which he became well-rounded in all types of legal work. He specialized in the practice of probate law at his firm, Feighan & Feighan, until his death.

Mr. Speaker, Mr. Feighan also used his legal talent to assist community organizations. He served as counsel for the Catholic Charities Corp. from 1958 until 1987. He was also a former president and served on the organization's executive committee. In 1964, he was presented the Bishop Hoban Medal for distinguished service to the Catholic Charities.

Mr. Feighan was the past president of the John Carroll University and St. Ignatius High

School Alumni Associations and a former trustee of the Case Western Reserve University Alumni Association. Mr. Feighan was a member of the Holy Name Society of St. Luke Catholic Church in Lakewood and served as president of the board of St. Augustine Manor.

In addition to our colleague, ED, Mr. Feighan is survived by his wife, Rosemary; daughters, Rosemarie St. John, Mary Clare; sons, Francis, Jr., Michael, and Christopher; 14 grandchildren; a sister and a brother.

Mr. Speaker, I join my colleagues and the Lakewood community in extending our deepest sympathy to ED and his family. We hope the family will find comfort in knowing that Mr. Feighan will always be remembered by those who came to know him and benefited from his tireless efforts.

TRIBUTE TO KENNETH D. SEATON

HON. ROBERT W. DAVIS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 9, 1989

Mr. DAVIS. Mr. Speaker, I rise today to invite my colleagues to join me in offering congratulations to Kenneth D. Seaton, of Hancock, MI, as he assumes the chairmanship of the U.S. League of Savings Institutions, and to his savings institution, D&N Savings Bank, as it celebrates its 100th year of serving Michiganders.

Ken was officially sworn in yesterday at the U.S. League's 97th annual convention in Chicago. The U.S. League, with more than 2,700 savings and loan associations and savings banks as members, is the major trade organization representing $1.5 trillion savings institutions business.

Ken is just completing a 1-year term as vice chairman of the League. He is serving in a leadership position during very important times for his industry. During the debate and deliberations over the Financial Institutions Reform, Recovery and Enforcement Act of 1989, I always appreciated hearing Ken's views on the many issues we dealt with in the legislation.

As we move forward and review whether FIRREA is working as it was intended, I am confident that Ken will continue to give the Senate Banking Committee and the Congress the benefit of his thinking based on his years of experience in the savings institutions business.

I knew Ken when the name of his institution was the Detroit and Northern Savings and Loan Association. That's what it was called when Ken began working with his father, Donald Seaton, at the S&L in 1957.

Ken was actually trained as a civil engineer, graduating in 1951 from the Michigan Technological University in Houghton. After serving his country as a pilot in the U.S. Navy from 1952 to 1955, Ken worked for the Jones & Laughlin Steel Co. in northern Minnesota before joining D&N. Incidentally, he never gave up flying. He has a private pilot's license with instrument rating.

Ken rose through the ranks at D&N, becoming chief executive officer in 1968 and chairman of the board in 1972. D&N is a large operation, with assets of more than $2 billion, 36 branches throughout mid-Michigan and Michigan's Upper Peninsula and a mortgage company serving homebuyers in five states.

D&N Savings employs hundreds of Michiganders, counts more than 100,000 persons as customers, and is the only savings institution operating in both peninsulas.

Ken runs the kind of savings institution that has always been dedicated to encouraging savings and providing Michigan families with the funds to buy homes. D&N Savings Bank is what's good and right about the savings institutions business—the kind of business FIRREA was designed to strengthen and preserve.

Part of D&N's success has been its involvement in Michigan and in the communities it serves with branch offices. In Hancock, where he was born and raised, Ken serves as a trustee of Sumoi College—in prior years he was chairman—and as cochairman of the executive committee of Operation Action/UP, an association of Upper Peninsula business leaders. Previously, he was president of the Hancock Board of Education, president of the Hancock Rotary Club and president of the Houghton-Hancock Chamber of Commerce.

At the State level, Ken was chairman of the Michigan League of Savings Institutions and now is a member of the legislative committee, a model of the Governor's Advisory Committee on the Regulation of Financial Institutions and the Governor's Commission on Higher Education, and a director of the Michigan State Chamber of Commerce.

He is the recipient of the Distinguished Service Award from Sumoi College and the Silver Medal Award from Michigan Technological University.

Ken has also served the savings institutions business for many years. He is a former vice chairman and director of the Federal Home Loan Bank of Indianapolis. At the U.S. League, he has served on the Government Affairs Committee for more than 15 years, as a member of the executive committee from 1985 to 1987, as a member of the task force on Federal Deposit Insurance, and as chairman of the Committee on Economic Affairs.

Ken has been active in the Evangelical Lutheran Church of America. He and his wife Lois have five children and seven grandchildren.

SENATE—*Monday, November 13, 1989*

(Legislative day of Monday, November 6, 1989)

The Senate met at 2:30 p.m., on the expiration of the recess, and was called to order by the Honorable THOMAS A. DASCHLE, a Senator from the State of South Dakota.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out! For who hath known the mind of the Lord? or who hath been his counsellor? Or who hath first given to him, and it shall be recompensed unto him again? For of him, and through him, and to him, are all things: to whom be glory for ever.—Romans 11:33-36.

God of grace and love, we look for miracles, forgetting daily blessings so common. And, we neglect gratitude. Forgive us for our presumption, taking benefits for granted.

We slept between clean sheets last night—many slept on the street or in automobiles. We showered with an abundance of water—many had none to drink. We ate a hearty breakfast—many had nothing this morning nor yesterday nor tomorrow. We wear clean clothes—many wear rags. We few have so much while the many have so little. We always have more than we need of everything—they never have enough of anything they need. Help us to be grateful, to care and to share.

In the name of Jesus, incarnate love. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, November 13, 1989.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable THOMAS A. DASCHLE, a Senator from the State of South Dakota, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. DASCHLE thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. Under the standing order, the majority leader is now recognized.

THE JOURNAL

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Journal of proceedings be approved to date.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. MITCHELL. Mr. President, this afternoon following the time for the two leaders, there will be a period for morning business until 3 o'clock with Senators permitted to speak therein for up to 5 minutes each.

At 3 o'clock, the Senate will resume consideration of S. 1582, the Poland-Hungary assistance bill. There will be no rollcall votes today. Any votes ordered today relative to that legislation will be scheduled to occur tomorrow morning.

In order to complete action on the measure, I urge all Senators with amendments to be prepared to offer them today. All of the amendments and the debate will be completed today with votes remaining for tomorrow morning.

EAST GERMANY

Mr. MITCHELL. Mr. President, in the past year we have witnessed monumental changes in Eastern Europe, events many did not believe possible. Solidarity, only recently banned, was voted to lead Poland toward greater political and economic freedom. In Hungary, Communists distanced themselves from communism in an effort to compete with the democratic opposition in the upcoming elections. Even in Bulgaria, the most liberal member of the Politburo has taken charge, pledging to turn Bulgaria into a modern democratic and law-governed state.

But the enormity of the transformation underway has never been more clearly demonstrated than by the figurative, and now the literal, destruction of the Berlin Wall.

That wall, a symbol of division between East and West, has been dissolved by the East German people's desire for change, for freedom, for control of their future.

The images flashed across the West are almost unbelievable—young East Berliners dancing atop the once forbidden wall; traffic immovable as hundreds of thousands flood into the Western city to visit friends and relatives; mayors of East and West Berlin shaking hands in the midst of a jubilant crowd.

These images represent the fulfillment of our deepest wishes, change we have demanded for over 25 years. They are changes welcomed by people throughout the world.

When President Gorbachev assures us of his support for the changes taking place in East Germany, he expresses his satisfaction and pride in an event he has helped create.

When Americans voice their enthusiasm about the dissolution of the Berlin Wall, we are not, as some appear to fear, gloating. We are rather sharing in the same satisfaction felt by others around the world.

We, Soviets and Americans together, are celebrating East Germany's expression of freedom and steps toward democracy.

That our two nations can praise this event at the same time is itself cause for celebration.

To acknowledge the tremendous significance of the symbolic destruction of the Berlin Wall and to give voice to the exhilaration felt by all Americans, I urge President Bush to travel to West Berlin.

It has been 40 years since the West demonstrated its commitment to the city's freedom by helping break the blockade strangling Berlin. It would be fitting for the American President to travel there to underscore the American commitment to the freedom of Berlin and our support for democratic reform in East Germany.

In Berlin President Bush should acknowledge personally the tremendous significance of the past week's events and the joy that all Americans feel at the prospects of greater freedom and democracy for the people of East Germany.

I also urge the President to begin planning immediately with our European allies to hold a meeting in which we can have a detailed and thorough discussion about the proper Western response to changes within Eastern Europe.

It is widely recognized that there has begun a process of transforming

the political, economic, and security arrangements on the European Continent. There is no doubt that the unanticipated pace of change in Eastern Europe has both immediate and long-term implications for the West and its various organizations including the European Community and the North Atlantic Treaty Organization. The Western nations cannot effectively assess or react to these changes if we ignore them or take separate paths in response.

The West Europeans, closest to the rapidly unfolding events and most directly affected by the changes in Eastern Europe, will have unique concerns and hopes from which the United States has much to learn. It is essential that we expand our consultation and coordinate our policies more closely than ever before. Whether it is from the Malta summit, the upcoming meeting of West German Chancellor Kohl and East German leader Krenz, the European Community's meeting in France in early December, or the NATO foreign ministers' meeting, the alliance partners must move together.

It is critical that we meet this historical opportunity as partners, for how we respond to the challenge of defining a new Europe also will define a new phase in our continuing relationship with our European allies.

In this respect, the talks underway in Vienna on confidence and security-building measures and on reductions in conventional military forces will become even more important. Agreements reached in Vienna can complement the political reforms taking place in the East. By codifying and making permanent the military changes implied by political reform, these agreements can free up energies and resources for more peaceful and productive purposes. The United States has a special role in leading these talks to an early and successful conclusion, and I call upon the President to exert his strong leadership in these talks.

I will soon be making a more comprehensive statement about my hopes and expectations for the Malta summit between President Bush and President Gorbachev.

I wish here to reiterate my strong belief that, as we come to comprehend the historic changes occurring in the East bloc, we must not forget that these changes have occurred in large part because of the reforms initiated by President Gorbachev.

We must continue making concrete programs in areas that directly affect bilateral United States-Soviet Relations, such as the START negotiations and economic relations. I believe the United States has neglected the symbolic importance of normalizing our trading relationship with the Soviet Union. I hope that the President will reexamine his refusal to waive the Jackson-Vanik amendment and that he will initiate the negotiation of a new commercial agreement with the Soviet Union, an agreement which is the prerequisite for granting of nondiscriminatory trade status.

I also believe that the administration is remiss in failing to clearly state that if the Soviet Union is prepared to play by Western economic rules, we will welcome it into the web of economic arrangements and organizations that guide Western commerce.

We ought not to change the rules to accommodate the Soviets, but we must say clearly, if they are prepared to abide by our rules, that we encourage their participation in Western trading organizations.

President Gorbachev has asked that the Soviet Union be included in those organizations, and I believe that we should grant the Soviet Union observer status in the GATT and other institutions as a recognition of and a contribution toward the reform efforts now underway in the Soviet Union.

These are times of enormous hope and opportunity. They offer promise we had only dreamed of and the prospects for greater peace and prosperity throughout the world.

I believe that the central economic lesson of the 20th century is the failure of communism as a system of economic and political organizations.

I urge President Bush to express the sense of elation that all Americans feel as the East German people cross and erase barriers that have imprisoned them for decades. I hope very much that he will voice our feelings and our collective hopes for Eastern Europe in the place where its future has been most dramatically transformed—the city of Berlin. That city, long representing the divided legacy of war, has now become the metaphor for rebirth and change, the beginning, perhaps, of a new, free Europe.

Mr. President, I conclude by saying again, communism has failed. A new order is about to commence across the continent of Europe. We are justifiably proud leaders of the free world. We are home of freedom and democracy. We, the people who twice went to the European Continent to preserve freedom there, have a great interest in working to see that the new order is one of freedom, democracy, and open, free economies.

The United States can and should continue its historic leadership in this area. Events of the past weeks have demonstrated beyond any doubt how universal is the desire and the longing for freedom, democracy, and economic opportunity; how dismally failed has been the Communist doctrine; how governments that require walls to keep their people in cannot be sustained over time.

This is an opportunity without precedent in our lifetime, an opportunity that may not recur in our lifetime. I hope and urge our active leadership to use that opportunity to advance the interests of the United States and the interests of freedom throughout the world.

Mr. President, I hope later today, in consultation and cooperation with the distinguished Republican leader, to submit a resolution welcoming the opening of the Berlin Wall and calling for its complete destruction. I hope that my colleagues will join me in that expression of our policy.

Mr. President, I yield the floor.

RESERVATION OF LEADER TIME

Mr. MITCHELL. Mr. President, I reserve the leader time of the distinguished Republican leader.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 3 p.m. with Senators permitted to speak therein for not to exceed 5 minutes each.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. ADAMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

OPPOSITION TO A PROPOSED DOLE AMENDMENT

Mr. ADAMS. Mr. President, later today we will be discussing aid to Poland. As part of that, I think we can all agree we are in support of the principle, and we will be, I am hopeful, generous with the Polish people for our benefit and for theirs and for that of the entire world in passing this bill.

However, I am informed that there will be an amendment that will attempt to do away with the cargo preference clause offered by the minority leader, my good friend from Kansas. The effect of this amendment would be to suggest that in order to support the democratic labor movement in Poland, we should abandon our commitment to our maritime labor union friends here in the United States. And while there may be a superficial appeal in the suggestion that we can purchase more for our dollar, in terms of food for Poland, by waiving our Nation's long-standing cargo preference requirement, the logic behind this

effort is faulty. The attraction of this amendment might also be extended to the argument that we, as a democratic nation, could purchase even greater quantities of food by purchasing these most needed supplies on the world market, rather than from our domestic agriculture industry. I am certain that my good friend from Kansas and others would speak most eloquently in opposition to such an effort, and I would agree with them.

Mr. President, rather than allow this body to divide over the issue of farm subsidies versus cargo preferences, I hope that our time today and tomorrow will be devoted to the truly historic events that are unfolding in Eastern Europe and the role we might play in helping to smooth the path of that progress. In so doing, it might be useful to recall that in very recent years, when the Solidarity movement was driven underground in Poland, it was in the union halls and on the waterfront of our country that working men and women expressed their own solidarity with that heroic effort; a movement that began in the shipyards of Gdansk. It seems a bit ironic, now that the Polish Solidarity movement has triumphed, that we are being asked to ignore the legitimate aspirations of our own maritime labor movement.

Mr. President, nothing will better speak of the Solidarity we feel with the Polish people than knowing this contribution of food, paid for with American tax dollars, will arrive at the docks in Poland under the flag of the United States of America, on American ships, operated by American workers.

Mr. President, we are witnessing events in Poland, Hungary, and East Germany that not only reaffirm our own faith in the basic principles of democracy but also show that after nearly four decades, the Iron Curtain is in an advanced state of corrosion, and is on the verge of collapse. The opportunity we are presented with today allows us a clear choice: Either to sit on the sideline as an eyewitness to history, or to lend our financial support, and our moral leadership, to an effort that will shape the future. Mr. President, our Founding Fathers, and the hundreds of patriotic Americans who have occupied the seats in this body in the first 200 years of this Republic, would certainly be justified in asking that we rise to this occasion. The financial assistance package that is before the Senate is relatively modest, when compared with the breathtaking changes that are occurring in Europe. I am pleased to note, however, that we are prepared to lend a far more generous and valued hand than what was suggested by the administration. In so doing, and recognizing the importance of the Polish people's date with destiny, we need not shortchange our farmers or our maritime industry. In rejecting this amendment, and in passing this legislation, we can honestly state to the Solidarity movement: We are with you, we support you, and we share the dreams and aspirations that have carried your faith in democracy to this point in the history of your country and of the world.

Mr. President, I urge that this amendment be rejected.

I will speak further on this at a later time, Mr. President, but I felt it necessary to do this today. We are well aware we want to be fair to all parties.

Mr. FORD. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SYMMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

TERRY ANDERSON

Mr. MOYNIHAN. Mr. President, I rise to inform my colleagues that today marks the 1,703d day that Terry Anderson has been held captive in Beirut.

I ask unanimous consent that a well-written article on this subject from the Buffalo News be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Buffalo News, Oct. 28, 1989]

CAPTIVITY DOESN'T BAR HOPE: SISTER SURE, ANDERSON WAS ALIVE FOR BIRTHDAY

(By Carol Ritter)

WASHINGTON.—Peggy Say is convinced her brother, Terry Anderson, was alive yesterday when he turned 42 years old.

"I try not to dwell too much on the fear," she said after a special "Mass of Hope" at the Georgetown University's Dalhgren Chapel.

"We were sent a videotape right after his birthday last year, and on the tape he said he had received the greetings we sent him and knew we were still remembering him. I'm hoping deperately to get another tape this week, but if I don't get one, I won't be surprised, either."

Say was joined at the Mass by members of her family and relatives of six others who are among the eight U.S. and 11 foreign hostages still being held in Lebanon.

The Mass for Anderson's birthday—the Associated Press reporter's fifth in captivity—was arranged by No Greater Love, a support organization for families of the hostages and others whose lives have been touched by terrorism.

Anderson has been a prisoner in Lebanon since being kidnapped by gunmen in Beirut on March 16, 1985. It is believed that he is held by Shiite Muslim fundamentalists.

Among those taking part in the service were other journalists, such as NBC anchor Tom Brokaw, *Washington Post* Executive Editor Ben Bradlee and *USA Today* Editor Peter S. Prichard.

They said they shared Say's frustration.

"The outrage we all feel at the cause of this occasion defies any expression appropriate to this church," said Bradlee. "Hope fights in our hearts with outrage. Today, hope wins out, but barely."

Brokaw said he is "haunted by Terry's plight" and by the thought that Anderson might believe his fellow journalists aren't doing enough on his behalf.

"Happy birthday, Terry. I hope this will be the best year of your life," he said.

Hearst Newspapers Bureau Chief Charles Lewis said hostages who have been released talked of Anderson's devotion to his Catholic faith, a devotion that prompted him to fashion a rosary from fibers he pulled from a cushion given to him by his captors.

The same kind of faith seems to motivate Peggy Say.

Soon after Anderson was captured, Say, then living in Batavia, jumped into the national spotlight as a spokeswoman for her family and an ardent advocate of human rights.

As her brother's term of imprisonment lengthened, Say's quest for his release gradually took over her life. So after her father, a brother and a grandchild died, she found she needed to escape from the limelight. She moved from New York to Kentucky and avoided the press and public appearances for a year.

That was two years ago. Now she has found her voice again and is angry that she let herself be silenced.

"I hate it today that I did that," she said. "Those of us who remember the hostages were criticized for trying to continue the publicity, but why in the world would we be silent about this?

"I don't get any feedback from the Bush administration, but there's something in me that desperately needs to believe that they are not ignoring the hostages.

"My brother's life is worth no more or less than any other. They've got to be free."

In Batavia, where Anderson grew up, the city celebrated his birthday, which has been declared "National Hostage Awareness Day" by Congress.

Church bells throughout Batavia were rung at noon yesterday, and last night, the city dedicated a vivid sculpture of Anderson—his hands bound in chains—that will stand in the Genesee County Mall until he comes home.

Genesee County Legislator Steve Hawley, who graduated from high school with Anderson in 1965, spoke during the dedication ceremony. Hawley said a few months after Anderson was taken hostage, his classmates were planning their 20th reunion. Now, they are planning their 25th reunion next year with Anderson still in captivity, he said.

Buffalo television stations prepared two videotapes set to an original song for the day, said Anne Zickl, the coordinator for the Anderson family's efforts to free American hostages.

"One of the videos includes tape of Terry running along a beach in Lebanon before his capture. It goes on for a while, and it reminds us that he hasn't been able to run at all in 4½ years," Zickl said.

CHARLESTON: AN AMERICAN STORY

Mr. HOLLINGS. Mr. President, I rise to express my appreciation to Abe

Rosenthal of the New York Times for his op-ed column in Friday's edition. In it, he shares his firsthand observations and impressions of Charleston, SC, and the city's remarkable efforts to recover from Hugo. As the dutiful journalist, Mr. Rosenthal reports the facts: yes, Charleston took a beating; yes, several of South Carolina's great pine forests were reduced to splinters. But what most interests him is the remarkable spirit of community and cooperation and decency that he encountered among the people of South Carolina's low country.

In addition, he reports on the defiantly optimistic, future-focused campaign by Mayor Joe Riley to win approval at the polls last week for a new $20 million downtown aquarium. In pushing for approval of the aquarium, Mayor Riley spoke convincingly not just about the practicalities of attracting tourists, but about the needs of our schoolchildren. Most convincingly, he presented a vote for the aquarium as a vote for the future, as a symbol of Charlestonians' determination not just to restore their city, but to make it even better than it was before Hurricane Hugo.

Mr. President, I'm pleased to report that the aquarium initiative passed. This is one more tribute to the vision and can-do leadership style of Mayor Riley. More importantly, it is a tribute to the spirit of a great city, a city unbowed by Hugo and looking ahead to a brilliant future.

Mr. President, I ask unanimous consent that the Rosenthal column be reprinted in the RECORD in its entirety.

[From the New York Times, Nov. 10, 1989]

AN AMERICAN STORY

(By A.M. Rosenthal)

CHARLESTON, SC.—On the day New Yorkers chose a black Mayor and Virginians a black Governor, white and black citizens of Charleston were also asked to show their belief in a common bond.

They were asked to vote with their pocketbooks for the future of their city, the American jewel that one midnight became the eye of the hurricane.

That midnight was less than two months ago. Charleston has fought day and night since then.

Hurricane Hugo lifted or damaged almost every roof in the city. Most have been put back into shape. Thousands of trees, the special delight of the city's people, were destroyed. Carpenters and roofers cannot help here, but the streets are clear and clean.

Central Charleston sparkles again, most of its beauty and grace intact or lovingly restored by its people. It is not a museum but a city where the people live and work in buildings put up a couple of hundred years ago and walk the lovely streets laid down then.

There is energy and work in Charleston and much ado about music. Plans are going right ahead for 1990—a production of "Porgy and Bess," and for the wonderful Spoleto Festival of music, art and dance.

Signs around town: "Hugo Who?" "Hurricane Hugo is History!" "Hugo, Kiss My Grits."

But nervousness is mixed in with the defiance. Tourism is the biggest source of income for the city. Will tourists come back to see the historic houses and gardens, to Spoleto, or will too many be frightened away by the memory and fear of the hurricane?

Charleston is sending our one message: Come on down and visit, we are back. It is pleasant to be one of the messengers.

The progress and the optimism are not a facade. But neither is that the only story or the only message from Hugo.

Every disaster hits the poor hardest. Scores of small businesses, mostly black and without enough insurance or capital, are still closed and may never reopen.

And just 10 minutes from central Charleston, the devastation of the rural hamlets and small towns makes the eyes hurt. Wooden houses and mobile homes are smashed into matchsticks. Pine forests are wiped out, turned into nature's junkyards.

Thousands of people had to move in with relatives, into homes already overcrowded. For them, the hurricane will not be over for a long time.

In the office of Mayor Joseph P. Riley, a meeting is going on—officials of local, state and Federal agencies, the Red Cross, the Salvation Army and the churches. They listen to each other report, ask questions, make plans.

The United States Army, which moved effectively to help once it got its orders, is the hero. People here think the Federal emergency system is slow and clumsy. They say there should be standing instructions that would turn military supplies and manpower into civilian assets without delay.

But nobody is looking for villains. Everybody is credited with doing his best under the cumbersome rules that exist.

Hugo was not followed by a social breakdown or governmental heartlessness. Checks are coming in from government agencies and from private insurers.

But in South Carolina, like every place else in the country, the poorest people often have to wait longest for help. They find out they have put their money into the wrong kind of private insurance and then have to scrabble around for the documents to get Government help, which is supposed to get them back on their feet—not make up for their losses. Sometimes it all seems too much and they do not get the help they are entitled to—that's the other Hugo message.

Every dollar counts, for the city and the people. So on Election Day many thought the top issue, a referendum, was a lot of foolishness.

Here was the Mayor asking them to vote to go ahead with an aquarium that would cost about $20 million. He said it was not just for tourists but for schoolchildren, and that it would provide research to help protect the waters where the fishermen of the Carolinas make their living.

Seventy percent of the voters decided it was not foolishness, that investing in tourism, children and the environment was a good way to spend money, Hugo or no Hugo.

And Hugo or no Hugo, one of Charleston's great attractions is on display all around town. People still smile and nod at strangers as they pass. It is a little startling at first. What do they want? They must be thinking of somebody else.

The visitor starts doing it himself, just to try it out. Quite nice.

ANOTHER COMMUNIST ASSAULT ON EL SALVADOR'S DEMOCRACY

Mr. HELMS. Mr. President, it is regrettable that the House-Senate conference on foreign aid apppropriations decided on Friday night to place an $85 million cap on military aid to El Salvador. El Salvador, more than any other place in this hemisphere, desperately needs our fullest support. It is tragic that the Congress has cut the President's request for military aid, at the very time the democratically elected Government of El Salvador is fighting for its survival.

Mr. President, anyone who questions the importance of our support for El Salvador should look at the front pages of today's papers. The New York Times reads: "Salvador Rebels Launch Offensive; Fighting is Fierce, Hundreds Feared Dead." And the Washington Post reads: "127 Dead in Salvadoran Rebel Drive." In short, the Marxist FMLN guerrillas have launched the largest offensive of the decade, in a brutal effort to topple the democratically elected goverment of Alfredo Cristiani.

The reports that I have indicate that more than 300 people have already been killed over the past 2 days, and as of midday today, more than 400 were wounded. One of the innocent victims was an American schoolteacher working in the capital. Hundreds more have been wounded as the hospital corridors fill with the victims of this latest brutal offensive by the Communist guerrillas. Even the International Red Cross has been pinned down by the guerrilla instigated violence. It will be hard to forget the picture on the front page of this morning's Washington Post that shows Red Cross officials crawling through the streets of El Salvador.

Although reports are still sketchy, the initial facts of this latest offensive by the Communist-terrorists are the following:

First. The guerrillas attacked both the private and official residences of President Alfredo Cristiani.

Second. The guerrillas attacked the residence of the President of the democratically elected legislative assembly.

Third. In an affront to the democratic electoral process, the guerrillas have attacked the central election headquarters.

Fourth. Four important military installations throughout the country have been attacked, they are: The 1st Infantry Brigade, the 6th Infantry Brigade, the 3d Infantry Brigade, and a national police installation.

Fifth. Neighborhoods where key members of the Salvadoran Armed Forces live with their families have also come under attack.

Sixth. At this time I understand that many guerrillas are forcibly en-

tering the homes of innocent civilians and taking them hostage, in an effort to protect themselves from being captured.

Seventh. Weapons, ammunition and guerrillas have been captured in many places throughout the capital—most notibly in the National University, the Central American University, and the Retreat House of the Jesuits. And according to press reports, Government forces have captured Soviet-made weapons throughout downtown San Salvador.

Mr. President, there is a new and ominous development. The connection between Ortega, Noriega, and the Communist guerrillas throughout the hemisphere is well documented. But today I have even more information about the Ortega-Noriega-FMLN connection.

My sources, which have been accurate in the past, say that the Salvadoran Communist Party and the FMLM terrorists sent a delegation last week to meet with Noriega. Reportedly Noriega personally agreed to provide the terrorists with communications equipment, uniforms, medicines, and other assistance necessary to carry out this offensive.

Since their meeting with Noriega last week, the FMLN guerrillas have been acquiring the promised assistance from Cuban-front companies in the Panamanian Free Zone. Noriega has made arrangements to truck the supplies to Chiriqui, Panama. Once the supplies arrive in Chiriqui, Noriega is providing airplanes to fly the assistance to Nicaragua. In Nicaragua, Ricardo Wheelock—chief aide to the Minister of Defense—has personally coordinated the shipments of the supplies on to the Salvadoran terrorists, through the same channels the Nicaraguans use to send military hardware to El Salvador.

So far, Mr. President, I am pleased to report that the Government of El Salvador is in control of the situation. The Armed Forces have acted valiantly and responsibly to defend the people and democracy of El Salvador. President Cristiani, likewise, has moved quickly to preserve stability and order in a country under siege. At a time when democracy in our hemisphere is at stake, we owe the Salvadoran Government and Armed Forces nothing less than our fullest support.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. The Chair informs the Senate that morning business is closed.

EXTENSION OF MORNING BUSINESS

Mr. SYMMS. Mr. President, I ask unanimous consent that morning business be extended to not last past the hour of 3:07 p.m.

The PRESIDING OFFICER (Mr. FORD). Without objection, it is so ordered.

The Senator from Idaho is recognized.

Mr. SYMMS. I thank the Chair.

(The remarks of Mr. SYMMS pertaining to the submission of Senate Congress Resolution 81 are located in today's RECORD under "Submission of Concurrent and Senate Resolutions.")

Mr. HELMS. Mr. President, I suggest the absence of a quroum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. The time for morning business has expired.

SUPPORT FOR EAST EUROPEAN DEMOCRACY ACT

The PRESIDING OFFICER. The Senate will now resume consideration of S. 1582, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 1582) to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland.

The Senate resumed consideration of the bill.

Pending:

Dole amendment No. 1056, as modified, to promote democratization and reform in Poland and Hungary through development of the private sectors, labor market reforms, and enhanced environmental protection.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

AMENDMENT NO. 1108

(Purpose: To provide for the use of excess foreign currencies)

Mr. HUMPHREY. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from New Hampshire [Mr. HUMPHREY] proposes an amendment numbered 1108.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the committee substitute add the following new section:

SEC. . CERTAIN USES OF EXCESS FOREIGN CURRENCIES.

(a) AUTHORITY TO USE.—During fiscal year 1990, the Administrator for title I of the Foreign Assistance Act of 1961 may use, for the purposes described in subsection (b), such sums of foreign currencies described in subsection (c) as the Administrator may determine.

(b) PURPOSES FOR WHICH CURRENCY MAY BE USED.—Foreign currencies may be used under this section—

(1) for the same purposes for which assistance may be provided under title I of the Foreign Assistance Act of 1961, and

(2) for the support of any institution providing education for a significant number of United States nationals (who may include members of the United States Armed Forces or the Foreign Service or dependents of such members.)

(c) CURRENCIES WHICH MAY BE USED.—The foreign currencies which may be used under this section are United States-owned excess foreign currencies that are in excess of amounts necessary for satisfaction of preexisting commitments to use such currencies for other purposes specified by law.

(d) WHERE CURRENCIES MAY BE USED.—Foreign currencies may be used under this section in the country where such currencies are held or in other foreign countries.

(e) NONAPPLICABILITY OF OTHER PROVISIONS OF LAW.—Foreign currencies may be used under this section notwithstanding section 1306 of title 31, United States Code, or any other provision of law.

(f) LIMITATION.—Foreign currency made available under this section may not be used in any Communist country listed pursuant to section 4201(d).

Mr. HUMPHREY. Mr. President, this is an amendment that has been disclosed with the managers of both sides. I believe it is agreeable to them. I will just give a very brief description for the benefit of Senators listening from their offices.

This is an amendment to provide discretionary authority—and I emphasize "discretionary"—to the Administrator of the Agency for International Development to use excess U.S.-owned foreign currencies for development assistance programs and to provide assistance to overseas institutions that provide education for a significant number of American citizens.

This provision is similar to one that was adopted by the Senate by voice vote on two occasions last year. It has also passed the House on one occasion but, unfortunately, not on the same bill, and that explains why it has not yet become law.

In short, it is a noncontroversial provision that has previously been cleared by the entire Congress.

Mr. President, currently the United States holds certain foreign currencies that are in excess of amounts necessary for satisfaction of preexisting commitments to use such currencies. An "excess currency" country is defined by the Department of Treasury as a country where the "supply of a nonrestricted currency is great enough to more than meet U.S. requirements for more than 2 years." So this amendment does not apply broadly to all U.S. owned foreign currencies. It only authorizes a use for a fraction of U.S.-owned currencies—those that are designated as being excess to current or anticipated needs of the U.S. Government.

Specifically, this amendment permits AID to identify a use for these excess currencies—either for development assistance programs, or to assist overseas education facilities that are predominately attended by American students. In the case of Poland, this provision would give AID the authority to use these currencies to assist the programs authorized under this bill, if Poland were determined to be an excess currency country.

This provision would also permit AID to seek a means to use these excess currencies in countries other than those where they are held, through commodity exchanges, for example. Where AID determines a need, and if excess currencies are available, they would have the authority under this provision to provide assistance.

The point is this, Mr. President, historically under various transactions the United States accepts payments in local currencies. The Treasury Department in its 1988 report, "foreign currencies held by the U.S. Government" explains how we come by these currencies:

(1) In exchange for agricultural commodities financed by the Department of Agriculture (including repayment of loans of these funds);

(2) in repayment of loans financed by expenditure under the Foreign Assistance Act of 1961 and prior acts as amended;

(3) as payment of interest on deposits of foreign currency in foreign banks;

(4) from various other programs.

The report goes on to make the important point:

These nonpurchased foreign currencies are separate and distinct from the budget expenditure accounts and do not affect the budget surplus or deficit of the U.S. Government except to the extent that the currencies are sold for dollars.

Often such foreign currencies are soft currencies. They are not convertible into hard currencies. As the Treasury Department report states:

The foreign currencies reported herein in large part are neither freely convertible to other currencies nor freely spendable by the U.S. Government for the general support of its overseas operations.

And so, over the years, the United States has held millions of dollars in such foreign currencies. These are currencies that are difficult to employ to our Nation's advantage. To put it plainly, it is hard to spend this money because no one wants to accept payment in soft currencies. That is why such currencies accumulate until they are declared excess by the Treasury. When a foreign currency accumulates to the point of exceeding the 2-year needs of the U.S. Government to spend such a currency, then that currency by Treasury Department definition becomes an excess foreign currency. And so these assets sit there. They are a wasted asset.

Let me underscore, Mr. President, that any determinations as to who will receive assistance under this provision, must be made by AID. The amendment does not earmark funds, it does not specify which institutions, if any, will receive the assistance. It merely grants AID the authority to use these excess currencies for development assistance programs and to help educational institutions overseas attended by significant numbers of American children, American citizens. And let me emphasize also, the assistance is made available to the institution and not to the individual student, though of course the aim is to improve the situation of American citizens.

I know of no opposition to the amendment, Mr. President.

Mr. HELMS. Will the Senator yield?

Mr. HUMPHREY. Yes.

Mr. HELMS. Mr. President, I commend the Senator on the amendment. I ask him if he would permit me to be a cosponsor of it.

Mr. HUMPHREY. By all means. I ask unanimous consent that the Senator's name be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMON. Mr. President, will the Senator yield?

Mr. HUMPHREY. Yes.

Mr. SIMON. Mr. President, we have no objection to the amendment. It is discretionary. I think it is a good amendment. I see no reason for not approving it.

Mr. HUMPHREY. Mr. President, parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state the inquiry.

Mr. HUMPHREY. What is now pending? Is there another amendment pending prior to the Humphrey amendment?

The PRESIDING OFFICER. The Dole amendment to the committee substitute is pending.

Mr. HUMPHREY. Mr. President, I withdraw my amendment.

Mr. HELMS. No. No. Mr. President, I ask unanimous consent that the Dole amendment be temporarily laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HUMPHREY. Therefore, the Humphrey amendment is pending?

The PRESIDING OFFICER. The Senator is correct.

Mr. HUMPHREY. I thank the floor managers for their help and cooperation.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. The Senator is quite welcome.

Mr. President, this amendment is noncontroversial. It has passed the Senate on two occasions already and has passed the House already once. I am pleased to accept it on behalf of the Republican side.

It is not widely known, but the United States holds literally millions of dollars in foreign local currencies overseas. Generally, these local currencies are used for Embassy and other expenses of the U.S. Government in the country in which the currencies are held.

However, in some countries, the United States holds much more local currencies than can possibly be used for the expenses of our Government. What this amendment aims to do is to utilize these excess American-owned foreign local currencies for the benefit of American citizens studying abroad.

As I noted, this amendment has been adopted by the Senate twice and the House once. Its inclusion in this bill will ensure its enactment.

The PRESIDING OFFICER. Is there further debate?

If not, the question is on agreeing to the amendment of the Senator from New Hampshire.

The amendment (No. 1108) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMON. Mr. President, I offer an amendment on behalf of Senator HARKIN and ask unanimous consent that it be held over until tomorrow—Senator HARKIN is not here—but that it be held over until tomorrow for debate.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. Is the Senator sending the amendment to the desk to be printed and not be offered as an amendment to the bill?

Mr. SIMON. Mr. President, I question the presence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

29-059 O-90-18 (Pt. 20)

Mr. HELMS. I further ask unanimous consent that the pending amendment be laid aside so that the distinguished Senator from New Hampshire can offer another amendment which I believe may be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HUMPHREY addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

AMENDMENT NO. 1109

(Purpose: To provide for the cessation of assistance to Poland and Hungary in the event of a reversal of the process of democratization)

Mr. HUMPHREY. Mr. President, I again thank the floor managers for their help. I send an amendment to the desk which has been reviewed by the floor managers and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from New Hampshire [Mr. HUMPHREY] proposes an amendment numbered 1109.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In the committee substitute, strike section 803 and insert in lieu thereof the following:

SEC. 803. CESSATION OF AID.

(a) Funds provided under this act shall cease to be available for Poland if the President of Poland, or any other Polish official, initiates martial law or a state of emergency for reasons other than necessary to respond to a natural disaster or a foreign invasion or if any member of the Senate or Sejm is removed from office or arrested through extra constitutional processes.

(b) Funds provided under this act for Hungary shall cease to be available if the President of Hungary, or any Hungarian official, initiates martial law or a state of emergency for reasons other than necessary to respond to a natural disaster or a foreign invasion, or if any member of the Hungarian National Assembly is removed from office or arrested through extra constitutional processes.

Mr. HUMPHREY. Mr. President, the Senate has seen a version of this amendment before. I first offered the amendment to the Poland aid provisions of the foreign operations appropriations bill. It was accepted, adopted by the Senate, and has since been improved by the foreign operations conferees.

The amendment now at the desk is a further refinement of the language as agreed to by the foreign operations appropriations conferees.

Mr. President, the purpose of the amendment is clear and simple. It would strike section 803 of the Simon substitute bill regarding termination of assistance to Poland and insert in its place stronger language similar to what this body has already unanimously approved.

The amendment is designed to cease United States assistance to Poland or Hungary if there were to be a crackdown on democracy in either of those nations. For such a cessation of aid to occur, the leadership in Poland and Hungary would have to take severe measures, including the declaration of martial law for reasons other than necessary to respond to a natural disaster or a foreign invasion, or the summary illegal removal or arrest of members of the national parliaments through extraconstitutional processes.

If this were to happen, however, the leadership in Poland and Hungary should have no doubt, were this to happen, as to what the position of the United States would be. U.S. aid under this bill would cease automatically and without debate.

Mr. President, I ask unanimous consent that an editorial published in the Washington Post on November 2 in support of the intent, general support of the intent, of this provision be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. HUMPHREY. The distinguished Republican leader, Senator DOLE, and my colleague from Illinois, Senator SIMON, ask to be sponsors of this amendment. It has been cleared on both sides.

To reiterate, Mr. President, the effort here is to make it crystal clear to all parties in Poland and Hungary that if there is a return to the bad old days, if there is a regression to authority and rule as defined by the language of this amendment, then our money stops. The intent is to put parties on notice so they will not be tempted to take those kind of steps.

I thank the floor managers for their help in refining this language, Mr. President.

EXHIBIT 1

[From the Washington Post, Nov. 2, 1989]

AID FOR EASTERN EUROPE

Eastern Europe is going to need a lot of help if it is to keep moving steadily toward greater democracy and decentralized market economics. So far President Bush and the congressional Democrats have been quarreling about the narrow issue of how much money to put into an American aid bill for Poland and Hungary. They ought to be asking much broader questions: how to organize aid that will come from many donors, what conditions to attach to it, and what to do if other Eastern Europe countries begin to move in the same direction?

The Marshall Plan is the model that seems to overshadow the debate here. But this isn't 1947. Four decades ago the United States was the only country with the wealth to provide aid, and the aid was needed only to reestablish industrial production in countries that already had much industrial experience. Neither condition prevails today in Eastern Europe.

Many countries are now capable of helping to support reform there, and some have already pledged substantial amounts. But most have pledged loans that are closely tied to specific purposes, usually to financing exports from the donor country. The donors are going to have to work together much more closely to ensure that the right kinds of money are available when needed.

Poland has launched itself into a transformation that's going to be much more complex—and uncertain—than the industrial reconstruction after World War II. It is going to try to adapt its economy and its society to compete in world markets with which it has had little contact since the 1930s. This time the aid is going to have to go beyond foodstuffs and machinery.

Is this aid limited to Poland and Hungary? Mr. Bush is apparently prepared to discuss the Soviet economy with Mr. Gorbachev when they meet in December. In Prague the police once again were whacking peaceful demonstrators around last weekend. But the present Czech regime isn't likely to last long—not in a season in which even the East German government is making concessions to public protests. If the Czechs start to follow the Polish and Hungarian examples, at what point will they be eligible for aid? They need to know that help will be available—but they also need to know that the changes have to go beyond smiles and gestures. The donors would be wise to make it clear to all of these countries from the beginning that if any of them were suddenly to reverse their courses and revert to repression, as China did last spring, the aid would immediately and automatically cease.

The Bush administration is suffering a shortfall of initiative. It is bickering about the size of an American contribution while the much greater questions of organizing the aid and setting conditions are being left to a haphazard low-level process. Eastern Europe needs to hear the West's commitment.

Mr. SIMON. Mr. President, I am pleased to be a cosponsor of this amendment. We have in the bill already some general language saying if there is a reversal of the process of moving toward democracy in Poland and Hungary that there should be a cessation of all of the aid that is provided here. This ties it down. I think it strengthens the bill, and I am very pleased to be a cosponsor. I think it will improve the bill.

Mr. HELMS. Mr. President, I ask unanimous consent that I, too, be made a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Just for the information of the Senate and those who may be listening, I think it would be instructive for it to be read. It speaks for itself eloquently.

Section 803, cessation of the aid, (a) Funds provided under this act shall cease to be available to Poland if the President of Poland, or any other Polish official, initiates martial law or a state of emergency for reasons other than necessary to respond to a natural disaster or a foreign invasion, or if any Member of the Senate or Sejm is removed from office or arrested through extraconstitutional processes.

The same thing is said in paragraph B about Hungary.

I think it is an excellent amendment. We find it thoroughly acceptable on this side. I commend the Senator for offering it.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment of the Senator from New Hampshire.

The amendment (No. 1109) was agreed to.

Mr. HELMS. I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SIMON addressed the Chair.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. SIMON. Let me offer the amendment on behalf of Mr. HARKIN, and I enter it with the understanding that it will be printed in the RECORD, and that then if we move to this area of cargo preference, that he will have the opportunity to offer this amendment tomorrow.

I do not want to misquote my colleague, but I think that is the understanding.

Mr. HELMS. Providing it is understood that it is not being offered now, but simply being submitted to the RECORD for publication.

Mr. BREAUX. Reserving the right to object, I say to my good friend from Illinois, I think discussions between the majority leader and the representatives of the minority are now underway on how to handle this right now, and if the Senator would withhold that request, I think we may have an answer to clarify that. They are working on it right now.

Mr. HELMS. I think that is right.

Mr. SIMON. I am pleased to withhold that request.

The PRESIDING OFFICER. The Senator from Illinois withholds the Harkin amendment.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. PRYOR). Without objection, it is so ordered.

AMENDMENT NO. 1110

(Purpose: To provide a substitute for the provision regarding GSP treatment)

Mr. SIMON. Mr. President, I send an amendment to the desk on behalf of Senator BENTSEN and myself.

The PRESIDING OFFICER. Does the Senator from Illinois desire to set aside the pending Dole amendment?

Mr. SIMON. I ask unanimous consent that the pending Dole amendment be set aside to consider this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Illinois [Mr. SIMON], for Mr. BENTSEN, for himself and Mr. SIMON, proposes an amendment numbered 1110.

Mr. SIMON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 25, beginning with line 18, strike out all through line 22 and insert the following:

ELIGIBILITY OF POLAND FOR GENERALIZED SYSTEM OF PREFERENCES

SEC. 311. Subsection (b) of section 502 of the Trade Act of 1974 (19 U.S.C. 2462(b)) is amended by striking out "Poland" in the table within such subsection.

Mr. BENTSEN. Mr. President, I am offering this provision because, in marking up S. 1582, the Senate Foreign Relations Committee acted outside its jurisdiction by including a trade provision in its bill. Previously, the Finance Committee had approved a similar provision. The purpose of this amendment is to make clear that the Finance Committee preserves its jurisdiction over such provisions by including the Finance Committee version of this provision in the bill.

In July, the Finance Committee considered the issue of GSP for Poland. The committee marked up an original bill, S. 1262, making Poland eligible for GSP. At the request of the administration, I moved the legislation quickly in the committee in an attempt to have the measure enacted before President Bush visited Poland in mid-July. In the event, however, that bill was not enacted at that time.

We now have before us a comprehensive bill providing assistance to Poland. In light of recent reforms in Poland, it is appropriate that this legislation make possible the granting of GSP to Poland. Under current law, certain Communist countries and certain developed countries are specifically listed as ineligible for GSP benefits. Poland is among these countries. The amendment that I am offering will strike Poland from this list and thereby give the President the authority to grant GSP to Poland. Poland will not automatically be granted GSP; however, if the President finds that Poland meets the criteria set forth in the statute, he will have the power to grant Poland the special duty treatment afforded to beneficiary countries.

Because the Finance Committee reported a bill making Poland eligible for GSP in July, I am now offering an amendment striking the trade provision in the Foreign Relations Committee bill and adding the language of the Finance Committee bill.

I urge my colleagues to support the amendment.

Mr. SIMON. This is an amendment offering the generalized system of preferences for Poland in this situation. It has, as I understand it, been cleared by both sides.

Mr. HELMS. It has, indeed.

Mr. SIMON. I ask that we adopt it at this point.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1110) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCONNELL. Mr. President I ask unaninous consent that the pending amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1111

Mr. McCONNELL. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Kentucky [Mr. McCONNELL] proposes an amendment numbered 1111.

Mr. McCONNELL. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment reads as follows:

At the end of the committee substitute:

The Secretary of Commerce and the Secretary of Energy shall establish a task force to analyze the current supply and demand situation of coal in the Soviet Union. The analysis will include, but not be limited to—

the causes of labor unrest in the Soviet coal industry and the impact of that unrest, of mining productivity, and of the transportation system in the Soviet Union on domestic coal production in that country;

the impact of increased industrialization and winter weather on Soviet coal demand;

the likelihood of a shortfall between domestic supply and demand;

the feasibility of meeting any shortfall which might occur with United States coal;

the feasibility of coal from other countries meeting any shortfall which might occur; and

steps which must be taken to enable United States coal to compete with other countries to meet any shortfall which might occur.

The task force shall report their findings to Congress within 45 days of enactment of this act.

Mr. McCONNELL. Mr. President, this is an amendment which as I understand it, has been cleared on both sides.

Mr. President, I rise today to offer an amendment which I believe could result in a significant market opportunity for the United States coal industry, a positive impact on this country's balance of trade, and a gesture of good will to the Soviet Union.

As we all know, the Soviet Union has been experiencing severe labor unrest in its coal fields and in its transportation sector recently. That unrest has hurt domestic coal production in the Soviet Union and led some observers, including Soviet Premier Mikhail Gorbachev, to speculate that a shortfall between domestic coal supply and demand will occur in the Soviet Union this winter or sometime in the near future.

Should such an imbalance in coal supply and demand occur, the logical supplier to meet the shortfall would be Poland. However, there is also some talk that Poland's coal supply may itself be interrupted or reduced as that country moves to phase out of operation some of its highly subsidized and inefficient coal mines.

Mr. President, this coal supply and demand situation, although somewhat unclear at this point, nonetheless presents a potential market opportunity for U.S. coal—a market opportunity which should not be ignored. What is needed at this time is more information and analysis of the situation.

Therefore, I am offering an amendment today which instructs the Secretary of Energy and the Secretary of Commerce to establish a task force to analyze the current domestic supply and demand situation in the Soviet Union. The analysis will look at the labor unrest situation, the transportation system, and mining productivity in the Soviet Union and determine their impact on domestic coal production in that country.

The analysis will also look at the impact of increased industrialization and winter weather in the Soviet Union on coal demand. Finally, the analysis will determine the feasibility of United States coal, as well as coal from other nations, meeting any shortfall which might occur and recommend steps which must be taken in order for United States coal to successfully compete for any market share which might become available in the Soviet Union in the near future.

Mr. President, it is not my intention to undercut those who struggle for change in either the Soviet Union or Poland. Union activists have historically been crucial advocates of reform.

It is my intention, Mr. President, simply to assist the domestic coal industry to take advantage of a market opportunity. As a nation, we too often sit and watch as market opportunities pass us by. When we do decide to act, it is often too late. Well, here is a potential market opportunity. Regardless of what some observers may say about the chances of the United States coal industry ever selling a single pound of coal to the Soviet Union, I happen to believe it is an idea worth pursuing.

I know the coal industry of Kentucky stands ready to expand its already significant export production. I am sure the coal producers of other States are in a similar position. The Federal Government should take steps to make sure these producers have access to every market opportunity available.

Mr. President, as I said, I understand that both sides have cleared this amendment.

Mr. SIMON. If my colleague will yield, it is acceptable on this side. We would be very pleased to support it.

Mr. McCONNELL. I thank the Senator from Illinois.

Mr. HELMS. Mr. President, the amendment is acceptable on this side.

Mr. McCONNELL. I thank the Senator from North Carolina.

The PRESIDING OFFICER. The question is on agreeing to the amendment offered by the Senator from Kentucky [Mr. McCONNELL].

The amendment (No. 1111) was agreed to.

Mr. McCONNELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Who seeks recognition?

Mr. HELMS. Mr. President, I believe the Senator from Massachusetts has an amendment.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

AMENDMENT NO. 1112

(Purpose: To express environmental-related concerns regarding the development of Poland and Hungary)

Mr. KERRY. Mr. President, I ask unanimous consent that the amendment by Senator DOLE be temporarily laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KERRY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Massachusetts [Mr. KERRY] proposes an amendment numbered 1112.

Mr. KERRY. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 8, line 23, insert "and environmentally sound natural resource management" after "principles".

On page 35, between 12 and 13, insert the following:

(a) PRIORITY FOR THE CONTROL OF POLLUTION.—The Congress recognizes the severe pollution problems affecting Poland and Hungary and the serious health problems which ensue from such pollution. The Congress therefore directs that a high priority be given in the implementation of assistance to Poland and Hungary to the control of pollution and the restoration of the natural resource base on which a sustainable, healthy economy depends.

On page 35, line 13, strike out "(a)" and insert in lieu thereof "(b)".

On page 36, line 1, strike out "(b)" and insert in lieu thereof "(c)".

On page 36, line 9, strike out "(c)" and insert in lieu thereof "(d)".

On page 36, line 16, strike out "(d)" and insert in lieu thereof "(e)".

On page 36, line 17, strike out "(a), (b), and (c)" and insert in lieu thereof "(b), (c), and (d)".

On page 36, line 22, strike out "(e)" and insert in lieu thereof "(f)".

On page 38, between lines 13 and 14, insert the following:

(g) DEPARTMENT OF ENERGY ACTIVITIES.—PRIORITY FOR EFFICENT ENERGY USE.—In view of the high energy usage per unit of output in Hungary and Poland, the Secretary of Energy shall give high priority to assisting officials of Poland and Hungary in improving the efficiency of their energy use, through emphasis on such measures as efficient motors, lights, gears, and appliances and improvements in building insulation and design.

(h) ALTERNATIVE INVESTMENTS IN ENERGY.—It is the sense of the Congress that the Administration should work with the Government of Hungary to achieve environmentally safe alternative investments in energy efficiency, particularly with regard to projects along the Danube River.

Mr. KERRY. Mr. President, this is a very straightforward amendment which, I am pleased to say, both the majority and minority have agreed to accept. I will not go into a long explanation, or full explanation of it.

First of all, I congratulate the managers of this important legislation for moving it along, and particularly the distinguished Senator from Illinois, who has worked so long and so hard to see this happen. Needless to say, because of the visit of Lech Walesa here this week, there is obviously no more important time for us to conclude consideration of this legislation and send him back to Poland with an important

addition to his package of commitments.

This amendment is an effort to try to set some guidelines within this legislation so the expenditure of these funds will be done in a way that takes into consideration an increasingly recognized but not enough implemented concern, namely the environment.

Poland, particularly currently, has monumental environmental problems. Less than 1 percent of the water in Poland is currently drinkable. And fully one quarter of the land in Poland is not usable for farming because of the level of pollution.

This amendment says, indeed, it is good and appropriate that we should give assistance but let us not compound further the problems of the world by spending those moneys in ways that ignore sound ecological policy and sound sustainable growth and development policy which increasingly is becoming a concern to nations all over the world.

My amendment has four parts. It is designed to encourage U.S. assistance to face those environmental problems.

The first part simply inserts the phrase, "an environmentally sound national resource management" to the general authority language.

The second part establishes a number of important environmental initiatives in connection with the assistance that we provide both Poland and Hungary.

The third part would add a new subsection to section 502 dealing with the Department of Energy, which recognizes it is vital that their use of energy be used in a way that would assist both countries in energy conservation and energy efficiency improvements.

Mr. President, it is my feeling that each and every foreign aid package ought to contain these kinds of measures. I think the Foreign Relations Committee has so stated in its adoption earlier this year of amendments to establish IMF and World Bank policy in their development procedures. I am delighted the Senator from Illinois, and the Senator from North Carolina agree and endorse and embrace these particular approaches.

To reiterate, my amendment has four parts to it and it is designed to encourage United States assistance to reverse the serious environmental problems facing Poland and Hungary.

The first part of the amendment inserts the phrase "and evnironmentally sound natural resource management" to the general authority language contained in page 8 of S. 1582. The purpose in adding this phrase is to ensure that the economic adjustment program which we are supporting for Poland is predicated on sound and sustainable use of the natural resources of that country. The promotion of environmentally sound natural resource management is a prerequisite for a truly healthy economy over the long run.

The language of this section of this amendment is consistent with the provisions which have been passed in both the Senate and House. These provisions call upon the International Monetary Fund to recognize the relevance of sound natural resource management in that institution's structural adjustment lending.

Section 502 of the pending legislation establishes a number of important environmental initiatives in connection with the assistance we would provide both Poland and Hungary. My amendment would add an introductory section which would make official recognition of the seriousness of the pollution problems besetting Hungary and Poland an integral part of section 502. In addition, this provision would direct the President to give a high priority to addressing these serious pollution problems in implementing our assistance programs.

To illustrate the gravity of the pollution problems confronting Eastern Europe, the Worldwatch Institute reports that these countries suffer from some of the highest concentrations of industrial waste found anywhere in the world. In Poland the chemical contamination has rendered one-fourth of the soil unfit for food production and left only 1 percent of the water safe for consumption purposes. The tragic result, is that the life expectancy for men between the ages 40 and 60 has now fallen to the level it was in 1952.

The Worldwatch Institute reports that 13 million of Poland's 40 million population are expected to acquire at least one environmentally induced illness, such as cancer or respiratory ailments. Researchers in Poland have found alarmingly high concentrations of heavy metals in vegetables in the upper Silesia region which is heavily industrialized. Soil samples from vegetable gardens show levels of cadmium, lead, mercury, and zinc between 30 and 70 percent higher than the levels considered safe by the World Health Organization.

As we move forward with this legislation, it is imperative that we address these serious and tragic environmental problems in as comprehensive a manner as we can. The purpose of my amendment is to assist in establishing the context within which section 502 should be implemented.

The third element of this amendment would add a new subsection to section 502 dealing with the Department of Energy. This subsection recognizes that the inefficient use of energy in Hungary and Poland is a very serious problem. Therefore, this new subsection would direct the Secretary of Energy to assist officials in both countries with a variety of energy conservation and efficiency improvements. Studies have shown that such improvements as more efficient lights, motors, and appliances are four to six times more cost effective than investments in new sources of energy generation. Since both Poland and Hungary face serious economic conditions, it is imperative that both countries make the wisest and most cost-effective energy investments. As it turns out, the most cost-effective investments also are the most socially and environmentally beneficial.

At present, Hungary consumes more than seven times as much energy per dollar of gross national product as France or Sweden, four times as much per dollar of GNP as West Germany or Spain, and more than two and a half times as much per dollar of GNP as the United States.

Poland is not as energy intensive as Hungary, but still uses three times as much energy per dollar of GNP as France or Sweden, and more than twice as much as West Germany, Spain, or Italy.

Finally, the fourth part of this amendment also would add another new subsection to section 502. This new subsection urges the administration to work with the Government of Hungary to achieve environmentally safe alternative investments in energy efficiency, particularly with regard to projects along the Danube River. The Government of Hungary is to be commended for suspending construction of a very costly and environmentally destructive dam on the famous Danube River.

Opposition to this costly dam has been a focal point for the forces of freedom in Hungary who prevailed upon the government earlier this year to suspend construction. The portion of the Danube at stake is considered to be the most beautiful in Hungary.

There is strong international support developing for protection of this stretch of the river. Friends of the Earth International, which is comprised of organizations in 37 countries, passed a resolution this past September calling for protection of the Danube River and opposing the construction of dams on this critical sector.

Having made the difficult choice to suspend construction of this project, the Government of Hungary requires the support and encouragement of the United States to preserve this area. The United States could be of immense help if we could give assistance in support of more effective energy conservation and efficiency projects in Hungary.

Mr. President, this amendment does not allocate any moneys in this legislation for the environmental problems which I am addressing. However, I do think the amendment establishes some important environmental policy guidelines for the executive branch to

pursue in the implementation of the assistance we will be providing to Hungary and Poland. It is my hope that the managers of this bill will accept this amendment.

The PRESIDING OFFICER (Mr. ROBB). The Chair recognizes the Senator from Illinois [Mr. SIMON].

Mr. SIMON. Mr. President, I certainly do accept this amendment. It is an improvement in the bill.

Let me add, we face a particularly difficult situation in the Krakow area of Poland, where the Nowa Huta steel plant nearby has some just overwhelming environmental problems it is causing. The average life span in the Krakow area is about 4 years less than in the rest of Poland.

Another problem we cannot address in this bill, and my colleague cannot address in his fine amendment, is a problem that is a growing problem around the world. That is a border country—in this case Czechoslovakia—had industries right near Poland causing serious pollution problems in Poland.

Obviously, Poland cannot deal with this, but nations working in concert have to do that. One of the things we are going to have to do is work out arrangements so we can work, one with another, to prevent the kind of hazards to our people that too often afflict all countries of the world.

I am very pleased to accept the amendment on this side.

The PRESIDING OFFICER. The Chair recognizes the Senator from North Carolina [Mr. HELMS].

Mr. HELMS. I thank the Chair, the amendment is thoroughly acceptable on this side.

The PRESIDING OFFICER. If there be no further debate, the question is on agreeing to the amendment of the Senator from Massachusetts.

The amendment (No. 1112) was agreed to.

Mr. KERRY. Mr President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMON. Mr. President, I want to take a few minutes of general comment about what has happened this past week in East Germany and the relevance of this bill to that.

When I was in the Army I was stationed along the Soviet zone border in West Germany in an outfit that no longer exists called the Counterintelligence Corps. My grand title was a special agent for the Counterintelligence Corps. That implied my doing a lot more exciting things than in fact I did. I, basically, was a courier, getting information—from people who managed to cross the border—about Soviet troop movements and other things like that.

But as I lived along that border and traveled that border, I had occasion to see the Soviet guns, to see that plowed field, with mines, to see the barbed wire, to see the spotlights, and occasionally to see people escape to freedom, but also to see people not make it to freedom.

I will always remember, and reading the stories about people going into West Berlin reminded me, a 14-year-old boy who went through all of that and came over to the West. I asked him, why did you do it? He said, well, I tasted a chocolate bar that someone had brought over from Western Germany and, he said, he figured if they had chocolate bars like that in the West he wanted to come to the West. And he risked his life to do it.

What is significant about this legislation right now, and Poland right now, is this. What happened in East Germany probably would not have happened but for the leadership of Poland. Lech Walesa and the Polish leadership moved to a free election and the downfall of the Communist control of the Government there.

East Germany, living between West Germany which is free, and Poland which is at least tentatively free, just could not stand there in isolation.

But Poland has to lead. We are getting some good signals out of East Germany and I hope they move ahead with an election. I hope they let the people choose. But we are not at that point yet.

What we do know is that Poland has reached that point. We should give them assistance. When I say we, I do not mean just the United States, but other countries. I am pleased to see not only Western European countries come to the aid of Poland but South Korea and Japan and other countries over there.

If we can succeed in Poland, raising the standard of living, and having a free system really do something for the people of Poland—and I think that can happen—then East Germany is not going to retain the kind of government they have had.

So it is extremely important. I am pleased to say I think we have agreements worked out at least on most of the details of this bill so that we can have a bipartisan, huge majority on this that I hope will send a strong message to the people of Poland: We are concerned; we share your dreams for freedom and a better life.

Unless someone seeks the floor now, Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. I further ask unanimous consent that the pending Dole amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1113

(Purpose: To allow funds authorized under the provisions of the Act to be used for investment in Employee Stock Ownership Plans (ESOPs))

Mr. HELMS. On behalf of the distinguished Senator from Idaho [Mr. SYMMS] I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS], for Mr. SYMMS, proposes an amendment numbered 1113.

At the appropriate place, add the following: "Funds provided through the Polish-American Enterprise Fund and the Hungarian-American Enterprise Fund may be used for the establishment of Employee Stock Ownership Plans (ESOPs).".

Mr. HELMS. Mr. President, both sides have agreed to this amendment.

Mr. SIMON. If my colleagues will yield, I certainly agree to it. Our former colleague, Senator Russell Long, convinced me a long time ago that ESOP's are a great thing. They are great wherever they can be tried. I am pleased to support this amendment.

Mr. SYMMS. Mr. President, I am pleased to offer an amendment which I believe will strengthen the efforts underway in Poland and Hungary to promote freedom and democracy.

My amendment, which has been cleared by both sides, simply states that funds provided by the Polish-American Enterprise Fund and the Hungarian-American Enterprise Fund may be used for the establishment of Employee Stock Ownership Plans, or ESOP's.

Mr. President, we certainly recognize that state-run enterprises and industries have proven to be grossly ineffective. Among the problems with this business method is that there is a lack of initiative among the Communist-bloc workers. The two countries we are considering providing economic and technical assistance to are no different.

Simply throwing money into Poland and Hungary will not provide a single

solution to their economic problems. Moreover, this is not what the people of those countries want either.

The amendment I offer can play a critical role in turning state-run economies into private enterprise, market-based systems. Employee Stock Ownership Plans are financial tools that would serve as incentives to Polish and Hungarian workers—that they can gain an ownership stake in the companies for which they work.

ESOP's would bring the true meaning of free enterprise to Polish and Hungarian individuals allowing them to gain access to capital and credit. Moreover, they allow these two countries to become more productive by extending profit motives to workers by making them part owners.

Finally, Mr. President, Employee Stock Ownership Plans would be a great step toward liberty and free-enterprise in Poland and Hungary. It would clearly broaden the economic base of the working men and women of both countries.

I am pleased this amendment has been accepted by the managers of this legislation. Because I believe free-market ideas and initiatives are what will move Poland and Hungary away from the policies and practices of communism and move them toward a capitalist society. Once the doors of freedom have been opened, there is little that can truly stop it from widening further. I believe this amendment will help push open these doors a little further.

I thank the managers and yield the floor.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 1113) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I have an amendment pending, amendment No. 1056. I ask unanimous consent that it be withdrawn.

The PRESIDING OFFICER. The Senator has that right, and the amendment is withdrawn.

The amendment (No. 1056) was withdrawn.

AMENDMENT NO. 1114

Mr. DOLE. Mr. President, I send an amendment to the pending committee substitute to the desk on behalf of myself and the distinguished Senator from Illinois, Senator SIMON, and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Kansas [Mr. DOLE], for himself, and Mr. SIMON, proposes an amendment numbered 1114.

Mr. DOLE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 7, after line 2, insert the following new section:

SEC. 4. OBJECTIVES OF UNITED STATES ASSISTANCE.—In order to ensure that United States assistance to Poland and Hungary supports the development of economic freedom and opportunities for the people of those countries, the objectives of the United States assistance to Poland and Hungary shall be the realization of the following rights by the citizens of Poland and Hungary:

(1) SECURITY OF PROPERTY AND CONTRACT.—the right to legally acquire private property in all its forms, including secure legal title to land.

(2) A REGULATORY SYSTEM WHICH FACILITITATES ENTREPRENEURIAL ACTIVITY.—freedom from onerous regulations which have forced economic and entrepreneurial activity into the informal, or unregistered, economy should be eliminated.

(3) DISMANTLING OF WAGE AND PRICE CONTROLS.—a market for Polish and Hungarian industries and goods that is not distorted by government-mandated wages or prices.

(4) AN OPEN TRADE POLICY.—freedom from market-distorting restrictions or subsidies on imports and exports.

(5) LIBERALIZATION OF INVESTMENT AND CAPITAL FLOWS.—freedom from limitations on ownership of productive enterprises by both domestic and foreign investors, as well as freedom from restrictions on removal of foreign or domestic capital from Poland and Hungary.

(6) PRIVATIZATION OF THE STATE SECTOR.—The ignition of activity by Polish and Hungarian investors and entrepreneurs should be facilitated through the privatization of government enterprises.

(7) PRO-GROWTH TAX POLICY.—Encourage pro-growth tax policies which provide incentives for economic activity and investment.

(8) DEVELOPMENT OF A PRIVATE BANKING STRUCTURE.—secure rights to own and operate banks and other financial service firms, as well as unrestricted access to private sources of credit.

(9) INDIVIDUAL INVESTMENT IN THE PRIVATE SECTOR.—access to financial instruments through which individuals may invest in the private sector, and

On page 13, at line 15, strike "$320,000,000" and insert in lieu thereof "$260,000,000" and

On page 13, at line 18, strike "$80,000,000" and insert in lieu thereof "$65,000,000" and

At the end of section 201, add the following new paragraph:

"( ) INELIGIBILITY OF CERTAIN ENTITIES.—Neither the Polish-American Enterprise Fund, the Hungarian-American Enterprise Fund, nor the Overseas Private Investment Corporation shall finance or include in any of its programs any venture, project or enterprise which:

(1) has, individually or in combination, more than 20 percent of ownership, control, or equitable interest by the Polish or Hungarian government, the communist party of Poland or Hungary, or any entity controlled by the Polish or Hungarian government or the communist party of Poland or Hungary, or high officials thereof;

(2) has a Board of Directors more than 20 percent of whom are high officials of the respective governments or communist parties of Poland or Hungary;

(3) has been established by any organization or entity controlled by the Polish or Hungarian government or the communist party of Poland or Hungary;

(4) is required to accede to the rules of the Council for Mutual Economic Assistance." and

On page 20, at line 1, after "(1)", strike "Accept" and insert in lieu thereof "Solicit and accept" and

On page 20, at line 13, after "(2)", strike "Accept" and insert in lieu thereof "Solicit and accept" and

On page 20, at line 15, strike "." and insert in lieu thereof the following new language:

", provided that a volunteer under this authority shall not be deemed to be an employee of the United States except for the purposes of—

(A) the tort claims provisions of title 28, United States Code, and

(b) subchapter I of chapter 81 of title 5, United States Code, relating to compensation for work injuries." and

On page 27, at line 7, strike Section 304 in its entirety and

On page 34 at line 20, add the following new section:

"SEC. 403. EDUCATIONAL AND CULTURAL EXCHANGES.

(a) OBJECTIVE.—It is the sense of the Congress that the President should—

(1) encourage privately administered educational and cultural exchanges between the people of the United States and the people of Poland and the people of the United States and the people of Hungary; and

(2) consider the establishment of reciprocal cultural centers in Poland and the United States and in Hungary and the United States to facilitate government and privately funded cultural exchanges.

(b) AUTHORIZATION OF EXCHANGES.—Of the amounts authorized for educational and cultural exchanges administered by the United States Information Agency, not to exceed $2,000,000 in fiscal year 1990 and not to exceed $4,000,000 in fiscal year 1991 shall be available for activities in Poland and Hungary." and

On page 34, at line 22, strike Section 501 in its entirety and insert in lieu thereof the following new section:

"SEC. 501. ASSISTANCE IN SUPPORT OF DEMOCRATIC INSTITUTIONS AND ACTIVITIES IN POLAND AND HUNGARY.

(a) AUTHORIZATION OF ASSISTANCE.—Notwithstanding any other provision of law, there are authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund) $12,000,000 for the three-year period which began October 1, 1989, which shall be available only for the

support of democratic institutions and activities in Poland and Hungary, of which:

(1) $2,000,000 shall be available in each such fiscal year only for the unconditional support of activities and institutions in Poland, which institutions shall

(A) include all major non-communist political and social formations;

(B) not include among its membership any member of the Polish United Workers Party (or its equivalent, under whatever name the communist party of Poland may be known); and

(2) $2,000,000 shall be available in each such fiscal year only for the unconditional support of democratic activities and institutions in Hungary, which institutions shall—

(A) include all major non-communist political and social formations;

(B) not include among its membership any member of the communist party of Hungary (or its equivalent, under whatever name the communist party of Hungary may be known)." and

On page 35, at line 11, strike Section 502 in its entirety and insert in lieu thereof the following new section:

"SEC. 502. ENVIRONMENTAL INITIATIVES FOR POLAND AND HUNGARY.

(a) ENVIRONMENTAL PROTECTION AGENCY ACTIVITIES.—In addition to specific authorities contained in any of the environmental statutes administered by the Environmental Protection Agency, the Administrator of that Agency (hereinafter referred to as the "Administrator") is authorized to undertake such educational, policy training, research, and technical and financial assistance, monitoring, coordinating, and other activities as he may deem appropriate, either alone or in cooperation with other United States or foreign agencies, governments, or public or private institutions, in protecting the environment in Poland and Hungary.

(b) AUTHORIZATION OF TRANSFERS.—The Administrator of the Environmental Protection Agency is authorized to use up to $6,000,000 in each of fiscal years 1990, 1991, and 1992 of funds appropriated under Title VI of the Clean Water Act to carry out the purposes of this Title. The Administrator may also use up to $2,000,000 appropriated to the Environmental Protection Agency under any other authorizing statutes to carry out the purposes of this Title.

(c) ACTIVITIES IN POLAND.—The Administrator shall cooperate with Polish officials and experts on appropriate environmental projects, including—

(1) establishment of an air quality monitoring network in the Krakow metropolitan area as a part of Poland's national air monitoring network; and

(2) improvement of both water quality and the availability of drinking water in the Krakow metropolitan area.

(d) ACTIVITIES IN HUNGARY.—The Administrator shall work with other United States and Hungarian officials and private parties to establish and support a regional center in Budapest for facilitating cooperative environmental activities between governmental experts and public and private organizations from the United States and Eastern and Western Europe." and

On page 39 after line 6, insert the following new subsection:

(c) RESTRICTIONS.—No assistance provided to Poland under this section shall be used to perform, promote, or plan abortions; or to support the Defense or security forces of any Warsaw Pact member country." and

On page 41 of the bill, after line 16, insert in lieu thereof the following new section:

"SEC. 702. POLICY OVERSIGHT.

(a) Oversight of all programs provided for in this Act, as well as all other activities of the United States government conducted to assist Poland, should be exercised by an interagency group to be chaired by the Vice President and to include the Director of the Office of Management and Budget, the Secretaries of State, Commerce, Treasury, Labor, Defense, Health and Human Services, and Housing and Urban Development, the Administrator of the Agency for International Development, and the Director of the United States Information Agency.

(b) Congress commends the President for agreeing to send a High Level Team of Experts to assess the dramatic transition taking place in Poland. The private and governmental experience of team members should result in the first comprehensive official review and analysis of the economic situation in Poland.

(c) The interagency group referred to in subsection (a) shall consult with the Team of Experts, and make available its findings to Congress and the American people and

On page 41, line 17, change "Section 702" to "Section 703".

On page 45, at line 13, strike "803" and insert in lieu thereof "804", and

On page 45, at line 12, after "pluralism." insert the following new section:

"SEC. 803. REPORT TO CONGRESS.

Not later than 90 days after the effective date of this Act, and every 180 days thereafter for three years, the President shall report to the Speaker of the House of Representatives and the President pro tempore of the Senate a comprehensive "Report on Democracy and Free Enterprise in Poland and Hungary", which shall include a full description of the progress made in Poland and Hungary toward—

(1) the implementation of economic policies designed to promote sustained economic growth, to develop economic freedom, and to increase opportunities for the people of Poland and Hungary, including but not limited to the reforms and policies set forth in Section 2 of this Act;

(2) the adoption and pace of implementation of constitutional, legal, and administrative measures that limit the power of executive authorities and establish and protect the independence of the judiciary;

(3) the full elimination of all constitutional, legal, and administrative measures that favor any political party or inhibit the formulation and operation of independent political parties, groups, associations, or organizations;

(4) the adoption of constitutional, legal, and administrative measures designed to establish and protect fundamental human rights and civil liberties, including but not limited to, freedom of speech, freedom of the press, freedom of religion, the right of Polish and Hungarian citizens to work, to join, or to refuse to join trade unions or labor organizations, and other freedoms comparable to those found in other democratic countries;

(5) the reduction and elimination of industrial practices detrimental to the environment and particularly harmful to human health;

(6) elections in which all parties are able to participate freely with equal opportunity to form governments based on popular support;

(7) the elimination of espionage activities by operatives of the governments of Poland and Hungary against the United States and its allies in the North Atlantic Treaty Organization" and

At the end of Title VIII, add the following new section:

"SEC. 805. TERMINATION OF ASSISTANCE TO POLAND AND HUNGARY UNLESS ARMS TRANSFERS AND SECURITY ASSISTANCE TO CUBA AND NICARAGUA CEASE.

(a) Three months after the effective date of this Act, the President shall terminate all assistance provided pursuant to this Act to Poland or Hungary, respectively, unless he certifies to the Speaker of the House of Representatives and the President pro tempore of the Senate that all arms transfers and security assistance, as defined in subsection (b) of this section, provided by that country to Cuba or Nicaragua, have ceased.

(b) For the purposes of this section, arms transfers and security assistance provided by Poland or Hungary to Cuba or Nicaragua shall include arms delivery, shipment, or transfer and security assistance in any form whatsoever, including but not limited to any provision or supply (whether by sale, grant, barter, or other arrangement) of weapons, weapons parts, ammunition, military vehicles or military aircraft or naval crafts or parts therefor; training of Cuban or Nicaraguan military, para-military, police, or other security personnel by Polish or Hungarian personnel; services of Polish or Hungarian military or security advisers in Cuba or Nicaragua; transport of other items described in this subsection, even if originating in a third country, by Polish-flag vessels or Polish or Hungarian aircraft (including both military and civil craft) to Cuba or Nicaragua; or any extension of funds, credits, loans, barter for goods, or other arrangement providing for the transfer of arms or security assistance from a third country to Cuba or Nicaragua.

(c) If, subsequent to three months after the effective date of this Act, the President finds that arms transfers and security assistance to Cuba or Nicaragua, as defined in subsection (b), have been resumed by Poland or Hungary after a previous cessation, he shall terminate all assistance to that country pursuant to this Act." and

On page 10, at line 23, after "shortages" insert the following new language: "and specifically targeted toward elements of the Polish population most vulnerable to hunger and malnutrition, in particular the infirm, the elderly and children;".

Mr. DOLE. Mr. President, this amendment has been discussed with the manager, Senator SIMON, and with the manager on this side and members of the staff and a number of Senators who have an interest in this overall legislation.

I think one concern was that we certainly wished to help the Solidarity government, to help the people in Poland. This is probably the beginning of an undertaking today that will last for some time. We want to keep bipartisan support for that effort.

I was trying to negotiate a lower figure in response to President Bush's initial request, then the House request and then the efforts by the distinguished Senator from Illinois. I believe we have reached some accommodation with reference to the total authorization. It has been reduced to $738 million.

The point I wanted to make is that it seems to me that since this is going to be an ongoing, not responsibility, but it is an opportunity for the United States, that we should make certain at the outset that the money we spend is going to be properly directed and properly expended in an effort to help the free enterprise system help the Polish economy, help them develop a market economy. That is why I am thankful that the Senator from Illinois expressed a willingness to come together with some compromise. I think we have made that point.

This is an authorization bill. I know a substantial amount of money has already been appropriated in the appropriations process. This bill also eliminates the trade credit insurance program which many of my colleagues and many others are convinced just will not work in Poland. It reduces the authorizations I have indicated for the enterprise fund to $325 million.

I think the amount now is $400 million. That is more than I believe we should authorize, but in a spirit of compromise I have indicated to the Senator from Illinois and others, I think we should support that amount.

I am not certain precisely where the White House comes down on this total authorization. But I believe, from conversations with representatives, of the White House, State Department and others, that they view this as a step in the right direction, not because it is a smaller amount but because it gives us the opportunity to make a determination whether or not we are going in the right direction.

Overall, with minor changes and other small components of the package, it does yield about $250 million less than the current proposal and more than half a billion dollars less than the original proposal.

Second, the bill incorporates major elements of the language in the substitute which I have just withdrawn including the following sections in toto, or nearly so:

The provision targeting food aid to the needy. It is obvious we want to make certain the aid goes to the people in need and not to someone who is going to profit from resale or other distribution; the provision which will guarantee that enterprise fund money is not used for businesses that are substantially owned by either the Government or the Communist Party; the reporting provision, so that we can truly see whether our aid is being integrated into a Polish economic and reform program that is consistent with our policy goals and will work; language ensuring that our medical assistance effort will not be used to facilitate abortions or aid Warsaw Pact forces; and the provision establishing an oversight board to be chaired by the Vice President.

In addition, this amendment includes three provisions that were not in our original substitute but also add important policy clarifications:

An excellent provisions, authored by the distinguished Senator from Colorado [Mr. ARMSTRONG] which will ensure that we are not providing aid to Hungary and Poland at the same time that those nations—which, let us remember, remain members of the Warsaw Pact—are in turn providing military assistance to Cuba and Nicaragua. So in that case the aid would be suspended.

Second, a concise statement of policy objectives of our aid—an initiative of the distinguished Senator from Florida [Mr. MACK]—again ensuring that our aid ends up being used for the purposes envisioned in the legislation. So we need to make certain if we are going to authorize the money and appropriate the money that it is finally being expended in the right way.

And finally, a provision clarifying the authority of the Secretary of Labor in managing the labor assistance portion of the Polish aid program.

I believe that an inclusion of these provisions makes it a better bill. I certainly think it was a good bill to start with but I think it is a better because we have reduced the overall authorization. It is a more fiscally responsible bill, and I think it is a bit stronger—much more than a bit stronger—from the policy standpoint.

I commend Senator LUGAR and Senator DOMENICI and Senator MURKOWSKI and others, who worked on our side of the aisle on the original substitute, whose ideas and efforts are incorporated in this amendment.

We have met with the Polish finance minister to try to determine precisely what he felt we should do. Some of us have met with Lech Walesa, who just in the last one-half hour, I guess, has landed in Washington, DC. As I was coming in from the airport, he was about ready to land, and he was about to be surrounded by 9 or 10 television cameras so I know he will understand he is in Washington.

We have tried to approach this on a nonpartisan, bipartisan basis. Senator ROTH has been most helpful. He is going to have a couple of amendments to offer. We have had good cooperation on the other side of the aisle from Senator SIMON and others who have been urging this legislation.

I also thank the policy staff on the Republican side, whose input included and went beyond the Armstrong provision I have already mentioned, and also express appreciation to the majority leader, who helped us work out the arrangement under this amendment so it would be accepted and, finally, as I have indicated, I thank both Senator SIMON and Senator PELL, who directly and through their staffs have been involved in working out this arrangement.

Mr. President, I just noticed we adopted a Polish ESOP provision. Now if we could just go back and review a Polish capital gains provision, it might be helpful, too. I cannot get an American capital gains provision this year but maybe we will get one for people who invest in Poland and I will be happy to discuss that as part of a compromise later today.

I urge adoption of the amendment and again thank my colleagues.

Mr. SIMON. Mr. President, I am pleased to cosponsor this with the minority leader. This does make it a bipartisan effort, and it has been a bipartisan effort all along. It takes the idea of the enterprise funds, which is incorporated in my original bill at the suggestion of the President, and we have expanded on that. It reduces the total authorized appropriations by $51 million, and frankly it does so in the out years because there is pretty much agreement on what we are going to be doing in the first year.

I thank Senator DOLE. I thank Senator HELMS. The majority leader, Senator MITCHELL, has been very helpful. Senator PELL, chairman of the Foreign Relations Committee, has been very helpful; my colleagues on the Foreign Relations Committee, including the Presiding Officer, Senator ROBB, who has been a cosponsor of this legislation from the start and made a trip over there.

There are a great many people who have helped to produce this result. It is a genuinely bipartisan bill. We have a few hurdles yet, a few controversial provisions, but I think we are clearly moving in the direction of passing something tomorrow of which this Nation can be proud.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment of the Senator from Kansas, amendment 1114.

The amendment (No. 1114) was agreed to.

Mr. SIMON. I move to reconsider the vote by which the amendment was agreed to.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I think we are moving along, I say to my distinguished colleague from Illinois. On this side I have an amendment listed for Mr. MURKOWSKI which I will probably offer on his behalf.

Mr. SIMON. If my colleague will yield, I think he has two amendments, or maybe he has incorporated those into one.

Mr. HELMS. He does have two, I am advised.

Further, I understand that Mr. HUMPHREY has one further amendment. Mr. DANFORTH has an amendment which he may or may not offer. Mr. HEINZ has a technical transfer amendment to which, when it arrives, I think both sides will agree. I will offer that. And then there is one by Mr. ROTH. That would seem to be it for this side as of now.

I wonder what the prospects are on the majority side.

Mr. SIMON. We have one from Senator RIEGLE. We have no others. I understand that Senator ROTH may have two amendments also. But I think we are getting down close to getting this thing worked out.

Now, there is the whole question of cargo preference that may cause a bit of a delay.

Mr. HELMS. Is that better known as the Federalist Papers?

Mr. SIMON. I understand a couple of our colleagues are in good voice if we get into this. But I hope we are getting to the point where we can pass this without too much delay tomorrow. I would like to see us move to passage. Particularly with Lech Walesa here at this point, it gives an added little touch that I think is important.

Mr. HELMS. At this point I would be willing to let Mr. Walesa be an honorary Senator.

The PRESIDING OFFICER. Does the Senator yield to the Senator from Mississippi.

Mr. COCHRAN. Just for the purpose of a question, Mr. President, if the distinguished Senator from North Carolina will yield.

Mr. HELMS. I certainly will.

Mr. COCHRAN. If under the rule an amendment is not offered today, is it the understanding of the managers of the bill that that amendment then would not be in order tomorrow? My understanding was—the reason I ask it that way—that the debate had to be concluded today and that we would do votes, if any were required, tomorrow?

Mr. HELMS. Mr. President, there is no unanimous consent in that regard, to my knowledge.

The PRESIDING OFFICER. The Senator's understanding is correct.

Mr. HELMS. I thank the Chair.

Mr. COCHRAN. I thank the managers of the bill.

Mr. SIMON. If my colleague will yield, there is a possibility that there may be a unanimous consent offered before the day is over, but there is none in effect at this point.

Mr. COCHRAN. I thank the distinguished Senator.

Mr. HELMS. Would that be an expression of a devout wish, I ask my friend?

Mr. COCHRAN. It is, indeed.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum having been suggested, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENTS NOS. 1115 AND 1116

Mr. HELMS. Mr. President, I send two unprinted amendments to the desk in behalf of the distinguished Senator from Alaska [Mr. MURKOWSKI], and I ask unanimous consent that they be considered en bloc. They have been cleared on both sides.

The PRESIDING OFFICER. Without objection, the amendments will be considered en bloc.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS], for Mr. MURKOWSKI, proposes amendments numbered 1115 and 1116.

Mr. HELMS. Mr. President, I ask unanimous consent that reading of the amendments be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments are as follows:

(Purpose: To provide for emergency assistance required by Poland for the fourth quarter of 1989)

AMENDMENT No. 1115

On page 7, line 17, Subsection 101(a), add a new subsection (2):

"(2) to the extent that the ongoing International Monetary Fund review of the Polish economy uncovers a probable balance of payments shortage for the fourth quarter of 1989, the United States Government should work closely with the European Community and international financial institutions to determine the extent of emergency assistance required by Poland for the fourth quarter of 1989 and should consider extending a bridge loan to relieve immediate and urgent balance of payments requiring through the authority provided in paragraph (3)(A) of this subsection.

On pages 7 and 8 renumber the remaining paragraphs of subsection 101(a) accordingly.

(Purpose: To provide for emergency assistance required by Poland for the fourth quarter of 1989)

AMENDMENT NO. 1116

On page 9, line 4, subsection 101(b), add a new subsection (2):

"(2) The President, acting in coordination with the European Community, should call an urgent meeting of the industrialized democracies for the purpose of establishing a multilateral effort to respond to Poland's request for $1 billion to support its economic stabilization program;

On page 9 renumber the remaining paragraphs of subsection 101(b) accordingly.

Mr. SIMON. Mr. President, we are in agreement with the amendments. They are perfectly acceptable. Let me, if I may, ask one unanimous-consent request. Senator MURKOWSKI asked that he be included as a cosponsor of the legislation.

The PRESIDING OFFICER. Without objection, the name of the Senator from Alaska will be added as a cosponsor.

Is there further debate on the amendments? If not, the question is on agreeing to the amendments of the Senator from Alaska.

The amendments (Nos. 1115 and 1116) were agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendments were agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1117

(Purpose: To require the Secretary of State to submit a classified report to Congress identifying confidence building measures by Poland and Hungary to facilitate technology transfers by the United States to both countries)

Mr. HELMS. Mr. President, I send to the desk an amendment in behalf of the distinguished Senator from Pennsylvania [Mr. HEINZ] and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Carolina [Mr. HELMS], for Mr. HEINZ, proposes an amendment numbered 1117.

Mr. HELMS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place, insert the following new section:

"SEC. . REPORT ON TECHNOLOGY TRANSFER TO POLAND AND HUNGARY.

"Not later than 180 days after the enactment of this Act, the Secretary of State shall submit a classified report to Congress identifying the confidence building measures Poland and Hungary could undertake that would facilitate the negotiation of those kinds of agreements, including but not limited to, bilateral customs and technology transfer agreements, that would encourage greater direct private sector investment in Poland and/or Hungary."

Mr. HEINZ. Mr. President, I rise today to lend my voice in support of political democracy and economic pluralism in Poland and Hungary.

In this regard, I would hope that Goethe's dictum, "He who seizes the right moment is the right man," applies to this body.

The peoples of Poland and Hungary have certainly seized the right moment. We have witnessed epoch making events unfold in Poland since April, when Solidarity was legalized. And 2 weeks ago the people of Hungary, through their Acting President Matyas Szuros, formally declared Hungary a democracy after 41 years of Communist rule. The people of Hun-

gary declared the Communist People's Republic of Hungary dead, and proclaimed the establishment of the Republic of Hungary. As President Bush has recognized, these development are welcome and deserve encouragement and assistance from the United States.

I fully support the economic assistance currently under debate. All of the various aid packages contain elements that will address critical Polish needs—especially funds for short-term economic stabilization and food assistance. The proposals also allocated seed money for the development of private sector joint ventures between Americans and Poles and Hungarians. This will help us transfer the most valuable aid of all—working knowledge of free enterprise for people who have been stifled for decades by central control.

The aid proposals also contain other key elements to increase contacts between the United States and Poland and Hungary. We will allocate funds to support scientific and environmental programs in Poland and Hungary, to support development of free labor markets and democratic political institutions, and to create an export market for American goods and services.

All these things, for a relatively modest cost, will promote a Central American objective in Eastern Europe: To make the countries of the area independent, prosperous, and more closely tied to the United States and the West. This is not foreign aid so much as a direct investment in American security and peace in a region that has been the focus of world confrontation since the end of World War II.

But I do not believe that simply throwing money at the problem is a panacea to what ails Poland and Hungary. Their problems are systemic. Both have bureaucracies and civil services setup to administer socialist central planning, not free market economies. Both are suffering from inflation; Poland, certainly more than Hungary. Both suffer from structural economic problems that will require additional resources if their economies are to be transformed.

The United States has an important stake in helping these two countries succeed economically and politically. Lasting individual political rights endure only if accompanied by a system providing individual economic opportunity. The paramount interest of the West is to foster permanent change in the Polish and Hungarian economies in order to secure political gains and to encourage further progress in democratization. And, the Western democracies are not the only interested parties. Success in Poland and Hungary will be a major force for change in the Soviet Union and the rest of Communist Eastern Europe.

Mr. President, I believe that the best way to promote permanent economic change is to promote direct, Western private sector investment. Western investment is inevitably accompanied by Western quality standards and Western methods of doing business. Western investment will be enhanced significantly by making available a higher level of technology, especially that which meets private investment requirements.

Commercially, neither country can hope to develop a competitive, Westernized economy with third rate technology. A Hungarian official recently told me, "We cannot have a first-rate economy with third-rate technology, and we cannot earn the currency required to transform our backward economies into modern ones if we cannot compete in the world marketplace."

Both countries have taken small but important steps to restructure their economies to attract Western capital. Both, for example, permit up to 100 percent ownership of joint ventures and the repatriation of profits.

However, like the administration, I am deeply concerned with Poland and Hungary's close military cooperation with other Warsaw Pact countries, their membership in the Council for Mutual Economic Assistance [CMEA], and the continued presence of the KGB in both countries. These are serious problems that I do not propose we overlook. But they are not insurmountable obstacles that should cause us to abandon the effort; rather we should focus our efforts on finding ways to encourage Poland and Hungary to continue to seek the ways and means first to stabilize their economies, for example, by bringing inflation under control, and then undertake the transformation of their economies to integrate them into the world's free marketplace.

Let us be clear about the choices we face. The choice is not between holding the line for the status quo or rushing headlong into the unprotected transfer of technology to Warsaw Pact nations. In fact, neither is a real option.

I am today proposing an amendment that firmly leaves the horse ahead of the cart. It asks the administration to identify—in a classified report—what confidence building measures Poland and Hungary could undertake that would facilitate the negotiation of technology transfer safeguard regimes, including bilateral customs agreements, that would encourage greater private direct investment in Poland and Hungary.

In one important respect, time is not an issue, for the onus is on Poland and Hungary. In another respect, it is important that our administration take this initial step now—on its own behalf—so that we will have a policy with clear markers that will lead to mutually beneficial results.

I would hope that the report will contain confidence building measures beyond the concerns to which I have alluded. The report is classified because there is no need at this point to develop some kind of check list available for public scrutiny or lobbying.

Mr. President, the results my amendment seeks will not be easy to achieve. Indeed, I fully expect the Poles and Hungarians to move faster than our own interagency deliberations. I am quite familiar with interagency disagreements over technology transfer issues. This is why Senator GARN and I introduced S. 1796 to create an Office of Strategic Trade and Technology to put an end to this agency fratricide. In the interim, however, the administration is going to need an occasional jumpstart to develop a coherent, unified policy. This amendment is intended to provide that start.

Mr. HELMS. Mr. President, this amendment, as I understand it, has been cleared on both sides; certainly it has been cleared on this side.

Mr. SIMON. Mr. President, that is the case. There is no objection to it on this side.

The PRESIDING OFFICER. Is there further debate on the amendment. If not, the question is on agreeing to the amendment of the Senator from Pennsylvania.

The amendment (No. 1117) was agreed to.

Mr. SIMON. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I suggest the absence of a quorum:

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. RIEGLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1118

(Purpose: To provide for international financial relief for Poland)

Mr. RIEGLE. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Michigan [Mr. RIEGLE] proposes an amendment numbered 1118.

Mr. RIEGLE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Paragraphs (2) and (3) of section 101 (a) of the amendment are amended by striking out "(2) and "(3)" and inserting in lieu thereof, respectively, "(3)" and "(4)".

Insert after section 101(a)(1) of the amendment the following new paragraph:

(2) the Secretary of the Treasury shall direct the United States Executive Director at the International Bank for Reconstruction and Development to—

(A) urge consideration of approval of up to $1,000,000,000 in financing in each of the succeeding three years for disbursement over a feasible and appropriate period to Poland; and

(B) urge expeditious approval and disbursement of a structural adjustment loan to Poland in an appropriate amount in time to facilitate the implementation of major economic reforms scheduled for early 1990, including the termination of energy, export and agricultural subsidies and wage indexation.

In section 101(a) of the amendment, after paragraph (3) as redesignated insert the following new paragraph:

(4) the United States Government shall seek to coordinate within the Group of 7 at the earliest possible date and not later than January 1, 1990 the establishment of a reserve of $1,000,000,000, to be made available through the International Monetary Fund contingent upon and in addition to an agreement between the Government of Poland and the Fund, for the purpose of facilitating implementation of key monetary reforms, including the achievement of international convertibility of the Polish currency.

At the end of section 101(a) of the amendment, add the following new paragraph:

(5) the United States Government, in coordination with other creditor governments, shall seek to expedite consultations between the Government of Poland and its major private creditors in order to facilitate a rescheduling and reduction of payments due on debt owned to such creditors in a manner consistent with the international debt policy announced by the Secretary of the Treasury on March 10, 1989.

Mr. RIEGLE. Mr. President, early next year, in a single giant leap, Poland is planning to transform itself from a socialist economy to a market economy. At that time, the Solidarity government will also attempt to extinguish Poland's hyperinflation by eliminating food, coal, and export subsidies and terminating the indexation of wages. In the month or two following these radical changes, the danger of social unrest and political instability will be extreme, since real wages are certain to fall while inflation is being wrung out of the system. There is an ominous historical precedent for such actions; Polish leaders were deposed in 1956, 1970, and 1980 as a result of rioting that followed attempts to slash subsidies.

It is crucial for the West to have adequate financial aid in place before this critical moment. However, our allies, the World Bank and the administration appear not to be moving with the sense of urgency demanded by such a potential watershed in history. To its credit, the Bush administration has signaled its support for a $200 million grant for currency stabilization purposes. But our European counterparts and Japan have not yet provided their own contributions for this purpose, and the administration appears not to be pressing them hard enough to contribute before Solidarity's cold turkey reforms are implemented early next year.

Mr. President, the period from now until March is the most critical. Electricity prices doubled the other week. Poland's exchange rate is being devalued continually. Its foreign exchange reserves have dwindled to a mere two weeks worth of imports; three months is normal. This does not bode well for efforts to maintain public confidence during the reforms and greatly complicates the plan to make the zloty, the Polish currency, internationally convertible.

For this reason, the United States' $200 million must be levered into a $1 billion backup facility in order to build Poland's foreign exchange reserves to a level inspiring confidence in the zloty before early next year. Similarly, it is important for the World Bank to act at a pace that would make available by then its first, sizable structural adjustment loan.

The House bill and the Simon substitute include only general provisions supporting the extension of international financial aid through the World Bank and IMF. They make no mention of the need for the World Bank and IMF to act before this moment. Nor do they provide guidance on the level of multilateral financial aid that would be appropriate. The only exception is the provisions of $200 million for currency stabilization purposes.

The timing of international financial aid may prove to be as important as the aid itself. Western assistance must be in place before Poland's hour of greatest need in order to help foster public confidence in the reforms and in Solidarity's capacity to see them through. Indeed, the fate of Solidarity's historic experiment may ultimately hinge on the faith and patience of the Polish people.

For this reason, I am offering the following amendments to the Poland/Hungary aid legislation. They would:

First. Direct our representative to the World Bank to seek approval of up to $1 billion in financing for Poland in each of the next 3 years and to press for early action on a structural adjustment loan—general policy loan—in time to support Poland's giant leap early next year;

Second. Direct the administration to take the initiative in the G-7 to coordinate by January a back-up facility of up to $1 billion in the IMF to bolster confidence in Poland's currency as the Government tries to make it convertible; that is, to ask for contributions from Germany, Japan, et cetera, to leverage the $200 million authorized in the Simon substitute amendment for this purpose; and

Third. Direct the administration to expedite the application of the Brady Plan to Poland; that is, to broker and facilitate, as it did for Mexico, negotiations between Poland and the international banks on Poland's bank debt.

Failure of Solidarity's package of radical economic reforms could easily end Poland's experiment in democracy, have a chilling effect on reform elsewhere in the Warsaw Pact, and be a crossroads for East-West relations. The United States must do what it feasibly can to help the Solidarity government through its courageous and historic program. These amendments are designed to help ensure that the U.S. Government fulfills this important responsibility. I urge their adoption.

The PRESIDING OFFICER. Is there further debate?

Mr. SIMON addressed the Chair.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. SIMON. I want to say it is not only acceptable, I think it is a very substantial amendment. Sometimes when we add these little amendments—and we have all been guilty of them—they really do not add much of substance. This is one that really is important, and it responds to very courageous action taken by the Polish Government in saying, "Let us get ahold of our system. To move from a totally, or virtually totally, government-owned operation to a market economy is something we do not have any experience in." So I think the amendment offered by the Senator from Michigan is a very, very fine amendment. I am pleased to support it.

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. HELMS. I agree. The amendment is quite acceptable on this side.

The PRESIDING OFFICER. Is there further debate? The question is on agreeing to the amendment by the Senator from Michigan.

The amendment (No. 1118) was agreed to.

Mr. SIMON. I move to reconsider the vote by which the amendment was agreed to.

Mr. RIEGLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1119

(Purpose: To make technical amendments)

Mr. SIMON. Mr. President, I send an amendment to the desk and ask its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Illinois [Mr. SIMON] proposes an amendment numbered 1119.

Mr. SIMON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 3, line 2, of the amendment, strike out "(a)".

On page 3, line 17, of the amendment, insert "a" before "Board".

On page 10, line 15, of the amendment, strike out "STATEES" and insert in lieu thereof "STATES".

On page 4, lines 5 and 6, of the amendment, strike out "overseas private investment corporation" and insert in lieu thereof "Overseas Private Investment Corporation".

On page 25 of the amendment, strike out lines 11 through 16 and insert in lieu thereof the following:

SEC. 206. AID ADMINISTRATION EXPENSES.

For the purpose of paying administrative expenses incurred in connection with carrying out its functions under this Act, the Agency for International Development may use up to $500,000 each fiscal year of the funds made available to the Agency under this Act.

On page 36, line 23, of the amendment, strike out "title VIII" and insert in lieu thereof "section 802".

On page 41, line 14, of the amendment, strike out "chapter" and insert in lieu thereof "Act".

On page 41, line 16, of the amendment, strike out "chapter" and insert in lieu thereof "Act".

On page 42, line 19, of the amendment, strike out "outlines" and insert in lieu thereof "outlined".

On page 22, line 19, insert the following:

"(11) the Sabre Foundation;" and renumber the existing items accordingly.

Mr. SIMON. Mr. President, these are purely technical amendments that I think have been cleared on both sides. I do not think there is any opposition.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Illinois.

The amendment (No. 1119) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. Mr. President, I see the distinguished Senator from Delaware. While he is getting set up, Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

Mr. ROTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1120

(Purpose: To establish an equity fund whereby individuals may invest in the Polish private sector)

Mr. ROTH. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Delaware [Mr. ROTH] proposes an amendment numbered 1120.

Mr. ROTH. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

TITLE II

On page 13, SEC. 201—Insert subsection (1)(C) "The establishment of a financial instrument for individuals to invest an additional $100 million in the Polish private sector."

On page 13 strike subsection (b)(1) and substitute (b)(1) $240 million to support the Polish-American enterprise fund, as designated pursuant to subsection (d); no less than $20 million of which shall be used for the purpose of paragraph (a)(1)(C) of this section.

Mr. ROTH. Mr. President, the amendment which I send to the desk will, in my opinion, prove beneficial both to the United States taxpayer and to the Polish private sector.

This amendment will place within the Simon-Mitchell bill the bond issue provision contained within the overall Republican substitute amendment, a proposal which I originally laid down in S. 1376, a bill to establish a Polish-American Equity Fund. A similar operation is currently underway in Hungary under the aegis of the International Finance Corporation.

The amendment also increases the amount of combined funding destined for the Polish-American Enterprise Fund from $260 million to $340 million. Under my amendment, the United States would provide $240 million to the Polish-American Enterprise Fund, that is to say, a savings to the United States taxpayer of $20 million over the Simon-Mitchell bill. However, $20 million of that $240 million will be set-aside for a bond issue which should realistically raise $100 million, thereby providing the Polish-American Enterprise Fund with a total of $340 million.

I believe that this approach has several major advantages. In particular, a bond issue would serve to involve individual investors in the resuscitation of the Polish private sector. It seems to me ironic that we discuss so extensively the need to strengthen the private sector in Poland but then we fail to involve the United States private sector. It is my firm opinion that, if we want to boost the Polish private sector, we should look to the American private sector, to the Polish-American citizen who wishes to have a stake in the development of his own country. Thousands of Jewish-Americans already have demonstrated their desire to support the State of Israel through the purchase of similar bonds. I do not believe that Polish-Americans would prove any less eager to assist their homeland.

Second, Mr. President, I believe that the funds of the Polish-American Enterprise Fund are more likely to be directed toward true, viable private sector initiatives if those funds are distributed under the watchful eyes of United States investors. I am aware that the Enterprise Fund will be under the control of a board of directors composed of private citizens. However, I would still have to say that no better oversight is exercised than that by the individual or the body who supplies the money. Frankly, government does not have a good record of monitoring disbursement such as these. The private citizen does.

Before I end this presentation, let me deal with two objections I have already heard in private. First, some have asserted that this proposal will prevent large amounts of money from getting into Poland quickly. Well Mr. President, I simply do not accept that the primary purpose of this bill is to get money into Poland quickly. If it were, we could simply fly it over and drop it out of airplanes.

This bill must not only get money into Poland, it must also direct it carefully for maximum beneficial impact on the private sector, the engine of economic growth. If it takes some time to insure that this money gets to the proper target, then that will be unavoidable. It makes much more sense to take our time and do the job properly than to act quickly, waste U.S. taxpayer dollars and then pretend we have done the job—either for the Polish or the American people.

Second, I have heard it said that no one will buy these bonds, that the Polish private sector will not be attractive to foreign investment. Well, if we believe that, what are we doing here today?

Frankly, if we believe that there is no hope for the Polish private sector, we believe there is no hope for the Polish economy and we may as well strike out all funding for the Polish-American Enterprise Fund and simply send food and medical supplies.

Personally, I do believe that there is hope for the Polish private sector and

I ask my colleagues to support the amendment.

Mr. President, I yield the floor.

Mr. SIMON. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ROTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ROTH. Mr. President, I send substitute language for my amendment to the desk.

The PRESIDING OFFICER. Is the Senator modifying his amendment?

Mr. ROTH. That is correct.

The PRESIDING OFFICER. The Senator has a right to modify his amendment. The amendment is so modified.

The amendment (No. 1120), as modified, reads as follows:

On page 13, strike lines 15 through 17 and insert: "$260,000,000 to support the Polish-American Enterprise, as designated pursuant to subsection (d), of which $20,000,000 may be used to establish a financial instrument for individuals to invest an additional $100,000,000 or more on the Polish private sector."

Mr. ROTH. Mr. President, I do not believe any further discussion is necessary. I think that the revised language incorporates what I have already said. I believe that this is acceptable to both sides.

The PRESIDING OFFICER. Is there further debate?

Mr. SIMON. Mr. President, I have worked with Senator ROTH and his staff. I think we have made some slight changes that make this an acceptable amendment and a contribution to the concept of the bill. I commend my colleague from Delaware and I am ready to accept the amendment.

Mr. HELMS. We accept the amendment on this side.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 1120, as modified, of the Senator from Delaware [Mr. ROTH].

The amendment (No. 1120), as modified, was agreed to.

Mr. ROTH. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 1121

(Purpose: To express the sense of the Senate regarding increasing the quota of the IMF)

Mr. ROTH. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Delaware [Mr. ROTH] proposes an amendment numbered 1121.

Mr. ROTH. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment reads as follows:

At an appropriate place in the bill, add the following new section:

Sense of the Senate regarding IMF quota increase. Given:

that the administration has announced that it is considering committing to increase the resources of the International Monetary Fund and expects to decide on the increase over the next few weeks;

that such an increase could total $7 billion or more, at a time when there may be higher budget priorities, such as assisting the dramatic changes taking place in Poland, Hungary and eastern Europe as a whole, or reducing our deficit; and

that the IMF provides short-term resources at a time when most countries, including the United States, want to increase their long-term investment orientation.

It is the sense of the Senate that the administration shoud not take any action at this time that would imply a commitment to increase or to propose an increase in the resources of the IMF.

Mr. ROTH. Mr. President, this is a sense of the Senate amendment urging the administration not to commit to an IMF quota increase. At the recent annual meetings of the World Bank and the IMF, the administration committed to make a decision on a quota increase for the IMF by the end of the year. This is the final opportunity that this body may have to express its view on this important question prior to adjournment.

Here in Washington we tend to forget the pervasive role played by the International Monetary Fund in the developing countries of the world. We realize that it has immense resources and that its policy advice holds great sway with finance ministeries around the world. But this does not completely capture the pervasiveness of the IMF in developing countries and, now, in Eastern Europe.

Since 1953, the IMF has entered into 708 arrangements amounting to over 92 billion standard drawing rights [SDRS] which at present are worth somewhat more than a dollar. Most of these arrangements were with developing countries, and they have an immense impact on approaches to economic development. Commitments in the last 6 months alone exceeded $10 billion.

This body and the House of Representatives are responsible for authorizing U.S. participation in the IMF, and appropriating the funding for it. Quota increases for the IMF have occurred regularly since its inception—in 1959, 1965, 1970, 1978, 1980, and 1983. The 1983 increase alone involved a U.S. commitment in excess of $8 billion. With this background, it would make sense for the administration to work closely with Congress before it considers making another such commitment.

My amendment is straightforward. It states the sense of the Senate that the administration should not commit to another quota increase at this time. The point made by the amendment is that such a commitment, which could total in excess of $7 billion, has to be considered in the context of our present budget constraints.

There are dramatic changes taking place in Eastern Europe today. I do not believe that this is the time to make commitments of our limited resources that may restrict possible future U.S. involvement in assisting these revolutionary economic and political developments.

It may be that we will want to utilize the IMF in meeting this challenge, but it is also possible that we may want to approach the problem bilaterally or in cooperation with other NATO countries, or by some other means. In any event, in view of our budget constraints, the time is not now to make a commitment to increase the IMF's quota.

Numerous questions have been raised about the role of the IMF in developing countries. Are its resources benefitting their economies? What is the financial risk to the U.S. taxpayer? What is the environmental impact of IMF programs? What portion of IMF funds are finding their way to commercial banks? What will be the IMF's role in Eastern Europe? How will the IMF respond to the Soviet Union's desire to become a member? How are the IMF's short-term, high interest rate resources helpful to developing countries, whose economies need to build for the long run?

Mr. President, I ask the Senate to favorably consider this sense-of-the-Senate amendment.

The PRESIDING OFFICER. The Senator from Illinois [Mr. SIMON].

Mr. SIMON. Mr. President, I recognize probably the Senate would overwhelmingly adopt this. I do not agree with the IMF and everything they do. I do believe, however, for us to say as a sense of the Senate that we want to bind the administration, that they cannot even propose any increase in the IMF—for example, Poland is negotiating with the IMF right now.

What if the administration were to come back, as a result of IMF negotiations, and ask for a minor additional amount? I think we ought to leave the President and the Secretary of State and the Secretary of the Treasury free to propose things. We may reject them absolutely. But to have even a sense of the Senate resolution suggesting you

cannot even propose anything, I think is unwise.

I agree with 90 percent of what my colleague from Delaware has to say. These are times of fiscal restraint. We have to be careful. But I also think it is a mistake for us to suggest the administration cannot even consider changes that may be in the best interests of freedom, for example, in Poland, in Hungary, in East Germany.

I am personally going to vote against the amendment. I am not going to ask for a rollcall on it. I think it is not wise for us to accept this amendment.

The PRESIDING OFFICER. Is there further debate?

The Chair recognizes the Senator from North Carolina [Mr. HELMS].

Mr. HELMS. My friend from Illinois and I sometimes disagree, but we disagree agreeably, by agreement. I understand what he is saying.

On the other hand, the Senator from Delaware has made an accurate assessment of the situation in the past, and he is thinking prospectively. He is doing so wisely because he has great concern about the deficit situation.

On this side of the aisle, speaking for myself, I certainly support the sense-of-the-Senate amendment.

The PRESIDING OFFICER. Is there further debate?

The Chair recognizes the Senator from Delaware [Mr. ROTH].

Mr. ROTH. Mr. President, I appreciate the remarks of the distinguished Senator from North Carolina.

In answer to my good friend from Illinois, I think at this particular time it would be unwise to make this kind of commitment. It is not only because I have some serious questions about the amount because of the budget deficit, but the fact is, we see great change taking place in Eastern Europe. We do have limited resources and how we want to address this problem—as I said it could be through the IMF, it could be by some other financial organization, it is even possible we might create something new.

But, in any event, it seems to me unwise to move at this very moment when changes are taking place so rapidly. It is for that reason I am urging through the sense-of-the-Senate resolution the administration take no action in the way of a commitment.

Mr. SIMON. Will my colleague yield?

Mr. ROTH. I will be happy to yield to my distinguished colleague.

Mr. SIMON. I appreciate what the Senator from Delaware is saying and he is absolutely correct when he says things are changing so rapidly we do not know what is going to happen tomorrow. Things happened last week we did not think possible even a year ago. But because of the very fact that things are changing so rapidly, I do not know that it is wise for us to say to the administration, you cannot even propose any changes in the IMF. They may come in and say, in view of the situation in Eastern Europe, we ought to do A, B and C.

We may want to reject that. But to have a sense-of-the-Senate resolution rejecting even the possibility of considering that, I think is not wise.

Again, I am not going to ask for a rollcall. I recognize the votes probably would be against it. My own voice will be against the distinguished Senator from Delaware even though ordinarily I would vote with him.

The PRESIDING OFFICER. Is there further debate?

The question is on agreeing to amendment 1121 of the Senator from Delaware.

Mr. ROTH. Mr. President, I ask for the yeas and nays on this amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is not a sufficient second.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. HELMS. Mr. President, under the unanimous consent, or at least the gentleman's agreement, this amendment will be laid aside so that other amendments may be presented.

I believe the Senator from Texas has one.

The PRESIDING OFFICER. The Chair will interpret that as a request to lay the amendment aside?

Mr. HELMS. Yes, sir.

The PRESIDING OFFICER. Without objection, the amendment is laid aside.

The Chair recognizes the Senator from Texas [Mr. BENTSEN].

AMENDMENT NO. 1122

(Purpose: Relating to certain Polish bond)

Mr. BENTSEN. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Texas [Mr. BENTSEN] proposes an amendment numbered 1122.

Mr. BENTSEN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of title VII, insert:

SEC. . CERTAIN POLISH BONDS NOT SUBJECT TO RULES RELATING TO BELOW-MARKET LOANS.

(a) IN GENERAL.—Paragraph (5) of section 1812(b) of the Tax Reform Act of 1986 is amended—

(1) by inserting "or Poland" after "Israel" in the text thereof, and

(2) by inserting "or Polish" after "Israel" in the heading thereof.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

Mr. BENTSEN. Mr. President, one of the most difficult things Poland will have to do is to try to refurbish its industry. They have an auto industry with antiquated machinery. They will have to borrow money to do it. But, Poland is saddled with $40 billion in debt. It is going to have difficulty servicing that debt.

We have a lot at stake with what happens in Poland. We are seeing a non-Marxist takeover of that government without firing a shot, an incredible occurrence in Eastern Europe. To have that happen in Poland, a country of that size with an educated population, it is most encouraging what aid can mean to a revival of democracy there.

One of the things we have to do, it seems to me, is to also try to assist them in the private sector; to help them on their financing. There are many Americans who would like to do that.

One of the things I would like to do, and what this amendment accomplishes is to provide an exemption for government bonds that pay interest rates below the market rate. We saw that situation with Israel when we provided for such an exemption from the rules on below-market loans.

My amendment provides that there would not be a penalty for below-market rate bonds purchased by Americans from Poland to help in the revitalization of that great country, to see that their industries are once more productive, to help Poland take care of its balance of trade and begin to service its debts.

Mr. President, we have witnessed revolutionary changes in Poland this year. These changes are all the more dramatic in that they have been accomplished peacefully, without violence. Poland is now being led by a coalition government, with non-Communist leaders. However, the Solidarity leaders, and the Polish people, are confronting monumental problems, including serious food shortages, failing industries that rely on primitive technologies, and high inflation.

The United States has a large stake in the success of the new Polish Government; we want to do everything possible to promote and facilitate the process of democratic change in Eastern Europe. One of the greatest

threats to the survival of the Polish Government is its foreign debt; Poland owes some $40 billion to its international creditors, which the Polish Government has conceded cannot be met.

My amendment will help ease the debt crunch in Poland by facilitating foreign lending to that country. It builds on the foundation provided in this bill of encouraging private assistance to the Polish Government and the Polish people. That is a central tenet of the Poland aid bill.

What my amendment does is to facilitate the purchase of bonds issued by the Polish Government by individual Polish Americans and other concerned American citizens at reduced interest rates, who want to play a direct role in helping that country. It would exempt Polish Government bonds from the tax rules on loans made at below-market interest rates.

These rules were never intended to discourage individual Americans from purchasing debt obligations of other countries. That is why we provided a similar exception for debt obligations of the Israeli Government in 1986.

Without this change, Americans would simply not lend money to the Polish Government at preferential interest rates, because they would be subjected to punitive financial consequences and complicated rules. Under current rules, the interest discount on below-market loans is treated as income to the lender. This amendment will send a direct signal to the Government of Poland that we support what they are doing and that individual Americans want to help them succeed.

I have discussed this with the managers of the legislation that is before us. It is my understanding that they have no objection to the amendnent. I urge its adoption.

Mr. SIMON. Mr. President, not only do I have no objection, but it is an excellent amendment. I ask unanimous consent that I be listed as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMON. I commend the Senator.

Mr. HELMS. Mr. President, the amendment is certainly acceptable on this side.

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 1122) was agreed to.

Mr. BENTSEN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. Does any Senator seek recognition?

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1123

Mr. SIMON. Mr. President, earlier in the Dole-Simon amendment, we inadvertently caused the deletion of a key environmental reporting requirement. I, therefore, send to the desk an amendment which restores that reporting requirement on behalf of myself and the minority leader.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Illinois [Mr. SIMON], for himself and Mr. DOLE, proposes an amendment numbered 1123.

Mr. SIMON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of section 502, add the following subsection:

(e) CONTENTS OF REPORT.—The report required by title VIII shall include the following:

(1) ASSESSMENT OF PROBLEMS.—An overall assessment of the environmental problems facing Poland and Hungary, including—

(A) a relative ranking of the severity of the problems and their effects on both human health and the general environment;

(B) a listing of the geographical areas of each country that have suffered the heaviest environmental damage, and a description of the source and scope of the damage; and

(C) an assessment of the environmental performance of leading industrial polluters in those countries and the expected effect on pollution levels of industrial modernization;

(2) PRIORITIES AND COSTS FOR ACTION.—An analysis of the priorities each country should assign in addressing its environmental problems, and an estimate of the capital and human resources required to undertake a comprehensive program of environmental protection;

(3) ROLE OF UNITED STATES AND MULTILATERAL ASSISTANCE.—A statement of strategy for United States assistance for the next five years in Poland and Hungary, including—

(A) recommendations for appropriate levels and forms of bilateral and technical assistance;

(B) recommendations concerning United States participation in cooperative multilateral undertakings;

(C) an assessment of the feasibility of debt-for-nature swaps as a technique of environmental protection in each country; and

(D) recommendations for minimizing further environmental damage to Krakow, and for the protection and restoration of historic sites in that city.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1123) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, for the past 6 years the Department of Agriculture has administered a program designed to assist middle-income nations in the development of their agricultural economies. It provides training for senior and mid-level specialists and administrators concerned with agricultural trade, management, and marketing from both the public and private sectors. Among the technical areas covered have been domestic marketing of agricultural products, agricultural input supply and management, agricultural economics, and management of agricultural research. Not only have these efforts assisted the nations involved, but they also have provided opportunities for expanding U.S. trade.

It occurs to me that this program would be ideal for accomplishing the objectives of the legislation we are now considering for Poland and Hungary. Training through the Middle Income Countries [MIC] Program would greatly assist their agricultural industries and foster trade relationships. With the important role played by agriculture in the improvement of the economies of these two nations, this program would provide much support as these countries strive to move toward democracy and the development of market economies. I urge that a small portion of the assistance provided in this legislation—perhaps up to $300,000—be directed to the Department of Agriculture for implementation of training opportunities through the MIC Program.

Mr. DOLE. Mr. President, I am familiar with the MIC Program and have heard many of its success stories since its initiation in 1984. I believe that the training provided by this program has led to the development of traditional trade and business relationships with many countries, such as Turkey, Mexico, Yugoslavia, Korea, and Malaysia. I would certainly have no objection to the utilization of a portion of the aid provided in this legislation for such activities in Poland and Hungary. In fact, I join Senator COCHRAN in supporting the allocation of up to $300,000 to implement MIC activities in these nations.

Mr. COCHRAN. Mr. President, I thank the Republican leader for his comments and his support for this program.

THE SABRE FOUNDATION AND AID TO POLAND AND HUNGARY

Mr. KERRY. Mr. President, I want to express my appreciation to the distinguished managers of S. 1582 for agreeing to designate the Sabre Foundation as one of the private educational foundations through which educational and cultural exchange assistance to Poland and Hungary should be channeled.

The Sabre Foundation which is headquartered in Somerville, MA, was founded in 1969. For the past 4 years it has been the largest donor of educational materials to Poland and Hungary. The foundation's scientific assistance project has taken advantage of the increasing openness of Eastern European societies to provide substantial educational and technical assistance in the region. Working at the field level through the growing independent sector, the Sabre Foundation has responded to known individual needs and differing local development priorities. In so doing, it has assisted in improving entrepreneurial skills and professional expertise, and in strengthening the resources and operations of nongovernmental institutions.

More broadly, Sabre's programs are highly consistent with the goals of fostering pluralism and private sector growth. Sabre has been cited in the State Department's action program for Eastern Europe, and is mentioned by name in the Commerce Department's protocol on private sector development in Poland.

The project's main program at present sends large quantities of new, unremaindered textbooks and other educational materials to needy individuals in Poland, Hungary, and Czechoslovakia. The books are standard texts in such fields as economics and accounting, law, agriculture, medicine, natural sciences, engineering and computer science, and the humanities.

As a result of its own growth and the accelerating pace of political reform in Eastern Europe, Sabre is increasingly able to identify local needs with precision. To meet these needs, the scientific assistance project is currently undergoing a rapid expansion into new countries, in-kind materials, and program types. Its target is to increase the level of assistance provided to $20 to $30 million in 1990. Sabre recently chartered new 501(c)(3) equivalent foundations in Warsaw and Budapest, and has established local field offices in both cities to coordinate further expansion.

Sabre is currently diversifying its in-kind donations into agricultural materials such as veterinary pharmaceuticals, feed additives, fertilizers, crop protection chemicals, and harvest handling and packaging equipment. These will be supplied to private farmers in Poland, where some 80 percent of the land is in private hands, in an effort to provide for long-term, sustainable agricultural production in that land.

Sabre is now working with a group of four United States universities to send graduate English language teachers and teacher-trainers to Hungary.

These are but a few examples of the impressive work that the Sabre Foundation is doing in Eastern Europe—work that is critical in assisting Poland and Hungary to successfully implement the political, economic, and social reforms to which the governments of those countries have committed themselves.

In conclusion, Mr. President, again I want to express my appreciation to the managers for ensuring that the Sabre Foundation is designated in this legislation in this matter.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order of the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, we are in a situation where Senator DANFORTH is here, and there is some question about another amendment. I apologize to the Chair for calling off the quorum. Now I put it back in.

The PRESIDING OFFICER. The suggestion of the absence of a quorum having again been made, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DANFORTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The Chair recognizes the Senator from Missouri [Mr. DANFORTH].

Mr. DANFORTH. Mr. President, it has been my intention to offer an amendment today because my understanding was that the program set out by the majority leader was that all amendments to the aid bill for Poland and Hungary were to be offered today, and that they would not be in order tomorrow.

But I have just spoken with the Senator from North Carolina, and it is my understanding it will be possible to offer at least a limited number of amendments that we could not get to today.

I have an amendment which I hope to offer tomorrow, provided it is in order. I do not want to keep the Senate around tonight. I know that Senators have other plans and that they want to be leaving.

But I do have an amendment that I would like to offer tomorrow, and it has to do with the extension of what otherwise would be expiring tax credits, credits that are now in the Internal Revenue Code that are scheduled to sunset—some of them have already sunsetted—and unless the Senate acts before we adjourn this year, I think some real havoc will be caused in a number of very important tax programs.

There are about 10 of them in number. They have very broad popularity in the Senate. They include the low-income housing tax credit, and the legislation to make that permanent, which Senator MITCHELL introduced, which has 71 cosponsors; the mortgage revenue bond provision which has 85 cosponsors; the research and development tax credit, making that permanent, which has 51 cosponsors; the targeted jobs tax credit extension has 36 cosponsors; and the employer-provided educational assistance credit has 32 cosponsors, and so on.

So these are popular provisions. They have already been agreed to by the House of Representatives. A 1-year extension has been agreed to in the House reconciliation bill. The legislation which the Senate Finance Committee marked up, which was then stripped when it came to the floor of the Senate, also provided for the extension of these measures. As I recall, there was no opposition in the Senate Finance Committee.

So, Mr. President, these are important provisions, and they are popular provisions. They have been generally agreed to. The problem is that, if we allow them to expire, real damage can be caused.

For example, the low-income housing tax credit is about the only program we have going now for low-income housing. If we decide it is just going to go away for however long it takes until we can reenact it, there can be some real damage to low-income housing.

Similarly, the research and development tax credit—if business is going to make plans to invest in research and development, it has to have some idea of what the tax law is going to be. We cannot be in the position of letting tax credit lapse, and then trying to put them back into effect again.

Mr. President, I have absolutely no desire to gum up the works with respect to the legislation that is now on the floor of the Senate. I understand that it is very important for us to act, and to act promptly with respect to Poland and Hungary. I am not picky in choosing a legislative vehicle. Nobody could be easier to please than I am. But I need a legislative vehicle which will not be blue-slipped by the House of Representatives, and there are not many of them left. This is one of two. The other is reconciliation, and we do not know yet whether we are going to have a reconciliation bill. We do not know whether or not the Presi-

dent would sign or veto a reconciliation bill that we were to send to him.

So it is my intention, provided we can work this out in an agreement, to offer tomorrow an amendment providing for the temporary extension of expiring tax provisions, which amendment would be cosponsored by Senators CHAFEE, HEINZ, BOND, MCCAIN, D'AMATO, COHEN, BOREN, DURENBERGER, and probably some others.

If the Senator from North Carolina would respond, I would very much appreciate it.

Mr. HELMS. If the Senator will yield, Mr. President, as the Chair knows, the distinguished majority leader, in concert with the Republican leader, is shortly going to propound a unanimous-consent request in that regard. I assure the Senator that his amendment will be listed as one to be considered tomorrow. We have one or two others, one of which has already been discussed, and the yeas and nays have been obtained on it. But I assure the Senator his amendment will be included in the list.

Mr. DANFORTH. I thank the Senator from North Carolina.

Mr. SIMON. Mr. President, I simply wanted to say I was one of three to vote against that bill called the Tax Reform and Simplification Act passed in 1986 which contained about as much reform as it did simplification. One of my reasons for voting against it is it reduced the amount that an American corporation can deduct for research. We simply cannot build a more competitive America that way.

So I am in sympathy with what the Senator from Missouri is trying to do. But I hope we can get something worked out so it does not go on this bill so that, to use the Senator's eloquent phrase, it would not "gum up" the works. I am hoping we can get something else worked out.

Mr. DANFORTH. I might say that one of the effects of the 1986 tax legislation was that it made it very unattractive for the private sector to invest in low-income housing. However, an effort was made to try to offset those effects by creating a low-income housing tax credit. If we do not act on it before we adjourn, the effect of that is going to be that there will be no low-income housing tax credit. That is essentially going to be the end of the low-income housing program in the United States. I do not think we can allow this to happen.

If this can be done on reconciliation, fine. I do not care what it is done on. But I want it done. That is why I intend tomorrow to offer this amendment to this legislation so that at least we will have some vehicle for its consideration.

Mr. Mitchell addressed the Chair.

The PRESIDING OFFICER. The majority leader.

Mr. MITCHELL. Mr. President, I just came in near the closing words of the statement by the Senator from Missouri. I want to say in response that I very strongly favor extending the low-income housing credit. I have had the pleasure of working with the Senator from Missouri during this year in developing legislation to extend and improve that credit. I am making every effort to have that included in the reconciliation bill.

I have met in the past several days with the Director of the Office of Management and Budget, the Secretary of the Treasury, the distinguished Republican leader here in the Senate, and the House leadership. At every one of those meetings I have expressed my deep concern about the expiration of that provision, and my hope and intention that it be included in reconciliation.

I am going to continue to pursue that just as vigorously as I can, for all of the reasons that the Senator from Missouri has stated as to the importance of the provision. At the same time I hope this much needed and long delayed legislation to provide assistance to Poland and Hungary will not be further delayed, and that the Senator from Missouri will join me and others in exerting efforts to have his amendment included in reconciliation, which is a more appropriate vehicle, and I think more likely to produce the kind of result that we want.

With respect to this legislation, it had been my understanding, expressed on the Senate floor before we concluded last Thursday evening, that we would complete action on all pending amendments today, and that tomorrow we would simply vote on this measure. I inquire of the managers whether or not that is or is not their intention in this regard.

Mr. SIMON. My hope is we come very close to that. We do have one amendment, offered by Senator ROTH, of Delaware, where we had the debate, and we have agreed to postpone the vote on that until tomorrow. So we will have a vote on at least one amendment tomorrow.

Mr. MITCHELL. Unfortunately, with the Senate coming close on the number of amendments and leaving it open, it means the possibility exists of a large number of other amendments tomorrow. I would really like to carry through on what we had as our stated intention, and I thought we had an understanding that we would finish this bill tonight for all intents and purposes except for votes so we could be complete on it tomorrow, and then move on to other legislation.

Mr. SIMON. I join the majority leader in that hope. I hope before this evening is over, and as soon as possible, we can get a unanimous-consent agreement to proceed in that manner.

Mr. MITCHELL. I did not mean to foreclose the Senator from Missouri.

Mr. DANFORTH. I am prepared to offer the amendment either tonight or tomorrow. My understanding was that the purpose of the managers was that the amendment be carried over until tomorrow. And thinking about it, I think that would make sense for the following reason: I do not care how this is done, the extension of the expiring provisions. I understand the views of those who do not want it on the aid to Poland and Hungary bill. But it really has to be done.

The only remaining vehicles, as I understand it, which would be in order in the House of Representatives, would be the bill that is before us now and reconciliation. I wonder if there is some way between now and tomorrow morning for the majority leader or the Republican leader to ascertain from the administration which bill they would rather have this on. If they would rather have it on reconciliation, that is fine with me. My only point is that it really is not responsible for us to delay this until next year and let this expire and then hope to put it together next year.

I might say that I have spoken with the ranking Republican on the Finance Committee, Senator PACKWOOD, who has given a lot of thought to the capital gains issue, and his view is that he has no objection at all to dealing with these expiring provisions this year. So that is what I would like to accomplish. I am willing to do it any way that the majority leader and the Republican leader and the administration would like.

Mr. MITCHELL. I certainly am not and do not wish to be the spokesman for the administration, but I can tell you what I have been told by the administration's representatives, as recently as last Friday—the Secretary of the Treasury and the Director of the Office of Management and Budget—that they are opposed to extending this tax revision. So I think from their standpoint, they are against it, and, therefore, would not support it on either measure, as I understand it.

Mr. DANFORTH. I do not think they are going to veto the measure because the expiring provisions are included on it. I very much doubt that. The question is not whether they would like it done or would not like it done, but on which of the two bills before us would they rather have it.

Mr. MITCHELL. Perhaps the Republican leader can address that.

Mr. DOLE. If the Senator will yield. I think we need to be careful. We all made great speeches about how we were going to strip this bill, and we did. Now we are adding $1.7 billion in costs, if you put back all the extenders for 1 year. Some of those are not time-sensitive at all. The low-income hous-

ing credit is, as is the targeted-jobs credit. Most of the others do not have to be done. If you do them early next year, there is no impact. There are a number of other time-sensitive provisions dealing with rural hospitals. I have a list here of probably a dozen or more time-sensitive things, just as sensitive as the matter being discussed by the Senator from Missouri.

Certainly, there is no need to have the extenders for a year. Six months, I think, some of us could live with. But it is going to be difficult for those of us who voted to strip the reconciliation bill to say we really did not mean it, we want to go back and add on certain things that the Senator from Missouri wants and things the Senator from Kansas wants, and pretty soon we have the whole package again. I do not know where we stop and where we start.

That is the view I have expressed to the majority leader. It is not that we are opposed to the extenders. Why not add everything else that is time-sensitive? I have a whole list of things that affect people—rural hospitals, a lot of rural hospitals in every State. We took care of that. And the cost of all these time-sensitive matters is much less expensive than the $1.7 billion it will take to extend all those provisions for a year.

Plus, it seems to me, as an institution, if we want to enact many of the other provisions that we put together at about 2 o'clock in the morning, and we may not have an opportunity. You do not get many opportunities from the House Ways and Means Committee. That is another reason I am suggesting a 6-month extension at the outside. It would not have the cost, but it would reduce the cost, plus it would give us more opportunities next year to put on a number of the other provisions that we worked on in the Senate Finance Committee. But there are some very time-sensitive areas. I know the Senator from Missouri supports some; some he authorized, which we would like to include. If we do that on this bill, or particularly on reconciliation, then we are going back on what we said we would do the night we all claimed victory and said, "What a great group of statesmen we are. We took everything off." Now we are going to start selectively putting items back on. Maybe it is not important, but it is inconsistent.

Mr. DANFORTH. First of all, with respect to paying for the provision, the amendment that I would offer would pay for it. It would pay for it in a way that has already been agreed to by the Senate Finance Committee.

Second, with respect to a 6-month or 1-year extension, my own preference would be to make these provisions permanent. The idea of keeping them on very short timeframes does not give potential businesses or investors opportunities to plan. But a 6-month extension is certainly better than nothing.

I think we are going to have some tax legislation next year. I do not have any real doubt about it. I would be perfectly prepared to accept 6 months. The House Ways and Means Committee has already agreed to a 1-year extension, and I believe that the Senate Finance Committee, tomorrow morning, is going to agree to a 1-year extension, also.

Again, the amendment I offer is 6 months. It does not make that much difference, as far as I am concerned. I think, really, the question is what can we work out with the administration, and what does the administration want it on. I understand they would rather have us do nothing. But it is clear that when there are 85 cosponsors for one of these provisions—85 Senators have cosponsored the mortgage revenue bond provision; 71 Senators have cosponsored the low-income housing credit—it is clear to me that there are the votes to not only pass this, but if the President were to veto it, to override the veto.

I really hope that the Republican leader, in his communications with the administration, would find out where they would rather have it done. I do not care where it is done. If they want it done on reconciliation, fine. If they want it done on the aid to Poland bill, that is fine. I do not, as I said to both the majority leader and the Republican leader late last week, want to jeopardize the aid to Poland bill. I cannot conceive that this would jeopardize the aid to Poland bill. I am willing to offer it to anything anybody wants to offer it to.

Mr. DOLE. I would be happy to make that inquiry.

I think the President did indicate, somewhere in Texas on Saturday, support for the low-income housing credit. I do not think it is a question of being for or against the extension of any of the provisions as part of the housing package announced over the weekend. I will make inquiry of the White House and see if we can make a determination.

Again, it seems to me that from the standpoint of strategy of the institution, if we are going to act on many of the other provisions, I think a couple hundred provisions were stripped out, and we are not going to have an opportunity until a year from now, if there is a 1-year extension. It seems to me we are better off, from that standpoint, to have a less extension, which the Senator from Missouri said he would not object to. But if the extenders are offered on this bill, I think there would be some who would feel compelled to offer other time-sensitive matters on this bill, and this could become a big, big tax vehicle.

It has occurred to one member already to put everything we stripped off in the tax area on the Polish aid bill. I do not know what would happen. We had very good provisions from Senators on both sides of the aisle, which were added to the Senate reconciliation bill. I will be happy to make inquiry immediately and advise the Senator from Missouri.

Mr. DANFORTH. I just add, Mr. President, that I am really not a one-man band. This is not just 1 of 100 Senators showing up on the floor of the Senate peddling his own favorite ideas. I am not doing that at all. These are provisions that have been agreed to by the House, once formally, once informally, and by the Senate Finance Committee unanimously, as I recall.

They have tremendous numbers of cosponsors, and it is essential that we do them. I am not trying to be the Horatio at the bridge in hopefully the last week of this session of Congress, but rather to inquire how the administration would like this job done.

The PRESIDING OFFICER. Who seeks recognition. The majority leader.

Mr. MITCHELL. Mr. President, I will simply conclude by thanking the Senator from Missouri for his interest and concern.

As I said earlier it has been my pleasure to work with him on this matter throughout this year, and I hope very much that we are going to be able to work it out in a way that produces what I think is our common objective: Extension of the tax revision provision, enactment of the aid to Poland and Hungary bill, and approval of a deficit reducing reconciliation bill.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. GLENN. Mr. President, I rise to first give my enthusiastic endorsement to the support for East European Democracy Act of 1989. Anticipating expeditious and overwhelming Senate approval, I hope the Congress and the President will quickly resolve the differences over levels of funding so that we can begin to put our money where our mouth is in supporting the political and economic reforms underway in Poland and Hungary.

Second, I wish to speak briefly about a specific project which I believe is a very worthy candidate for funding through this aid package.

Mr. President, I visited Poland and Czechoslovakia in the spring of last year, but clearly Eastern Europe is a vastly different place now than it was a short 18 months ago. Developments, particularly as you have seen unfolding on TV over the last few days in East Germany, and changes in Poland and Hungary have taken an unprecedented and dramatic turn. In Poland, Solidarity humiliated the Communist Party in parliamentary elections with

the result that Poland is now governed by a Solidarity-led government, and we have Lech Walesa coming here visiting in Washington the same time.

Hungary has changed its name and its constitution; it has declared itself a democracy, removed any reference to the leading role of the Communist Party, and committed itself to holding multiparty elections early next year. Even the Hungarian Communist Party has changed its name and its program to more closely identify with Western European social democratic parties.

Both Poland and Hungary are committed to pursuing economic reform programs which aim to replace state control with market oriented economic structures. Obviously, such an unprecedented transformation will not be easy. Despite the heady events of the past months, the Solidarity-led government of Poland faces immense challenges in reforming and modernizing its ecomony. I believe that the Polish and Hungarian people deserve our support in this historic undertaking. United States aid should focus on private enterprise development in the economic sector and democratic institution development in the political sector. In addition, immediate food and aid will be required to help the people of Poland weather the inevitable hardships associated with their economic transformation.

This aid package is not an act of selfless generosity. I think it can be argued that it is an investment in our national security as important as any weapon system we can vote on on this floor. For over 40 years the United States, through the NATO Alliance, has been committed to the maintenance of peace, stability, and freedom in Europe. What could contribute more effectively to the realization of that security objective than the establishment of free and democratic societies in Eastern Europe?

There will be those who will argue that this aid is premature, but I do not think we can afford to wait. History will judge us harshly if we fail to take advantage of this historic opportunity to help the courageous and determined people of Poland and Hungary achieve their political freedom and economic independence. It will not be easy, and it will not be achieved overnight. But we can take that critical first step today by putting some real substance behind the words of praise we have heaped upon the Polish and Hungarian reformers. We can and should reassert a U.S. leadership role in marshaling Western support for the extraordinary process of change underway in Eastern Europe.

Having said that, I wish for a few minutes to discuss a project which I believe has very great merit and should be considered for possible funding in the context of this aid package.

Mr. President, I would say this package is almost free and yet can be very, very valuable. That makes it an offer we can hardly refuse.

Last week I met with representatives of the National Association of State Auditors, Comptrollers and Treasurers [NASACT] whose current president is Mary Ellen Withrow, State Treasurer of Ohio. NASACT is comprised of statewide office holders who serve as a State's auditor, comptroller, or treasurer.

The group came to my office, and we met and discussed a project that NASACT is proposing to put into place along with the Polish aid, Hungarian aid, whatever aid we have over there, and it is a program that I think we should support.

Let me say first what NASACT is. First, it is comprised of Statewide office holders who serve as State's auditor, comptroller, or treasurer.

It exists to represent the States' views on a variety of financial management topics. It exists to bring together State fiscal and financial officers; to encourage the free interchange of information and ideas among State, as well as Federal and local, fiscal and financial officials; to provide for the improvement of education and training available to such State officials; and to provide a national forum for the promulgation and dissemination of State positions concerning financial management of government.

Mr. President, when you get up here and stand up here and talk about financial management and how we go about it, it may be about as exciting as watching mud dry or something similar, but these are the U.S. experts on how we can get the best bang for a buck in aid and programs not only in your own country but abroad. That is the reason that I was rather excited about this when they were in my office the other day. Financial management is considered a very dry subject. Nobody gets excited about it. Yet we all asked in the past GAO and other Government agencies to just try to track down what happens to aid money that we send overseas, did it get expended for what it was supposed to be expended for or did it not?

I had a similar situation back several years ago when we tried to trace some of the aid going down to the Contras in Nicaragua, and I remember we tracked the $27 million as far as Miami and beyond that we did not get very far with it. We never did find out for sure what happened to the money. That was a study I had some personal experience with.

As we send these aid programs overseas, most Americans are happy to help out as we can, but we want to know what happens to the money. We want to know what happens to the dollars so that it is not just enriching a very few people and not accomplishing the purpose for which it was intended.

I read a list of the things that this NASACT organizations tries to do.

To further these objectives, NASACT is involved in research, training, and technical assistance designed to improve financial management at the State level. NASACT is the only organization whose membership is involved in technical fiscal activities that have near universal application.

What they try to do is applicable not only in our own country, but it is just as applicable in Poland, Hungary, Czechoslovakia or any other nation we may want to encourage into democratic ways and a free enterprise government, a free market economy.

It is the only organization whose membership has that kind of universal application as far as I know, and these concerns can all be brought together under one heading, one word, and that is a word that is necessary in a democracy, and it is the word "accountability", accountability. In my view accountability is the very essence of democracy. In the broadest sense democracy holds elected officials accountable to the people. In the Communist world it is different, very different.

Accounting is very loose, the people get no accounting of where their tax dollars went. In the fiscal sense, in a democracy, government must account to the people for the receipt and proper expenditure of taxpayer funds. I cannot imagine that a democracy could function effectively without such accountability.

I cannot think that the governments of Europe, of Eastern Europe, of the Warsaw Pact nations that are moving toward a free market economy can function without effectively having such accountability.

With respect to foreign assistance programs, as I mentioned, accountability has another dimension—we must be able to account for the dollars of U.S. taxpayer money that we provide as assistance to other countries. We must be able to know that our money was used for the purposes intended. In a December 1988 report examining problems and issues affecting economic assistance, the GAO stated that—and I stress this because I think they stated it very well—

> Host-country financial management weaknesses have directly contributed to inadequate control over assistance funds, cost overruns, and in some instances misuse of assistance. Limitations include shortages of trained staff and outdated accounting systems.

This brings me to the reason why I have raised this issue in the context of the Poland-Hungary aid bill. Both Poland and Hungary have embarked on the unprecedented course of transforming their governmental systems from totalitarianism to democracy. As Americans, we are unanimous in our

support for the course the Polish and Hungarian people have chosen, and we are here debating today the question of how we should express that support in concrete terms.

At the meeting in my office just a few days ago last week, NASACT made an offer. They said that NASACT is willing—indeed, they are eager—to play a role in this process by providing training and technical assistance to the Government of Poland in the principles and the practices of fiscal accountability and management. And I cannot think of a better group to do it. NASACT has the expertise. The organization or some of its individual members have in the past provided technical assistance or made presentations to several foreign governments.

I believe NASACT is to be commended for its initiative and its interest in Poland's new democracy. I urge the agencies of our Government that will implement and administer the Polish aid program to explore NASACT's offer and, assuming it is feasible and the Polish Government is interested, give very serious consideration to funding this project. It would be very minimal.

NASACT is happy to contribute their time. They have officials to conduct these programs. All that would be required is the very minimal funding of perhaps some travel and subsistence and things like that and very minimal staffing. But the services or the expertise would basically be free.

Finally, Mr. President, I want to commend all my colleagues who worked diligently to put this assistance package together. I urge the Senate to approve it expeditiously and without major reduction or alteration.

I yield the floor.

The PRESIDING OFFICER. Who seeks recognition?

AMENDMENT NO. 1125

Mr. SIMON. Mr. President, earlier in connection with the Roth amendment which was agreed to, I assured the senior Senator from Delaware that I would direct staff to prepare a conforming amendment that would ensure the full coherence of the bill in the light of the Roth amendment. Accordingly, I now send to the desk what amounts to a perfecting amendment which fulfills my commitment to Senator ROTH.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Illinois [Mr. SIMON] proposes an amendment numbered 1125.

Mr. SIMON. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 15, after line 13, add the following:

(6) FINANCIAL INSTRUMENTS FOR INDIVIDUAL INVESTMENT.—The President shall ensure that Enterprise Fund Act undertake all possible efforts to establish financial instruments that will enable individuals to invest in the private sectors of Poland and that will thereby have the effect of multplying the impact of United States grants to each fund.

Mr. COCHRAN. Mr. President, the amendment has been cleared on this side of the aisle, and we urge the Senate to approve it.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Illinois [Mr. SIMON].

The amendment (No. 1125) was agreed to.

Mr. SIMON. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DOMENICI addressed the Chair.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Parliamentary inquiry, Mr. President, are there any time constraints on this measure?

The PRESIDING OFFICER. Not at all.

A BIPARTISAN POLICY FOR CENTRAL EUROPE

Mr. DOMENICI. Mr. President, at last the Senate is approaching approval of a bill that, at least from what I can tell, outlines the framework for a United States policy of assistance toward Poland and Hungary. We have now achieved a genuinely bipartisan approach, one that combines the best elements of the Simon-Mitchell proposal and the best element and ingredient of a measure Senator DOLE introduced with my cosponsorship immediately after the Simon-Mitchell proposal was placed before the Senate.

With the passage of this legislation, both Houses will have approved the two major initiatives offered by President Bush: First, new enterprise funds for supporting the private sector in Poland and Hungary; and the $200 million American contribution toward a $1 billion fund to help Poland's new government stabilize its economy, the Economic Stabilization Fund.

The bill also authorizes more than half a billion dollars over 3 years, but the appropriators and the appropriations process here in the U.S. Congress have already established the funding levels for this year.

I believe the appropriators have done a good job. These requests and these needs came late in the budget cycle yet they have had to be accommodated and adjusted for, perhaps not to everyone's satisfaction. Aid to Central America will be reduced somewhat, but let us be at least pleased that a substantial portion of the Kissinger Commission plan has been accomplished.

The immediate impact of this measure will be the policy guidelines that it establishes, not the money that it promises for future years. Essentially, it establishes some guidelines which are new, some approaches to foreign assistance that are new and different. And that is how it should be.

TRADITIONAL FOREIGN AID WON'T WORK

It is obvious to many that the foreign aid and foreign assistance programs of the United States could accomplish more than they do now. Most of them are familiar in detail to the current occupant of the Chair.

We never envisioned that they would apply to a government or economy in transition such as Poland or Hungary, from a centralized planned economy, with Communist single party governance, to perhaps a less centralized and hopefully a marketplace economy. We don't know much about how to start pluralistic systems, a political system of legal governance and many parties.

Obviously, we have to do something different. That is why it is exciting to try the new enterprise fund concept encapsulated in this bill. I predict before we make it through the transition from these Communist economies to where they are desirous of going, that we will try many new things.

I am just hopeful that we will make the right assessments of where we can accomplish the most in moving these countries in an orderly way, not one of anarchy, but an orderly transition toward pluralism in their party structure and as much marketplace economics as possible. A Presidential mission will soon do this assessment in Poland. That is not going to be easy.

This bill is a better bill than the one we started with many months ago. It begins the process of modifying our foreign aid practices to take into account the different realities in central and Eastern Europe, some of which I have briefly described in the last few minutes.

Our free enterprise example, our technical assistance and our determination to keep a free and fair trading system will help the amazing transition in central Europe far more than promising billions of dollars that we cannot afford. We are not absolutely sure this new aid will do anything more than many of the billions which were borrowed before in the 1970's, which are now dragging these economies down because they cannot afford to repay them. The Polish people look back and wonder, what did we get for it? Where did the money go?

So I am hopeful that our free enterprise example, our technical assistance, I repeat, and our determination to keep free trade and fair trade open will make a positive difference. If we

can have the trade policies of the free world apply as quickly as possible, it is obvious that that will have the most dramatic effect in central and eastern Europe.

AID NOT CRITICAL FACTOR

As a matter of fact, Mr. President, I am no expert on this, but I have been told that open trade, not American aid, saved Western Europe in the late 1940's.

A real, indepth analysis of the success of the Marshall plan will find that adaptation of the more open trading practices of the United States is what changed those European countries from failures to success.

After the initial short-term relief, trade mattered to a more significant degree than our aid. After the war, we opened up to American trade those faltering West European economies that were besieged by communism on their borders. They had to overcome the total rhetoric and propaganda of the Stalinists as well as the economic malaise after the war. We think the critical part of the Marshall plan was aid, but it might have been trade.

Some experts offer this explanation and I believe they may be right. We ought to look carefully at that when we talk about helping Poland and Hungary, and, yes, even East Germany.

Incidentally, the East Germans will not have as much trouble as Poland. Aid and trade will flow to East Germany because of the maturity of their system, its current state of productivity—which is pretty significant for an Eastern-bloc country—and its proximity to West Germany which, as everyone knows, in the area of export goods is second to none.

We think Japan is the premier exporter and producer of goods for the world marketplace on any measurement of national significance, but in many sectors, West Germany is No. 1. The trade is going to go in the opposite direction, there. They will help build the capacity to trade in East Germany.

Everyone thinks East Germany is going to move toward the west. In fact, the Federal Republic may move toward East Germany, in terms of the injection of capital and the capacity to build and employ and pay higher wages. That may be the easiest transition of all. We hope some of that will work in Poland and Hungary.

I want to close by saying under the Senate bill the United States is giving money to Poland, not lending it. Many of our European friends provide loans and guarantees that Poland does not need and cannot repay for many years. I hope the House conferees do not insist on adding to Poland's short-term debt through the trade credit insurance program. I really do not think that is the way to go.

I want to congratulate the Democratic and Republican leaders for bringing the Senate together on this issue. I thank the Senators from Illinois and Alaska, Indiana, Colorado, Delaware, and Wyoming; they have all been involved.

THE PRESIDENT'S PLAN

Most of all I would like to commend the President of the United States. The two basic new concepts of significance were requested by him. The enterprise funds and the economic stabilization funds are tailored as best we can for the transition economies of Poland and Hungary. Some say he is not taking enough of a lead here. Maybe it is just he does not talk about it as much as others.

I congratulate him for the two initiatives that are in this bill, because they are his. I am pleased to be part of trying to implement them now. I know that the appropriators understand their significance. As I indicated, this is authorization and guidance for the future, but we have this new program already funded in the appropriations process, even though it is late in the year.

These new types of funds, as I indicated, may or may not work. But they are certainly more appropriate than the traditional foreign aid programs that we have for the rest of the world. If we work, they will become, perhaps, the models for effective U.S. assistance to other countries setting out on this very difficult transition towards freedom and democracy. It's a long journey to democratic capitalism from where they have been, behind the Iron Curtain, all these years.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. SIMON. Mr. President, I commend our colleague from New Mexico for his help on this, for his leadership on the legislative package that passed earlier. He has been to Poland. He understands the needs there. And the basic thrust he mentioned, that we want to encourage the development of the private sector rather than just passing out dollars or passing out loans, is very much a part of the thrust of this bill.

I am pleased we have a good bipartisan bill. One of the reasons we have it is Senator DOMENICI from New Mexico.

Mr. DOMENICI. I thank my friend from Illinois.

Mr. SIMON. If no one seeks the floor, Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

STATUS OF PENDING NOMINATIONS

Mr. MITCHELL. Mr. President, last Thursday, the Republican leader placed a list of pending nominations in the RECORD.

While I was on the floor during the Republican leader's statement, a letter was delivered to my office from the President's Chief of Staff, John Sununu. This letter states that the President would like all of his nominations confirmed by the time the Senate adjourns the 1st session of the 101st Congress. The letter goes on to indicate that the President would retain the right to make recess appointments.

During the previous administration, the Senate and the President reached an accommodation in this regard. The President refrained from making intrasession recess appointments. In those rare instances when it was necessary to make a recess appointment, either intrasession or during sine die recesses, the President notified the majority leader in advance of the announcement of the appointment. I have asked the President to continue this practice, and I hope that he will do so.

The right of the President to make recess appointments during the period of a sine die adjournment is not in question. However, I do believe that this should be a rare occurrence in truly emergency situations.

The President and the Senate have constitutional roles in the nomination and confirmation process. There is no time limit on how long the President takes to decide whether to submit a nomination, and there is no time limit on how long the Senate takes to confirm a nominee. Each sets its own standard in these matters. That is as it should be under our Constitution.

The Senate has made good progress in confirming the President's nominations throughout this year. The Senate has confirmed 343 of the President's nominations to date. Of this number, 132 have been confirmed since September 6. Twelve nominations are on the Executive Calendar.

One hundred and five nominations are pending before Senate committees. According to the Senate's records, 88, or the overwhelming majority, of these nominations have been received since September 6; 41 have been pending since October 12, just a month ago.

The delay in submitting these nominations to the Senate is not the fault of the Senate. It is the administration's responsibility.

Senate committees are planning to process as many of the remaining nominations as possible prior to the

sine die adjournment. As many as half of the pending nominations may be confirmed, if unforeseen problems do not arise.

In many cases where action is not scheduled, the nominees have not completed the necessary paperwork for committee consideration. For instance, of the 27 nominations pending before the Foreign Relations Committee, fully 17 of them—more than half—have not completed the necessary paperwork. This delay is not the fault of the committee or the Senate. It is the administration's responsibility.

Some members of the President's staff have stated that the lack of action on nominations will hinder the administration's policy decisions next year. As I stated in September, the Senate cannot act on a nomination until the nomination is made by the President and received by the Senate. Making nominations is the administration's responsibility.

Many critical nominations have not yet been received by the Senate. To date, more than one-fourth of the 431 full-time positions requiring Senate confirmation in executive departments and agencies are either vacant or there has been no announcement that the incumbent will be retained by the administration. Eighty of these positions are in executive departments. This is not the fault of the Senate. It is the administration's responsibility.

At the present time, 56 vacancies exist on the Federal bench. Eleven nominations are pending before the Judiciary Committee—4 of them have been received just since October 31 just two weeks ago. The Judiciary Committee hopes to act on as many as seven of the pending judicial nominations prior to adjournment. The committee is doing its work. But 45 judicial vacancies still remain without nominations having been made by the President. This is not the fault of the Senate. It is the administration's responsibility.

There have been two major natural disasters in this country this fall. The Federal Emergency Management Agency has received substantial criticism for its response to the damage caused by Hurricane Hugo. While trying to cope with the hurricane disaster, the agency was hit with the California eathquake. Meanwhile, there still have been no nominations by the President for Director, Deputy Director or inspector general at FEMA. This is not the fault of the Senate. It is the administration's responsibility.

The President has been in office for nearly 10 months. In that time there have been two major natural disasters. How many more disasters must occur before the President nominates someone to fill those three high offices at the Federal Emergency Management Agency? If the White House can criticize the Senate for taking more than 1 month to confirm a nomination, what can be said of a White House which takes more than 10 months to make a nomination?

The Constitution created a system of checks and balances between the three branches of Government. The nomination and confirmation process is a part of that system. Last week, an administration source was quoted in the press as saying that the White House is engaged in "positioning."

We need less positioning and more action by the administration in making nominations to the many important positions with respect to which nominations have not been made.

I believe the record shows that the Senate has continued to act in a cooperative manner on the President's nominations. The President will be submitting many more nominations this fall and next year. I intend that the Senate continue to move as expeditiously and cooperatively as possible on these nominations, consistent with our responsibilities under the Constitution.

I ask unanimous consent that the following documents be printed in the RECORD at this point.

First, a document prepared by the Congressional Research Service which includes a list of full-time positions requiring Senate confirmation in executive departments and independent agencies for which President Bush has neither made a nomination nor announced retention of an incumbent from the previous administration, as of November 10, 1989; and

Second, a list of nominations pending in Senate committees and on the Executive Calendar, as of the close of business on November 9, 1989.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TABLE 1.—SELECTED CIVILIAN FULL-TIME POSITIONS REQUIRING SENATE CONFIRMATION IN EXECUTIVE DEPARTMENTS FOR WHICH PRESIDENT BUSH HAS NEITHER MADE A NOMINATION NOR ANNOUNCED RETENTION OF INCUMBENT FROM PREVIOUS ADMINISTRATION, AS OF NOV. 10, 1989

Hart T. Mankin, Associate Judge of the U.S. Court of Veterans Appeals, Sept. 29.

David E. Lewis, Assistant Secretary of Veterans Affairs (Acquisition and Facilities) Oct. 12.

Mr. MITCHELL. Mr. President, I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

WELCOMING THE OPENING OF THE BERLIN WALL AND CALLING FOR ITS COMPLETE DESTRUCTION

Mr. MITCHELL. Mr. President, in behalf of myself, Senators DOLE, LEVIN, HELMS, and WIRTH, I send a resolution on the opening of the Berlin Wall to the desk, and ask that the clerk state the resolution.

The PRESIDING OFFICER. The clerk will state the resolution.

The legislative clerk read as follows:

S. RES. 207

Whereas, since the end of World War II, the United States and the Western allies have been committed to a free Berlin;

Whereas the Berlin airlift, which symbolized that commitment, successfully ended the Soviet blockade of Berlin in 1949;

Whereas the Berlin Wall was created to blockade the eastern half of Berlin and has stood as a symbol of oppression and denial of basic human freedom for 28 years;

Whereas the people of Berlin have struggled heroically against this artificial division of their city, and numerous East Berliners lost their lives while attempting to escape their section of the city;

Whereas free travel between East and West Berlin was permitted beginning on November 9, 1989, and now the Berlin Wall has been opened in several places; and

Whereas at least two million East Germans have crossed to West Berlin during the first few days that the Wall has been opened: Now, therefore, be it

Resolved, That the Senate—

(1) welcomes the opening of the Berlin Wall as symbolic of the beginning of the process of reform taking place in the German Democratic Republic (East Germany) and throughout Eastern Europe;

(2) commends the people of Berlin for their desire for freedom, their courage and dignity, and their role in bringing about the opening of the Wall;

(3) urges the Government of the German Democratic Republic (East Germany) to make permanent the freedom to travel, to permit the formation of political parties, and to hold free elections; and

(4) calls upon the Soviet and East German authorities to remove and destroy the Berlin Wall.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Maine?

There being no objection, the Senate proceeded to consider the resolution.

Mr. MITCHELL. Mr. President, this resolution speaks for itself.

I will add only that in a year of tumultuous and moving events, none have exceeded and few have equaled the drama of the opening and the destruction of the Berlin Wall, first symbolically and now physically.

This resolution is intended by Senator DOLE and myself to express the strong support of the American people to the people of Berlin and to the desire for freedom of the people of East Germany whose actions have moved their government to take action that few if any believed possible not years or months but just days ago. I hope that the Senate will unanimously approve this resolution.

Mr. SIMON. Mr. President, I ask unanimous consent to be added as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMON. Mr. President, let me just add my guess is 10, 20, 50 years from now, people will look back on this week that has just passed as the most significant week in the history of humanity since the end of World War II. I think it is that momentous.

The PRESIDING OFFICER. Is there further discussion on the resolution?

The Chair hears none.

The question is on agreeing to the resolution.

The resolution (S. Res. 207) was agreed to.

The preamble was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. COCHRAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUPPORT FOR EAST EUROPEAN DEMOCRACY ACT

The Senate continued with the consideration of the bill.

AMENDMENT NO. 1126

(Purpose: To hold Communist China to its commitment to refrain from missile sales to the Middle East)

Mr. COCHRAN. Mr. President, on behalf of the Senator from North Carolina [Mr. HELMS] I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Mississippi [Mr. COCHRAN], on behalf of Mr. HELMS, proposes an amendment numbered 1126.

Mr. COCHRAN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the committee amendment, add the following new section:

"SEC. . The United States Government shall not assist any missile program of the People's Republic of China in any manner, until the President certifies to Congress that China is not currently supplying ballistic missiles or missile technology to Iran, Iraq, Syria, or Libya, and has provided reasonable assurances that no future sales of missiles or missile technology to such countries are planned.".

Mr. HELMS. Mr. President, this amendment poses a clear cut question: Are we to allow the United States to assist the Communist Chinese missile program at the same time the Chinese may be supplying—or preparing to supply—ballistic missiles and missile technology to Libya, Iran, Syria, and Iraq?

The amendment reads:

The United States Government shall not assist the missile program of the People's Republic of China in any manner, until the President certifies to Congress that China is not currently supplying ballistic missiles or missile technology to Iran, Iraq, Syria or Libya, and has provided reasonable assurances that no future sales or missiles or missile technology to such countries are planned.

Mr. President, this amendment is almost exactly the same as an amendment approved by the Senate as part of the 1989 foreign operations appropriations bill. That amendment was subsequently rejected by the House on the basis of a reported commitment received by the administration from the Communist Chinese that no further missile sales would be made to Iran, Iraq, Syria, and Libya.

At the time my amendment was rejected by the House, it was widely suggested that the issue be revisted in the event that the Chinese did not abide by their reported commitment.

It now appears as though China may not be abiding by this commitment. A New York Times story of November 8, 1989 titled "U.S. Worries That China May Again Sell Missiles" reported that a senior official of the Arms Control and Disarmament Agency told a conference that the United States is concerned that Communist China may drop its commitment not to sell missiles or missile technology.

Neither the type of missile nor its destination were identified by the ACDA official, but in February of this year experts from the Congressional Research Service speculated that Syria may be in the market for the Chinese M-9 missile. The M-9 is a solid-fueled rocket with a range of 375 miles. It is highly mobile and in the hands of the Syrians could cover all of Israel.

I ask unanimous consent that the New York Times article be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. HELMS. At the same time concerns are being raised that China may be back in the business of peddling missiles, the license to permit the Chinese to launch a United States satellite on a Chinese missile is likely to be issued within days.

Unless Congress acts to stop issuance of this export license by passing this amendment, the United States would be in the position of providing direct assistance to the Chinese missile program at a time when the Chinese may be peddling missiles and missile technology to the most rabid anti-American states in the Middle East.

If this amendment does not pass, and the export of United States satellites for launch by China is permitted, the Chinese missile program will be provided with valuable new technology, additional funds, and new found credibility. Precisely the wrong signal will be sent to the Chinese about their missile sales. The Chinese will be assisted in their efforts to build better, more advanced, more accurate and more deadly missiles for sale to Iraq, Syria, Libya, and Iran so that these countries will have better missiles to fire at Israel.

Mr. President, this will all come to pass unless some action is taken to prevent the export of United States satellites for launch on Chinese missiles. That is why this amendment is so necessary and urgent.

As I pointed out last year in this Chamber, Senators have watched as the Chinese have single-handedly ignited a missile race in the tinderbox of the Middle East. China's actions in this regard are made all the more irresponsible by the reported feverish efforts of countries such as Libya and Syria to develop chemical weapons which could be carried by Chinese-provided missiles.

But despite these developments—and their ominous implications for Israel's survival and America's interests in the Middle East, the State Department still wants to help the Chinese missile program—apparently without regard to China's adherence to its reported commitment not to provide these or other missiles to countries like Libya and Syria.

Mr. President, this amendment poses a very simple question. Are we going to sit back and allow the State Department to assist the Chinese missile program when the Chinese may be supplying or are preparing to supply missiles to Iran, Iraq, Syria, or Libya?

Or, are we going to take a firm stand for the security of Israel and for peace and stability in the Middle East by approving this amendment to prohibit United States assistance to the Chinese missile program?

Mr. President, mainland China today is a classic military dictatorship. Real power is not held by the President of the People's Republic of China or even the General Secretary of the Chinese Communist Party but rather in the Military Control Commission and particularly its chairmanship.

At the same time the Chinese military has been the prime instrument of tyranny. Military rule was first tried out on Tibet in March and since it successfully suppressed the Tibetans, it was expanded to Beijing in May.

In order to assist the democratic aspirations of the Chinese and Tibetan peoples, the free world must, as a first step, ensure that it does nothing to increase the power of the Chinese military. In practical terms, this means no hard currency transfers to the Chinese military.

A prime source of hard currency for the Chinese military has been arms sales, including ballistic missiles. They are now trying to establish a satellite launch service. For 25 million United States dollars, one-fourth the price of a Western launch service, the Chinese Army will launch Western satellites. They have proposed to launch two satellites for Australia and one satellite for a group of countries in Southeast Asia.

As I noted previously, within the past week a new issue has arisen to increase doubts as to the wisdom of these satellite launches by the Chinese. On November 9 the New York Times quoted an official of the Arms Control and Disarmament Agency [ACDA], who said that the United States is concerned that Communist China may sell missiles to the Middle East.

On March 1 of this year CIA Director Webster testified before the Senate Foreign Relations Committee that Syria, as well as Iran, Iraq, and Libya, is developing a chemical weapons capability. Not only does Syria remain a major headquarters for international terrorism, it is also in an official state of war with Israel. Poison gas coupled to the Chinese M-9 missile would change the balance of power in the Middle East.

If it can at all help it, the United States should not be in the position of assisting any Chinese plans to peddle missiles to the Middle East. However, if the proposed export of United States satellites for launch by Chinese missiles is permitted, we will be assisting these Chinese plans, and pumping up the Chinese People's Liberation Army at the same time.

To prevent the export of these satellites, Senators should support my amendment.

U.S. WORRIES THAT CHINA MAY AGAIN SELL MISSILES

(By Michael R. Gordon)

WASHINGTON, November 8.—A senior Administration official said today that the United States is concerned that China may drop its commitment not to sell medium-range missiles or the technology to make them.

The official, who spoke at a seminar organized by the Arms Control and Disarma-

ment Agency, declined to be specific about possible Chinese export efforts.

China has previously advertised for sale its M family of missiles and has indicated a willingness to help other nations make ballistic missiles, American officials have said. The remarks by the American official today appeared to reflect a concern that the Chinese are again marketing these weapons and technology.

Other Administration officials said they were aware of reports that China was selling missiles in the Middle East and elsewhere. While expressing concerns over these reports, several officials said there was conflicting information about what weapons might be for sale. They said they had no proof that a deal had been consummated.

ELSEWHERE IN ASIA

On other proliferation matters, the senior official painted a disturbing picture of developments in Asia. Pakistan, he said, is continuing its efforts to acquire illicit nuclear technology abroad, and India is producing far more plutonium than it needs for civilian purposes. The United States has asked Moscow to intercede with the Indians but is disappointed with the Soviet efforts, the official said.

Under the rules of the conference, held at the Wye Plantation in Maryland, the identities of the Administration officials who spoke there could not be disclosed.

American officials were shocked when they learned in March 1988 that China had sold old medium-range missiles to Saudi Arabia. The sale was a serious setback to their efforts to stem the spread of ballistic missiles.

The Reagan Administration sought assurances from the Chinese that they would make no further missiles sales. Chinese officials reportedly indicated that they would not sell intermediate-range missiles.

WHAT U.S. WANTS

Bush Administration specialists have been eager to get Beijing to reaffirm and clarify this understanding. For example, it is not clear exactly how it defines an intermediate-range missile. Nor is it clear to whom it intended to rule out the sale of missile technology, the senior official said.

But he expressed concern that the strain in relations that followed the Chinese crackdown in June on the democracy movement had hampered American efforts to obtain clarifications of Chinese missile views. A meeting in China on profliferation issues with American and Soviet officials was called off, the official said.

Turning to Pakistan, the official said "it is fair to say that the Pakistanis have not reduced their efforts to acquire equipment abroad" that could be used to make nuclear weapons..

President Bush told Congress last month that Pakistan does not possess a nuclear device; a certification to that effect is needed to provide military and economic aid. However, the senior official said that Pakistan has come so far in its nuclear program that Mr. Bush has "great difficulty" in making that certification.

Mr. SIMON. Mr. President, the language has been worked out with this side. I am pleased to accept the amendment.

The PRESIDING OFFICER. Is there further discussion of the amendment?

If not, the question is on agreeing to the amendment.

The amendment (No. 1126) was agreed to.

Mr. COCHRAN. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. SIMON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. COCHRAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SIMON). Without objection, it is so ordered.

MORNING BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent there be a period for morning business with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Kalbaugh, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 2:35 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year, and for other purposes.

The message also announced that the House has passed the following joint resolution, with amendments, in which it requests the concurrence of the Senate:

S.J. Res. 16. Joint resolution designating the month of November 1989 as "National Alzheimer's Disease Month."

The message further announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 426. An act for the relief of Christy Carl Hallien, of Arlington, TX;

H.R. 429. An act for the relief of Melissa Johnson;

H.R. 568. An act for the relief of Whiteworth Inc. of Gardenia, CA;

H.R. 569. An act for the relief of Maurice G. Hardy;

H.R. 713. An act for the relief of Bruce C. Veit;

H.R. 715. An act for the relief of the Junior Achievement of Sacramento, Inc.;

H.R. 757. An act for the relief of Richard W. Ireland;

H.R. 1017. An act for the relief of William A. Cassity;

H.R. 1018. An act for the relief of Samuel R. Newman;

H.R. 1020. An act to permit reimbursement of relocation expenses of William D. Morger;

H.R. 1021. An act for the relief of Charlotte S. Neal;

H.R. 1727. An act to modify the boundaries of the Everglades National Park and to provide for the protection of lands, waters, and natural resources within the park, and for other purposes;

H.R. 2107. An act for the relief of Pablo Cruz Patag;

H.R. 2890. An act to designate the Federal Building and U.S. Courthouse located at 750 Missouri Avenue in East St. Louis, IL, as the "Melvin Price Federal Building and U.S. Courthouse"; and

H.R. 3628. An act to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 217. Concurrent resolution honoring the centennial of the birth of India's Pandit Jawaharlal Nehru;

H. Con. Res. 218. Concurrent resolution concerning the establishment of a South Pacific Nuclear Free Zone; and

H. Con. Res. 225. Concurrent resolution directing the Clerk of the House of Representatives to make technical corrections in the enrollment of the bill H.R. 2461.

ENROLLED BILL SIGNED

The message further announced that the Speaker has signed the following enrolled bill:

H.R. 2991. An act making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1990, and for other purposes.

The enrolled bill was subsequently signed by the Acting President pro tempore [Mr. DASCHLE].

At 4:07 p.m., a message from the House of Representatives announced that the House disagrees to the amendments of the Senate to the bill (H.R. 2748) to authorize appropriations for fiscal year 1990 for intelligence and intelligence-related activi-

ties of the U.S. Government, the intelligence community staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes; it agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon, and appoints the following as managers of the conference on the part of the House:

From the Permanent Select Committee on Intelligence: Mr. BEILENSON, Mr. MCCURDY, Mr. KASTENMEIER, Mr. ROE, Mr. MCHUGH, Mr. DWYER of New Jersey, Mr. WILSON, Mrs. KENNELLY, Mr. GLICKMAN, Mr. MAVROULES, Mr. RICHARDSON, Mr. SOLARZ, Mr. HYDE, Mr. LIVINGSTON, Mr. SHUSTER, Mr. COMBEST, Mr. BEREUTER, Mr. ROWLAND of Connecticut, and Mr. DORNAN of California.

From the Committee on Foreign Affairs, for consideration of title IX of the Senate amendment, and modifications committed to conference: Mr. FASCELL, Mr. HAMILTON, and Mr. BROOMFIELD.

From the Committee on Armed Services, for consideration of Department of Defense tactical intelligence and related activities, and modifications committed to conference: Mr. ASPIN, Mr. LANCASTER, and Mr. DICKINSON.

From the Committee on the Judiciary, for consideration of sections 503 and 601 of the Senate amendment, and modifications committed to conference: Mr. EDWARDS of California, Mr. MORRISON of Connecticut, Mr. BERMAN, Mr. SENSENBRENNER, and Mr. SMITH of Texas.

The message also announced that the House has passed the following bill, without amendment:

S. 931. An act to protect a segment of the Genesee River in New York.

The message further announced that the House has agreed to the resolution (H. Res. 287) stating that the bill (S. 686) to consolidate and improve Federal laws providing compensation and establishing liability for oilspills, in the opinion of the House, contravenes the first clause of the seventh section of the first article of the Constitution of the United States and is an infringement of the privileges of the House, and that such bill is respectfully returned to the Senate.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 215. An act to amend title 5, United States Code, with respect to the method by which premium pay is determined for irregular, unscheduled overtime duty performed by a Federal employee; and

H.R. 756. An act for the relief of Shelton Anthony Smith.

MEASURES REFERRED

The following bills were read the first and second times by unanimous consent, and referred as indicated:

H.R. 426. An act for the relief of Christy Carl Hallien, of Arlington, TX; to the Committee on the Judiciary.

H.R. 429. An act for the relief of Melissa Johnson; to the Committee on the Judiciary.

H.R. 568. An act for the relief of Whiteworth Inc. of Gardenia, CA; to the Committee on the Finance.

H.R. 569. An act for the relief of Maurice G. Hardy; to the Committee on the Judiciary.

H.R. 713. An act for the relief of Bruce C. Veit; to the Committee on the Judiciary.

H.R. 715. An act for the relief of Junior Achievement of Sacramento, Inc.; to the Committee on Finance.

H.R. 756. An act for the relief of Shelton Anthony Smith; to the Committee on the Judiciary.

H.R. 757. An act for the relief of Richard W. Ireland; to the Committee on the Judiciary.

H.R. 1017. An act for the relief of William A. Cassity; to the Committee on the Judiciary.

H.R. 1018. An act for the relief of Samuel R. Newman; to the Committee on the Judiciary.

H.R. 1020. An act to permit reimbursement of relocation expenses of William D. Morger; to the Committee on Energy and Natural Resources.

H.R. 1021. An act for the relief of Charolette S. Neal; to the Committee on Armed Services.

H.R. 2107. An act for the relief of Pablo Cruz Patag; to the Committee on the Judiciary.

H.R. 2890. An act to designate the Federal Building and U.S. Courthouse located at 750 Missouri Avenue in East St. Louis, IL, as the "Melvin Price Federal Building and United States Courthouse"; to the Committee on Environment and Public Works.

The following concurrent resolutions were read, and referred as indicated:

H. Con. Res. 217. Concurrent resolution honoring the centennial of the birth of India's Pandit Jawaharlal Nehru; to the Committee on the Judiciary.

H. Con. Res. 218. Concurrent resolution concerning the establishment of a South Pacific Nuclear Free Zone; to the Committee on Foreign Relations.

MEASURES PLACED ON THE CALENDAR

Under the authority of the order of the Senate of November 9, 1989, the following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 3628. An act to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes.

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 1727. An act to modify the boundaries of the Everglades National Park and to provide for the protection of lands, waters, and natural resources within the park, and for other purposes.

The Committee on Foreign Relations was discharged from the further consideration of the following bill, which was placed on the calendar:

H.R. 1495. An act to amend the Arms Control and Disarmament Act to authorize appropriations for the Arms Control and Disarmament Agency, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. KENNEDY, from the Committee on Labor and Human Resources, without amendment:

S. 1782. A bill to amend the Public Health Service Act to provide for the establishment of an AIDS treatment assistance program for low-income individuals, and for other purposes (Rept. No. 101-197).

By Mr. JOHNSTON, from the Committee on Energy and Natural Resources, with amendments:

S. 53. A bill to authorize the reformulation of the Cedar Bluff Unit of the Pick-Sloan Missouri Basin Program, Kansas, to provide for the amendment of water service and repayment contracts (Rept. 101-198).

S. 486. A bill to authorize the Secretary of the Interior to construct and test the Lake Meredith Salinity Control Project, New Mexico and Texas, and for other purposes (Rept. No. 101-199).

By Mr. JOHNSTON, from the Committee on Energy and Natural Resources, without amendment:

S. 1121. A bill to authorize additional appropriations for the construction of the Buffalo Bill Dam and Reservoir, Shoshone Project, Pick-Sloan Missouri Basin Program, Wyoming (Rept. No. 101-200).

S. 1275. A bill to authorize the Secretary of the Interior to construct, operate, and maintain a water treatment plant for the purpose of treating water discharged from the Leadville Mine Drainage Tunnel near Leadville, CO, in order to meet water quality standards, and for other purposes. (Rept. No. 101-201).

H.R. 1310. A bill to redesignate a certain portion of the George Washington Memorial Parkway as the "Clara Barton Parkway" (Rept. No. 101-202).

By Mr. INOUYE, From the Select Committee on Indian Affairs, with an amendment in the nature of a susbstitute.

S. 1783. A bill to regulate Indian child protection and prevent child abuse on Indian Reservations (Rept. No. 101-203).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. RIEGLE:

S. 1872. A bill to amend title II of the Social Security Act to provide for improvements in widow's and widower's insurance benefits; to the Committee on Finance.

By Mr. HATCH:

S. 1873. A bill to amend title 38, United States Code, to repeal the termination of the Veterans' Educational Assistance program and to extend the 10-year delimiting period for certain Vietnam veterans; to the Committee on Veterans' Affairs.

By Mr. HEINZ:

S.J. Res. 226. Joint resolution to designate the year 1990 as the "Bicentennial Anniversary of the Legacy of Benjamin Franklin"; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MITCHELL (for himself, Mr. DOLE, Mr. LEVIN, Mr. HELMS, Mr. SIMON, and Mr. WIRTH:)

S. Res. 207. Resolution welcoming the opening of the Berlin Wall and calling for its complete destruction; considered and agreed to.

By Mr. SYMMS:

S. Con. Res. 81. Concurrent resolution expressing the sense of the Congress that it should be the policy of the United States to encourage an acceleration of growth in selected Third World nations in order to create new markets for advanced-country products and services; to the Committee on Foreign Relations.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. RIEGLE:

S. 1872. A bill to amend title II of the Social Security Act to provide for improvements in widow's and widower's benefits; to the Committee on Finance.

SOCIAL SECURITY DISABLED WIDOW'S AND WIDOWER'S EQUITY ACT

● Mr. RIEGLE. Mr. President, I am pleased to introduce S. 1872, the Social Security Disabled Widow's and Widower's Equity Act of 1989. The bill amends title II of the Social Security Act to provide for improvements in the way widows and widowers (hereinafter referred to as widows) can qualify for benefits as disabled survivors of their spouses. Congressman JAMES L. OBERSTAR (D-Minn) has introduced parallel legislation in the House (H.R. 2731).

Disabled widows are treated less equitably than disabled workers under the eligibility requirements of the Social Security Act that stipulate two different standards for determining disability. Wage earners and SSI applicants just establish that medically determinable impairments are so severe as to preclude substantial gainful activity. If such an impairment exists but does not meet the listing of impairments published in Social Security regulations, the applicant's age, education, and work experience are also taken into consideration. This is not true for disabled widows whose eligibility is measured against the listings alone. This double standard would be eliminated by the passage of this bill.

Unlike disabled wage earners, disabled widows under age 65 receive reduced benefits and widows under age 50 do not qualify for disability benefits. Even though disabled widows lack earning power, they are unable to receive benefits before age 50, and, once they attain age 50, they receive reduced benefits. These inequities contribute largely to the impoverishment of disabled widows throughout the country. This bill will remove the existing age 50 requirement and eliminate the reduction in benefits for months before age 65.

Under current law, a widow can establish eligibility for widow's disability benefits only during the 7 years after the death of the worker or cessation of mother's benefits. The underlying presumption is that a widow who is neither caring for young children nor disabled is capable of self-support. Thus, she can enter the workforce and qualify for her own disabled worker's benefit before her protection as a widow expires. Benefits, however, can be totally inadequate if the widow has only a few years of experience in the work force. For this reason, my bill will eliminate the requirement that the disabling condition must occur within 7 years of the worker's death or cessation of mother's benefits.

Mr. President, I intend to work vigorously for the passage of this bill which will eliminate the inequities currently facing widows who become disabled and seek Social Security benefits based on the earnings of a deceased spouse.●

By Mr. HATCH:

S. 1873. A bill to amend title 38, United States Code, to repeal the termination of the Veterans' Educational Assistance Program and to extend the 10-year delimiting period for certain Vietnam veterans; to the Committee on Veterans' Affairs.

CONTINUATION OF VETERANS' EDUCATIONAL ASSISTANCE PROGRAM

Mr. HATCH. Mr. President, I rise today, recognizing the proximity of Veterans Day, to introduce a bill that I feel will give veterans the education benefits they deserve.

This bill would ensure that all veterans eligible to receive educational assistance under the Veterans' Educational Assistance Program have 10 years after discharge or release from active duty in which to pursue a program of education with such assistance. It also provides 1 day of additional assistance for every day veterans served in the Vietnam Theater of Combat Operations.

According to a survey I requested, based on a model sample of veterans at Weber State College in Utah, Vietnam-era veterans entered the military with the understanding that the educational benefits granted under the Veterans' Educational Assistance Program would be available upon their discharge. With the December 31, 1989, termination date quickly approaching, these benefits will no longer be available to many who chose to prolong their service in the U.S. Armed Forces.

The Department of Veterans Affairs estimated that approximately 1 million veterans will have some remaining months of eligibility after the December 31, 1989, cutoff date. I am therefore providing the opportunity for veterans to receive the educational benefits they deserve and that were promised to them when they entered military service.

The Montgomery GI bill is a plan that generously and fairly rewards veterans for their service to our country, but it seems to overlook many who chose to stay in the service and are therefore not eligible for full education assistance under either program. I am merely asking that those transitory veterans who have earned the opportunity to pursue an education and become a productive member of the Nation's work force, have the chance to do so. Those who remained in the military after the Vietnam era should not be penalized by being denied a full 10 years following discharge to use their benefits. When they entered the service, these veterans were promised 45 months of educational benefits, and I feel it is our obligation to keep that promise.

Education assistance was originally intended to facilitate the transition from military service to civilian life and to aid veterans whose careers were interrupted or hindered because of their military service. Studies show that while many veterans have successfully adjusted to civilian life, there are many others who continue to struggle with readapation problems.

Many, including the Department of Veterans Affairs, may argue that extending the delimiting period is not consistent with the readjustment intent of the program. But, by studying the National Vietnam Veterans Readjustment Study conducted by Research Triangle Institute [RTI] in 1988, one will find that a substantial number of both men and women who served in the Vietnam theater of operations have experienced at least one serious readjustment problem after returning to civilian life, and a majority of these veterans continue to experience at least one such problem. Those who most literally fought the war—theater veterans exposed to high levels of war zone stress—were significantly more prone to these problems.

I am introducing this measure to extend assistance to veterans because of the great readjustment problems they face throughout their lives. According to the RTI study, differences of educational attainment exist, compared to that of civilians; there were also discrepancies of educational attainment between Vietnam theater veterans and Vietnam-era veterans. It was found that men exposed to high

war stress were less educated than those exposed to lower levels. It is for this reason that I want to provide additional assistance to those who defended our country in theater combat.

Contrasts between civilians and Vietnam theater veterans of various backgrounds abound, not only on education but also on employment status and occupational instability. Among males overall, theater veterans were marginally less educated than civilians, and those veterans exposed to high war stress were significantly less educated, according to the RTI study.

Male theater veterans and veterans exposed to high war stress also tend to have a work history characterized by occupational instability more often than civilians. For example, theater veteran men experiencing high war stress were almost twice as likely as their civilian counterparts to score at the highest level of occupational instability—25.3 percent versus 14.2 percent. Vietnam theater veterans exposed to high levels of war stress have higher rates of posttraumatic stress disorder [PTSD] than other Vietnam veterans, and both men and women with PTSD were more likely to report work histories characterized by instability than those without this disorder. Among males, those with PTSD had acquired less education and were more likely to be unemployed than civilians, and were also more than twice as likely (42.2 percent versus 19.1 percent) to report high levels of occupational instability. Females with PTSD were more than four times as likely (21.8 percent versus 5.6 percent) to report high levels of occupational instability. In addition, male theater veterans with PTSD were more than 5 times more likely to be unemployed (13.3 percent versus 2.5 percent). Because of relatively high unemployment, especially among younger Vietnam veterans, there is a special need now for education and training assitance that we cannot afford to overlook.

The Department of Veterans Affairs has provided me with the approximate total numbers of veterans eligible for education benefits under chapter 34 of title 38, United States Code, the group comprising those veterans who would qualify for this extended entitlement. The DVA estimated: fiscal year 1990, 108,600; fiscal year 1991, 61,800; fiscal year 1992, 43,400; fiscal year 1993, 32,200; fiscal year 1994, 24,000. The DVA also estimated that this extended program would cost approximately $574 million in benefits, and $9 million in administrative costs.

Many may argue that this is too costly. But they are ignoring the promise that was made to these people when they joined, and the many advantages that the United States enjoys as a result of these veterans' devoted service. Our Nation will further benefit as our competitiveness is increased by a more educated and productive work force. We owe it to these devoted veterans to ensure their continued education assistance, so that they can receive the education they deserve. Many veterans are juggling full-time or part-time jobs and family responsibilities, and 10 years are needed for them to complete their degree requirements. These veterans are entitled to 45 months of education benefits and they should be given 10 years from their date of discharge in which to use this assistance.

I urge my colleagues to support this bill and give those who so ably defended our country the opportunity for education that they deserve.

By Mr. HEINZ:

S.J. Res. 226. Joint resolution to designate the year 1990 as the "Bicentennial Anniversary of the Legacy of Benjamin Franklin"; to the Committee on the Judiciary.

BICENTENNIAL ANNIVERSARY OF THE LEGACY OF BENJAMIN FRANKLIN

● Mr. HEINZ. Mr. President, I rise today to introduce legislation that celebrates the bicentennial anniversary of a great Pennsylvanian, American, and world leader—Benjamin Franklin. Deceased in 1790, after 84 years of service to his country and the world, Benjamin Franklin bequeathed to all mankind a legacy of achievement unmatched in its scope or importance. Benjamin Franklin, considered by many as the original American, was known as the "first citizen of the world" and hailed as a man of unlimited dimension. As a printer, publisher, diplomat, public servant, scientist, businessman, philosopher, philanthropist, healthcare pioneer, and achieving senior citizen, Franklin left a legacy and a philosophy that continues to profoundly influence our lives today.

The establishment of our Nation was made possible by the Founding Fathers, among whom Benjamin Franklin was the senior member. By pledging his life, his fortune, and his sacred honor in the cause of freedom and liberty, Franklin epitomized the spirit that guided our young Nation to independence.

Born in Boston in 1706 and apprenticed as a printer to his brother, Franklin learned quickly the power of the written word and its ability to influence public opinion. At 17 he made his home in Philadelphia where he established himself as the Nation's foremost printer and publisher. During his career, Franklin published seven English language newspapers, and his Pennsylvania Gazette, the most widely circulated newspaper in America, championed the cause of liberty. Franklin also published the first foreign language newspaper, the first political cartoon, and the first novel in America.

Elected to the Pennsylvania assembly in 1750, Franklin was to be active in politics for the next 38 years. He was selected as Speaker and agent to Parliament. The highlight of his 14 years in England was his convincing argument before the House of Commons to repeal the Stamp Act. Franklin was also the Deputy Postmaster General of North America and was later appointed by Congress as the first Postmaster General of America.

Benjamin Franklin played a significant role in the founding of the United States through his work as a delegate to the Second Continental Congress, which voted independence in 1776. Benjamin Franklin was our first diplomat and through his earnest efforts secured recognition of our infant Republic by France. He gained men, ships and money to help in pursuit of our war of independence. It was due to his patience and skill that we achieved a treaty of peace with Great Britain in 1788.

Elected President of Pennsylvania, Franklin not only served as chief executive of his State but was also drafted to represent it in the Constitutional Convention convened to revise the Articles of Federation—our first charter. It was his wit and wisdom that kept the Framers of our Constitution at work during the hot summer of 1787, and his spirit and dedication that enabled 13 separate colonies to become one nation.

Benjamin Franklin, the citizen, played an active role in the betterment of his city and the world. He established the first subscription library and the first mutual insurance company, the University of Pennsylvania and the first hospital in America.

As a scientist, Benjamin Franklin is held in the highest esteem throughout the world. He invented the lightning rod, the electric storage battery and his book on electricity was in great demand throughout the world. He invented a smokeless fireplace, a woodburning stove and a copying machine. Franklin was the first to explain the Gulf Stream, to study communication between insects, to experiment with gypsum as a fertilizer, and the need to rotate crops to improve fertility of soils.

At the time of his death in 1790, Benjamin Franklin received many tributes, perhaps none more eloquent than that of French Finance Minister, Baron Turgot who in praising Franklin said, "he snatched the lightning from the sky and the scepter from the tyrants."

In 1990, we celebrate the 200th anniversary of Benjamin Franklin's legacy of genius. By recognizing the vital contributions that Franklin made to the fabric of American society and by honoring him for his many scientific, economic, and cultural achievements, we

can encourage all Americans to follow in Franklin's footsteps, be it in public service, industry, science, or the arts.●

ADDITIONAL COSPONSORS

S. 16

At the request of Mr. CRANSTON, the name of the Senator from Arizona [Mr. DECONCINI] was added as a cosponsor of S. 16, a bill to require the executive branch to gather and disseminate information regarding, and to promote techniques to eliminate, discriminatory wage-setting practices and discriminatory wage disparities which are based on sex, race, or national origin.

S. 110

At the request of Mr. KENNEDY, the name of the Senator from Maryland [Mr. SARBANES] was added as a cosponsor of S. 110, a bill to revise and extend the programs of assistance under title X of the Public Health Service Act.

S. 135

At the request of Mr. GLENN, the name of the Senator from Arkansas [Mr. BUMPERS] was added as a cosponsor of S. 135, a bill to amend title 5, United States Code, to restore to Federal civilian employees their right to participate voluntarily, as private citizens, in the political processes of the Nation, to protect such employees from improper political solicitations, and for other purposes.

S. 137

At the request of Mr. BOREN, the name of the Senator from Illinois [Mr. DIXON] was added as a cosponsor of S. 137, a bill to amend the Federal Election Campaign Act of 1971 to provide for a voluntary system of spending limits and partial public financing of Senate general election campaigns, to limit contributions by multicandidate political committees, and for other purposes.

S. 435

At the request of Mr. REID, the name of the Senator from California [Mr. WILSON] was added as a cosponsor of S. 435, a bill to amend section 118 of the Internal Revenue Code to provide for certain exceptions from certain rules determining contributions in aid of construction.

S. 720

At the request of Mr. BOREN, the name of the Senator from Tennessee [Mr. GORE] was added as a cosponsor of S. 720, a bill to amend the Internal Revenue Code of 1986 to extend and modify the targeted jobs credit, and for other purposes.

S. 734

At the request of Mr. REID, the name of the Senator from Idaho [Mr. MCCLURE] was added as a cosponsor of S. 734, a bill to authorize and direct the General Accounting Office to audit the Federal Reserve Board, the Federal Advisory Council, the Federal Open Market Committee, and Federal Banks and their branches.

S. 1041

At the request of Mr. CONRAD, the name of the Senator from Idaho [Mr. SYMMS] was added as a cosponsor of S. 1041, a bill to amend the Internal Revenue Code of 1986 to provide tax relief for farmers who realize capital gain on the transfer of farm property to satisfy an indebtedness, and for other purposes.

S. 1310

At the request of Mr. SIMON, the name of the Senator from Maryland [Mr. SARBANES] was added as a cosponsor of S. 1310, a bill to eliminate illiteracy by the year 2000, to strengthen and coordinate literacy programs, and for other purposes.

S. 1582

At the request of Mr. SIMON, the name of the Senator from Alaska [Mr. MURKOWSKI] was added as a cosponsor of S. 1582, a bill to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland.

S. 1676

At the request of Mr. PELL, the name of the Senator from Michigan [Mr. LEVIN] was added as a cosponsor of S. 1676, a bill to strengthen the teaching profession, and for other purposes.

S. 1815

At the request of Mr. BOSCHWITZ, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 1815, a bill to amend the Internal Revenue Code of 1986 to exclude the imposition of employer Social Security taxes on cash tips.

SENATE JOINT RESOLUTION 214

At the request of Mr. THURMOND, the name of the Senator from North Carolina [Mr. HELMS] was added as a cosponsor of Senate Joint Resolution 214, a joint resolution to express the sense of the Congress regarding the removal of offensive sexual material from television broadcasting.

SENATE JOINT RESOLUTION 218

At the request of Mr. INOUYE, the names of the Senator from Utah [Mr. HATCH], and the Senator from Kansas [Mrs. KASSEBAUM] were added as cosponsors of Senate Joint Resolution 218, a joint resolution to designate the week of December 3, 1989, through December 9, 1989, as "National American Heritage Week."

SENATE CONCURRENT RESOLUTION 81—RELATING TO PRIVATE DIRECT INVESTMENT IN THE THIRD WORLD

Mr. SYMMS submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 81

Whereas the creation of new employment worldwide is increasingly needed to maintain stability as populations expand;

Whereas such job growth in the Third World would open vital new markets for the products and services of the advanced nations;

Whereas neither welfare-type aid nor the mere reduction of developing-country debt can, in itself, provide the basis for growth of the economies of those countries;

Whereas private direct investment is the principal way to bring about growth in the developing nations; and

Whereas private companies can be encouraged to seek opportunities in the Third World and fugitive capital can be induced to return home if it is made clear that the industrialized nations are united in a consistent policy of facilitating development: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that—

(1) the United states should make known and urge the other member nations of the Organization for Economic Cooperation and Development (OECD) to agree to pursue policies of growth-oriented assistance to such developing nations as may be deemed likely to show important expansion if certain circumstances are created;

(2) the United States should urge its OECD partners to meet, discuss, and adopt such measures of encouragement as may be necessary and practical;

(3) the United States should urge the other advanced nations to join with the United States in giving new positive signs of accepting importation of Third World products into their economies;

(4) the United States should ask the other advanced nations to encourage private direct investment in the Third World by their citizens;

(5) the United States should make it a condition of the actions in this concurrent resolution that only those selected Third World nations that give definite promises of full cooperation in this joint effort are to become partners in the program; and

(6) such cooperation should include "national treatment" for private direct investors, an undertaking to keep any protection of new industries as small and as brief as possible, and an agreement to listen attentively to advice of the OECD in the selection of new industrial or commercial projects, in the general management of the Third World nation's economy, and in the reassessment of its comparative advantages.

Mr. SYMMS. Mr. President, I would like to offer a resolution to express the sense of the Congress strongly in favor of private direct investment in the Third World as a means of assuring our own economic growth and security.

The program would create employment and purchasing power where there is very little today. It would create jobs and tax revenues here and among our allies. And unlike the periodic efforts to get a brief economic lift by urging Germany or Japan to speed up their consumption, this would encourage expansion and stability for the 1990's and many decades beyond.

Over a 5-year period, my friend, Charles A. Cerami, and a remarkable

team of leaders from around the world have studied the real bottom line of the future of our economy: employment. Most of the world, whether advanced or less developed, suffers from a shortage of jobs. This is worsening. Experts estimate that 100 million new jobs a year are needed worldwide to prevent a spreading and worsening of the violence we have seen in many places. But as technology and robotics eliminate a lot of human employment, hardly any net new jobs are created.

Because U.S. unemployment is low at this time, we don't realize how fast our own job picture could change if all our foreign markets suffer a decline in personal buying power.

The time to head this off is now, not in a time of crisis, Cerami and his colleagues say in a book recently published by Praeger Publishers in New York and London. The book is titled, "An International Roundtable on World Economic Development," and I consider it a landmark because the 16 world leaders who have put their thoughts into it are willing to act on their words.

There are important chapters by our distinguished colleague, Senator BILL ROTH of Delaware, and our former colleague, Jack Kemp, now an outstanding member of President Bush's Cabinet. Also in it are two European foreign ministers, the secretaries general of two world organizations, Germany's present Ambassador to Washington, our former Secretary of Agriculture Jack Block, former Commerce Under Secretary Lionel Olmer, and Dr. Francisco Aguirre, publisher of one of our great Spanish-language newspapers, Diario Las Americas.

Everybody who has contributed to this book has spoken out plainly, without any cautious rhetoric. The Senator from Delaware, BILL ROTH, for instance, just about said it all in these words:

We have to get more countries on their feet, because you can't make much money selling to poor people.

Just to have gathered and managed this symposium of brilliant personalities is a remarkable achievement for a private citizen. To have coordinated their views so that a coherent plan emerges, despite their differences, Charles Cerami's organizing efforts are reminiscent of Jean Monnet's work in crafting the European Community.

There are a number of powerful points that all these leaders—and all of us—agree on:

That the steady expansion of investment into new areas is important to our future.

That our governmental policies to encourage those investments must be steady enough to give businessmen the confidence to plan and act.

That investment and development are fields in which we have a massive advantage over the Soviets, and we should use it to build security.

And that developing nations wishing to take part in the growth program must bear their share of responsibility. Some of their economic systems need overhauling. They, too, must make changes. They, too, must give our Government confidence.

And, Mr. President, that brings me to a new point: One new thing out there is the Third World itself. Not all, but substantial parts of it.

Many developing nations are willing to do much of what we are suggesting, Cerami and his group assure me. Some Latin American nations that had once considered our direct investments repugnant to their dignity now insist that partnership is the way they want to develop. Many of Africa's top officials have become mature and sophisticated leaders in a surprisingly short time after their independence. They no longer talk of being repaid for their hard past, but of looking ahead to a partnership in which our companies must be guaranteed fair treatment equal to their own nationals.

I think we are coming to the moment when all this will be apparent to the business leaders and voters of the United States, Canada, Europe—all the industrialized countries. The whole OECD group of advanced nations should be urged to take part. For the meshing of our present abilities and the Third World's potential can be a marriage made in heaven.

This sense of the Senate resolution is not about foreign aid. It is about hardheaded investment and growth. Nothing in Cerami's plan will require huge government outlays or any great new bureaucracy. The institutions are already in place. All we need is to give the clear signal that tells business to start. The leader of some advanced country is going to do it. I hope it will be ours. Then what a decade the 1990's can become.

SENATE RESOLUTION 207—WELCOMING THE OPENING OF THE BERLIN WALL AND CALLING FOR ITS COMPLETE DESTRUCTION

Mr. MITCHELL (for himself, Mr. DOLE, Mr. LEVIN, Mr. HELMS, Mr. SIMON, and Mr. WIRTH) submitted the following resolution; which was considered and agreed to:

S. RES. 207

Whereas, since the end of World War II, the United States and the Western allies have been committed to a free Berlin;

Whereas the Berlin airlift, which symbolized that commitment, successfully ended the Soviet blockade of Berlin in 1949;

Whereas the Berlin Wall was created to blockade the eastern half of Berlin and has stood as a symbol of oppression and denial of basic human freedom for 28 years;

Whereas the people of Berlin have struggled heroically against this artificial division of their city, and numerous East Berliners lost their lives while attempting to escape their section of the city;

Whereas free travel between East and West Berlin was permitted beginning on November 9, 1989, and now the Berlin Wall has been opened in several places; and

Whereas at least two million East Germans have crossed to West Berlin during the first few days that the Wall has been opened: Now, therefore, be it

Resolved, That the Senate—

(1) welcomes the opening of the Berlin Wall as symbolic of the beginning of the process of reform taking place in the German Democratic Republic (East Germany) and throughout Eastern Europe;

(2) commends the people of Berlin for their desire for freedom, their courage and dignity, and their role in bringing about the opening of the Wall;

(3) urges the Government of the German Democratic Republic (East Germany) to make permanent the freedom to travel, to permit the formation of political parties, and to hold free elections; and

(4) calls upon the Soviet and East German authorities to remove and destroy the Berlin Wall.

AMENDMENTS SUBMITTED

NATIONAL AFFORDABLE HOUSING ACT

WIRTH (AND HEINZ) AMENDMENT NO. 1107

(Ordered referred to the Committee on Banking, Housing, and Urban Affairs.)

Mr. WIRTH (for himself and Mr. HEINZ) submitted an amendment intended to be proposed by them to the bill (S. 566) to authorize a new corporation to support State and local strategies for achieving more affordable housing, to increase home ownership, and for other purposes; as follows:

On page 16, between lines 9 and 10, insert the following:

(3) providing for expaned homeownership opportunities by creating mortgage finance incentives that encourage energy-efficient homes.

On page 21, after line 26, insert the following:

SEC. 203. UNIFORM ENERGY EFFICIENT MORTGAGE POLICY.

The Secretary of Housing and Urban Development, in consultation with the Secretary of Energy, shall within two years of the passage of the National Affordable Housing Act (NAHA), promulgate a uniform plan to make housing more affordable through mortgage financing incentives for energy efficiency. To develop this plan, the Secretary shall form a task force to make recommendations on financing energy efficiency in private mortgages, through the policies of federal agencies and federally chartered institutions. The task force shall include federal home mortgage insurance and guarantor agencies, federally chartered financial institutions, mortgage bankers, homebuilders, real estate brokers, private mortgage insurers, energy suppliers, and nonprofit housing and energy organizations.

29-059 O-90-19 (Pt. 20)

On page 30, between lines 14 and 15, insert the following:

(F) (if newly constructed) meets energy efficiency standards determined by the Secretary; the Secretary shall within one year of the passage of this Act promulgate new energy efficiency standards for all federally assisted housing. These standards shall meet or exceed the provisions of the Model Energy Code of the Council of American Building Officials. To develop these standards, the Secretary shall create a task force composed of homebuilders, National, state and local housing agencies including public housing authorities, building code officials, energy efficiency organizations, utility organizations, low-income housing organizations, and other parties designated by the Secretary."

On page 32, after line 23, insert the following:

(5) (if newly constructed) meets energy efficiency standards determined by the Secretary; the Secretary shall within one year of the passage of this Act promulgate new energy efficiency standards for all federally assisted housing. These standards shall meet or exceed the provisions of the Model Energy Code of the Council of American Building Officials. To develop these standards, the Secretary shall create a Task Force composed of homebuilders, national, state and local housing agencies including public housing authorities, building code officials, energy efficiency organizations, utility organizations, low-income housing organizations, and other parties designated by the Secretary.

On page 59, between lines 3 and 4, insert the following:

(7) improve the ability of States, units of local government, nonprofit community housing development organizations, private lenders and for-profit developers of low-income housing to incorporate energy efficiency into the planning, design, financing, construction, and operation of affordable housing.

On page 60, line 17, between "supply of" and "affordable" insert the following: "energy-efficient,".

On page 123, line 9, following "special project account.", insert the following: "Owners who add energy efficiency features beyond minimum standards that reduce gross rent requirements shall be entitled to retain 75 percent of the savings.".

On page 151, line 11, following "special project account.", insert the following: "Owners who add energy efficiency features beyond minimum standards that reduce gross rent requirements shall be entitled to retain 75 percent of the savings.".

On page 197, between lines 17 and 18, insert the following:

(6) to reduce the cost of operating assistance to public and Indian housing by improving the energy efficiency of the housing stock."

On page 199, between lines 22 and 23, insert the following:

(iv) meet energy efficiency standards determined by the Secretary; the Secretary shall within one year of the passage of this Act promulgate new energy efficiency standards for all federally assisted housing. These standards shall meet or exceed the provisions of the Model Energy Code of the Council of American Building Officials. To develop these standards, and to ensure their incorporation in federally assisted housing, the Secretary shall create a task force composed of national, state and local housing agencies including public housing authorities, building code officials, energy efficiency organizations, utility organizations, low-income housing organizations, and other parties designated by the Secretary.

On page 204, between lines 16 and 17, insert the following:

(C) The Secretary of Housing and Urban Development shall reduce energy costs in public housing authorities by accelerating the implementation of HUD policies encouraging use of private energy service companies, pursuant to Section 118(a) of the Housing and Community Development Act of 1987. This shall be accomplished by providing technical assistance to local housing authorities, and by creating five projects that demonstrate the energy cost reduction opportunities for public housing authorities through energy services contracts. These demonstration projects shall be established within one year of the passage of this Act. The results of the demonstration projects shall be disseminated to other public housing authorities. The Secretary shall, within 90 days of the passage of this Act, form a task force composed of HUD staff and outside housing and energy efficiency organizations, charged with carrying out this initiative.

● Mr. WIRTH. Mr. President, making housing more affordable and cleaning up the environment are top priorities for the Nation. I believe that energy efficiency can and must be part of the solution to both of these issues. In short, I believe that good energy policy can be good housing policy, good environmental policy, and good economic policy.

Despite our tremendous wealth, the United States is beset by the shame of homelessness and high housing costs are squeezing young people from the marketplace and from a piece of the American dream. But because energy costs are a major portion of the monthly housing bill, reducing these costs can make housing more affordable. Research indicates that after rent and mortgage payments, energy represents 20 percent of the cost of housing. And the energy we waste results in unnecessary fossil fuel combustion—the driving force behind local air pollution and the global warming threat.

If we can reduce the cost of providing energy services in the housing sector, we can make housing more affordable and help cut atmospheric pollution.

In addition, cost-effective energy efficiency measures can cut our national housing bill by $25 billion annually. The Alliance to Save Energy estimates that these steps could allow 250,000 families to become homeowners for the first time and that another 2 million people—mostly low-income renters—could pay their monthly housing bill. In the process, we can save the equivalent of 400 million barrels of oil.

For many years, the alliance has been working with the home builders, the Mortgage Bankers Association, the realtors, the insulation industry and a variety of other energy concerns to craft an ambitious, but practical, set of policy proposals that will allow us to realize the benefits of energy efficiency in the housing sector. I believe these amendments will draw all parties, the private sector, public housing authorities, HUD and the mortgage lending institutions, into a joint effort to improve housing affordability and prevent wasteful energy use and unnecessary pollution.

Affordable housing and energy efficiency are now at the forefront of the public policy agenda. Affordable housing is a national crisis: the shame of homelessness and the squeeze on home ownership remain realities despite this Nation's tremendous wealth. Today, many of our children are finding it difficult to own a home—even with two incomes. Young people that are able to afford their first home, must buy them further and further away from the urban centers and the workplace.

Energy efficiency is also a pressing issue—for our energy security, our international competitiveness and for the environmental crisis that is unfolding around the world. It is now clear that the Earth's atmosphere cannot benignly absorb the increasing levels of carbon dioxide released by man's burning of fossil fuels. From acid rain to global warming, we have come to understand that energy policy is the essential component of environmental policy. Indeed, environmental policy is driving energy policy and will continue to do so for the foreseeable future.

The ingredients of an energy efficient home are well known and commercially available: better insulation, radiant barriers, more efficient heat pumps, and high efficiency appliances. Unfortunately, these features are not being built into many of today's homes. High initial costs and the failure of mortgage insurance procedures to account for energy efficiency are the primary impediments. And that is why we need to incorporate energy efficient measures into our national housing policy.●

ASSISTANCE TO POLAND

HUMPHREY (AND HELMS) AMENDMENT NO. 1108

Mr. HUMPHREY (for himself and Mr. HELMS) proposed an amendment to the bill (S. 1582) to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland, as follows:

At the end of the committee substitute, add the following new section:

SEC. . CERTAIN USES OF EXCESS FOREIGN CURRENCIES.

(a) AUTHORITY TO USE.—During fiscal year 1990, the Administrator for title I of the

Foreign Assistance Act of 1961 may use, for the purposes described in subsection (b), such sums of foreign currencies described in subsection (c) as the Administrator may determine.

(b) PURPOSES FOR WHICH CURRENCY MAY BE USED.—Foreign currencies may be used under this section—

(1) for the same purposes for which assistance may be provided under title I of the Foreign Assistance Act of 1961, and

(2) for the support of any institution providing education for a significant number of United States nationals (who may include members of the United States Armed Forces or the Foreign Service or dependents of such members.)

(c) CURRENCIES WHICH MAY BE USED.—The foreign currencies which may be used under this section are United States-owned excess foreign currencies that are in excess of amounts necessary for satisfaction of preexisting commitments to use such currencies for other purposes specified by law.

(d) WHERE CURRENCIES MAY BE USED.—Foreign currencies may be used under this section in the country where such currencies are held or in other foreign countries.

(e) NONAPPLICABILITY OF OTHER PROVISIONS OF LAW.—Foreign currencies may be used under this section notwithstanding section 1306 of title 31, United States Code, or any other provision of law.

(f) LIMITATION.—Foreign currency made available under this section may not be used in any Communist country listed pursuant to section 4201(d).

HUMPHREY (AND OTHERS) AMENDMENT NO. 1109

Mr. HUMPHREY (for himself, Mr. SIMON, Mr. HELMS, and Mr. DOLE) proposed an amendment to the bill S. 1582, supra, as follows:

In the committee substitute, strike section 803 and insert in lieu thereof the following:

SEC. 803. CESSATION OF AID.

(a) Funds provided under this act shall cease to be available to Poland if the President of Poland, or any other Polish official, initiates martial law or a state of emergency for reasons other than necessary to respond to a natural disaster or a foreign invasion or of any member of the Senate a Sejm is removed from office or arrested through extra constitutional processes.

(b) Funds provided under this act for Hungary shall cease to be available if the President of Hungary, or any Hungarian official, initiates martial law or a state of emergency for reasons other than necessary to respond to a natural disaster or a foreign invasion, or of any member of the Hungarian National Assembly is removed from office or arrested through extra constitutional processes.

BENTSEN (AND SIMON) AMENDMENT NO. 1110

Mr. SIMON (for Mr. BENTSEN, for himself and Mr. SIMON) proposed an amendment to the bill S. 1582, supra, as follows:

On page 25, beginning with line 18, strike out all through line 22, and insert the following:

ELIGIBILITY OF POLAND FOR GENERALIZED SYSTEM OF PREFERENCES

SEC. 311. Subsection (b) of section 502 of the Trade Act of 1974 (19 U.S.C. 2462(b)) is amended by striking out "Poland" in the table within such subsection.

McCONNELL AMENDMENT NO. 1111

Mr. McCONNELL proposed an amendment to the bill S. 1582, supra, as follows:

At the end of the committee substitute:

The Secretary of Commerce and the Secretary of Energy shall establish a task force to analyze the current supply and demand situation of coal in the Soviet Union. The analysis will include, but not be limited to:

the causes of labor unrest in the Soviet coal industry and the impact of that unrest, of mining productivity, and of the transportation system in the Soviet Union on domestic coal production in that country;

the impact of increased industrialization and winter weather on Soviet coal demand;

the likelihood of a shortfall between domestic supply and demand;

the feasibility of meeting any shortfall which might occur with United States coal;

the feasibility of coal from other countries meeting any shortfall which might occur; and

steps which must be taken to enable United States coal to compete with other countries to meet any shortfall which might occur.

The task force shall report their findings to Congress within 45 days of enactment of this Act.

KERRY AMENDMENT NO. 1112

Mr. KERRY proposed an amendment to the bill S. 1582, supra, as follows:

On page 8, line 23, insert "and environmentally sound natural resource management" after "principles".

On page 35, between 12 and 13, insert the following:

(a) PRIORITY FOR THE CONTROL OF POLLUTION.—The Congress recognizes the severe pollution problems affecting Poland and Hungary and the serious health problems which ensue from such pollution. The Congress therefore directs that a high priority be given in the implementation of assistance to Poland and Hungary to the control of pollution and the restoration of the natural resource base on which a sustainable, healthy economy depends.

On page 35, line 13, strike out "(a)" and insert in lieu thereof "(b)".

On page 36, line 1, strike out "(b)" and insert in lieu thereof "(c)".

On page 36, line 9, strike out "(c)" and insert in lieu thereof "(d)".

On page 36, line 16, strike out "(d)" and insert in lieu thereof "(e)".

On page 36, line 17, strike out "(a), (b), and (c)" and insert in lieu thereof "(b), (c), and (d)".

On page 36, line 22, strike out "(e)" and insert in lieu thereof "(f)".

On page 38, lines 13 and 14 insert the following:

(g) DEPARTMENT OF ENERGY ACTIVITIES.—

PRIORITY FOR EFFICIENT ENERGY USE.—In view of the high energy usage per unit of output in Hungary and Poland, the Secretary of Energy shall give high priority to assisting officials of Poland and Hungary in improving the efficiency of their energy use, through emphasis on such measures as efficient motors, lights, gears, and appliances and improvements in building insulation and design.

(h) ALTERNATIVE INVESTMENTS IN ENERGY.—It is the sense of the Congress that the Administration should work with the Government of Hungary to achieve environmentally safe alternative investments in energy efficiency, particularly with regard to projects along the Danube River.

SYMMS AMENDMENT NO. 1113

Mr. HELMS (for Mr. SYMMS) proposes an amendment to the bill S. 1582, supra, as follows:

At the appropriate place, add the following: "Funds provided through the Polish-American Enterprise Fund and the Hungarian-American Enterprise Fund may be used for the establishment of Employee Stock Ownership Plans (ESOP's).".

DOLE (AND SIMON) AMENDMENT NO. 1114

Mr. DOLE (for himself and Mr. SIMON) proposes an amendment to the bill S. 1582, supra, as follows:

On page 7, after line 2, insert the following new section:

SEC. 4. OBJECTIVES OF UNITED STATES ASSISTANCE.—In order to ensure that United States assistance to Poland and Hungary supports the development of economic freedom and opportunities for the people of those countries, the objectives of the United States assistance to Poland and Hungary shall be the realization of the following rights by the citizens of Poland and Hungary:

(1) SECURITY OF PROPERTY AND CONTRACT.—The right to legally acquire private property in all its forms, including secure legal title to land.

(2) A REGULATORY SYSTEM WHICH FACILITITATES ENTREPRENEURIAL ACTIVITY.—Freedom from onerous regulations which have forced economic and entrepreneurial activity into the informal, or unregistered, economy should be eliminated.

(3) DISMANTLING OF WAGE AND PRICE CONTROLS.—A market for Polish and Hungarian industries and goods that is not distorted by government-mandated wages or prices.

(4) AN OPEN TRADE POLICY.—Freedom from market-distorting restrictions or subsidies on imports and exports.

(5) LIBERALIZATION OF INVESTMENT AND CAPITAL FLOWS.—Freedom from limitations on ownership of productive enterprises by both domestic and foreign investors, as well as freedom from restrictions on removal of foreign or domestic capital from Poland and Hungary.

(6) PRIVATIZATION OF THE STATE SECTOR.—The ignition of activity by Polish and Hungarian investors and entrepreneurs should be facilitated through the privatization of government enterprises.

(7) PRO-GROWTH TAX POLICY.—Encourage pro-growth tax policies which provide incentives for economic activity and investment.

(8) DEVELOPMENT OF A PRIVATE BANKING STRUCTURE.—Secure rights to own and operate banks and other financial service firms, as well as unrestricted access to private sources of credit.

(9) INDIVIDUAL INVESTMENT IN THE PRIVATE SECTOR.—Access to financial instruments through which individuals may invest in the private sector, and

On page 13, at line 15, strike "$320,000,000" and insert in lieu thereof "$260,000,000" and

On page 13, at line 18, strike "$80,000,000" and insert in lieu thereof "$65,000,000" and

At the end of section 201, add the following new paragraph:

"( ) INELIGIBILITY OF CERTAIN ENTITIES.—Neither the Polish-American Enterprise Fund, the Hungarian-American Enterprise Fund, nor the Overseas Private Investment Corporation shall finance or include in any of its programs any venture, project or enterprise which:

(1) has, individually or in combination, more than 20 percent of ownership, control, or equitable interest by the Polish or Hungarian government, the communist party of Poland or Hungary, or any entity controlled by the Polish or Hungarian government or the communist party of Poland or Hungary, or high officials thereof;

(2) has a Board of Directors more than 20 percent of whom are high officials of the respective governments or communist parties of Poland or Hungary;

(3) has been established by any organization or entity controlled by the Polish or Hungarian government or the communist party of Poland or Hungary;

(4) is required to accede to the rules of the Council for Mutual Economic Assistance." and

On page 20, at line 1, after "(1)", strike "Accept" and insert in lieu thereof "Solicit and accept" and

On page 20, at line 13, after "(2)", strike "Accept" and insert in lieu thereof "Solicit and accept" and

On page 20, at line 15, strike "." and insert in lieu thereof the following new language:

", provided that a volunteer under this authority shall not be deemed to be an employee of the United States except for the purposes of—

(A) the tort claims provisions of title 28, United States Code, and

(b) subchapter I of chapter 81 of title 5, United States Code, relating to compensation for work injuries." and

On page 27, at line 7, strike Section 304 in its entirety and

On page 34 at line 20, add the following new section:

"SEC. 403. EDUCATIONAL AND CULTURAL EXCHANGES.

(a) OBJECTIVE.—It is the sense of the Congress that the President should—

(1) encourage privately administered educational and cultural exchanges between the people of the United States and the people of Poland and the people of the United States and the people of Hungary; and

(2) consider the establishment of reciprocal cultural centers in Poland and the United States and in Hungary and the United States to facilitate government and privately funded cultural exchanges.

(b) AUTHORIZATION OF EXCHANGES.—Of the amounts authorized for educational and cultural exchanges administered by the United States Information Agency, not to exceed $2,000,000 in fiscal year 1990 and not to exceed $4,000,000 in fiscal year 1991 shall be available for activities in Poland and Hungary." and

On page 34, at line 22, strike Section 501 in its entirety and insert in lieu thereof the following new section:

"SEC. 501. ASSISTANCE IN SUPPORT OF DEMOCRATIC INSTITUTIONS AND ACTIVITIES IN POLAND AND HUNGARY.

(a) AUTHORIZATION OF ASSISTANCE.—Notwithstanding any other provision of law, there are authorized to be appropriated to carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the economic support fund) $12,000,000 for the three-year period which began October 1, 1989, which shall be available only for the support of democratic institutions and activities in Poland and Hungary, of which:

(1) $2,000,000 shall be available in each such fiscal year only for the unconditional support of activities and institutions in Poland, which institutions shall

(A) include all major non-communist political and social formations;

(B) not include among its membership any member of the Polish United Workers Party (or its equivalent, under whatever name the communist party of Poland may be known); and

(2) $2,000,000 shall be available in each such fiscal year only for the unconditional support of democratic activities and institutions in Hungary, which institutions shall—

(A) include all major non-communist political and social formations;

(B) not include among its membership any member of the communist party of Hungary (or its equivalent, under whatever name the communist party of Hungary may be known)." and

On page 35, at line 11, strike Section 502 in its entirety and insert in lieu thereof the following new section:

"SEC. 502. ENVIRONMENTAL INITIATIVES FOR POLAND AND HUNGARY.

(a) ENVIRONMENTAL PROTECTION AGENCY ACTIVITIES.—In addition to specific authorities contained in any of the environmental statutes administered by the Environmental Protection Agency, the Administrator of that Agency (hereinafter referred to as the "Administrator") is authorized to undertake such educational, policy training, research, and technical and financial assistance, monitoring, coordinating, and other activities as he may deem appropriate, either alone or in cooperation with other United States or foreign agencies, governments, or public or private institutions, in protecting the environment in Poland and Hungary.

(b) AUTHORIZATION OF TRANSFERS.—The Administrator of the Environmental Protection Agency is authorized to use up to $6,000,000 in each of fiscal years 1990, 1991, and 1992 of funds appropriated under Title VI of the Clean Water Act to carry out the purposes of this Title. The Administrator may also use up to $2,000,000 appropriated to the Environmental Protection Agency under any other authorizing statutes to carry out the purposes of this Title.

(c) ACTIVITIES IN POLAND.—The Administrator shall cooperate with Polish officials and experts on appropriate environmental projects, including—

(1) establishment of an air quality monitoring network in the Krakow metropolitan area as a part of Poland's national air monitoring network; and

(2) improvement of both water quality and the availability of drinking water in the Krakow metropolitan area.

(d) ACTIVITIES IN HUNGARY.—The Administrator shall work with other United States and Hungarian officials and private parties to establish and support a regional center in Budapest for facilitating cooperative environmental activities between governmental experts and public and private organizations from the United States and Eastern and Western Europe." and

On page 39 after line 6, insert the following new subsection:

(c) RESTRICTIONS.—No assistance provided to Poland under this section shall be used to perform, promote, or plan abortions; or to support the Defense or security forces of any Warsaw Pact member country." and

On page 41 of the bill, after line 16, insert in lieu thereof the following new section:

"SEC. 702. POLICY OVERSIGHT.

(a) Oversight of all programs provided for in this Act, as well as all other activities of the United States government conducted to assist Poland, should be exercised by an interagency group to be chaired by the Vice President and to include the Director of the Office of Management and Budget, the Secretaries of State, Commerce, Treasury, Labor, Defense, Health and Human Services, and Housing and Urban Development, the Administrator of the Agency for International Development, and the Director of the United States Information Agency.

(b) Congress commends the President for agreeing to send a High Level Team of Experts to assess the dramatic transition taking place in Poland. The private and governmental experience of team members should result in the first comprehensive official review and analysis of the economic situation in Poland.

(c) The interagency group referred to in subsection (a) shall consult with the Team of Experts, and make available its findings to Congress and the American people." and

On page 41, line 17, change "Section 702" to "Section 703".

On page 45, at line 13, strike "803" and insert in lieu thereof "804", and

On page 45, at line 12, after "pluralism." insert the following new section:

"SEC. 803. REPORT TO CONGRESS.

Not later than 90 days after the effective date of this Act, and every 180 days thereafter for three years, the President shall report to the Speaker of the House of Representatives and the President pro tempore of the Senate a comprehensive "Report on Democracy and Free Enterprise in Poland and Hungary", which shall include a full description of the progress made in Poland and Hungary toward—

(1) the implementation of economic policies designed to promote sustained economic growth, to develop economic freedom, and to increase opportunities for the people of Poland and Hungary, including but not limited to the reforms and policies set forth in Section 2 of this Act;

(2) the adoption and pace of implementation of constitutional, legal, and administrative measures that limit the power of executive authorities and establish and protect the independence of the judiciary;

(3) the full elimination of all constitutional, legal, and administrative measures that favor any political party or inhibit the formulation and operation of independent political parties, groups, associations, or organizations;

(4) the adoption of constitutional, legal, and administrative measures designed to establish and protect fundamental human rights and civil liberties, including but not limited to, freedom of speech, freedom of the press, freedom of religion, the right of Polish and Hungarian citizens to work, to join, or to refuse to join trade unions or labor organizations, and other freedoms comparable to those found in other democratic countries;

(5) the reduction and elimination of industrial practices detrimental to the environment and particularly harmful to human health;

(6) elections in which all parties are able to participate freely with equal opportunity

to form governments based on popular support;

(7) the elimination of espionage activities by operatives of the governments of Poland and Hungary against the United States and its allies in the North Atlantic Treaty Organization." and

At the end of Title VIII, add the following new section:

"SEC. 805. TERMINATION OF ASSISTANCE TO POLAND AND HUNGARY UNLESS ARMS TRANSFERS AND SECURITY ASSISTANCE TO CUBA AND NICARAGUA CEASE.

(a) Three months after the effective date of this Act, the President shall terminate all assistance provided pursuant to this Act to Poland or Hungary, respectively, unless he certifies to the Speaker of the House of Representatives and the President pro tempore of the Senate that all arms transfers and security assistance, as defined in subsection (b) of this section, provided by that country to Cuba or Nicaragua, have ceased.

(b) For the purposes of this section, arms transfers and security assistance provided by Poland or Hungary to Cuba or Nicaragua shall include arms delivery, shipment, or transfer and security assistance in any form whatsoever, including but not limited to any provision or supply (whether by sale, grant, barter, or other arrangement) of weapons, weapons parts, ammunition, military vehicles or military aircraft or naval crafts or parts therefor; training of Cuban or Nicaraguan military, para-military, police, or other security personnel by Polish or Hungarian personnel; services of Polish or Hungarian military or security advisers in Cuba or Nicaragua; transport of other items described in this subsection, even if originating in a third country, by Polish-flag vessels or Polish or Hungarian aircraft (including both military and civil craft) to Cuba or Nicaragua; or any extension of funds, credits, loans, barter for goods, or other arrangement providing for the transfer of arms or security assistance from a third country to Cuba or Nicaragua.

(c) If, subsequent to three months after the effective date of this Act, the President finds that arms transfers and security assistance to Cuba or Nicaragua, as defined in subsection (b), have been resumed by Poland or Hungary after a previous cessation, he shall terminate all assistance to that country pursuant to this Act." and

On page 10, at line 23, after "shortages" insert the following new language: "and specifically targeted toward elements of the Polish population most vulnerable to hunger and malnutrition, in particular the infirm, the elderly and children;".

MURKOWSKI AMENDMENTS NOS. 1115 AND 1116

Mr. HELMS (for Mr. MURKOWSKI) proposed two amendments to the bill S. 1582, supra, as follows:

AMENDMENT No. 1115

On page 7, line 17, Subsection 101(a), add a new subsection (2):

"(2) to the extent that the ongoing International Monetary Fund review of the Polish economy uncovers a probable balance of payments shortage for the fourth quarter of 1989, the United States Government should work closely with the European Community and international financial institutions to determine the extent of emergency assistance required by Poland for the fourth quarter of 1989 and should consider extending a bridge loan to relieve immediate and urgent balance of payments requirements through the authority provided in paragraph (3)(A) of this subsection:

On pages 7 and 8 renumber the remaining paragraphs of subsection 101(a) accordingly.

AMENDMENT No. 1116

On page 9, line 4, Subsection 101(b), add a new subsection (2):

"(2) The President, acting in coordination with the European Community, should call an urgent meeting of the industrialized democracies for the purpose of establishing a multilateral effort to respond to Poland's request for $1 billion to support its economic stabilization program;

On page 9 renumber the remaining paragraphs of subsection 101(b) accordingly.

HEINZ AMENDMENT NO. 1117

Mr. HELMS (for Mr. HEINZ) proposed an amendment to the bill S. 1582, supra, as follows:

At the appropriate place, insert the following new section:

"SEC. . REPORT ON TECHNOLOGY TRANSFER TO POLAND AND HUNGARY.

"Not later than 180 days after the enactment of this Act, the Secretary of State shall submit a classified report to Congress identifying the confidence building measures Poland and Hungary could undertake that would facilitate the negotiation of those kinds of agreements, including but not limited to, bilateral customs and technology transfer agreements, that would encourage greater direct private sector investment in Poland and/or Hungary."

RIEGLE AMENDMENT NO. 1118

Mr. RIEGLE proposed an amendment to the bill S. 1582, supra, as follows:

Paragraphs (2) and (3) of section 101(a) of the amendment are amended by striking out "(2)" and "(3)" and inserting in lieu thereof, respectively, "(3)"; and "(4)".

Insert after section 101(a)(1) of the amendment the following new paragraph:

(2) the Secretary of the Treasury shall direct the United States Executive Director at the International Bank for Reconstruction and Development to—

(A) urge consideration of approval of up to $1,000,000,000 in financing in each of the succeeding three years for disbursement over a feasible and appropriate period to Poland; and

(B) urge expeditious approval and disbursement of a structural adjustment loan to Poland in an appropriate amount in time to facilitate the implementation of major economic reforms scheduled for early 1990, including the termination of energy, export and agricultural subsidies and wage indexation.

In section 101(a) of the amendment, after paragraph (3) as redesignated insert the following new paragraph:

(4) the United States Government shall seek to coordinate within the Group of 7 at the earliest possible date and not later than January 1, 1990 the establishment of a reserve of $1,000,000,000, to be made available through the International Monetary Fund contingent upon and in addition to an agreement between the Government of Poland and the Fund, for the purpose of facilitating implementation of key monetary reforms, including the achievement of international convertibility of the Polish currency.

At the end of section 101(a) of the amendment, add the following new paragraph:

(5) the United States Government, in coordination with other creditor governments, shall seek to expedite consultations between the Government of Poland and its major private creditors in order to facilitate a rescheduling and reduction of payments due on debt owed to such creditors in a manner consistent with the international debt policy announced by the Secretary of the Treasury on March 10, 1989.

SIMON AMENDMENT NO. 1119

Mr. SIMON proposed an amendment to the bill S. 1582, supra, as follows:

On page 3, line 2, of the amendment, strike out "(a)".

On page 3, line 17, of the amendment, insert "a" before "Board".

On page 10, line 15, of the amendment, strike out "Statees" and insert in lieu therefore "States".

On page 4, line 5 and 6, of the amendment, strike out "overseas private investment corporation" and insert in lieu thereof "Overseas Private Investment Corporation".

On page 25 of the amendment, strike out lines 11 through 16 an insert in lieu thereof the following:

SEC. 206. AID ADMINISTRATIVE EXPENSES.

For the purpose of paying administrative expenses incurred in connection with carrying out its functions under this Act, the Agency for International Development may use up to $500,000 each fiscal year of the funds made available to the Agency under this Act.

On page 36, line 23, of the amendment, strike out "title VIII" and insert in lieu thereof "section 802".

On page 41, line 14, of the amendment, strike out "chapter" and insert in lieu thereof "Act".

On page 41, line 16, of the amendment, strike out "chapter" and insert in lieu thereof "Act".

On page 42, line 19, of the amendment, strike out "outlines" and insert in lieu thereof "outlined".

On page 22, line 19, insert the following:

"(11) the Sabre Foundation;" and renumber the existing items accordingly.

ROTH AMENDMENT NO. 1120

The ROTH proposed an amendment, which was subsequently modified, to the bill S. 1582, supra, as follows:

On page 13, strike lines 15 through 17 and insert: "$260,000,000 to support the Polish-American Enterprise, as designated pursuant to subsection (d), of which $20,000,000 may be used to establish a financial investment for individuals to invest an additional $100,000,000 or more in the Polish private sector.".

ROTH AMENDMENT NO. 1121

The ROTH proposed an amendment, to the bill S. 1582, supra, as follows:

At an appropriate place in the bill, add the following new section:

Sense of the Senate regarding IMF quota increase. Given:

that the Administration has announced that it is considering committing to increase the resources of the International Monetary

Fund and expects to decide on the increase over the next few weeks;

that such an increase could total $7 billion or more, at a time when there may be higher budget priorities, such as assisting the dramatic changes taking place in Poland, Hungary and eastern Europe as a whole, or reducing our deficit; and

that the IMF provides short-term resources at a time when most countries, including the U.S., want to increase their long-term investment orientation,

It is the sense of the Senate that the Administration should not take any action at this time that would imply a commitment to increase or to propose an increase in the resources of the IMF.

BENTSEN (AND SIMON) AMENDMENT NO. 1122

Mr. BENTSEN (for himself and Mr. SIMON) proposed an amendment to the bill S. 1582, supra, as follows:

At the end of title VII, insert:

SEC. . CERTAIN POLISH BONDS NOT SUBJECT TO RULES RELATING TO BELOW-MARKET LOANS.

(a) IN GENERAL.—Paragraph (5) of section 1812(b) of the Tax Reform Act of 1986 is amended—

(1) by inserting "or Poland" after "Israel" in the text thereof, and

(2) by inserting "or Polish" after "Israel" in the heading thereof.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

SIMON (AND DOLE) AMENDMENT NO. 1123

Mr. SIMON (for himself and Mr. DOLE) proposed an amendment to the bill S. 1582, supra, as follows:

At the end of section 502, add the following subsection:

(e) CONTENTS OF REPORT.—The report required by title VIII shall include the following:

(1) ASSESSMENT OF PROBLEMS.—An overall assessment of the environmental problems facing Poland and Hungary, including—

(A) a relative ranking of the severity of the problems and their effects on both human health and the general environment;

(B) a listing of the geographical areas of each country that have suffered the heaviest environmental damage, and a description of the source and scope of the damage; and

(C) an assessment of the environmental performance of leading industrial polluters in those countries and the expected effect on pollution levels of industrial modernization;

(2) PRIORITIES AND COSTS FOR ACTION.—An analysis of the priorities each country should assign in addressing its environmental problems, and an estimate of the capital and human resources required to undertake a comprehensive program of environmental protection;

(3) ROLE OF UNITED STATES AND MULTILATERAL ASSISTANCE.—A statement of strategy for United States assistance for the next five years in Poland and Hungary, including—

(A) recommendations for appropriate levels and forms of bilateral financial and technical assistance;

(B) recommendations concerning United States participation in cooperative multilateral undertakings;

(C) an assessment of the feasibility of debt-for-nature swaps as a technique of environmental protection in each country; and

(D) recommendations for minimizing further environmental damage to Krakow, and for the protection and restoration of historic sites in that city.

WALLOP AMENDMENT NO. 1124

(Ordered to lie on the table.)

Mr. WALLOP submitted an amendment intended to be proposed by him to the bill S. 1582, supra, as follows:

Add at the end, the following new section:

SEC. . ACTIONS OF POLISH INTELLIGENCE SERVICES.

(a) REPORT REQUIRED.—Not later than 90 days after the date of enactment of this Act, the President, after consultation with the Secretary of Defense, the Director of the Federal Bureau of Investigation, and the Director of Central Intelligence, shall submit to the Congress a report regarding the actions of Polish intelligence services against the United States, including—

(1) the extent to which the intelligence services of the Government of Poland are engaged in espionage activities designed to obtain military and industrial technology or secrets;

(2) the extent to which the intelligence services of the Government of Poland are engaged in surveillance, spying, reporting on, or harassing members of the American-Polish community, in particular, those members of that community that were supporting Solidarity in Poland; and

(3) the extent to which the information, technologies and secrets they obtain are made available to other Warsaw Pact allies, including the Soviet Union.

(b) RESTRICTION ON ASSISTANCE.—Assistance under this Act, including benefits under the General System of Preference and assistance from the Overseas Private Investment Corporation, but excluding food assistance, shall cease to be available to the Government of Poland unless the President certifies not later than 120 days after the date of enactment of this Act, and each 180 days thereafter, that the intelligence services of the Government of Poland, have ceased participating in or facilitating the conduct of espionage activities designed to illegally obtain United States military and industrial technology or secrets or active surveillance of and reporting on the activities of Americans of Polish descent.

SIMON AMENDMENT NO. 1125

Mr. SIMON proposed an amendment to the bill S. 1582, supra, as follows:

On page 15, after line 13, add the following:

(6) FINANCIAL INSTRUMENTS FOR INDIVIDUAL INVESTMENT.—The President shall ensure that Enterprise Funds undertake all possible efforts to establish financial instruments that will enable individuals to invest in the private sectors of Poland and that will thereby have the effect of multiplying the impact of United States grants to each Fund.

HELMS AMENDMENT NO. 1126

Mr. COCHRAN (for Mr. HELMS) proposed an amendment to the bill S. 1582, supra, as follows:

At the end of the committee amendment, add the following new section:

"SEC. . The United States Government shall not assist any missile program of the People's Republic of China in any manner, until the President certifies to Congress that China is not currently supplying ballistic missiles or missile technology to Iran, Iraq, Syria, or Libya, and has provided reasonable assurances that no future sales of missiles or missile technology to such countries are planned.".

TEMPORARY REDUCTION OF CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS

PACKWOOD AMENDMENT NO. 1127

(Ordered to lie on the table.)

Mr. PACKWOOD submitted an amendment intended to be proposed by him to the bill (H.R. 3628) to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes, as follows:

Strike out all after the enacting clause and insert:

SECTION 1. AMENDMENT OF 1986 CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

TITLE I—CAPITAL GAINS PROVISIONS

Subtitle A—Reduction in Capital Gains Tax

SEC. 101. REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS.

(a) GENERAL RULE.—Part I of subchapter P of chapter 1 (relating to treatment of capital gains) is amended by adding at the end thereof the following new section:

"SEC. 1202. REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS.

"(a) DEDUCTION ALLOWED FOR CAPITAL GAIN.—

"(1) IN GENERAL.—If, for any taxable year, a taxpayer other than a corporation has a net capital gain, an amount equal to the applicable percentage of the net capital gain shall be allowed as a deduction.

"(2) ESTATES AND TRUSTS.—In the case of an estate or trust, the deduction under paragraph (1) shall be computed by excluding the portion (if any) of the gains for the taxable year from sales or exchanges of capital assets which, under sections 652 and 662 (relating to inclusions of amounts in gross income of beneficiaries of trusts), is includible by the income beneficiaries as gain derived from the sale or exchange of capital assets.

"(b) APPLICABLE PERCENTAGE.—For purposes of this subsection—

"(1) IN GENERAL.—The applicable percentage shall be the percentage determined in accordance with the following table:

"In the case of:	*The applicable percentage is:*
1-year gain	5
2-year gain	10

3-year gain	15
4-year gain	20
5-year gain	25
6-year gain	30
7-year gain	35.

"(2) QUALIFIED VENTURE CAPITAL STOCK.—If for any taxable year a taxpayer has any qualified venture capital stock net capital gain, paragraph (1) shall be applied—

"(A) by substituting '40 percent' for the applicable percentage determined for such gain which is 4-year or 5-year gain, and

"(B) by substituting '50 percent' for the applicable percentage determined for such gain which is 6-year or 7-year gain.

"(c) GAIN TO WHICH DEDUCTION APPLIES.—For purposes of this section—

"(1) 1-YEAR GAIN.—The term '1-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 1 year but not more than 2 years.

"(2) 2-YEAR GAIN, ETC.—The terms '2-, 3-, 4-, 5-, and 6-year gain' mean the amounts determined under paragraph (1)—

"(A) by reducing the amount of the net capital gain under subparagraph (A) thereof by the amount of net capital gain determined by taking into account only gain or loss from the sale or exchange of assets with a holding period less than the minimum holding period for any such category, and

"(B) by substituting 2, 3, 4, 5, or 6 years for 1 year and 3, 4, 5, 6, or 7 years for 2 years, respectively, in subparagraph (B) thereof.

"(3) 7-YEAR GAIN.—The term '7-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, reduced by 1-, 2-, 3-, 4-, 5-, and 6-year gain, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 7 years.

"(4) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'qualified venture capital stock net capital gain' means the lesser of—

"(i) net capital gain for the taxable year, or

"(ii) the net capital gain for the taxable year determined by only taking into account gain or loss from sales or exchanges after October 1, 1989, of qualified venture capital stock.

"(B) QUALIFIED VENTURE CAPITAL STOCK.—

"(i) IN GENERAL:—The term 'qualified venture capital stock' means stock which—

"(I) is issued by a qualified venture capital corporation after October 1, 1989,

"(II) is first acquired (whether directly or through an underwriter) by the taxpayer, and

"(III) is not issued in redemption of (or otherwise exchanged for) stock issued before October 2, 1989.

"(ii) QUALIFIED VENTURE CAPITAL CORPORATION.—For purposes of clause (i)—

"(I) IN GENERAL.—The term 'qualified venture capital corporation' means a corporation the cost basis (determined under section 1012) of all of the assets of which immediately after the date of issuance described in clause (i) is less than $20,000,000.

"(II) ACTIVE TRADE OR BUSINESS REQUIREMENT.—A corporation shall not be treated as a qualified venture capital corporation unless such corporation was engaged in the active conduct of a trade or business during the 5-year period ending on the date of issuance described in clause (i) (or if shorter, its period of existence), and is so engaged immediately after such date.

"(III) EXCEPTION FOR PERSONAL SERVICE CORPORATIONS.—The term 'qualified venture capital corporation' shall not include a personal service corporation (within the meaning of section 269A(b)(1)).

"(5) SPECIAL RULES FOR PASS-THRU ENTITIES.—

"(A) IN GENERAL.—In applying this subsection with respect to any pass-thru entity, the determination of when a sale or exchange has occurred shall be made at the entity level.

"(B) PASS-THRU ENTITY DEFINED.—For purposes of subparagraph (A), the term 'pass-thru entity' means—

"(i) a regulated investment company,

"(ii) a real estate investment trust,

"(iii) an S corporation,

"(iv) a partnership,

"(v) an estate or trust, and

"(vi) a common trust fund.

"(6) SPECIAL RULES FOR CARRYOVERS, ETC.—

"(A) CERTAIN CARRYOVERS.—For purposes of this subsection—

"(i) any amount treated as a loss under section 1212(b) for any taxable year beginning after October 1, 1989, shall be treated as a loss from a sale or exchange occurring after such date, and

"(ii) any such loss described in section 1212(b)(1)(B) shall be treated as a loss from the sale or exchange of a capital asset held for more than 1 year but not more than 2 years.

A similar rule shall apply to any loss carried to such a taxable year under section 465(a)(2) or 469(b).

"(B) RECAPTURE OF NET ORDINARY LOSS UNDER SECTION 1231.—For purposes of this subsection, if any amount is treated as ordinary income under section 1231(c) for any taxable year—

"(i) the amount so treated shall be allocated proportionately among the section 1231 gains (as defined in section 1231(a)) for such taxable year, and

"(ii) the amount so allocated to any such gain shall reduce the amount of such gain.

"(7) ORDERING RULES.—This section shall be applied separately (and in the following order) with respect to the following net capital gain:

"(A) Qualified venture capital stock net capital gain.

"(B) Net capital gain determined by taking into account only gain or loss from the sale or exchange of assets the holding period of which begins after October 1, 1989."

(b) TREATMENT OF COLLECTIBLES.—

(1) IN GENERAL.—Section 1222 is amended by inserting after paragraph (11) the following new paragraph:

"(12) SPECIAL RULE FOR COLLECTIBLES.—

"(A) IN GENERAL.—Any gain or loss from the sale or exchange of a collectible shall be treated as a short-term capital gain or loss (as the case may be), without regard to the period such asset was held. The preceding sentence shall apply only to the extent the gain or loss is taken into account in computing taxable income.

"(B) TREATMENT OF CERTAIN SALES OF INTEREST IN PARTNERSHIP, ETC.—For purposes of subparagraph (A), any gain from the sale or exchange of an interest in a partnership, S corporation, or trust which is attributable to unrealized appreciation in the value of collectibles held by such entity shall be treated as gain from the sale or exchange of a collectible. Rules similar to the rules of section 751(f) shall apply for purposes of the preceding sentence.

"(C) COLLECTIBLE.—For purposes of this paragraph, the term 'collectible' means any capital asset which is a collectible (as defined in section 408(m) without regard to paragraph (3) thereof)."

(2) CHARITABLE DEDUCTION NOT AFFECTED.—

(A) Paragraph (1) of section 170(e) is amended by adding at the end thereof the following new sentence: "For purposes of this paragraph, section 1222 shall be applied without regard to paragraph (12) thereof (relating to special rule for collectibles)."

(B) Clause (iv) of section 170(b)(1)(C) is amended by inserting before the period at the end thereof the following: "and section 1222 shall be applied without regard to paragraph (12) thereof (relating to special rule for collectibles)".

(c) MINIMUM TAX.—Section 56(b)(1) is amended by adding at the end thereof the following new subparagraph:

"(F) CAPITAL GAINS DEDUCTION DISALLOWANCE.—The deduction under section 1202 shall not be allowed."

(d) PASSIVE ACTIVITY.—Subsection (j) of section 469 (relating to special rules for passive activities) is amended by adding at the end thereof the following new paragraph:

"(13) COORDINATION WITH SECTION 1202.—In the case of the disposition of any interest in a passive activity, any gain from such interest shall be reduced by the amount of any unused deduction or credit allocable to such interest before such gain is taken into account in computing the net capital gain of the taxpayer."

(e) CONFORMING AMENDMENTS.—

(1) Section 62(a) is amended by inserting after paragraph (13) the following new paragraph:

"(14) CAPITAL GAINS DEDUCTION.—The deduction allowed by section 1202."

(2) Clause (ii) of section 163(d)(4)(B) is amended by inserting ", reduced by the amount of any deduction allowable under section 1202 attributable to gain from such property" after "investment".

(3)(A) Section 170(e)(1)(B) is amended by inserting "the nondeductible percentage" before "the amount of gain".

(B) Section 170(e)(1) is amended by adding at the end thereof the following new sentence: "For purposes of subparagraph (B), the term 'nondeductible percentage' means 100 percent minus the applicable percentage with respect to such property under section 1202(b), or, in the case of a corporation, 100 percent minus the deduction equivalent of the applicable percentage of section 1201.

(4)(A) Section 172(d)(2) (relating to modifications with respect to net operating loss deduction) is amended to read as follows:

"(2) CAPITAL GAINS AND LOSSES OF TAXPAYERS OTHER THAN CORPORATIONS.—In the case of a taxpayer other than a corporation—

"(A) the amount deductible on account of losses from sales or exchanges of capital assets shall not exceed the amount includible on account of gains from sales or exchanges of capital assets; and

"(B) the deduction provided by section 1202 shall not be allowed."

(B) Subparagraph (B) of section 172(d)(4) is amended by inserting ", (2)(B)," after "paragraph (1)".

(5)(A) Section 221 (relating to cross reference) is amended to read as follows:

"SEC. 221. CROSS REFERENCES.

"(1) For deduction for net capital gains in the case of a taxpayer other than a corporation, see section 1202.

"(2) For deductions in respect of a decedent, see section 691."

(B) The table of sections for part VII of subchapter B of chapter 1 is amended by striking "reference" in the item relating to section 221 and inserting "references".

(6) Paragraph (4) of section 642(c) is amended to read as follows:

"(4) ADJUSTMENTS.—To the extent that the amount otherwise allowable as a deduction under this subsection consists of gain from the sale or exchange of capital assets held for more than 1 year, proper adjustment shall be made for any deduction allowable to the estate or trust under section 1202 (relating to deduction for net capital gain). In the case of a trust, the deduction allowed by this subsection shall be subject to section 681 (relating to unrelated business income)."

(7) Paragraph (3) of section 643(a) is amended by adding at the end thereof the following new sentence: "The deduction under section 1202 (relating to deduction for net capital gain) shall not be taken into account."

(8) Paragraph (4) of section 691(c) is amended by striking "1201, and 1211" and inserting "1201, 1202, and 1211".

(9) The second sentence of paragraph (2) of section 871(a) is amended by inserting "such gains and losses shall be determined without regard to section 1202 (relating to deduction for net capital gain) and" after "except that".

(10) Section 1402(i)(1) is amended to read as follows:

"(1) IN GENERAL.—In determining the net earnings from self-employment of any options dealer or commodities dealer—

"(A) notwithstanding subsection (a)(3)(A), there shall not be excluded any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from section 1256 contracts or property related to such contracts, and

"(B) the deduction provided by section 1202 shall not apply."

(11)(A) Sections 7518(g)(6)(A) is amended by striking the last sentence.

(B) Section 607(h)(6)(A) of the Merchant Marine Act, 1936, is amended by striking the last sentence.

(f) CLERICAL AMENDMENT.—The table of sections for part I of subchapter P of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 1202. Reduction in capital gains tax for noncorporate taxpayers."

(g) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by subsections (a) and (c) shall apply to taxable years ending after October 1, 1989.

(2) TREATMENT OF COLLECTIBLES.—

(A) IN GENERAL.—The amendment made by subsection (b) shall apply to taxable years beginning after October 1, 1989.

(B) SPECIAL RULE FOR 1989 TAXABLE YEAR.—In case of any taxable year which includes October 1, 1989, for purposes of sections 1201 and 1202 of the Internal Revenue Code of 1986 and section 1(g) of such Code, any gain or loss from the sale or exchange of a collectible shall (within the meaning of section 1222(12) of such Code) be treated as gain or loss from a sale or exchange occurring on or before October 1, 1989.

SEC. 102. NET CAPITAL GAIN NOT TAKEN INTO ACCOUNT UNDER PHASEOUT OF 15-PERCENT RATE AND PERSONAL EXEMPTIONS.

(a) GENERAL RULE.—Subparagraph (A) of section 1(g)(1) is amended to read as follows:

"(A) taxable income reduced by the excess (if any) of—

"(i) the qualified net capital gain, over

"(ii) the deduction allowed under section 1202, over".

(b) QUALIFIED NET CAPITAL GAIN.—Subsection (g) of section 1 is amended by adding at the end thereof the following new paragraph:

"(5) QUALIFIED NET CAPITAL GAIN.—The term 'qualified net capital gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from sales or exchanges after October 1, 1989.

For purposes of the preceding sentence, the rules of paragraphs (4) and (5) of section 1202(c) shall apply."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after October 1, 1989.

SEC. 103. RECAPTURE UNDER SECTION 1250 OF TOTAL AMOUNT OF DEPRECIATION.

(a) GENERAL RULE.—Subsections (a) and (b) of section 1250 (relating to gain from disposition of certain depreciable realty) are amended to read as follows:

"(a) GENERAL RULE.—Except as otherwise provided in this section, if section 1250 property is disposed of, the lesser of—

"(1) the depreciation adjustments in respect of such property, or

"(2) the excess of—

"(A) the amount realized (or, in the case of a disposition other than a sale, exchange, or involuntary conversion, the fair market value of such property), over

"(B) the adjusted basis of such property,

shall be treated as gain which is ordinary income. Such gain shall be recognized notwithstanding any other provision of this subtitle.

"(b) DEPRECIATION ADJUSTMENTS.—For purposes of this section, the term 'depreciation adjustments' means, in respect of any property, all adjustments attributable to periods after December 31, 1963, reflected in the adjusted basis of such property on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for exhaustion, wear and tear, obsolescence, or amortization (other than amortization under section 168 (as in effect before its repeal by the Tax Reform Act of 1976), 169, 185 (as in effect before its repeal by the Tax Reform Act of 1986), 188, 190, or 193). For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed as a deduction for any period was less than the amount allowable, the amount taken into account for such period shall be the amount allowed."

(b) LIMITATION IN CASE OF INSTALLMENT SALES.—Subsection (i) of section 453 is amended—

(1) by striking "1250" the first place it appears and inserting "1250 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)", and

(2) by striking "1250" the second place it appears and inserting "1250 (as so in effect)".

(c) CONFORMING AMENDMENTS.—

(1) Subparagraph (E) of section 1250(d)(4) is amended—

(A) by striking "additional depreciation" and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(2) Subparagraph (B) of section 1250(d)(6) is amended to read as follows:

"(B) DEPRECIATION ADJUSTMENTS.—In respect of any property described in subparagraph (A), the amount of the depreciation adjustments attributable to periods before the distribution by the partnership shall be—

"(i) the amount of gain to which subsection (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

"(ii) the amount of such gain to which section 751(b) applied."

(3) Subparagraph (D) of section 1250(d)(8) is amended—

(A) by striking "additional depreciation" each place it appears and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(4) Paragraph (8) of section 1250(d) is amended by striking subparagraphs (E) and (F) and inserting the following:

"(E) ALLOCATION RULES.—For purposes of this paragraph, the amount of gain attributable to the section 1250 property disposed of shall be the net amount realized with respect to such property reduced by the greater of the adjusted basis of the section 1250 property disposed of, or the cost of the section 1250 property acquired, but shall not exceed the gain recognized in the transaction."

(5) Subsection (d) of section 1250 is amended by striking paragraph (10).

(6) Section 1250 is amended by striking subsections (e), (f), and (g) and by redesignating subsections (h) and (i) as subsections (e) and (f), respectively.

(7) Paragraph (5) of section 48(q) is amended to read as follows:

"(5) RECAPTURE OF REDUCTION.—For purposes of sections 1245 and 1250, any reduction under this subsection shall be treated as a deduction allowed for depreciation."

(8) Clause (i) of section 267(e)(5)(D) is amended by striking "section 1250(a)(1)(B)" and inserting "section 1250(a)(1)(B) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)".

(9)(A) Subsection (a) of section 291 is amended by striking paragraph (1) and redesignating paragraphs (2), (3), (4), and (5) as paragraphs (1), (2), (3), and (4), respectively.

(B) Subsection (c) of section 291 is amended to read as follows:

"(c) SPECIAL RULE FOR POLLUTION CONTROL FACILITIES.—Section 168 shall apply with respect to that portion of the basis of any property not taken into account under section 169 by reason of subsection (a)(4)."

(C) Section 291 is amended by striking subsection (d) and redesignating subsection (e) as subsection (d).

(D) Paragraph (2) of section 291(d) (as redesignated by subparagraph (C)) is hereby repealed.

(E) Subparagraph (A) of section 265(b)(3) is amended by striking "291(e)(1)(B)" and inserting "291(d)(1)(B)".

(F) Subsection (c) of section 1277 is amended by striking "291(e)(1)(B)(ii)" and inserting "291(d)(1)(B)(ii)".

(10) Subsection (d) of section 1017 is amended to read as follows:

"(d) RECAPTURE OF DEDUCTIONS.—For purposes of sections 1245 and 1250—

"(1) any property the basis of which is reduced under this section and which is neither section 1245 property nor section 1250 property shall be treated as section 1245 property, and

"(2) any reduction under this section shall be treated as a deduction allowed for depreciation."

(11) Paragraph (5) of section 7701(e) is amended by striking "(relating to low-income housing)" and inserting "(as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to dispositions after October 1, 1989, in taxable years ending after such date.

Subtitle B—Alternative Capital Gains Rate for Corporations

SEC. 111. ALTERNATIVE CAPITAL GAINS RATE FOR CORPORATIONS.

(a) IN GENERAL.—Section 1201 is amended to read as follows:

"SEC. 1201. ALTERNATIVE TAX FOR CORPORATIONS.

"(a) GENERAL RULE.—If, for any taxable year, a corporation has an applicable net capital gain, then, in lieu of the tax imposed by sections 11, 511, and 831 (a) or (b), there is hereby imposed a tax (if such tax is less than the tax imposed) in an amount equal to the sum of—

"(1) a tax computed on the taxable income reduced by the sum of the applicable net capital gain, at the rate and in the manner as if this subsection had not been enacted, plus

"(2) a tax equal to the applicable percentage of the applicable net capital gain.

"(b) APPLICABLE PERCENTAGE.—For purposes of this section—

"(1) IN GENERAL.—The applicable percentage shall be the percentage determined in accordance with the following table:

"In the case of:	The applicable percentage is:
3-year gain	33
6-year gain	32
9-year gain	31
12-year gain	30
15-year gain	29.

"(2) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—Paragraph (1) shall be applied by substituting '29 percent' for the applicable percentage with respect to 6-year, 9-year, and 12-year gain.

"(c) TERMS RELATING TO GAIN.—For purposes of this section—

"(1) APPLICABLE NET CAPITAL GAIN.—The term 'applicable net capital gain' means 3-, 6-, 9-, 12-, or 15-year gain.

"(2) 3-year gain.—The term '3-year gain' means the lesser of—

"(A) the net capital gain for the year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 3 years but not more than 6 years.

"(3) 6-YEAR GAIN, ETC.—The terms '6-, 9-, and 12-year gain' mean the amounts determined under paragraph (2)—

"(A) by reducing the amount of the net capital gain under subparagraph (A) thereof by the amount of net capital gain determined by taking into account only gain or loss from the sale or exchange of assets with a holding period less than the minimum holding period for any such category, and

"(B) by substituting 6, 9, or 12 years for 3 years and 9, 12, or 15 years for 6 years, respectively, in subparagraph (B) thereof.

"(4) 15-YEAR GAIN.—The term '15-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, reduced by the 3-, 6-, 9-, and 12-year gain, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 15 years.

"(5) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—The term 'qualified venture capital stock net capital gain' has the meaning given such term by section 1202.

"(6) SPECIAL RULE.—For purposes of this subsection, the rules of paragraphs (4), (5), and (6) of section 1202(c) shall apply.

"(d) CROSS REFERENCES.—For computation of the alternative tax—

"(1) in the case of life insurance companies, see section 801(a)(2),

"(2) in the case of regulated investment companies and their shareholders, see section 852(b)(3) (A) and (D), and

"(3) in the case of real estate investment trusts, see section 857(b)(3)(A)."

(b) CONFORMING AMENDMENT.—Clause (iii) of section 852(b)(3)(D) is amended by striking "66 percent" and inserting "66 percent (or in the case of applicable net capital gains, 100 percent minus the applicable percentage under section 1201(b))".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after October 1, 1989.

Subtitle C—Indexing of Certain Assets for Purposes of Determining Gain

SEC. 121. INDEXING OF CERTAIN ASSETS FOR PURPOSES OF DETERMINING GAIN.

(a) IN GENERAL.—Part II of subchapter O of chapter 1 (relating to basis rules of general application) is amended by inserting after section 1021 the following new section:

"SEC. 1022. INDEXING OF CERTAIN ASSETS FOR PURPOSES OF DETERMINING GAIN.

"(a) GENERAL RULE.—

"(1) INDEXED BASIS SUBSTITUTED FOR ADJUSTED BASIS.—If an individual elects not to have the provisions of section 1201 apply for any taxable year, then, solely for purposes of determining gain on the sale or other disposition during such taxable year by such individual of an indexed asset which has been held for more than 2 years, the indexed basis of the asset shall be substituted for its adjusted basis.

"(2) SPECIAL RULE FOR RECAPTURE GAIN.—

"(A) IN GENERAL.—Paragraph (1) shall not apply for purposes of determining the amount of recapture gain on the sale or other disposition of an indexed asset, but the amount of any such recapture gain shall increase the adjusted basis of the asset for purposes of applying paragraph (1) to determine the amount of other gain on such sale or other disposition.

"(B) RECAPTURE GAIN.—For purposes of subparagraph (A), the term 'recapture gain' means any gain treated as ordinary income under section 1245, 1250, or 1254.

"(b) INDEXED ASSET.—

"(1) IN GENERAL.—For purposes of this section, the term 'indexed asset' means—

"(A) any stock in a corporation, and

"(B) any tangible property (or any interest therein),

which is a capital asset or property used in the trade or business (as defined in section 1231(b)).

"(2) CERTAIN PROPERTY EXCLUDED.—For purposes of this section, the term 'indexed asset' does not include—

"(A) CREDITOR'S INTEREST.—Any interest in property which is in the nature of a creditor's interest.

"(B) COLLECTIBLES.—Any collectible (as defined in section 408(m)(2) without regard to section 408(m)(3)).

"(C) OPTIONS.—Any option or other right to acquire an interest in property.

"(D) NET LEASE PROPERTY.—In the case of a lessor, net lease property (within the meaning of subsection (i)(3)).

"(E) CERTAIN PREFERRED STOCK.—Stock which is fixed and preferred as to dividends and does not participate in corporate growth to any significant extent.

"(F) STOCK IN FOREIGN CORPORATIONS.—Stock in a foreign corporation.

"(G) STOCK IN S CORPORATIONS.—Stock in an S corporation.

"(3) EXCEPTION FOR STOCK IN FOREIGN CORPORATION WHICH IS REGULARLY TRADED ON NATIONAL OR REGIONAL EXCHANGE.—Paragraph (2)(F) shall not apply to stock in a foreign corporation the stock of which is listed on the New York Stock Exchange, the American Stock Exchange, or any domestic regional exchange for which quotations are published on a regular basis or is authorized for trading on the national market system operated by the National Association of Securities Dealers other than—

"(A) stock of a foreign investment company (within the meaning of section 1246(b)),

"(B) stock in a passive foreign investment company (as defined in section 1296), and

"(C) stock in a foreign corporation held by a United States person who meets the requirements of section 1248(a)(2).

"(c) INDEXED BASIS.—For purposes of this section—

"(1) INDEXED BASIS.—The indexed basis for any asset is—

"(A) the adjusted basis of the asset, multiplied by

"(B) the applicable inflation ratio.

"(2) APPLICABLE INFLATION RATIO.—The applicable inflation ratio for any asset shall be determined by dividing—

"(A) the CPI for the calendar year preceding the calendar year in which the disposition takes place, by

"(B) the CPI for the later of—

"(i) the calendar year preceding the calendar year in which the taxpayer's holding period for such asset began, or

"(ii) 1990.

The applicable inflation ratio shall not be taken into account unless it is greater than 1. The applicable inflation ratio for any asset shall be rounded to the nearest one-hundredth.

"(3) CONVENTIONS.—For purposes of paragraph (2), if any asset is disposed of during any calendar year—

"(A) such disposition shall be treated as occurring on the last day of such calendar year, and

"(B) the taxpayer's holding period for such asset shall be treated as beginning in the same calendar year as would be determined for an asset actually disposed of on such last day with a holding period of the same length as the actual holding period of the asset involved.

"(4) CPI.—For purposes of this subsection, the CPI for any calendar year shall be determined under section 1(f)(4).

"(d) SHORT SALES.—

"(1) IN GENERAL.—In the case of a short sale of an indexed asset with a short sale period in excess of 2 years, for purposes of this title, the amount realized shall be an amount equal to the amount realized (determined without regard to this paragraph) multiplied by the applicable inflation ratio. In applying subsection (c)(2) for purposes of the preceding sentence, the date on which the property is sold short shall be treated as the date on which the holding period for the asset begins and the closing date for the sale shall be treated as the date of disposition.

"(2) SHORT SALE OF SUBSTANTIALLY IDENTICAL PROPERTY.—If the taxpayer or the taxpayer's spouse sells short property substantially identical to an asset held by the taxpayer, the asset held by the taxpayer and the substantially identical property shall not be treated as indexed assets for the short sale period.

"(3) SHORT SALE PERIOD.—For purposes of this subsection, the short sale period begins on the day after property is sold and ends on the closing date for the sale.

"(e) TREATMENT OF REGULATED INVESTMENT COMPANIES AND REAL ESTATE INVESTMENT TRUSTS.—

"(1) ADJUSTMENTS AT ENTITY LEVEL.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the adjustment under subsection (a) shall be allowed to any qualified investment entity (including for purposes of determining the earnings and profits of such entity).

"(B) EXCEPTION FOR CORPORATE SHAREHOLDERS.—Under regulations—

"(i) in the case of a distribution by a qualified investment entity (directly or indirectly) to a corporation—

"(I) the determination of whether such distribution is a dividend shall be made without regard to this section, and

"(II) the amount treated as gain by reason of the receipt of any capital gain dividend shall be increased by the percentage by which the entity's net capital gain for the taxable year determined without regard to this section exceeds the entity's net capital gain for such year determined with regard to this section, and

"(ii) there shall be other appropriate adjustments (including deemed distributions) so as to ensure that the benefits of this section are not allowed (directly or indirectly) to corporate shareholders of qualified investment entities.

For purposes of the preceding sentence, any amount includible in gross income under section 852(b)(3)(D) shall be treated as a capital gain dividend and an S corporation shall not be treated as a corporation.

"(C) EXCEPTION FOR QUALIFICATION PURPOSES.—This section shall not apply for purposes of sections 851(b) and 856(c).

"(D) EXCEPTION FOR CERTAIN TAXES IMPOSED AT ENTITY LEVEL.—

"(i) TAX ON FAILURE TO DISTRIBUTE ENTIRE GAIN.—If any amount is subject to tax under section 852(b)(3)(A) for any taxable year, the amount on which tax is imposed under such section shall be increased by the percentage determined under subparagraph (B)(i)(II). A similar rule shall apply in the case of any amount subject to tax under paragraph (2) or (3) of section 857(b) to the extent attributable to the excess of the net capital gain over the deduction for dividends paid determined with reference to capital gain dividends only. The first sentence of this clause shall not apply to so much of the amount subject to tax under section 852(b)(3)(A) as is designated by the company under section 852(b)(3)(D).

"(ii) OTHER TAXES.—This section shall not apply for purposes of determining the amount of any tax imposed by paragraph (4), (5), or (6) of section 857(b).

"(2) ADJUSTMENTS TO INTERESTS HELD IN ENTITY.—

"(A) IN GENERAL.—Stock in a qualified investment entity shall be an indexed asset for any calendar month in the same ratio as the fair market value of the assets held by such entity at the close of such month which are indexed assets bears to the fair market value of all assets of such entity at the close of such month.

"(B) RATIO OF 90 PERCENT OR MORE.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 90 percent or more, such ratio for such month shall be 100 percent.

"(C) RATIO OF 10 PERCENT OR LESS.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 10 percent or less, such ratio for such month shall be zero.

"(D) VALUATION OF ASSETS IN CASE OF REAL ESTATE INVESTMENT TRUSTS.—Nothing in this paragraph shall require a real estate investment trust to value its assets more frequently than once each 36 months (except where such trust ceases to exist). The ratio under subparagraph (A) for any calendar month for which there is no valuation shall be the trustee's good faith judgment as to such valuation.

"(3) QUALIFIED INVESTMENT ENTITY.—For purposes of this subsection, the term 'qualified investment entity' means—

"(A) a regulated investment company (within the meaning of section 851), and

"(B) a real estate investment trust (within the meaning of section 856).

"(f) OTHER PASS-THRU ENTITIES.—

"(1) PARTNERSHIPS.—

"(A) IN GENERAL.—In the case of a partnership, the adjustment made under subsection (a) at the partnership level shall be passed through to the partners (but only for purposes of determining the income of partners who are individuals).

"(B) SPECIAL RULE IN THE CASE OF SECTION 754 ELECTIONS.—In the case of a transfer of an interest in a partnership with respect to which the election provided in section 754 is in effect—

"(i) the adjustment under section 743(b)(1) shall, with respect to the transferor partner, be treated as a sale of the partnership assets for purposes of applying this section, and

"(ii) with respect to the transferee partner, the partnership's holding period for purposes of this section in such assets shall be treated as beginning on the date of such adjustment.

"(2) S CORPORATIONS.—In the case of an S corporation, the adjustment made under subsection (a) at the corporate level shall be passed through to the shareholders. This section shall not apply for purposes of determining the amount of any tax imposed by section 1374 or 1375.

"(3) COMMON TRUST FUNDS.—In the case of a common trust fund, the adjustment made under subsection (a) at the trust level shall be passed through to the participants (but only for purposes of determining the income of participants who are individuals).

"(g) DISPOSITIONS BETWEEN RELATED PERSONS.—This section shall not apply to any sale or other disposition of property between related persons (within the meaning of section 465(b)(3)(C)) if such property, in the hands of the transferee, is of a character subject to the allowance for depreciation provided in section 167.

"(h) TRANSFERS TO INCREASE INDEXING ADJUSTMENT.—If any person transfers cash, debt, or any other property to another person and the principal purpose of such transfer is to secure or increase an adjustment under subsection (a), the Secretary may disallow part or all of such adjustment or increase.

"(i) SPECIAL RULES.—For purposes of this section—

"(1) TREATMENT AS SEPARATE ASSET.—In the case of any asset, the following shall be treated as a separate asset:

"(A) A substantial improvement to property.

"(B) In the case of stock of a corporation, a substantial contribution to capital.

"(C) Any other portion of an asset to the extent that separate treatment of such portion is appropriate to carry out the purposes of this section.

"(2) ASSETS WHICH ARE NOT INDEXED ASSETS THROUGHOUT HOLDING PERIOD.—The applicable inflation ratio shall be appropriately reduced for periods during which the asset was not an indexed asset.

"(3) NET LEASE PROPERTY DEFINED.—The term 'net lease property' means leased property where—

"(A) the term of the lease (taking into account options to renew) was 50 percent or more of the useful life of the property, and

"(B) for the period of the lease, the sum of the deductions with respect to such property which are allowable to the lessor solely by reason of section 162 (other than rents and reimbursed amounts with respect to such property) is 15 percent or less of the rental income produced by such property.

"(j) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this section."

(b) GAINS AND LOSSES FROM INDEXED ASSETS NOT TAKEN INTO ACCOUNT UNDER LIMITATION ON INVESTMENT INTEREST.—Subparagraph (B) of section 163(d)(4) (defining investment income) is amended by adding at the end thereof the following new sentences:

"Gain from the sale or other disposition of an indexed asset (as defined in section 1022) held for more than 2 years shall not be taken into account for purposes of the preceding sentence. The preceding sentence shall not apply to gain from the sale or other disposition of any such asset if the taxpayer elects to waive the benefits of section 1022 in determining the amount of such gain."

(c) REPEAL OF SECTION 1(j).—

(1) IN GENERAL.—Subsection (j) of section 1 is hereby repealed.

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (4) of section 691(c) is amended by striking "1(j)".

(B)(i) Subparagraph (B) of section 904(b)(2) is amended by striking so much of such subparagraph as precedes clause (i) and inserting the following:

"(B) SPECIAL RULE WHERE CORPORATE CAPITAL GAIN RATE DIFFERENTIAL.—In the case of a corporation for any taxable year for which there is a capital gain rate differential—".

(ii) Subparagraph (D) of section 904(b)(3) is amended to read as follows:

"(D) CAPITAL GAIN RATE DIFFERENTIAL.—There is a capital gain rate differential for any taxable year in the case of a corpora-

tion if any rate of tax imposed by section 11, 511, or 831 (a) or (b) (whichever applies) exceeds the alternative rate of tax under section 1201(a) (determined without regard to the last sentence of section 11(b)(1))."

(iii) Subparagraph (E) of section 904(b)(3) is amended by striking clauses (ii) and (iii) and inserting the following:

"(ii) HIGHEST APPLICABLE TAX RATE.—For purposes of clause (i), the term 'highest applicable tax rate' means the highest rate of tax specified in section 11(b).

"(iii) ALTERNATIVE TAX RATE.—For purposes of clause (i), the term 'alternative tax rate' means the alternative rate of tax under section 1201(a)."

(d) CLERICAL AMENDMENT.—The table of sections for part II of subchapter O of chapter 1 is amended by inserting after the item relating to section 1021 the following new item:

"Sec. 1022. Indexing of certain assets for purposes of determining gain."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to any disposition of property in any taxable year beginning after December 31, 1991.

(2) SUBSECTION (c).—The amendments made by subsection (c) shall apply to taxable years beginning after December 31, 1989.

TITLE II—INDIVIDUAL RETIREMENT PLUS ACCOUNTS

SEC. 201. ESTABLISHMENT OF INDIVIDUAL RETIREMENT PLUS ACCOUNTS.

(a) IN GENERAL.—Subpart A of part I of subchapter D of chapter 1 (relating to pension, profit-sharing, stock bonus plans, etc.) is amended by inserting after section 408 the following new section:

"408A. INDIVIDUAL RETIREMENT PLUS ACCOUNTS.

"(a) GENERAL RULE.—Except as provided in this section, an individual retirement plus account shall be treated for purposes of this title in the same manner as an individual retirement plan.

"(b) INDIVIDUAL RETIREMENT PLUS ACCOUNT.—For purposes of this title, the term 'individual retirement plus account' means an individual retirement plan which is designated at the time of the establishment of the plan as an individual retirement plus account. Such designation shall be made in such manner as the Secretary may prescribe.

"(c) CONTRIBUTION RULES.—

"(1) NO DEDUCTION ALLOWED.—No deduction shall be allowed under section 219 for a contribution to an individual retirement plus account.

"(2) CONTRIBUTION LIMIT.—

"(A) IN GENERAL.—Except in the case of rollover contributions, the aggregate amount which may be accepted as contributions to an individual retirement plus account shall not be greater than the excess (if any) of—

"(i) the nondeductible limit with respect to the individual for the taxable year under section 408(o) (after application of subparagraph (B)(ii) thereof), over

"(ii) the designated nondeductible contributions made by the individual for such taxable year to 1 or more individual retirement plans.

"(B) $1,000 INCREASE AFTER 1994.—In the case of any taxable year beginning after December 31, 1994, the amount determined under subparagraph (A)(i) (without regard to this subparagraph) shall be increased by $1,000.

"(C) SPECIAL RULE FOR MARRIED INDIVIDUALS.—The nondeductible limits under subparagraph (A) for an individual and for such individual's spouse shall be an amount equal to the excess (if any) of—

"(i) $2,000, over

"(ii) the sum of the amount allowed as a deduction under section 219 for contributions on behalf of such individual or such spouse, plus the amount determined under subparagraph (A)(ii) with respect to each.

In no event shall the sum of such limits exceed an amount equal to the sum of the compensation includible in the individual's and spouse's gross income for the taxable year, reduced by the sum of the amounts determined under clause (ii).

"(3) CONTRIBUTIONS AFTER AGE 70½.—Contributions may be made by an individual to an individual retirement plus account after such individual has attained the age of 70½.

"(4) LIMITATIONS ON ROLLOVER CONTRIBUTIONS.—No rollover contributions may be made to an individual retirement plus account unless such rollover contribution is a contribution of a distribution or payment out of—

"(A) another individual retirement plus account, or

"(B) an individual retirement plan which is not allocable to any amount transferred to such plan which represented any portion of the balance to the credit of an employee in a qualified trust (or any income allocable to such portion).

"(d) DISTRIBUTION RULES.—For purposes of this title—

"(1) IN GENERAL.—Except in the case of a qualified distribution, the rules of paragraphs (1) and (2) of section 408(d) shall apply to any distribution from an individual retirement plus account.

"(2) TREATMENT OF QUALIFIED DISTRIBUTION.—In the case of a qualified distribution from an individual retirement plus account—

"(A) the amount of such distribution shall not be includible in gross income; and

"(B) section 72(t) shall not apply.

"(3) QUALIFIED DISTRIBUTION.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'qualified distribution' means any distribution—

"(i) made on or after the date on which the individual attains age 59½,

"(ii) made to a beneficiary (or to the estate of an individual) on or after the death of the individual,

"(iii) attributable to the employee's being disabled (within the meaning of section 72(m)(7)), or

"(iv) which is a qualified special purpose distribution (within the meaning of subsection (e)).

"(B) DISTRIBUTIONS WITHIN 5 YEARS.—No distribution shall be treated as a qualified distribution if—

"(i) it is made within the 5-taxable year period beginning with the 1st taxable year in which the individual made a contribution to an individual retirement plus account, or

"(ii) in the case of a distribution properly allocable to a rollover contribution (or income allocable thereto), it is made within 5 years of the date on which such rollover contribution was made.

"(4) SPECIAL RULES RELATING TO ROLLOVERS FROM REGULAR INDIVIDUAL RETIREMENT ACCOUNTS.—

"(A) IN GENERAL.—Except as provided in this paragraph, any amount paid or distributed out of an individual retirement plan on or before the earlier of—

"(i) the date on which the individual attains age 55, or

"(ii) January 1, 1992,

shall not be included in gross income (and section 72(t) shall not apply to such amount) if the individual receiving such amount transfers, within 60 days of receipt, the entire amount received to an individual retirement plus account.

"(B) TREATMENT OF TAX-FAVORED AMOUNTS.—

"(i) IN GENERAL.—Notwithstanding subparagraph (A), there shall be included in gross income (but section 72(t) shall not apply to) the portion of any amount transferred which bears the same ratio to such amount as—

"(I) the aggregate amount of contributions to individual retirement plans with respect to which a deduction was allowable under section 219, bears to

"(II) the aggregate balance of such plans.

"(ii) TIME FOR INCLUSION.—Any amount described in clause (i) shall be included in gross income ratably over the 4-taxable year period beginning with the taxable year in which the amount was paid or distributed out of the individual retirement plan.

"(e) QUALIFIED SPECIAL PURPOSE DISTRIBUTION.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified special purpose distribution' means—

"(A) a qualified first-time homebuyer distribution, or

"(B) an applicable medical or educational distribution.

"(2) 25 PERCENT ACCOUNT LIMIT.—A distribution shall not be treated as a qualified special purpose distribution to the extent it exceeds the amount (if any) by which—

"(A) 25 percent of the sum of—

"(i) the aggregate balance of individual retirement plus accounts established on behalf of an individual, plus

"(ii) the aggregate amounts previously treated as qualified special purpose distributions, exceeds

"(B) the amount determined under subparagraph (A)(ii).

"(3) DISTRIBUTIONS USED TO PURCHASE A HOME BY FIRST-TIME HOMEBUYER.—For purposes of paragraph (1)—

"(A) IN GENERAL.—The term 'qualified first-time homebuyer distribution' means any payment or distribution received by a first-time homebuyer from an individual retirement plan to the extent such payment or distribution is used by the individual before the close of the 60th day after the day on which such payment or distribution is received to pay qualified acquisition costs with respect to a principal residence for such individual.

"(B) BASIS REDUCTION.—The basis of any principal residence described in subparagraph (A) shall be reduced by any amount excluded from the gross income of such first-time homebuyer by reason of this section.

"(C) RECOGNITION OF GAIN AS ORDINARY INCOME.—

"(i) IN GENERAL.—Notwithstanding any other provision of this subtitle, except as provided in clause (ii)—

"(I) gain (if any) on the sale or exchange of a principal residence to which subparagraph (A) applies shall, to the extent of the amount excluded from gross income under this section, be treated as ordinary income by such individual, and

"(II) section 72(t) shall apply to such amount.

"(ii) EXCEPTION.—Clause (i) shall not apply to any taxable year to the extent of

any amount which, before the due date (without extensions) for filing the return for such year, the taxpayer contributes to an individual retirement plus account. Such amount shall not be taken into account for purposes of any provision of this title relating to excess contributions.

"(iii) COORDINATION WITH OTHER PROVISIONS.—In the event all or part of the gain referred to in clause (i) is treated as ordinary income under any other provision of this subtitle, such provision shall be applied before clause (i).

"(D) SPECIAL RULE WHERE DELAY IN ACQUISITION.—If—

"(i) any amount is paid or distributed from an individual retirement plus account to an individual for purposes of being used as provided in subparagraph (A), and

"(ii) by reason of a delay in the acquisition of the residence, such amount cannot be so used,

the amount so paid or distributed may be paid into an individual retirement plus account as provided in section 408(d)(3)(A)(i) without regard to section 408(d)(3)(B), and, if so paid into such other plan, such amount shall not be taken into account in determining whether section 408(d)(3)(A)(i) applies to any other amount.

"(E) DEFINITIONS.—For purposes of this paragraph—

"(i) QUALIFIED ACQUISITION COSTS.—The term 'qualified acquisition costs' means the costs of acquiring, constructing, or reconstructing a residence. Such term includes any usual or reasonable settlement, financing, or other closing costs.

"(ii) FIRST-TIME HOMEBUYER.—The term 'first-time homebuyer' means any individual if such individual (and if married, such individual's spouse) had no present ownership interest in a principal residence during the 3-year period ending on the date of acquisition of the principal residence to which this paragraph applies.

"(iii) PRINCIPAL RESIDENCE.—The term 'principal residence' has the same meaning as when used in section 1034.

"(iv) DATE OF ACQUISITION.—The term 'date of acquisition' means the date—

"(I) on which a binding contract to acquire the principal residence to which subparagraph (A) applies is entered into, or

"(II) on which construction or reconstruction of such a principal residence is commenced.

"(4) APPLICABLE MEDICAL DISTRIBUTIONS.—For purposes of paragraph (1), the term 'applicable medical distributions' means any distributions made to an individual (not otherwise taken into account under this subsection) to the extent such distributions do not exceed the amount allowable as a deduction under section 213 for amounts paid during the taxable year for medical care (without regard to whether the individual itemized deductions for the taxable year).

"(5) DISTRIBUTIONS FROM INDIVIDUAL RETIREMENT PLUS ACCOUNTS FOR EDUCATIONAL EXPENSES.—

"(A) IN GENERAL.—For purposes of paragraph (1), the term 'applicable educational distributions' means distributions to an individual to the extent that the amount of such distributions (not otherwise treated as qualified special purpose distributions, determined after application of paragraph (4)) does not exceed the qualified higher education expenses of the individual for the taxable year.

"(B) QUALIFIED HIGHER EDUCATION EXPENSES.—For purposes of subparagraph (A)—

"(i) IN GENERAL.—The term 'qualified higher education expenses' means tuition, fees, books, supplies, and equipment required for the enrollment or attendance of—

"(I) the taxpayer,

"(II) the taxpayer's spouse, or

"(III) the taxpayer's child (as defined in section 151(c)(3)) or grandchild,

at an eligible educational institution (as defined in section 135(c)(3)).

"(ii) COORDINATION WITH SAVINGS BOND PROVISIONS.—The amount of qualified higher education expenses for any taxable year shall be reduced by any amount excludable from gross income under section 135.

"(f) ROLLOVER CONTRIBUTIONS.—For purposes of this section, the term 'rollover contributions' means contributions described in sections 402(a)(5), 402(a)(7), 403(a)(4), 403(b)(8), and 408(d)(3).

"(g) DETERMINATIONS.—For purposes of this section, any determinations with respect to aggregate contributions to, or the balance of, individual retirement plus accounts shall be made as of the close of the calendar year preceding the calendar year in which the taxable year begins."

(b) MINIMUM TAX.—Section 56(b) is amended by adding at the end thereof the following new paragraph:

"(4) EXCLUSIONS ON INDIVIDUAL RETIREMENT PLUS ACCOUNTS.—Section 408A(d)(2) shall not apply to any qualified distribution from an individual retirement plus account."

(c) CONFORMING AMENDMENT.—The table of sections for subpart A of part I of subchapter D of chapter 1 is amended by inserting after the item relating to section 408 the following new item:

"Sec. 408A. Individual retirement plus accounts."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1989.

NOTICES OF HEARINGS

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. INOUYE. Mr. President, I would like to announce that the Select Committee on Indian Affairs will be holding a markup on Tuesday, November 14, 1989, beginning at 9:30 a.m., in 485 Russell Senate Office Building on S. 1096 (S. 1336), to provide for the use and distribution of funds awarded the Seminole Indians; S. 1781, the Native American Language Act; and S. 1846, to make miscellaneous amendments to Indian laws, and for other purposes to be followed by an oversight hearing on Indian veterans.

Those wishing additional information should contact the Select Committee on Indian Affairs at 224-2251.

SUBCOMMITTEE ON FEDERAL SERVICES, POST OFFICE, AND CIVIL SERVICE

Mr. PRYOR. Mr. President, I would like to announce that the Subcommittee on Federal Service, Post Office, and Civil Service, of the Committee on Governmental Affairs, will hold a hearing on November 17, 1989, on S. 166, the Consultant Registration and Reform Act of 1989. The subcommittee will hear witnesses from the Department of Housing and Urban Development and the private sector.

The hearing is scheduled for 9:30 a.m., in room SD-342, Senate Dirksen Office Building. For further information, please call Ed Gleiman, subcommittee staff director, on 224-2254.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. SIMON. Mr. President, I ask unanimous consent that the full committee of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, 2 p.m., today to continue the October 5 and the October 31 hearings to receive testimony on the Department of Energy's efforts to improve the operations and management of its atomic energy defense activities and its efforts to restore public credibility in the Department's ability to operate its facilities in a safe and environmentally sound manner and on Senate bills S. 972, S. 1304, and S. 1802.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

THE CALL TO CONSCIENCE VIGIL

● Mr. COATS. Mr. President, I rise today on behalf of Mr. Mark Kotlyar and his family, who have been denied the right to emigrate from the Soviet Union since 1978. Based on his education at the Moscow Institute of Physics and Technology and his position as an apprentice in the radio industry between 1972 and 1975, Mark has been denied an emigration visa for the last 10 years because of his alleged knowledge of state secrets. The absurdity of this excuse is blatant. The mere fact that Mark received a masters degree in physics and was an apprentice in the ministry of Radio industries over 14 years ago is hardly a credible reason for denying him the right to emigrate. It is difficult to believe that a university student and an apprentice in his first job would have had access to truly secret information.

Mr. President, this is another painful example of Soviet authorities using the specious state secrets and poor relatives' excuses for denying Jewish refuseniks the right to emigrate from the U.S.S.R. Once an individual is categorized as possessing secret information, it is a bureaucratic nightmare to be removed from this list, a prerequisite to being granted an emigration visa. Despite initial signs of reform in Soviet emigration policy, the denial rates on these grounds remain high, and all the bureaucratic obstacles to removing secret status remain. Such

impediments fly in the face of President Gorbachev's reform efforts and discredit his attempts to establish greater openness.

I deeply sympathize with the struggle of Soviet Jews for religious and cultural freedom. I believe that the United States Government must continue to pressure the Soviet leadership to institutionalize emigration reforms. Moreover, in addition to basic emigration reforms, I believe that the Soviet Government must make every attempt to reverse the discrimination that Jews continue to suffer within the Soviet Union, especially since glasnost has contributed to a resurgence of antisemitism.

I hope that President Bush will raise the issue of refuseniks with President Gorbachev at their upcoming mini-summit meeting in Malta. In my view, we have significant economic leverage over Soviet policy, and we should use it constructively. In particular, before issuing a waiver of the Jackson-Vanik amendment, which would grant most-favored-nation trading status, the United States should insist that the Soviets codify in law the human rights and emigration reforms that are currently being discussed. We must have concrete evidence that they have eliminated the arbitrary practice of denying visas on the basis of state secrets and poor relatives before any serious consideration be given to a waiver of Jackson-Vanik. At a minimum the Soviets must seriously streamline the bureaucratic process currently required to remove secret status. While there is certainly a legitimate need to protect state secrets, the current use of this excuse to deny refusenik visas is exaggerated and appalling. Soviet assurances of future reforms and changes are not enough. Before providing the economic benefits of most-favored-nation trading status, we should therefore insist on irreversible reform of Soviet emigration policy.

Mr. President, Mark Kotlyar and his family have been waiting for the last decade for permission to reunite their family. Mark's case, however, has importance beyond the immediate interests of his family. Mark is the leader of the Kiev refusenik movement, and his release would be of tremendous symbolic value for the movement as a whole. His release would significantly bolster the confidence of Soviet refuseniks and help to eliminate the intimidation and discrimination that Jewish refuseniks have suffered for so long.

Mr. President, it is my intention to write to President Gorbachev and other appropriate Soviet authorities on behalf of Mark Kotlyar. He has been denied the right to emigrate for too long. It is my hope that the Soviet Government will not only look at Mark's case favorably but also reevaluate their overall emigration policy. I believe that the United States Congress can make a significant impact on Soviet policy. I commend the Congressional Call to Conscience Vigil for its consistent effort in this regard. I am proud to participate in this effort, and I encourage other Members of Congress to join me in calling for the release of Mark Kotlyar and the remaining refuseniks who await the opportunity to exercise basic freedoms, too often taken for granted in the West.●

THE MEANING OF SACRIFICE

● Mr. McCONNELL. Mr. President, last Saturday, November 11, our country observed Veterans Day. On this occasion, we honored the memory of our veterans from the Revolutionary War to the Mexican War, from World War I to Vietnam.

It has been only a short time, Mr. President, that our country officially recognized the service and sacrifices these Americans made in the interests of freedom and democracy. On November 11, 1918, World War I came to a bloody end, with over 10 million lives lost on the battlefields in Europe. President Woodrow Wilson declared that henceforth, America would recognize that day of peace as "Armistice Day" in honor of those who died in combat. President Wilson felt that America should be "* * * filled with solemn pride in the heroism of those who died in the country's service * * *."

Unfortunately, America was soon to return to combat in Europe. Following World War II and Korea, President Dwight Eisenhower signed legislation proclaiming November 11 as "Veterans Day," when all who served in the Armed Forces would be recognized for their service. On November 11, Mr. President we now honor the true sons of liberty, defenders of freedom and democracy: America's veterans.

As I watch events unfold in Eastern Europe, I am reminded how precious and special our freedoms are. Barbed wire, barricades, and armed soldiers do not keep Americans in the United States. We move and think freely, Mr. President, we are united by a love for democracy and pride in our country. Our veterans are to be thanked for keeping America safe and free.

On this special day we all have occasion to reflect on the meaning of sacrifice: To think of those who have shed blood to keep our Nation strong. Veterans Day is a day of peace, one to take pride, as President Wilson suggested, in those who have served in our Armed Forces.●

A TRIBUTE TO MARSING HIGH SCHOOL

● Mr. McCLURE. Mr. President, I rise today to tell my colleagues a brief story with a lesson for all of us. It is a story about a group of young people who displayed courage, wisdom, and honesty and who proved to their parents and community that they will not tolerate racial injustice.

Along the banks of the Snake River in northwestern Owyhee County, the town of Marsing, ID, has a small population of 800 people. It is a nice little community where nearly everyone in town knows each other and where you wouldn't expect to find racial tensions.

This fall, everyone in Marsing learned that sometimes racism creeps into our lives without us really even being aware of it. It took a bunch of high school kids to bring this lesson home.

During Marsing High School football games, Hispanic players were the targets of racial slurs from some adults in the football stands. After a Hispanic team member would drop a pass or miss a tackle, biting racial insults would come from a few white adults in the bleachers.

Feelings were running high at the 129-student rural school, of which roughly a quarter are Hispanic. On September 25, the 10 Hispanics on the 21-member football team boycotted practice as a result of the racial insults. In addition, a troubled Hispanic team member, Ernesto "Neto" Villarreal, 16, appeared alone before the school district's board of trustees to lead the antiracist resistance.

In small towns like Marsing, the activities of the schools are very important. Entire community pride can center around them. The planned boycott would have dismantled the football team and school, and community spirit could have been severely harmed. But principal Bill Duncanson saw an opportunity in the crisis for Marsing High School students to stand up to the intolerance of a handful of racist adults. He told the athletes, "By quitting, you're letting those jerks in the stands win. They're winning and you're quitting."

The student council later voted unanimously to fight against racist language at school functions. Hispanic team members, convinced by the quick response, returned to football practice.

The culmination of this defense against racism came during the homecoming game on September 29. With the support of Marsing mayor Gene Showalter and the school's administrators, the Marsing student body—whites and Hispanics united—handed a statement to adults entering the homecoming game. The students' statement that was read to fans at the game was quite clear:

> We, the student body of Marsing High School, are appalled by the racist behavior of certain people in the audience. Not only does this set a bad example for some younger students, it also reflects very badly on our entire school and community.

Although we appreciate the support of our fans for our team, which is composed of students from many ethnic backgrounds, we do not need bigots here.

We are asking the authorities to eject from the premises anyone making such racist and rude remarks.—Marsing High School student body.

Mr. President, a younger generation in Marsing, ID, has taken the lead and made a statement to us all. More importantly, they have made a promise to themselves that they will not tolerate racism. I am frankly very proud of these young people. They give me great hope that our leaders of tomorrow will continue making strides for the equality of all people.

I salute the students of Marsing High School and am sure the U.S. Senate joins me in wishing them a very successful school year.●

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations:

Calendar No. 478, Martin L. Allday, to be a member of the Federal Energy Regulatory Commission;

Calendar No. 479, Richard H. Melton, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federative Republic of Brazil;

Calendar No. 480, Cresencio S. Arcos, Jr., to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Honduras; and

All nominations placed on the Secretary's desk in the Foreign Service.

I further ask unanimous consent that the nominees be confirmed, en bloc, that any statements appear in the RECORD as if read, that the motions to reconsider be laid upon the table, en bloc, that the President be immediately notified of the Senate's action, and that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations, considered and confirmed en bloc, are as follows:

DEPARTMENT OF ENERGY

Martin Lewis Allday, of Texas, to be a member of the Federal Energy Regulatory Commission for a term expiring October 20, 1993.

DEPARTMENT OF STATE

Richard Huntington Melton, of Virginia, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Federative Republic of Brazil.

Cresencio S. Arcos, Jr., of Texas, a career member of the Senior Foreign Service, class of counselor, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Honduras.

NOMINATIONS PLACED ON THE SECRETARY'S DESK IN THE FOREIGN SERVICE

Foreign Service nominations beginning Charles E. Courtney, and ending Nyoka White, which nominations were received by the Senate on October 30, 1989, and appeared in the CONGRESSIONAL RECORD of October 31, 1989.

Foreign Service nominations beginning Reginald Howard, and ending Albert L. Bryant, which nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD of November 2, 1989.

STATEMENT ON THE NOMINATION OF MARTIN L. ALLDAY

Mr. McCLURE. Mr. President, on November 8, 1989, the Committee on Energy and Natural Resources favorably reported the nomination of Martin L. Allday to be a member of the Federal Energy Regulatory Commission by a vote of 18 to 0.

It has been less than 4 months since Mr. Allday was confirmed by the Senate as solicitor of the Department of the Interior. This recent experience with the executive branch, combined with his extensive experience in oil and gas law, make him well qualified to be a member of the FERC.

Mr. President, I urge my colleagues to join me in supporting Mr. Allday's confirmation as a member of the Federal Energy Regulatory Commission.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now resume legislative session.

NATIONAL ADOPTION WEEK

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of House Joint Resolution 278, a joint resolution to designate November 20 through 26, 1989, as "National Adoption Week," and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, the clerk will report.

The assistant legislative clerk read as follows:

A joint resolution (H.J. Res. 278) designating the period commencing on November 20, 1989, and ending on November 26, 1989, as "National Adoption Week."

The PRESIDING OFFICER. Is there objection to the present consideration of the joint resolution?

There being no objection, the Senate proceeded to consider the joint resolution.

The PRESIDING OFFICER. The joint resolution is before the Senate and open to amendment.

If there be no amendment to be offered, the question is on the third reading and passage of the joint resolution.

The joint resolution (H.J. Res. 278) was ordered to a third reading, was read the third time, and passed.

The preamble was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER TO PRINT FINAL VOLUME OF PROCEEDINGS ON NIXON IMPEACHMENT TRIAL

Mr. MITCHELL. Mr. President, on behalf of the distinguished Senator from Georgia [Mr. FOWLER], who served as chairman of the Impeachment Trial Committee on the articles against Judge Walter L. Nixon, Jr., I ask unanimous consent that the customary final volume of proceedings on the Nixon impeachment trial be printed as a Senate document.

The PRESIDING OFFICER. Without objection, it is so ordered.

DETERMINATION OF PREMIUM PAY FOR IRREGULAR, UNSCHEDULED OVERTIME DUTY BY A FEDERAL EMPLOYEE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 215, a bill with respect to the method by which premium pay is determined for irregular, unscheduled overtime duty performed by a Federal employee.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 215) to amend title V, United States Code with respect to the method by which premium pay is determined for irregular, unscheduled overtime duty performed by a Federal employee.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. DOLE. Mr. President, I would like to take a few moments to express my strong support for H.R. 215, which was passed earlier today by the House of Representatives under the leadership of Congresswoman MARY ROSE OAKAR. H.R. 215 is virtually identical to my amendment to S. 1711, the legislation implementing President Bush's anti-drug strategy. This amendment was included in the final version of S. 1711 passed last month by the Senate.

Mr. President, our Nation's war against drugs will not be won in a single battle. It will be won over a period of many years, with many battles, and with the continued dedication of our Nation's law enforcement officers.

To his credit, President Bush has recognized the importance of strengthening our law enforcement army. In the anticrime package sent to Con-

gress last June, for example, the President authorized funding for an additional 300 FBI agents. He also authorized funding for more U.S. marshals and more agents in the Bureau of Alcohol, Tobacco and Firearms.

EXPERIENCE HAS NO PRICE TAG

Hiring more FBI agents and other law enforcement officers is crucially important in our war against drugs—there is little to debate about on this issue.

But—it seems to me—that it is more crucial to ensure that our experienced, trained troops—those troops that are already in the trenches and on the streets—receive adequate pay. And we must make sure that these troops continue to find it worthwhile—financially and otherwise—to remain on the job. This country simply cannot afford to lose their valuable experience—experience that I believe has no price tag.

THE PROBLEM OF ATTRITION

Unfortunately, it is a sad fact that we are losing trained, experienced FBI agents, DEA agents, and other law enforcement officers. Last year, for example, more FBI agents resigned from the Bureau than retired. It is my understanding that this is the very first time in the Bureau's history that such a situation has occurred.

But—to tell you the truth—I can understand why an FBI agent would consider the resignation route. Just like everybody else, the FBI agents has to put food on the family table too.

Several years ago, the starting salary for an FBI agent was equivalent to that of a lieutenant in the New York City Police Department. Today, the starting salary for an FBI agent is lower than that of a New York City rookie cop.

And it is important to recognize that the educational and work experience requirements for FBI agents are far more stringent than the requirements of most local and State law enforcement agencies.

In fact, almost 47 percent of the FBI agents today have advanced degrees in law, in public accounting, in business administration, in the sciences, and in other fields. I cannot think of a single State or local law enforcement agency that can boast of a more highly educated and technically qualified work force. Yet, FBI agents receive a base pay and overtime pay that are inferior to what most other law enforcement agencies can offer their employees.

DESCRIPTION OF H.R. 215

Mr. President, H.R. 215 provides a partial remedy to this problem. It authorizes a modest increase in the premium for administratively uncontrollable overtime—the type of overtime work often undertaken by FBI agents and other Federal law enforcement officers in the long, and often lonely, war against drugs.

Under current law, administratively uncontrollable overtime is compensated at a maximum rate of 25 percent of an employee's base salary. Nevertheless, overtime pay for those employees—mostly law enforcement officers—who earn more than a GS-10 is limited to a maximum of 25 percent of a GS-10 salary. H.R. 215 simply increases the overtime premium so that it equals 25 percent of an agent's actual rate of pay.

After the Senate passed my amendments to S. 1711, the House acted quickly to take up H.R. 215.

Prior to passage, however, the House amended H.R. 215 to delay the effective date of the bill until September 30, 1990. In my view, this amendment is a good one. It will give the FBI, the Drug Enforcement Agency, the Department of the Treasury, and the other interested Federal agencies, the opportunity to review their budgets in anticipation of an increase in the overtime premium.

CONCLUSION

Mr. President, this is not a pay issue—it is an issue of simple equity. It is also an issue of very practical importance in our war against the drug lords.

The solution proposed by H.R. 215 is a modest one. And it is a solution that will go a long way toward giving our Nation's law enforcement officers some sorely needed financial security.

Mr. COATS. Mr. President, if we are to be able to win the war on drugs, we must provide the necessary support for those who are fighting on the front line of this war. We cannot afford underpaid or demoralized law enforcement forces. We cannot afford to lose our best trained crime fighters to early retirement or to employment elsewhere. The FBI, the Drug Enforcement Administration, the Customs, and other Federal law enforcement agencies cannot be truly effective in their efforts to stop drug trafficking and arrest other criminals if their agents are not compensated adquately or sufficiently motivated to do their job to the utmost or if the cadre of qualified personnel is no longer available.

As a member of the National Advisory Commission on Law Enforcement, I have become more keenly aware of the problems confronting Federal law enforcement arising from inequities in pay and benefits. The NACLE, to which I was appointed by the distinguished minority leader, is chaired by the Comptroller General, and consists of 21 members, including the Secretary of the Treasury, the Attorney General, the head of the Drug Enforcement Administration, the Director of the FBI, the Director of the Office of Personnel Management, the presidents of the AFGE and the Federal Law Enforcement Officers Association, representatives of other Federal law enforcement agencies, and six Members of Congress. We are charged with the responsibility to study the methods and rates of compensation, including salary, overtime pay, retirement policies, and other benefits of Federal law enforcement officers, compare them with the methods and rates of compensation of State and local law enforcement officers in representative areas, and recommend changes in Federal pay practices, where needed.

The Commission has received considerable evidence that Federal law enforcement agencies are facing serious recruitment and retention and morale problems, and that inadequate Federal pay and benefits are major causes. Among the specific matters which the NACLE has addressed in its survey and study of law enforcement across our country is the issue of overtime. The bill now before the Senate, H.R. 215, helps to address this issue by changing the methods by which Federal law enforcement officers are compensated for overtime duty, under the administrative uncontrollable overtime [AUO] system.

Current law stipulates that a Federal law enforcement officer must be paid overtime computed on the base pay of an entry level position rather than on the actual rate of pay for an employee's specific position. Section 5545 of title V of the United States Code provides for premium pay for an employee in a position requiring substantial irregular, unscheduled overtime which cannot be controlled administratively. This section requires that such pay be computed on the base pay of an entry level position, which happens to be the maximum level on which AUO can be computed.

AUO is paid to employees in positions in which the hours of duty cannot be controlled administratively and which entail substantial amounts of irregular overtime duty. AUO pay is authorized at the rate of not less than 10 percent to not more than 25 percent of that part of an employee's base pay which does not exceed the base pay at the GS-10 step 1 level. An employee paid under AUO cannot receive more pay per pay period than the biweekly base salary of an employee at the GS-15 step 10 level. The percentage to which an employee is entitled is determined quarterly on the number of hours overtime worked in a week. Thus, covered employees working between 3 and 5 hours of overtime in a week receive 10 percent AUO pay, whereas employees working 9 or more hours of overtime receive 25 percent AUO pay.

The result is that FBI agents, who routinely log substantial amounts of irregular, unscheduled overtime, receive only 25 percent of the base of an entry level salary, rather than 25 percent of their actual rate of pay. As a

group FBI agents average about 2½ hours of AUO duty daily. While section 5545 provides some measure of compensation for the hundreds of additional hours they must spend in their jobs annually, this form of overtime computes to an amount considerably less than straight time. In fact, this system creates an anomaly whereby an agent could end up working for nothing if he or she works enough extra hours. It is no wonder that FBI agents complain that they are not being paid enough for the amount of overtime they must put in in their kind of work. It is illogical and unjust for any Federal agent to be paid less for working more hours overtime than for regular 8-hour duty.

To add to the problem, most State and local law enforcement personnel are treated more equitably, receiving higher premium pay for overtime duty. According to NACLE surveys, 90 percent of State and local organizations provide overtime pay, and of those that do, 74 percent pay time and a half for all overtime hours worked, and 93 percent indicated there is no limit on the amount of overtime pay an employee can receive.

This system has led to substantial erosion in real pay—purchasing power—and benefits in recent years and has created a serious morale problem among Federal law enforcement officers. I am informed by the FBI Agents Association that this is the No. 1 issue among their agents. The FBI is facing a severe shortage of trained personnel as a consequence of planned retirement among their senior, most experienced agents. An improvement in overtime pay will forestall many retirements in the Bureau. Not surprisingly, the FBI recommended that the administration support H.R. 215.

H.R. 215 would relieve this situation by requiring that AUO be computed on the basis of an employee's current pay rate, so that Federal agents would not be restricted to overtime pay based on an arbitrary limit, but at their own grade rate. Thus, premium pay would be an appropriate percentage, between 10 percent and 25 percent, of the rate of basic pay for the employee's position, taking into account the frequency and duration of irregular, unscheduled overtime. The employees affected include agents of the FBI, DEA, Immigration and Naturalization Service, Customs, Bureau of Alcohol, Tobacco, and Firearms, and the Secret Service. Only those in the Marshals Service, Probation and Corrections are not covered because they are paid overtime on a straight-time basis.

At the last meeting of the NACLE on October 31, a majority of those commission members present voted unanimously to endorse H.R. 215 as a remedy to the overtime problem. The NACLE, by the way, represents the position of 47,000 Federal law enforcement officers.

I should add that OPM opposes this bill because they prefer an overall review of Federal overtime policies rather than the piecemeal approach. Mr. President, we cannot afford to await such a long-range across-the-board solution for all Federal personnel, desirable as that may be. The manpower crisis facing federal law enforcement must be remedied immediately.

Mr. President, I strongly support this legislation. To me, this is really a matter of equity and a technical adjustment, not just a pay issue. FBI and DEA agents, who will be the chief beneficiaries, deserve to be paid fairly for the long hours they devote to investigations that lead to the capture and arrest of serious criminals, including drug kingpins. I have heard from many agents residing in Indiana who have urged me to support this kind of change in overtime pay.

I realize that this change will not be inexpensive. CBO and OMB estimate that H.R. 215 would cost between $80 and $100 million annually, which would have to be absorbed by the agencies in their own budgets. I note that, as amended by the House Apropriations Committee and passed by the House, H.R. 215 would not become effective until September 30, 1990. This will not only ease the budgetary impact on the affected agencies and departments, but it will give the appropriations committees sufficient time to provide the necessary funding for fiscal year 1991.

Mr. President, I have consistently supported efforts to fully fund the Anti-Drug Abuse Act of 1988 and I supported the President's drug strategy and crime package and voted for funding to implement these programs. The price of ridding our communities of major crime and protecting our families from the scourge of drugs and menace of drug dealers is not too high. I shall certainly work to ensure that these agencies, which are already strapped to meet their crime fighting and other obligations under the law, receive the funding they need to pay their agents and law enforcement personnel. We cannot ask these men and women to put themselves on the line for us and our loved ones and risk their own lives and then fail to compensate them adequately for their toil and sacrifice.

Mr. President, I am pleased to be a cosponsor of H.R. 215, and I urge my colleagues to vote for this important legislation.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment.

If there is no amendment to be offered, the question is on the third reading and passage of the bill.

The bill (H.R. 215) was ordered to a third reading, was read the third time, and passed.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

TRANSFER OF NAVAL LANDING SHIP DOCK

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 3544, a bill to authorize the transfer of a specified naval landing ship dock to the Government of Brazil, just received from the House.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3544) to authorize the transfer of a specified naval landing ship dock to the Government of Brazil under the leasing authority of chapter 6 of the Arms Export Control Act.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there is no amendment to be offered, the question is on the third reading and passage of the bill.

The bill (H.R. 3544) was ordered to a third reading, was read the third time, and passed.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. COCHRAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

MEASURE PLACED ON CALENDAR

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Foreign Relations Committee be discharged from further consideration of H.R. 1495, the Arms Control Authorization Act of 1989, and that the bill be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS-CONSENT AGREEMENT—S. 1582

Mr. MITCHELL. Mr. President, I ask unanimous consent that the following amendments be the only first-degree amendments remaining in order to S. 1582, and that if offered they be offered in the following order:

First, an amendment by Senator HARKIN regarding cargo preference which will not include any language on a Great Lakes set-aside.

Second, an amendment by Senator DOLE regarding cargo preference which will not include any language regarding a Great Lakes set-aside.

Third, another amendment by Senator DOLE on cargo preference which will not include any language regarding a Great Lakes set-aside.

Fourth, an amendment by Senator DANFORTH on tax extenders.

I further ask unanimous-consent that the only amendment opened to second-degree amendments be the Danforth amendment and that they be relevant to the Danforth amendment; that no motions to recommit be in order; that immediately upon disposition of these amendments and the Roth amendment the Senate proceed to the adoption of the committee substitute as amended and third reading of the bill, after which the Senate proceed to the House companion H.R. 3402, and that all after the enacting clause be stricken and the text of S. 1582 as amended be substituted in lieu thereof, and the Senate proceed immediately to third reading and final passage of the bill.

The PRESIDING OFFICER. Is there objection?

The Senator from Mississippi.

Mr. COCHRAN. To clarify my understanding, in describing the three amendments—one by Senator HARKIN and two by Senator DOLE—that deal with cargo preference, the leader states the unanimous-consent request that those amendments would not contain language relating to a Great Lakes set-aside requirement.

I have reviewed copies of the two Dole amendments that are proposed to be offered. I have not personally seen the amendment proposed to be offered by Senator HARKIN, but there is on page 2 of both of the Dole amendments language which does not specifically say that it amounts to an extension of the set-aside preference for Great Lakes ports. But if such language would have that legal effect, is it my understanding that that language would be considered stricken from the amendment as it is offered; to be in order, that language would have to be stricken?

Mr. MITCHELL. I have not personally seen any of the three amendments regarding cargo preference, but it is my understanding that in order to qualify to be offered pursuant to this unanimous-consent agreement, that any of the three—that is, the one by Senator HARKIN and the two by Senator DOLE—could not include the prohibited language regarding the Great Lakes set-aside.

Mr. COCHRAN. Mr. President, I thank the distinguished leader for his explanation. I withdraw my reservation.

The PRESIDING OFFICER. Without objection, the proposal is agreed to.

Mr. MITCHELL. Mr. President, may I ask that the Chair withhold acting on my unanimous-consent request momentarily?

The PRESIDING OFFICER. The Chair withholds.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I amend my unanimous-consent request to add an amendment by Senator HUMPHREY regarding Solidarity to the fourth amendment in order; that is, after the second Dole amendment and prior to the Danforth amendment.

The PRESIDING OFFICER. Is there objection? Without objection, the entire request of the majority leader is agreed to.

The text of the agreement reads as follows:

Ordered, That when the Senate resumes consideration of S. 1582, a bill to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland, the following amendments be the only first degree amendments in order, and if offered, to be offered in the following order:

Harkin amendment—relative to cargo preference, which will not include any language on a Great Lakes set-aside;

Dole amendment—relative to cargo preference, which will not include any language on a Great Lakes set-aside;

Dole amendment—relative to cargo preference, which will not include any language on a Great Lakes set-aside; and

Humphrey amendment—relative to Solidarity.

Danforth amendment—relative to tax extenders;

Ordered further, That the only amendment open to second degree amendments be the Danforth amendment and that they be relevant to the Danforth amendment.

Ordered further, That no motions to recommit be in order.

Ordered further, That immediately upon disposition of these amendments and the Roth amendment, the Senate proceed to the adoption of the committee substitute, as amended, and third reading of the bill, after which the Senate proceed to the House companion and that all after the enacting clauses be stricken and the text of S. 1582, as amended, be substituted in lieu thereof, and the Senate proceed immediately to third reading and final passage of the bill. (Nov. 13, 1989)

ORDER TO PRINT THE CAPITAL GAINS AMENDMENT

Mr. MITCHELL. Mr. President, I ask unanimous consent that an amendment by Senator PACKWOOD, regarding capital gains and IRA's, filed today and to be offered as a substitute tomorrow pursuant to a previous order, be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

ORDERS FOR TOMORROW

RECESS UNTIL 10 A.M., MORNING BUSINESS, AND RESUME CONSIDERATION OF S. 1582

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate completes its business today it stand in recess until 10 a.m., tomorrow, Tuesday, November 14, 1989, and that following the time for the two leaders there be a period for morning business until 10:30 a.m., with Senators permitted to speak therein for up to 5 minutes each.

At 10:30 a.m., the Senate will resume consideration of S. 1582.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS FROM 12:30 P.M. TO 2:15 P.M.

Mr. MITCHELL. Mr. President, I now ask unanimous consent that on tomorrow the Senate stand in recess from 12:30 p.m. to 2:15 p.m., in order to accommodate the party confernces.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS UNTIL 10 A.M. TOMORROW

Mr. MITCHELL. Mr. President, if the distinguished acting Republican leader has no further business and if no other Senator is seeking recognition, I now ask unanimous consent that the Senate stand in recess under the previous order until 10 a.m. tomorrow, Tuesday, November 14, 1989.

There being no objection, the Senate, at 8:31 p.m., recessed until Tuesday, November 14, 1989, at 10 a.m.

NOMINATIONS

Executive nominations received by the Senate November 13, 1989:

DEPARTMENT OF DEFENSE

SUSAN J. CRAWFORD, OF MARYLAND, TO BE INSPECTOR GENERAL, DEPARTMENT OF DEFENSE, VICE JUNE GIBBS BROWN, RESIGNED.

DEPARTMENT OF JUSTICE

WALTER J. BAMBERG, OF ALABAMA, TO BE U.S. MARSHAL FOR THE MIDDLE DISTRICT OF ALABAMA FOR THE TERM OF 4 YEARS, VICE MELVIN E. JONES, RETIRED.

DONALD E. CROWL, OF OKLAHOMA, TO BE U.S. MARSHAL FOR THE NORTHERN DISTRICT OF OKLAHOMA, FOR THE TERM OF 4 YEARS, VICE HARRY CONNOLLY, RETIRED.

CHARLES E. HEALEY, OF NEW YORK, TO BE U.S. MARSHAL FOR THE EASTERN DISTRICT OF NEW YORK FOR THE TERM OF 4 YEARS (REAPPOINTMENT).

CRAIG L. MEACHAM, OF CALIFORNIA, TO BE U.S. MARSHAL FOR THE CENTRAL DISTRICT OF CALIFORNIA FOR THE TERM OF 4 YEARS VICE JULIO GONZALES, RESIGNED.

JAMES Y. STEWART, OF MICHIGAN, TO BE U.S. MARSHAL FOR THE EASTERN DISTRICT OF MICHIGAN FOR THE TERM OF 4 YEARS VICE ANTHONY BERTONI, TERM EXPIRED.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

MARTIN H. GERRY, OF CALIFORNIA, TO BE AN ASSISTANT SECRETARY OF HEALTH AND HUMAN SERVICES, VICE ROBERT B. HELMS, RESIGNED.

U.S. INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

H. DOUGLAS BARCLAY, OF NEW YORK, TO BE A MEMBER OF THE BOARD OF DIRECTORS FOR THE OVERSEAS PRIVATE INVESTMENT CORPORATION FOR THE TERM EXPIRING DECEMBER 17, 1991, VICE THOMAS A. BOLAN, RESIGNED.

IN THE COAST GUARD

PURSUANT TO THE PROVISIONS OF 14 USC 729, THE FOLLOWING-NAMED COMMANDERS OF THE COAST GUARD RESERVE TO BE PERMANENT COMMISSIONED OFFICERS IN THE COAST GUARD RESERVE IN THE GRADE OF CAPTAIN.

PETER L. MAIER
FRANKLIN D. HOFFMAN
THOMAS R. SKAIFE
WILLIAM G. BOYCE

CONFIRMATIONS

Executive nominations confirmed by the Senate November 13, 1989:

DEPARTMENT OF ENERGY

MARTIN LEWIS ALLDAY, OF TEXAS, TO BE A MEMBER OF THE FEDERAL ENERGY REGULATORY COMMISSION FOR A TERM EXPIRING OCTOBER 20, 1993.

DEPARTMENT OF STATE

RICHARD HUNTINGTON MELTON, OF VIRGINIA, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE FEDERATIVE REPUBLIC OF BRAZIL.

CRESENCIO S. ARCOS, JR., OF TEXAS, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF HONDURAS.

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

FOREIGN SERVICE

FOREIGN SERVICE NOMINATIONS BEGINNING CHARLES E. COURTNEY, AND ENDING NYOKA WHITE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON OCTOBER 31, 1989.

FOREIGN SERVICE NOMINATIONS BEGINNING REGINALD HOWARD, AND ENDING ALBERT L. BRYANT, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON NOVEMBER 2, 1989.

HOUSE OF REPRESENTATIVES—*Monday, November 13, 1989*

The House met at noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

As we hear of the new liberties in our world, we offer our word of thanks, O God, for all those who have prayed and worked for the gifts of freedom. For the congregations of faithful people who have prayed, for those who stood strong and risked so much, for the mothers and fathers who hoped for their children, for the leaders who have seen a vision of a new and better world, we offer this word of gratitude and praise. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from North Carolina [Mr. BALLENGER] come forward and lead the House in the Pledge of Allegiance?

Mr. BALLENGER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment a bill of the House of the following title:

H.R. 2642. An act granting the consent of the Congress to amendments to the southeast interstate low-level radioactive waste management compact.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3014) "An act making appropriations for the legislative branch for the fiscal year ending September 30, 1990, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to the amendments of the Senate numbered 1, 6, 8, 34, 35, 36, 37, 38, 39, and 40, to the above-entitled bill.

The message also announced that the Senate had passed bills of the following titles, in which the concurrence of the House is requested:

S. 280. An act to amend the Wild and Scenic Rivers Act by designating a segment of the Niobrara River in Nebraska as a component of the National Wild and Scenic Rivers System;

S. 561. An act to provide for testing for the use, without lawful authorization, of alcohol or controlled substances by the operators of aircraft, railroads, and commercial motor vehicles, and for other purposes;

S. 916. An act to authorize appropriations to the National Aeronautics and Space Administration for research and development, space flight, control and data communications, construction of facilities, and research and program management, and for other purposes; and

S. 1249. An act to amend the Federal Trade Commission Act to provide authorization of appropriations, and for other purposes.

CONFERENCE REPORT ON H.R. 3072, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 1990

Mr. MURTHA submitted the following conference report and statement on the bill (H.R. 3072) making appropriations for the Department of Defense for the fiscal year ending September 30, 1990, and for other purposes:

CONFERENCE REPORT (H. REPT. 101-345)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3072) "making appropriations for the Department of Defense for the fiscal year ending September 30, 1990, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 7, 14, 19, 24, 29, 34, 41, 60, 62, 73, 81, 82, 83, 85, 89, 97, 110, 113, 114, 115, 122, 123, 124, 125, 126, 127, 128, 129, 131, 132, 133, 135, 136, 139, 140, 141, 142, 143, 144, 145, 146, 148, 149, 150, 151, 152, 153, 154, 156, 157, 162, 164, 166, 167, 168, 169, 170, 171, 173, 174, 176, 177, 180, 181, 182, 183, 185, 188, 189, 190, 204, 219, 222, 227, 231, 236, and 245.

That the House recede from its disagreement to the amendments of the Senate numbered 3, 9, 13, 17, 18, 20, 23, 26, 36, 37, 39, 40, 45, 46, 51, 54, 56, 57, 59, 61, 68, 71, 77, 84, 86, 90, 98, 99, 100, 102, 111, 116, 137, 155, 158, 160, 163, 191, 192, and agree to the same.

Amendment numbered 2:

That the House recede from its disagreement to the amendment of the Senate numbered 2, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$19,307,700,000*; and the Senate agree to the same.

Amendment numbered 5:

That the House recede from its disagreement to the amendment of the Senate numbered 5, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,234,400,000*; and the Senate agree to the same.

Amendment numbered 6:

That the House recede from its disagreement to the amendment of the Senate numbered 6, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,582,800,000*; and the Senate agree to the same.

Amendment numbered 8:

That the House recede from its disagreement to the amendment of the Senate numbered 8, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$672,700,000*; and the Senate agree to the same.

Amendment numbered 22:

That the House recede from its disagreement to the amendment of the Senate numbered 22, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,657,719,000*; and the Senate agree to the same.

Amendment numbered 38:

That the House recede from its disagreement to the amendment of the Senate numbered 38, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$601,100,000*; and the Senate agree to the same.

Amendment numbered 44:

That the House recede from its disagreement to the amendment of the Senate numbered 44, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,708,399,000*; and the Senate agree to the same.

Amendment numbered 50:

That the House recede from its disagreement to the amendment of the Senate numbered 50, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$2,011,243,000*; and the Senate agree to the same.

Amendment numbered 52:

That the House recede from its disagreement to the amendment of the Senate numbered 52, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$3,669,219,000*; and the Senate agree to the same.

Amendment numbered 63:

That the House recede from its disagreement to the amendment of the Senate numbered 63, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$3,500,000,000*; and the Senate agree to the same.

Amendment numbered 64:

That the House recede from its disagreement to the amendment of the Senate num-

bered 64, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment insert: *$197,600,000*; and the Senate agree to the same.

Amendment numbered 65:

That the House recede from its disagreement to the amendment of the Senate numbered 65, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$600,000,000*; and the Senate agree to the same.

Amendment numbered 67:

That the House recede from its disagreement to the amendment of the Senate numbered 67, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$11,557,900,000*; and the Senate agree to the same.

Amendment numbered 70:

That the House recede from its disagreement to the amendment of the Senate numbered 70, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,213,792,000*; and the Senate agree to the same.

Amendment numbered 72:

That the House recede from its disagreement to the amendment of the Senate numbered 72, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$15,679,242,000*; and the Senate agree to the same.

Amendment numbered 74:

That the House recede from its disagreement to the amendment of the Senate numbered 74, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$6,916,863,000*; and the Senate agree to the same.

Amendment numbered 78:

That the House recede from its disagreement to the amendment of the Senate numbered 78, and agree to the same with an amendment, as follows:

In lieu of the number proposed by said amendment insert *514*; and the Senate agree to the same.

Amendment numbered 79:

That the House recede from its disagreement to the amendment of the Senate numbered 79, and agree to the same with an amendment, as follows:

In lieu of the number proposed by said amendment insert *458*; and the Senate agree to the same.

Amendment numbered 80:

That the House recede from its disagreement to the amendment of the Senate numbered 80, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$1,300,720,000*; and the Senate agree to the same.

Amendment numbered 87:

That the House recede from its disagreement to the amendment of the Senate numbered 87, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$5,434,378,000*; and the Senate agree to the same.

Amendment numbered 92:

That the House recede from its disagreement to the amendment of the Senate numbered 92, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$8,113,049,000*; and the Senate agree to the same.

Amendment numbered 109:

That the House recede from its disagreement to the amendment of the Senate numbered 109, and agree to the same with an amendment, as follows:

Restore the matter stricken by said amendment amended to read as follows:

OFFICE OF THE INSPECTOR GENERAL

For expenses and activities of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, as follows: for Operation and Maintenance, $95,749,000; for Procurement, $1,051,000; In all: $96,800,000: Provided, That the amount provided for Procurement shall remain available until September 30, 1992.

And the Senate agree to the same.

Amended numbered 178:

That the House recede from its disagreement to the amendment of the Senate numbered 178, and agree to the same with an amendment, as follows:

In lieu of the sum proposed by said amendment insert *$125,000,000*; and the Senate agree to the same.

Amendment numbered 193:

That the House recede from its disagreement to the amendment of the Senate numbered 193, and agree to the same with an amendment as follows:

Restore the matter stricken by said amendment amended to change the section number to *9074*; and the Senate agree to the same.

Amendment numbered 194:

That the House recede from its disagreement to the amendment of the Senate numbered 194, and agree to the same with an amendment, as follows:

In lieu of the section number stricken and inserted by said amendment insert *9075*; and the Senate agree to the same.

Amendment numbered 195:

That the House recede from its disagreement to the amendment of the Senate numbered 195, and agree to the same with an amendment, as follows:

In lieu of the section number stricken and inserted by said amendment insert *9076*; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 1, 4, 10, 11, 12, 15, 16, 21, 25, 27, 28, 30, 31, 32, 33, 35, 42, 43, 47, 48, 49, 53, 55, 58, 66, 69, 75, 76, 88, 91, 93, 94, 96, 101, 103, 104, 105, 106, 107, 108, 112, 117, 118, 119, 120, 121, 130, 134, 138, 147, 159, 161, 172, 175, 179, 184, 186, 187, 196, 197, 198, 199, 200, 201, 202, 203, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 220, 221, 223, 224, 225, 226, 228, 229, 230, 232, 233, 234, 235, 237, 238, 239, 240, 241, 242, 243, and 244.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3072), making appropriations for the Department of Defense for the fiscal year ending September 30, 1990, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1990, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 101-208 and Senate Report 101-132 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

TITLE I—MILITARY PERSONNEL

The conferees agree to the following amounts for the Military Personnel accounts:

[In thousands of dollars]

	Budget	House	Senate	Conference
Active personnel:				
Army	24,704,300	24,610,000	24,558,217	24,510,960
Navy	19,337,400	19,363,300	19,290,816	19,307,700
Marine Corps	5,806,100	5,813,800	5,800,200	5,800,200
Air Force	20,224,100	20,155,800	20,047,750	19,994,040
Reserve personnel:				
Army	2,243,300	2,265,700	2,225,164	2,234,400
Navy	1,588,600	1,591,800	1,575,170	1,582,800
Marine Corps	319,200	319,200	317,896	319,200
Air Force	668,900	674,400	672,129	672,700
National Guard personnel:				
Army	3,246,700	3,252,200	3,246,700	3,246,700
Air Force	1,046,700	1,044,800	1,046,700	1,051,200
Total, military personnel	79,185,300	79,091,000	78,780,742	78,719,900

TROOP STRENGTH REDUCTIONS

The conferees agree with the appropriations reductions in the Army and Air Force military personnel accounts proposed by the House instead of the reductions proposed by the Senate. These savings should be attainable through reducing personnel associated with the implementation of the Intermediate-Range Nuclear Forces Treaty. The Secretary of Defense may choose to achieve such savings through reductions elsewhere and through various management initiatives. The conferees also expect the Department of Defense to make the necessary manpower reductions through reduced accessions and not through force structure adjustments not already announced. If futher cuts are necessary, the Secretary of Defense should consider reducing the number of personnel assigned to headquarters and unified and specified command functions.

The conferees also include a general provision that further reduces military personnel

funding equivalent to a reduction of 5,000 active duty military personnel.

Where practicable, reductions should only affect noncombat, administrative units. Under no circumstances should reductions be allocated to medical and medical support personnel.

MORALE, WELFARE AND RECREATION (MWR)

The conferees disagree with the Senate language restricting reprogramming into MWR only from military personnel appropriations when the Department's expenditures exceed the appropriated amount of $1,327,882,000 by ten percent. The conferees direct the Department to follow normal reprogramming procedures to request additional funds.

ADVERTISING

The conferees understand that the Selective Service System provides the Department of Defense Joint Recruiting Advertising Program (JRAP) with lists of recent registrants on a bi-monthly basis. The JRAP then conducts a one-time mailing with each list giving the registrants an opportunity to respond whether they are interested in military service. The names of those who respond are provided to the military recruiting commands.

There appears to be a considerable lag time between when JRAP provides the recruiting commands with the names of interested registrants and when the information is passed on to the individual recruiters. Realizing how important "lists" are to recruiters, the conferees urge JRAP and the recruiting commands to provide Selective Service lists to recruiters on a timely basis.

The conferees believe that JRAP can best support the services through this type of effort rather than using a large portion of its advertising resources in television advertising. Furthermore, JRAP should expand its advertising through the print media.

The conferees agree to increase the Navy, Marine Corps and Air Force advertising budgets to assist them in their efforts to attract and recruit medical and medical support personnel.

RECRUITING IMPROPRIETIES

The conferees wish to reiterate the House concerns regarding recruiters and the Services' recruiting process. The conferees recommend that the Secretary of Defense lead the Services in making the necessary policy changes to assist recruiters in performing their vital mission. The quality of life of the recruiting force has been neglected. We must not allow this situation to continue.

AVIATION CAREER INCENTIVE PAY (ACIP)

The Department did not include funds for any ACIP increase in the budget request. The conferees recognize that an increase in ACIP may be effective in retaining experienced pilots. The conferees regret, however, that funds could not be provided for the ACIP increase. The conferees expect the Department to submit reprogramming actions for the necessary funds.

LEGAL REPRESENTATION OF MILITARY PERSONNEL

The conferees are aware that the Department of Defense has been funding the legal representation for U.S. military personnel who were intervenors in the prosecution of Mohammed Ali Hamadei, convicted for the 1985 Trans World Airlines hijacking, in the courts of the Federal Republic of Germany.

The conferees understand the Secretary of Defense has directed the DOD General Counsel to take actions necessary to continue the Department's funding of legal fees through the appellate stage of this case. The conferees fully support this action, and expect the Judge Advocates General to determine how these legal costs should be shared among the Service Departments. The conferees agree that such a course of action is required in order to protect personnel of the United States Armed Forces from terrorist attack in the future.

JOB CENTERS

The Senate report contained language directing the Department of Defense to utilize State-based career information delivery systems supported by the National/State Occupational Information Coordinating Committees, authorized under section 422 of the Carl D. Perkins Vocational Education Act of 1963 and section 464 of the Job Training Partnership Act, in setting up computerized job centers in the United States. The House did not address this issue.

The conferees agree with the Senate language. The conferees further agree that, if State-based systems are not available or are inappropriate, non-State-based career information delivery systems may be used.

BURDENSHARING ISSUE

The conferees wish to note that the Ambassador-at-Large for Burdensharing was sworn in on October 10, 1989. The conferees understand that he will focus on the Administration's efforts to ensure a balanced sharing of defense responsibilities and costs among the members of the North Atlantic Treaty Organization, Japan, the Republic of Korea, and other countries allied with the United States.

MILITARY PERSONNEL—ARMY

Amendment No. 1: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

$24,510,960,000: Provided, That $11,000,000 shall be available only for the activation of one additional battalion for the 6th Light Infantry Division not later than August 15, 1990: Provided further, That no reduction be made in any active component combat or corps headquarters unit in the United States to make personnel available for this unit.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

FOOD SERVICE COOKS

The conferees agree that the Army's plan to continue reducing the number of military cooks and replace them with contract cooks could severely hamper its ability to feed its troops in a wartime setting. Furthermore, the conferees question the increasing costs for contract cooks, especially since Army end strength is decreasing. Therefore, the conferees agree with the Senate proposal to reduce the funding for contract cooks and urge the Army to continue to train military cooks to meet its wartime requirements.

AIR BATTLE CAPTAIN

The conferees support the Senate's proposal directing the Army to continue the air battle captain helicopter pilot training program at the University of North Dakota and to conduct a pilot program to allow advanced placement for University of North Dakota graduates in the Army helicopter pilot training. However, the conferees do not favor imposing a funding level for this program as proposed by the Senate. The conferees recommend that the Army implement this program in the most cost effective manner.

The conferees understand that the Army is expected to start contracting out helicopter pilot training under its Single Contractor Aviator Training (SCAT) program. Since the University of North Dakota has demonstrated expertise in the training of helicopter pilots, the conferees hope that the University will examine the possibility of submitting a bid on this contract.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Unified/specified commands	−$12,600	−$12,600	−$12,600
Enlisted subsistence	0	−11,000	−11,000
ACIP increase	+22,000	0	0
Troop strength reduction	−103,700	−56,443	−103,700
Management savings	0	−19,000	−19,000
6th LID	0	+11,000	+11,000
Base closure	0	−4,500	−4,500
College fund	0	−32,900	−32,900
Foreign currency	0	−20,640	−20,640
Total military personnel, Army	−94,300	−146,083	−193,340

MILITARY PERSONNEL, NAVY

Amendment No. 2: Appropriates $19,307,700,000 instead of $19,363,300,000 as proposed by the House and $19,290,816,000 as proposed by the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Unified/specified commands	$0	−$16,884	$0
ACIP increase	+25,900	0	0
Management savings	0	−25,400	−25,400
Foreign currency	0	−4,300	−4,300
Total military personnel, Navy	+25,900	−46,584	−29,700

MILITARY PERSONNEL, MARINE CORPS

Amendment No. 3: Appropriates $5,800,200,000 as proposed by the Senate instead of $5,813,800,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Unified/specified commands	−$1,200	−$1,200	−$1,200
ACIP increase	+8,900	0	0
Management savings	0	−1,000	−1,000
Foreign currency	0	−3,700	−3,700
Total, Military personnel, Marine Corps	+7,700	−5,900	−5,900

MILITARY PERSONNEL, AIR FORCE

Amendment No. 4: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

$19,994,040,000: Provided, That none of the funds provided in this account and in "Operation and Maintenance, Air Force"

may support the continuation of the B-52G Squadron of the 43rd Bomb Wing after June 15, 1990.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	House	Senate	Conference
Unified/specified commands	−10,900	−12,500	−12,500
ACIP increase	+61,500	0	0
Management savings	0	−25,400	−25,400
Base closure	0	−35,000	−35,000
B-52G squadron	0	−17,500	−17,500
Foreign currency	0	−20,760	−20,760
Troop strength reduction	−118,900	−65,190	−118,900
Total, Military personnel, Air Force	−68,300	−176,350	−230,060

B-52G FORCE STRUCTURE REDUCTION

The Senate deleted funding for one B-52G conventional squadron. The conferees agree that the B-52G Squadron of the 43rd Bomb Wing based in Anderson Air Force Base, Guam shall be deactivated during fiscal year 1990, leaving the two CONUS squadrons intact. The two CONUS-based squadrons are to remain intact.

NATIONAL GUARD AND RESERVE FORCES

The conferees agree to provide $9,107,000,000 in Reserve personnel appropriations, $6,661,500,000 in Operation and maintenance appropriations, and $135,000,000 in cash savings in section 9023 for the National Guard and Reserves. These funds support a Selected Reserve strength of 1,180,125, an AGR ceiling of 74,271, and a Technician floor of 71,449, broken out as follows:

RESERVE STRENGTHS

	Budget	Conference	Conference versus budget
Selected Reserve:			
Army Res	321,700	322,000	300
Navy Res	153,400	153,784	384
MC Res	44,000	44,000	0
AF Res	84,900	85,353	453
Army NG	458,000	458,035	35
Air NG	116,200	116,953	753
Total	1,178,200	1,180,125	1,925
Active Guard Reserve (AGR):			
Army Res	13,680	13,707	27
Navy Res	22,708	22,708	0
MC Res	2,301	2,301	0
AF Res	686	686	0
Army NG	26,164	26,199	35
Air NG	8,517	8,670	153
Total	74,056	74,271	215
Technicians:			
Army Res	8,526	8,529	3
AF Res	10,084	10,328	244
Army NG	28,457	28,457	0
Air NG	23,912	24,135	223
Total	70,979	71,449	470

FORCE STRUCTURE

The confereees support the increased funding and positions for the force structure restoration for the Army Reserve, Navy Reserve, Air Force Reserve, and Air National Guard; the SR-71 program; the conversion of the 150th Air Warning Radar Group in Hawaii to a forward air control post; and the full-time support for Army Reserve, Army National Guard, and Air National Guard.

Sufficient funds above the budget request have been added to the personnel and operation and maintenance accounts of the reserve components to provide the above force structure. The conferees direct that these funds shall be used for the force structure identified and should not be used for any other purpose. If required, the Department should utilize the flexibility provided in 10 USC 115(b)(1)(A) and section 411(c) of the National Defense Authorization Act, 1990.

In addition, the conferees expect that any force structure reductions based solely on budgetary considerations proposed for the fiscal year 1991 budget should be held in abeyance pending the DOD study of total force policy, force mix, and military force structure required by section 1101 of the National Defense Authorization Act, 1990.

FULL-TIME SUPPORT PERSONNEL

The conferees have increased the AGR and technician strength over the budget request to support the above missions of the reserve components and to support the drug interdiction mission of the National Guard. The increased AGR levels are in no way to be construed as a lessening of Congressional support for the technician program. The conferees have agreed to continue the ceiling on AGRs and the floor on Technicians in section 9023. While the section is written to place a total ceiling on AGRs for the three components, the conferees are adamant that the Reserve components should honor the intent of this provision by not exceeding their individual total.

In addition, sufficient funds have been included in this Act to support the total full-time support identified above and should be made available for such purposes. The conferees do not expect to receive any messages from the field indicating there are insufficient funds to support the full-time support personnel, especially those in the technician force.

The conferees expect the Department to request sufficient funds in the fiscal year 1991 budget to support this level of fulltime support personnel.

OPERATION AND MAINTENANCE

The conferees included $135,000,000 in section 9060 to support the operation and maintenance budgets of the reserve components. These funds are to offset any shortfall in the appropriation accounts and are specifically to be used to support the force structure and full-time support personnel identified above. If not used for O&M, then these funds can only be transferred to the component's reserve personnel appropriation account through normal reprogramming procedures.

Last year, the conferees directed that the additional funds transferred from the Defense Stock Fund to the Operation and Maintenance appropriations of certain reserve components should be annualized in the budget request for fiscal year 1990. The conferees are distressed that the Department ignored this direction and specifically direct that the funds provided in section 9060 should be annualized in the fiscal year 1991 budget request.

REPRESENTATION FUNDS

The conferees agree with House language which requests the Secretary of the Army to review and correct Army policy of not providing representation funds to the Army reserve components. The other services do share their representation funds with their reserve components, thereby indicating their support to the concept of a total service.

OFFICE OF THE SECRETARY OF DEFENSE (OSD)

The conferees agree with House language which recommends that the reserve components coordinate major policy issues with the office of the Assistant Secretary of Defense (Reserve Affairs), particularly with regard to matters addressing full-time support personnel.

NATIONAL TRAINING CENTER

The conferees agree with Senate language which recommends that the Army should pursue the concept of creating a heavy equipment maintenance company (HEMCO) at Fort Irwin, California, similar to the successful initiative at Karlsruhe, West Germany.

ARMY RESERVE

Command Authority.—The House expressed the concern that the Army Reserve and reservists may be treated as second-class citizens in the Army and requested a plan to provide the Chief of Army Reserve command authority of his reserve forces.

The conferees agree that the command, control and readiness of the Army Reserve would be improved by increasing the direct authority of the Chief of Army Reserve over these forces. Therefore, the Secretary of the Army is directed to prepare a plan to increase the role of the Chief of Army Reserve, consistent with the command, planning and management responsibilities of the Chief of Air Force Reserve and the Chief of the National Guard Bureau.

An initial step would be to have the Chief of Army Reserve become a more active partner in control of the fiscal year 1990 funds and to involve him directly in the on-going budget process for fiscal year 1991 and the Program Objective Memorandum process in fiscal year 1992. The Chief of Army Reserve is in the best position to make budgetary decisions for the necessary personnel, equipment, and operating funds to support the Army Reserve. In addition, the conferees agree that messages concerning reserve matters should be coordinated with the Chief of Army Reserve.

The Secretary of the Army is to submit a report by March 15, 1990, which delineates what needs to be accomplished in order to provide the Chief of Army Reserve command authority and how and when the transition should be implemented. The Chief of Army Reserve should become an active partner in preparation of this report.

The conferees caution that the Army should not prematurely implement some of the initiatives outlined in the House report. Before any implementation can take place, the reserve commanders should be provided the necessary resources and training required to assume any new responsibility.

The conferees agree to delete the proviso in the House bill which withheld $100,000,000 of Management Headquarters funds in Operation and maintenance, Army, until the Secretary of the Army submitted a plan providing the Chief of Army Reserve command and control authority over the Army Reserve forces. This action was taken to prevent any undue hardship to the operation of the Army, not to indicate any lack of support by the conferees on this issue. The conferees are adamant that the Secretary of the Army should actively pursue the preparation of this plan as directed by the conferees.

Training Divisions.—The conferees agree with House language directing the Army not to take any action to implement the proposed reorganization of the 76th and

78th Training Divisions until thirty legislative days after a report justifying the consolidation has been submitted to the Committees on Appropriations. In addition, the conferees believe this issue should be considered in accordance with the study of total force policy, force mix, and military force structure required by section 1101 of the National Defense Authorization Act, 1990.

NAVY RESERVE

Statutory Authority.—The conferees agree with House language which requests the Navy and the Navy Reserve to develop a plan whereby well-trained Navy reservists are available to deploy on extended missions.

AIR FORCE RESERVE

WC-130 Weather Reconnaissance.—Because the Department continued to cause confusion and turmoil to the dedicated personnel who perform this dangerous mission by constantly changing its decision on whether to maintain the weather reconnaissance mission, the House directed that during fiscal year 1990 the Department should begin to phase out the active unit and restore a full squadron in the Air Force Reserve to ensure a minimum of 1,600 hurricane reconnaissance hours to provide coverage for the Atlantic, Gulf of Mexico, and Caribbean Basin. The Senate included bill language which prohibited any deactivation of either the active or reserve units in fiscal year 1990.

The conferees agree with Senate language that supports maintaining the status quo for the active and reserve weather and hurricane reconnaissance missions in fiscal year 1990. In addition, the conferees agree that this issue should be settled and that the House position concerning fiscal year 1991 and beyond has merit. Therefore, the conferees direct the Secretary of the Air Force and the Chief of Air Force Reserve to prepare a joint plan utilizing all 12 WC-130 aircraft and four full-time air reserve technician operational aircrews and ten reserve aircrews to provide this vital mission. The plan should provide sufficient manpower and airframes to be able to fly 1,600 hurricane reconnaissance hours and sufficient additional hours for aircrew proficiency training, to generate up to five sorties a day, and to cover the Atlantic, Caribbean, Gulf of Mexico, and Hawaii in accordance with the National Hurricane Operations Plan. Sufficient funds should be included in the fiscal year 1991 budget request to support the proposed joint plan. Detailed supporting data for the joint Air Force and Air Force Reserve plan should be submitted to the Committees on Appropriations by January 31, 1990.

The conferees further agree that supporting the weather reconnaissance mission in fiscal year 1991 and beyond is critical to the protection of Defense installations and the entire population living in the east and Gulf coast areas of the United States. The conferees commend the dedication and expertise of both the reserve and active squadrons during this year's intense hurricane season in the Gulf of Mexico and the Atlantic.

The conferees regard the weather and hurricane reconnaissance mission as a matter of special Congressional interest.

The Senate had proposed offsetting the cost of maintaining the hurricane reconnaissance squadrons and mission by disapproving the move of four C-130E aircraft to Yokota AFB, Japan and by deactivating these aircraft and crews. The conferees agree to offset the cost through a general reduction in Operation and Maintenance, Air Force of $7,400,000.

The conferees further agree to allow the transfer of C-130E aircraft from Clark AFB in the Philippines to Yokota AFB in Japan. The Air Force may not transfer or exchange any C-130H model aircraft in the United States to Yokota AFB. The Air Force should consolidate the expanded unit at Yokota AFB using those C-130E models in the Pacific Theater in the best condition and with the greatest military utility. Existing squadrons in the United States equipped with the C-130H model aircraft should be maintained at existing personnel and aircraft strength levels with the C-130H.

ARMY NATIONAL GUARD

C-23 Aircraft Support.—The conferees agree to House language requesting a study addressing the consolidation of logistics and crew support for the C-23 aircraft at a centralized facility. In addition, the conferees agree to provide $10,000,000 of depot maintenance funds in Operation and Maintenance, Army; to provide Contractor Logistics Support (CLS) for this aircraft as proposed by the House.

AIR NATIONAL GUARD

D-15 aircraft.—The conferees agree that 20 F-15A/Bs need to be assigned to the Oregon National Guard in order for them to be able to stand alert at two bases while at the same time conducting necessary training missions.

C-130s at Portland.—The conferees do not agree with House language directing the transfer of two C-130B aircraft to Portland, Oregon.

C-130 Simulator Training Facility.—The conferees agree with the National Guard Bureau decision to establish the western region training center at Minneapolis-St. Paul, Minnesota.

Air Warning Radar Group, Hawaii.—The conferees strongly endorse the conversion of the Hawaii Air National Guard 150th Air Warning Radar Group, Kauai, to a forward air control post. This unit provides an important air control and warning function for the Pacific Air Force and the Hawaii National Guard's state mission, including drug interdiction.

KC-135 flying hours.—The conferees direct that not less than $3,000,000 of the additional funds provided in Operation and Maintenance, Air Force for KC-135 tanker flying hours be transferred to and used by Air National Guard KC-135 squadrons.

SR-71 Reconnaissance Mission.—See amendment number 27 for additional details on the issue.

RESERVE PERSONNEL, ARMY

Amendment No. 5: Appropriate $2,234,400,000 instead of $2,265,700,000 as proposed by the House and $2,225,164,000 as proposed by the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Unit and individual training		+25,000		
Mobilization training		+4,000		
School training		−10,000		
Special training		+6,000		
Administration and support		−6,200		
Benefits		+2,500		
Force structure		+1,100		+1,100
End strength utilization			−18,136	−10,000
All other items	2,243,300	2,243,300	2,243,300	2,243,300
Total	2,243,300	2,265,700	2,225,164	2,234,000

RESERVE PERSONNEL, NAVY

Amendment No. 6: Appropriates $1,582,800,000 instead of $1,591,800,000 as proposed by the House and $1,575,170,000 as proposed by the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Benefits		+2,000		
Force structure		+1,200		+1,200
End strength utilization			−13,430	−7,000
All other items	1,588,600	1,588,600	1,588,600	1,588,600
Total	1,588,600	1,591,800	1,575,170	1,582,800

RESERVE PERSONNEL, MARINE CORPS

Amendment No. 7: Appropriates $319,200,000 as proposed by the House instead of $317,896,000 as proposed by the Senate. The conferees agree to restore the end strength utilization reduction as proposed by the Senate.

RESERVE PERSONNEL, AIR FORCE

Amendment No. 8: Appropriates $672,700,000 instead of $674,400,000 as proposed by the House and $672,129,000 as proposed by the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Benefits		+1,200		
End strength utilization			−1,071	−500
All other items	668,900	673,200	673,200	673,200
Total	668,900	674,400	672,129	672,700

NATIONAL GUARD PERSONNEL, ARMY

Amendment No. 9: Appropriates $3,246,700,000 as proposed by the Senate instead of $3,252,200,000 as proposed by the House.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Benefits		−4,500		
Administration and support		+10,000		
All other items	3,246,700	3,246,700	3,246,700	3,246,700
Total	3,246,700	3,252,200	3,246,700	3,246,700

NATIONAL GUARD PERSONNEL, AIR FORCE

Amendment No. 10: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and

concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$1,051,200,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Administration and support		−7,900		+2,500
SR–71 program		+2,500		
Force structure		+3,500	+4,000	+4,000
End strength utilization			−4,000	−2,000
All other items	1,046,700	1,046,700	1,046,700	1,046,700
Total	1,046,700	1,044,800	1,046,700	1,051,200

TITLE II

OPERATION AND MAINTENANCE

Operation and Maintenance Issues

A summary of the conference agreement on items in conference is as follows:

[In thousands of dollars]

Summary	Budget request	House Appropriation Committee	Senate Appropriations Committee	Appropriations Conference
Army	23,708,600	23,603,843	22,856,662	22,787,559
Navy	25,954,600	25,748,601	24,106,207	23,902,621
Marine Corps	1,716,300	1,855,300	1,640,419	1,657,719
Air Force	22,812,200	22,708,743	21,986,987	21,806,213
Defense Agencies	8,021,600	7,829,137	7,879,444	7,800,156
Army Reserve	861,900	863,100	861,900	861,800
Navy Reserve	980,000	1,002,400	895,200	894,800
Marine Corps Reserve	77,400	77,400	77,400	77,400
Air Force Reserve	1,004,600	1,010,487	981,900	978,500
Army National Guard	1,870,200	1,867,100	1,870,200	1,867,100
Air National Guard	2,041,200	2,054,093	1,988,400	1,981,900
National Board for the promotion of rifle practice, Army	4,700	4,700	4,700	4,700
Inspector General	0	0	95,800	
Court of Military Appeals	4,000	3,800	4,000	4,000
Environmental restoration, Defense	517,800	900,800	517,800	601,100
Humanitarian assistance	13,000	13,000	13,000	13,000
Goodwill Games	14,600	14,600	14,600	14,600
Grand total, Operation and maintenance	89,602,700	89,557,104	85,794,619	85,253,168

READINESS INCREASES

The conferees agree to a total increase of over $1,500,000,000 for readiness-related items. These include the following:

Real Property Maintenance	$400,000,000
Ship Repair and Maintenance	205,800,000
Depot Maintenance	207,000,000
Shipyear Modernization	81,000,000
Environmental Projects	283,300,000
Marine Corps Readiness	100,000,000
Medical Personnel	90,000,000
CINC Initiatives Fund	50,000,000
Emergency Response Fund	100,000,000

OPERATION AND MAINTENANCE REPROGRAMMING ACTIONS

The Senate included language addressing the Operation and Maintenance (O&M) reprogramming procedures. The House did not address this issue.

The conferees agree with the Senate position that items and programs which are specifically addressed in the Statement of Managers as increases, must be considered as appropriated for that purpose unless a reprogramming or rescission is approved by Congress. To meet the concerns of the conferees, the Department should submit its draft DD1414 Base for reprogramming to the House and Senate appropriations Committees before the DD1414's are finalized. Additionally, the conferees agree that all reprogramming actions involving O&M should be submitted to Congress no later than June 30, 1990. This does not apply to emergency reprogramming actions.

USE OF THE "M" ACCOUNT

The House included language directing the Air Force to refund amounts from the "M" Account used to offset losses to the Air Force Stock Fund due to shortfalls in the fuel accounting system. The Senate did not agree with the House position.

A recent letter from the Comptroller General of the United States to the Chairman of the Defense Subcommittee, House Appropriations Committee, states that the Air Force was wrong to use the "M" Account to offset these losses. Additionally, the Comptroller General stated that the Air Force should reimburse the "M" Account for the amount transferred to the Air Force Stock Fund. The conferees agree with the Comptroller General's opinion and direct the Air Force to reimburse the "M" Account a total of $238,000,000.

The conferees agree that to direct this reimbursement in fiscal year 1990 would cause a severe funding shortfall in the operation and maintenance appropriations. Therefore, the conferees agree that the Air Force should adjust its stock fund charges for fiscal years 1991, 1992, and 1993 to accommodate the reimbursement to the "M" Account. A complete reimbursement should be accomplished no later than the end of fiscal year 1993.

Furthermore, the conferees agree that the Secretary of Defense should develop more stringent guidelines for the use of "M" Account funds. Current guidelines provide an opportunity for misuse of the "M" Account and this situation should be corrected along the lines suggested by the Department of Defense (DoD) Inspector General in her August 1989 report to the Department of Treasury on DoD's use of the "M" Account. The conferees agree that the Secretary shall provide a report every six months detailing use of the "M" Account. This report should address the circumstances involving any use of the "M" Account for the prior six-month period.

ASSET CAPITALIZATION PROGRAM

The conferees agree with the Senate proposal to move funding responsibility for depot maintenance and other industrial activity equipment from the industrial fund rates, principally funded by Operation and Maintenance appropriations, to direct procurement appropriations. This change is based on policy grounds and is intended to be a permanent transfer.

This transfer should not be misinterpreted as an indication that the conferees have lessened their support for modernization of industrial activities. All projects planned for fiscal year 1990 are fully funded in this transfer, and there should be no delay in executing the industrial modernization program. The conferees remain committed to these investments and believe that financing such equipment through the procurement appropriations will lead to better oversight and selection of projects that will further productivity and unit cost reduction.

Both the House and Senate reports noted that funding asset capitalization equipment through industrial fund rates led to a diversion of appropriations to unnecessary and lower priority programs. General Accounting Office reviews have documented the misuse of indirect financing, which resulted in low priority assets such as furniture and other items being procured that had little relevance to industrial modernization and productivity. Therefore, the conferees have included $519,000,000 in the procurement appropriations and expect the Office of the Secretary of Defense, the Assistant Secretary for Production and Logistics and the Comptroller to ensure that these funds are used for high priority projects. For fiscal year 1990 and thereafter, all depot maintenance and other industrial activity equipment requests must be clearly justified by project in the procurement accounts. The Department may not execute the funded projects for fiscal year 1990 by simply transferring the funds provided in procurement to the industrial funds. These projects should be executed using the normal procurement procedures, maintaining the unexpended obligated balance in the procurement accounts.

The conferees recently became aware that the Department has not retained the unexpended balances for obligations made in the ACP program. All funds provided for ACP were merged into the industrial fund operating accounts, making impossible any accurate accounting of the savings or benefits realized through ACP. Failure to maintain the funds necessary to meet ACP contract obligations leaves the industrial funds with a yet undetermined liability for prior year projects. The General Accounting Office is investigating the management practices and Department policies for ACP.

The conferees agree that the Department should not incur any obligations for ACP in excess of balances reserved specifically to meet such obligations. The General Accounting Office, as part of its review of ACP management practices, should monitor the execution of the program as defined herein for fiscal year 1990. Any violation of the direction provided in this report should be reported immediately to the House and Senate Appropriations Committees.

BUDGETING FOR REAL PROPERTY MAINTENANCE

The conferees agree with the Senate report language requiring all real property maintenance and minor construction projects costing more than $500,000 be listed and justified in each budget submission beginning in fiscal year 1991.

The conferees also agree with the Senate's recommendation to improve the backlog of maintenance and repair (BMAR) measurement. Accordingly, the conferees endorse the Senate language directing that any project which has been on the backlog for more than four years shall no longer be carried in the Department's BMAR estimates reported to Congress. The conferees feel that both of these measures will facilitate a more accurate programmatic review of the Department's real property maintenance budget in the future.

DEPOT MAINTENANCE

The House continued the practice of identifying depot maintenance funding separately on the DD 1414 Base for Reprogramming. This policy was first adopted in fiscal year 1988 because of the large amount of depot maintenance appropriations which were transferred by the military services for non-depot maintenance programs. The Senate did not address this issue.

The conferees agree that the policy of identifying depot maintenance appropriations as a special interest item on the DD 1414 Base for Reprogramming should be continued in fiscal year 1990. The Senate was concerned that the House position would not allow enough flexibility for Department of Defense managers. After further review, the conferees agree that the House position provides the Department with significant flexibility through normal reprogramming procedures. If a reprogramming proposal has merit, the Congress may favorably consider such a transfer of funds for other operation and maintenance programs. The two reprogrammings from depot maintenance, submitted in 1989, did not meet this test. The conferees urge the Department of Defense to streamline internal reprogramming procedures to permit valid requirements resulting from program changes to be met in an expeditious manner.

The conferees have taken into account the amended 1990 request for depot maintenance, agreed-to increases, and allocated an appropriate share of cross-cutting reductions to depot maintenance. Additionally, the amount set aside for Army depot maintenance includes all funding required to accommodate repair of helicopters damaged at Ft. Hood on May 13, 1989.

The conferees agree to the following depot maintenance levels for the DD 1414, Base for Reprogramming:

Army	$1,865,015,765
Navy	5,275,646,870
Marine Corps	87,197,750
Air Force	3,014,698,748
Total	[1] 10,237,559,133

[1] Reductions made for ACP are not true reductions as they represent an accounting change from Operation and Maintenance to Procurement accounts.

UNMANNED AERIAL VEHICLES

The Senate proposed establishment of a separate maintenance activity group within "Operation and Maintenance, Defense Agencies" to support the joint Unmanned Aerial Vehicles (UAV) office. The conferees do not believe that creation of such a separate activity group is necessary, but, direct that the Secretary of Defense ensure that the services continue to support the joint UAV office with funding from within their own Operation and Maintenance appropriations.

DEFENSE MANAGEMENT REVIEW/MANAGEMENT SAVINGS

The House reduced the Services' O&M budgets by a total $312,000,000 for savings associated with the Secretary of Defense's Management Review and included language encouraging the Department of Defense Comptroller to investigate the feasibility of consolidating the various supply systems and directing the Department to submit any plans for consolidating the Air Force Systems Command and the Air Force Logistics Command, to the Committees for review before implementation. The Senate reduced the Services' O&M budgets by a total of $286,100,000 and the Services' Military Personnel budgets by $71,000,000 for the implementation of the Secretary's Defense Management Review. Additionally, the Senate included language indicating that transportation and automated data processing are additional areas which could be consolidated for savings.

The conferees agree to reduce the Services' O&M budgets by a total of $286,100,000 and the Services' Military Personnel budgets by a total of $70,800,000, to reflect savings associated with the Secretary of Defense's Management Review. Additionally, the conferees agree that if any plan to consolidate the Air Force Systems Command and the Air Force Logistics Command is approved by the Secretary of Defense, the plan should be submitted to the House and Senate Appropriations Committees before implementation.

Furthermore, the conferees agree that there are other areas the Secretary should study for consolidation to provide more management oversight and cost savings. These areas include: Supply operations; Transportation programs; Automated data processing operations; and Medical programs.

UNIT COST

The conferees agree that the Comptroller should continue work on unit cost measurement in an effort to determine the true output and cost of running the Department of Defense. The conferees suggest that the Comptroller should direct the application of unit cost measurement to supply operations, depot maintenance operations, and medical programs.

INSTALLATION OF EQUIPMENT MODERNIZATION

The Senate changed the budget responsibility for the installation of equipment modernization from the operation and maintenance appropriations to the procurement appropriations. The House did not address this issue.

The conferees agree with the Senate position and have transferred a total of $1,915,600,000 from the operation and maintenance appropriations to the procurement appropriations for the installation of equipment modernization.

VIDEO TELECONFERENCING CENTERS

The Senate reduced the Services' O&M budgets by a total of $60,000,000 for savings associated with the use of Video Teleconferencing Centers and included language stating its concern that the Department does not have management oversight over the acquisition of these Centers. The House did not address this issue.

The conferees have agreed to reduce the Services' O&M budgets by a total of $50,000,000 for savings associated with the operation of Video Teleconferencing Centers. Use of these Centers should reduce travel time and create efficiencies, as the Centers allow users to see and hear the party to whom they are speaking. The conferees agree that this technology can be managed and used more efficiently to allow the Department to move more of its Management Support Activities and various Service Commands out of high-cost areas to other United States locations.

ARMY/INTERIOR STUDY OF THE PRESIDIO

The Defense Secretary's Commission on Base Realignment and Closure has recommended the closure of the Army Presidio of San Francisco, California. While the conferees agree with the decision of Congress to accept the recommendations of the Secretary's Commission, the conferees remain concerned that no cost savings will result or be realized by the federal government because the federal government will retain possession of the Presidio. The Commission did not address the fact that the Presidio, when it becomes excess to Department of the Army needs, must be turned over to the Department of Interior for use as a national park as required by law. This requirement does not allow the U.S. Government to dispose of the property and has the effect of negating savings to the government within a reasonable length of time. There is further concern that claimed savings would not be realized in any instance because additional facilities would have to be constructed elsewhere to carry out the current missions of the 6th Army.

Also of great interest to the conferees is the fact that if certain Presidio facilities were allowed to be used for specific purposes, there could be significant cost savings. For example, the military housing which is located on the Presidio, could be used by military personnel stationed in the San Francisco/Oakland area. This would result in a reduction to the requirement for off-base housing and the cost of allowances, which are significant in the high-cost area of San Francisco/Oakland. Additionally, the 6th Army Reserve unit is made up of highly-skilled and well-trained local members who would have a difficult time relocating or attending reserve training at other locations. This could result in the loss of these highly skilled reservists. The additional training and recruiting costs required to establish this unit at a new location would also be avoided if the unit remained in the San Francisco area. Lastly, the cost of treating eligible retirees and other Defense and Coast Guard beneficiaries at Letterman Army Medical Center is far less than the government's cost of treating these same people under the CHAMPUS and Medicare programs. If the Letterman Army Medical Center remains open, the government will be paying for health care with the least-cost option and a modern, well-equipped medical facility would be available to the area. This is especially important in light of the assistance provided by Letterman personnel during the recent California earthquake.

The commissary and the child care center could remain open with little or no cost to the government. The majority of the cost to operate these facilities is paid through "user fees" and other non-appropriated funds and does not represent a significant cost to the government. Since a significant military presence will remain in the San Francisco/Oakland area, these facilities are needed and will be well used.

Therefore, the conferees agree that the Secretary of the Army should work with the Secretary of the Interior to develop an agreement, which could include lease-back arrangements with the Department of the Interior, to ensure continuation and maintenance of certain defense activities at the Presidio. The activities which the conferees agree should continue are activities of the 6th Army Reserve and the Letterman Army Medical Center. Additionally, the conferees agree that there should be continued access to military housing, the commissary, and day care operations. All costs associated with the development of a land use plan and/or feasibility plan shall be accommodated within funds appropriated for the Army. The conferees understand such costs should not exceed $1,223,000.

The Secretary of the Army is required to keep the House and Senate Appropriations Committees informed on the progress of establishing such agreements with the Department of the Interior.

CIVILIAN MANPOWER

Command Management Support/DOD IG Study.—The House proposed a reduction of $24,000,000 for civilian manpower recommended by the DOD IG Review of the Uni-

fied and Specified Command headquarters. The Senate did not recommend any reductions. The conferees agree to reduce only $12,000,000 and expect the Secretary of Defense to use the remaining $12,000,000 to remedy the shortages of civilian personnel in the medical and medical support field.

Other Reductions.—The conferees believe that proportionate reductions in civilian manpower proposed by the Senate are justified in light of the significant reductions in military manpower. The conferees agree with the reductions proposed by the Senate as well as the reduction associated with the A-76 Program administration, Pershing and GLCM missions, and the Army's request for 2,171 manpower spaces proposed by the House. In addition, the conferees include a general provision that further reduces the funding for 2,500 civilian manpower spaces. The conferees further agree with the Senate's recommendation for a review of the national force structure units and the development of a model for projecting support costs.

Senior Executive Service (SES).—The conferees agree to reduce the SES workyears in the Army, Navy, Air Force and Defense Agencies. The conferees recommend that the Department reevaluate the requirements for SES positions in the Defense Agencies and field activities.

Overseas Workyears.—The conferees agree to place an overseas workyears ceiling of 182,011 (fiscal year 1989 ceiling) instead of 180,990 as proposed by the Senate. The conferees agree with the higher level to allow the Services to hire medical and medical support personnel. The conferees direct the Services to maintain an audit trail on the hiring of medical positions overseas.

U.S. BEEF FOR OVERSEAS COMMISSARIES

The House report directed the Department of Defense to use not less than $10,000,000 for funds available in operation and maintenance accounts to increase the availability of U.S. fresh beef in overseas commissaries. The Senate report required the Department to use U.S. meat and meat food products in military commissaries and dining halls in Europe and further required that funding for procurement and shipment of these commodities should come from funds available in the operation and maintenance accounts.

The conferees agree with the House language. In addition, the conferees agree that Department of Agriculture subsidies are required to lessen the impact on prices to commissary patrons in Europe.

TOTAL QUALITY MANAGEMENT AND PRODUCTIVITY SAVINGS

The conferees agree to provide funding for Total Quality Management (TQM) training program. The conferees believe, however, that priority for TQM training must be first provided to employees assigned at industrial activities. The conferees also believe that the Department should establish one office within the Office of the Secretary of Defense to manage and administer TQM. The conferees direct that the manpower, administrative, and other overhead resources associated with TQM administration and implementation be maintained at the fiscal year 1989 funding levels. The conferees recommend that the Office of the Secretary of Defense identify the costs associated with implementing TQM, to include training, equipment, and manpower and be able to provide this information in supporting budget documents. In addition, it is recommended that the Department document and verify claimed savings achieved by implementing TQM. The $100,000,000 request by the Department for expenditure on TQM, as indicated in the Defense Appropriations Conference Appeals fiscal year 1990, seems an excessive amount to expend on such training.

While the Congress has provided over $20,000,000,000 in labor saving productivity investments since 1980, the Department's budget provides almost no evidence that productivity gains have resulted. Therefore, the conferees agree to the reduction of $193,400,000 proposed by the Senate for productivity savings. The reduction should be allocated to all Defense programs, not only industrial activities as proposed by the Senate.

The conferees further endorse the Senate language regarding measurement of productivity investments, such as training, automation, and incentive programs. Productivity programs must be justified on the basis of real budget savings rather than merely avoiding cost growth not included in the Department's five year budget estimates.

MODEL INSTALLATION PROGRAM (MIP)

The conferees direct the Department to terminate the MIP. The Department currently manages and administers the well-established Beneficial Suggestion Program. The conferees urge the Department to eliminate duplicative and redundant programs. The Department of Defense Inspector reports that the Army, which has consolidated the Beneficial Suggestion Program and MIP, has achieved effective results. Therefore, the conferees insist that the rest of the Department consolidate its resources, to include the Office of the Secretary of Defense, and implement only one cost effective suggestion/ideas program. Additionally, the conferees strongly recommend that the Department establish an audit trail of the savings achieved by implementing suggestions or ideas and to report these savings in supporting budget documents.

The conferees agree to the House reductions, with the exception of the reduction recommended for the Army since the Army has already established one suggestion/ideas program.

A-76 REVIEWS

The conferees have become weary of the length of time required to complete A-76 cost studies and are extremely dismayed over the exhorbitant costs to conduct these studies. Additionally, the conferees believe that in some instances, costs for contract activities have increased to the point that it would be more cost effective for Government employees to perform the work. To reduce the overall costs to the Government, the conferees agree that:

(1) Those ongoing studies exceeding the standard completion time, i.e., two years for single function studies and four years for multi-function studies, must reach initial decision by August 31, 1990 or be terminated and converted to the Government's most efficient organization. The Secretary of Defense is required to report those cost studies that were terminated to the Committees on Appropriations of the House and the Senate by September 30, 1990;

(2) For future cost studies, the Department must establish completion dates of not more than two years for single function studies and not more than four years for multi-function studies. Additionally, the Department is required to notify the Committees on Appropriations of the House and Senate as soon as a cost study exceeds its established completion time; and,

(3) The Department shall conduct periodic reviews of contract activities that could be performed at less cost by Government employees.

PRODUCTIVITY RELATED PERSONNEL POLICIES

The conferees agree with the general provisions recommended by the Senate which (1) allow the Department of Defense (DOD) employees to receive paid administrative time off in lieu of cash payment as compensation for productivity and (2) prohibit a supervisor's grade to be determined by the number of employees supervised.

However, the conferees are concerned that the Department continues to request exemptions from current Office of Personnel Management (OPM) regulations which govern these issues. The conferees believe the Secretary of Defense should work with the Director of OPM to achieve these incentive programs rather than annually requesting the Appropriations Committees to provide statute exemptions.

Furthermore, while the conferees support the latter provision in order to provide maximum flexibility and encourage productivity, the conferees would like to caution the Department that it is not to be misused to provide unwarranted grade increases.

MEDICAL PROGRAMS

Reorganization of DOD Health Care.—The House included language directing the Department of Defense to reorganize the various medical programs into a more centralized organization, with an implementation plan due by March 1, 1990. Additionally, the House directed the Department to revise the fiscal year 1991 budget request by moving all operation and maintenance funds for medical care to a single account in Operation and Maintenance, Defense Agencies. The Senate opposed the House position.

The conferees agree that, since the President of the United States has yet to nominate an Assistant Secretary of Defense for Health Affairs (ASD(HA)), it would be counterproductive to insist on the development of a reorganization plan without direction from the person who will be responsible for implementing it. Therefore, the conferees agree that the Department should submit a plan for reorganizing the various medical programs into a more centralized program, providing for more budget, staffing, and programmatic accountability at the Assistant Secretary of Defense level, by June 30, 1990.

The plan must address and resolve the following issues: increased centralization to eliminate duplicate missions and funding responsibilities; increased accountability for budget preparation, budget execution, and staffing; improvements in workload measurements; a strategy for implementing the plan; and a unified medical budget. If the plan fails to address these issues adequately, the House and Senate Appropriations Committees will again take the initiative.

It is not the intent of the conferees to create a "purple suit" medical corps. It is the intent of the conferees that the Secretary of Defense gain control of the various medical programs which are currently uncoordinated, inefficient, and unresponsive. The DOD medical programs cost the taxpayers approximately $13 billion annually. There is no program manager, no plan for the future, and no way of effectively controlling costs. The plan submitted by the Department of Defense on June 30, 1990, shall provide a start at managing medical care.

Furthermore, it is the intent of the conferees that the Department of Defense should develop this plan itself; it should not be done by contract. While the Department has been capable of performing well without an appointed ASD(HA), it is extremely important that an appointment occur soon. It is unfair to have fiscal year 1991 program decisions made by consultation; decisions should be made by the ASD(HA).

Alternative Use of CHAMPUS Funds.—The House included language stating that projects which included the alternative use of CHAMPUS funds could only be expanded if the Secretary ensured that these projects were not contributing to CHAMPUS increases. The Senate included language extending the fiscal year 1989 $50,000,000 funding authority for alternative use projects.

The conferees agree that the Department should be allowed to use up to $150,000,000 of CHAMPUS funds ($50,000,000 for each Service) to develop, implement and continue projects approved by the Assistant Secretary of Defense of Health Affairs (ASD(HA)) as alternative use projects. The conferees further agree that there is a possibility that some initiatives which use CHAMPUS monies as a source of funding, may in fact be increasing the cost of CHAMPUS by increasing access. Therefore, the conferees agree that current and future projects must be monitored by the ASD(HA) to ensure that alternative use projects do not contribute to an increase in CHAMPUS costs.

The conferees remain concerned about the increasing costs of medical care, especially CHAMPUS. The Department has approached Congress with a variety of projects designed to decrease the cost of medical care, particularly CHAMPUS. Despite assurances from the ASD(HA) and the Services that these projects could be quickly implemented and savings quickly realized, neither claim has been substantiated.

For example, in early 1987, the department approached Congress with the idea of catchment area management (CAM) demonstration projects. The idea was to provide the local commander with all of the medical funds for his/her catchment area and the authority to use these funds in the most economical way to produce cost savings. In September of 1987, the ASD(HA) provided guidance for the Services on developing and submitting CAM projects for approval. One year later, December of 1988, four plans were submitted for approval; the Army submitted two plans and the Air Force submitted two plans. The Navy submitted one plan for approval in March of 1989. Each plan was approved the same month as submitted. However, only the Army has been able to get the CAM projects up and running: Ft. Sill in June 1989 and Ft. Carson in October of 1989. The Navy plans to have its Charleston CAM implemented in January of 1990. The Air Force will not have its CAM projects up and running until March of 1990, 15 months after approval.

If the Department is serious about implementing projects designed to save money, it must be serious about doing so in a reasonable time frame. Furthermore, the ASD(HA) should monitor the CAM projects to ensure that they do not contribute to an increase in CHAMPUS costs.

Psychologists/psychoactive drugs.—The Senate included language chastising the Department for not implementing direction of the conferees of the Department of Defense (DoD) Appropriations Act, 1989, and directed the Department to make the implementation of a training program for psychologists its highest priority. The House did not address this issue.

In fiscal year 1989, conferees to the DoD Appropriations Act stated that the Department, "should establish a demonstration pilot training program under which military psychologists may be trained and authorized to issue appropriate psychotropic medications under certain circumstances." (Report 100-1002, page 34.) The Department has not pursued the establishment of such a pilot training program.

The conferees agree that the Department cannot ignore direction from Congress and therefore should develop such a training program in fiscal year 1990. However, the conferees agree that the pilot program be designed so that military psychologists could be trained and authorized to issue appropriate psychotropic medications to military personnel only. Issuance of medications to DoD beneficiaries should be addressed after review of the success of this pilot program. Additionally, the conferees agree that the training program should not be implemented until it is reviewed by the Assistant Secretary of Defense (HA) and is submitted to Congress.

Uniformed Services Treatment Facilities (USTFs).—The Senate included language prohibiting the Department of Defense (DoD) from limiting the locations where authorized Uniformed Services Treatment Facilities (USTFs) health plan services may be provided, so long as they are at a less cost to the government than would otherwise be paid under CHAMPUS. The House did not address this issue.

The conferees agree that the USTFs provide an important service for the DoD medical program. In recognition of this, the House and Senate Armed Services Committees have directed the DoD to incorporate the USTFs into a managed care demonstration project. In order to provide an established basis for such a project, the conferees believe that it is premature to establish additional USTF satellite facilities at this time. However, the conferees agree that additional satellite facilities should not be completely dismissed and directs the ASD (HA) to contract with an independent contractor with experience in the health care field to report to the Committees on Appropriations on the advisability and feasibility of expanding USTF satellite services within the parameters of the managed care demonstration project.

At the same time, the conferees recognize that satellite facilities, which have been established to date under provisions of the agreements established between the USTFs and DoD, should be allowed to continue to operate and should be reimbursed by the Services, if the care provided is less than the cost of care provided under CHAMPUS and within the limits of aggregate USTF reimbursements established in the agreements. The conferees understand that there are challenges from the ASD (HA) concerning the satellite facilities recently established by the Bayley Seton and Martin's Point USTFs. In the case of Bayley Seton, the Navy requested the USTF to establish a satellite facilities on Long Island, and the conferees agree that it is the responsibility of the Navy to ensure payment is made to Bayley Seton for care provided at this USTF satellite facility. Furthermore, due to identified shortfalls in CHAMPUS funding for fiscal year 1990 payments for these satellite facilities shall not be made from funds appropriated for CHAMPUS and shall be made from funds appropriated for direct care.

Funding for Medical Programs.—The House increased funding for the CHAMPUS program by $210,000,000. The Senate increased medical funding for support personnel by $60,000,000. The conferees agree to a $90,000,000 increase in the direct care system for support personnel with the understanding that the Services must audit the use of these funds. Additional funds must be used to increased the number of support personnel and increase the level of care provided in the military treatment facilities.

Additionally, the conferees have agreed to the Senate provision allowing the military treatment facilities to collect payment from a third party payor for use at the local level. The Department is required to provide the conferees with an audit of the way these collected funds are used at the local level. It is the view of the conferees that any funds collected must be used to directly increase the level of services provided at the military treatment facilities.

Child Abuse.—The Senate earmarked $350,000 within the appropriation to the Military Family Resource Center to study the effectiveness of emergency room personnel in identifying suspected cases of child abuse. The House did not address this issue.

The conferees agree with the Senate position. The conferees are concerned at apparent increases in cases of child abuse in both the military and civilian communities and direct the Department of Defense to undertake this pilot study during fiscal year 1990.

Physicians' Qualifications.—The Senate report expresses concern at findings by the General Accounting Office (GAO) that additional efforts are needed to verify military physicians' qualifications. The Senate directs the Department of Defense (DoD) to follow GAO's recommendations to focus on completing validations of the qualifications of all DoD physicians and to establish a central data base to support the credentialing system. In addition, the Senate urges the Department to expand this data base to include all health care disciplines which require licensing. The House did not address this issue.

The conferees agree with the Senate position and urge the Department to act expeditiously to validate physicians' qualifications and to establish a central data base, available to all Services, to support the credentialing system. Military members, their families and military retirees are entitled to high quality medical care, and these efforts are one way to ensure that they get it.

Wage Rates for Health Care Professionals.—The Senate report expressed continuing concern over the Department's inability to offer competitive salaries for certain categories of health care professionals in short supply. The House did not address this issue.

The conferees agree with the Senate position. The conferees wish to reiterate the same concern that was expressed in the supplemental appropriations bill enacted in June 1989. Existing regulations will permit the Department of Defense, in coordination with the Office of Personnel Management, to adjust wage rates above standard civil service pay scales, and the conferees continue to believe that the Department should avail itself of any opportunity to increase salaries for health care professionals in short supply.

Children's Hospitals/DRG's for Pediatric Care.—The House included language stating that the hold-harmless proviso of the provision on childrens' hospitals and DRG's for pediatric care should be applied on a hospital-specific basis. The Senate included the provision, but did not address the issue of the hold-harmless proviso.

The conferees agree with the House position. However, the conferees wish to emphasize their continuing support for the eventual inclusion of children's hospitals in the Department's DRG program. The ASD(HA) and representatives of children's hospitals should continue to work together to bring about an equitable pediatric care DRG data base.

AIDS/Interactive Videodisc Technology.—The House included language urging the Department to continue the development of interactive videodisc (IVD) technology as a learning tool for AIDS education initiatives. The Senate did not address this issue.

The conferees remain committed to this worthwhile project and are disappointed with the direction that the Department has taken on this issue. The conferees to the Department of Defense Appropriations Act, Fiscal Year 1988, directed the Department to develop an AIDS educational training program based on the use of IVD technology. It was the intent of the conferees that this technology be available very quickly to the young men and women in uniform in need of an educational device which provides accurate information in an interactive format and could be used in a private/semi-private atmosphere.

Without consultation with Congress, the Department has proceeded with a different program not envisioned by the conferees. It is cumbersome, expensive, and layered with bureaucracy. The conferees are deeply concerned about this and direct the Department to use off-the-shelf IVD technology, as an educational device for young men and women in the military. The conferees understand that off the shelf technology may require some "fine tuning" to accommodate military directives and requirements and emerging medical information, but the conferees agree this can be accomplished within six months. The ASD(HA) shall report to the conferees no later than May 1, 1990 on the Department's progress in fulfilling this directive.

Nonphysicians in Department of Defense Health Care.—The Senate report included language addressing morale problems within the nonphysician health care disciplines, including optometry and psychology, and urging the Office of the Assistant Secretary of Defense for Health Affairs (OASD/HA) to include representatives of these disciplines within the personnel assigned to his office. The Senate noted that this would improve morale and also provide a wide spectrum of policy expertise. The House did not address this issue.

The conferees agree with the Senate language.

Optometry.—The Senate report included language directing the Army, Navy, and Air Force to expand the establishment of administratively separate services of optometry to all major health care treatment centers during fiscal year 1990. The House did not address this issue.

The conferees agree with the Senate language.

Federal Nursing School.—The Senate report expressed concern about the critical shortage of nurses available to the military services as an adjunct to a nationwide shortage of nurses in the civilian community. The Senate directed the Department of Defense to develop a feasibility/implementation study for the establishment of a Federal nursing school to provide nurses not only to the Department of Defense but also to other Federal agencies such as the Department of Veterans Affairs and the Indian Health Service. The House did not address this issue.

The conferees agree that the Department should develop a feasibility study for the establishment of a Federal nursing school and urge the Department to consult with other relevant Federal agencies and incorporate their views into the feasibility study. The conferees further agree that Congress should have an opportunity to review this study prior to its implementation.

Nurses Performing Non-clinical Tasks.—Elsewhere in this report, the conferees have expressed their concern about shortages of nursing staff in military hospitals. The conferees are also concerned about dissatisfaction voiced by many military nurses that they are forced to spend too much time performing non-clinical tasks that do not require the services of a nurse—such as escorting patients, inventorying supplies, and serving meals. During a time of nursing shortages, taking nurses away from patient care is unacceptable.

The conferees have agreed to provide a total of $60 million to the Army, Navy, and Air Force to hire additional medical support personnel. Of the $20 million provided to the Army, the conferees agree that $1.6 million will be used to conduct a demonstration program at Tripler Army Medical Center designed to test the idea that dollars spent on additional ancillary personnel will improve nurse productivity, thereby improving patient care and allowing more efficient use of nursing resources. This test program will be undertaken during fiscal year 1990 under the supervision of the Surgeon General of the Army.

Social Work.—The Senate report requested that the Department of the Air Force initiate an administratively distinct department of social work on a pilot basis. The House did not address this issue.

The conferees agree with the Senate position and direct the Air Force to initiate this pilot program during fiscal year 1990.

Physicians in Administrative Positions.—The House included language directing the Navy to reduce, by 10 percent, the number of physicians in administrative positions, returning these physicians to patient care. The Senate did not address this issue.

The conferees agree with the House position and direct the Navy to accomplish the reduction no later than June 30, 1990.

Military Family Services.—The House included language directing that $3,000,000 available in Operation and Maintenance, Air Force, be used to continue the Air Force's military family services project. The Senate did not address this issue.

The conferees agree with the House position and direct the Air Force to keep the conferees informed on their progress with this important project.

Medical Research.—The House included language directing the Department to cooperate with the American Academy of Otolaryngology—Head and Neck Surgery. The Senate did not address this issue.

The conferees agree with the House position.

Heart Transplants.—The House included language directing CHAMPUS to evaluate and report on the feasibility of including other facilities with the CHAMPUS approved heart transplant facilities. The Senate did not address this issue.

The conferees agree with the House position and direct that the report be submitted within 120 days of enactment of this Act.

Payment of CHAMPUS Claims.—The conferees direct the Office of CHAMPUS to submit payment of $1 million to Georgetown University Hospital for care provided to Miss Jennifer McBride.

The conferees are concerned about the lengthy appeals process established by the Office of CHAMPUS for review of claims. The process is cumbersome, inefficient, and causes great anxiety and concern for families. The Assistant Secretary of Defense for Health Affairs should examine the current situation and make necessary changes to improve the process.

Ft. Bragg Demonstration Project.—The Senate included language addressing its concern that the Ft. Bragg mental health care demonstration project is experiencing delays. The House did not address this issue.

The conferees understand that the mental health care demonstration project contract has been awarded and care for Ft. Bragg beneficiaries will begin soon. The conferees are pleased that after first directing this project in fiscal year 1987, a contract has finally been awarded.

AUTOMATED DATA PROCESSING RESOURCES

The conferees agree to the following funding adjustments:

The table above refers to programs addressed in the House report. DD Form 1414, Base for Reprogramming for the Operation and Maintenance appropriations should explicitly indicate aggregate funding for ADP programs as a Congressional interest item, an increase to which requires prior approval. The only exception is increases for ADP in support of drug interdiction efforts, which do not require such approval. Funds for Army TAPSYS and Navy IDAFIPS are specifically denied.

The conferees agree that information systems development and acquisition of computer equipment for local administrative purposes (such as office equipment for a shipyard) may not be financed through industrial funds effective in fiscal year 1991. The operation of Navy Regional Data Automation Centers may continue on an industrial fund basis, even for software development; however, funds for the development of major automated information systems must be budgeted by the sponsoring Navy organization using only appropriated funds. The Department's industrial fund overview should justify in detail all other ADP expenditures financed in industrial fund activities. In addition, ADP programs must absorb a proportional fair-share of the contract advisory services reduction discussed elsewhere in this report. The conferees also agree to the House recommendation that all command and control systems that use primarily commercial computer equipment be reviewed by the MAISRC, which is now a committee of the Defense Acquisition Board.

The conferees are encouraged by the Department's recently announced "Corporate Information Management" initiative which aims to halt the development of redundant, Service-unique ADP systems. Reductions to Army (STAMMIS) software programs, for Navy and Air Force management practices, and to DLA's modernization programs shown above were made in part to ensure that this new policy is enforced and actually achieves savings.

The conferees agree to the House requirement for plans from the Secretary of Defense on how chronic ADP management problems in the Army and Navy will be resolved. A DAB review of the Army and Navy base level data automation strategic plans should be an integral part of the Secretary's report. The conferees envision that both Services will strengthen their internal ADP management organizations, establish effective mechanisms to rigorously define and screen user requirements, develop a comprehensive base level information architecture, develop a competitive acquisition strategy to achieve it, and limit infomation system software development to the minimum necessary to achieve truly mission essential capabilities. The conferees want the Department to focus on internal management processes, not technically elegant computer technologies. In particular, the Army must demonstrate that it has strong control and coordination over information systems developed by its major commands.

The conferees desire better ADP justification material for the fiscal year 1991 and subsequent budget submissions to Congress. The conferees are concerned, in particular, that funding requests for ADP studies and other commercial services are large yet lack detailed justification. The fiscal year 1991 budget should explicitly justify proposed expenditures larger than $1,000,000 in these categories.

The conferees have agreed to restore funding for the Army's TAMMIS medical information system in spite of the fact that DOD has failed to develop a tri-service architecture for battlefield medical information systems as previously directed by the Appropriations Committees. Therefore, it remains unclear how TAMMIS will fit into the architecture yet very clear that little has been done by the Office of the Secretary of Defense to prevent duplication among Service-unique systems. If the Department's new "Corporate Information Management" initiative is real, it must be applied to this functional area. The conferees will judge future funding requests for TAMMIS in this context. In addition, the conferees have provided funds in Operation and Maintenance for AFATDS software conversion, while denying the request for these funds in the procurement account.

Section 9040 of the Act imposes a $1.1 billion constant dollar cost cap on the Composite Health Care System, a tri-service medical ADP system for DOD hospitals. Congress derived this figure based on budget justification material submitted in fiscal year 1985. The conferees understand that internal DOD policy changes concerning ADP system life cycle cost computation have recently been made. For CHCS, in particular, this may result in a revised, extended life cycle which could also require a commensurate extension of the Congressional cost ceiling. Should this happen, the conferees urge the Secretary of Defense to propose an appropriate recommended adjustment in the CHCS cost cap to the Appropriations Committees as part of the fiscal year 1991 budget request to Congress.

The conferees agree that funding appropriated for Navy interim CAD/CAM purchases should be limited to mission critical requirements and be compatible with the future CAD-2 acquisition requirements. The conferees expect that the Navy will maximize use of existing Navy Regional Data Automation Centers under the SPAR acquisition. While the conferees have also agreed to let the NALCOMIS acquisition proceed, the GAO has identified concerns about: (1) sufficiency of stress testing and operational testing of proposed system configurations in their representative size for use aboard aircraft carriers and (2) acquisition of equipment once phase II hardware requirements contracts expire in 1992; the conferees expect that the MAISRC will ensure that the NALCOMIS acquisition strategy addresses these concerns while achieving the new target deployment date promised to the Congress. The conferees also reduced the Navy's other procurement budget for the Uniform Inventory Control Point (UICP) system based on a recent GAO audit.

Concerning the Air Force's PC-III personnal ADP system, the conferees agree to restore the O&M funding while denying the procurement request based on GAO recommendations. Prior to requesting future production funds, the conferees expect the Air Force to: fully develop the application software; demonstrate that the proposed hardware configuration is the most cost-effective alternative for meeting capacity, processing, and performance requirements; satisfactorily complete operational testing and evaluation of the complete system; and obtain Milestone III approval from the MAISRC.

Concerning the Defense Logistics Agency, the conferees agree to the House reductions in order to limit expansion of ADP systems pending the Secretary of Defense's management review which may result in organizational changes that impact information system design.

OPERATION AND MAINTENANCE, ARMY

Amendment No. 11: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$22,787,559,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert: *Provided, That $250,000 shall be available for the 1990 Memorial Day Celebration.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees understand that the National Park Service has scheduled a Memorial Day Celebration similar to the Fourth of July Celebration. Considering that Memorial Day is the day set aside to honor those veterans who gave their lives in defense of the United States, the Department of Defense should be involved in support of this concert/celebration. Therefore, the Army should work with the National Park Service to televise the 1990 Memorial Day Concert/Celebration, with participation from one or more of the military bands, orchestras, and/or choral groups.

Amendment No. 13: Deletes House language which withholds the obligation and expenditure of $100,000,000 of Army Management Headquarters funds until the Secretary of the Army submits a plan providing command authority to the Chief of Army Reserve. See "National Guard and Reserve Forces" for additional information on this subject.

Amendment No. 14: Restores House language which makes $3,500,000 available to the Monterey Institute of International Studies.

Amendment No. 15: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *Provided further, That of the funds appropriated in this paragraph, $46,000,000 shall be available only for procurement for the Extended Cold Weather Clothing System (ECWCS) and intermediate cold-wet weather boots, unless $46,000,000 of ECWCS and the intermediate cold-wet weather boots are procured by the Army Stock Fund during fiscal year 1990*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agrees with the bill language proposed by the Senate requiring the Department of the Army to procure $40,000,000 of the Extended Cold Weather Clothing System (ECWCS). The conferees further agree to amend the bill language by directing the Army to procure $6,000,000 of intermediate cold-wet weather boots for troop issue in fiscal year 1990.

For several years the conferees have been concerned about cold weather clothing for our soldiers. Since fiscal year 1987, the Army has been procuring and issuing the Extended Cold Weather Clothing System (ECWCS). However, the ECWCS does not include boots. Currently, soldiers are using their personal funds to buy Goretex type boots through the exchanges for use in cold climates.

The conferees are aware of the Army's current effort to test, select and procure intermediate cold-wet weather boots for use in −10 degrees F to +30 degrees F weather. It is obvious, however, that there is an immediate need for these boots by troops stationed in cold climates, and therefore the conferees require the Army to procure these boots in fiscal year 1990. The conferees agree that priority for issuance should be given to those troops stationed at extremely cold weather areas.

The conference agreement on items in conference is as follows:

COMBAT TRAINING CENTERS

The conferees agree to provide $10,000,000 to fund a combat training center for Army division and corps commanders at Ft. Leavenworth, KS.

CONTRACTOR SUPPORT FOR C-23 AIRCRAFT

The House included language directing the Army to use $10,000,000 of the funds appropriated for depot maintenance to provide Contractor Logistics Support for the Army National Guard C-23 Sherpa aircraft. The Senate did not address this issue. The conferees agree with the House position.

AMMUNITION PLANT MAINTENANCE

The Senate transferred the budget responsibility for ammunition plant maintenance from Operation and Maintenance, Army to Procurement of Ammunition, Army. The House did not address this issue.

The conferees agree with the Senate position and have transferred a total of $71,000,000 from Operation and Maintenance, Army to Procurement of Ammunition, Army and Procurement of Weapons and Tracked Combat Vehicles, Army for the maintenance of ammunition plants.

OPERATION AND MAINTENANCE, NAVY

Amendment No. 16: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$23,902,621,000, of which $81,000,000 shall remain available until September 30, 1992*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree that the Navy must provide a list of the shipyard modernization projects to be funded with the $81,000,000 and the estimated productivity gains from such projects. This list should be provided to the House and Senate Appropriations Committees no later than June 30, 1990. Finally, these resources are to be available only for shipyard modernization and are to be maintained as cash balances in the Navy Industrial Fund. This ensures that all obligations remain as funded obligations.

Amendment No. 17: Deletes House language which made a portion of the funds subject to authorization.

Amendment No. 18: Deletes House language which waives authorization restrictions for shipyard and depot competition and inserts Senate language waiving authorization restrictions of sections 2461 or 2464 of title 10, United States Code (codification of authorization restrictions).

Amendment No. 19: Restores House language which mandates that facilities and activities at the Memphis Naval Air Station be maintained at 1984 levels.

Amendment No. 20: Deletes House language which makes funds available to the U.S. Naval Support Force Antarctica.

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That the Navy may provide notice in this fiscal year to exercise options under the LEASAT program for the next fiscal year, in accordance with the terms of the Aide Memoire, dated January 5, 1981, as amended by the Aide Memoire dated April 30, 1986, and as implemented in the LEASAT contract: Provided further, That notwithstanding section 2805 of title 10, United States Code, of the funds appropriated herein, $2,000,000 shall be available for a grant to the National Museum of Naval Aviation at Pensacola, Florida. These funds shall be available solely for project costs and none of the funds are for remuneration of any entity or individual associated with fund raising for the project.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows

[Dollars in thousands]

AFDM-2 DRYDOCK

The conferees are advised that the Navy has in its possession a drydock in Beaumont, Texas, identified as AFDM-2. The facility has been idle for some time while the Navy has been studying potential uses of this asset. The conferees direct the Navy to take the necessary steps to lease this facility locally at a fair rental value. Leasing of the AFDM-2 drydock to a private shipyard will (1) keep a valuable national defense asset from further deterioration, (2) increase the competitive base for both ship repair work and new construction, and (3) generate revenues.

FOREIGN OVERHAULS, REPAIRS, AND MAINTENANCE

The House deleted the provision it has carried for a number of years prohibiting overseas repair, overhaul, or maintenance of Navy vessels. The House stated it had deleted the provision because it is now carried in title 10, United States Code, section 7309(c), not because its commitment to domestic repair, overhaul, and maintenance had wavered. The Senate also deleted the provision. The conferees agree that the provision was deleted because it is now carried in title 10, United States Code, section 7309(c). The conferees remain committed to domestic repair, overhaul, and maintenance.

CERTIFICATION OF PRIVATE YARDS

The House included language stating that private shipyards without access to non-Navy piers and drydock facilities should not be eligible to receive further Navy ship repair, alteration, and overhaul work. The Senate opposed the House position stating it was anti-small business and anti-competition.

The House position is based on recent Navy action counter to previous Congressional direction in this area. In both fiscal years 1985 and 1986, the Congress directed the Navy to cease the award of major repair work to shipyards without their own piers and drydocks. In 1989, the Navy disregarded Congressional direction and awarded a significant overhaul package to a company with no drydock facilities.

The conferees agree that there are instances where, for operational, national security, or other mission reasons, the Navy desires to contract out minor ship repair work to be performed at Navy yards. The conferees agree that in these circumstances, the Navy may award contracts to a ship repair company which does not possess organic pier and drydock capability. However, the Navy may not contract with a private company for major repair, overhaul, and maintenance activity which requires utilization of drydock and pier facilities if that company does not have such facilities of its own. Furthermore, the conferees agree that ship repair facilities which lease piers or docks from other concerns should be eligible for small repair work when it conforms to the intent of the conferees.

SHIP MAINTENANCE SCHEDULES

The conferees support the Senate language which requires the Navy to provide quarterly reports directly to the House and Senate Appropriations Committees on ship maintenance, repair and modernization schedules beginning with the completion of the first quarter of fiscal year 1990. The conferees believe this requirement will enable the Committees to make more informed budgetary decisions regarding these very important Navy programs.

HISTORIC HOUSING COSTS

The House reduced historic housing costs by $2,200,000. The Senate did not make this reduction.

The conferees agree to the Senate position. However, the Department is requested to submit a budget exhibit with the fiscal year 1991, and future budget requests, which details the amount requested and expended for operation and maintenance costs associated with renovations/maintenance of all historic buildings.

OPERATION AND MAINTENANCE, MARINE CORPS

Amendment No. 22: Appropriates $1,657,719,000 instead of $1,855,300,000 as proposed by the House and $1,640,419,000 as proposed by the Senate.

Amendment No. 23: Deletes House language which made a portion of the funds subject to authorization.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
OPERATION AND MAINTENANCE, MARINE CORPS				
General Purpose Forces	945,388	945,388	944,388	944,888

MARINE CORPS OPERATION AND MAINTENANCE

The conferees are concerned that the Marine Corps' O&M budget requests continue to decline in both constant and current dollars. Accordingly, in addition to the $1,657,719,000 appropriated, the conferees have included bill language requiring a Navy stock fund cash transfer of $156,000,000 (Section 9060). This increase should be used for general readiness items and real property maintenance.

OPERATION AND MAINTENANCE, AIR FORCE

Amendment No. 24: Restores House language which provided a centerhead.

Amendment No. 25: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and

concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$21,806,213,000.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 26: Deletes House language which made a portion of the funds subject to authorization.

Amendment No. 27: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert: *Provided,* That notwithstanding Section 502 of the National Security Act of 1947, Section 136 of the Department of Defense Authorization Act for fiscal years 1990 and 1991 (H.R. 2461) or any other provision of law heretofore or hereafter enacted, neither the SR-71 nor the classified program referred to in Section 136 of the Department of Defense Authorization Act for fiscal years 1990 and 1991 (H.R. 2461) shall be terminated and that both the SR-71 and the classified system are hereby authorized: *Provided further,* That notwithstanding any other provision of law, any appropriations included in this Act for personnel, operation and maintenance, procurement, or research and development for the SR-71, the classified system referred to in Section 136 of the Department of Defense Authorization Act for fiscal years 1990 and 1991 (H.R. 2461) or any other classified airborne reconnaissance system are hereby authorized: *Provided further,* That operation of the SR-71 aircraft shall be transferred to the Air National Guard no later than July 1, 1990: *Provided further,* That of the amount appropriated, $175,000,000 shall be solely for expenses associated with the SR-71 program, of which $100,000,000 shall be transferred to Operation and Maintenance, Air National Guard: *Provided further,* That $130,000,000 is hereby authorized in addition to any other authorization for airborne reconnaissance programs and that of the amount appropriated, $130,000,000 shall be transferred to Research, Development, Test and Evaluation, Defense Agencies 1990/1991 to be merged with and to be available for the same purposes and for the same time period as the appropriation to which transferred.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Airborne Reconnaissance Programs.—Both House and Senate reports and their classified annexes expressed disappointment and frustration over the nearly complete disarray found in Administration planning and budget submissions concerning airborne reconnaissance, particularly strategic airborne systems. In effect, the Administration's budget request abandoned airborne reconnaissance, giving up on major present assets, principally the SR-71 Blackbird aircraft system, and foregoing future ones, without any explanations of such draconian decisions. To describe such cuts as "budgetary" begs vital questions about the wisdom of Administration planning on key elements of the Nation's intelligence capabilities. The Congress has been waiting for several years for a sensible road map for airborne reconnaissance from the Administration, and since the promised plan is still not forthcoming, the conferees have decided to retain the important capabilities embodied in the SR-71 system and, in addition, fund associated research and development for the future.

The conferees believe that these systems provide valuable and timely intelligence in peacetime, are particularly important for contingency operations, and will provide a survivable capability in many wartime operational situations. The conferees believe that the handling of the SR-71 by the Air Force has been lackluster and unenthusiastic and has served to undermine the establishment capabilities of the SR-71 such that the time has arrived to place the management and operation of the system in the hands of managers who will more aggressively realize its capabilities.

Consequently the conferees endorse the restructuring of the SR-71 system as outlined in detail in the House report, and direct that the operation of the SR-71 aircraft be transferred to the Air National Guard no later than July 1, 1990, and a total of $210,000,000 obligated for all aspects of the system. They further have allocated an additional $130,000,000 for the associated systems. Further direction is contained in the classified annex to this conference report.

While both the House and Senate bills funded these systems, the conferees note that the conference Committee on the 1990 authorization bill chose to accept the Administration's recommendation to terminate these systems. Consequently, the conferees have included the funding for the systems as an amendment number 27 in disagreement in order to provide both chambers the opportunity to revisit the decision of the authorization conference and to affirm or reverse that decision.

The WC-130 Weather Reconnaissance Mission will be addressed in the following amendment.

Amendment No. 28: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That none of the funds made available in this Act may be used to disestablish or reduce the operation of the Air Force and Air Force Reserve WC-130 Weather Reconnaissance Squadrons.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The agreement on the SR-71 program is addressed with amendment number 27. See "National Guard and Reserve" section for additional information on the WC-130 Weather Reconnaissance mission.

The conference agreement on items in conference is as follows:

RENOVATION CLAIMS

The Senate included report language directing that $29,000,000 of Air Force O&M funds not be obligated or expended until a mutually satisfactory decision has been reached in the case of Shipco General, Inc. The House did not address this issue.

The conferees are disturbed by the Air Force's failure to negotiate in good faith on the claims of the Schipco General, Inc., for damages resulting from the Air Force's termination for convenience of that company's contract to renovate housing at Kirtland Air Force Base. Therefore, the conferees direct that $29,000,000 of operation and maintenance funds made available to the Air Force for fiscal year 1990 shall not be obligated or expended until 30 days after the Secretary of the Air Force reports to the Senate and House Committees on Appropriations that a resolution has been reached in the case of Shipco General, Inc.

EUROPEAN AND PACIFIC DISTRIBUTION SYSTEMS (EDS/PDS)

The Senate reduced the Air Force O&M account by $10,000,000 for the disestablishment of the Pacific Distribution System (PDS) and a reevaluation of the European Distribution System (EDS).

The conferees agree to terminate the PDS as proposed by the Senate, resulting in a reduction of $1,500,000. The PDS C-12 aircraft should be returned for use in the United States.

The conferees agree to continue the EDS as proposed by the House, and have agreed to appropriate $8,500,000 for this purpose. The Air Force is expected to adopt the program improvements recommended for EDS by the General Accounting Office.

OFFICE OF THE INSPECTOR GENERAL

Amendment No. 29: Deletes Senate language establishing an appropriation line for the Office of the Inspector General. See the write-up on this subject in Title VII.

OPERATION AND MAINTENANCE, DEFENSE AGENCIES

Amendment No. 30: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$7,800,156,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

[Dollars in thousands]

GENERAL REDUCTIONS

The conferees direct that any general reductions made in a specific area should be allocated proportionally to the amount requested for that area, with the following exceptions:

The Defense Communications Agency should not absorb the proportional amount of the communications reduction since the conferees made a reduction of $4,400,000 for productivity savings.

Any reductions made to the Department of Defense Dependents Schools should not offset the additional $5,500,000 added above the budget for the Office of Dependents Education or should not diminish the quality of education provided the dependents.

The conferees agree to a general reduction for travel instead of the specific reductions as proposed by the Senate. The Department should consider the recommendations addressed in the Senate report.

Any reductions made to the Defense Logistics Agency should not offset the $60,000,000 transferred from the Defense Stock Fund. The conferees do not expect to receive any reprogramming of funds for the Defense Logistics Agency unless they are truly unforseen or of an emergency nature.

The Office of the Secretary of Defense and the Washington Headquarters Service should not be exempt from the civilian personnel reduction of $10,000,000.

DEFENSE LOGISTICS AGENCY

Procurement Technical Assistance Cooperative Agreement Program.—The conferees agree with House language supporting the Procurement Technical Assistance Cooperative Agreement Program. This program provides assistance to organizations operating programs which furnish procurement technical assistance to firms seeking to enter the Department of Defense's supplier base.

Because the Defense Logistics Agency, in administering this program, had determined it was precluded from funding programs that exceed the authorized amount, many organizations which submitted proposals in response to the fiscal year 1989 Solicitation for Cooperative Agreement Proposals could not be funded. Therefore, the Defense Logistics Agency should utilize $4,000,000 of the $60,000,000 to be transferred from the Defense Stock Fund to fund the 1989 programs for organizations which continue to meet the current needs of the Department, provided that their proposals are otherwise in compliance with the provisions of the 1989 solicitation and funding of these programs is in the best interest of the United States. It is the intent of the conferees that the $4,000,000 is in addition to the $9,000,000 provided for the 1990 Cooperative Agreement program. It is also the intent of the conferees that any of the $4,000,000 not used to fund the 1989 program shall be available to fund proposals submitted in response to the 1990 solicitation.

The conferees are concerned that the Defense Logistics Agency held the 1989 Procurement Technical Assistance Cooperative Agreement Program in abeyance until Congress approved a reprogramming request. The conferees are adamant that the 1990 solicitation should not be delayed since adequate funds are appropriated in this Act for the program.

Meals, Ready-to-Eat (MREs).—The House expressed support for the "break-out" acquisition approach. The Senate remained silent in anticipation of receiving the results of a study requested by the conferees last year.

The conferees understand that the Defense Logistics Agency (DLA) is nearing completion of this study and direct that the study—after its completion and before submission to Congress—be made available to industry representatives for incorporation of their comments and views as part of the overall document.

In addition, the conferees support DLA's extension of the procurement delivery schedule to twelve months and encourage the full utilization of existing MRE stocks.

Management Support Agencies.—The conferees do not agree with the Senate proposed reduction in management support agencies. Because the Department has merged these administrative activities within the Defense Logistics Agency budget, and no description or justification has been provided, the conferees cannot reasonably judge the impact of the Senate's proposed reduction.

The conferees direct that the Department's fiscal year 1991 budget clearly describe and justify the programs and budgets of all management support activities, including but not limited to those currently included in the Defense Logistics Agency's budget. To the extent that these MSA's are extensions of the Office of the Secretary of Defense, as claimed by the Senate, then the conferees agree that it would be appropriate to budget for these activities within the Office of the Secretary of Defense.

Stockpile operations.—The Defense Logistics Agency has control over the operating expenses of the National Defense Stockpile. The Senate reduced DLA's budget by $32,000,000 and directed the operating expenses be paid from the cash balances in the Fund.

The conferees have restored the $32,000,000 in fiscal year 1990, but believe that the Fund, when it has such large cash balances, should pay for the operating expenses. Therefore, the Department is encouraged to submit legislative language allowing the Fund to reimburse DLA for operating expenses.

Demonstration Program.—The conferees understand that the State of Pennsylvania has incorporated a non-profit, multimunicipal organization to streamline the disposal of surplus and excess Department of Defense heavy equipment and machinery for use in infrastructure improvement projects by municipalities and other public-purpose organizations. Accordingly, the conferees request that the Defense Logistics Agency work with and provide up to $2,000,000 to the Region Equipment Center, Newport Township, PA, to develop a joint federal-state program.

DOD DEPENDENTS EDUCATION

Overseas schools.—The conferees agree to provide $5,500,000 above the budget to support House language which directs the Department to develop a plan and hire the required personnel in the Office of Dependents Education to develop consistent budgeting and logistics procedures to depict its budget requirements and expenditure rates accurately. The conferees understand that approximately twenty personnel, mostly in the fiscal and logistics areas, will be required in fiscal year 1990 to start this effort. These personnel should be in addition to the current DOD ceiling on personnel above school level.

Section six schools.—The conferees do not agree with House language requesting the Department to continue to assess each State's willingness to assume responsibility of the Section Six schools.

Impact aid.—The conferees agree to give the Secretary of Defense discretionary authority to provide, in consultation with the Secretary of Education, up to $10,000,000 in assistance to eligible local education agencies. However, any funds used for this purpose should be under the control of the Deputy Assistant Secretary of Defense (Family Support, Education, and Safety).

The conferees agree with House language expressing concern with the potential impact of the recommendations of the Commission on Base Realignment upon the operations of local school districts and requesting a report from the Department outlining the steps it will take to implement the Commission's recommendations including the projected timetable for personnel relocations and an assessment of all the budgetary requirements.

DEFENSE TECHNOLOGY SECURITY ADMINISTRATION

The conferees agree with House language expressing concern about the large growth of manpower over the last few years and requesting a report, along with the fiscal year 1991 budget, on each position at DTSA, its grade, and justification. This report should further breakout these provisions by those in the DTSA organization and those in support of the HI-TRAC 90 program.

The $500,000 reduction should be from personnel growth rather than the High Technology Export Analysis and Control System (HI-TRAC 90), which the conferees understand will be submitted in the fiscal year 1991 budget request. Any additional fiscal year 1990 funds required to support this system should be made available from funds provided to the Office of the Secretary of Defense.

THE JOINT STAFF

CINC Initiative Fund.—The conferees agree to provide $50,000,000 for the CINC Initiative Fund instead of $100,000,000 as proposed by the Senate. These funds should be available for high priority readiness and sustainability needs of the various CINCs. In addition to the allowable projects listed in the Senate report, exercises—especially joint exercises—should be considered allow-

able projects. The conferees expect the Chairman of the Joint Chiefs of Staff to report on the use and allocation of these funds by January 15, 1990. The conferees support the Senate language that requires the Fund to be managed competitively and not simply allocated between the CINCs on a formula basis.

Exercises.—In its write-up on The Joint Staff, the House expressed concern that exercise funds are decreasing while headquarters support funds are increasing and requested the Department to reevaluate the distribution of funds between these two activities to provide a better balance. The Senate made a specific reduction of $10,000,000 since the Department had significantly reduced the scope and method of training in joint exercises.

The conferees agree to the Senate reduction, since the Department has made a policy decision to reduce joint exercises. However, the conferees believe that joint exercises are essential to the readiness of our armed forces and request the Department to adequately fund all essential exercises.

DEFENSE INFORMATION AND REPORTS

The conferees agree with Senate language regarding the operation of the Directorate for Information and Reports, Washington Headquarters Services. Clearly, the Secretary should ensure that the data and records handled by DIOR are secure and accurate. Overseas expenditure data discrepancies between DIOR documents and the official Department of Defense budget must be readily available to the Congress, through telephonic communication. The current requirement that Congress submit formal requests to the DIOR for public information that was financed through appropriations is inappropriate and obsessively bureaucratic.

The conferees understand and are pleased that the Director of Washington Headquarters Services is committed to improving DIOR's operations.

OPERATION AND MAINTENANCE, ARMY RESERVE

Amendment No. 31: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$861,800,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to restore the force structure reinstatement as proposed by the House and to take a stock fund offset of $1,300,000. In addition, the conferees agree to delete the House proviso which would have prohibited the obligation of $100,000 until authorized by law.

OPERATION AND MAINTENANCE, NAVY RESERVE

Amendment No. 32: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$894,800,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

	Budget	House	Senate	Conference
Mission forces		+6,200		
Force structure		+16,200		+16,200
Equipment transfer			−84,000	−84,800
Stock fund offset				−16,600
All other items	980,000	980,000	980,000	980,000
Total	980,000	1,002,400	895,200	894,800

In addition, the conferees agree to delete the House proviso which would have withheld the obligation of $85,200,000 until authorized by law.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

Amendment No. 33: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$978,500,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

	Budget	House	Senate	Conference
Equipment transfer			−31,787	−25,700
WC–130 weather reconnaissance			+3,200	+3,200
Stock fund offset				−9,487
All other items	1,004,600	1,010,487	1,010,487	1,010,487
Total	1,004,600	1,010,487	981,900	978,500

In addition, the conferees agree to delete the House proviso which would have withheld the obligation of $26,100,000 until authorized by law.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

Amendment No. 34: Appropriates $1,867,100,000 as proposed by the House instead of $1,870,200,000 as proposed by the Senate. The conferees agree to make a stock fund offset of $3,100,000 instead of the general reduction as proposed by the House.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

Amendment No. 35: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$1,981,900,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items addressed by either the House or Senate is as follows:

	Budget	House	Senate	Conference
Equipment transfer			−66,993	−53,300
Force structure		+12,893	+14,193	+14,193
Stock fund offset				−20,193
All other items	2,041,200	2,041,200	2,041,200	2,041,200
Total	2,041,200	2,054,093	1,988,400	1,981,900

In addition, the conferees agree to delete the House proviso which would have withheld the obligation of $54,300,000 until authorized by law.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

Amendment No. 36: Deletes House language which would have provided that $730,000 could not be obligated or expended until authorized by law.

COURT OF MILITARY APPEALS, DEFENSE

Amendment No. 37: Appropriates $4,000,000 as proposed by the Senate instead of $3,800,000 as proposed by the House.

ENVIRONMENTAL RESTORATION, DEFENSE

Amendment No. 38: Appropriates $601,100,000 instead of $900,800,000 as proposed by the House and $517,800,000 as proposed by the Senate. While the conferees agree to the authorized level, they believe it to be well below what is required by the Department to alleviate the backlog of environmental cleanup at sites contaminated by past practices. The conferees strongly encourage the Department to submit a higher level in the fiscal year 1991 budget request.

The conferees have appropriated $184,500,000 to the service operation and maintenance accounts to be used only for environmental facilities and hazardous waste disposal operations. If the services do not provide timely cleanup at current sites, these sites could become future contaminated sites which will require funding in this account. These funds may only be transferred to the Defense Environmental Restoration Account through normal reprogramming procedures.

The conferees agree with House language concerning Hays, PA; Bainbridge, MD; and Matagorda Island, TX; and with Senate language concerning Dutch Harbor, AK; Mead Ordnance Plant, Fort Meade, MD; and the Win Wan-Gabbs Valley and Pilot Peak-Monte Cristo Range, NV areas. In addition, the conferees direct the Department to continue the cleanup operation started in fiscal year 1989 at Warrington, PA.

Base Closure.—The conferees believe that the funds in this account should be utilized on a "worst case first" basis. The Base Closure Act should provide funds for environmental restoration, Including reducing, removing, and recycling hazardous wastes and removing unsafe buildings and debris at sites included in the Base Closure and Realignment Act.

Policy oversight.—The conferees agree with Senate language requiring the Deputy Assistant Secretary of Defense for Environment to be the Department's principal representative on all environmental issues to Congress, other Federal agencies, and State and local governments. He should report directly to the Under Secretary for Acquisition.

The conferees are pleased that this office has taken the initiative to develop an intergovernmental framework to prioritize the identified projects in coordination with States and local communities.

Justification material.—The conferees agree with the Senate language expressing concern that it is difficult to review the entire Defense environmental budget. Therefore, the Department should identify all environmental funding, broken out by individual appropriation account, in the justification back-up material submitted for the Defense Environmental Restoration Account for fiscal years 1991 and beyond.

Amendment No. 39: Deletes House language which would have provided that $300,000,000 should not become available for obligation before September 1, 1990, and

deletes House language which would have provided that $300,000,000 could not be obligated or expended until authorized by law.

Amendment No. 40: Makes a technical change as proposed by the Senate.

BASE CLOSURE ACCOUNT

Amendment No. 41: Deletes Senate language which appropriates $300,000,000 for the Base Closure Account. The conferees agree that funding to implement the recommendations of the Base Closure Commission should be included in the Military Construction Appropriations bill. However, the conferees remain interested in implementation of these base closure and realignments, since these actions will impact programs funded within the Defense Appropriations bill.

Audit of Savings.—A detailed review of past Defense base closures by the Congressional Budget Office (CBO) has revealed that there is no evidence that these realignments resulted in savings. The Department of Defense did not keep records on the construction, personnel, and base operations costs and savings. There is no way to measure whether actual savings met or exceeded forecasted savings. CBO found that only economic adjustment assistance costs and property sales revenues were tracked. To ensure that the Congress is able to ascertain whether the current round of base closures and realignments produces savings, the conferees direct the Secretary of Defense to maintain data on the costs and savings from each realignment. Savings resulting from reduced civilian and military end strength, transportation, base operations, and other operational costs must be verifiable.

Environmental Costs.—The conferees fully endorse the House language regarding environmental restoration at bases proposed for closure. The Base Closure Account is authorized to fund environmental restoration costs at the base proposed for closure and realignment. The account, and not the Environmental Restoration, Defense, fund is to be used to clean up contamination at installations proposed for closure by the Base Closure Commission.

TITLE III—PROCUREMENT

GENERAL CONFERENCE ISSUES

SMALL AND MEDIUM BUSINESS

The Congress has repeatedly expressed its concern that the Defense Department, in carrying out the goals of the Small Disadvantaged Business Program through price differentials and set asides, is denying nondisadvantaged small- and medium-size businesses a reasonable opportunity to compete for Department of Defense contracts. The conferees share this concern.

In the conference report on the fiscal year 1989 Defense Authorization Act, the conferees directed the Secretary of Defense to ensure that any price differentials for small and disadvantaged businesses are tailored to the various segments and tiers of industry, so that other small- and medium-sized companies are not denied a reasonable opportunity to compete, and that price differentials are not used when adequate small and disadvantaged business participation exists within an industry category. The Defense Department has yet to comply with these directions by issuing an appropriate implementation plan. To enforce these requirements, the Senate Armed Services Committee has included similar directives in bill language in the fiscal year 1990 authorization bill. The comferees support the intent of the authorizing committee and urge the Defense Department to comply with congressional directives on this issue.

The Congress does not intend for the Defense Department to force those industry categories in which there is already substantial small and disadvantaged business participation to bear the burden of meeting overall Defense Department goals.

The conferees also recognize the importance of the evaluation preference as a tool to assist the small and disadvantaged business community to overcome burdensome financial barriers that have impeded their participation in the DOD contracting process. Accordingly, in determining whether the adjustments should be made to the evaluation preference, DOD should consider the extent of the impact of such adjustment on the ability of the Department to attain the 5 percent goal in DOD contracting. In keeping with the Armed Services conference agreement, the conferees agree that the DOD should report to the Appropriations and Armed Services Committee no later than July 15 as required by section 1027 G of Public Law 99-661 as amended. This report should include an analysis and justification of the Department's current policies, and a detailed plan to improve the implementation of the program with the goal of ensuring that nondisadvantaged business are not denied a reasonable opportunity to compete.

The conferees incorporate by reference the criteria and guidelines for the DOD report as detailed in House Report 101-331, the conference report on Department of Defense Authorization Act, 1990.

WORLDWIDE MILITARY COMMAND AND CONTROL SYSTEM (WWMCCS)

The conferees are concerned that the WWMCCS program, which is primarily managing information, is being developed and fielded without a coherent management structure that captures both the joint aspects supporting National Command Authority requirements and the service-unique aspects supporting other command and control requirements. It appears that because this system has been designated as command and control rather than information management, it has not been subjected to the rigorous review of the Major Automated Information System Review Council (MAISRC). The MAISRC has developed a great deal of expertise in dealing with large scale information processing systems that take years of development. As previously discussed in the "Operation and Maintenance" section, this expertise should, in the conferees' view, be applied to systems such as WWMCCS that primarily use commercially available equipment. In addition to the planned DAB review, the conferees direct an additional review by the MAISRC of all aspects, joint and service-managed, of WWMCCS improvement. The reviews should ensure that duplicative functions are not being separately developed by the military departments and that the interfaces between the joint program and the service programs are efficient.

INSTALLATION OF MODERNIZATION EQUIPMENT

The conferees agree with the Senate proposal to follow the full funding policies of the Department of Defense and show the cost of installing equipment required to modernize existing forces as part of the acquisition of equipment. Heretofore, the Department has budgeted these costs on an incremental basis in the Operation and Maintenance accounts, requesting only those amounts required to accomplish current year installations. Thus the acquisition costs of the end items were understated. The conferees agree that beginning with the fiscal year 1991 budget request, these costs should be budgeted by individual line item in procurement. The request should separately identify both the cost of the item to be procured and the cost of installing the item. The Defense Department should ensure that its fiscal year 1991 request considers the time required to acquire and install the item and that both can be accommodated within the obligation limitation of the appropriation. The change to apply the full funding policy to modernization equipment was requested by the Department of Defense.

The conferees recognize that the cost of installation has not been reflected in the acquisition costs of equipment already requested and approved through fiscal year 1990. Therefore, the conferees have made the following adjustments. For equipment planned to be installed during fiscal year 1990, a total of $1,915,800,000 has been transferred from operation and maintenance appropriations to procurement appropriations. For equipment procured but not planned for installation until subsequent fiscal years, a total of $3,051,000,000 has been provided in procurement appropriations. The conferees agree to a ten percent reduction from the $3,400,000,000 proposed by the Senate as they believe there will be management savings and efficiencies achieved by executing the program in procurement. The Department of the Navy is directed to submit a report to the House and Senate Committees on Appropriations on any difficulties encountered implementing this change in the Other Procurement, Navy appropriation account. The table below provides detail of these adjustments by appropriation.

INSTALLATION OF MODERNIZATION EQUIPMENT

Appropriation account	Conference Recommendation	
	FY 1990 funds for FY 1990 installations	FY 1990 funds for outyear installations
Aircraft procurement, Army	31,600,000	52,470,000
Missile procurement, Army	0	34,470,000
Weapons and tracked combat vehicles, Army	53,200,000	81,180,000
Other procurement, Army	59,100,000	34,740,000
Aircraft procurement, Navy	376,500,000	542,250,000
Weapons procurement, Navy	0	30,420,000
Other procurement, Navy	1,065,200,000	1,818,900,000
Procurement, Marine Corps	5,900,000	8,550,000
Operation and maintenance, Air Force	−245,300,000	0
Aircraft procurement, Air Force	294,900,000	351,900,000
Missile procurement, Air Force	29,400,000	8,100,000
National Guard & Reserve Equipment, Defense	0	88,020,000

MILSTAR COMMUNICATIONS PROGRAM

As documented in both the House and Senate reports and their respective accompanying classified annexes, the MILSTAR communications program has been plagued by poor definition of requirements, benign neglect by senior government officials, overly ambitious technical challenges, inadequate planning, contractor cost overruns, and repeated schedule slippages. As a result, the House directed termination of the program after launch of the third satellite, while the Senate included specific language directing certain changes that would be required if the program were to continue.

If the mission of MILSTAR were less critical to the surviving and enduring communications architecture necessary to support the national security functions of this coun-

try, there would have been little support for continuation of the program. However, if MILSTAR were terminated at this point, the expense to begin development of a new system might well exceed the cost in both time and dollars to salvage the MILSTAR program itself. Therefore, the conferees reluctantly agree not to terminate MILSTAR after the third satellite, but rather agree to significantly restructure the program by eliminating $226,346,000 from the fiscal year 1990 request and prohibiting acquisition of satellite number four and long lead items for satellite number five, delaying launch of the first satellite by at least a year, denying all funds for Army terminals, and deleting half of the resources requested for Air Force terminals. In addition, definitive and non-negotiable program direction is included in the classified annex to this conference report.

While the program has not been terminated as proposed by the House, the Department should clearly note that it will not be permitted to proceed beyond the third satellite without complete compliance with the direction included in the classified annex to this report.

AIRCRAFT PROCUREMENT, ARMY

Amendment No. 42: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$3,789,937,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousand of dollars]

	Budget	House	Senate	Conference
AIRCRAFT PROCUREMENT, ARMY				
Grisly hunter	9,899		9,898	9,898
AH-64 Attack Helicopter (Apache) (MYP)	752,056	752,056	2,433,356	1,487,527
AH-64 Attack Helicopter (Apache) (MYP) (AP-CY)	36,500	36,500		
UH-60 Blackhawk (MYP)	174,284	206,084	170,784	206,084
OV-1 MODS Surveillance Airplane	15,238	7,838	15,238	15,238
AH-64 MODS	38,097	20,993	38,097	20,993
AHIP		195,000		195,000
AHIP prior year savings			−96,000	
AHIP (AP-CY)		35,300		
SOF aircraft mods	212,502	212,502	202,602	202,602
Spares and repair parts	553,423	600,423	544,023	553,423
Modernizaiton of equipment, O&M transfer			31,600	31,600
Installation of modernization equipment			58,300	52,470

GRISLY HUNTER

The conferees agree to fund initial procurement of Grisly Hunter at the budgeted level of $9,898,000. However, the conferees continue to be concerned about program cost, requirement, potential duplication, and over-specification. Therefore, the Army is directed not to obligate any of the procurement funds for this program until the following events occur:

1. Testing leading to Milestone III production decision is completed and the results of the tests are reported to the Committees on Appropriations.

2. The new Commander in Chief of the Southern Command certifies to the Committees on Appropriations that the statement of need is still valid or, if not valid, how and why it has been changed.

3. Total program costs are displayed and reported to the Committees on Appropriations including all operating and support costs and the costs of all pre-planned product improvements.

4. The Army re-examines all requirements and reports to the Committees on Appropriations on cost reductions achieved as a result of down-scaling or eliminating requirements.

UN-60 BLACK HAWK

The conferees agree that the use of $22,300,000 in prior year funds to offset a fiscal year 1990 reduction in the UH-60 Black Hawk program, as proposed by the Senate, is not required.

AH-1 COBRA HELICOPTER MODIFICATIONS

According to current Army plans, more than 400 AH-1 Cobra helicopters will be required in the active Army and National Guard inventories beyond the year 2000. Current Army plans provide a night capability for only 52 of them. The conferees are concerned that a significant portion of the Army and National Guard inventory of attack helicopters will not have a night capability. Therefore, the conferees request the Secretary of the Army to report back to the Committees on Appropriations no later than March 15, 1990 on the need for a night capability for the Cobras and the plan for addressing that need.

AN/ASC-15B AIRBORNE COMMAND AND CONTROL CONSOLE

The conference agreement provides $4,800,000 for production and installation of the current AN/ASC-15B console. The conferees agree that future procurement of an upgraded version, the Airborne Command and Control Console, (ATCC), is to be competed, and that production of ACCC should follow immediately upon completion of the AN/ASC-15B consoles funded in fiscal year 1990. However, if procurement of ACCC is delayed, the conferees direct that AN/ASC-15B production be continued until the competitive procurement of ACCC begins. The conferees expect the funding provided herein to be carried in a separate line within the Aircraft Procurement, Army appropriation and direct the Army to budget for this line in its five year program.

SPARE PARTS

The conferees agree to provide $553,423,000 for Spares and Repair parts as requested. In addition, the conferees agree with the Senate that $50,400,000 of funds provided in fiscal year 1989 for the Apache program may be used for repair of damage from recent natural disasters.

Amendment No. 43: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert: *: Provided, That the Secretary of Defense shall review the requirements for Apache Helicopters and the Army Helicopter Improvement Program (AHIP) and report to the Committees on Appropriations by April 1, 1990: Provided further, That if the report finds that additional Apache or AHIP Helicopters are needed to fulfill the requirements for the U.S. Army, including National Guard and reserve forces, the Secretary of Defense may propose to obligate funds provided herein for advance procurement on additional Apache and/or AHIP Helicopters.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have provided $1,487,527,000 for purchase of 132 Apache aircraft, the level authorized for purchase prior to the planned termination of the Apache program.

Within the funds provided, $15,500,000 has been provided to purchase a combat mission simulator for Apache aircraft. Therefore, the conferees have deleted language regarding the matter.

The conferees are concerned about the need for Apache and AHIP helicopters and have directed the Secretary of Defense to review this matter and report to the Committees on Appropriations. Additionally, the conferees have included language which allows the Secretary to propose the acquisition of additional Apache and AHIP helicopters if he finds that additional requirements exist. To this end, the Secretary can propose to use funding provided for Apache helicopters in the bill for advance procurement of additional Apache helicopters.

Similarly, the Secretary can propose to use funds provided for AHIP for advance procurement of additional AHIP helicopters.

MISSILE PROCUREMENT, ARMY

Amendment No. 44: Appropriates $2,708,399,000 for Missile Procurement, Army instead of $2,942,399,000 as proposed by the House and $2,343,229,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
MISSILE PROCUREMENT, ARMY:				
Non-line of sight MSL (AP-CY)	32,469		32,469	32,469
ADS HVY MSL system	238,871	238,871	75,000	170,000
Hawk MSL system (MYP)	55,358	12,400	55,358	55,358
Patriot (MYP)	924,488	911,888	676,188	911,888
Stinger	117,545	206,545	117,545	117,545
Laser Hellfire system	138,326	231,826	103,326	103,326
TOW 2 (MYP)	114,710	165,810	114,710	114,710
Multiple launch rocket system (MYP)	311,374	400,600	440,174	440,174
Army tactical missile sys (ATACMS)	87,273	133,273	87,273	87,273
Installation of modernization equipment			38,300	34,470

MULTIPLE LAUNCH ROCKET SYSTEM

The conferees agree that the Army shall sustain the existing mobilization subcontractor base for MLRS rocket motor cases and warhead skin metal parts.

ATACMS

The conferees are aware that the Army has decided to have a second year of low rate initial production for ATACMS in fiscal year 1990. Both the original Regan budget and the Bush revision anticipated full rate production. The Army is directed, prior to obligating any fiscal year 1990 funds, to report to the Committees on the current ATACMS acquisition strategy and procurement profile, together with supporting justification.

Amendment No. 45: Deletes House language which provided that a portion of the funds could not be obligated or expended until authorized by law.

Amendment No. 46: Deletes House language which provided that funds could not be used to develop a second source for TOW 2 missiles for DOD annual buys of less than 12,000 missiles.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

Amendment No. 47: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$2,707,611,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement of W&TCV, Army:				
Bradley Fighting Vehicle Family (MYP)	576,417	554,585	549,417	549,417

M1 Abrams Tank (mod)	42,328	36,228	42,328	36,228
Spares and repair parts	309,956	309,956	272,556	259,556
Production base support (TCV-WTCV)	55,442	23,942	22,542	22,542
Howitzer, light, towed, 105MM, M119	24,631			4,000
Howitzer, light, towed, 105MM, M119 (AP-CY)			4,000	
Grenade launcher, auto, 40 MM, MK19-3	19,736	19,736		19,736
Personal defense weapon, 9MM	7,539	7,539		
Industrial preparedness				6,400
Modernization of equipment—O&M transfer			53,200	53,200
Installation of modernization equipment			90,200	81,180

M-1 TANK

The conference agreement provides $982,886,000 in new obligational authority for procurement of 481 M-1 tanks. The conferees direct that an additional $109,400,000 in unobligated prior year procurement funding for the Improved Recovery Vehicle be applied to this line, making total available funding of $1,092,286,000. The conference agreement restores the $20,000,000 reduction proposed by the House for a classified program and eliminates the $4,500,000 increase proposed by the House for the Vehicular Intercommunications System (VIS). The VIS program is discussed below.

M119 105MM TOWED HOWITZER

The conference agreement provides $4,000,000 for procurement of fully funded M119 howitzers, instead of advance procurement funding as proposed by the Senate and no funding as proposed by the House. The reduction from the budget recognizes the slippage in deliveries of U.S.-produced hardware from what was forecast last year. The conferees expect that the conference allowance will have no impact on workforce levels in the domestic production base for this item. If the Army can demonstrate that workforce levels or a production break are threatened, the Committees will consider a reprogramming.

9MM HANDGUN

The Army's budget submission includes $7,539,000 for the procurement of 34,696 9mm handguns. The conferees recommend denial of the fiscal year 1990 budget request, without prejudice, because of production delays in the program.

The conferees continue to support the 9mm program. However, the contractor is encountering problems associated with initial CONUS production and scheduled deliveries. The deferral of consideration of further funding for one year will allow the contractor and the Army to continue their cooperative engineering efforts to identify and resolve the deficiencies.

INDUSTRIAL PREPAREDNESS

The conference agreement provides $6,400,000 on a new line titled Industrial Preparedness. These funds, budgeted and formerly appropriated in operation and maintenance, are to support maintenance requirements at Watervliet and Rock Island Arsenals and Depot Systems Command facilities.

Amendment No. 48: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *: Provided, That the Secretary of the Army shall complete the technical and operational testing and acquire the technical data package for the Improved Recovery Vehicle, M88A2*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

IMPROVED RECOVERY VEHICLE

The conference agreement includes bill language which requires that the Secretary of the Army complete technical and operational testing of the Improved Recovery Vehicle and acquire the technical data package. This action will provide a basis for assessing capabilities for any future recovery vehicle acquisition or for potential foreign sales. The conferees direct that $15,000,000 in prior year IRV procurement funds be used to complete this action.

The conferees remain concerned about operational and safety deficiencies with current recovery capabilities both for tank forces and for other armored vehicles. These deficiencies cannot permanently be ignored without producing very real impacts on battlefield capabilities. The conferees direct the Army to report to the Committees on Appropriations by March 31, 1990, on the nature and extent of deficiencies in the current approved procedures and practices for recovery of armored vehicles. Such report shall provide a long range program and budget plan for addressing these deficiencies. In the absence of such a plan, the report shall include an assessment from the Joint Chiefs of Staff of the impact that current practices will have on battlefield operations.

Amendment No. 49: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert: *: Provided further, That the Department of the Army shall expeditiously procure an improved vehicle intercommunication system with a goal of an initial procurement contract not later than September 30, 1990.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

VEHICLE INTERCOMMUNICATION SYSTEM (VIS)

The conferees note that the Army finally appears to be moving towards replacing its current vehicle intercommunication system. Hearings in recent years have pointed out the many deficiencies of the current system (AN/VIC-1) and the cost-benefits and battlefield improvements that occur with a system utilizing current technology.

The conferees understand that the Army is now integrating candidate VIS systems on vehicles and is concurrently developing an acquisition strategy for VIS. This can lead to an initial procurement contract before the end of the current fiscal year. The conferees direct the Army to submit its VIS acquisition strategy and program milestones as soon as they are known, but in no case later than January 30, 1990.

The House bill included language prohibiting the use of funds available to the Army from being used to procure the VIC-1. The conference agreement substitutes language requiring the Army to proceed expeditiously with the VIS program with the objective of an initial procurement contract by September 30, 1990. The conferees direct that funding for this procurement be taken from available funds in the appropriate weapons system line.

PROCUREMENT OF AMMUNITION, ARMY

Amendment No. 50: Appropriates $2,011,243,000 instead of $2,021,317,000 as proposed by the House and $1,691,147,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement of Ammunition, Army:				
Nuclear weapons support materiel	6,474	7,074	6,474	6,474

81MM MORTAR TRAINING AMMUNITION

The conferees agree that previously appropriated funds for the procurement of M880 81mm mortar training ammunition be used for that purpose and not reprogrammed as proposed by the Senate.

ARTILLERY TIME FUZES

In providing $40,000,000 for procurement of electronic time (ET) fuzes, the conferees emphasize that no commitment is being made to production of this item beyond fiscal year 1990. The Army shall use fiscal year 1989 and 1990 funds to procure sufficient ET fuzes to validate the technical data package and to demonstrate that these fuzes can be produced with sufficient quality at prices that are competitive with the current mechanical time (MT) fuze. The conferees recognize that an attractively priced contract for procurement of MT fuzes has resulted in the Army's ability to buy far more than anticipated. Deliveries of these fuzes can therefore extend over a longer than normal period of time. It is the intention of the conferees that deliveries of mechanical time fuzes will continue until a final decision is made on further production of electronic time fuzes. If additional MT fuze procurement is necessary to achieve this objective, the Committees will entertain a reprogramming.

155MM M483A1

The conference agreement includes $90,000,000 for procurement of 155mm M483A1 projectiles for the mobilization project and plant acceptance test completion at the Mississippi Army Ammunition Plant.

M203 155MM PROPELLING CHARGE

The conference agreement provides $15,000,000 for procurement of M203 155mm propelling charges. The conferees agree that if the Army can demonstrate to the committees that additional funding is required to avoid a break in production, the Army may use $19,300,000 in fiscal year 1988 unobligated provision of industrial facilities funds.

DEPLETED URANIUM PENETRATOR PROCUREMENT

The conferees reaffirm their support for the Army's policy of split awards to the U.S. mobilization base producers of depleted uranium penetrator components for the DOD. By maintaining more than one source of these critical and unique components, the Army has protected the mobilization base and assured competitive bidding. The conferees are aware that other services and government departments are contemplating procurement of depleted uranium products from commercial sources and suggest that these agencies adopt a competitive procurement policy resulting in multiple awards to qualified producers from the U.S. Industrial Base.

PROVISION OF INDUSTRIAL FACILITIES

The conference agreement provides $245,310,000 for provision of industrial facilities, the House amount. The conferees agree that the $8,000,000 identified by the Senate for production base modernization projects at the Badger Army Ammunition Plant shall be taken from this budget line. In addition, high priority shall be given to production base improvements for similar facilities at the Sunflower Army Ammunition Plant.

Amendment No. 51: Deletes House language restricting a portion of the appropriation from obligation or expenditure until authorized by law.

OTHER PROCUREMENT, ARMY

Amendment No. 52: Appropriates $3,669,219,000 for Other Procurement, Army instead of $3,896,365,000 as proposed by the House and $3,382,986,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

TRI-TAC EQUIPMENT

The conferees agree to provide $13,000,000 for the TRI-TAC program as opposed to no funding as proposed by the House and $22,094,000 as proposed by the Senate. Subsequent to the original submission of the fiscal year 1990 budget, the Army has made an excellent effort to address concerns that the TRI-TAC budget was severely underfunded over the course of the current five year defense plan. The conferees are advised that the Army now plans to adequately fund the remaining echelon-above-corps communications requirements at levels that will support a realistic theater fielding schedule. The conferees encourage the Army to initiate a reprogramming to begin execution of this plan.

MOBILE SUBSCRIBER EQUIPMENT (MSE)

The conferees agree to provide $934,719,000 for the Mobile Subscriber Equipment program instead of $1,199,719,000 as proposed by the House and $884,719,000 as proposed by the Senate. The conferees note the substantial inflation savings available since the inception of the firm fixed price contract for this program.

The conferees also note that the fiscal year 1990/1991 budget submission projected an uneconomical production rate for fiscal year 1991. Future budget submissions for this program will receive careful scrutiny to assure that acquisition strategies are economically feasible.

SINGLE CHANNEL GROUND AND AIRBORNE RADIO SYSTEM (SINCGARS)

The conferees agree to provide $80,000,000 for the SINCGARS program instead of $150,328,000 as proposed by the House and no funding as proposed by the Senate. The conferees express their strong support for this important program which will provide the next generation of combat net radios. However, the conferees also note that continuing problems have contributed to the delay of the commencement of full rate production and that the SINCGARS program was recommended by the Administration as a source of funds for the anti-drug program.

In making funds available for the SINCGARS program, the conferees direct that not less than $30,000,000 shall be available for obligation for the procurement of airborne radios and that not less than $30,000,000 shall be available for obligation for the initial low rate production contract award to the program's second source producer.

SOUTHCOM C3 UPGRADE

The conferees agree with the Senate proposal to transfer funds for the SOUTHCOM C3 Upgrade to Title VII, Other DOD Appro-

priations. Additional comments on this program appear in the Title VII section of the Statement of Managers.

SOUTHCOM INTELLIGENCE MANAGEMENT SYSTEM (SIMS)

The conferees agree with the Senate proposal to transfer funds for the SOUTHCOM Intelligence Management System program to Title VII, Other DOD Appropriations. Additional comments on this program appear in Title VII portion of the Statement of Managers.

MILSTAR TERMINALS

The conferees denied funding for Army terminals for the MILSTAR satellite communications system. The conferees' views on the MILSTAR program appear in the procurement overview section of this report.

AFATDS

The conferees agree to deny funds requested for procurement, but have provided new funds in the operation and maintenance account as explained in the ADP section of this report.

ARMY DATA DISTRIBUTION SYSTEM

The House and Senate both denied funding for the Army Data Distribution System for fiscal year 1990. The conferees believe that sufficient prior year funds remain available to support this program through fiscal year 1990. Should the resolution of technical difficulties result in a decision to proceed with a low rate initial production that requires more funds than are available within the program, the Army may submit a request for reprogramming.

HEADQUARTERS AUTOMATION

The conferees agree to provide $13,690,000 only for the Military Pay Redesign where the Army plans to modify for its own use, the existing Air Force pay system. The conferees commend the Army for pursuing this approach.

CHEMICAL AGENT MONITOR

The conferees agree to provide $12,000,000 as proposed by the Senate for the Chemical Agent Monitor program.

This reduction is taken with the understanding that available prior year funds will allow the program to continue as planned. If this is not the case, the Army may make adjustments during execution to ensure program continuity.

GENERATORS AND ASSOCIATED EQUIPMENT

The conferees agree to provide $21,931,000 as proposed by the Senate for Generators and Associated Equipment. The conferees also share the concerns detailed in the Senate report.

AIRCRAFT PROCUREMENT, NAVY

Amendment No. 53: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$9,389,266,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Aircraft procurement, Navy:				
EA-6B/REMFG (elec warfare) Prowler	104,970	423,200	104,970	104,970

Installation of modernization equipment			602,500	542,250

EA-6B (ELECTRONIC WARFARE) PROWLER

The conferees agree to provide $104,970,000 as proposed by the Senate to initiate the program to update and refurbish existing EA-6b aircraft to the Advance Capability configuration. The funding provided for support and non-recurring production costs, including special tooling and test equipment, should assure a viable transition from development into remanufacture of the ADVCAP configuration in fiscal year 1991.

Additionally, the conferees note that there is a serious shortfall of EA-6B aircraft for the fleet. The shortfall currently exceeds levels which the Navy considers manageable. Although the conferees support efforts by the Secretary of the Navy to eliminate low priority procurement programs, the conferees are concerned about how the Navy will satisfy electronic warfare support for the fleet in the future.

Accordingly, the conferees direct the Secretary of the Navy to evaluate the shortfalls in this mission area, and explore alternatives for satisfying remaining requirements. If the Secretary's review confirms the need for added EA-6B aircraft, the conferees encourage the Secretary to initiate the appropriate reprogramming actions. Because of the impending closure of the line, the conferees direct that the Secretary provide an analysis of both the mission shortfall and the reprogramming plan, if justified, to the congressional defense committees not later than February 1, 1990.

F-14D (FIGHTER) TOMCAT

The conferees agree to provide funding for 18 new production aircraft and 6 remanufactured aircraft in fiscal year 1990.

The conferees have added new production aircraft in order to reduce the expense of line shutdown and increase the inventory to a level closer to identified requirements. The remanufacture program is funded at the level requested in the budget for procurement and advance procurement.

The conferees expect the Department of the Navy to plan for the orderly shut down of the F-14D production line in such a manner as to avoid unnecessary expenses.

The conferees further agree that the remanufacture of existing aircraft to the F-14D configuration should be carried out in such a manner as to improve fleet capabilities more quickly and control the total cost of the program.

AV-8B HARRIER

The conferees recommend $445,225,000 for purchase of AV-8B aircraft instead of $428,225,000 as proposed by the Senate and $461,225,000 as proposed by the House. This amount will fund 24 aircraft given cost savings as discussed in the Senate Report.

The current budget request contains no provisions for procuring AV-8B's beyond fiscal year 1991. The conferees are aware, however, that prior year Congressional testimony has established the fact that a minimum of 323 AV-8B's are required to meet present active force structure requirements. There has also been discussion of reserve force modernization needs. The conferees recognize the importance of these requirements and recommend that the Department review its AV-8B procurement plans.

CH-53E SUPER STALLION

The conferees agree to provide $154,300,000 for ten CH-53E helicopters for the Marine Corps. The conferees further believe that separate from the issue of Marine Corps lift requirements related to the V-22 program, the heavy lift requirement is not being adequately addressed by the Navy. Therefore, the conferees direct the Navy to submit a report with the fiscal year 1991 budget which addresses the CH-53E helicopter requirement.

V-22 OSPREY

The conferees note that the Secretary of Defense has directed the Institute of Defense Analysis (IDA) to conduct a Cost and Operations Effectiveness Analysis (COEA) on the V-22 and other possible helicopter alternatives. The conferees believe that this study should be used as a basis for a decision to begin production of the V-22 in fiscal year 1991. Accordingly, it is important that the Department obligate the remainder of the fiscal year 1989 advance procurement funds in order to retain the option to execute a production decision in fiscal year 1991. The conferees also note that the V-22 program is currently behind schedule and that the Initial Operating Capability (IOC) has already been delayed by at least one year.

Given the significance of the COEA study for future procurement decisions, the conferees believe that it should address all aspects of operations that could be performed by the V-22 or its alternative, not just the opposed amphibious assault mission. Therefore, it is particularly important that the advantages of the V-22 for special operations forces and drug smuggling interdiction missions be examined in full.

In order to ensure a comprehensive COEA study, the conferees therefore recommend that the analysis be extended to include the following key factors:

Mission analysis of the V-22 should be expanded beyond the Marine Corps' amphibious ship-to-shore movement to include long-

range special operations, over-the-horizon landings, follow-on operations, combat search and rescue operations, and drug interdiction operations;

Survivability and the cost of attrition;

Collateral costs such as increased manpower requirements, increased pilot requirement, and the impact on both strategic and amphibious lift;

The date which the V-22 or an alternative can be fielded and ready for deployment.

The conferees recognize the need for new and innovative solutions to the force planning problems our military currently faces. This is especially important given the uncertainty surrounding anticipated future conflict scenarios. Therefore, the conferees express keen regret that the V-22, a program providing great flexibility in mission, is jeopardized at precisely the time that our military planning must be tailored to account for change in the strategic environment.

Finally, the conferees believe that tiltrotor technology contains significant potential commercial applications, but it is also understood that commercial adaptability cannot be explored in a timely fashion without a military program.

MULTIYEAR PROCUREMENT

The Department of the Navy requested multiyear procurement authority and funding for F/A-18, E-2C, SH-60B and SH-60F aircraft programs. The conferees agree that multiyear procurement is a feasible and effective strategy to save money, but only when the savings sufficiently outweigh the risks. In the case of F/A-18 and E-2C multiyear proposals, a combination of programmatic uncertainty, high initial cost, and marginal savings (F/A-18) leads the conferees to conclude the risks are excessive to the savings. The conferees, however, believe the SH-60B and SH-6F programs represent minimal risk and reasonable savings under a multiyear procurement strategy. The advance procurement associated with each program is adjusted in the following manner: F/A-18 reduced to $141,400,000 for 66 aircraft; E-2C reduced to $30,487,000 for six aircraft; SH-60B is funded at $41,900,000 for multiyear procurement; and SH-60F is funded at $54,027,000 for multiyear procurement. The conferees encourage the Department of the Navy to explore and propose other programs for multiyear procurement in future budget submissions.

AIRCRAFT MODIFICATIONS

The conferees agree to provide $673,757,000 for modification of aircraft. This is an increase of $48,000,000 for completion of the A-6 Block Upgrade I and $25,000,000 additionally for the S-3 Block Upgrade I.

Amendment No. 54: Deletes language proposed by the House which provided that a portion of the fund appropriated shall not be obligated or expended until authorized by law.

WEAPONS PROCUREMENT, NAVY

Amendment No. 55: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following:

, as follows:

Ballistic Missile Programs,..... $1,443,165,000;
Other Missile Programs,.. 2,831,852,000;
Mark-48 ADCAP Torpedo,..... 438,642,000;
Mark-50 Torpedo,..... 271,130,000;
Sea Lance,..... 1,799,000;
ASW Targets,..... 12,983,000;
ASROC,..... 9,282,000;
Modification of Torpedoes,..... 9,653,000;
Torpedo Support Programs,..... 39,002,000;

Transfer to enterprise (SCN)			−7,800	
Installation of modernization equipment			33,800	30,420

TRIDENT II D-5 MISSILE

The conferees have included a total of $1,441,184,000 for the Trident II D-5 missile ($1,223,507,000 for annual procurement and $216,131,000 for advance procurement). It is the understanding of the conferees that this level will support approximately 42 missiles in 1990. The conferees further understand and expect that this funding level will not have an impact on the participation of the United Kingdom in the Trident program.

The conferees direct that no more than $250,000,000 of the total appropriated in fiscal year 1990 for the D-5 missile may be obligated until three successful Performance Evaluation Missile (PEM) flight tests have occurred. These tests must be conducted with missiles incorporating fixes installed after initial test flight failures, with at least two conducted in the same testing environment during which the two flight test failures occurred (i.e. near maximum depth with minimal cross flow over the deck). Funds may be obligated before attainment of the three successful flight tests only to the extent necessary to preserve schedule continuity; to retain in effect certain advantageous fixed-price contracts which have minimum order quantity requirements; and to retain qualified lower-tier vendors, in order to avoid serious programmatic disruptions, employee layoffs, and consequent additional costs.

PHOENIX

The conferees have provided $323,457,000 for the Phoenix missile, a reduction of $53,000,000 from the budget estimate. The conferees are opposed to the administration's plan to terminate Phoenix production after the 1990 procurement and note that the reduction includes the $50,000,000 which was budgeted for line shutdown and termination costs. The Navy is directed to procure as many missiles as possible with the funds provided.

Amendment No. 56: Deletes language proposed by the House which provided that a portion of the funds appropriated shall not be obligated or expended until authorized by law.

SHIPBUILDING AND CONVERSION, NAVY

Amendment No. 57: Inserts a center heading as proposed by the Senate.

Amendment No. 58: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendent of the Senate with an amendment as follows:

In lieu of the first sum named in said amendment insert: *$1,132,800,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 59: Appropriates $753,300,000 for the SSN-688 attack submarine program as proposed by the Senate instead of $1,432,300,000 as proposed by the House.

Amendment No. 60: Appropriates $614,800,000 for the SSN-21 attack submarine program as proposed by the House instead of $816,800,000 as proposed by the Senate.

Amendment No. 61: Appropriates $630,300,000 for the CV-SLEP program as proposed by the Senate instead of $651,200,000 as proposed by the House.

Amendment No. 62: Appropriates $1,422,100,000 for the ENTERPRISE refueling/modernization program as proposed by the House instead of $129,100,000 as proposed by the Senate.

Amendment No. 63: Appropriates $3,500,000,000 for the DDG-51 program instead of $3,533,700,000 as proposed by the House and $3,420,700,000 as proposed by the Senate.

Amendment No. 64: Appropriates $197,600,000 for the MHC coastal mine hunter program instead of $282,000,000 as proposed by the House and $120,300,000 as proposed by the Senate and deleted language proposed by the House requiring competition between two sources.

Amendment No. 65: Appropriates $600,000,000 for the Sealift ship program instead of $1,000,000,000 as proposed by the House and $20,000,000 as proposed by the Senate.

Amendment No. 66: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

post delivery, and ship special support equipment, $368,900,000;

Coast Guard icebreaker ship program, $329,000,000;

Coast Guard patrol boat program, $84,000,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 67: Appropriates a total of $11,557,900,000 instead of $12,459,200,000 as proposed by the House and $9,359,800,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Shipbuilding and conversion, Navy:				
Trident (nuclear)	1,137,200	1,137,200	1,037,200	1,032,200
Transfer from other accounts			(100,000)	(100,000)
Trident (nuclear) AP-CY	140,600	140,600	100,600	100,600
SSN-688 Class submarine (nuclear)	806,300	1,432,300	753,300	753,300
SSN-21 (AP-CY)	816,800	614,800	816,800	614,800

Icebreakers			488,000	329,000
Coast Guard patrol boats				84,000
Undistributed reduction (MILSTAR)		−48,700		

SSN-688 ATTACK SUBMARINE

The conferees agree to provide $753,300,000 for one SSN-688 class submarine as proposed by the Senate. The conferees note that the volatile nature of the Navy submarine program has created the possibility of wasting advance procurement funds and raises questions about the validity of requirements. Subsequent to passage of the House bill, the Navy informed the conferees that advance procurement funding would not be wasted since the items being procured would satisfy the SSN-688 class spare parts requirements.

Accordingly, the conferees have removed the second submarine proposed by the House. The Other Procurement, Navy account for initial spare parts outfitting has been reduced by $135,000,000.

SSN-21 SEAWOLF ADVANCE PROCUREMENT

The conferees agree to provide $614,800,000 for advance procurement for SSN-21 (Seawolf) attack submarines. Recent information regarding the fiscal year 1989 funded construction of one submarine of the SSN-21 class indicates a cost growth of approximately 10 percent for which fiscal year 1989 funding has not been identified. The conferences expect the Department of the Navy to submit reprogramming documents, using fiscal year 1989 funding as sources, to correct the identified funding shortfall. Such documents should be submitted to the House and Senate Armed Services and Appropriations Committee as soon as possible to allow for maximum congressional review.

Information has also been provided to the conference that indicates the budgeted lead time for propulsion components is in excess of actual requirements. Therefore, the conferees have reduced the amount provided for advance procurement. Furthermore, the conferees interpose no objection to an increase in procurement quantities above two submarines per year.

MHC (COASTAL MINE HUNTER)

The conferees agree to provide $197,600,000 for two MHC's. The conferees further agree that maintaining a competitive procurement program for coastal mine hunters is desirable.

The conferees understand and concur with the Navy plan to homeport two MHC ships, MHC-52 and MHC-55, in Astoria, Oregon. The conferees understand that MHC-52 is funded out of fiscal year 1989 funds and MHC-55 will be funded out of fiscal year 1990 funds.

SEALIFT

The conferees recommend $600,000,000 for dedicated sealift, $400,000,000 below the amount recommended by the House and $420,000,000 less than recommended by the Senate under this heading and in Title X of the Senate bill. The conferees remain concern with the capability of the United States to respond to an overseas crisis because of the lack of adequate sealift. The sum appropriated will partially redress this problem. The conferees recommend that the funds provided be used for construction of up to two tankers and four multi-mission vessels.

In addition, the conferees direct the Navy to consider purchasing two existing petroleum product tankers for the Ready Reserve Fleet. Priority is to be given to tankers financed by U.S. Government subsidies and Maritime Administration guaranteed debt that are less than ten years old and have demonstrated satisfactory performance under MSC charters for five years or more. In addition, such tankers must have been:

1. built to Military Sealift Command requirements incorporating features peculiar to U.S. Navy support vessels in order to optimize their military utility;

2. provided with a capability of refueling Naval vessels at sea; and

3. built with special maneuvering capabilities.

The conferees share the concern expressed in the Conference Report, accompanying the Department of Defense Authorization Act, 1990 that funds for sealift construction should not be used for ships which will have no peacetime mission. Therefore, the conferees direct the Navy to make every attempt to use the funds provided herein to acquire vessels which can be used to provide for support for Marine or Naval forces in peacetime, but also provide a surge capacity in the event of hostilities.

It is imperative that the design of each vessel attempt to incorporate elements of technology which can provide for more cost effective operations, including fuel efficient engines capable of high speeds and an emphasis on automated processes which can reduce personnel requirements.

The conferees agree with the intent of the Defense Authorization Act, 1990, which delays obligation of funds for construction until the Navy has reviewed the potential for this program. The conferees believe that the Navy should consider both cost and industrial mobilization base in awarding any funds provided for this program.

ICEBREAKERS

The conferees agree to provide $329,000,000 for one Coast Guard icebreaker in fiscal year 1990. The conferees agree that no contract shall be awarded for basic construction of a new icebreaker until 30 days after the President forwards to Congress the report on polar icebreaking needs that was mandated by the Coast Guard Authorization Act of 1988.

Amendment No. 68: Deletes language proposed by the House which provided that a portion of the funds appropriated shall not be obligated or expended until authorized by law.

OTHER PROCUREMENT, NAVY

Amendment No. 69: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$7,970,764,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other Procurement, Navy:				
LM-2500 gas turbine	7,502	7,502

Reduction, spares & repair parts		−17,500		
SSN-688 spares				−135,000
Transfer to enterprise (SCN)		−15,300		−15,300

QUICK REACTION SURVEILLANCE SYSTEM (QRSS)

The conferees agree to provide no funding, as proposed by the Senate, for the Quick Reaction Surveillance System (QRSS) which is a containerized, passive underwater surveillance system towed by a surface ship. However the conferees note that they have included $3,500,000 in the Navy RDT&E account for the Reduced Di-

ameter Array program and $5,500,000 in the Other Procurement, Navy account for spares and repair parts for towed arrays.

RELOCATABLE OVER THE HORIZON RADAR

The conferees agree to provide $10,900,000 instead of no funding as proposed by the House and $11,882,000 as proposed by the Senate. The provided funds are to be used to acquire support and test bed equipment and necessary technical drawings. The conferees express their support for the ROTHR program as well as installation of the next sector in the United Kingdom upon the signing of a Memorandum of Agreement by both parties.

PRACTICE BOMBS

The conference agreement of $41,903,000 for practice bombs includes $7,500,000 for procurement of laser guided training rounds as proposed by the Navy. This was included in the House bill under Research, Development, Test and Evaluation, Navy.

CIWS AMMUNITION

The Senate report included language which recommended continuation of depleted uranium (DU) in the competitive procurement strategy for close-in weapon system (CIWS) ammunition. The report also recommends the addition of live fire testing as a supplement to existing specifications for qualifying CIWS penetrators.

The conferees note that the current CIWS acquisition strategy was communicated to Congress in a letter from the Navy dated April 4, 1989. That strategy calls for use of tungsten as the exclusive material to be used in CIWS penetrators beginning in 1990. The strategy is the result of over nine years of testing which focused on effectiveness, costs, handling and production and which demonstrated that tungsten had significant benefits compared to DU. These tests included live firings against live warheads.

The conferees direct the Navy to continually assess and test available materials and concepts so that CIWS ammunition remains cost effective and responsive to the changing threat. Such evaluation and testing should include live firings as appropriate and should not preclude the use of DU in this ammunition should the cost benefits and testing favor the procurement of DU.

AMPHIBIOUS EQUIPMENT

The conferees agree to provide $21,898,000 for Amphibious Equipment as proposed by the House. Of the sum provided, $16,500,000 is for procurement of an Offshore Petroleum Discharge System (OPDS). The conferees note that availability of suitable training equipment may add to the readiness and effectiveness with which OPDS can be deployed. The conferees therefore encourage the Navy to examine the desirability of obtaining such equipment, and if warranted, to budget for the procurement of this equipment in the FY 1991 budget.

COMPUTER ACQUISITION PROGRAM

The conferees agree to provide $75,147,000, a reduction of $31,955,000 as explained in the ADP section of this report discussed with operation and maintenance appropriations. The procurement reduction consists of $4,455,000 for the Integrated Disbursing and Accounting Financial Information Processing System (IDAFIPS), $1,900,000 for the Stock Point Logistics Integrated Communications Environment (SPLICE), $15,600,000 for Stock Point ADP Replacement (SPAR), and $10,000,000 for the Uniform Inventory Control Point (UICP) system.

SSN-688 SPARES

The conferees agree to a reduction of $135,000,000 in spares and repair parts. In fiscal year 1989, $175,800,000 was appropriated for advance procurement for an additional SSN-688 class submarine. For fiscal year 1990 the conferees agree to delete funding for this additional submarine, and $135,000,000 of the funds appropriated last year for long lead items for a new SSN-688 submarine should now be used as funds for spare parts for presently operational SSN-688 submarines.

SPARES AND REPAIR PARTS

The conferees agree to provide $552,905,000 for spares and repair parts instead of $544,305,000 as proposed by the House and $547,405,000 as proposed by the Senate. The increase of $5,500,000 to the budget request is for spares and repair parts for towed arrays.

FF-1052 MODERNIZATION PROGRAM

The House included language directing the Navy to expedite its long delayed study on the Frigate Upgrade Program. Subsequent to the passage of the House Defense Appropriation Bill, the study was completed. The conferees note that the study stated that there was a requirement to upgrade the Anti-Submarine Warfare (ASW) capabilities of the FF-1052 Frigates. The conferees urge the Navy to fund this important program in the fiscal year 1991 budget submission and to submit a reprogramming request to initiate the program in fiscal year 1990.

ADVANCED VIDEO PROCESSOR (AVP)

The Advanced Video Processor (AVP), formerly designated the Acoustic Video Processor, is an enhanced Navy display development that has applicability to all surface combatants. The AVP is being developed as a Navy Standard to improve the video display systems associated with the Navy's newest shipboard antisubmarine warfare system, the SQQ-89. The Navy's original plans called for the fiscal year 1990 procurement of 67 AVP units, funds for which were budgeted in Shipbuilding and Conversion, Navy, and in Other Procurement, Navy. Of these 67 units, 30 were designated for the DDG-51 class ship.

The Navy is now proposing to procure no units with fiscal year 1990 SCN funds for installation on DDG-51 class ships. The reason cited is the schedule risk associated with new or modified systems on a major shipbuilding program. The conferees understand the Navy's assessment, but direct that changes in the original AVP production plans should be kept to an absolute minimum. Specifically the conferees direct that fiscal year 1990 production of a total of 33 units designated for SURTASS and other uses is to proceed as previously planned. Further, the conferees direct production of AVP for DDG-51 deployment is to begin in fiscal year 1991 without fail. The Navy is directed to make every effort to hasten production of AVP, which Navy officials themselves have stated will save as much as $20 million per year compared to the system it replaces.

The conferees establish AVP as an item of special interest. The Navy is directed to submit to the conferees its procurement plan for fiscal years 1990 and 1991 which conforms to the direction stated above, not later tha 30 days after the availability of this report.

PROCUREMENT, MARINE CORPS

Amendment No. 70: Appropriates $1,213,792,000 instead of $1,246,800,000 as proposed by the House and $1,175,885,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement, Marine Corps:				
83MM rocket HEAA (SMAW)	28,357	28,357		28,357
Unallocated increase—ammunition		50,000		25,000
M-1 A1 main battle tank (MYP)	396,340	396,340	396,340	381,340
M-1 A1 main battle tank (MYP) (AP-CY)	120,300	120,300	120,300	111,300
MK-19 40mm machine gun	1,858	1,858		
Modernization of equipment—O&M transfer			5,900	5,900
Installation of modernization equipment			9,500	8,550
Industrial/depot maintenance equipment			3,400	3,400,

Amendment No. 71: Delete House langauge making a portion of the appropriation available for obligation and expenditure only upon enactment of authorizing legislation.

AIRCRAFT PROCUREMENT, AIR FORCE

Amendment No. 72: Appropriates $15,679,242,000 for Aircraft Procurement, Air Force instead of $14,531,196,000 as proposed by the House and $15,815,530,000 as proposed by the Senate.

The conferees agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Aircraft Procurement, Air Force:				
B-2A	2,107,974	1,607,974	1,807,974	1,663,974

Common age	299,786	272,703	214,376	241,500
Industrial responsiveness	57,566	47,566	37,566	37,566
War consumables	51,924		51,924	
Other production charges	591,430	685,092	584,430	611,930
Common ground equip	109,153	56,265	109,153	56,265
Modernization of equipment—O&M transfer			294,900	294,900
Installation of modernization equipment			391,000	351,900
Aircraft components adjustment				−140,000
Airborne self protection jammer				−204,800

B-1B DEPOT

The Air Force requested $9,960,000 for B-1B depot support equipment. The budget justification material stated that these funds were related to the ALQ-161 electronic countermeasures system. Based on its troubled history and current design instability, neither Committee recommended funds for depot support.

It has since come to the Committees' attention that this request is not related to the ALQ-161, but rather involves depot support for other aspects of the B-1B program. The conferees understand that lack of funding for ths item would delay the development of organic maintenance capability within the Air Force resulting in continued reliance on contractor maintenance. Therefore, the conferees express their willingness to consider a reprogramming request, not to exceed $9,960,000, for B-1B depot support activities not related to the ALQ-161 system.

F-15E

The House reduced funding for the F-15E program by $103,600,000 for costs related to line shutdown and termination costs. The Senate provided the budget request. The conferees understand tht no funds were requested for termination costs. However, the conferees recommend a reduction of $103,600,000 for other program savings. This reduction in no way prejudges action on possible F-15E termination.

MC-130

The conferees provide $171,848,000 for the purchase of two MC-130 aircraft, a reduction of $70,000,000 from the request. The conferees instruct that the reduction in this program may not be made by reducing the number of aircraft to be procured.

C-130

The conferees have included $262,500,000 for 12 C-130 aircraft in the Aircraft Procurement, Air Force account. The Air Force is directed to transfer two of the aircraft to the Air Force Reserve and ten of the aircraft to the Air National Guard. The House had included funds for two Air Force Reserve C-130s and two Air National Guard C-130s in the National Guard and Reserve Equipment account. The Senate had included funds for two Air Force Reserve and ten Air National Guard C-130s in the National Guard and Reserve Equipment account.

The conferees have also included $43,000,000 in this account for one HC-130H aircraft which the Air Force is directed to transfer to the Air National Guard. The Senate had included funds for this purpose in the National Guard and Reserve Equipment account. The house did not address this issue.

MH-60G

The conference agreement contains $203,822,000 for MH60G helicopters, including $52,822,000 for four helicopters for the active forces. The balance of the funds are for helicopters which the Air Force is directed to transfer to the Air Force Reserve. The House and the Senate had included funds for Air Force Reserve helicopters in the National Guard and Reserve Equipment account.

C-17

The House and the Senate both deleted 2 aircraft and $431,800,000, excluding spares and repair parts, from the C-17 program. Based on additional program perturbations and schedule slippage, the conferees have deleted an additional $50,000,000 from the program. It is the conferees' intention that at least $37,500,000 of the additional reduction be applied to C-17 weapon system trainers and maintenance training devices which have experienced delays in required dates due to the revised schedule.

C-20

The conference agreement includes $49,600,000 to purchase two C-20 aircraft. The Air Force is directed to transfer these aircraft to the National Guard for use in operations and support missions in responding to disasters and emergencies. The conferees note that the lack of such aircraft hindered National Guard responses during the recent spate of disasters including Hurricane Hugo and the California earthquake.

B-52 MODIFICATIONS

The conferees recommend a reduction of $68,100,000 from the $225,613,000 requested for B-52 modifications. The reductions should be applied as follows:

B-52H (ACMI)	−$9,600,000
ALQ-172 Anechoic Chamber	−16,500,000
Integrated Conventional Stores Management	−6,200,000
Defensive Fire Control	−17,800,000
Simulators and Weapon System Trainers for Conventional B-52Gs	−18,000,000
Total	−$68,100,000

B-1B MODIFICATIONS

The committee of conference recommends $50,999,000 for modifications to the B-1B aircraft. This reflects the budget estimate reduced by the amounts requested for the 1122 technique and SRAM II integration, for which no funding has been provided.

C-135 MODIFICATIONS

The conferees have provided a total of $656,310,000 for C-135 modifications including $572,400,000 for 36 KC-135R reengining kits and $19,300,000 related to KC-135 aircraft equipped with MILSTAR terminals.

SPARES AND REPAIR PARTS

The conferees agree to the following reductions to the budget request:

Initial spares:	
B-2	−$92,400,000
C-17, AC-13OU and F-16	−110,100,000
Replenishment spares	−447,900,000
(B-52G)	(−17,000,000)

COMMON AIRCRAFT GROUND EQUIPMENT

The conferees agree that of the total appropriation of $241,500,000 for common aircraft ground equipment $71,569,000 is to be used only for ground power generators.

WAR CONSUMABLES

The conferees have deleted funding requested for war consumables due to poor obligation of prior year funding. However, the conferees do not question the utility of war consumable items.

OTHER PRODUCTION CHARGES

The conferees agree that the adjustments to other production charges reflect −$7,000,000 related to the Tacit Rainbow program.

COMMON ELECTRONIC COUNTERMEASURE PODS

In prior years the Congress has addressed the issue of the Air Force's deficiency in the number of effective ECM pods available for tactical aircraft. The Appropriations Committees supported a strategy of annually competing two pods and directed the Air Force to use 1989 funds to undertake such a competition.

A competition was held, but instead of a split buy, one pod won 100 percent of the planned procurement. However, the winning pod manufacturer is currently unable to ramp up production sufficiently to utilize all 1989 Common ECM pod funding. Approximately $45 million remains available. Accordingly, the conferees encourage the Air Force to consider using remaining 1989 funds, together with any other possible resources which might be identified, to procure additional ECM pods. This would not only provide additional pods to the tactical forces earlier but would provide the type of pod which is extremely effective in high density threat areas such as central Europe.

The conferees wish to make clear that this recommendation does not indicate displeasure with the conduct of the Air Force ECM pod competition but merely recognizes the critical need for additional pods and a possible course of action to help address that requirement.

Amendment No. 73: Deletes language proposed by the Senate which provided that B-2 bomber funding could be used to modify other bombers if certain conditions were not met.

MISSILE PROCUREMENT, AIR FORCE

Amendment No. 74: Appropriates $6,916,863,000 for Missile Procurement, Air Force instead of $6,544,612,000 as proposed by the House and $7,231,724,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Missile procurement, Air Force:				
Peacekeeper (M-X)	771,000	691,000	741,000	691,000
MX MK-21 reentry				80,000
Peacekeeper (M-X) (AP-CY)	163,607		163,607	163,607
SRAM II	4,415		4,415	4,415
SRAM II (AP-CY)	6,376		6,376	6,376
AGM-65D Maverick (MYP)	177,458	282,849	177,458	177,458
AGM-65D Maverick (MYP (AP-CY)	10,800		10,800	10,800
AGM-88A Harm	79,339	188,639	79,339	133,989
AMRAAM	902,876	687,776	820,000	687,776
Spares and repair parts	259,411	181,161	259,411	249,696
Global positioning (MYP)	70,291	36,291	70,291	54,000
Space shuttle operations	46,087	26,287	33,087	29,687
Defense support operations	359,330	310,530	334,330	334,330
Space boosters (MYP)	209,281	283,781	189,281	180,000
Medium launch vehicle (MYP)	137,286	127,686	128,286	127,686
Special programs	3,182,705	3,163,605	3,182,705	3,063,605
Special update programs	131,168	23,168	131,168	23,168
Classified programs	328,931		328,931	319,931
Modernization of equipment, O&M transfer			29,400	29,400
Installation of modernization equipment			9,000	8,100

SPARES AND REPAIR PARTS

The conferees have provided a total of $249,696,000 for spares and repair parts. The reduction from the budget is to be applied to AMRAAM (−$8,700,000) and Tacit Rainbow (−$1,015,000).

DEFENSE SUPPORT PROGRAM (MYP)

The conferees agree to provide $334,330,000 for the Defense Support Program as proposed by the Senate instead of $310,530,000 as proposed by the House. This level represents a six percent reduction to the budget request. The conferees encourage the Air Force to achieve as high a level of contract savings through total quality

management as possible. The Air Force is directed to make whatever management decisions are necessary to ensure that there is no slip in the production of satellites 23-25. The conferees are confident that the amount provided is sufficient to ensure continued production.

SPACE BOOSTERS

The conferees agree to provide $180,000,000 for Space Boosters instead of $283,781,000 as proposed by the House and $189,281,000 as proposed by the Senate. The amount provided is slightly below the recommendation of either House due to Air Force statements that funding for the Titan IV Solid Rocket Motor follow-on buy is funded in other accounts. Both Houses expressed support for continuing the procurement of the existing steel-case solid rocket motor (SRM) while the newer Solid Rocket Motor Upgrade (SRMU) is still in development, in order to provide assured access to space for heavy payloads carried by the Titan IV. The conferees strongly agree with the Air Force's most recent plan, which requires that seven of the ten motors in the follow-on buy be steel-case SRM's and the remaining three should be SRMU's. The Air Force is directed to execute that plan with the financing made available here, and to continue that acquisition plan with whatever additional funding is required. The House recedes from its proposal to direct the use of $180,000,000 for the procurement of six sets of SRM's in consideration of the compromise described above.

OTHER PROCUREMENT, AIR FORCE

Amendment No. 75: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum proposed by said amendment, insert: *$8,524,110,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Other procurement, Air Force				
5.56 MM	5,370	3,270	5,370	3,270
20MM training	26,996	23,402	26,996	23,402

Industrial/Depot maintenance equipment			75,000	75,000

30 MM GAU-8 AMMUNITION

The conferees agree that the Army/Air Force shall follow the procurement strategy for 30 mm GAU-8 ammunition proposed in the budget. The out-year options included in the current contract were proven in the most recent competition to offer the most cost effective way to buy this ammunition. The conferees agree that further competitive procurements are a viable strategy when all current options are used or expired.

COMBINED EFFECTS MUNITIONS

In agreeing to the higher funding level proposed by the Senate for the Combined Effects Munition (CEM), the conferees deny the proposed multiyear procurement and recommend that the Army and the Air Force develop a dual source competitive acquisition strategy in fiscal year 1990 between the two currently facilitized producers to maintain the unit cost levels attained in the prior contract years. However this higher funding level is not now forecast in the five year budget plan, making the strategy proposed by the Air Force for fiscal year 1990 potentially appropriate in the future. The conferees believe that the Air Force long-range budget for CEM is seriously understated and direct the Air Force to assess its overall CEM procurement program in the context of training and war reserve requirements, as well as the condition of the Rockeye inventory, and report back to the Committees by March 1, 1990.

The conferees recognize the tragic explosion at the Kansas Army Ammunition Plant earlier this year, but are concerned as well with the need to continue efficient production of this critical conventional weapon. Therefore, the conferees direct the Services to take actions that ensure the restart of production and delivery of the fiscal year 1988 and 1989 contract quantities as soon as possible. Further, the Army, as the procuring activity, should award the fiscal year 1990 contract in time to preclude a production break. The two services should work together to establish a resonable production schedule to accomplish the aforementioned direction without causing wide variances in production and load, assemble and pack rates between contract year even if this means extending the length of the normal prior year funded delivery periods.

AIRFIELD ATTACK MUNITIONS

The conferees agree with House report language as follows: "The Air Force has a validated requirement for an air delivered weapon to destroy airfields. The weapon currently in the inventory to address this requirement, Durandal, is an interim weapon pending the fielding of a more capable system, DAACM, which is currently in development.

"The Committee understands that the DAACM program has experienced some slippage primarily because of the change in the threat, thus requiring additional testing or the potential cancellation of DAACM.

"The Committee directs the Air Force to report on the current threat assessment, results of tests on alternative weapons to meet the threat, and its proposed strategy to meet its short-term and future requirements. If such a strategy includes the need to procure additional Durandals or other weapons, the Committee will consider a reprogramming action from the Air Force."

OVER THE HORIZON BACKSCATTER RADAR

The conferees agree to provide $199,478,000 as proposed by the House. The Senate bill reduced this program on the basis of contracting delays in awarding the first sector of the Alaska radar system and anticipated increases in the construction time for the second sector. The Air Force has recently informed the conferees that the contractor cost estimates are significantly higher than the amounts requested in the fiscal year 1989 and 1990 budgets for the first and second sectors. In recognition of the importance of this program, the conferees have agreed to allow the Air Force to use a combination of fiscal year 1989 and 1990 funds to award the first sector, although this represents a waiver from the full funding policy applied to procurement.

The conferees are deeply concerned by reports that the Air Force is considering delaying or deleting the second sector of the Alaska radar system. The conferees will not consider funding for the central radar system before funding the second Alaska sector.

SAC COMMAND AND CONTROL

The conferees agree to provide $37,000,000 for the SAC Command and Control program, as opposed to $47,300,000 proposed by the House and $27,795,000 as proposed by the Senate. This reduction is made without prejudice.

CARIBBEAN BASIN RADAR NETWORK (CBRN)

The conferees agree with the Senate proposal to transfer funds for the Caribbean Basin Radar Network program to Title VII, Other DOD Appropriations. Additional comments on this program appear in the Title VII portion of the Statement of Managers.

DISTANT EARLY WARNING SYSTEM

The conferees agree to provide $185,415,000 for the Distant Early Warning System (DEW) instead of no funding as proposed by the House and $195,415,000 as proposed by the Senate. The conferees understand that the current acquisition strategy, which combines the fiscal year 1989 and 1990 production buys, will yield contract savings.

ADPE

The conferees agree to provide $56,185,000, a reduction of $18,200,000 for PC-III as explained in the ADP section of this report discussed with operation and maintenance appropriations.

MAC COMMAND AND CONTROL

The conferees agree to provide $22,283,000 as proposed by the House for the MAC Command and Control Program. This reduction is taken with the understanding that available prior year funds will allow the program to continue as planned. If this is not the case, the Air Force may make adjustments during execution to ensure program continuity.

SAMTO TEST RANGES

The conferees agree to provide $59,721,000 for the SAMTO Test Ranges program instead of $69,721,000 as proposed by the House and $56,721,000 as proposed by the Senate.

The conferees have found that part of the funds requested for "special projects" were requested to fund Remote Station Automation study efforts. This is an inappropriate use of procurement funding, made more difficult to detect by the imprecise description. Of the amount appropriated in the Other Procurement, Air Force account, no funds are to be obligated for the Remote Station Automation project at the East Coast range. The study is improperly funded in procurement and should be funded within available research and development funding. Procurement in advance of study completion is premature. In subsequent budget requests, the Air Force should provide better descriptions of range improvement projects.

TELEPHONE EXCHANGE

The conferees agree to provide $72,000,000 for telephone exchanges as opposed to $74,699,000 as proposed by the House and $69,334,000 as proposed by the Senate. The conferees have not earmarked the reduction against any specific telephone exchange.

JOINT TACTICAL COMMUNICATIONS PROGRAM

The conferees agree to provide $40,560,000 as proposed by the Senate, instead of $122,360,000 as proposed by the House for the Joint Tactical Communications Program. The conferees are in agreement on the importance of the Joint Tactical Communications Program.

Information provided by the Air Force states that while prior year funds are available, they would be insufficient to support the program through the longer period required to award a multi-year contract in fiscal year 1991. The conferees are concerned that the Air Force is planning a multi-year procurement that is not supported by the current estimate of projected savings. Thus, the conferees direct that the Air Force, before committing to this multiyear strategy, ensure that the required savings over the current single-year contract can be achieved.

MILSTAR TERMINALS

The conferees agree to provide $55,000,000 for the MILSTAR terminals program instead of $4,000,000 as provided by the House and $103,386,000 as provided by the Senate. The conferees' views on the MILSTAR program appear in the procurement overview section of this report.

SPARES AND REPAIR PARTS

The conferees agree to provide $238,998,000 instead of $236,655,000 as proposed by the House and $218,556,000 as proposed by the Senate.

NATIONAL GUARD AND RESERVE EQUIPMENT

Amendment No. 76: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$973,720,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
National Guard and Reserve Equipment, Defense:				
Army Reserve:				
Miscellaneous equipment		116,800	92,661	25,000
Truck modernization		100,000		60,000
Family of heavy tactical vehicles			3,900	3,900
Navy Reserve:				
HH-60 helicopter upgrade		8,400		
C-20 aircraft		24,800		24,800
SH-3H/SH-2G ASW mission data recorders		4,500		
AN/SQQ/58 sonobuoys			1,000	1,000
Installation of modifications			28,300	25,470
Marine Corps Reserve:				
AH-1W Cobra aircraft		58,600		58,600
Air Force Reserve:				
Miscellaneous equipment		35,000		
C-130 aircraft		44,500	44,500	
MH-60G HELO		151,000	151,000	
Installation of modifications			10,000	9,000
Army National Guard:				
Miscellaneous equipment		80,000	75,000	30,000
Small unit support vehicle (SUSV)			29,200	29,200
M113 armored personnel carrier		91,000	91,000	101,000
Fire support team vehicles		39,000		
M-1A1 Abrams tank (MYP)			124,500	
M113 A-2 to A-3 upgrade		10,000		
C-23 Aircraft		28,000	42,000	42,000
Multiple launch rocket system		104,000		
Truck modernization		141,800		60,000
Family of heavy tactical vehicles			20,100	20,100
Truck, tractor, M915A1			7,600	7,600
CH-47D helicopter		52,000		
UH-60B			25,000	25,000
Air National Guard:				
Miscellaneous equipment		25,000		
C-130 aircraft		44,500	218,000	
KC-130 aircraft			75,000	75,000
C-26 aircraft		36,000		36,000
Classified program		25,000		25,000
Installation of modifications			59,500	53,550
HC-130H aircraft			43,000	

TACTICAL TRUCKS

The conference agreement includes $60,000,000 for the Army National Guard and $60,000,000 for the Army Reserve for procurement of tactical trucks. The conferees agree that the funds may be used for the procurement of any tactical—as opposed to commercial—trucks which contribute to the modernization of the guard/reserve tactical wheeled vehicle fleet.

P-3B MODERNIZATION

In fiscal year 1989, Congress appropriated $55,000,000 to initiate an ASW modernization program for Navy Reserve P-3B aircraft. To date a very small portion of these funds has been obligated to achieve this purpose.

The conferees believe that of the $55,000,000 fiscal year 1989 funds, $12,500,000 should be available for procurement of color weather radar and improved ESM for P-3Bs. The conferees direct standardization with existing ESM equipment currently in production and deployed on active and reserve P-3s through a nondevelopmental item (NDI) procurement. Savings in logistics and support costs, and timely availability of fully capable equipment support this approach. ESM capability should include at least radar warning and Harpoon targeting to ensure commonality with the existing fleet.

The conferees further direct that no more than 50 percent of the fiscal year 1989 funds may be obligated until the Navy provides to the Committees on Appropriations a copy of the "Quick Look" report. This report shall be submitted within 15 days after completion of the Technical Evaluation on the IPADS system at the earliest opportunity, but no later than August 31, 1990. If IPADS proves out, the conferees urge the Navy to reconsider procurement of IPADS for the P-3B modernization program. The conferees establish this item as a matter of special interest.

ASW ON-BOARD TRAINER

The House and Senate provided $4,500,000 for ASW On-Board Trainers. The conferees agree with House report language that to facilitate continued ASW On-Board training, the funds should be used to procure additional AN/SQQ-T1, ASW on-board trainers for the Navy Reserve FF-1052 class ships. The conferees further agree that this item is of special interest and direct the Navy to provide notification prior to any intended reduction for any purposes.

ASW MISSION DATA RECORDERS

In fiscal year 1988 Congress, as a result of extensive input from field activities, initiated the Anti-Submarine Warfare Helicopter mission recorder program and provided $4,500,000 to address the urgent need for reconstructing the ASW helicopter mission which has been long recognized by operational squadrons and by Navy personnel charged with evaluating training and readiness. Additionally, in fiscal year 1988 Congress also directed that a lightweight ASW mission recorder capable of recording raw acoustics be an integral part of the congressionally initiated and funded SH-2G upgrade program. In fiscal year 1989 Congress provided an additional $4,500,000 to continue the mission recorder program and reiterated its desire to include a mission recorder in the SH-2G upgrade program.

Recently the Navy has advised the conferees that instead of immediately acquiring an off-shelf ASW mission recorder which was competitively developed and procured, it intends to begin a six year development and procurement of a new ASW mission recorder which would provide the Naval Reserve with its first product in 1993.

The current Navy plan does not comply with the explicit congressional direction and has unnecessarily delayed the introduction of the ASW mission recorder capability to the Reserves. To facilitate Congress' objectives and provide logistic commonality, the Navy is directed to proceed immediately with the acquisition of a modified SH-60F ASW mission data recorder which was developed and procured competitively.

GUARD AND RESERVE

Funding for MH-60G and C-130 aircraft for the Air National Guard and Air Force

Reserve has been included in the Aircraft Procurement, Air Force account.

F-16 ENGINE IMPROVEMENT

The conference agreement includes $55,000,000 to begin a program to upgrade F-16 engines to the F100-PW-220E configuration for the Air Force Reserve.

M113 FAMILY OF VEHICLES

The conference agreement of $101,000,000 for the M113 family of vehicles mirrors the agreement in the authorization conference. The Army is directed to submit to the Committees the allocation of this amount to the various members of the M113 family. The conferees direct that a portion of this sum be used to procure each of the three items specified in the authorization conference.

SMALL UNIT SUPPORT VEHICLES (SUSV)

The Senate bill included funding to procure all remaining requirements for the Small Unit Support Vehicles (SUSV) for the Active and Reserve forces.

The conferees support the Senate position and provide an additional $29,200,000 to procure 194 SUSV's over the President's budget request. The conferees provide this additional appropriation with the understanding that this funding will fulfill the total Army requirements for SUSV's and that no additional requests for SUSV's will be submitted by the Department of Defense.

C-26

The conferees have provided $36,000,000 for 9 C-26 type aircraft with the understanding that the National Guard Bureau intends to compete the purchase of the aircraft.

Amendment No. 77: Deletes House language making a portion of the appropriation available for obligation and expenditure only upon enactment of authorizing legislation.

PROCUREMENT, DEFENSE AGENCIES

Amendment No. 78: Provides authority to purchase 514 passenger motor vehicles instead of 250 as proposed by the House and 633 as proposed by the Senate.

Amendment No. 79: Provides authority for 458 replacement vehicles instead of 194 as proposed by the House and 586 as proposed by the Senate.

Amendment No. 80: Appropriates $1,300,720,000 instead of $1,318,173,000 as proposed by the House and $1,272,700,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Procurement, Defense Agencies:				
Major equipment, OSD/WHS	69,312	74,312	69,312	74,312
ADP equipment	40,500	20,500	40,500	20,500
Items less than $2 million, DSPO	394,087	394,087	315,087	360,487
Vehicles, general reduction		-3,000		
Industrial/depot maintenance equipment			29,900	29,900
Classified programs	548,614	562,987	548,614	546,234

VEHICLES

The conferees agree to restore $3,000,000 for procurement of passenger motor vehicles. Future justification books provided to Congress should contain a breakout of the quantity and dollars requested for vehicles by Defense Agency and justify their requirement.

DEFENSE PRODUCTION ACT PURCHASES

(INCLUDING TRANSFER OF FUNDS)

Amendment No. 81: Appropriates $50,000,000 as proposed by the House instead of $10,500,000 as proposed by the Senate.

The conferees agree to the following amounts for Defense Production Act Purchases:

[In thousands of dollars]

	Budget	House	Senate	Conference
Discontinuous silicon-carbide reinforced aluminum		13,000		13,000
Rhenium metal	4,500	4,500	4,500	4,500
Silicon-on-insulator	6,000	6,000	6,000	6,000
Ceramic bearings		14,500		14,500
Oxide dispersion strengthened steel		12,000		12,000
Total	10,500	50,000	10,500	50,000

Amendment No. 82: Restores House language which makes the appropriations available until expended instead of available until September 30, 1992 as proposed by the Senate. This will allow the eventual use of deobligated funds to continue subsequent phases of previously approved programs.

Amendment No. 83: Restores House language which restricts the obligation of funds for any metal, mineral, or material, unless funds have been obligated since October 1, 1984, for purchases for qualification of that metal, mineral, or material. This means that the funds appropriated can only be used for programs approved in this report or for future phases of any program for which funds had already been appropriated and obligated. The conferees are adamant that these funds are not to start any new projects. Sufficient funds should be requested in each fiscal year to start phase I of any new project.

Amendment No. 84: Deletes language proposed by the House which prohibited the obligation and expenditure of funds until authorized by law.

Amendment No. 85: Delegates a technical change as proposed by the Senate.

SPACE AND RELATED ACTIVITIES

AUGMENTATION, DEFENSE

Amendment No. 86: Delegates House language proposing the appropriation of $555,000,000 for construction, procurement, and modification of missiles, spacecraft, specialized ground facilities, and associated equipment and services.

TITLE IV—RESEARCH, DEVELOPMENT, TEST AND EVALUATION

ROBOTICS

The conferees agree with the Senate that Department of Defense (DOD) robotics activities continue to be proliferated and uncoordinated and lack definite operational requirements from those organizations which would employ such capabilities in combat. The conferees also agree that consolidation of DOD-related robotics funding into one program under the control of the Office of the Secretary of Defense (OSD) is required to increase the focus on the Services' robotics activities and to eliminate wasteful duplication. This consolidation, however, should not include technology base efforts applicable across the spectrum of robotics, which includes unmanned ground vehicles, explosive ordnance disposal, and logistics and manufacturing technology.

The Senate reduced the budget requests of the Services and Defense Advanced Research Projects Agency (DARPA) by $41,695,000 associated with robotics activities, and recommended $21,805,000 for the new joint program. The House approved the entire budget as requested.

The conferees agree to provide $21,599,000 in the RDT&E, Defense Agencies account for the new joint program, of which $6,000,000 is available only for test and evaluation, and engineering support, for the joint unmanned ground vehicle project. The conferees agree to restore $16,660,000 in the Services and DARPA: $13,160,000 for technology base efforts, $3,500,000 for the Advanced Howitzer Integration Technology (AHIT) project in the Army Weapons and Munitions Technology program, and $2,800,000 of the undistributed reduction for robotics made against the Army for several projects. The conferees agree that the Navy is to eliminate two, instead of six, robotics-related projects and report to the Congress as the Senate proposed. The conferees further agree to the Senate's request for an updated robotics master plan.

EXCIMER LASER PROGRAMS

The conferees acknowledge that critical technology issues necessary to support the Milestone I decision for an ASAT directed energy weapons system remain to be resolved. The Secretary of Defense is urged to review these requirements and, if justified, to consider a prior approval reprogramming request to continue the technologies associated with the Single Pulse Excimer Laser and the Excimer Mid-Range Laser Device (EMRLD) programs.

SPACE-BASED WIDE AREA SURVEILLANCE

The conferees deny all funds requested for fiscal year 1990 for SBWAS program activities with the limited exception of funds provided for efforts explained in the classified annex to this report. The conferees agree with the concerns expressed by both the House and Senate and with the restrictions both Houses have directed with respect to the use of current and prior year funds for this program.

STANDOFF WEAPONS

The conferees agree that the Defense Department's Standoff Weapons Master Plan continues to be a valuable tool. It would be helpful to the Appropriations Committees if the Plan was annually provided shortly after the President's budget is submitted, in order to maximize its use for hearings before the Committees.

MACHINE TOOL INITIATIVES

The House recedes from its direction that $5,000,000 in MANTECH funding be allocated for machine tool initiatives, to be derived in equal shares from all four MANTECH accounts, since such funding is appropriately provided in the Air Force RDT&E appropriation.

TACTICAL WARNING/ATTACK ASSESSMENT PROGRAMS

The conferees agree to modify the Senate's proposed obligational restriction on the Defense Support Program and the Boost Surveillance and Tracking System to not more than 70 percent instead of not more than 50 percent.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Amendment No. 87: Appropriates $5,434,378,000 for Research, Development, Test and Evaluation, Army instead of

$5,568,700,000 as proposed by the House and $5,382,737,000 as proposed by the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference

COMBAT VEHICLE AND AUTOMOTIVE TECHNOLOGY

The conferees agree to provide $34,807,000, of which $1,760,000 is only for research on the Stiller-Smith reciprocating engine to explore its use for future combat vehicles.

LOGISTICS TECHNOLOGY

The conferees agree to provide $36,343,000, of which $100,000 is only for continuing the research program at the United States Army Research, Development and Engineering Center in Natick, Massachusetts on the development of biodegradable materials for use in packaging rations for armed forces personnel.

WEAPONS AND MUNITIONS ADVANCED TECHNOLOGY

The conferees agree to provide $77,774,000, which includes a reduction of $1,000,000 for the AFAS advanced technology test bed, an addition of $10,000,000 for electromagnetic/electrothermal gun technology research on a competitive basis, and an addition of $20,000,000 for a classified project explained in the classified annex to this report. The conferees expect that meeting the requirements for a new artillery system will have one of the highest priorities under the Heavy Force Modernization initiative, once approved by the Secretary of Defense. Continued exploratory development of advanced technologies related to fire support are essential to counter Soviet artillery capabilities. The conferees support the Army's development of a future field artillery system. As part of these efforts, the Secretary of the Army should emphasize advanced artillery gun propulsion technologies such as liquid propellant, unicharge, and electrothermal. The conferees also agree to the Senate requirement for a report on the establishment of a FFRDC for electromagnetic/electrothermal gun research, to be submitted by the Secretary of Defense.

COMBAT VEHICLE AND AUTOMOTIVE ADVANCED TECHNOLOGY

The conferees agree to provide $121,047,000, which includes reductions of $30,000,000 for the common chassis advanced technology test bed and $7,000,000 for the combat mobility vehicle advanced technology test bed. While the conferees agree to allow the Heavy Force Modernization initiative to proceed at this time on a more limited basis than originally proposed, it is evident that stronger oversight from the Office of the Secretary of Defense is still required. The conferees expect that this will occur as part of the Defense Acquisition Board review process and request that the Defense Department promptly inform the Appropriations Committees as key decisions are made. The conferees also request that reports provided to the Armed Services Committees as required by the DOD Authorization Act for fiscal year 1990 on Heavy Force Modernization be provided to the Appropriations Committees as well.

JOINT TACTICAL MISSILE DEFENSE PROGRAM

The conferees agree to provide $46,096,000, an addition of $10,000,000 to the budget request. The conferees direct that these additional funds only be used for activities which are part of an overall plan approved by the Office of the Secretary of Defense to modernize Army theater missile defense and air defense capabilities.

MID-INFRARED ADVANCED CHEMICAL LASER (MIRACL)

The Secretary of Defense has delivered a letter to the Congress dated October 23, 1989 stating that while remaining a research and development asset, the modified MIRACL system may provide a modest ASAT capability in the near term. Given that the upgrade will not be completed until fiscal year 1991 at the earliest, the MIRACL system will not be capable of conducting any testing against objects in space until that fiscal year. It is, therefore, the conferees' understanding that there will be no test of the MIRACL system against an object in space during fiscal year 1990. The conferees also note that the MIRACL continues to be a Congressional interest item. Accordingly, the conferees ask the Secretary of Defense to respect the desire of the Congress to continue to address the policy implications during the fiscal year 1991 budget process associated with testing of the MIRACL against an object in space and urge the Secretary not to take action inconsistent with this expressed interest during calendar year 1990.

LHX

The conferees do not agree to the House recommendation to require competitive prototyping of the LHX. The conferees remain concerned about the serious issues raised by the General Accounting Office in its report of December, 1988 on LHX. The conferees expect that the Defense Acquisition Board, as its oversight of this important program continues, will resolve these issues and ensure that the LHX acquisition minimizes the risks disclosed by the GAO.

ADVANCED ANTI-TANK WEAPON SYSTEM—MEDIUM (AAWS-M)

The conferees agree to provide $140,000,000, of which $2,500,000 is only for development and incorporation of an interlock device as discussed in the fiscal year 1989 DOD Appropriations conference report. In addition, the conferees commend the Army for its excellent management of

the AAWS-M program which, for the first time in the history of land warfare, promises to give the individual foot soldier the means to defeat any tank from any aspect. The conferees regard the fire-and-forget AAWS-M as the only satisfactory man-portable means of meeting either the present or the future tank threat. It is the intention of the conferees, assuming unforeseen technical or cost problems do not arise, that this weapon proceed on an accelerated basis to deployment at the earliest possible time. The conferees find that the schedule proposed by the Army is consistent with this objective, and should not be distorted. Specifically, the conferees regard any attempt to require operational testing (force on force/survivability testing) before completion of adequate development testing to be unrealistic and counterproductive. Since the Department of Defense did not originally schedule operational testing at this point in the program, the only missile components available for such testing are damaged and deteriorated scraps recovered from the completed Proof of Principle tests. The conferees believe that the conduct of operational testing prior to completion of adequate developmental testing could require the diversion of critical contractor and Government assets away from the AAWS-M development. The conferees believe that operational testing is essential, but that it should be performed only after adequate developmental testing. Therefore the conferees direct that no funds may be obligated or expended for operational testing of the AAWS-M until the Assistant Secretary of the Army for Research, Development, and Acquisition certifies to the Congress that all required developmental testing has been completed. Further, the conferees direct that no funds may be obligated or expended without prior congressional notification for development of AAWS-M missiles not incorporating true fire-and-forget capability.

WEAPONS AND MUNITIONS ENGINEERING DEVELOPMENT

The conferees agree to provide $22,864,000, an increase of $5,500,000 for the Multipurpose Individual Munition and $1,000,000 to complete design, review, type classification, and first article test of the XM-840 60 millimeter mortar short-range training round. The conferees expect these funds will be used only for evaluation and test of the existing XM-840 candidate, and direct the Army to report any changes in its acquisition strategy to the Committees on Appropriations.

COMBAT VEHICLE IMPROVEMENT PROGRAMS

The conferees agree to provide $63,216,000, a reduction of $10,000,000 to the M1 block II upgrade due to fiscal constraints.

AIRCRAFT MODIFICATIONS/PRODUCT IMPROVEMENT PROGRAMS

The conferees agree to provide $67,500,000, which includes a reduction of $15,453,000 due to savings in fiscal year 1989 from the cancelled UH-60 multi-stage improvement program and an increase of $1,500,000 for a classified project as discussed in the classified annex to this report. The conferees do not agree to the House language on UH-60 composite rotor blades.

OTHER MISSILE PRODUCT IMPROVEMENT PROGRAMS

The conferees agree to provide $80,625,000, of which $2,000,000 is only for development of a second source for the TOW-2B fuzing sensor as authorized in the fiscal year 1990 DOD Authorization Act.

ELECTRONIC WARFARE

The amounts budgeted and appropriated for Army electronic warfare programs are classified. The conferees agree to provide an additional $10,000,000 for TACJAM and a reduction of $8,100,000 for CAMEO BLUE-JAY as explained in the classified annex to this report.

INDUSTRIAL PREPAREDNESS

The conferees agree to provide $25,000,000. Of this amount, $1,000,000 is only for development of a machine-tool to automate the welded banding of projectiles; $1,000,000 is only to investigate the manufacture of tracked vehicle treads (shoes); $1,000,000 is only to test a ductile cast 155 millimeter cargo round (M-864); $850,000 is only to operate a center of excellence in welding technology; and $2,000,000 is only for establishing an effort to enhance U.S. manufacturing base capabilities to produce precision optics for sights and visual equipment, as part of the Weapons and Tracked Combat Vehicles project funded in this program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Amendment No. 88: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$9,773,174,000: Provided, That of funds appropriated in Research, Development, Test and Evaluation, Navy for fiscal year 1989, $22,000,000 shall be transferred to Research, Development, Test and Evaluation, Defense Agencies for fiscal year 1990 for the Tactical Airborne Laser Communications program, to be merged with, and to be available for, the same purposes and the same time period as the appropriation to which transferred*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 89: Restores language proposed by the House and stricken by the Senate which provides $3,000,000 as a grant for the National Center for Physical Acoustics.

The conference agreement on items in conference is as follows:

ELECTRIC DRIVE

The conferees agree that in addition to the funds provided for Electric Drive, the Navy is to transfer $4,000,000 in unobligated funds under the AN/WLQ( ) program to this program.

GENERIC LOGISTICS R&D TECHNOLOGY DEMONSTRATIONS

The conferees direct that the Rapid Acquisition of Manufactured Parts (RAMP) project within this program element is to be allocated funding at the budget request level.

ADVANCED TECHNOLOGY TRANSITION

The conferees agree to provide $65,359,000. Changes to the budget request are as follows: pourable wound dressing (+$1,600,000): R/V Amy Chouest (+$5,000,000); and unjustified real growth (−$1,800,000). In the spirit of minimizing the number of Congressionally-mandated reports, the House recedes from its obligational restriction and direction concerning submission of a mission utility analysis and program plan for Unmanned Undersea Vehicles.

TRIDENT

The conferees agree that the CVLF Receiver project is to be funded at the budget request level within the overall total provided.

T-45 TRAINING SYSTEM

The conferees agree with House direction concerning the T-45 program, except that the Navy is allowed to obligate funds above the $511,900,000 contract ceiling for exchange rate fluctuations and economic price adjustments as called for in current EPA contract clauses. No other exceptions are allowed.

ADVANCED TACTICAL SUPPORT

The conferees agree to provide no funds for Advanced Tactical Support. The conferees encourage the Navy to commission a study on this issue by an impartial third party such as the Center for Naval Analysis, to be used in consideration for Congressional review of the fiscal year 1991 budget request.

SKIPPER ENHANCEMENTS

The conferees agree to provide $12,500,000, of which $2,500,000 is only for continued development of the Laser Guided Training Round and $10,000,000 is only for development of the Fiber Optic Guided Skipper (FOG-S). The amount above the authorized level of $10,000,000 is provided for the FOG-S.

ADVANCED AIR TO AIR MISSILE

The conferees agree to modify House directions on this program as follows: No more than 66 percent of the funds provided for this program may be obligated until the Secretary of the Navy submits to the House and Senate Committees on Appropriations a plan (which includes an adequate budget to implement that plan) for continued production of the Phoenix missile, acceleration of Advanced Air To Air Missile development, or a combination of the two which significantly narrows the production line gap as reflected in the fiscal year 1990 budget submission.

SHIPBOARD AVIATION SYSTEMS

The conferees agree to provide $7,836,000, of which $2,000,000 is provided only for the SMATCALS project. Furthermore, the conferees agree that the remaining funding of $5,836,000 for non-SMATCALS activities shall not be made available for obligation until the Secretary of the Navy certifies to the House and Senate Committees on Appropriations that the Navy has budgeted adequate funding for, and will complete, parallel designs for CVN-76, one incorporating the current steam catapult and the other the electromagnetic catapult (EMALS), now under development. The conferees understand that CVN-76 is the first viable candidate for EMALS, and that the additional design is estimated to cost approximately $1,200,000. The potential benefits of EMALS make this minor investment a wise one. The House conferees agree with the Senate that the Navy's continued intransigence on the EMALS project will no longer be tolerated, and that further footdragging and disrespect for Congressional directions will be dealt with more severely in the future.

ADVANCED ASW TARGET

The conferees agree to provide $30,807,000, of which $5,000,000 is available only for the procurement of additional Fast Deep Prototype Targets and $1,500,000 is only for the EMATT target. The conferees support the need for additional fast-deep operational testing in the near future, as recommended recently by the U.S. General Accounting Office.

MINE DEVELOPMENT

The conferees agree to provide $14,345,000. Of the additional amount provided, $7,000,000 is for the Advanced Sea Mine project and $3,000,000 is for the Captor Improvement Program. The conferees also agree with House direction concerning industrial participation in the Advanced Sea Mine program, with the clarification that "U.S. participants" is defined to be U.S. firms at the prime contract level.

ASW ENVIRONMENTAL ACOUSTIC SUPPORT

The conferees agree that $3,000,000 of the funds provided for this program is only for the Tactical Oceanography program.

LIGHT AIRBORNE MULTIPURPOSE SYSTEM (LAMPS)

The conferees agree to specifically deny any funding for the LAMPS Block II Upgrade during fiscal year 1990, as proposed by the House.

P-3 MODERNIZATION

The conferees agree to provide $345,134,000. The reduction of $12,013,000 is a general reduction to the program which the Navy may allocate as it chooses.

ACOUSTIC SEARCH SENSORS

The conferees agree to provide $34,433,000. The House proposed to terminate development of the Enhanced Low Cost Sonobuoy (ELCS), the Tactical Surveillance Sonobuoy (TSS), and the Horizontal Line Array (HLA). The conferees agree to restore funding for TSS but delete funding for ELCS and HLA due to program restructure since submission of the budget, and budget constraints.

EW DEVELOPMENT

The conferees agree to provide $124,082,000 for EW Development. Changes to the budget request are as follows: Integrated Defensive Avionics Program (−$9,2000,000, which provides no funds) and NULKA Decoy (+$5,000,000); unallocated reduction (−$12,000,000).

SSN-21

The conferees agree with House obligational restrictions concerning SSN-21 development, except that the proposed 50% obligational restriction is raised to 75%.

JOINT STANDOFF WEAPON SYSTEMS

The conferees agree to provide $9,000,000 for the Advanced Interdiction Weapon System (AIWS), which is funded in this program element. Even though the AIWS program is not recommended for termination as proposed by the House, the Senate shares the House's concern that this program may not be affordable in the long run, since little is known at this time about costs for the planned P³I version of this missile. The conferees are also advised that the Air Force's HAVE SLICK project has many of the same technology goals as AIWS, and hence there is strong potential for a joint program. Although joint requirements have been recognized in previous Standoff Weapons Master Plans, there is currently no specific roadmap for accomplishing such a joint program. To achieve that end, the conferees direct that no funds may be obligated during fiscal year 1990 for AIWS until the Secretary of Defense submits to the House and Senate Committees on Appropriations a program plan which describes how AIWS, HAVE SLICK, and MSOW requirements will be merged into a single joint program, as well as a detailed P³I plan for AIWS. This plan is to include cost, schedule, and technical data and a five-year funding profile, as well as an estimate of parts commonality between AIWS and AIWS P³I and the approved requirement which justifies the need for two separate versions of this weapon system.

UNDERSEA SURVEILLANCE SYSTEMS

The conferees agree to provide $40,858,000. Funding changes to the budget request are as follows: Acceleration of second source development for the Reduced Diameter Array (+$3,500,000); and deferral of funding for FDS-1 secure data relay (−$3,400,000).

F-14 UPGRADE

The conferees agree to provide $121,351,000, and direct that the entire reduction of $48,000,000 be allocated against the Pre-Deployment Update project.

WARFARE SUPPORT SYSTEM

The conferees agree to provide $28,594,000. Funding changes to the budget request are as follows: Electronic-Warfare Coordination Module (−$2,900,000) and ROTHR (−$2,500,000).

TARGET SYSTEMS DEVELOPMENT

The conferees agree to provide $53,215,000, of which $27,300,000 is available only for continuation of the Supersonic Low Altitude Target (SLAT) program.

PROCUREMENT AND MANAGEMENT OF LABORATORY EQUIPMENT

The conferees agree with the proposal of the House to reduce Navy funding by $10,000,000 in order to call to account the Navy's excess procurement and weak management of laboratory equipment. The Navy, while declining to provide more appropriate sources for the reductions, has protested the House's allocation of those reductions to certain program elements, claiming that such allocation would result in personnel layoffs. Therefore, the conferees have made reductions totalling $10,000,000, and direct the Navy to use below threshold reprogramming procedures, if necessary, to adjust those reductions. The Navy is to report to the House and Senate Committees on Appropriations in those reallocations, as well as an implementation plan on addressing the concerns in this area. The Navy is expected to allocate such reductions in a manner which will not result in personnel layoffs.

INTERNATIONAL RDT&E

The conferees agree that reductions may be allocated against the NATO ASW Research Center.

RDT&E INSTRUMENTATION AND MATERIEL SUPPORT

The conferees agree that within the amount provided, the Large Cavitation Channel is to be allocated funding at the budget request level.

TEST AND EVALUATION SUPPORT

The conferees agree that no installation should be allocated a reduction which is disproportionately greater than the overall reduction in this program element, and that the Navy is not to implement any of these reductions until thirty days following receipt by the House and Senate Committees on Appropriations of a report on the proposed allocation of reductions. In addition, the conferees do not agree that funds in this program should be used for the SLAT target program.

INDUSTRIAL PREPAREDNESS

The conferees agree to provide $50,499,000. Within the amount provided, the Department is directed to adhere to the specific project allocations and guidance cited in the House and Senate reports except for the Flexible Manufacturing project, which has instead been funded in the Air Force RDT&E appropriation.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

Amendment No. 90: Deletes a center heading.

Amendment No. 91: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$13,635,570,000: Provided, That the Secretary of the Air Force shall obligate $100,000,000 of amounts appropriated for research, development, test and evaluation for the Air Force for fiscal year 1989 that remain available for obligation to carry out research, development, test, and evaluation in connection with the Small ICBM program: Provided further, That the Secretary of the Air Force shall obligate $50,000,000 of amounts appropriated for research, development, test, and evaluation for the Air Force for fiscal year 1989 from the B-1B program that remain available for obligation only to carry out research, development, test, and evaluation to provide cruise missile capability on the B-1B aircraft: Provided further, That the $13,635,570,000 provided under this heading is*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

GEOPHYSICS

The conferees agree to provide $347,825,000, of which $1,800,000 is only for seismic data research as authorized by the fiscal year 1990 DOD Authorization Act.

HYPERVELOCITY MISSILE

The conferees agree to provide $2,000,000 for the Air Force to restructure its program by integrating the Army missile onto Air Force aircraft as explained in the Senate report.

ADVANCED SPACECRAFT TECHNOLOGY

The conferees agree to provide $18,748,000. Funding changes to the budget request are as follows: Thermionic Space Power (+$10,000,000); Advanced Spacecraft Technology Integration (−$250,000). Within the amount provided, $10,000,000 is available only for the Thermionic Space Power project.

ADVANCED STRATEGIC MISSILE SYSTEMS

The conferees agree to provide $70,352,000. Included is an additional $21,000,000 only for development of a new ICBM boost guidance system and reductions of $22,000,000 for strategic relocatable target attack, $16,000,000 for the cancelled Evader Replica project, and $12,000,000 for the earth (surface) penetrating warhead. The fiscal year 1991 budget request should describe and justify in detail the Air Force's program for improving ICBM guidance technologies, with an estimate of long term savings to be derived from this effort. The conferees are very disappointed in the continued disarray in this program and the ap-

parent double violation of the fiscal year 1989 congressional restrictions on earth (surface) penetrating warhead development. For these reasons, each of the ASMS projects as justified in Descriptive Summary budget justification material to the Congress is designated a Congressional interest item, and increase to which requires prior Congressional approval through the formal reprogramming process. DD Form 1414, Base for Reprogramming, must show the program reductions above as specifically denied by Congress. Proposed funding for any ASMS project with fiscal year 1989 or 1990 funds that was not explicitly disclosed to Congress and justified in the fiscal year 1990 Descriptive Summary requires formal prior approval from the Congress under existing new start reprogramming procedures prior to obligation of funds. The conferees suggest that the Strategic Air Command realign its requirements process to conform to the Air Force, OSD, and Congressional budget process so that individual ASMS projects are disclosed, reviewed, and justified accurately prior to internal DOD budget allocations as the Appropriations Committees will no longer tolerate the Air Force treating ASMS as an unallocated pool of funds. Not more than half of the funds provided for ASMS in fiscal year 1990 may be obligated until the Secretary of Defense submits a long term plan for the ASMS program outlining every major project and the funding required to implement it by fiscal year. The conferees also agree with the observation and requirements of the Senate report.

B-1B

The conferees agree with the Senate recommendation to not allow DOD to postpone testing and integration of cruise missiles to be carried on the B-1B bomber. The original $20.5 billion constant dollar baseline for the B-1B included funds to make the B-1B a cruise missile carrier, and GAO reports that over $1,000,000,000 has been spent for this purpose. While the B-1B today is the world's best penetrating bomber, the Air Force expects its penetration capabilities to degrade in the future. As the Defense budget outyear forecasts decline it will become more difficult to invest additional funds for the B-1B's penetration mission, particularly to enhance the troubled electronic warfare system beyond the core capability, and also buy new B-2 aircraft for the penetrating mission. Economies also exist by doing the B-1B cruise missile testing now while the B-1B and Advanced Cruise Missile testing programs and organizations are still in place. The conferees have therefore provided bill language to earmark $50,000,000 of unobligated fiscal year 1989 B-1B RDT&E funds only to resume and continue integration and testing of B-1B cruise missile carriage capability.

ICBM MODERNIZATION

The conferees have provided funds in the exact manner as authorized in the fiscal year 1990 DOD Authorization Act. The conferees also have provided bill language concerning use of fiscal year 1989 funds for Small ICBM RDT&E.

DEFENSE SUPPORT PROGRAM

The conferees agree to provide $91,700,000. The reductions are to be allocated as follows: offsets from fiscal year 1989 DSP unobligated balances (−$16,700,000); directed tranfers into the fiscal year 1990 DSP program from unobligated balances in the Air Force Modular Standoff Weapon program (−$1,000,000); and deferrals in two items described in a classified fact paper provided to the Committees on Appropriations dated October 30, 1989 (−$8,504,000).

The conferees are concerned about the survivability of the DSP satellites, and direct the Air Force to include a plan to enhance the survivability of the DSP satellites with their fiscal year 1991 budget request. The plan should consider all aspects of DSP survivability, including the estimated cost of implementation. In fiscal year 1989 the Congress provided additional funding for DSP enhancements. $16,700,000 of those funds remain unobligated and the conferees direct that they be used to fund fiscal year 1990 requirements.

ADVANCED TACTICAL FIGHTER

The conferees agree to provide $911,492,000, a reduction of $200,000,000 as recommended by the Armed Services Committees. The conferees are encouraged by the recent management initiatives by the Secretary of Defense and Secretary of the Air Force to attempt to ameliorate the concerns expressed in the House report, and expect that the renewed urgency of their strong oversight will continue as the program moves towards the critical full scale development phase. The conferees expect that the Defense Department will be more forthcoming next year on the total cost of the ATF, and provide a full accounting for both the Air Force and Navy ATF programs. While the conferees understand that sharing identical airframes between the Services is not likely, a joint program with strong Navy participation is mandatory for the program to secure future Congressional support. The Department is also encouraged to demonstrate during hearings next year the specific management actions it will take to ensure that software development in this program is disciplined and effective.

SUPERSONIC AIRCRAFT EJECTION SEATS

The conferees are concerned that current Air Force programs do not address sufficiently the requirement for development of an aircraft ejection seat capable of protecting pilots ejecting at high speed. The conferees direct that the Air Force expand its efforts in this area and report to the Committees on Appropriations no later than March 31, 1990 with a plan outlining how it intends to expand these development efforts. This plan should address: how current requirements for the ejection seat for the Advanced Tactical Fighter will protect pilots who eject at supersonic speeds; whether any already demonstrated, off-the-shelf technology, non-developmental supersonic ejection seat can more nearly match the advanced aircraft performance envelopes of the ATF; and the costs and schedule to incorporate into the ATF any already demonstrated, off-the-shelf technology, non-developmental supersonic ejection seats.

AWACS

The conferees do not agree to the Senate recommendation concerning use of fiscal year 1990 and prior year unobligated AWACS RDT&E funds.

ELECTRONIC WARFARE DEVELOPMENT

The conferees agree to provide $70,256,000. Included are reductions of $3,000,000 for JSTARS, $52,000,000 for the B-1B radar warning receiver and advanced expendables—two projects which are specifically denied by Congress, and $5,100,000 for electronic warfare support.

TACTICAL RECONNAISSANCE/RF-16

The House and Senate reports on the bill contained differing guidance regarding a reprogramming request from the Defense Department to fund development of a reconnaissance version of the F-16 aircraft known as the RF-16. The conferees agree to consider such a reprogramming request if it is accompanied by sufficient justification from the Defense Department. Such justification should include, at a minimum, the following items:

(a) certification by the Secretary of Defense that the proposed development program is part of the Department's approved, overall program for the modernization of both manned and unmanned tactical reconnaissance capabilities, and that this program is funded fully in fiscal years 1991-1995 for both sensors and carrying platforms in the research and development and procurement accounts;

(b) a detailed outine and justification of this program, including the Secretary's ranking in priority order of all projects being requested in the tactical reconnaissance research and development and procurement program elements for fiscal years 1991-1995, and the specific annual funding levels being requested for each project;

(c) a copy of the 1989 Army/Air Force Tactical Reconnaissance Force Structure Study by the Rand Corporation, along with any associated, separate Air Force and Office of Secretary of Defense (OSD) commentary on this analysis.

The conferees also agree that it would be beneficial to their consideration of the fiscal year 1991 budget request for tactical reconnaissance activities to receive an appraisal by the Secretary of how unilateral and mutual force reductions by Warsaw Pact and North Atlantic Treaty Alliance (NATO) conventional forces will affect specific force structure and systems requirements for U.S. military manned and unmanned tactical reconnaissance capabilities.

This appraisal should consider the impacts of the unilateral force reductions by Soviet and Warsaw Pact forces, of the mutual force reductions proposed in the Conventional Forces in Europe negotiations by NATO and the Warsaw Pact, and of the specific monitoring and verification arrangements for such reductions. The conferees request that this appraisal be submitted to the Committees on Appropriations no later than March 10, 1990.

SPACE TEST PROGRAM

The conferees agree that within the amount provided for the Space Test Program, $3,000,000 is available only for the SHAD project.

SPACE BOOSTERS

The conferees agree to provide $411,648,000. Funding changes to the budget request are as follows: Titan IV (−$5,000,000); Titan II (−$4,900,000); Delta II (−$1,300,000); Atlas (−$1,200,000); and High Northern Latitude Missile Test Facility (+$10,800,000).

DEFENSE METEOROLOGICAL SATELLITE PROGRAM

The conferees agree that the Air Force may reprogram, below threshold, up to $4,000,000 to conduct DMSP Block VI studies in fiscal year 1990.

INDUSTRIAL PREPAREDNESS

The conferees agree to provide $85,000,000. Of this amount, $2,000,000 is only to support the foundry lead development of an improved computer simulation

model for the ductile iron casting process; and $7,893,120 is only for a grant to the National Center for Manufacturing Sciences, of which $2,893,120 shall be only for establishing a center of excellence for advanced flexible manufacturing systems. This grant shall be awarded no later than March 31, 1990.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

Amendment No. 92: Appropriates $8,113,049,000 instead of $7,530,872,000 as proposed by the House and $8,201,833,000 as proposed by the Senate.

Amendment No. 93: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which deletes the words "up to".

Amendment No. 94: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert: *: Provided further, That of the amount herein provided for the Strategic Defense Initiative, $52,000,000 shall be available only for the Arrow missile program: Provided further, That of funds appropriated in Research, Development, Test and Evaluation, Defense Agencies in fiscal year 1989, $46,000,000 shall be available only for grants as follows:*

(1) $15,000,000 for the National Center for Industrial Innovation at Lehigh University;

(2) $6,000,000 for the Center for Technology Management at Auburn University;

(3) $12,000,000 for the acquisition, design, testing, integration, and advancement of a prototype supercomputer system at the Minnesota Supercomputer Center; and

(4) $13,000,000 for the University of Scranton Technology Center;

Provided further, That of the total amount appropriated in this appropriations account for fiscal year 1990, $15,200,000 shall be available only for grants as follows:

(1) $5,200,000 for the proposed Center for Environmental Medicine at the Medical College of Ohio;

(2) $8,000,000 for the proposed Center for Commerce and Industrial Expansion at Loyola University of Chicago; and

(3) $2,000,000 for the Pilot Program for Combat Casualty Care Management and Research at the Martin Luther King, Jr. General Hospital/Charles R. Drew University of Medicine and Science:

Provided further, That the seven aforementioned grants are to be made within sixty days after enactment of this Act: Provided further, That the grants provided for in the preceding provisions shall be made without regard to, and (to the extent necessary) in contravention of, subsection (a) of section 2361 of title 10, United States Code (which is hereby superseded to the extent necessary to make such grants), and shall be made without regard to subsection (b)(2) of such section, and shall be made without regard to the requirements of section 2304 of title 10, United States Code: Provided further, That references to section 2361 of title 10, United States Code in the preceding provisions refer to that section as it existed on November 10, 1989 and as it is amended by section 252 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, to the extent that provision is enacted into law.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 95: Deletes Senate language which restricted the Strategic Defense Initiative program.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Research Development Test & Eval Def Ag				
Defense Research Sciences	85,100	81,750	83,100	81,750

Laser Verification				2,000
Senate SDI Offset—(Derived From R&D Title)			578,562	

DEFENSE RESEARCH SCIENCES

In making a general reduction to the request for the Defense Research Sciences program, the conferees reject the recommendation of the House that the budget for project DRG-01 be cut in half. No less than $2,700,000 shall be made available for project DRG-01.

UNITED STATES—ISRAEL AVIATOR STUDY

The conferees are aware of a joint United States-Israel scientific research proposal related to the physical health and technical performance of pilots of high-performance military aircraft. The proposal was developed among faculty of the Uniformed Services University of the Health Sciences (UHUHS) and visiting scientists from the Israel Defense Forces (IDF).

The conferees recommend an increase of $65,000 to UHUHS funding to initiate this research.

The recommended increase provides funds for instrumentation procurement and maintenance, scientific travel and related expenses. Funding for future years will depend upon satisfactory progress as determined by a panel of experts, to be convened by the Assistant Secretary of Defense (Health Affairs). The panel shall include the dean of the school of medicine (UHUHS), representatives of the Surgeons General of the armed services, and knowledgeable outside medical scientists, including scientists associated with the National Institute of Heart, Lung and Blood at the National Institutes of Health. The Assistant Secretary of Defense (Health Affairs) shall report back to the Committee on Appropriations no later than June 30, 1990.

TACTICAL TECHNOLOGY

The conferees agree to provide $89,600,000. Funding changes to the budget request are as follows: Non-Acoustic ASW (−$28,000,000); Acoustic ASW (−$6,500,000); Advanced Torpedo (−$1,500,000); and a classified project (+$1,000,000). The conferees' decision to delete funding for DARPA's Non-Acoustic ASW program is discussed in a later section of this report. In the Acoustic ASW program, the conferees further direct that no funds may be obligated during fiscal year 1990 for this activity until the director of DARPA submits to the House and Senate Committees on Appropriations a program plan which provides details on the organizations, projects, long-term funding commitment, and technical goals for such activities. The conferees have agreed to provide significant additional funding to the Navy for ASW during fiscal year 1990. The program plan is required to ensure that the work of DARPA and the Navy is fully coordinated and that only the highest priority work is pursued.

STRATEGIC TECHNOLOGY

The conferees agree to provide $242,667,000. Changes to the budget request are as follows: Advanced Technology Initiatives (−$16,746,000 specific denial) Advanced Surveillance Concepts (−$10,800,000, specific denial); Digital Gallium Arsenide (+$25,000,000); High Temperature Superconductivity (+$9,629,999); DARPA Initiative in Concurrent Engineering (DICE) (+$30,000,000); Space Object Tracking (+$875,000); Strategic Computing (−$10,000,000). The conferees agree to the Senate report language preventing the allocation of any reductions against the DICE program. The conferees also note that since the name of the DICE program includes the phrase "DARPA Initiative", DARPA is expected to live up to that name and take the initiative by budgeting for the program in the fiscal year 1991 budget. Within the amount provided, the conferees direct that $10,000,000 be made available for the advanced microelectronics and materials research program.

INTEGRATED COMMAND AND CONTROL TECHNOLOGY

The conferees agree to provide $54,000,000. The addition of $20,000,000 is available only for continued research and development of High Definition Display technology. Furthermore, the conferees direct that none of this additional amount may be obligated until the questions and issues by the Senate are specifically answered in an Executive Branch report received by the House and Senate Committees on Appropriations. This restriction does not affect the $10,000,000 originally budgeted by DARPA for the High Definition Display project.

MATERIALS AND ELECTRONICS TECHNOLOGY

The conferees agree to provide $57,500,000. Changes to the budget request are as follows: X-Ray Lithography (+30,000,000); general program growth (−$10,500,000); and composite model factory (+$7,000,000).

NON-ACOUSTIC ASW

The conferees agree to provide $30,000,000 for a restructured program in Non-Acoustic ASW, which is a consolidation of separate projects budgeted in both the Navy and the Defense Advanced Research Projects Agency (DARPA). These funds are to be controlled by the Office of the Secretary of Defense (Tactical Warfare Programs), in consultation with the Assistant Secretary of Defense (C^3I), the Secretary of the Navy, and the Director of DARPA. The conferees that work in non-acoustic ASW have become increasingly fragmented and unproductive. Therefore, the Secretary of Defense is directed to submit a program plan for continued work in this area which provides a more results-oriented, focused approach than has heretofore been the case. The report should also address the prospects for classified research with our NATO allies and effective utilization of our national laboratories managed by the Department of Energy. The Department should consider equally and fully the potential contribution of each of these labs. The directed report should describe fully any prospective cooperative programs between the Defense Department and the DoE labs, including a clear description of the merits of any cooperative program and the methodology by which such programs at the DoE labs were reviewed and evaluated. None of the funds provided herein may be obligated until thirty days after this report has been received by the House and Senate Committees on Appropriations. The conferees note that the original budgeted work in the DARPA and Navy program elements which have been consolidated were non-special access. Therefore, it is intended that none of the funds provided for the consolidated program are for use in special access programs, and the program plan is expected to be at a non-special access classification level. Of the amount provided, $12,000,000 is available only for continuation of the NATO cooperative research in radar ocean imaging, including analysis of data collected to date.

TACTICAL AIRBORNE LASER COMMUNICATIONS

The conferees agree to transfer $22,000,000 in fiscal year 1989 RDT&E, Navy funds appropriated to the Satellite Laser Communications program to DARPA to augment budgeted funding for the Tactical Airborne Laser Communications program. This program is to be solely controlled by DARPA at this time. However, the conferees direct DARPA to submit a program plan, including an explanation of how these funds will be utilized, to the House and Senate Committees on Appropriations with submission of the fiscal year 1991 budget.

STRATEGIC DEFENSE INITIATIVE ISSUES

DIRECTED ENERGY TECHNOLOGIES

The Congress has twice passed a Joint Resolution stating that the primary emphasis of SDI should be to explore promising new technologies, such as directed energy technologies, that might have long-term potential to defend against a responsive Soviet offensive threat. The conferees note that while SDIO's total budget has risen dramatically over the last several years, its allocation of funds to Directed Energy Weapons has been declining over that period. The conferees caution that SDI should be managed so as to achieve a prudent balance beween the far-term and near-term technologies. Continued erosion in the resources devoted to Directed Energy Weapons may result in Congressional earmarking of future appropriations so as to achieve that balance.

PROPOSED TRANSFERS

The conferees agree not to recommend the transfer from Military Construction of $6,542,000 for the MISTY ZEPHYR project, and agree that the SMES project is not to receive SDI funding in addition to the $11,000,000 in funding provided elsewhere in the RDT&E, Defense Agencies account. Furthermore, the conferees agree that no RDT&E funding should be used for the National Test Bed. The conferees agree that this activity is not appropriate for RDT&E financing.

MEDICAL FREE ELECTRON LASER

The conferees wish to address the medical free electron laser (MFEL) program within SDI. The MFEL program was initiated in fiscal year 1984 to develop medical applications of free electron laser technology, by fiscal year 1989, at five regional, university-based, multidisciplinary medical research centers. The conferees understand that MFEL funds have been awarded to a number of institutions, including various nonmedical research centers, and Federal and commercial laboratories. This broad distribution of funds may have hindered achievement of the program's objectives.

The conferees have no reason to disparage the work or qualifications of any institution or individual presently funded by the MFEL program. However, the SDI program manager is expected to redirect the program toward its original goal by selecting not less than 7 and no more than 10 geographically distributed, university-based, multidisciplinary medical research centers.

No less than four-fifths of the funds appropriated for fiscal year 1990 will be applied to university-based, multidisciplinary medical research centers. No more than one-fifth of the funds appropriated for fiscal year 1990 may be applied to FEL efforts at other scientific research facilities.

SDI must manage the MFEL program and submit a plan, in coordination with the medical centers, to develop medical applications of FEL technology by the end of fiscal year 1993. This plan is to be submitted to the House and Senate Appropriations Committees by June 1, 1990. These centers should be chosen by a rigorous peer review process which meets standards generally accepted in the medical and scientific research communities. The conferees expect the Director, SDI, to maximize program quality and continuity by carrying out the peer review process as quickly as possible.

EXPERIMENTAL EVALUATION OF MAJOR INNOVATIVE TECHNOLOGIES

The conferees agree to provide $174,200,000. Changes to the budget request are as follows: ASTOVL (−$4,500,000); Smart Weapons (−$5,000,000); GPS Technology (−$6,150,000); Lightsat (+$25,000,000); classified project (−$2,400,000). The conferees agree that fur-

ther funding for the Smart Weapons program should be considered under the Balanced Technology Initiative program; however, such funding is not specifically directed.

PROTOTYPING OF ADVANCED TECHNOLOGIES

The conferees agree to provide $84,700,000. The entire reduction of $10,000,000 is intended for allocation against the Pilot's Associate project.

BALANCED TECHNOLOGY INITIATIVE

The conferees agree to provide $206,082,000, of which $25,000,000 is available only for a new program in ultra-wide bandwidth technology development and light-activated high power microwave technologies. These funds should not reduce funding planned to be made available for the existing High Power Microwave program.

The conferees also agree that no BTI funds may be used for the Long Range Conventional Standoff Weapon program.

CONSOLIDATED DOD SOFTWARE INITIATIVES (ADA)

The conferees agree to provide $45,426,000. Changes to the budget request are only for the following projects: Software Engineering Institute (+$10,000,000); and STARS national software technology repository (+$3,000,000).

FORCE ENHANCEMENTS-ACTIVE

The conferees agree to provide $11,100,000 in this program, based on the following adjustments to the budget request: Explosive Ordnance Disposal—Rapid Prototyping (−$2,500,000); classified reduction (−$10,000,000); SEAL delivery system (−$8,070,000), transferred from the Navy).

The conferees intend that the SEAL delivery system funds be combined with $7,400,000 in unobligated and available fiscal year 1988 Other Procurement, Navy funds to permit the Defense Department to evaluate fully the Italian 3GST9 submersible as a possible Advanced SEAL Delivery System (ASDS). This evaluation is to be accomplished under the management of the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict) (ASD/SO-LIC) in accordance with a specific plan provided to the Committees on Appropriations by that organization. The conferees are denying only that part of the plan which begins technology efforts for development of an entirely new and expensive Advanced SEAL Delivery System. Such efforts are premature until the 3GST9's potential to meet realistic specific operations requirements has been assessed fully.

Congress previously directed the Navy to determine whether any small submersible vehicles were available on the commercial market and to assess their performance as it related to the operational and technological requirements for an ASDS. Fiscal year 1988 Other Procurement, Navy funds were provided for this purpose. The Navy selected the 3GST9 submersible but never completed the intended evaluation. The conferees direct that the remaining prior year funds be controlled by ASD/SO-LIC.

The Assistant Secretary of Defense (SO-LIC) and the Assistant Secretary of the Navy for Research, Development and Acquisition will jointly prepare and submit quarterly reports on the progress of the 3GST9 evaluation program. The initiation report is to be provided by January 12, 1990, and should include the evaluation program baseline and a discussion of the overall, planned test and evaluation effort.

JOINT REMOTELY PILOTED VEHICLES

The conferees agree to provide $82,304,000 for Joint Remotely Piloted Vehicles (RPV) research and development, instead of $117,005,000 as recommended by the House and $62,669,000 as recommended by the Senate.

The conferees agree with the Senate's deferral of funds for development of the endurance unmanned aerial (UAV), close range UAV, Block III upgrade for the short range UAV, and for support of the Amber UAV after completion of development efforts. In restoring $19,635,000 of funds reduced by the Senate to this program, the conferees agree that $16,195,000 is for interoperability and comality technology development. The conferees further direct that $2,100,000 of this amount is available only for development, fabrication, and proof of an integrated UAV automatic recovery simulator, simulation model and portable recovery simulation system. Although this project originally was associated with development of the close range UAV, the conferees believe that its applicability to several types of UAVs warrants its inclusion in the interoperability/commonality technology development category.

NATO RESEARCH AND DEVELOPMENT

The conferees agree to provide $115,674,000. Within the amount provided, the following programs are to be allocated no less than the amount provided in parentheses: AV-8(B) Radar Development ($10,000,000); F/A-18 Radar Upgrade ($13,600,000); Medium Surface To Air Missile ($4,740,000); and Multifunctional Information Distribution System ($9,000,000). Furthermore, the conferees agree that no NATO Research and Development funds in either fiscal year 1989 or 1990 may be used for the following projects: Dragon Generation III; Space-Based Radar; STRIPES; Automatic Fault Isolation; Precision Attack Weapon System; Tactical Air to Air Communications Improvements; IR Missile Countermeasures; Hypervelocity Projectile; Artillery Armament; and Modular Standoff Weapon. Prior to utilizing funds for other new start projects, the Department of Defense is directed to provide information to the House and Senate Committees on Appropriations justifying such efforts. The conferees agree with the concerns expressed by the Senate about the NATO R&D program and with the advance notification and MOA/MOU requirements directed by the Senate.

SOLID ROCKET MOTOR DEMILITARIZATION

The conferees support the need for a study by the Director of Defense Research and Engineering on environmentally safe methods of large rocket motor demilitarization and an investment strategy to develop the most cost-effective technology alternatives for such disposal. The study also should address related impacts on arms control negotiating issues. The conferees direct that the report be submitted no later than March 1, 1990.

RESEARCH PROJECTS

The conferees agree to provide $8,000,000 for Research Projects. It is intended that these funds be used for the grant required in Title IV of this bill for the proposed Center for Commerce and Industrial Expansion at Loyola University of Chicago.

ENVIRONMENTAL PROTECTION STUDY

The conferees are concerned that the Department of Defense may not be paying adequate attention to environmental considerations in their decisions regarding weapon systems development and manufacturing, and the resultant problems involved in the ultimate disposal of these weapons (i.e., chemical weapons disposal). Therefore, the conferees direct the Secretary of Defense to report to the Congress no later than December 31, 1990 on the current process for evaluating potential environmental hazards and disposal problems during the weapon system development and acquisition process, and a description of the Department of Defense's programs and corresponding funding budgeted for environmental research and development, hazardous substance disposal and cleanup, and environmental restoration in the fiscal year 1991-95 five year defense plan. The study should also include a discussion of DoD's coordination with other federal agencies, and shortfalls or existing deficiencies in this area. The conferees direct that not to exceed $1,000,000 may be obligated and expended to carry out this study.

DARPA COOPERATIVE AGREEMENTS

The conferees share the Senate's observations and concerns with respect to expanding the authority of the Defense Advanced Research Projects Agency (DARPA) to enter into cooperative agreements, arrangements, and other transactions. The conferees agree, with minor modification, with the Senate's directions governing the use of this expanded authority.

Since this expanded authority will be enacted late in 1989, it is unlikely the detailed report required to be submitted with the fiscal year 1991 budget request will be ready by that date. The conferees direct that this report be submitted no later than May 15, 1990. The report should include any cooperative endeavors already initiated, and those contemplated at that time for the remainder of fiscal year 1990 and for fiscal year 1991, along with the required, full justifications.

The conferees also understand that, in unusual circumstances, the requirement for 30-day advance notification to Congress of the signing of any cooperative arrangement might jeopardize the successful completion of a particular arrangement beneficial to the government. In those cases, the conferees believe it is acceptable that the notification and copy of the agreement or transaction be submitted to Congress within ten days after signature, along with a complete explanation of the reasons for non-compliance with the advance reporting requirement.

The conferees expect that this exception of the advance notification requirement will be used sparingly.

The conferees also direct that the Senate's requirements regarding any funds obtained by DARPA as a result of this expanded authority also apply to any other funds accumulated directly or indirectly by the Defense Department under this authority.

DEVELOPMENTAL TEST AND EVALUATION, DEFENSE

Amendment No. 96: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$180,550,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Director of Test & Eval Defense				
Test Instrumentation Development	166,357	110,000	83,257	83,000
Space System Test Capabilities	1,955	1,955		
NATO Cooperative Development Testing	26,915	26,915	24,981	11,915
Development Test and Evaluation	60,668	51,168	60,668	51,168
Thirst Watcher	18,938		18,938	

TEST INSTRUMENTATION DEVELOPMENT

The conferees agree to provide $83,000,000, of which $24,100,000 is only for two GPS Time Space Position Indication instrumentation projects as proposed by the Senate, and of which $900,000 is only for the DECADE Nuclear Weapons Effects Simulator project. The conferees further agree to specifically deny funding for the Red Mission Analysis System and the Electronic Combat Digital Evaluation System.

NATO COOPERATIVE DEVELOPMENT TESTING

The reduction of $15,000,000 to this program is due to a large unobligated balance which can be used to offset fiscal year 1990 requirements.

DSP TACTICAL SUPPORT

The House proposed that no funds be provided for this project. The conferees agree that no funds should be provided under this appropriation. However, the conferees allow the Air Force the flexibility to include up to $3,500,000 for this effort out of RDT&E, Air Force funds provided for the DSP program.

OPERATIONAL TEST AND EVALUATION, DEFENSE

Amendment No. 97: Appropriates $12,725,000 as proposed by the House instead of $118,849,000 as proposed by the Senate.

The conferees agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Director of Operational Test & Evaluation				
OT&E capability improvement	124,360		61,124	
Close air support	45,000		45,000	

TITLE V
REVOLVING AND MANAGEMENT FUNDS

ARMY STOCK FUND

Amendment No. 98: Deletes appropriation for the Army Stock Fund as proposed by the Senate instead of appropriating $134,600,000 as proposed by the House.

NAVY STOCK FUND

Amendment No. 99: Appropriates $40,500,000 as proposed by the Senate instead of $223,400,000 as proposed by the House.

AIR FORCE STOCK FUND

Amendment No. 100: Appropriates $126,100,000 as proposed by the Senate instead of $339,300,000 as proposed by the House.

DEFENSE STOCK FUND

Amendment No. 101: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *$78,100,000.*

EMERGENCY RESPONSE FUND

For the "Emergency Response Fund, Defense"; $100,000,000, to remain available until expended. The Fund shall be available for providing reimbursement to currently applicable appropriations of the Department of Defense for supplies and services provided in anticipation of requests from other Federal Departments and agencies and from state and local governments for assistance on a reimbursable basis to respond to natural or man-made disasters. The Fund may be used upon a determination by the Secretary of Defense that immediate action is necessary before a formal request for assistance on a reimbursable basis is received. There shall be deposited to the Fund: (a) reimbursements received by the Department of Defense for the supplies and services provided by the Department in its response efforts and (b) appropriations made to the Department of Defense for the Fund. Reimbursements and appropriations deposited to the fund shall remain available until expended

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

	Budget	House	Senate	Conference
REVOLVING AND MANAGEMENT FUNDS				
Army Stock Fund				
Inventory Build	107,600	134,600		
Navy Stock Fund				
Inventory Build	223,400	223,400	40,500	40,500
Air Force Stock Fund				
Inventory Build	339,300	339,300	126,100	126,100
Defense Stock Fund				
Inventory Build	104,100	104,100	78,100	78,100
Emergency Response Fund			100,000	100,000
Total, revolving and Management Funds	774,400	801,400	344,700	344,700

STOCK FUND INVENTORY/MANAGEMENT

The House appropriated a total of $801,400,000 for the Services' Stock Funds and the Defense Stock Fund and included language directing that $27,000,000 of the funds provided in the Army Stock Fund be used to purchase the Extended Cold Weather Clothing System (ECWCS). The Senate appropriated a total of $244,700,000 for the Services' Stock Funds and the Defense Stock Fund.

The conferees agree to appropriate a total of $244,700,000 for the Services' Stock Funds and the Defense Stock Fund. Additionally, language directing the purchase of the ECWCS is found in the appropriation for Operation and Maintenance, Army.

The conferees agree to this reduction in the Stock Funds for the Department's Inventory Augmentation request and agree to fully fund the Department's request for War Reserve purchases. Furthermore, the conferees agree with the Senate language concerning Stock Fund requirements determination. The Department is encouraged to continue reducing the amount of inventory in excess of requirements. Additionally, the Secretary of the Defense should develop new performance measures to reward efficiencies as well as stock availability.

TITLE VI—CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

Amendment No. 102: Appropriates $148,400,000 for Operation and Maintenance as proposed by the Senate instead of $149,100,000 as proposed by the House.

Amendment No. 103: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$73,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $73,000,000 for procurement instead of #113,500,000 as proposed by the House and $82,400,000 as proposed by the Senate. The conferees agree that $25,000,000 in unobligated fiscal year 1988 cryofracture funding may be used to supplement this amount, making a total availability of $98,000,000.

Amendment No. 104: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum stricken and inserted by said amendment, insert:

$8,000,000, of which not less than $6,100,000 shall be available only for cryofracture: Provided, That of the funds appropriated for Chemical Agents and Munitions Destruction, Defense for research, development, test and evaluation for fiscal year 1989, not less than $16,300,000 must be obligated for cryofracture not later than January 15, 1990: Provided further, That the Secretary of Defense may only delegate responsibility for the program planning, policy, budget, management, execution and general oversight of the destruction of chemical agents and munitions and the retrograde movement of chemical agents and munitions to the Secretary of the Army

The managers of the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $8,000,000 for research, development, test and evaluation, instead of $7,200,000 as proposed by the House and $1,900,000 as proposed by the Senate.

CRYOFRACTURE

The conferees continue to believe that it is premature to discontinue work on cryofracture. The management, schedule, personnel, and technical problems experienced to date at the Johnston Atoll Chemical Agent Destruction System (JACADS) support this belief. The conferees direct that the research effort which was recently terminated be reinstated immediately. The conferees further direct that design, engineering, environmental and other preparatory work for a full scale cryofracture plant proceed with deliberate speed. All of this shall continue until it can be shown conclusively, based on demonstrated performance, that the baseline approach at JACADS can achieve expected cost, schedule, and technical performance. In this regard, the conferees direct the Army to submit a detailed milestone plan for completion of "systemization" of JACADS and for Operational Verification Testing. Such plan shall be accompanied by specific pass-fail thresholds for each element of the JACADS process and scheduled dates for demonstration of required performance for each.

To accomplish the above purpose, the conference agreement includes $6,100,000, the House amount, for fiscal year 1990 and earmarks it in bill language specifically for cryofracture. The conference agreement also includes bill language requiring the $16,300,000 provided for cryofracture in fiscal year 1989 be obligated before January 15, 1990. The conferees recognize that the new budget authority in fiscal year 1990 may not be required until late in the fiscal year, or later. But, lacking a plan and funding profile for cryofracture research—which has been requested numerous times in the last two years—the conferees want to ensure that adequate funds were available to carry out a robust program. The conferees reiterate the request made by the Senate for a report on how available fiscal year 1989 and 1990 funds will be used for cryofracture research. The report shall be provided to the House and Senate Committees on Appropriations by December 15, 1990.

The Office of the Secretary of Defense has been most uncooperative in complying with the wishes and direction of Congress in carrying out the cryofracture program. The conference agreement therefore includes a proviso stipulating that planning, policy, budget, management, execution, and general oversight of the entire chemical weapon destruction program may be only delegated by the Secretary of Defense to the Secretary of the Army.

Amendment No. 105: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum named in said amendment, insert: *$27,610,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides a separate earmarking for the European retrograde program, as proposed by the Senate, and appropriates $27,610,000 instead of $26,655,000 as proposed by the Senate.

Amendment No. 106: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert: *$257,010,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement on items in conference is as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Chemical Agents and Munitions Destruction, Defense:				
Research and development	1,100	7,200	1,900	8,000
Procurement	139,100	113,500	82,400	73,000
Operation and maintenance	171,200	149,100	148,400	148,400
Retrograde			26,655	27,610

Amendment No. 107: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

and the amount provided for retrograde shall remain available until September 30, 1992: Provided further, That of the funds appropriated for retrograde, not more than $10,000,000 may be obligated or expended, nor may any chemical munitions be moved from existing storage sites, until the Secretary of Defense certifies to the Congress that the Johnston Atoll Chemical Agent Disposal System has destroyed live agent chemical munitions and that adequate storage capacity exists on Johnston Atoll to safely accommodate any chemical munitions or hazardous materials transported to that site: Provided further, That none of the funds appropriated in this or any other Act may be obligated to construct additional chemical munition storage facilities on Johnston Atoll

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

EUROPEAN RETROGRADE

The conference agreement provides $27,610,000 for removal of chemical weapons from Europe. This is based on the most recent estimate of fiscal year 1990 costs for this program.

The Senate bill includes a proviso that prohibited obligation of more than $10,000,000 until the Secretary of Defense certified that live agent chemical muntions had been destroyed at the Johnston Atoll Chemical Agent Disposal System (JACADS). The Senate bill also prohibited construction of additional chemical munition storage facilities at Johnston Island. The conference agreement includes the Senate proviso concerning storage facilities and changes the other proviso to require that no more than $10,000,000 may be obligated, and no munitions may be removed from current storage, until the Secretary of Defense certifies that 1) live agents have been destroyed at JACADS, and 2) adequate and safe storage capacity exists at Johnston Island for the weapons removed from Europe.

DISPOSAL OF FACILITIES

The conferees agree with language in the House report as follows:

"Under existing law, the Army is required to dismantle and destroy all of the facilities which will be built to destroy chemical weapons and to return the sites to their original condition. The Committee believes that it may be possible or desirable to continue to use these facilities for disposal or other wastes or conventional munitions. Such use might require some changes to the design of the furnaces before they are installed in the facility. The Committee directs the Army to investigate and report on the feasibility and desirability of using chemical weapon disposal facilities for other purposes after the primary mission is completed. Such report should address associated costs and design changes that may be required, as well as management alternatives for operation of such a plant."

TITLE VII

OTHER DEPARTMENT OF DEFENSE APPROPRIATIONS

Amendment No. 108: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

OTHER DEPARTMENT OF DEFENSE APPROPRIATIONS

DRUG INTERDICTION, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For drug interdiction and enforcement activities of the Department of Defense, not provided for elsewhere in this Act, $450,000,000; for transfer as follows: Army National Guard and Air National Guard operation and maintenance, personnel expenses, and associated administrative costs, $70,000,000; for Army National Guard and Air National Guard equipment, $40,000,000; for Operation and Maintenance, including the Civil Air Patrol, $88,200,000; for Research, Development, Test and Evaluation, $10,400,000; for Military Construction, $3,700,000; and, for Procurement, $237,700,000: Provided, That the funds appropriated by this paragraph shall be available for obligation for the same period and for the same purpose as the appropriation to which transferred and the transfer authority provided in this paragraph is in addition to any transfer authority contained elsewhere in this Act: Provided further, That of the amount appropriated, $2,500,000 shall be transferred to the Department of the Treasury solely for the expenses associated with a classified project.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees note that the conferees on the National Defense Authorization Act for Fiscal Years 1990-1991, have agreed to fund the Department of Defense drug interdiction efforts at a level of $450,000,000. The conferees also note that the authorization conferees have codified the provision of law which clearly establishes the detection and monitoring missions as legal missions of the Department of Defense. These missions should be provided the same level of support as all other missions of the Department of Defense.

The following table provides a breakout of the funding provided in Drug Interdiction, Defense:

National Guard operations, personnel and associated administrative costs	$70,000,000
Procurement:	
National Guard	40,000,000
Other Procurement, Army	15,826,000
SOUTHCOM C(3) Upgrade ($13,935,000)	
SOUTHCOM Intel Management System ($1,891,000)	
Other Procurement, Air Force Caribbean Basin Radar Network	39,951,000
Other equipment	181,923,000
Operation and Maintenance Civil Air Patrol ($1,000,000)	88,200,000
Research, Development, Test & Evaluation	10,400,000
Military Construction	3,700,000
Total	450,000,000

National Guard.—The conferees recommend $40,000,000 of procurement funds for drug interdiction equipment needed by the National Guard. These funds should be used for forward looking infrared radars, mobile radars, communications equipment, and other essential items of equipment. This equipment should be the same as similar equipment currently furnished to the National Guard from the active components.

The conferees recommend $70,000,000 for National Guard personnel, operations, and associated administrative costs. These funds should be used to administer the program and to execute plans approved by the Secretary of Defense.

The conferees have a strong interest in maintaining an effective drug interdiction program for the Air and the Army National Guard, especially in those states such as California where drug trafficking has reached epidemic proportions.

The conferees are aware that Los Angeles County is this nation's largest center for illegal drug trafficking and the transshipment point for illegal narcotics destined for other areas of the country. There is evidence that Los Angeles County is a major distribution center for Southeast Asian herion, Mexican heroin, cocaine, PCP, illicit methamphethamine and other illegal drugs. The conferees fully support the California National Guard's drug interdiction efforts and expect the Department of Defense to give priority consideration to funding the California Guard's drug interdiction activities.

The conferees note that there is critical need to provide additional funding for the California National Guard. Therefore, the conferees direct the Secretary to provide no less than $10,000,000 for the California National Guard out of the $70,000,000 identified for operations, maintenance and personnel and the $40,000,000 identified for equipment for the Army National Guard and the Air National Guard drug interdiction activities.

Civil Air Patrol.—The funding identified for the Civil Air Patrol (CAP) is for operational costs of the CAP drug surveillance missions done at the request of state and federal agencies, as well as the operational costs of the training necessary to perform the drug missions. Due to the cost-effectiveness of CAP drug surveillance missions, the conferees recommend that the use of the CAP in existing non-defense drug surveillance programs be increased.

Additionally, at a later point in this bill, the conferees have agree to a provision providing a total of $6,700,000 for the CAP (Section 9082).

Of the $88,200,000 appropriated for the operation and Maintenance allocation of Drug Interdiction, Defense, a minimum of $1,000,000 is earmarked specifically for CAP drug interdiction/flying hours. It is the intent of the conferees that additional monies needed to fund CAP missions as requested by state and local governments and other federal agencies, shall be accommodated within the remaining $87,200,000.

The conferees agree that CAP missions requested for drug interdiction, should be funded by the Department of Defense. Reimbursement of these funds is not required due to direction from the conferees on the fiscal years 1990/1991 DOD Authorization Act that the Secretary of Defense provide $40,000,000 of drug interdiction support to domestic drug enforcement agencies.

Procurement.—The conferees transferred the following budgeted programs to the Drug Interdiction, Defense account since a key aspect of their operation will be drug interdiction related:

Other Procurement, Army:

SOUTHCOM C³ Upgrade $13,935,000;

SOUTHCOM Intell Management System $1,891,000;

Other Procurement, Air Force, Caribbean Basin Radar Network $39,951,000.

The management responsibilities of these programs shall remain with the service organizations which provided the original budget responsibility.

The conferees note that the funding level provided with this amendment is consistent with both the authorized level and the administration's request. However, included in the request is a number of items requiring specific approval by the House Permanent Select Committee on Intelligence and the Senate Select Committee on Intelligence, such as National Foreign Intelligence programs. Items requiring such approval shall not be funded with amounts from Drug Interdiction, Defense, unless the Department submits a prior approval reprogramming request and receives approval from the House and Senate Appropriations and Intelligence Committees. Furthermore, by June 30, 1990, the Secretary of Defense should identify in a letter to the Chairmen of the House and Senate Appropriations Committees, equipment, activities, and missions funded with the $450,000,000 appropriated by this Title.

DOD Funding of Other Drug Programs.—Lastly, the conferees note that the Department of Defense has made great contributions to the drug interdiction and education mission. Long before the President of the United States and Congress declared a war on drugs, the Department of Defense was assisting law enforcement agencies through an increase in flying and steaming hours dedicated to tracking possible drug interdiction targets. The expertise of the military in communications, intelligence, and organizational skills, has been sought after by many local and federal agencies involved, with drug interdiction. Additionally, the Department of Defense has, for many years, executed a highly successful drug testing and education program for all military personnel and civilian employees in sensitive positions.

In fiscal year 1990, the Department of Defense will assist the war on drugs in the following way:

Department of Defense efforts (including $40 million in support of federal law enforcement agencies)	$450,000,000
National War on Drugs (reduced from the Defense budget request)	1,177,000,000
Andean Initiative (State Department)	125,000,000
Flying and Steaming Hours	62,000,000
Coast Guard Operations	[1] 300,000,000
Defense Testing and Education	118,000,000
Total	2,232,000,000

[1] At a later point in the bill, the conferees have agreed to provide $140,000,000 of in-kind assistance and to transfer $160,000,000 to the Coast Guard for operational support and assistance (Section 9059). Since a large portion of the Coast Guard mission is related to drug interdiction, the conferees agree that the funding and in-kind assistance from the Department of Defense will be used by the Coast Guard to accomplish their drug interdiction mission.

The conferees expect the Department to provide a budget exhibit with all future submissions which identifies funding for drug interdiction, testing, and education. This exhibit should identify funds used in support of DoD's missions and funds used in support of other federal agencies.

OFFICE OF THE INSPECTOR GENERAL

Amendment No. 109: Appropriates $96,800,000 as proposed by the House instead of $95,800,000 as proposed by the Senate in title III; restores House language which makes the procurement funds available until September 30, 1992; and deletes House language which prohibited the obligation of $1,000,000 until authorized by law.

TITLE VIII

RELATED AGENCIES

INTELLIGENCE COMMUNITY STAFF

Amendment No. 110: Appropriates $28,400,000 as proposed by the House instead of $25,068,000 as proposed by the Senate.

DRUG INTERDICTION, DEFENSE

Amendment No. 111: Deletes House language which provides funding and appropriation language for drug interdiction activities of the Department of Defense. Drug Interdiction activities are funded under Title VII, Other Department of Defense Appropriations.

TITLE IX

GENERAL PROVISIONS

Amendment No. 112: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits pay raises for foreign national employees of the Department of Defense at a rate greater than the increase given to U.S. civilians or the rate of increase given by the host nation to its employees.

Amendment No. 113: Restores House language which amended the reference to the countries from which the Department can procure specialty metals and chemical warfare protective clothing and deletes Senate language which specified that such procurements must meet standardization and interoperability of equipment requirements within NATO and the State of Israel. The conferees agree that making this reference change does not in any way affect the way the Department is currently procuring these items.

Amendment No. 114: Deletes Senate language which allows the procurement of articles and items grown, reprocessed, reused, or produced in the Philippines for use by Commander-in-Chief, Pacific.

Amendment No. 115: Deletes Senate language which prohibits the payment of a price differential on contracts made for the purpose of relieving economic dislocations and which states that all contracts shall be awarded on a formally advertised competitive bid basis to the lowest responsible bidder. Senate language does not need to be repeated because these provisions have already been enacted into permanent law. The conferees fully support the intent of both provisions.

The conferees agree that the Defense Logistics Agency should amend its policy of issuing solicitations for chemical protective suits which prohibit domestic firms who have existing contracts from bidding on the next procurement cycle for additional suits. In fact, any solicitations now in effect should be amended accordingly. An adequate industrial base for the production of chemical protective suits is essential. It, therefore, makes sense for all domestic manufacturers to have an opportunity to compete on all contracts.

The conferees are also concerned about the domestic supply of Navy Nuclear Steam Supply System forged components and request the Navy to consider expanding its policy to include these components in DOD/FAR Part 208 Subpart 208.7802.

The conferees also intend that the exception for small purchases under $25,000 shall not apply to FSG 51 and FSG 52 (hand or measuring tools) articles.

Finally, the conferees agree with House report language on Navy ship shafting and waivers to Buy America legislation.

Amendment No. 116: Deletes House language which made this provision permanent law.

Amendment No. 117: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *Except as provided in 10 USC 2690 and thirty days after the Secretary of Defense has notified the Committee on Appropriations of the Senate and House of Representatives, none*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language requiring compliance with 10 USC 2690 and add an additional requirement for the Secretary of Defense to notify the Committees on Appropriations prior to any conversions.

Amendment No. 118: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *Except (1) as provided in 10 USC 2690 and thirty days after the Secretary of Defense has notified the Committees on Appropriations of the Senate and House of Representatives; and (2) that all conversions at the Wiesbaden and Kaiserslautern Military Communities shall be held in abeyance until August 15, 1990, in order for the Secretary of the Air Force to thoroughly evaluate the requirement for and cost-effectiveness of the proposal to convert these systems to third-party cogeneration systems using American coal and until the General Accounting Office has reviewed the findings of the Defense Department, after which date the Wiesbaden and Kaiserslautern Military Communities may be converted under (1) above, none*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to prohibit funds to convert or to enter into any agreement to convert heating plants in Europe, except that any conversion can be made thirty days after the Secretary of Defense has notified the Committees on Appropriations that the conversion is in accordance with 10 USC 2690.

In addition, the conferees direct that the conversions scheduled for Kaiserslautern West, Kaiserslautern East, Landstuhl Army Regional Medical Center, Ramstein Air Base, and Lindsey Air Station (Wiesbaden) be held in abeyance until the Secretary of the Air Force has considered their conversion to third-party cogeneration systems using United States-produced bituminous coal at Weisbaden Military Community and United States-produced anthracite coal at Kaiserslautern Military Community.

After the Secretary of the Air Force has reviewed the third-party cogeneration systems option and any other alternatives recommended by USAFE, he should report back to the Committees on Appropriations, along with General Accounting Office comments, on all alternatives considered for each conversion and why a particular alternative was recommended for implementation.

The conferees expect the Department of the Air Force to make a good faith effort to work with the American coal community in evaluating their proposal to convert Wiesbaden and Kaiserslautern Military Communities to third-party cogeneration systems.

The restriction on Wiesbaden and Kaiserslautern will remain in effect until August 15, 1990, at which time these communities can be converted thirty days after the Secretary of Defense has notified the Committees on Appropriations that they are in accordance with 10 USC 2690. If cogeneration is found to be cost-effective and environmentally sound, conversion shall be to cogeneration.

As a related issue, the conferees agree with Senate report language which directs the Department to continue, without modification, its efforts to increase domestic consumption of coal as outlined in the Department's letter signed by the Assistant Secretary of Defense for Acquisition and Logistics, dated August 30, 1985.

Amendment No. 119: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows medical care to be available to foreign military and diplomatic personnel.

Amendment No. 120: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *Maverick Missile (AGM-65D); SH-60B/F Helicopter; and*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement denies multiyear procurement authority for the Combined Effects Munition, F/A-18 aircraft, and E-2C aircraft, and approves such authority for the Maverick missile and the SH-60B/F helicopter.

Amendment No. 121: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert:

SEC. 9023. None of the funds appropriated by this Act shall be available to convert a position in support of the Army Reserve, Air Force Reserve, Army National Guard, and Air National Guard occupied by, or programmed to be occupied by, a (civilian) military technician to a position to be held by a person in an active Guard or Reserve status if that conversion would reduce the total number of positions occupied by, or programmed to be occupied by, (civilian) military technicians of the component concerned, below 71,449: Provided, That none of the funds appropriated by this Act shall be available to support more than 48,576 positions in support of the Army Reserve, Army National Guard, or Air National Guard occupied by, or programmed to be occupied by, persons in an active Guard or Reserve status: Provided further, That none of the funds appropriated by this Act may be used to include (civilian) military technicians in computing civilian personnel ceilings, including statutory or administratively imposed ceilings, on activities in support of the Army Reserve, Air Force Reserve, Army National Guard, or Air National Guard.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

See "National Guard and Reserve Forces" for additional information on this subject.

Amendment No. 122: Restores House language which prohibits the management of civilian personnel on the basis of any end-strength.

Amendment Nos. 123-129: Amend section numbers.

Amendment No. 130: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows the Secretary of the Army to provide medical services and transportation for civilians at Hawaiian medical facilities.

Amendment Nos. 131-133: Amend section numbers.

Amendment No. 134: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows.

After the word "Army", insert: *: Provided further,* That this subsection applies to active components of the Army

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment Nos. 135-136: Amend section numbers.

Amendment No. 137: Makes a technical change as proposed by the Senate.

Amendment No. 138: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds firms owned by Native Americans as an exemption to the section which prohibits contracting out defense activities with more than ten employees without a most efficient and cost-effective organization study.

Amendment No. 139: Restores House language dealing with procurement of 120mm mortars and ammunition.

Amendment No. 140: Amends section number.

Amendment No. 141: Restores House language which requires civilian personnel strengths at Army communications-electronics depots to be no less than September 30, 1985 levels.

Amendment Nos. 142-146: Amend section numbers.

Amendment No. 147: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides that the CRI contract shall not be subject to any Hawaii State or local taxes.

Amendment No. 148: Amends section number.

Amendment No. 149: Restores House language dealing with the Army Engineer's Waterways Experiment Station and restrictions on funds for the purchase of supercomputers.

Amendment No. 150: Amends section number.

Amendment No. 151: Restores House language concerning restrictions on funds for the Reserve Component Automation System.

Amendment Nos. 152-154: Amend section numbers.

Amendment No. 155: Provides authority for classified construction projects in the United States of $20,000,000 as proposed by the Senate instead of $35,000,000 as proposed by the House.

Amendment No. 156: Restores House language which prohibits funds to purchase certain welded shipboard anchor and mooring chain outside the United States.

Amendment No. 157: Amends action number.

Amendment No. 158: Deletes House language which makes the provision applicable to reserve components only.

Amendment No. 159: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which excludes military medical personnel and programs (including CHAMPUS) from the effects of sequestration.

Amendment No. 160: Deletes House language which makes the provision applicable to reserve components only.

Amendment No. 161: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert: *: Provided further, that amounts transferred under this provision for Department of Defense medical personnel and programs (including CHAMPUS), shall come from prior year unobligated appropriations and shall be offset within the appropriations to which transferred.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This provision allows the Secretary of Defense to transfer prior year unobligated balances to operation and maintenance and military personnel to offset the effects of sequestration on technician pay, military medical personnel, and medical programs. It is the intent of the conferees that should the Secretary of Defense exercise the options of this provision for military medical personnel and medical programs, the effects of such an action shall be accommodated within the military personnel and operation and maintenance accounts.

Amendment No. 162: Amends section number.

Amendment No. 163: Includes language limiting the provision to ships homeported on the West Coast.

Amendment Nos. 164–170: Amend section numbers.

Amendment No. 171: Restores House language which makes transfers mandatory instead of permissible as proposed by the Senate.

Amendment No. 172: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

(a) From the Navy Stock Fund, not less than $156,000,000 shall be transferred to Operation and Maintenance, Marine Corps; from the Defense Stock Fund, not less than $195,000,000, of which $20,000,000 shall be transferred to Operation and Maintenance, Army Reserve; $30,000,000 shall be transferred to Operation and Maintenance, Navy Reserve; $30,000,000 shall be transferred to Operation and Maintenance, Air Force Reserve; $20,000,000 shall be transferred to Operation and Maintenance, Army National Guard; $35,000,000 shall be transferred to Operation and Maintenance, Air National Guard; and $60,000,000 shall be transferred to Operation and Maintenance, Defense Agencies for the Defense Logistics Agency.

(b) From the Army Stock Fund, $114,000,000 and from the Army Industrial Fund, $73,400,000 may be transferred to Operation and Maintenance, Army; from the Navy Stock Fund, $281,200,000 and from the Navy Industrial Fund, $400,950,000 may be transferred to Operation and Maintenance, Navy; from the Marine Corps Industrial Fund, $4,000,000 may be transferred to Operation and Maintenance, Marine Corps; from the Air Force Stock Fund, $156,000,000 and from the Air Force Industrial Fund, $111,750,000 may be transferred to Operation and Maintenance, Air Force; and, from the Defense Industrial Fund, $29,900,000 may be transferred to the Defense Logistics Agency: Provided, That the Secretary of Defense may waive the transfers in subsection (b) upon notification to the House and Senate Committees on Appropriations.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment Nos. 173–174: Amend section numbers.

Amendment No. 175: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides reimbursement to certain military personnel for costs associated with activities related to the INF Treaty.

Amendment Nos. 176–177: Amend section numbers.

Amendment No. 178: Reduces consulting services' appropriations by $125,000,000 instead of $150,000,000 as proposed by the House and $75,000,000 as provided by the Senate.

Amendment No. 179: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the sum named in said amendment, insert: *$1,539,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section places a ceiling on the funding for consulting services.

Consulting services.—The conferees agree with the intent of the reduction and funding restriction imposed for the procurement of contract advisory or assistance services. However, due to concerns expressed by the Department, relative to defining such services in accordance with definitions provided by the Office of Management and Budget's Circular A–120, the conferees agree that the limitation should be executed in accordance with the definition used by the Department in the development of the PB–27 exhibit.

Amendment Nos. 180–182: Amend section numbers.

Amendment No. 183: Restores House language which prohibits funds for the Environmental Impact Study on the purchase of acreage in Georgia for the Southeast Bombing Weapons Range and deletes Senate language which requires grantees to state the amount of federal support in statements, press releases, requests for proposals on these activities.

Section 623 of Public Law 101–136, the Treasury, Postal Service and General Government Appropriations Act, 1990, provides a government-wide provision which prohibits funds for any grant unless the recipient of the grant agrees to announce in any solicitation the amount of Federal funds that will be used to finance the acquisition and to express the amount as a percentage of the total costs of the planned acquisition. This restriction does not apply to a procurement for goods or services (including construction services) that has an aggregate value of less than $500,000.

Amendment No. 184: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

Restore the matter stricken by said amendment, amended to read as follows:

SEC. 9068. None of the funds available to the Department of Defense or Navy shall be obligated or expended to (1) establish or operate Training and Administration of Reserves (TAR) enlisted detailing or any enlisted placement functions or billets at the Chief of Naval Personnel and the Naval Military Personnel Center headquarters, or (2) transfer any Naval TAR, seaman, fireman, and airman detailing functions and billets or reduce civilian and military personnel end strengths from the Naval Personnel Center and the Enlisted Personnel Management Center until sixty days after the Secretary of Defense submits a report, including complete review comments by the General Accounting Office, to the Committees on Appropriations of the House and Senate justifiying any transfers, operations, or reductions in terms of (1) addressing the overall mission and operations staffing of all detailing and placement functions for active and reserve personnel functions and commands; and (2) certifying that such realignments do not duplicate functions presently conducted; are cost-effective from a budgetary standpoint; will not adversely affect the mission, readiness and strategic considerations of the Navy Reserve; and will not adversely impact on the quality of life and economic benefits of the individual serviceman.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to a general provision which prohibits the use of any funds by the Department of Defense or Navy for the establishment of additional TAR detailing functions and billets at the Naval Military Personnel Command (NMPC) in Washington, DC; the operation of a Fleet Liaison Branch or enlisted placement function at the Chief of Naval Personnel or NMPC headquarters; the transfer of any Naval TAR, seaman, fireman, and airman detailing functions and billets from the Naval Reserve Personnel Center (NRPC) and the Enlisted Personnel Management Center (EPMAC); and the elimination or reduction of civilian and military personnel at EPMAC until sixty days after the Secretary of Defense submits a report, including complete review comments by the General Accounting Office, justifying any transfers, operations, or reductions in terms of addressing the overall mission and operations staffing of all detailing and placement functions for active and reserve personnel functions and commands. In addition, in this report the Secretary of Defense is to certify that such realignments do not duplicate functions presently conducted; are cost-effective from a budgetary standpoint; will not adversely affect the mission, readiness and strategic considerations of the Navy and Navy Reserve; and will not adversely impact on the quality of life and economic benefits of the individual serviceman.

The conferees also direct the General Accounting Office to provide the Committees on Appropriations a detailed study and recommendations on the feasibility of decentralizing the Naval Personnel Command and its subordinate commands out of the Washington, D.C. area. This study must include a comprehensive site analysis comparison and a detailed assessment of the impact of decentralizing this command on the Navy's future budget, readiness and mission requirements, strategic considerations, and on the economic well being and quality of life

for the individual serviceman and dependents. This report should fully document and provide detailed data on all previous DOD or Naval studies conducted in the 1960s and 1970s justifying the movement or decentralization of the Naval Personnel Command and its subordinate commands from the Washington, D.C. area.

The conferees are concerned that the Department of the Navy is making unilateral changes in TAR enlisted detailing and placement billets and other command and personnel functions without considering whether these positions are duplicative or cost-effective from the standpoint of the Navy and the individual serviceman.

In addition, the conferees are concerned that these proposed changes appear to centralize more personnel and command functions in the Washington, D.C. area. Both the Army and Air Force have decentralized their personnel commands and other functions outside the Washington metropolitan area. This concern is in the line with a letter the Chairman of the House Defense Appropriations Subcommittee recently wrote to the Secretary of the Navy expressing his disapproval of the Navy's plan to relocate and consolidate five commands in Northern Virginia.

Amendment No. 185: Restores House language which prohibits procurement of second or third generation night vision intensifier tubes and devices from foreign sources. The Secretary of Defense may waive this restriction on a case-by-case basis when adequate domestic supplies are not available.

Amendment No. 186: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number "9062" named in said amendment, insert: *9070*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section makes a number of findings regarding Anti-Satellite (ASAT) programs and related arms control issues.

Amendment No. 187: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter stricken by said amendment, insert:

SEC. 9071. None of the funds available to the Department of Defense, including expired appropriations and M account balances, may be used for the B-1B's ALQ-161A CORE program unless the Secretary of Defense has notified the Congress in advance of his intention to use funds for such purpose: Provided, That no funds available to the Department of Defense may be used for research, development, test, evaluation, installation, integration, or procurement of an advanced radar warning receiver for the B-1B.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides that no funds available to the Department of Defense, including expired appropriations and M account balances, may be used for B-1B's ALQ-161A CORE program unless the Secretary of Defense has notified the Congress. Such notification should take the form of prior approval reprogramming actions which will be transacted under normal reprogramming procedures.

Amendment No. 188: Deletes language proposed by the Senate which restricted the use of funds available to the Department of Defense for the B-1B's ALQ-161A CORE program.

Amendment No. 189: Amends section number.

Amendment No. 190: Restores House language which limits fiscal year 1990 procurement of multibeam bathymetric sonar mapping systems to domestic producers. The Secretary of Defense may waive this restriction on a case-by-case basis when adequate domestic supplies are not available. The conferees agree that when United States government policy precludes U.S. industry from exporting to world markets for a period of time because of "National Security" reasons and then changes the policy to allow procurement of the same item from foreign markets, it should provide the United States industry a like amount of time to become competitive.

Amendment No. 191. Deletes House language which placed an outlay ceiling and restrictions on funds expended in fiscal year 1990 by the Department of Defense.

Amendment No. 192: Deletes House language which allows the Secretary of the Army to regain ownership of 35 acres of land in Minneapolis, Minnesota, known as "Area H" for Army Reserve training purposes. The conferees support section 2817 of the National Defense Authorization Act, 1990, which addresses this subject.

Amendment No. 193: Amends section number and restores House language which extends the availability of funds for special operations forces patrol boats.

Amendment Nos. 194 and 195: Amend section numbers.

Amendment No. 196: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9077*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which authorizes obligations during the continuing resolution.

Amendment No. 197: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9078*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement retains a Senate general provision requiring competition for contracts for studies, analysis, or consulting services.

Amendment No. 198: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9079*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The section permanently prohibits the use of funds for the second career training program.

Amendment No. 199: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9080*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which prohibits funds to demilitarize certain surplus nonautomatic military firearms.

Amendment No. 200: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9081* and after the word "year" insert the following: *and hereafter*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The section makes permanent the provision which the House and Senate Appropriations Committee have carried for a number of years. This provision prohibits the Department of Defense from entering into, extending, or renewing any contract for a term of eighteen months or more without submitting such a request within the budgetary process.

Amendment No. 201: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9082. Of the funds made available to the Department of the Air Force in this Act, not less than $6,700,000 shall be available for the Civil Air Patrol.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 202: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number "9073" named in said amendment, insert: *9083*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section prohibits the payment of more than 50 percent of a selective reenlistment bonus in a lump sum to any eligible person.

Amendment No. 203: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9084*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section allows the Department's civilian employees to receive paid administrative time off in lieu of cash payment as compensation for productivity.

Amendment No. 204: Deletes Senate language which requires the procurement of certain Federal supply classes of machine tools for use in any Government-owned facility or property from U.S. sources. The conferees agree that the Senate provision does not need to be repeated because section 2507 of title 10 continues this prohibition through fiscal year 1991. The conferees fully support the intent of this language.

Amendment No. 205: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9085*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section prohibits a supervisor's grade to be determined by the number of employees supervised.

Amendment No. 206: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9077" named in said amendment, insert: *9086*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section allows the competition of Naval Aviation Depot workload between the Navy and private companies. The conferees agree that this should not only allow work to be successfully completed for award to the private sector, but must also allow work to be successfully awarded to Naval Aviation Depots.

Amendment No. 207: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9087*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which prohibits the purchase of Toshiba products for the purpose of resale in military stores until December 28, 1991.

Amendment No. 208: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9088*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 209: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9089* and in lieu of "180,944" named in said amendment, insert: *182,011*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section places a ceiling on overseas workyears.

Amendment No. 210: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9090* and in lieu of the word "EMPRESS" in each of the four places where it appears, insert: *EMPRESS II*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides restrictions on the use of the EMPRESS II simulator in the Chesapeake Bay area.

Amendment No. 211: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9091*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires local hiring under government contracts in noncontiguous states.

Amendment No. 212: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9092*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section places a ceiling on payment of unemployment compensation benefits.

Amendment No. 213: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9093*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires local procurement of alcoholic beverages for Department of Defense activities in noncontiguous states.

Amendment No. 214: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

(TRANSFER OF FUNDS)

SEC. 9094. Upon enactment of this Act, the Secretary of Defense shall make the following transfer of funds: Provided, That the amounts transferred shall be available for the same purposes as the appropriations to which transferred but shall be available only for the time period of the appropriation from which transferred: Provided further, That funds shall be transferred between the following appropriations in the amounts specified:

From:

Under the heading, "Shipbuilding and Conversion, Navy, 1986/90": T-AGOS SURTASS ship program, $3,600,000;

Under the heading, "Shipbuilding and Conversion, Navy, 1987/91":

CG-47 cruiser program, $147,100,000;

T-AGOS SURTASS ship program, $8,500,000;

Outfitting program, $14,900,000;

To:

Under the heading, "Shipbuilding and Conversion, Navy, 1985/89": T-AO fleet oiler program, $72,000,000;

Under the heading, "Shipbuilding and Conversion, Navy, 1986/90":

MCM mine countermeasures ship program, $5,800,000;

T-AO fleet oiler program, $11,100,000;

Under the heading, "Shipbuilding and Conversion, Navy, 1987/91":

AOE fast combat support ship program, $51,900,000;

T-AO fleet oiler program, $6,300,000; and

Under the heading, "Shipbuilding and Conversion, Navy, 1989/93": T-AGOS SURTASS ship program, $27,000,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree with the Senate to transfer funds among prior year Shipbuilding accounts to finance T-AO, MCM and AOE construction. The conferees further agree to transfer funds into the fiscal year 1989 T-AGOS program for the SURTASS block upgrade, including EMSP, from prior year T-AGOS and Outfitting programs.

Amendment No. 215: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9095*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 216: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9096*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides funding for National Defense Science and Engineering Graduate Fellowships.

Amendment No. 217: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9097. Section 30(a) of chapter 2B of the Arms Export Control Act, Public Law 97-392, is amended by inserting "either (i)" immediately after the phrase "such a company" in the first sentence thereof and by adding immediately before the period at the end of that sentence "or (ii) in the case of ammunition parts subject to subsection (b) of this section, using commercial practices which restrict actual delivery directly to a friendly foreign country or international organization pursuant to approval under section 38 of this Act".

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate general provision amended the Arms Export Control Act to facilitate the sale of ammunition components overseas. The conference agreement accomplishes the same purpose but clarifies that the amendment applies only to ammunition.

Amendment No. 218: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9098*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The section allows the competition of depot workload between the Department of Defense depots and the private sector. The intent of the conferees is that this should also allow for the award of competition from the private sector to the Department of Defense, if a successful bid is presented by the Defense depots.

Amendment No. 219: Deletes the Senate provision which required cost data on printing and reproduction to be contained in

each report submitted to Congress or the public.

Amendment No. 220: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9099. Of the funds appropriated by this Act, no more than $2,500,000 shall be available for the health care demonstration project regarding chiropractic care required by section 632(b) of the Department of Defense Authorization Act, 1985, Public Law 98-525.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 221: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9100*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate included a general provision (Section 9091) to reinforce the effectiveness of the CHAMPUS Peer Review Organization (PRO) program, which is designed to assure quality and improve cost-effectiveness under CHAMPUS. The amendment authorizes DoD to adapt by regulations, the quality and utilization review requirements and procedures in effect for the Medicare PRO program. This provides a basis for procedures essential to the effective operation of the PRO program, including confidentiality of records, civil immunity of peer reviewers, and sanctions for noncomplying providers that are in effect for Medicare.

Amendment No. 222: Deletes Senate language which proposed certain restrictions on the Global Positioning System. In addition, the Senate recedes from its report language directions and guidance.

Amendment No. 223: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9101. For the purpose of conducting a demonstration project, to test methods of increasing collections from third-party payers of reasonable inpatient hospital care costs incurred on behalf of retirees and dependents pursuant to section 1095 of title 10, United States Code, the Secretary of Defense is authorized to modify existing Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) regional fiscal intermediary contracts to assist in the administration of activities in connection with such collections: Provided, That amounts collected under this section from a third-party payer for the costs of inpatient hospital care provided at a facility of the uniformed services shall be credited to the appropriation supporting the maintenance and operation of the facility.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 224: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9095" named in said amendment, insert: *9102*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section permits agencies that sell federal property to accept, in the same manner as cash, amounts tendered by the Treasury from the two special accounts that were previously established by the Congress. This legislation is necessary because recent events have frustrated the original intent of Congress. The two groups for which the accounts were established have not been able to satisfy their entitlements through property sales.

By clarifying that the appropriated amounts in the accounts are to be transferred to and treated the same as cash by the federal agency, the legislation will assure that the groups for which the accounts were established are treated the same as any other private individual who is seeking to purchase property from the federal government. In addition, the groups will be able to acquire property from agencies (for example the Departments of Defense and Housing and Urban Development) and instrumentalities (for example, the Resolution Trust Corporation) other than the General Services Administration, as provided previously by Congress.

Nothing in this legislation is intended to change the status of the special account established pursuant to section 12(b) of Public Law 94-204 in other respects, (for example, as equivalent to interests in land which may be utilized in any state under the Federal Land Policy and Management Act of 1976 and Public Law 96-487).

Amendment No. 225: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of section number "9096" named in said amendment, insert: *9103*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The Senate general provision, agreed to in conference, sets aside $8,000,000 from the procurement title to be used for incentive payments authorized by the Indian Financing Act.

Amendment No. 226: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9097" named in said amendment, insert: *9104* and at the end of said amendment after "'paragraph (1)(B)'", insert:

(d) Section 1606 of the National Defense Authorization Act for Fiscal Years 1990 and 1991 is amended—

(1) by striking out "One-Year"in the heading of the Section and inserting in lieu thereof "Three-Month";

(2) by striking out "One-Year" in subsection (a) and inserting in lieu thereof "Three-Month";

(3) by striking out "October 1, 1990" in subsection (a) and inserting in lieu thereof "January 1, 1990"; and

(4) by striking out "fiscal year 1990" in subsection (a) and inserting in lieu thereof "the first quarter of fiscal year 1990"

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section amends the Foreign Assistance Act and Arms Export Control Act regarding certain charges to foreign military sales customers.

Amendment No. 227: Deletes Senate language that fully funds the civilian personnel pay raise.

Amendment No. 228: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9105*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires the Department of Defense to provide additional funds for high priority security improvements at the Kwajalein Test Range.

Amendment No. 229: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9106. (a) Of the amounts appropriated for research, development, test and evaluation under Title IV of this Act, not more than $26,552,000 may be made available for grants to support ongoing projects for strategic materials research, through the National Defense Stockpile Transaction Fund, for facilities, equipment, research and related activities at institutions of higher education;

(b) The Secretary of Defense may make grant awards to institutions of higher education, as follows: University of Utah, $8,900,000, University of Hawaii at Manoa, $6,000,000, University of Texas at El Paso, $4,152,000, University of Idaho, $4,000,000, Loyola College of Maryland, $3,500,000;

(c) The grants specified in subsection (b) may be made without regard to, and (to the extent necessary) in contravention of, subsection (a) of section 2361 of title 10, United States Code (which is hereby superseded to the extent necessary to make such grants), and shall be made without regard to subsection (b)(2) of such section, and may be made without regard to the requirements of section 2304 of title 10, United States Code;

(d) The Secretary of Defense shall transmit a report, within 60 days of enactment of this Act, to the Committees on Appropriations and Armed Services of the Senate and House of Representatives which contains an evaluation on whether each grant supports the objectives established by the Strategic and Critical Materials Stock Piling Act, as amended: Provided, That no funds shall be obligated for grant awards pursuant to subsection (a) until thirty days after receipt of such report by the above-named Committees;

(e) References to section 2361 of title 10, United States Code in this section refer to that section as it existed on November 10, 1989 and as it is amended by section 252 of the National Defense Authorization Act for Fiscal Years 1990 and 1991, to the extent that provision is enacted into law.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides for certain grants to be made through the National Defense Stockpile Transaction Fund.

Amendment No. 230: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9107.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to Senate language which provides $1,000,000 for maintenance and repair of equipment and facilities and for tooling at the William Langer Jewel Bearing Plant.

Amendment No. 231: Deletes Senate language concerning the National Aerospace Plane.

Amendment No. 232: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate, with an amendment as follows:

In lieu of the section number named in said amendment, insert: *9108* and immediately preceding "SEC.", insert the following center head:

(TRANSFER OF FUNDS)

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section allows the Secretary of Defense to transfer funds necessary for repair or replacement of Department of Defense assets damaged by hurricane Hugo in September of 1989.

Amendment No. 233: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9104" named in said amendment, insert: *9109* and immediately preceding "SEC", insert the following center head:

(TRANSFER OF FUNDS)

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides for the transfer of certain funds to Jordan to maintain previously purchased United States origin defense articles.

Amendment No. 234: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9110* and immediately preceding "SEC.", insert the following center head:

(TRANSFER OF FUNDS)

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section provides for the transfer of $135,000,000 to the Department of Energy Atomic Energy Defense Activities to restart the three tritium reactors at Savannah River, SC.

Amendment No. 235: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9111*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section expresses the sense of the Congress that the U.S. should reassess the force structure required in Korea and that the U.S. should not remove any armed forces until a thorough study on the roles, missions and force levels of these forces has been made.

Amendment No. 236: Deletes language proposed by the Senate requiring a study of alternative B-2 aircraft force structures.

Amendment No. 237: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9108" named in said amendment, insert: *9112*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires the Department to design a comprehensive strategy to involve civilian and military employees in partnership programs with elementary and secondary schools.

Amendment No. 238: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9113*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section directs the Secretary of the Army to convey a parcel of land to the New Jersey Turnpike Authority.

Amendment No. 239: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the section number named in said amendment, insert: *9114* and, in the two instances where "Senate" is named in said amendment, insert in lieu thereof: *Congress.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section requires a report evaluating the impact of the cumulative effect of continued withdrawals of the military from land and airspace in Nevada.

Amendment No. 240: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9115. (a) Such sums as may be necessary for fiscal year 1990 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

(b) Sums appropriated in title I of this Act, Military Personnel, are reduced by $63,000,000, which will be realized by reducing active duty personnel by 5,000: Provided, That this subsection does not apply to the reserve components.

(c) Sums appropriated in title II of this Act, Operation and Maintenance, are reduced by $75,000,000, which will be realized by reducing civilian personnel by 2,500: Provided, That this subsection does not apply to the reserve components.

SEC. 9116. Of the funds made available in this Act and in the Military Construction Appropriations Act, 1990 for fiscal year 1990 for research, development, test, and evaluation of the Rail Garrison MX and Small ICBM systems, procurement of Mark 21 reentry systems, advance procurement of Rail Garrison MX components or materials, and construction of facilities to support the Rail Garrison MX system, $150,000,000 is hereby reduced as determined by the Secretary of Defense.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section deletes Senate language regarding the Bureau of Prisons and inserts a section concerning military and civilian personnel issues and another section on the MX program.

Section 9115, subparagraph (b) is discussed in the Military Personnel section and subparagraph (c) is discussed under Operation and Maintenance, Civilian Manpower section of this report.

Section 9116 provides a reduction of $150,000,000 to achieve the authorized level for the Small ICBM and Rail Garrison MX programs as contained in the National Defense Authorization Act for Fiscal Years 1990 and 1991.

Amendment No. 241: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

SEC. 9117. None of the funds appropriated by this Act shall be available for payments under the Department of Defense contract with the Louisiana State University Medical Center involving the use of cats for Brain Missile Wound Research, and the Department of Defense shall not make payments under such contract from funds obligated prior to the date of the enactment of this Act, except as necessary for costs incurred by the contractor prior to the enactment of this Act, and until thirty legislative days after the final General Accounting Office report on the aforesaid contract is submitted for review to the Committees on Appropriations in the House and Senate.

SEC. 9118. None of the funds appropriated by this Act shall be available for bone trauma research at Letterman Army Institute of Research until the Secretary of the Army has certified to the Committees on Appropriations of the House and Senate that this research has a military application, it is being conducted in accordance with the standards set by an animal care and use committee, and the research is not duplicative of research already conducted by a manufacturer or any other research organization.

SEC. 9119. (a) Notwithstanding any other provision of law, the Secretary of Defense shall make available to the Speaker of the House of Representatives one C-20 aircraft of the 89th Military Airlift Wing at Andrews Air Force Base, Maryland, for such transportation purposes as the Speaker may determine. The Speaker shall have sole authority to determine the use of such aircraft and the persons transported on such aircraft, and such aircraft may not be used for any purpose not approved by the Speaker. The provisions of this subsection shall apply during fiscal year 1990 and subsequent fiscal years without regard to fiscal year limitation.

(b) In order to provide an aircraft for the purpose described in subsection (a), the Secretary of Defense shall, not later than 30 days after the date of the enactment of this act, make available to the 89th Military Airlift Wing at Andrews Air Force Base, Maryland, one C-20 aircraft from existing inventories of the Department of Defense.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

In section 9117, the conferees agree to prohibit any fiscal year 1990 funds and certain prior year funds for payments under

the Department of Defense's contract with the Louisiana State University Medical Center involving the use of cats for Brain Missile Wound Research until the General Accounting Office (GAO) has completed its final report on this contract. It is the conferees' firm intent that this prohibition on funding remain in effect until thirty legislative days after the final GAO report is submitted to the Committees on Appropriations and until both Committees fully review the GAO findings and approve in writing to the Department the continuation of any funding for this contract. The conferees fully expect the Department to terminate the contract if the final findings in the report (when considered with interested party comments) so warrant. Funds obligated in prior years for this contract shall not be used except as necessary for costs incurred by the contractor prior to the enactment of this Act.

In section 9118, the conferees agree to prohibit continued bone trauma research at the Letterman Army Institute of Research using dogs in the absence of certain certifications from the Secretary of the Army.

Airborne Self Protection Jammer.—The Senate included report language which directed that no appropriated funds be obligated until the ASPJ successfully completed operational testing. Bill language also was added which restricted obligation of any fiscal year 1990 funding for the ASPJ program except for production verification units until further testing was conducted and several reports were issued. The House did not address this issue.

The conferees share the Senate concern with the results of operational testing on developmental units. Defense Department officials are confident that additional testing on production units will demonstrate levels of performance which meet design specifications, but are concerned that withholding funds until the conclusion of such tests could cause termination of the program because of production breaks. Therefore, the conferees direct that further operational testing be conducted prior to the award of any future production contracts unless the Defense Department reports that such testing would cause an unacceptable breach in production which would jeopardize the continuation of the program. In any event, the conferees direct that no increase to full rate production shall occur until additional operational testing has been concluded and it is verified that the ASPJ fully meets its design requirements against all threats.

The conferees recognize that delays in the ASPJ program caused by the scheduled review of the Defense Acquisition Board (DAB) in late fiscal year 1990 has eliminated the need for production funding this year. Therefore, the conferees recommend a reduction of $204,800,000 from the Air Force F-16 program and $169,800,000 from various Navy aircraft programs for ASPJ production. The amount remaining for ASPJ in the recommended allowance includes $10,000,000 for each service for contract management or vendor base protection.

The conferees expect that the Navy can fulfill the criteria listed above and therefore, should plan to award a contract in early fiscal year 1991 for lot two low rate production. In accord with this goal, the Navy may issue a "Request For Proposal" in early 1990. However, the conferees direct that no contract be awarded for any future production until the exit criteria established by the DAB have been sucessfully completed and the results of the DAB review have been reported to the Committees on Appropriations.

Amendment No. 242: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9113" named in said amendment, insert: *9120*

and, in the one instance where "Senate" is named in said amendment, insert in lieu thereof: *Congress*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section allows participation of the Department of Defense in the multilateral anti-narcotics strike force, as authorized in sections 4101 and 4103 of the Anti-Drug Abuse Act of 1988 (Public Law 100-690).

Amendment No. 243: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of the matter inserted by said amendment, insert:

SEC. 9121. Notwithstanding the provisions of sections 1301 and 1341 of title 31 of the United States Code, or section 3732 of the Revised Statutes, or section 119 of the Super Fund Amendments and Reauthorization Act of 1986, the Secretary of the Army may have the authority to hold harmless and indemnify the Coolbaugh Township and/or its duly created and authorized authority or authorities or other properly designated body or bodies, located in Monroe County, Pennsylvania (hereinafter "Township") for certain liabilities to third persons not compensated by insurance or otherwise for loss of or damage to property, death, or bodily injury, including the expenses of litigation or settlement arising out of the Township's performance of remedial activities for the Army: provided, That

(1) such liabilities were caused solely by hazardous substances, as that term is defined at section 9601(14) of title 42 of the United States Code, that were released by the Army, or its authorized agents and employees;

(2) such liabilities were not the result of grossly negligent conduct or intentional misconduct on the part of the Township, its officers, agents, contractors or employees;

(3) the Township demonstrates that insurance for such liabilities is not reasonably available;

(4) the Township gives timely notice to the Army of any claim, action, or loss which may be covered by the indemnification provision between the Township and the Army;

(5) the United States shall, at its election, control or assist in the settlement or defense of any claim, action or loss which may be covered by an indemnification provision between the Township and the Army;

(6) the source of funds available to indemnify the Township shall be limited to 80 percent of the Army's allocation of the Defense Environmental Restoration Account for the year in which the damages are payable, but in no event shall liabilities payable pursuant to this authority exceed $50,000,000;

(7) an indemnification provision pursuant to this authority shall include a deductible amount mutually agreed upon of not more than $10,000;

(8) the Township and the Army shall use the guidance provided by the Federal Acquisition Regulations and other applicable federal guidance in negotiating an indemnification provision pursuant to this authority.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to delete Senate language which required a feasibility study concerning the sale or transfer of land in Virginia to the Commonwealth of Virginia since it was included in the National Defense Authorization Act, 1990.

However, the conferees agree to include language which provides the Secretary of the Army authority, if he so desires, to idemnify Coolbaugh Township from future contamination problems that may result from the toxics emanating from Tobyhanna Army Depot.

Amendment No. 244: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment, as follows:

In lieu of section number "9115" named in said amendment, insert: *9122*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This section amends the Stewart B. McKinney Homeless Assistance Act that applies to funds obligated during fiscal year 1988 and each fiscal year thereafter.

TITLE X

CONVENTIONAL FORCE IMPROVEMENTS

Amendment No. 245: Deletes Senate language which provides appropriations for Conventional Force Improvements, DOD Assured Access to Space, and Emergency Response Fund. Conventional Force Improvements were included in Title III, Procurement. Emergency Response Fund was included in Amendment number 101.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1990 recommended by the Committee of Conference, with comparisons to the fiscal year 1989 amount, the 1990 budget estimates, and the House and Senate bills for 1990 follow:

New budget (obligational) authority, fiscal year 1989	$282,386,350,000
Budget estimates of new (obligational) authority, fiscal year 1990	288,236,500,000
House bill, fiscal year 1990	286,475,680,000
Senate bill, fiscal year 1990	288,217,066,000
Conference agreement, fiscal year 1990	286,025,422,000
Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1989	+3,639,072,000
Budget estimates of new (obligational) authority, fiscal year 1990	−2,211,078,000
House bill, fiscal year 1990	−450,258,000
Senate bill, fiscal year 1990	−2,191,644,000

OVERSIGHT OF THE EXECUTIVE BRANCH

(Mr. SYNAR asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SYNAR. Mr. Speaker, some of our colleagues on the minority side took to the floor last week to assert that executive branch scandals over the past few years wouldn't have occurred if the Democrats in Congress had been doing proper oversight of the administration. I don't know where these Members have been, because that's about the most ridiculous assertion I've ever heard.

Mr. Speaker, here are copies of oversight hearings and reports just by my subcommittee alone over the past few years. I'll be happy to leave these in the Cloakroom for their review. More important, now that I know these Members are so supportive of aggressive oversight, I will feel free to call on them for help in getting some documents we need as part of an investigation, which the administration doesn't want to give us. It is comforting to know I can count on their support in this effort.

Second, Mr. Speaker, their assertion erroneously suggests that the executive branch has no obligation to keep its own house in order. Nothing could be further from the truth.

Third, they seem to believe—again, incorrectly—that oversight is solely a Democratic responsibility. Mr. Speaker, I can only be thankful the minority members on my own subcommittee don't share that view. In fact, I am very fortunate to have as my ranking Republican, BILL CLINGER of Pennsylvania, who understands as well as any Member of this body that oversight is not a partisan endeavor. He, Mr. DOUGLAS, and Mr. THOMAS of Wyoming, are all active participants in our oversight of the executive branch.

Mr. Speaker, before our colleagues take to the floor again to suggest Congress is not doing any oversight, they may want to check the facts first.

VETERANS WEEKEND—NO HOLIDAY FOR U.S. NAVY

(Mr. SCHULZE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHULZE. Mr. Speaker, make no mistake. This past Veterans' weekend was no holiday for the U.S. Navy.

On Friday, in Smyrna, GA, a Navy attack plane crashed into an apartment complex, killing 2, injuring 2, and leaving 30 homeless. The Navy said, quote, "The crash is an isolated incident."

On Saturday in Desert Center, CA, two Navy A-6 attack jets pulverized a campsite by dropping 12 250-pound bombs near 6 terrified campers. The Navy said, quote, "It was definitely a mistake, but as to why it happened, we don't know."

On Sunday in the Strait of Malacca, one Navy crewman died and five were injured after the U.S.S. *Kinkaid* collided with a merchant ship. The Navy said, quote, "We don't feel it's a training problem, and these accidents are totally unrelated to each other."

Qadhafi, Noriega, Ortega, and Castro can only dream of causing the United States such tragedy and turmoil. The U.S. Navy should now recognize a phrase that surely has many American citizens worried—"We have met the enemy, and it is us."

WHAT IS GOING TO HAPPEN IN SEQUESTRATION

(Mr. SMITH of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Florida. Mr. Speaker, we still have yet to see an earnest discussion entered into between the administration and the Congress, and not on the fault of the Congress, I might add, is it not taking place as to what actually is going to happen with sequestration. We still see the games being played in the administration. We still hear them saying that they want sequestration to go a little bit longer, somehow maybe to accomplish some political purpose.

However, Mr. Speaker, I think people ought to know that the longer that sequestration process goes, what happens?

In VA medical care, up to $254 million could be cut. The National Cancer Institute, $86 million. Compensatory education, $251 million. Pell grants for students to go to college, $247 million. Head Start programs, $68 million. The FAA, air traffic controllers equipment, safety checks and the like, $264 million.

Mr. Speaker, the litany goes on and on. This body has been trying to come to some resolution of the problem. This body, both Republicans and Democrats, want to see an end to the sequestration, want to see the reconciliation bill passed, but so far that fight has been won which the administration has resisted.

We urge the President, Mr. Speaker, to get in the middle of this, say that he will agree to a reconciliation bill with one or two items which are things which they want in this Chamber and in the Congress, and then let the rest of the people in the United States be at ease with the fact that we are in fact doing our job, which we are doing here, as well as all over the Government. We are doing our job, and the administration, too.

MAKING IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, OR ANY DAY THEREAFTER CONSIDERATION OF CONFERENCE REPORT ON H.R. 3072, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 1990

Mr. MURTHA. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, or any day thereafter, to consider the conference report and any amendments in disagreement on the bill (H.R. 3072) making appropriations for the Department of Defense for the fiscal year ending September 30, 1990, and for other purposes, and that such conference report and amendments in disagreement be considered as having been read when called up for consideration.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

SEQUESTER—THE WRONG SIDE OF THE EQUATION

(Mr. CONTE asked and was given permission to address the House for 1 minute.)

Mr. CONTE. Mr. Speaker, I'm glad the gentleman from Florida has joined my crusade.

Mr. Speaker, in the debate over sequestration, two points speak strongly against allowing sequester to remain in effect.

First, the administration's budgeteers let the President down. The President said he prefers sequester because it saves $16.1 billion, while reconciliation nets only $14 billion. Wrong.

Because of the way Gramm-Rudman works, once the 13 appropriations bills are passed, sequester will net only $11.6 billion in deficit reduction. So by siding with sequester, the President takes a position that loses $2.4 billion in deficit reduction.

The President is on the wrong side of the equation.

Second, the sequester effects on Defense, according to the Pentagon, are "too mind boggling to contemplate at

this time." The effect of sequester, or of the Defense appropriation and sequester, will cut real growth at the Pentagon by $8 billion.

Let's get off the wrong side of the equation and pass a reconciliation bill worth $14 billion.

□ 1210

TIME FOR AMERICA TO ACT AGAINST TERRORISTS

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, yesterday over 800 Hezbollah activists celebrated the brutal senseless murders of hundreds of Americans, French, and Israelis. A so-called holy leader, Ghassan Ghibris, said, "We pledge to be the dagger that stabs into their veins, the sword that pierces their heart, and the bomb that will kill them all."

While Congress and the administration hesitates, Americans are being systematically and methodically slaughtered by these terrorists who become our No. 1 threat and enemy.

I say it is time to make use of our massive $300 billion defense budget and go after these terrorists. We have F-14's, F-16's, F-18's, and I say maybe it is time that we start using them on America's No. 1 threat.

INTRODUCTION OF BILL TO ADDRESS WASTEFUL MAILING PRACTICES

(Mr. HASTERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HASTERT. Mr. Speaker, I rise today to introduce a bill that begins to address the pervasive problem of wasteful mailing practices of Government bureaucracies by requiring Federal agencies to consider cost-effectiveness when preparing and disseminating environmental impact statements.

The impetus for this bill was a mailing in December 1988 by the Department of Energy of 16,000 final environment impact statements—each costing approximately $100 to print and mail. Over half of these went to Illinois residents. The total cost of the mailing was over $1.4 million.

Most of the individuals who received this 26-volume technical document had never requested it—one home even received 5 copies. Many had simply voiced their support or opposition to the SSC project through letter writing campaigns.

My office received calls of complaint from the recipients of the mailing, including the St. Charles postmaster. He had to find an extra truck and put people on overtime during the Christmas season to get these enormous documents delivered.

My bill begins to infuse the Government bureaucracies with a commonsense approach to gathering and disseminating information. It will:

First, require the agency concerned to notify the Council on Environmental Quality of its intent to prepare an environmental impact statement, its scope and anticipated length;

Second, require the agency concerned to consult with the Council about an FEIS that exceeds 150 pages;

Third, require the agency concerned to notify—by letter—members of the general public involved in the preparation of the EIS about the existence and availability of an FEIS;

Fourth, require the agency concerned to devise the most cost effective method for the proper dissemination of copies of the statement.

In no way will this legislation limit the availability of these documents to individuals or organizations that have an interest in them. We do owe it to the taxpayer, however, not to mindlessly print and mail material to those for whom it holds no interest. If we are not responsible today in distributing information, the resources may not be available for its distribution tomorrow.

THE VIOLENCE MUST END IN EL SALVADOR

(Mr. BRENNAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRENNAN. Mr. Speaker, another week in El Salvador finds more violence and more bloodshed. The recent escalation of attacks in the capital city of San Salvador has sparked a new wave of tension and despair.

These attacks undermine the ability of the democratically elected Christiani government to maintain the fragile hopes for this beleagured nation. The violence posed by both sides calls for a more concerted effort by the United States to bring the two competing factions back to the bargaining table.

An immediate cease-fire would stop the senseless killing and destruction. As with most guerrilla conflicts, a negotiated settlement between the two parties offers the only real hope for peace.

The situation today in El Salvador is a crisis and the United States must work for an immediate cease-fire and end to the bloodshed.

The poor peasants of the war-torn nation ask only for the killings to end and the process of rebuilding their nation to begin. We can offer them greater hope by bringing diplomatic pressure for an end to the murders.

HONORING FIVE VETERANS FROM AMERICAN LEGION POST 218 IN MIDDLETOWN, OH

(Mr. DONALD E. "BUZ" LUKENS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DONALD E. "BUZ" LUKENS. Mr. Speaker, this country is rightfully very proud of its veterans. They have served their country with dignity and honor. Last week, five veterans from American Legion Post 218 in Middletown, OH, in my congressional district, the Eighth of Ohio, were honored for actions above and beyond the call of duty.

Robert J. Arrell, a Korean war vet, was presented the Martin V. Coffey award for his contributions to community service. He has served as chairman of the Middletown area United Way, organizing chairman of the United Way of southwestern Ohio and been a trustee of Arts in Middletown, Inc. He has been a member of the parish board of the First United Methodist Church, director of both the Middletown and Ohio Chamber of Commerce and also a conference board member of the American Society of Personnel Administrators. He currently serves on the board of directors for Bank One Middletown and was formerly a director of the American Savings & Loan Association.

Bob Wise received the Americanism Award presented each year to an individual who promotes patriotism in the community. Wise is the board chairman of Bob's Truck Service, Inc. and is a life member of Post 218. He is a veteran of World War II and served in the Pacific on Okinawa with the 1902d Engineer Aviation Batallion, U.S. Army.

William R. Thompson received the Vietnam Veterans E.B. Sickle Award for exemplifying outstanding leadership and dedication to Post 218. A member of the Post for 11 years, Thompson was Post Commander in 1986 and is currently finance officer.

Charles Cooper was the recipient of the Color Guard Award. This award was established in 1946 by the late Glenn "Sarge" Henderson to perform military rites for any honorably discharged veteran. The group also represents the Post in parades, flag raisings, school patriotic programs, and at various fraternal and civic events. Cooper served in the U.S. Army during World War II and is a life member of the American Legion. He joined the color guard in 1978 and was selected for the award because of his dedication.

A special award was presented to Jack Keller, for his dedication and outstanding service to the Post. He is a life member and was Post Commander in 1974.

We can look proudly at our veterans, but these men have contributed to the

community of Middletown in ways that deserve recognition. To them I say, God bless you gentlemen and thank you for your dedication to Middletown.

SEQUESTRATION

(Mr. TORRICELLI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TORRICELLI. Mr. Speaker, what a difference a year makes. Twelve months ago George Bush was talking about our educational and environmental needs, the problems of drugs in America. Now he claims that he is prepared to accept the consequences of sequestration.

The consequences: 230,000 soldiers demobilized; 20,000 ships in mothballs; $250 million in veterans' medical benefits lost; 50,000 fewer children in Head Start; 300,000 children who will not be innoculated against polio; $80 million out of environmental funds for Superfund; $29 million of the war on drugs.

Mr. Speaker, the President may not care about sequestration, but Members of this House and the American people care.

Mr. Speaker, the President needs to keep faith. Either he is the environmental President, the education President, a President who wants to lead, or he is the President who does not care about sequestration. He cannot have it both ways.

APPOINTMENT OF CONFEREES ON H.R. 2748, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 1990

The SPEAKER. The Chair appoints the following conferees on the bill (H.R. 2748) to authorize appropriations for fiscal year 1990 for intelligence and intelligence-related activities of the U.S. Government, the Intelligence community staff, and the Central Intelligence Agency Retirement and Disability System, and for other purposes and without objection, the Chair reserves the right to appoint additional conferees:

Permanent Select Committee on Intelligence: Messrs. BIELENSON, MCCURDY, KASTENMEIER, ROE, MCHUGH, DWYER of New Jersey, WILSON, Mrs. KENNELLY, and Messrs. GLICKMAN, MAVROULES, RICHARDSON, SOLARZ, HYDE, LIVINGSTON, SHUSTER, COMBEST, BEREUTER, ROWLAND of Connecticut, and DORNAN of California.

Committee on Foreign Affairs (for title IX of the Senate amendment: Messrs. FASCELL, HAMILTON, and BROOMFIELD.

Committee on Armed Services (for Department of Defense tactical intelligence and related activities: Messrs. ASPIN, LANCASTER, and DICKINSON.

Committee on the Judiciary (for sections 503 and 601 of the Senate amendment: Messrs. EDWARDS of California, MORRISON of Connecticut, BERMAN, SENSENBRENNER, and SMITH of Texas.

There was no objection.

A BUDGET IN TUNE WITH TODAY'S WORLD AND AMERICA'S FUTURE

(Mr. DURBIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DURBIN. Mr. Speaker, since World War II, the United States has invested billions of dollars into NATO's military might, preparing for the day when a million East Europeans would stage a massive invasion of West Germany.

Last week the invaders, as anticipated, poured into West Berlin. They formed tight ranks to sign up for restaurants, and BMW showrooms. They sued for peace and they returned home with toys for their kids.

Policymakers in the Pentagon and the State Department will not struggle to redefine NATO and American's new role in global security.

On Capitol Hill we face a deepening difficult task, crafting a budget for a new America, a budget free from cold war logic, a budget in tune with today's world and America's future.

Our budget for fiscal year 1991 can be our first post-cold war budget, and if it is an honest, forward-looking, imaginative budget, it will spend our resources on tomorrow, not yesterday. Our budget must be driven, not by a cold war with communism, but by world war of economic competition.

BERLIN WALL FALLS AS WE CELEBRATE VETERANS DAY

(Mr. GEKAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEKAS. Mr. Speaker, yes, they are dancing on top of the Berlin Wall, and as a happy coincidence it occurred at a time when Americans were celebrating Veterans Day. What do the two have in common? It is, in my judgment, the sacrifices made over the centuries by American men and women in the armed services, our veterans, who made freedom constant in the United States and spread it around the world.

There is a direct connection between the freedom that these Germans are first experiencing on the Berlin Wall and those for which Americans sacrificed over the years.

□ 1220

We simply hope that in the future America will resolve to remain strong, because make no mistake about it, the strength of America made possible the crumbling of the Berlin Wall. The determination of American leadership over the centuries made it possible for the East Germans to understand what liberty is all about.

While we are celebrating on one hand, on the other we must remain strong and guarantee freedom for generations to come.

TRIBUTE TO REV. LYMAN SMITH ALLEN

(Mr. HUBBARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUBBARD. Mr. Speaker, more than 600 admirers of Rev. Lyman Smith Allen attended his funeral yesterday at Immanuel Baptist Temple in Henderson, KY.

Reverend Allen, 76, served as the very effective and popular pastor of Immanuel Baptist Temple from 1946 to 1980.

Among his many accomplishments, Reverend Allen was the recipient of Henderson's Distinguished Citizen Award in 1977.

The Henderson Gleaner newspaper published an editorial tribute to Reverend Allen yesterday. The editorial was headlined: "Lyman Smith Allen Left Lasting Imprint on Us."

To quote a portion of that editorial in the Gleaner:

He was "Rev" the man who came to Henderson in 1946 to pastor IBT for "two years" and remained there for 34 before retiring in 1980. His imprint on that church (and this community) will remain forever but Rev. Allen invariably placed the credit elsewhere. In an interview about the church's growth on his 30th anniversary at IBT, he said, "I will admit that these things have come about through bold, courageous and progressive leadership, but that leadership has come from the people, not from me."

Such was the manner of Rev. Allen, who would just as soon be remembered as an ordinary man who brought forth the technique of Jesus Christ.

He was of course an extraordinary man. He was an inspirational leader and a master orator whose enormous faith was contagious. He had few, if any, peers in bringing comfort to the ill or to families going through the experience of losing a loved one.

My congressional district, the Commonwealth of Kentucky and areas far beyond are better places today because of this Christian leader, this Baptist minister who died Thursday of cancer.

He is survived by his wife, Jessie Cagle Allen; one daughter, Jica A. Crafton of Niagara, NY; three sons, C.Y. Allen of Stevens Point, WI, A.C. Allen of Maitland, FL, and L.S. Allen, Jr., of Henderson. My wife Carol and I extend our sympathy to each of them and other members of the family.

RENEWED REBEL AGGRESSION IN EL SALVADOR

(Mr. BROOMFIELD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROOMFIELD. Mr. Speaker, where is the outcry of condemnation against the savage tactics of the leftist guerrillas in El Salvador?

Over this past weekend the people of El Salvador have once again borne the brunt of intense and vicious rebel aggression. The leftists in a desperate attempt to dramatize their discredited and abandoned movement initiated attacks against the urban population of San Salvador. Over 125 individuals were killed, including one American teacher.

This renewed rebel aggression should meet with a chorus line of condemnation in the Congress. One by one we should all deplore the guerrillas' murderous tactics. The Cristiani government did not instigate these attacks; the guerrillas did.

We know what the FMLN's true colors are—black for fear and intimidation and red for unlimited bloodletting.

President Cristiani continues to offer peace over conflict for the survival of democratic principles in his country. He deserves our steadfast support.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. BRENNAN). Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken after debate has concluded on all motions to suspend the rules, but not earlier than 4:30 p.m.

GENESEE RIVER PROTECTION ACT OF 1989

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 931) to protect a segment of the Genesee River in New York.

The Clerk read as follows:

S. 931

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Genesee River Protection Act of 1989."

SEC. 2. PROTECTION OF THE GENESEE RIVER.

In order to protect for present and future generations the outstanding scenic, natural, recreational, scientific, cultural, and ecological values of the Genesee River within Letchworth Gorge State Park in the State of New York, and to assist in the protection and enhancement of the Gorge's archeological sites of sacred significance to the Seneca Nation, historic areas, endangered plant communities, and diverse recreation uses, the protections afforded for rivers listed in section 5(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1276(a)) for study for potential addition to the National Wild and Scenic Rivers System shall apply to the segment of the Genesee River beginning at the southern boundary of Letchworth Gorge State Park and extending downstream to the Mt. Morris Dam, except that the protection so afforded shall not interfere with the Secretary of the Army's operation and management of Mt. Morris Dam as authorized for purposes of flood control.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from Arizona [Mr. RHODES] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 931, the Senate bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 931, which passed the Senate with Senator MOYNIHAN'S leadership on September 12, 1989, provides for the protection of an approximately 17-mile segment of the Genesee River in New York State. The legislation is similar to H.R. 2333, which was introduced on May 11, 1989.

The Genesee River segment referenced by S. 931 is located within the highly scenic and popular Letchworth Gorge State Park. Portions of the Genesee River have been reviewed and subsequently listed on the nationwide rivers inventory as possessing significant resource values. Further, the State of New York has taken action to designate the segment in question as part of that State's wild and scenic rivers system.

The legislation before the House today arose because alterations to the Genesee River that are being studied would inundate sections of the river gorge within the State park and damage its natural characteristics. The effect of S. 931 will be to make Federal actions consistent with the protections afforded the river under State management.

In testimony before the Interior Committee, the legislation was endorsed by the administration, the congressional representatives of the area, and public witnesses. This matter has received extensive coverage in western New York State and widespread unanimity of support for protecting the Genesee River has been evident. Given the circumstances and support attendant with S. 931, I believe the legislation, in this instance, is a reasonable proposal to assist in maintaining the existing resource values of the Genesee River and I support its adoption.

Mr. RHODES. Mr. Speaker, I yield myself such time as I may consume.

(Mr. RHODES asked and was given permission to revise and extend his remarks.)

Mr. Speaker, I rise in support of S. 931, the Genesee River Protection Act of 1989. This bill is noncontroversial. It has the support of the Bush administration and has local support in the State of New York.

Today, we will be protecting the Genesee River under section 5(a) of the Wild and Scenic Rivers Act by prohibiting any water or power developments on this stretch of the river. There exists no stronger statutory tool for protecting natural rivers.

The action under consideration today is not without precedent. This body has protected portions of the Snake and Salmon Rivers in the exact same manner.

I believe this legislation will save for generations to come the beauty and natural qualities of the Genesee River within the boundaries of Letchworth State Park's Genesee River Gorge—the "Grand Canyon of the East." In this park, the river travels over three waterfalls, and is the focal point for over 1 million visitors yearly.

New York State has already included this portion of the river in its wild, scenic, and recreational river system and this legislation will afford the same protection at the Federal level. The operation of the U.S. Corps of Engineer's Mount Morris flood control dam will not be interfered with by this bill.

I urge my colleagues to support S. 931.

Mr. PAXON. Mr. Speaker, I rise in strong support of S. 931, the Genesee River Protection Act. I would like to thank the chairman of the Subcommittee on National Parks and Public Lands, Mr. VENTO, for his support and the support of his staff in moving this legislation through the House. Additionally, I would like to thank Mr. LAGOMARSINO for his assistance and guidance on the Genesee River Protection Act.

The Genesee River is located in the heart of my district. Affectionately known as the Grand Canyon of the East, with cliffs that rise to over 600 feet at some points, this gorge is where the magnificant Genesee River spans 17 miles as it roars over three major falls, one of which is more than 107 feet high.

The historic Letchworth State Park encompasses over 14,000 acres with boundaries accessed by main entrances in Portageville, Castile, and Perry in Wyoming County, and Mount Morris in Livingston County and hosts close to 1 million visitors annually.

New York State has already included this portion of the Genesee River in its Wild, Scenic and Recreational River System, and I think this river deserves the same protection at the Federal level.

Mitex Inc., of Boston, MA—now known as Mount Morris Hydro Partners—was issued a preliminary permit from the Federal Energy Regulatory Commission [FERC] to study the feasibility of installing a hydropower plant at Mount Morris on May 5, 1989.

Although Mitex was only issued a preliminary permit, which is good for 3 years, we are concerned that they will move quickly and begin building the hydropower plant within the next year.

The people of my district are nearly unanimous in their opposition to the establishment of a hydropower plant on the river. I would like very much to ensure the protection of the Genesee River. To do this, I believe we need to protect the river at the Federal level.

Senate bill 931 uses the Wild and Scenic Rivers Act to protect for present and future generations the oustanding scenic, natural, recreational, scientific, cultural, and ecological values of 17 miles of the Genesee River located within Letchworth State Park.

This legislation is supported by the State and local officials in this area. It is extremely important for my constituents and the 1 million visitors to Letchworth State Park each year. This act will preserve this natural resource for present and future generations to enjoy and I urge my colleagues to support it.

Mr. LEVINE of California. Mr. Speaker, I want today to speak out in support of the chemical weapons sanctions legislation we now have before us. I especially want to thank the chairman of the Foreign Affairs Committee, Mr. FASCELL, and the chairman of the Subcommittee on International Economic Policy and Trade, Mr. GEJDENSON, for their leadership on this vitally important issue.

As many have already mentioned, this bill is the product of substantial discussion and dialog among a variety of interested parties.

In particular, the staffs of two Foreign Affairs subcommittees and of the full committee, as well as my staff and that of my colleague from California, Mr. BERMAN, have spent many months trying to craft a bill which would adequately address the problem of chemical weapons proliferation; in other words, how to stop the spread of these insidious weapons. I believe this bill helps accomplish that goal.

Mr. Speaker, there is a crying need for CW sanctions legislation. Recent experience has demonstrated that certain governments are willing and able to use poison gas as a weapon of war. Adding to the chemical club countries which have shown every indication they too would use such weapons threatens not only U.S. interests in the Middle East but also the interests of all nations interested in peace in that volatile region.

It is therefore most regrettable that it is our closest friends in Europe who share the blame for allowing the chemical genie to escape from the Mideast bottle. The scourge of chemical warfare can only be removed if our Allies put principle—and nonproliferation of these horrible weapons—ahead of commerical gain.

Furthermore, a strong and unambiguous signal must be sent to all countries which might contemplate using CW that, should they choose to do so, the economic, political, and diplomatic costs will be severe.

In sum, measures are needed to raise significantly the costs of both using and supplying chemical weapons. The Chemical and Biological Warfare Elimination Act—as this bill is titled—attempts to do just that.

The bill breaks down into several sections.

The findings stress the need for a comprehensive, verifiable international agreement to achieve CW disarmament. They also call for multilateral and unilateral efforts to limit CBW proliferation, and for sanctions against violators of international law.

Title I contains measures to prevent the proliferation of CBW. Specifically, it includes special controls on U.S. exports—under the Arms Export Control Act and the Export Administration Act—which could help a country acquire the capability to develop, produce, stockpile, deliver, or use CBW.

It also imposes sanctions on foreign companies which have assisted CBW proliferation. Such sanctions would include prohibitions on U.S. Government procurement and/or on imports into the United States for 2 years or until the President has certified that the company had ceased activities which led to the initial imposition of sanctions. Prior to imposing sanctions, the President would be requested to consult with the primary country of jurisdiction to determine whether or not it had taken adequate corrective action. Certain waiver and exemption provisions are also included.

Title II would adopt sanctions against countries which use CBW in violation of international law, make substantial preparations to do so, or develop, produce, or stockpile BW in violation of international law.

The President would be required to impose at least three of a menu of eight sanctions including, for example, prohibition on exports of controlled items; denial of credit or other financial assistance; and import restrictions. After 3 months, at least one additional sanction must be imposed unless the President certifies that the country was no longer using CBW and had met several other conditions. Again, the bill provides for a waiver under certain circumstances.

The President, under title II, could also impose sanctions against countries which make substantial preparations to use CW or develop BW in violation of international law. This section is provided to give him discretion to sanction a country like Libya, which clearly has been developing a CW capability.

Finally, title III contains several reporting requirements regarding the effectiveness of the statute; efforts of foreign countries to acquire CBW; CBW use or preparation; and the extent to which foreign persons and governments knowingly contribute to CBW development.

Mr. Speaker, overall I am relatively pleased with this bill. It provides an appropriate framework in which the executive and legislative branches can work together, and it gives the President proper incentive actually to impose sanctions should circumstances merit such action.

That having been said, however, I confess I am troubled by the degree to which we were encouraged to water down our original draft legislation. I introduced a bill, H.R. 696, in January which would have required mandatory sanctions to be imposed upon any country found to have used chemical weapons. While H.R. 696 did contain a waiver, it was so narrowly drawn that it would have been very difficult for the President to exercise.

However, in the interests of trying to craft a bill which would be acceptable to the administration, the committee chose to wait to hear executive branch views on the subject before proceeding on my—and other—bills. The administration's initial response was not, in my view, particularly helpful since they simply wanted a bill providing complete and total discretion as to whether to impose CW sanctions.

There is one major problem with that approach. It gives the President an easy out should he decide to put politics ahead of punishment. One need only look to last fall to see that, even in the face of the most egregious use of CW since World War I, the executive branch lobbied heavily against the imposition of sanctions. The result? Encouragement to other nations who are pursuing—and could well use—a chemical weapons capability.

The basic draft with which the staffs had been working these many months was tougher than the administration preferred. It combined both user and supplier sanctions. And, while not containing explicitly mandatory sanctions, it was drafted in a way in which sanctions would nevertheless be imposed unless the President chose to waive them by jumping a number of hurdles. In all likelihood, the President would have been unable to pass what is often called the red-face test. The presumption would therefore be that sanctions would be imposed.

Not surprisingly, the administration opposed this approach and, immediately prior to the subcommittee markup, threatened to oppose the draft with which the staffs had been working. They offered their own version which essentially would have been meaningless.

The result, Mr. Speaker, the compromise, is the bill we have before us today, which is even less stringent than the Foreign Affairs Subcommittee bill we passed in July. In fact, in the key area of user sanctions, we have granted the President even greater waiver authority than he had in the July bill. I therefore want the record to show that this committee has come a long way toward meeting administration concerns in the interest of achieving a bill with bipartisan and bicameral support.

For example, this bill, in addition to the change noted above: eliminates a list the President would be required to maintain of countries which either use, or make substantial preparations to use, CW—the embarrassment list—substantially weakens the waiver on supplier sanctions; allows the President to avoid sanctions if he merely certifies that the foreign government in which a company is located has taken appropriate action—which provides a giant loophole for politics to intrude; eliminates one tier of our original two-tier approach to user sanctions; and decreases the number of sanctions which would be imposed on users.

These changes are not fatal. They do not gut the bill. There is still a substantial sanctions regime in place in this bill. But the overall effect is to provide the President with much greater discretion than he would otherwise have had. That is not my preferred approach. History has shown that tough talk on an issue like chemical weapons use does not always translate into tough action.

Nonetheless, as I have already indicated, I support this bill as an appropriate and timely first step. I am pleased to see that the administration, recognizing the movement we have made on their behalf, is finally lending the bill its overt support. I expect that to be the case throughout the entire process, and to put teeth into the bill's provisions by using them should a situation arise where sanctions are called for.

Mr. RHODES. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the Senate bill, S. 931.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

TRANSFER OF CERTAIN LANDS TO CALIFORNIA

Mr. VENTO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2809) to provide for the transfer of certain lands to the State of California, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2809

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds and declares that—

(1) in order to protect certain outstanding examples of ponderosa pine, sugar pine, and giant sequoia trees located in the North and South Calaveras Groves, on the western slope of the Sierra Nevada Mountains, the State of California has established Calaveras Big Trees State Park; and

(2) for similar purposes, the United States has designated certain adjacent Federal lands, amounting to about 379 acres, as the Calaveras Big Trees National Forest; but

(3) this National Forest (managed as part of the Stanislaus National Forest) is the smallest National Forest in the United States and could be more appropriately and efficiently managed as part of the Calaveras Big Trees State Park.

(b) PURPOSE.—The purpose of this Act is to improve the management of the lands located in the Calaveras Big Trees National Forest, and the protection of certain examples of ponderosa pine, sugar pine, and giant sequoia trees, by unifying the management of the lands in such National Forest and in the California Calaveras Big Trees State Park.

SEC. 2. LAND TRANSFER.

(2) TRANSFER.—Promptly following the enactment of this Act, the Secretary of Agriculture (hereinafter in this Act referred to as the "Secretary") is authorized and directed to transfer, subject to the provisions of this Act, to the State of California, subject to valid existing rights, for inclusion within the Calaveras Big Trees State Park in Tuolumne County, California, all right, title, and interest of the United States in and to lands and interests therein within the Calaveras Big Trees National Forest, as generally depicted on the map numbered 20435 and dated June 5, 1989, prepared by the California Department of Parks and Recreation.

(b) MAP AND DESCRIPTION.—As soon as practicable after the enactment of this Act, the Secretary shall submit a map and legal description of the lands referred to in subsection (a) to the Committee on Interior and Insular Affairs of the United States House of Representatives, and the Committee on Agriculture and the Committee on Energy and Natural Resources of the Senate. Such map and legal description shall have the same force and effect as if included in this Act, except that any clerical or typographical errors in such map or legal description may be corrected. The Secretary shall place such map and legal description on file, and make them available for public inspection, in the Office of the Chief of the United States Forest Service.

(c) CONDITIONS OF TRANSFER.—Transfer of the lands and interests described in subsection (a) of this section shall be subject to the following conditions—

(1) The transfer shall not take place unless no later than two years after the date of enactment of this Act, there is concluded an agreement between the State of California and the Secretary of Agriculture (on behalf of the United States) whereby the State agrees to transfer to the United States, in exchange for such lands or portions thereof and under terms and conditions which the Secretary finds to be acceptable, lands in California and other consideration of approximately equal value that the Secretary finds suitable for addition to and management as part of one or more units of the National Forest System;

(2) No harvest of timber (except as may be necessary for purposes of control of fire, insects, or disease) and no mineral oil or gas geothermal exploration or development shall be permitted on such lands;

(3) Any action by the State of California to transfer any portion of such lands or interest to any entity other than the United States shall be void ab initio and shall result in the reversion to the United States of all right, title, and interest in such lands;

(4) Any action by the State of California to permit use of any portion of such lands for any purpose prohibited by this subsection or any purpose incompatible with the continued ability of such lands to support ponderosa pine, sugar pine, or giant sequoia trees, shall result in the reversion of all right, title and interest in such lands to the United States;

(5) The Secretary of Agriculture, acting through the Forest Service, shall be afforded by appropriate officials of the State of California reasonable opportunities to collect seed from trees located on such lands for scientific or silvicultural purposes:

(6) The Secretary of Agriculture, upon prior notification to the State of California, shall be entitled at any time to enter upon such lands for the purpose of monitoring the management of such lands and the compliance of the State of California with the provisions of this subsection; and

(7) The transfer shall be subject to valid existing rights and the following reservations or exceptions:

(A) Existing ditches and canals as authorized by the Act of August 30, 1890 (43 U.S.C. 945); and

(B) Any existing rights-of-way to provide the United States and its assigns access to federally owned lands.

(d) ENFORCEMENT.—Upon the request of the Secretary of Agriculture, the Attorney General shall bring any action or take any other steps necessary to enforce the provisions of subsection (c) of this section.

(e) TIMING, VALUE, AND STATUS.—(1) Transfer of lands to the State of California under this Act shall occur at the same time as transfer of lands to the United States under the agreement described in paragraph (1) of subsection (c). The restrictions and conditions specified in paragraphs (2), (3), (4), (5), (6), and (7) of subsection (c) shall be included in the instruments of transfer of lands to the State of California.

(2) Effective upon the transfer to the State of California of lands described in subsection (a) of this section, the National Forest status of such lands shall terminate. Any such lands not transferred to the State of California shall thereupon be incorporated into the Stanislaus National Forest and managed accordingly.

(3) Any lands transferred to the United States pursuant to this Act shall be deemed national forest lands and managed accordingly. If any such lands are outside existing boundaries of one or more National Forests, the Secretary may modify such boundaries to encompass such lands.

(4) Values of the respective lands exchanged between the United States and the State of California pursuant to this Act shall be of "approximately equal value" as that term is defined by regulations implementing the Act of January 12, 1983 known as the Small Tracts Act (16 U.S.C. 521c-521i).

(5) Any of the lands described in subsection (a) of this section which may revert to ownership of the United States shall be added to and incorporated within the Stanislaus National Forest and managed accordingly.

The SPEAKER pro tempore. Is a second demanded?

Mr. RHODES. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Minnesota [Mr. VENTO] will be recognized for 20 minutes and the gentleman from Arizona [Mr. RHODES] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Minnesota [Mr. VENTO].

Mr. VENTO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2809 is a bill introduced by our colleague from California [Mr. LEHMAN]. It would authorize the transfer of about 379 acres of national forest lands in his district to

the State of California for inclusion in an existing State park.

Both the national forest and the State park include some significant stands of very large trees of several species, including giant sequoias. Both the United States and the State of California have had a longstanding interest in protection of these groves. Federal legislation of 1909 actually authorized acquisition of lands in this area, so as to protect these trees, but the Forest Service did not in fact acquire the lands involved here until 1953.

Meanwhile, the State had moved forward with its own acquisition policy and the result was the establishment of the Calaveras Big Trees State Park. This park includes some 6,000 acres and has an annual visitation exceeding 200,000.

The state park lands effectively surround most of the 379 acres of the national forest. This is the smallest national forest in the Nation. Under these circumstances, it does seem that consolidation of land for management by the State as part of the existing state park is a sensible idea.

At our hearing, the administration supported the idea of transferring these lands to the State, but asked that this be done on an exchange basis rather than without compensation to the United States. In response, the committee has amended the bill accordingly.

As reported by our committee, the bill is basically an authorization for a land exchange. The Forest Service's existing exchange authorities do not apply to the Calaveras Big Trees National Forest, which has a special status under the 1909 law, so legislation is necessary to cover this case.

Under the bill, the State would have 2 years to enter into a binding agreement to transfer to the United States land (or land and money) of approximately equal value in exchange for the Calaveras National Forest lands. The lands to be transferred by the State would have to be ones that the Forest Service finds suitable for management as national forest lands.

The bill also spells out in detail the restrictions on how the State could manage the lands it would receive, and would provide for their reversion to the United States if those restrictions were not complied with. The essence of this is that the State would be required to manage the lands the way the state park is managed now.

Mr. Speaker, this is a noncontroversial bill that has been worked out on a bipartisan basis. It is supported by the administration and the State of California and was reported by our committee without dissent. I urge its passage.

□ 1230

Mr. RHODES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2809, an act to provide for the transfer of certain lands to the State of California, and for other purposes. My colleague, Mr. LEHMAN of California has drafted a noncontroversial bill which is supported by the Bush administration and the California State Park System. I would like to thank Mr. LEHMAN for his understanding and support in drafting amendments to address our concerns with the original legislation.

Simply stated, this legislation authorizes the transfer of the lands of the smallest national forest in the United States—some 379 acres—to the California State Park System. The Big Trees National Forest is effectively surrounded by the Calaveras Big Trees State Park. In exchange, the State park system will identify and transfer other lands of approximately equal value to the Forest Service.

Outstanding examples of ponderosa pine, sugar pine and giant sequoias are found in the North and South Calaveras groves, on the western slope of the Sierra Nevada Mountains, separated only by a manmade management boundary. Today, we will be improving the management of these groves through unifying the administrative management of the State park and forest lands under one entity.

I urge my colleagues to support H.R. 2809.

Mr. Speaker, I want to commend the gentleman from California [Mr. LEHMAN] for his work on this matter. He has been diligent. This is a good bill and deserves our support.

Mr. VENTO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. BRENNAN). The question is on the motion offered by the gentleman from Minnesota [Mr. VENTO] that the House suspend the rules and pass the bill, H.R. 2809, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. VENTO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 2809, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

CHEMICAL AND BIOLOGICAL WARFARE ELIMINATION ACT

Mr. FASCELL. Mr. Speaker, I move to suspend the rues and pass the bill (H.R. 3033) to control the export, countries pursuing or expanding the ability to produce or deliver chemical or biological weapons, of items that would assist such countries in acquiring such ability, to impose sanctions against companies which have aided in the proliferation of chemical or biological weapons, to provide for sanctions against countries which use or prepare to use chemical or biological weapons in violation of international law, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3033

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Chemical and Biological Warfare Elimination Act".

SEC. 2. FINDINGS.

The Congress makes the following findings and declarations:

(1) It is a top priority to achieve a comprehensive global convention, with adequate provisions for verification, to prohibit the production and stockpiling of chemical weapons.

(2) All countries should cease development, production, and stockpiling of chemical weapons on a verifiable basis at the earliest possible date.

(3) The United States should cooperate in and lead multilateral efforts to stop the proliferation of chemical weapons. These efforts include the negotiations at the Geneva Conference on Disarmament for a worldwide ban on chemical weapons, controls on proliferation of chemical precursors through the Australia suppliers group, the Paris Conference of January 1989 on chemical weapons use, and the conference on chemical weapons proliferation held in Canberra, Australia, in September 1989.

(4) The United States should also impose the necessary controls on United States exports to prevent the proliferation of chemical and biological weapons and should discourage foreign companies from transferring similar items.

(5) The United States should work with other countries or groups of countries to adopt progressively stronger measures (including appropriate sanctions) against countries that use chemical or biological weapons in violation of international law or develop, produce, or stockpile biological weapons. The President is urged to pursue multilateral sanctions pursuant to United Nations Security Council Resolution 620, which declared the intention of the Security Council to give immediate consideration to imposing "appropriate and effective" sanctions against any country which uses chemical weapons in violation of international law.

TITLE I—MEASURES TO PREVENT THE PROLIFERATION OF CHEMICAL AND BIOLOGICAL WEAPONS

SEC. 101. MULTILATERAL EFFORTS.

It is the policy of the United States to seek multilaterally coordinated efforts with other countries to control the proliferation of chemical and biological weapons.

SEC. 102. EXPORT CONTROLS.

(a) IN GENERAL.—The President shall—

(1) use the authorities of the Arms Export Control Act to control the export of those defense articles and defense services, and

(2) use the authorities of the Export Administration Act of 1979 to control the export of those goods and technologies,

that the President determines would assist a country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons.

(b) EXPORT ADMINISTRATION ACT.—Section 6 of the Export Administration Act of 1979 (50 U.S.C. App. 2405) is amended by adding at the end the following:

"(q) CHEMICAL AND BIOLOGICAL WEAPONS.—A validated license shall be required under this section for the export of any goods or technology that the President determines would assist the recipient country in acquiring the capability to develop, produce, stockpile, deliver, or use chemical or biological weapons, unless the destination of such export is a country with whose government the United States has entered into bilateral or multilateral arrangements for the control of chemical or biological weapons related goods or technology.".

SEC. 103. SANCTIONS AGAINST CERTAIN FOREIGN PERSONS.

(a) IMPOSITION OF SANCTIONS.—

(1) FOREIGN PERSONS ON WHICH SANCTIONS IMPOSED.—Except as provided in subsection (b)(2), the President shall impose either or both of the sanctions described in subsection (c) on a foreign person if the President determines that, on or after the date of the enactment of this Act, that foreign person knowingly and substantially contributed to the efforts by a country described in paragraph (2) to use, develop, produce, stockpile, or otherwise acquire chemical or biological weapons.

(2) FOREIGN COUNTRIES USING OR PREPARING TO USE CHEMICAL OR BIOLOGICAL WEAPONS IN VIOLATION OF INTERNATIONAL LAW.—Paragraph (1) applies if the President determines that, on or after the date of the enactment of this Act, the country referred to in paragraph (1) either used chemical or biological weapons in violation of international law or is making substantial preparations to do so.

(3) PERIOD OF SANCTIONS.—Except as otherwise provided in this section, sanctions shall be imposed under this section for a period of not less than 2 years.

(b) CONSULTATIONS WITH AND ACTIONS BY GOVERNMENT OF JURISDICTION.—

(1) CONSULTATIONS.—If the President makes the determinations described in subsection (a) with respect to a foreign person, the Congress urges the President to initiate consultations immediately with the government with primary jurisdiction over that foreign person with respect to the imposition of sanctions pursuant to this section.

(2) ADEQUATE CORRECTIVE ACTION BY GOVERNMENT OF JURISDICTION.—Sanctions are not required to be imposed on a foreign person pursuant to this section if the President determines that the government with primary jurisdiction over that foreign person has taken adequate corrective action with respect to the acts by that foreign person that are described in subsection (a).

(3) REPORT TO CONGRESS.—If the President does not impose sanctions on a foreign person under this section pursuant to a determination under paragraph (2), the President shall report to the Congress the basis for that determination. This report shall be submitted not later than 90 days after the President makes the determinations described in subsection (a).

(c) SANCTIONS.—The sanctions to be imposed on a foreign person pursuant to subsection (a) are the following, except as provided in subsection (e):

(1) PROCUREMENT SANCTION.—The United States Government shall not procure, or enter into any contract for the procurement of, any goods or services from that foreign person.

(2) IMPORT SANCTIONS.—The importation into the United States of products produced by that foreign person shall be prohibited.

(d) TERMINATION OF SANCTIONS.—A sanction imposed on a foreign person under this section shall cease to apply to that foreign person if the President determines and certifies to the Congress that there is reliable evidence that the foreign person has ceased all activities described in subsection (a).

(e) EXCEPTIONS.—The President shall not apply sanctions under subsection (c)—

(1) in the case of procurement of defense articles or defense services—

(A) under existing contracts or subcontracts, including the exercise of options for production quantities to satisfy United States operational military requirements;

(B) if the President determines that the person or other entity to which the sanctions would otherwise be applied is a sole source supplier of the defense articles or services, that the defense articles or services are essential, and that alternative sources are not readily or reasonably available; or

(C) if the President determines that such articles or services are essential to the national security under defense coproduction agreements;

(2) to products or services provided under contracts entered into before the date on which the President publishes his intention to impose the sanctions;

(3) to—

(A) spare parts,

(B) component parts, but not finished products, essential to United States products or production, or

(C) routine servicing and maintenance of products, to the extent that alternative sources are not readily or reasonably available;

(4) to information and technology; or

(5) to medical or other humanitarian items.

(f) WAIVER AND REPORT.—

(1) WAIVER.—The President may waive the imposition of any sanction imposed on a foreign person under this section if the President determines that such waiver is important to the national security interests of the United States.

(2) NOTIFICATION OF AND REPORT TO CONGRESS.—In the event that the President decides to apply the waiver described in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to apply the waiver.

(g) OTHER REPORTS TO CONGRESS.—In addition to the report under subsections (b)(3) and (f)(2), the President shall report to the Congress on all other determinations made under this section.

(h) DEFINITION.—For purposes of this section, the term "foreign person" means—

(1) an individual who is not a citizen of the United States or an alien admitted for permanent residence to the United States; or

(2) a corporation, partnership, or other entity which is created or organized under the laws of a foreign country or which has its principal place of business outside the United States.

TITLE II—MEASURES TO DETER THE USE OF CHEMICAL OR BIOLOGICAL WEAPONS

SEC. 201. PRESIDENTIAL DETERMINATION CONCERNING CERTAIN COUNTRIES.

The President shall determine whether any foreign country has, on or after the date of the enactment of this Act—

(1) used chemical or biological weapons in violation of international law;

(2) made substantial preparations to use chemical weapons in violation of international law; or

(3) developed, produced, or stockpiled biological weapons in violation of international law.

SEC. 202. SANCTIONS AGAINST USE OF CHEMICAL OR BIOLOGICAL WEAPONS IN VIOLATION OF INTERNATIONAL LAW.

(a) SANCTIONS.—If, at any time, the President determines that a country has engaged in activities described in section 201(1), the President shall forthwith impose the sanctions set forth in at least 3 of the following paragraphs:

(1) PROHIBITION ON ARMS SALES.—The United States Government shall not, under the Arms Export Control Act, sell to that country any item on the United States Munitions List, or issue any license for the export to that country of any item on the United States Munitions List.

(2) EXPORTS OF NATIONAL SECURITY-SENSITIVE GOODS AND TECHNOLOGY.—The authorities of section 6 of the Export Administration Act of 1979 shall be used to prohibit the export to that country of any goods or technology on that part of the control list established under section 5(c)(1) of that Act.

(3) FURTHER EXPORT RESTRICTIONS.—The authorities of section 6 of the Export Administration Act of 1979 shall be used to prohibit or otherwise substantially restrict exports to that country of goods and technology (excluding agricultural commodities and products).

(4) IMPORT RESTRICTIONS.—Restrictions shall be imposed on the importation into the United States of articles (which may include petroleum or any petroleum product) that are the growth, product, or manufacture of that country.

(5) FOREIGN ASSISTANCE.—No assistance shall be provided to that country under the Foreign Assistance Act of 1961 or the Arms Export Control Act other than assistance which is intended to benefit the people of that country directly and is not channeled through governmental agencies or entities of that country.

(6) MULTILATERAL DEVELOPMENT BANK ASSISTANCE.—The United States shall oppose any loan or financial or technical assistance to that country by international financial institutions in accordance with section 701 of the International Financial Institutions Act (22 U.S.C. 262d).

(7) DENIAL OF CREDIT OR OTHER FINANCIAL ASSISTANCE.—The United States shall deny to that country any credit or financial assistance by any department, agency, or instrumentality of the United States Government.

(8) DIPLOMATIC RELATIONS.—The President shall use his constitutional authorities to downgrade or suspend diplomatic relations between the United States and that country.

(b) DETERMINATION TO BE REPORTED TO CONGRESS.—Any determination under subsection (a) shall be reported promptly to the Congress.

(c) ADDITIONAL SANCTIONS IF CERTAIN CONDITIONS NOT MET.—Unless, within 3 months after making a determination under subsection (a) with respect to a country, the Presi-

dent determines and certifies in writing to the Congress—

(1) that such country is no longer conducting any activity described in section 201(1),

(2) that the government of such country has provided reliable assurances that the country will not in the future conduct any activity described in section 201(1), and

(3) that—

(A) such government is willing to allow on-site inspections by United Nations observers or other internationally recognized, impartial observers, or

(B) other reliable means exist,

to ensure that the country is not using chemical or biological weapons in violation of international law,

then the President, after consultation with the Congress, shall impose on that country at least 1 sanction set forth in paragraphs (1) through (8) of subsection (a) which has not previously been imposed on that country under subsection (a).

(d) CONDITIONS FOR LIFTING SANCTIONS.—The President may terminate any sanction imposed on a country under subsection (a) or (c) if the President determines and so certifies in writing to the Congress—

(1) that the country is no longer conducting any activity described in section 201(1); and

(2) that the conditions described in paragraphs (2) and (3) of subsection (c) have been met.

(e) WAIVER AND REPORT.—

(1) PRESIDENTIAL WAIVER.—The President may waive the imposition of any sanction imposed under subsection (a) or (c) if the President determines that such waiver is important to the national security interests of the United States.

(2) REPORT.—In the event that the President decides to apply the waiver described in paragraph (1), the President shall so notify the Congress not less than 20 days before the waiver takes effect. Such notification shall include a report fully articulating the rationale and circumstances which led the President to apply the waiver.

SEC. 203. SANCTIONS AGAINST OTHER VIOLATIONS OF INTERNATIONAL LAW WITH RESPECT TO CHEMICAL OR BIOLOGICAL WEAPONS.

(a) SANCTIONS.—If, at any time, the President determines that a country has engaged in activities described in section 201(2) or (3), the President may impose any sanction described in section 202(a).

(b) IMPOSITION OF SANCTIONS TO BE REPORTED TO CONGRESS.—The President shall report promptly to the Congress the imposition of any sanction under subsection (a).

SEC. 204. CONTRACT SANCTITY.

In imposing any sanction under this title, the President may not prohibit or curtail any transaction—

(1) in performance of any contract or agreement entered into before the date on which the President reports to the Congress the imposition of the sanction, or

(2) under a validated license or other authorization issued under the Export Administration Act of 1979 or other provision of law,

unless and until the President determines and certifies to the Congress that—

(A) a breach of the peace poses a serious and direct threat to the strategic interest of the United States,

(B) the prohibition or curtailment of such contracts, agreements, licenses, or authorizations will be instrumental in remedying the situation posing the direct threat, and

(C) the sanction will continue only so long as the direct threat persists.

TITLE III—MISCELLANEOUS PROVISIONS

SEC. 301. PRESIDENTIAL REPORTING REQUIREMENTS.

(a) REPORTS TO CONGRESS.—Not later than 90 days after the date of the enactment of this Act, and every 12 months thereafter, the President shall transmit to the Speaker of the House of Representatives and the President pro tempore of the Senate a report which shall include—

(1) a description of the actions taken to carry out this Act and the amendment made by section 102(b) of this Act;

(2) a description of the current efforts of foreign countries to acquire equipment, materials, or technology to develop, produce, or use chemical or biological weapons, together with an assessment of the current and likely future capabilities of such countries to develop, produce, or use such weapons;

(3) a description of the use of chemical weapons in violation of international law, of substantial preparations to do so, and of the development, production, stockpiling, or use of biological weapons by foreign countries; and

(4) a description of the extent to which foreign persons or governments have knowingly and substantially assisted third countries to acquire equipment, material, or technology intended to develop, produce, or use chemical or biological weapons.

(b) PROTECTION OF CLASSIFIED INFORMATION.—To the extent practicable, reports submitted under subsection (a) or any other provision of this Act should be based on unclassified information. Portions of such reports may be classified.

The SPEAKER pro tempore. Is a second demanded?

Mr. BROOMFIELD. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Florida [Mr. FASCELL] will be recognized for 20 minutes and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. FASCELL].

Mr. FASCELL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Chemical and Biological Warfare Elimination Act (H.R. 3033) imposes sanctions against countries which use chemical and biological weapons in violation of international law and against foreign firms which assist countries to obtain a chemical or biological weapons capability.

This legislation was reported favorably by the Committee on Foreign Affairs by voice vote, as amended by the Committee on November 1, 1989. The Committee on Ways and Means also reported favorably on H.R. 3033 as amended by the Committee on Foreign Affairs on November 8, 1989. The Committee on Banking, Finance and Urban Affairs does not object to being discharged from consideration of H.R. 3033.

The administration supports H.R. 3033 as reported by the Committee on Foreign Affairs.

The purpose of H.R. 3033 is threefold: First, to stop the proliferation of chemical weapons; second, to penalize countries and companies illegally using or transferring chemical weapons; and third, to establish a meaningful mandatory sanctions regime against country and company violators.

The goal of this legislation is to express the strong feeling in the House of Representatives that whenever chemical weapons are used or the capability to produce chemical weapons is passed on, we strongly disapprove and expect remedial action.

We want to make sure that "business as usual" will not take place between our country and the offending country, company, or individual. Sanctions in this bill are mandatory and swift. Of course, the legislation recognizes that it is only reasonable to allow the President some discretion to impose the sanctions. But, the clear intent of the bill is to provide the President with the authority and framework for action to stop the use and proliferation of chemical weapons.

This legislation is also complementary to the President's September U.N. initiative that will hopefully lead to a global ban on the production and use of chemical weapons. It is also compatible with Secretary of State Baker's own admonition in his October 23, 1989, San Francisco arms control speech: "States (who use chemical weapons) must know that they will pay a price for their inhumanity."

This legislation represents months of cooperative effort, negotiations, and drafting sessions between Members, minority and majority staff, and the executive branch. The outcome is a strong bill with broad bipartisan support in the Committee on Foreign Affairs and support for enactment of the bill from the administration.

The legislation is straightforward. There are three titles in the bill. First, there are provisions which focus on stopping proliferation of chemical and biological weapons including controls on U.S. exports and sanctions on foreign firms involved in proliferation. Second, there are sanctions against countries which use CBW in violation of international law, prepare to do so, or develop, produce or stockpile biological weapons. Third, the President is required to report extensively to Congress on CBW activity around the world so that the various committees of the Congress can fulfill their oversight responsibilities.

While this is one of the first attempts to draft such broad, generic sanctions, it is also important because it marks a departure by this administration from the previous administration which was unwilling to consider any sanctions legislation since it was viewed as an unnecessary infringe-

ment on executive branch prerogatives and privileges.

The Bush administration has wisely rejected that view and has chosen to work with Congress, recognizing that a joint approach to this problem will substantially increase the possibility of stopping the use and proliferation of chemical and biological weapons.

It is important to point out that the legislation clearly indicates the desirability of immediately pursuing multilateral sanctions whenever possible and also immediately contacting the Government of jurisdiction when a company or individual are involved in a violation.

This legislation sets out an effective and reasonable framework for action to halt the proliferation and use of chemical and biological weapons and I urge its adoption.

To understand the importance of this legislation, it is necessary to know its legislative history and the opinions which have shaped it during its evolution.

On September 22, 1988, the Committee on Foreign Affairs ordered reported favorably, by voice vote, H.R. 5337, the Sanctions Against Iraqi Chemical Weapons Use Act. This legislation passed on the floor of the House by a vote of 388 to 16 on September 27, 1988. Even though this legislation was not enacted into law it did demonstrate strong bipartisan congressional concern with the use of chemical weapons and specifically with the Iraqi use of chemical weapons in the Iran-Iraq War and against its Kurdish population. The committee experience in drafting this sanctions legislation and the concern regarding chemical weapons use and proliferation carried over into the 101st Congress. Members and staff began, in February 1989, on a bipartisan basis, to draft more general chemical weapons sanctions legislation. Later, working sessions on the draft legislation included representatives of the administration.

On May 4, 1989, the Subcommittee on Arms Control, International Security and Science and the Subcommittee on International Economic Policy and Trade held a joint hearing on chemical weapons proliferation and use. The subcommittees heard the testimony of Assistant Secretary H. Allen Holmes of the Department of State on "CBW Proliferation Control."

On July 27, 1989, the same two subcommittees met in a joint session to markup chemical weapons sanctions legislation which was introduced by Mr. FASCELL, Mr. BROOMFIELD, and Mr. GEJDENSON. That legislation passed unanimously in both subcommittees and became H.R. 3033, the Chemical and Biological Warfare Elimination Act and was reported favorably to the Committee on Foreign Affairs.

On November 1, 1989, the Committee on Foreign Affairs met to markup H.R. 3033, and favorably reported H.R. 3033 with an amendment by Chairman FASCELL and Mr. BROOMFIELD for consideration by the House of Representatives.

During consideration and action on the Iraqi sanctions legislation in the 100th Congress the primary concern was to stop Iraqi use of chemical weapons against its Kurdish population and to assure that chemical weapons would not be used again in the Iran-Iraq War. While the legislation focused specifically on the Iraqi case there was a recognition that the committee should also focus more broadly on the question of the utility of sanctions legislation related to the more generalized problem of chemical weapons proliferation and use.

The Iraqi sanctions legislation passed in the House on September 27, 1988, but was never enacted into law. Even though Iraqi use of chemical weapons reportedly stopped and even though the legislation was never enacted, by the beginning of the 101st Congress the committee recognized the strong interest amongst Members to benefit from the legislative exercise of the Iraqi sanctions legislation by drafting a general framework of sanctions to address the problem of chemical weapons use and proliferation. In fact, the graduated approach to sanctions in the Iraqi sanctions bill, invoking some sanctions immediately and specifying other sanctions that may be imposed later, is reflected in the current legislation, H.R. 3033.

At the beginning of the 101st Congress committee members and majority and minority staff began to work on drafting bipartisan chemical weapons sanctions legislation. Before the May 4 hearing on chemical weapons proliferation the administration expressed an openness to considering that some form of chemical weapons legislation might be helpful and a willingness to work with committee staff in a cooperative way on proposed legislation.

In the testimony at the joint subcommittees' hearing on May 4 Assistant Secretary H. Allen Holmes of the Department of State gave official expression to the administration desire to coordinate efforts with Congress on chemical weapons sanctions in order to improve, in Assistant Secretary Holmes' words, the "prospects for success in achieving President Bush's ultimate goal of a world without chemical weapons." Assistant Secretary Holmes' statement concerning the Bush administration's desire to take a joint approach with Congress to the sanctions question represented a clear departure from previous administrations which were unwilling to consider legislation which was viewed as unnecessary infringement on executive branch prerogatives. Assistant Secretary Holmes stated this new policy on sanctions:

> In working with Congress on the proposed legislation, we accept in principle that some form of sanctions, if appropriately formulated, would give the administration an additional instrument against countries that use CW, and companies that aid proliferation. It is in our interest for the President to have a broad range of instruments including appropriate sanctions available. Application of such sanctions must be subject to executive discretion, and there must be no automatic triggering or retroactive application. This approach is compatible with our other ongoing efforts to prevent CBW proliferation.

On July 27, 1989, the Subcommittee on Arms Control, International Security and Science and the Subcommittee on International Economic Policy and Trade marked up and passed unanimously the chemical weapons legislation, H.R. 3033, introduced by Mr. FASCELL, Mr. BROOMFIELD, and Mr. GEJDENSON. The specific aims of the legislation were to stop chemical weapons proliferation, to penalize countries, companies, and individuals illegally using or transferring chemical weapons and to establish a meaningful mandatory sanctions regime against country and company violators.

The purpose of the legislation was also to establish a new decisionmaking framework for the U.S. Government so that the Goverment can act quickly and effectively when confronted with use of chemical weapons or with actions that contribute to the proliferation of chemical and biological weapons. It was the intent of the committee to draft and enact legislation which would have resulted, for example, in sanctions against Iraq for using chemical weapons against its Kurdish population. The sanctions framework established by this legislation sets out a quick and effective system of sanctions for dealing with violators in order to stop the use and spread of chemical and biological weapons.

Three months of cooperative efforts followed the July 27 hearing between members, minority and majority staff, and the executive branch. Those negotiations and drafting sessions resulted in some final changes to improve the legislation. Those changes were incorporated in a substitute bill which was offered by Chairman FASCELL and Mr. BROOMFIELD as an amendment to H.R. 3033 on November 1, 1989. Upon adoption of these changes, the executive branch testified in support of the legislation and recommended enactment of H.R. 3033 as reported by the Committee on Foreign Affairs.

The Fascell-Broomfield substitute made three changes. First, the same language was adopted in the two Presidential waiver authorities standardizing them to read that the President must determine that the waiver of sanctions to be imposed on foreign persons or companies and on foreign countries is "important to the national security interests of the United States." The second change clarified

the desired sequence of events once a chemical weapons proliferation violation has taken place—a violation is determined, consultations occur, corrective measures are taken by the concerned government with primary jurisdiction, sanctions may or may not be imposed, and a report to Congress follows if sanctions are not imposed. The third revision involved a modification of section 102(b) of H.R. 3033 which amends section 6 of the Export Administration Act to require a validated license for the export of any goods or technology that would assist a "recipient country," other than "a country," in acquiring the ability to proliferate chemical or biological weapons.

The goal of the committee's legislation on CBW sanctions is to express the strong feeling that whenever chemical or biological weapons are used or the capability to produce them is passed on, Congress disapproves and presumes that sanctions will be imposed.

Mr. Speaker, I yield 4 minutes to the gentleman from Florida [Mr. GIBBONS] who is the chairman of the Subcommittee on Trade of the Committee on Ways and Means, which had this bill under consideration.

Mr. GIBBONS. Mr. Speaker, I thank the gentleman for yielding. I want to say I support this bill and hope it is successful. Its aims and objectives are very worthwhile.

I do want to say if the sanction language in it is not strong enough, I stand prepared to come back at a future date and improve the sanction language in it.

Mr. Speaker, I take this time to say that many times the Committee on Ways and Means is faced with imposing trade sanctions on legislation. I do not like to do this, but I realize in many cases it is the only reasonable sanction we can get, short of war.

In using sanctions, Mr. Speaker, I like to use them sparingly. But when I do use them, I like to use them very effectively.

If a Member's bill contains sanction language and is subject to the jurisdiction of the Ways and Means Committee, I hope he will send it over to us early and let us see how we can improve it. If we agree with it, we will give you a good bill on sanctions, one that will do that job.

As the gentleman from Florida [Mr. FASCELL] has said, unilateral sanctions in this matter are not very productive. They usually end up harming the United States more than they help the cause.

I would appreciate in the future all Members who have sanction-type bills, let us have a look at them. We are going to apply sanctions sparingly, but when we do apply them, we are going to apply them with the force to get the job done.

Mr. FASCELL. Mr. Speaker, I want to thank the gentleman from Florida [Mr. GIBBONS]. I agree with the remarks of the gentleman, and I can assure him as far as our committee is concerned, we want to cooperate in every way. If we take this step on sanctions, the sanctions ought to be effective.

Mr. Speaker, let me add my comment of appreciation to the ranking minority member of the full committee, the gentleman from Michigan [Mr. BROOMFIELD], and the majority and minority staff on both sides. We have worked for months on this bill, almost a year, and it represents a great deal of hard work. To the credit of this Administration, they have turned around their policy and agreed to work with the Congress on a matter of this importance. I am very grateful for that, because it would not have been possible in my judgment to have agreed in a bipartisan fashion with a bill as strong as this one.

Mr. Speaker, I am very pleased we are able to bring this bill out with the cooperation of the gentleman from Michigan [Mr. BROOMFIELD].

Mr. Speaker, I reserve the balance of my time.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am very pleased to join my good friend, Chairman FASCELL, in support of H.R. 3033, the Chemical and Biological Warfare Elimination Act. The proliferation of chemical and biological weapons worldwide is among the most disturbing and dangerous developments I have witnessed in recent years.

These weapons of mass destruction are becoming increasingly available to terrorist nations around the world. It is imperative that the United States have an effective, coordinated policy designed to stop this disturbing development.

This problem is truly global in nature. In the long run it can only be solved if all nations work together multilaterally in a genuinely cooperative manner. A unilateral approach cannot by itself solve this dangerous problem.

But if we are to create a truly workable global policy, then each nation must first develop a national policy of its own. This policy must be based upon a clear, consistent message that a country is firmly united in its opposition to the proliferation of chemical and biological weapons.

I believe that H.R. 3033 sends that kind of clear message. H.R. 3033 demonstrates that our country has a tough and effective policy to combat the global proliferation of chemical and biological weapons.

Through a great deal of hard work which spanned well over a year, the Committee on Foreign Affairs has been able to fashion an effective chemical and biological weapons bill. Yet, at the same time, H.R. 3033 preserves the President's duties and responsibilities in the area of foreign policy.

As a result, I am very pleased that the Administration has indicated to me its support for H.R. 3033. I know from my own personal meetings with President Bush that he feels very strongly that chemical weapons must be banned from the globe. I believe this legislation is a positive step toward that goal.

Let me conclude by thanking my friend, the chairman, for his efforts on this legislation. I do feel that we have forged a strong consensus on a very important policy issue, a consensus that spans Republicans and Democrats as well as the executive and legislative branches. This is in no small way a result of his leadership and bipartisan spirit on this bill.

I would urge my colleagues to join the President in supporting this bill.

□ 1240

Mr. Speaker, I yield such time as he may consume to the gentleman from Minnesota [Mr. FRENZEL], the ranking member on the Committee on Ways and Means.

Mr. FRENZEL. Mr. Speaker, I want to repeat statements made by every speaker in favor of this bill so far. Those statements relate to the ineffectiveness of trade sanctions that are applied unilaterally.

I would invite the attention of the membership of this House to the material in the second and third paragraphs on page 6 of the committee report, which in a little longer form restates the proposition made earlier by the gentleman from Florida [Mr. GIBBONS].

I will, however, read the last sentence. It says, "If, in the course of consultations seeking such sanctions, the President determines that the major producer countries are unwilling to impose substantially similar sanctions within a reasonable period of time, then he should give serious consideration to terminating the unilateral U.S. sanctions."

Fortunately, under this bill, which is one of the reasons the President supports it and I do too, is that the President does have a waiver and he is able under certain circumstances to avoid the mandatory nature of the declaration of the sanction. What happens, Mr. Speaker, is that we get concerned about human rights violations, invasions of sovereign territory, weapons creation or even the rights of consumers in the United States. All of them are worthy policy goals. But even though the actions in other countries vex us sorely, we cannot think of any way to make them change their policy,

and so we regularly and customarily try to use trade sanctions primarily because we do not know the people who are making or growing or providing those services that are to be restricted.

Often, if the trade sanction would be effective, those people would be willing to make some kind of sacrifice. But if we are just drawing a symbol for people in Congress who are concerned about things, that is not an effective way of dealing with the problem.

Because of the strong committee language and of the waivers within the bill, I support this bill. I hope that somebody we will be able to make it work with our trading partners and allies.

Mr. FASCELL. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Speaker, I rise in full support of this bill.

Mr. FASCELL. Mr. Speaker, I yield 4 minutes to the gentleman from Connecticut [Mr. GEJDENSON], chairman of Subcommittee on International Economic Policy and Trade of the Committee on Foreign Affairs.

Mr. GEJDENSON. Mr. Speaker, I commend Chairman FASCELL for his leadership in this bipartisan effort to develop legislation that will control the spread and usage of chemical and biological weapons.

I would also like to express my appreciation for the cooperation of the ranking minority member, BILL BROOMFIELD, and the administration in developing this legislative package. It has not always been easy, but representatives of the Departments of State and Commerce have worked diligently and in good faith to achieve this result.

Chemical and biological weapons have become the poor country's nuclear weapons. Events of the last few years have demonstrated all too graphically that these are devastating weapons. In the hands of those who lack respect for human life, they are despicable tools that will mean suffering and death for thousands of human beings.

It is therefore our responsibility to take steps that will restrict the spread of these weapons. This bill will impose sanctions on countries that use or make substantial preparations to use chemical and biological weapons in violation of international law, or develop, produce, or stockpile biological weapons in violation of international law. It also imposes sanctions on a foreign individual who knowingly and substantially contributes to a country's use, production or acquisition of chemical or biological weapons.

The bill also requires licenses for the export of goods and technology that would assist the recipient country in acquiring the capability to develop, produce, stockpile, deliver or use chemical or biological weapons.

Unilateral sanctions, as opposed to multilateral sanctions, should only be imposed sparingly. However, serious steps must be taken in response to those who provide these implements of human suffering to nations who lack either conscience or compassion.

The purpose of this legislation is to alter decisionmaking on the part of the U.S. Government when confronted with actions that contribute to the proliferation of chemical and biological weapons. For example, this bill would have resulted in sanctions against Iraq for using chemical weapons against its Kurdish population, and against Iran. Though the bill does allow the President to waive the sanctions under certain circumstances, those provisions are narrowly drawn and would not have permitted a waiver of the sanctions in that instance.

It is in the spirit of good faith cooperation with the administration that the bill allows for waivers, along with termination of the sanctions if certain conditions are met, and not imposing sanctions if adequate corrective action is taken by the government with jurisdiction.

However, if there are abuses of the system, and if violating parties are not dealt with properly, the Congress will have no choice but to revisit the issue. It is our full expectation that this will not be necessary, and that this administration and future administrations will utilize the framework established by this legislation to contain the spread of chemical and biological weapons.

Once again, I wish to extend my appreciation to Chairman FASCELL and his staff for their leadership on this issue, and to Mr. BROOMFIELD and his staff, and to the administration for their tireless participation in bipartisan cooperation.

Again, Mr. Speaker, let me commend the chairman of the Committee on Foreign Affairs, the gentleman from Florida [Mr. FASCELL] for his tremendous work, and the gentleman from Michigan [Mr. BROOMFIELD] for his work, and the people from the executive branch for their efforts.

Mr. FASCELL. Mr. Speaker, I want to express my appreciation to the gentleman who just spoke in the well [Mr. GEJDENSON]. He has been a leader in this fight. He is one of the original cosponsors of the bill. I thank him for his statement and his logic. I agree with it fully.

Indeed, this is the problem that the world faces, and there are times when we do have to make judgments on balance with respect to other political or economic considerations.

But this is one of those cases which requires decisiveness because chemical or biological warfare are heinous when used on civilian populations. It has been dubbed the poor man's atom bomb. The world needs to come together on this matter.

The United States, as a leader, must take a significant first step to use our best influence with other nations of the world to arrive at an international regime that will not only outlaw the production or the first use or any use of any kind, but also in the event that somebody is tempted and a violation occurs, that there be swift reprisal by the civilized nations of the world.

Mr. Speaker, I reserve the balance of my time.

Mr. BROOMFIELD. I yield myself such time as I may consume.

Mr. Speaker, I want to also join the chairman in paying tribute to the previous speaker and thank him for his comments, very much, and also for his contribution to working out a bipartisan agreement on this bill.

Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. GILMAN].

□ 1250

Mr. GILMAN. Mr. Speaker, I rise to express my strong support for H.R. 3033, and I commend the distinguished chairman of the Foreign Affairs Committee, Mr. FASCELL, as well as the distinguished ranking Republican member of the committee, Mr. BROOMFIELD, for their outstanding work on this measure which imposes sanctions in controlling the export of items that have been helping countries in expanding their ability to produce or deliver chemical or biological weapons.

The chemical weapons used during the Iran-Iraq war were merely the latest violation of the 1925 Geneva protocol. Since 1967, allegations of violations of this protocol have surfaced from time to time, and the civilized world has failed to respond in a consistent and unified manner. Perhaps we are embarrassed and appalled at the realization that human beings are capable of inflicting such devastating anguish on other human beings.

Last January, at a conference in Paris, many nations of the world came together and reaffirmed the 1925 Geneva protocol. That is all well and good, but the Geneva protocol did not help the victims of poison gas in Iran and Iraq. It is time to encourage multilateral action against user nations and it is time for the United States to take unilateral action, where appropriate, against nations which continue to violate international law by utilizing chemical and biological weapons.

This legislation provides a positive component to President Bush's September 29th U.N. initiative, requiring the President to take the necessary action to stop the use and proliferation of chemical and biological weapons.

Mr. Speaker, this legislation takes proactive steps to stop the prolifera-

tion of the "poor man's atomic bomb." It is a first step, in what we hope will be a global U.S.-led effort to eliminate these deadly weapons from every arsenal in the world.

Mr. BROOMFIELD. Mr. Speaker, I yield 3 minutes to the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I also rise in strong support of H.R. 3033, and I want to commend the chairman of the committee, the gentleman from Florida [Mr. FASCELL], and of course the vice chairman of the Committee on Foreign Affairs, the gentleman from Michigan [Mr. BROOMFIELD], for all of their good work on this, of course as well as the staff on both sides.

Mr. Speaker, this bill is the product of extensive meetings and hearings by the Committee on Foreign Affairs during most of 1989. The original concept for the legislation was developed following the failure of the Senate and the House to pass chemical weapons sanctions legislation in the waning days of the 100th Congress.

As has been pointed out, Mr. Speaker, the administration supports the bill, it has strong bipartisan support, and I would also like to commend the gentleman from New York [Mr. GILMAN] who has worked on this issue for a long time. As a matter of fact, the gentleman from New York [Mr. GILMAN] mentioned the Paris conference earlier this year, and he and I did have the opportunity, at least for a short time, to attend that conference.

As my colleagues know, Mr. Speaker, we have severe sanctions on those who improperly would use nuclear weapons or develop the capacity to do so, and I think it is appropriate that we have those sanctions. However I believe a very strong case can be made that there is a more likely danger from chemical weapons than there are from nuclear weapons.

Nuclear weapons have been in existence for a long time, but they have not been used for nearly 40 years. Chemical weapons, on the other hand, have been used, in Iraq, Laos, and Afghanistan.

It is entirely appropriate and strongly necessary that we pass this legislation. It does give the administration some flexibility in order to carry out the functions and the purpose of this legislation. I urge my colleagues to strongly support and vote for this legislation.

GENERAL LEAVE

Mr. FASCELL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3033, as amended.

The SPEAKER pro tempore (Mr. BRENNAN). Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I rise in support of H.R. 3033, a bill which seeks the elimination of chemical and biological warfare through export controls and sanctions against offending countries and companies.

In the aftermath of World War I, countries joined together in an effort to control the use in wartime of chemical and biological weapons. Their experiences during that war convinced them of the common need to prevent the use of such weapons ever again. The agreements reached at that time generally succeeded, and the world was largely spared the horror that is unique to usage of these weapons.

Recently, however, many countries—particularly in the developing world—are seeking and, in some cases, obtaining the capacity to produce and use chemical and biological weapons. Such weapons reportedly have been used on a number of occasions, not just in wartime, but in some cases by governments against their own people.

H.R. 3033 seeks to prevent the proliferation of chemical and biological weapons, and of the means to produce and use them. One of the measures proposed in the bill is the use of sanctions—including import restrictions—against companies and countries that are involved in the development of such weapons.

The Committee on Ways and Means unanimously approved those provisions of the bill within its jurisdiction; but the committee did express one important reservation about the bill. The committee noted that unilateral sanctions generally are ineffective and, in fact, may place an unduly heavy burden on the exporters and importers of the country imposing such sanctions. Therefore, the committee urged the President, if he imposes sanctions under authority of this bill, to seek broadly similar sanctions by our trading partners. Such an effort not only will improve the effectiveness of any sanctions imposed, it also will allow the United States to share the burden of enforcement with other countries which are equally committed to eliminating the scourge of chemical and biological weapons.

Mr. Speaker, I urge my colleagues to support H.R. 3033.

Mr. BROOMFIELD. Mr. Speaker, I yield back the balance of my time.

Mr. FASCELL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. FASCELL] that the House suspend the rules and pass the bill, H.R. 3033, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

INTERNATIONAL NARCOTICS CONTROL ACT OF 1989

Mr. SMITH of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3611) to combat international narcotics production and trafficking, as amended.

The Clerk read as follows:

H.R. 3611

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "International Narcotics Control Act of 1989".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title and table of contents.
Sec. 2. Economic assistance for major coca producing countries.
Sec. 3. Military and law enforcement assistance for Bolivia, Colombia, and Peru.
Sec. 4. Anti-narcotics military assistance and training for other countries.
Sec. 5. Acquisition by Special Defense Acquisition Fund of defense articles for narcotics control purposes.
Sec. 6. Excess defense articles for certain major illicit drug producing countries.
Sec. 7. Waiver of Brooke-Alexander amendment for major coca producing countries.
Sec. 8. Procurement of weapons to defend aircraft involved in narcotics control efforts.
Sec. 9. Herbicides for aerial coca eradication.
Sec. 10. Assistance for Mexico.
Sec. 11. Nonapplicability of certification procedures to certain major drug-transit countries.
Sec. 12. Coordination of United States trade policy and narcotics control objectives.
Sec. 13. Debt burden of drug producing countries of Latin America.
Sec. 14. Multilateral anti-narcotics strike force.
Sec. 15. Weapons transfers to international narcotics traffickers.
Sec. 16. Rewards for information concerning acts of international terrorism.
Sec. 17. Revision and consolidation of permanent international narcotics control provisions.

SEC. 2. ECONOMIC ASSISTANCE FOR MAJOR COCA PRODUCING COUNTRIES.

(a) NEED FOR ASSISTANCE.—It is the sense of the Congress that—

(1) it is crucial to international antidrug efforts that funds be made available for crop substitution programs and alternative employment opportunities to provide alternative sources of income for those individuals in major coca producing countries who are dependent on illicit drug production activities, as well as for eradication, enforcement, rehabilitation and treatment, and education programs in those countries; and

(2) the United States and other major donor countries (including European countries and Japan) should provide increased economic assistance, on an urgent basis, to those major coca producing countries which have taken concrete steps to attack illicit coca production, processing, and trafficking, by eradication, interdiction, or other methods which significantly reduce the flow of cocaine to the world market.

(b) PLAN.—The Congress, therefore, urges the Director of National Drug Control Policy to develop a plan which addresses the needs outlined in subsection (a). This plan

should be submitted to the Congress in February 1990 as part of the National Drug Control Strategy report required by section 1005 of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1504).

SEC. 3. MILITARY AND LAW ENFORCEMENT ASSISTANCE FOR BOLIVIA, COLOMBIA, AND PERU.

(a) PURPOSES OF ASSISTANCE.—Assistance provided under this section shall be designed to—

(1) enhance the ability of the Government of Bolivia, the Government of Colombia, and the Government of Peru to control illicit narcotics production and trafficking;

(2) strengthen the bilateral ties of the United States with those governments by offering concrete assistance in this area of great mutual concern; and

(3) strengthen respect for internationally recognized human rights and the rule of law in efforts to control illicit narcotics production and trafficking.

(b) MILITARY ASSISTANCE AND TRAINING.—Subject to the requirements of this section, the President is authorized to use the funds made available to carry out this section to provide defense articles, defense services, and international military education and training to Bolivia, Colombia, and Peru. Such assistance shall be provided under the authorities of section 23 of the Arms Export Control Act (22 U.S.C 2763; relating to the foreign military financing program) and chapter 5 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2347 and following; relating to international military education and training). Such assistance is in addition to any other such assistance made available to those countries.

(c) LAW ENFORCEMENT TRAINING.—Not to exceed $6,500,000 of the funds made available to carry out this section may be used—

(1) notwithstanding section 660 of the Foreign Assistance Act of 1961 (22 U.S.C. 2420; relating to the prohibition on law enforcement assistance), to provide to law enforcement agencies, or other units, that are organized for the specific purpose of narcotics enforcement by the Government of Bolivia, the Government of Colombia, or the Government of Peru, education and training in the operation and maintenance of equipment used in narcotics control interdiction and eradication efforts; and

(2) for the expenses of deploying, upon the request of the Government of Bolivia, the Government of Colombia, or the Government of Peru, Department of Defense mobile training teams in that country to conduct training in military-related individual and collective skills that will enhance that country's ability to conduct tactical operations in narcotics interdiction.

(d) EQUIPMENT FOR LAW ENFORCEMENT UNITS.—Not to exceed $12,500,000 of the funds made available to carry out this section may be used, notwithstanding section 660 of the Foreign Assistance Act of 1961 (22 U.S.C. 2420; relating to the prohibition on law enforcement assistance), for the procurement of defense articles for use in narcotics control, eradication, and interdiction efforts by law enforcement agencies, or other units, that are organized for the specific purpose of narcotics enforcement.

(e) CONDITIONS OF ELIGIBILITY.—Assistance may be provided under this section to Bolivia, Colombia, or Peru only—

(1) so long as that country has a democratic government; and

(2) the law enforcement agencies of that country do not engage in a consistent pattern of gross violations of internationally recognized human rights (as defined in section 502B(d)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2304(d)(1)).

(f) NOTIFICATIONS TO CONGRESS.—Not less than 15 days before funds are obligated pursuant to this section, the President shall transmit to the congressional committees specified in section 634A of the Foreign Assistance Act of 1961 (22 U.S.C. 2394-1) a written notification in accordance with the procedures applicable to reprogrammings under that section. Such notification shall specify—

(1) the country to which the assistance is to be provided;

(2) the type and value of the assistance to be provided;

(3) the law enforcement agencies or other units that will receive the assistance; and

(4) an explanation of how the proposed assistance will achieve the purposes specified in subsection (a) of this section.

(g) REPORTS ON HUMAN RIGHTS SITUATION.—Section 502B(c) of the Foreign Assistance Act of 1961 (22 U.S.C. 2304(c); relating to country-specific human rights reports upon the request of the foreign affairs committees) applies with respect to countries for which assistance authorized by this section is proposed or is being provided.

(h) COORDINATION WITH INTERNATIONAL NARCOTICS CONTROL ASSISTANCE PROGRAM.—Assistance under this section shall be coordinated with assistance provided under chapter 8 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2291 and following; relating to international narcotics control assistance).

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $125,000,000 for fiscal year 1990 to carry out this section, which amount is authorized to be made available until expended.

SEC. 4. ANTI-NARCOTICS MILITARY ASSISTANCE AND TRAINING FOR OTHER COUNTRIES.

(a) TRAINING.—Section 4204(a) of the International Narcotics Control Act of 1988 (section 4204(a) of title IV of Public Law 100-690) is amended by striking out "$2,000,000 of the funds made available for fiscal year 1989" and inserting in lieu thereof "$1,000,000 of the funds made available for fiscal year 1990".

(b) MILITARY ASSISTANCE.—

(1) EXTENSION OF AUTHORITY.—Section 4205(b) of that Act is amended by inserting "and section 23 of the Arms Export Control Act (relating to the foreign military financing program)" after "program)"; and

(2) FUNDS FOR LATIN AMERICA AND THE CARIBBEAN.—Section 4205(g) of that Act is amended—

(A) by striking out "for fiscal year 1989"; and

(B) by striking out ", $3,500,000" and inserting in lieu thereof "and section 23 of the Arms Export Control Act, $2,000,000 for fiscal year 1990".

(c) BOLIVIA, COLOMBIA, AND PERU.—Assistance may not be provided for Bolivia, Colombia, or Peru for fiscal year 1990 under sections 4204 and 4205 of the International Narcotics Control Act of 1988.

SEC. 5. ACQUISITION BY SPECIAL DEFENSE ACQUISITION FUND OF DEFENSE ARTICLES FOR NARCOTICS CONTROL PURPOSES.

Section 51(a) of the Arms Export Control Act (22 U.S.C. 2795(a)) is amended by adding at the end the following new paragraph:

"(4)(A) The Fund shall be used to acquire defense articles that are particularly suited for use for narcotics control purposes and are appropriate to the needs of recipient countries, such as small boats, planes (including helicopters), and communications equipment.

"(B) Each report pursuant to section 53(a) shall designate the defense articles that have been acquired or are to be acquired pursuant to this paragraph and the defense articles acquired under this chapter that were transferred for use in narcotics control purposes.".

SEC. 6. EXCESS DEFENSE ARTICLES FOR CERTAIN MAJOR ILLICIT DRUG PRODUCING COUNTRIES.

Chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 and following) is amended by adding at the end the following:

"SEC. 517. MODERNIZATION OF MILITARY CAPABILITIES OF CERTAIN MAJOR ILLICIT DRUG PRODUCING COUNTRIES.

"(a) AUTHORITY TO TRANSFER EXCESS DEFENSE ARTICLES.—Subject to the limitations in this section, the President may transfer to a country—

"(1) which is a major illicit drug producing country (as defined in section 489(2)) in Latin America and the Caribbean,

"(2) which has a democratic government, and

"(3) whose armed forces do not engage in a consistent pattern of gross violations of internationally recognized human rights (as defined in section 502B(d)(1)),

such excess defense articles as may be necessary to carry out subsection (b).

"(b) PURPOSE.—Excess defense articles may be transferred under subsection (a) only for the purpose of encouraging the military forces of an eligible country in Latin America and the Caribbean to participate with local law enforcement agencies in a comprehensive national anti-narcotics program, conceived and developed by the government of that country, by conducting activities within that country and on the high seas to prevent the production, processing, trafficking, transportation, and consumption of illicit narcotic or psychotropic drugs or other controlled substances (as defined in section 489(4)).

"(c) USES OF EXCESS DEFENSE ARTICLES.—Excess defense articles may be furnished to a country under subsection (a) only if that country ensures that those excess defense articles will be used only in support of anti-narcotics activities.

"(d) ROLE OF THE SECRETARY OF STATE.—The Secretary of State shall determine the eligibility of countries to receive excess defense articles under subsection (a). In accordance with section 482, the Secretary shall ensure that the transfer of excess defense articles under subsection (a) is coordinated with other anti-narcotics enforcement programs assisted by the United States Government.

"(e) DOLLAR LIMITATION.—The aggregate value of excess defense articles transferred to a country under subsection (a) in any fiscal year may not exceed $10,000,000.

"(f) CONDITIONS ON TRANSFERS.—The President may transfer excess defense articles under this section only if—

"(1) they are drawn from existing stocks of the Department of Defense;

"(2) funds available to the Department of Defense for the procurement of defense equipment are not expended in connection with the transfer; and

"(3) the President determines that the transfer of the excess defense articles will

not have an adverse impact on the military readiness of the United States.

"(g) TERMS OF TRANSFERS.—Excess defense articles may be transferred under this section without cost to the recipient country.

"(h) WAIVER OF REQUIREMENT FOR REIMBURSEMENT OF DOD EXPENSES.—Section 632(d) does not apply with respect to transfers of excess defense articles under this section.

"(i) NOTIFICATION TO CONGRESS.—

"(1) ADVANCE NOTICE.—The President may not transfer excess defense articles under this section until 30 days after the President has provided notice of the proposed transfer to the committees specified in paragraph (2). This notification shall include—

"(A) a certification of the need for the transfer;

"(B) an assessment of the impact of the transfer on the military readiness of the United States; and

"(C) a statement of the value of the excess defense articles to be transferred.

"(2) COMMITTEES TO BE NOTIFIED.—Notice shall be provided pursuant to paragraph (1) to the Committee on Armed Services, the Committee on Foreign Affairs, and the Committee on Appropriations of the House of Representatives and the Committee on Armed Services, the Committee on Foreign Relations, and the Committee on Appropriations of the Senate.".

SEC. 7. WAIVER OF BROOKE-ALEXANDER AMENDMENT FOR MAJOR COCA PRODUCING COUNTRIES.

During fiscal year 1990, section 620(q) of the Foreign Assistance Act of 1961 (22 U.S.C. 2370(q)) and section 518 of the Foreign Operations, Export Financing, and Related Programs Appropriation Act, 1990, do not apply with respect to narcotics-related assistance for a country which is a major illicit drug producing country (as defined in section 489(2) of the Foreign Assistance Act of 1961) because of its coca production.

SEC. 8. PROCUREMENT OF WEAPONS TO DEFEND AIRCRAFT INVOLVED IN NARCOTICS CONTROL EFFORTS.

(a) EARMARKING OF FUNDS.—Of the funds available to carry out chapter 2 of part II of the Foreign Assistance Act of 1961 (22 U.S.C. 2311 and following; relating to the grant military assistance program) and section 23 of the Arms Export Control Act (22 U.S.C. 2763; relating to foreign military sales financing), $1,000,000 for fiscal year 1990 shall be made available to arm, for defensive purposes, aircraft used in narcotics control eradication or interdiction efforts. These funds may not be used for the purchase of new aircraft.

(b) NOTIFICATION TO CONGRESS.—The Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate shall be notified of the use of funds under subsection (a) at least 15 days in advance in accordance with the procedures applicable to reprogramming under section 634A of the Foreign Assistance Act of 1961 (22 U.S.C. 2394-1).

SEC. 9. HERBICIDES FOR AERIAL COCA ERADICATION.

The Secretary of State shall use not less than $500,000 of the funds made available for fiscal year 1990 to carry out chapter 8 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2291 and following; relating to international narcotics control assistance) to finance the testing and use of safe and effective herbicides for use in the aerial eradication of coca.

SEC. 10. ASSISTANCE FOR MEXICO.

(a) LIMITATION ON ASSISTANCE.—Except as provided in subsection (b), not more than $15,000,000 of the amounts made available for fiscal year 1990 to carry out chapter 8 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2291 and following; relating to international narcotics control assistance) may be made available for Mexico.

(b) PROCEDURE FOR ADDITIONAL ASSISTANCE.—Assistance in excess of the amount specified in subsection (a) may be made available for Mexico only if the congressional committees specified in section 634A of the Foreign Assistance Act of 1961 (22 U.S.C. 2394-1) are notified at least 15 days in advance in accordance with the procedures applicable to reprogrammings under that section.

SEC. 11. NONAPPLICABILITY OF CERTIFICATION PROCEDURES TO CERTAIN MAJOR DRUG-TRANSIT COUNTRIES.

Section 487 of the Foreign Assistance Act of 1961 shall not apply with respect to a major drug-transit country for fiscal year 1990 if the President certifies to the Congress, during that fiscal year, that—

(1) subparagraph (C) of section 489(3) of that Act, relating to money laundering, does not apply to that country;

(2) the country previously was a major illicit drug producing country but, during each of the preceding two years, has effectively eliminated illicit drug production; and

(3) the country is cooperating fully with the United States or has taken adequate steps on its own—

(A) in satisfying the goals agreed to in an applicable bilateral narcotics agreement with the United States (as described in section 487(b)(2) of that Act) or a multilateral agreement which achieves the objectives of that section;

(B) in preventing narcotic and psychotropic drugs and other controlled substances transported through such country from being sold illegally within the jurisdiction of such country to United States Government personnel or their dependents or from being transported, directly or indirectly, into the United States; and

(C) in preventing and punishing bribery and other forms of public corruption which facilitate the production, processing, or shipment of narcotic and psychotropic drugs and other controlled substances, or which discourage the investigation and prosecution of such acts.

SEC. 12. COORDINATION OF UNITED STATES TRADE POLICY AND NARCOTICS CONTROL OBJECTIVES.

(a) NEED FOR COORDINATION.—It is the sense of the Congress that United States trade policy should be coordinated with United States narcotics control objectives, particularly with respect to issues such as the International Coffee Agreement.

(b) PRESIDENTIAL REVIEW.—The Congress commends the President for reviewing—

(1) whether the International Coffee Agreement negotiations should be resumed, and

(2) whether the trade benefits provided in the Caribbean Basin Economic Recovery Act (19 U.S.C. 2701 and following) should be extended to the major coca producing countries of Latin America.

SEC. 13. DEBT BURDEN OF DRUG PRODUCING COUNTRIES OF LATIN AMERICA.

The Congress finds that—

(1) narcotics production and trafficking are inextricably linked to the severe debt crisis in Latin America;

(2) narcotics control, both within the United States and abroad, is essential to reduce the production, trafficking, and consumption of narcotics;

(3) the economic problems of Latin American countries are extremely severe, and recovery remains blocked by a massive debt burden;

(4) the narcotics and economic problems of Latin American countries are becoming worse and are tearing at the political, economic, and social fabric of those countries;

(5) the economies of Latin America, saddled with significant debt, are hampered in their anti-drug efforts;

(6) the continued economic crisis in Latin American countries will lead to further proliferation of drug production and drug trafficking as more economies of those countries become dependent on drug-related income;

(7) narcotics production and trafficking, and economies threatened by economic stagnation, are a danger to democracy, political stability, and economic growth in Latin American countries;

(8) Latin American countries are experiencing a dramatic increase in domestic drug abuse, drug-related violence, and drug production, processing, and trafficking;

(9) it is in the national interest of the United States to work with Latin American countries to solve both the drug and debt problems;

(10) continued debt-related problems in Latin American countries contribute to increasing migration pressures on the United States; and

(11) the economic problems of Latin American countries has resulted in significant reduction of exports, as well as a major loss of jobs in the United States.

(1) ILLICIT DRUG ISSUES.—Formulation of a regional strategy to combat organizations in the Western Hemisphere that produce, process, and traffic in illicit drugs. Elements of the strategy would include intelligence sharing, asset seizure, the use of military units, and the development of alternative employment or crop substitution for coca growers.

(2) DEBT ISSUES.—All options and remedies for debt reduction, including the possible use of partial forgiveness of Latin American debt, with third party guarantees for the remaining debt, and the manner in which countries outside the Western Hemisphere, multilateral development banks, and other international financial institutions could participate in efforts to reduce the debt burden and assist in the economic development of Latin America.

SEC. 14. MULTILATERAL ANTI-NARCOTICS STRIKE FORCE.

(a) FINDINGS.—The Congress finds that—

(1) the Congress has, in the past, indicated its support for a multilateral, regional approach to narcotics control efforts;

(2) a proposal to create a multilateral, international anti-narcotics force for the Western Hemisphere, is a plan worthy of praise and strong United States support;

(3) the development of a greater capability to assist the governments of Latin America and the Caribbean, including the Caribbean Basin nations, is an essential component of efforts to interdict the flow of narcotics to the United States; and

(4) regional leadership in the promotion of a multilateral, paramilitary force to combat the drug cartels is welcomed and encouraged.

(b) SENSE OF CONGRESS.—It is therefore the sense of the Congress that—

(1) the proposal for the promotion of a regional multilateral anti-narcotics force for the Western Hemisphere should be endorsed; and

(2) the United States should work through the United Nations, the Organization of American States, and other multilateral organizations to determine the feasibility of such a force and should assist in the establishment of this force if it is found to be feasible.

SEC. 15. WEAPONS TRANSFERS TO INTERNATIONAL NARCOTICS TRAFFICKERS.

(a) HALTING WEAPONS TRANSFERS TO NARCOTICS TRAFFICKERS.—The Congress urges the President to seek agreement by the relevant foreign countries, especially the member countries of the North Atlantic Treaty Organization and the member countries of the Warsaw Pact, to join with the United States in taking the necessary steps to halt transfers of weapons to narcotics traffickers in Latin America.

(b) COORDINATION OF UNITED STATES EFFORTS TO TRACK ILLEGAL ARMS TRANSFERS.—The Congress urges the President to improve the coordination of United States Government efforts—

(1) to track the flow of weapons illegally from the United States and other countries to international narcotics traffickers, and

(2) to prevent such illegal shipments from the United States.

(c) INTERPOL.—The Congress calls upon the President to direct the United States representative to INTERPOL to urge that organization to study the feasibility of creating an international database on the flow of those types of weapons that are being acquired illegally by international narcotics traffickers.

(d) REPORT TO CONGRESS.—Not later than 6 months after the date of enactment of this Act, the President shall report to the Congress on the steps taken in accordance with this section.

SEC. 16. REWARDS FOR INFORMATION CONCERNING ACTS OF INTERNATIONAL TERRORISM.

Section 36(c) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2708(c)) is amended by striking out "$500,000" and inserting in lieu thereof "$2,000,000".

SEC. 17. REVISION AND CONSOLIDATION OF PERMANENT INTERNATIONAL NARCOTICS CONTROL PROVISIONS.

(a) AMENDMENT TO FOREIGN ASSISTANCE ACT.—Chapter 8 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2291 and following) is amended to read as follows:

"CHAPTER 8—INTERNATIONAL NARCOTICS CONTROL

"SEC. 481. FINDINGS AND STATEMENTS OF POLICY.

"(a) FINDINGS.—The Congress finds that—

"(1) under the Single Convention on Narcotic Drugs, 1961, each signatory country has the responsibility of limiting to licit purposes the cultivation, production, manufacture, sale, and other distribution of scheduled drugs;

"(2) suppression of international narcotics trafficking is among the most important foreign policy objectives of the United States;

"(3) the international community should provide assistance, where appropriate, to those producer and transit countries which require assistance in discharging these primary obligations;

"(4) international narcotics control programs should include, as a priority, the progressive elimination of the illicit cultivation of the crops from which narcotic and psychotropic drugs are derived, and should also include the suppression of the illicit manufacture of and traffic in narcotic and psychotropic drugs; and

"(5) effective international cooperation is necessary to control the illicit cultivation, production, and smuggling of, trafficking in, and abuse of narcotic and psychotropic drugs.

"(b) MULTILATERAL DEVELOPMENT BANKS.—In order to promote international cooperation in combating international trafficking in illicit narcotics, it shall be the policy of the United States to use its voice and vote in multilateral development banks to promote the development and implementation in the major illicit drug producing countries of programs for the reduction and eventual eradication of narcotic drugs and other controlled substances, including appropriate assistance in conjunction with effective programs of illicit crop eradication.

"SEC. 482. COORDINATION OF ALL UNITED STATES ANTI-NARCOTICS ASSISTANCE TO FOREIGN COUNTRIES.

"(a) RESPONSIBILITY OF SECRETARY OF STATE.—Consistent with subtitle A of title I of the Anti-Drug Abuse Act of 1988 (relating to coordination of national drug policy), the Secretary of State shall be responsible for coordinating all assistance provided by the United States Government to support international efforts to combat illicit narcotics production or trafficking.

"(b) RULE OF CONSTRUCTION.—Nothing contained in this section or section 486(c) shall be construed to limit or impair the authority or responsibility of any other Federal agency with respect to law enforcement, domestic security operations, or intelligence activities as defined in Executive Order 12333.

"SEC. 483. INTERNATIONAL NARCOTICS CONTROL ASSISTANCE.

"(a) AUTHORITY TO ENTER INTO AGREEMENTS.—In order to promote effective international cooperation, the President is authorized to enter into agreements with other countries to facilitate control of the production, processing, transportation, and distribution of narcotics analgesics, including opium and its derivatives, other narcotic and psychotropic drugs, and other controlled substances.

"(b) AUTHORITY TO FURNISH ASSISTANCE.—Notwithstanding any other provision of law, the President is authorized to furnish assistance to any country or international organization for the control of narcotic and psychotropic drugs and other controlled substances. Such assistance may be provided on such terms and conditions as the President may determine, consistent with other provisions of law.

"(c) AUTHORIZATIONS OF APPROPRIATIONS.—To carry out this section, there are authorized to be appropriated to the President $115,000,000 for fiscal year 1990. Amounts appropriated to carry out this section are authorized to be made available by appropriations Acts until expended.

"(d) CONTRIBUTION BY RECIPIENT COUNTRY.—To ensure local commitment to the activities assisted under this section, a country receiving assistance under this section should bear an appropriate share of the costs of any narcotics control program, project, or activity for which such assistance is to be provided. A country may bear such costs on an 'in kind' basis.

"(e) USE OF HERBICIDES FOR AERIAL ERADICATION.—

"(1) MONITORING.—The President, with the assistance of appropriate Federal agencies, shall monitor any use under this chapter of a herbicide for aerial eradication in order to determine the impact of such use on the environment and on the health of individuals.

"(2) ANNUAL REPORTS.—The President shall report on such impact in the annual report required by section 486(a).

"(3) REPORT UPON DETERMINATION OF HARM TO ENVIRONMENT OR HEALTH.—If the President determines that any such use is harmful to the environment or the health of individuals, the President shall immediately report that determination to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, together with such recommendations as the President deems appropriate.

"(f) PROHIBITION ON PROCUREMENT OF WEAPONS AND AMMUNITION.—Funds made available to carry out this chapter shall not be made available for the procurement of weapons or ammunition under this chapter.

"(g) PERMISSIBLE USES OF AIRCRAFT AND OTHER EQUIPMENT.—

"(1) IN GENERAL.—The President shall take all reasonable steps to ensure that aircraft and other equipment made available to foreign countries under this chapter are used only in ways that are consistent with the purposes for which such equipment was made available.

"(2) REPORTS.—In the reports submitted pursuant to section 486(a), the President shall discuss—

"(A) any evidence indicating misuse by a foreign country of aircraft or other equipment made available under this chapter, and

"(B) the actions taken by the United States Government to prevent future misuse of such equipment by that foreign country.

"(3) REGULATIONS.—The President shall issue regulations specifying the steps to be taken in carrying out paragraph (1).

"(4) CONGRESSIONAL REVIEW OF REGULATIONS.—Regulations issued pursuant to paragraph (3) shall be submitted to the Congress before they take effect.

"(h) RETENTION OF TITLE TO AIRCRAFT.—Any aircraft which, at any time after October 27, 1986 (which was the date of enactment of the International Narcotics Control Act of 1986), are made available to a foreign country under this chapter, or are made available to a foreign country primarily for narcotics-related purposes under any other provision of law, shall be provided only on a lease or loan basis.

"(i) RECORDS OF AIRCRAFT USE.—

"(1) REQUIREMENT TO MAINTAIN RECORDS.—The Secretary of State shall maintain detailed records on the use of any aircraft made available to a foreign country under this chapter, including aircraft made available before the enactment of this subsection.

"(2) CONGRESSIONAL ACCESS TO RECORDS.—The Secretary of State shall make the records maintained pursuant to paragraph (1) available to the Congress upon a request of the Chairman of the Committee on Foreign Affairs of the House of Representatives or the Chairman of the Committee on Foreign Relations of the Senate.

"(j) PROHIBITION ON USE OF NARCOTICS CONTROL ASSISTANCE TO ACQUIRE REAL PROPERTY.—Funds made available to carry out this chapter may not be used to acquire (by purchase, lease, or other means) any real property for use by foreign military, paramilitary, or law enforcement forces.

"SEC. 484. FOREIGN ASSISTANCE GENERALLY AND NARCOTICS CONTROL.

"(a) PROHIBITION ON USE OF FOREIGN ASSISTANCE FOR REIMBURSEMENTS FOR DRUG CROP ERADICATIONS.—Funds made available to carry out this Act may not be used to reimburse persons whose illicit drug crops are eradicated.

"(b) PROHIBITION ON ASSISTANCE TO DRUG TRAFFICKERS.—

"(1) PROHIBITION.—The President shall take all reasonable steps to ensure that assistance under this Act is not provided to or through any individual or entity that the President knows or has reason to believe—

"(A) has been convicted of a violation of, or a conspiracy to violate, any law or regulation of the United States, a State, the District of Columbia, a commonwealth or territory of the United States, or a foreign country relating narcotic or psychotropic drugs or other controlled substances; or

"(B) is or has been an illicit trafficker in any such controlled substance or is or has been a knowing assistor, abettor, conspirator, or colluder with others in the illicit trafficking in any such substance.

"(2) REGULATIONS.—The President shall issue regulations specifying the steps to be taken in carrying out this subsection.

"(3) CONGRESSIONAL REVIEW OF REGULATIONS.—Regulations issued pursuant to paragraph (2) shall be submitted to the Congress before they take effect.

"(c) ASSISTANCE FOR CROP SUBSTITUTION ACTIVITIES.—

"(1) EXEMPTION FROM CERTAIN RESTRICTIONS.—The provisions described in paragraph (2) do not apply with respect to assistance for crop substitution activities undertaken in furtherance of narcotics control objectives.

"(2) PROVISIONS MADE INAPPLICABLE.—The provisions made inapplicable by paragraph (1) are any provisions of the annual Foreign Operations, Export Financing, and Related Programs Appropriations Act that prohibit the use of funds made available to carry out part I of this Act for activities in connection with the growth or production in a foreign country of an agricultural commodity for export which would compete with a similar commodity grown or produced in the United States.

"SEC. 485. DEBT FORGIVENESS FOR MAJOR COCA PRODUCING COUNTRIES PARTICIPATING IN AERIAL ERADICATION PROGRAMS.

"(a) AUTHORITY.—The President may release Bolivia, Colombia, or Peru from its obligation to make payments to the United States Government, during a fiscal year, of principal and interest on account of a loan made to that country under this Act or assistance extended for that country under section 23 of the Arms Export Control Act if the President determines that that country has agreed to, and is participating in, a program for the use during that fiscal year of a safe, effective herbicide for the aerial eradication of coca in that country.

"(b) EFFECTIVE DATE.—Subsection (a) takes effect on October 1, 1990.

"SEC. 486. REPORTS.

"(a) INTERNATIONAL NARCOTICS CONTROL STRATEGY REPORT.—

"(1) REQUIREMENT FOR REPORT.—Not later than March 1 of each year, the President shall transmit to the Speaker of the House of Representatives, and to the Committee on Foreign Relations of the Senate, a report on United States policy to establish and encourage an international strategy to prevent the illicit cultivation and manufacture of and traffic in narcotic and psychotropic drugs and other controlled substances.

"(2) CONTENTS.—Each report pursuant to this subsection shall include the following:

"(A) A description of the policies adopted, agreements concluded, and programs implemented by the Department of State in pursuit of its delegated responsibilities for international narcotics control, including policy development, bilateral and multilateral funding and other support for international narcotics control projects, representations of the United States Government to international organizations and agencies concerned with narcotics control, training of foreign enforcement personnel, coordination of the international narcotics control activities of United States Government agencies, and technical assistance to international demand reduction programs.

"(B) A description of the activities of the United States in international financial institutions to combat the entry of illicit narcotic and psychotropic drugs and other controlled substances into the United States for the fiscal year just ended, for the current fiscal year, and for the next fiscal year.

"(C) The identity of those countries which are the significant direct or indirect sources of illicit narcotic and psychotropic drugs and other controlled substances significantly affecting the United States. For each such country, each report shall include the following:

"(i) A detailed status report, with such information as can be reliably obtained, on the illicit narcotic or psychotropic drugs or other controlled substances which are being cultivated, produced, or processed in or transported through such country, noting significant changes in conditions, such as increases or decreases in the illicit cultivation and manufacture of and traffic in such drugs and substances.

"(ii) A description of the assistance under this chapter and the other kinds of United States assistance which such country received in the preceding fiscal year, which are planned for such country for the current fiscal year, and which are proposed for such country for the next fiscal year, with an analysis of the impact that the furnishing of each such kind of assistance has had or is expected to have on the illicit cultivation and manufacture of and traffic in narcotic and psychotropic drugs and other controlled substances in such country.

"(iii) A description of the plans, programs, and timetables adopted by such country for the progressive elimination of the illicit cultivation of narcotic and psychotropic drugs and other controlled substances, and a discussion of the adequacy of the legal and law enforcement measures taken and the accomplishments achieved in accord with these plans.

"(iv) A discussion of the extent to which such country has cooperated with the United States narcotics control efforts through the extradition or prosecution of drug traffickers, and, where appropriate, a description of the status of negotiations with such country to negotiate a new or updated extradition treaty relating to narcotics offenses.

"(D) For each major illicit drug producing country for which the President is proposing to furnish United States assistance for the next fiscal year, a determination by the President of the maximum reductions in illicit drug production which are achievable during the next fiscal year. Each such determination shall be expressed in numerical terms, such as the number of acres of illicitly cultivated controlled substances which can be eradicated.

"(E) For each major illicit drug producing country which received United States assistance for the preceding fiscal year, the actual reductions in illicit drug production achieved by that country during such fiscal year.

"(F) Specific comments and recommendations by appropriate Federal agencies involved in drug enforcement, including the United States Customs Service and the Drug Enforcement Administration, with respect to the degree to which countries listed in the report have, during the preceding year, cooperated fully with such agencies (as described in section 487(b)).

"(G) A description of the United States assistance for the preceding fiscal year which was denied, pursuant to section 487, to each major illicit drug producing country and each major drug-transit country.

"(b) MIDYEAR REPORT.—Not later than September 1 of each year, the President shall transmit to the Speaker of the House of Representatives, and to the Committee on Foreign Relations of the Senate, a complete and detailed midyear report on the activities and operations carried out under this chapter prior to such date. Such midyear report shall include the status of each agreement concluded prior to such date with other countries to carry out this chapter.

"(c) ANNUAL REPORTS ON ASSISTANCE.—

"(1) IN GENERAL.—At the time that the report required by subsection (a) is submitted each year, the Secretary of State, in consultation with appropriate United States Government agencies, shall report to the appropriate committees of the Congress on the assistance provided by the United States Government during the preceding fiscal year to support international efforts to combat illicit narcotics production or trafficking.

"(2) INFORMATION TO BE INCLUDED.—Each report pursuant to this subsection shall—

"(A) specify the amount and nature of the assistance provided;

"(B) include, for each country which is a significant direct or indirect source of illicit narcotic and psychotropic drugs and other controlled substances significantly affecting the United States, a section prepared by the Drug Enforcement Administration, a section prepared by the Customs Service, and a section prepared by the Coast Guard, which describes in detail—

"(i) the assistance provided or to be provided (as the case may be) to such country by that agency, and

"(ii) the assistance provided or to be provided (as the case may be) to that agency by such country,

with respect to narcotic control efforts during the preceding fiscal year, the current fiscal year, and the next fiscal year; and

"(C) list all transfers, which were made by the United States Government during the preceding fiscal year, to a foreign country for narcotics control purposes of any property seized by or otherwise forfeited to the United States Government in connection with narcotics-related activity, including an estimate of the fair market value and physical condition of each item of property transferred.

"(3) REPORTS MAY BE CLASSIFIED.—The reports required by this subsection may be provided on a classified basis to the extent necessary.

"(d) DETERMINING MAJOR DRUG-TRANSIT AND MAJOR ILLICIT DRUG PRODUCING COUNTRIES.—

"(1) ESTABLISHMENT OF GUIDELINES.—For each calendar year, the Secretary of State, after consultation with the appropriate committees of the Congress, shall establish numerical standards and other guidelines for determining which countries will be considered to be major drug-transit countries under section 489(3)(A) and (B).

"(2) NOTICE TO CONGRESS OF PRELIMINARY STANDARDS.—Not later than September 1 of each year, the Secretary of State shall make a preliminary determination of the numerical standards and other guidelines to be used pursuant to paragraph (1) with respect to that year and shall notify the appropriate committees of the Congress of those standards and guidelines.

"(3) NOTICE TO CONGRESS OF PRELIMINARY DETERMINATIONS.—Not later than October 1 of each year, the Secretary of State shall notify the appropriate committees of the Congress of—

"(A) which countries have been determined to be major drug-transit countries for that year under the numerical standards and other guidelines developed pursuant to this subsection; and

"(B) which countries have been determined to be major illicit drug producing countries for that year.

"SEC. 487. ANNUAL CERTIFICATION PROCEDURES.

"(a) WITHHOLDING OF BILATERAL ASSISTANCE AND OPPOSITION TO MULTILATERAL DEVELOPMENT ASSISTANCE.—

"(1) BILATERAL ASSISTANCE.—Fifty percent of the United States assistance allocated each fiscal year in the report required by section 653(a) for each major illicit drug producing country or major drug-transit country shall be withheld from obligation and expenditure, except as provided in subsection (b).

"(2) MULTILATERAL ASSISTANCE.—The Secretary of the Treasury shall instruct the United States Executive Director of the International Bank for Reconstruction and Development, the United States Executive Director of the International Development Association, the United States Executive Director of the Inter-American Development Bank, and the United States Executive Director of the Asian Development Bank to vote, on and after March 1 of each year, against any loan or other utilization of the funds of their respective institution to or for any major illicit drug producing country or major drug-transit country, except as provided in subsection (b).

"(b) CERTIFICATION PROCEDURE.—

"(1) WHAT MUST BE CERTIFIED.—Subject to subsection (d), the assistance withheld from a country pursuant to subsection (a)(1) may be obligated and expended, and the requirement of subsection (a)(2) to vote against multilateral development bank assistance to a country shall not apply, if the President determines and certifies to the Congress, at the time of the submission of the report required by section 486(a), that—

"(A) during the previous year the country has cooperated fully with the United States, or has taken adequate steps on its own—

"(i) in satisfying the goals agreed to in an applicable bilateral narcotics agreement with the United States (as described in paragraph (2)) or a multilateral agreement which achieves the objectives of paragraph (2),

"(ii) in preventing narcotic and psychotropic drugs and other controlled substances produced or processed, in whole or in part, in such country or transported through such country, from being sold illegally within the jurisdiction of such country to United States Government personnel or their dependents or from being transported, directly or indirectly, into the United States,

"(iii) in preventing and punishing the laundering in that country of drug-related profits or drug-related moneys, and

"(iv) in preventing and punishing bribery and other forms of public corruption which facilitate the illicit production, processing, or shipment of narcotic and psychotropic drugs and other controlled substances, or which discourage the investigation and prosecution of such acts; or

"(B) for a country that would not otherwise qualify for certification under subparagraph (A), the vital national interests of the United States require that the assistance withheld pursuant to subsection (a)(1) be provided and that the United States not vote against multilateral development bank assistance for that country pursuant to subsection (a)(2).

"(2) BILATERAL NARCOTICS AGREEMENT.—A bilateral narcotics agreement referred to in paragraph (1)(A)(i) is an agreement between the United States and a foreign country in which the foreign country agrees to take specific activities, including, where applicable, efforts to—

"(A) reduce drug production, drug consumption, and drug trafficking within its territory, including activities to address illicit crop eradication and crop substitution;

"(B) increase drug interdiction and enforcement;

"(C) increase drug education and treatment programs;

"(D) increase the identification of and elimination of illicit drug laboratories;

"(E) increase the identification and elimination of the trafficking of essential precursor chemicals for the use in production of illegal drugs;

"(F) increase cooperation with United States drug enforcement officials; and

"(G) where applicable, increase participation in extradition treaties, mutual legal assistance provisions directed at money laundering, sharing of evidence, and other initiatives for cooperative drug enforcement.

"(3) REQUIREMENT FOR NARCOTICS AGREEMENT FOR CERTAIN COUNTRIES.—A country which in the previous year was designated as a major illicit drug producing country or a major drug-transit country may not be determined to be cooperating fully under paragraph (1)(A) unless it has in place a bilateral narcotics agreement with the United States or a multilateral agreement which achieves the objectives of paragraph (2).

"(4) INFORMATION TO BE INCLUDED IN CERTIFICATION.—If the President makes a certification with respect to a country pursuant to paragraph (1)(B), the President shall include in such certification—

"(A) a full and complete description of the vital national interests placed at risk if United States bilateral assistance to that country is terminated pursuant to this section and multilateral development bank assistance is not provided to such country; and

"(B) a statement weighing the risk described in subparagraph (A) against the risks posed to the vital national interests of the United States by the failure of such country to cooperate fully with the United States in combating narcotics or to take adequate steps to combat narcotics on its own.

"(5) LICIT OPIUM PRODUCING COUNTRIES.—The President may make a certification under paragraph (1)(A) with respect to a major illicit drug producing country or major drug-transit country which is also a producer of licit opium only if the President determines that such country has taken steps to prevent significant diversion of its licit cultivation and production into the illicit market, maintains production and stockpiles at levels no higher than those consistent with licit market demand, and prevents illicit cultivation and production.

"(c) MATTERS TO BE CONSIDERED.—In determining whether to make the certification required by subsection (b) with respect to a country, the President shall consider the following:

"(1) Have the actions of the government of that country resulted in the maximum reductions in illicit drug production which were determined to be achievable pursuant to section 486(a)(2)(D)? In the case of a major illicit drug producing country, the President shall give foremost consideration, in determining whether to make the determination required by subsection (b), to whether the government of that country has taken actions which have resulted in such reductions.

"(2) Has that government taken the legal and law enforcement measures to enforce in its territory, to the maximum extent possible, the elimination of illicit cultivation and the suppression of illicit manufacturing of and trafficking in narcotic and psychotropic drugs and other controlled substances, as evidenced by seizures of such drugs and substances and of illicit laboratories and the arrest and prosecution of violators involved in the traffic in such drugs and substances significantly affecting the United States.

"(3) Has that government taken the legal and law enforcement steps necessary to eliminate, to the maximum extent possible, the laundering in that country of drug-related profits or drug-related moneys, as evidenced by—

"(A) the enactment and enforcement by that government of laws prohibiting such conduct,

"(B) that government entering into, and cooperating under the terms of, mutual legal assistance agreements with the United States governing (but not limited to) money laundering, and

"(C) the degree to which that government otherwise cooperates with United States law enforcement authorities on anti-money laundering efforts.

"(4) Has that government taken the legal and law enforcement steps necessary to eliminate, to the maximum extent possible, bribery and other forms of public corruption which facilitate the illicit production, processing, or shipment of narcotic and psychotropic drugs and other controlled substances, or which discourage the investigation and prosecution of such acts, as evidenced by the enactment and enforcement of laws prohibiting such conduct.

"(5) Has that government, as a matter of government policy, encouraged or facilitated the production or distribution of illicit narcotic and psychotropic drugs and other controlled substances.

"(6) Does any senior official of that government engage in, encourage, or facilitate the production or distribution of illicit narcotic and psychotropic drugs and other controlled substances.

"(7) Has that government investigated aggressively all cases in which any member of an agency of the United States Government engaged in drug enforcement activities since January 1, 1985, has been the victim of acts

or threats of violence, inflicted by or with the complicity of any law enforcement or other officer of such country or any political subdivision thereof, and energetically sought to bring the perpetrators of such offense or offenses to justice.

"(8) Having been requested to do so by the United States Government, does that government fail to provide reasonable cooperation to lawful activities of United States drug enforcement agents, including the refusal of permission to such agents engaged in interdiction of aerial smuggling into the United States to pursue suspected aerial smugglers a reasonable distance into the airspace of the requested country.

"(9) Has that government made necessary changes in legal codes in order to enable law enforcement officials to move more effectively against narcotics traffickers, such as new conspiracy laws and new asset seizure laws.

"(10) Has that government expeditiously processed United States extradition requests relating to narcotics trafficking.

"(11) Has that government refused to protect or give haven to any known drug traffickers, and has it expeditiously processed extradition requests relating to narcotics trafficking made by other countries.

"(d) CONGRESSIONAL REVIEW.—Subsection (a) shall apply without regard to subsection (b) if, within 45 days of continuous session (within the meaning of section 601(b)(1) of the International Security Assistance and Arms Export Control Act of 1976) after receipt of a certification under subsection (b), the Congress enacts a joint resolution disapproving the determination of the President contained in such certification.

"(e) DENIAL OF ASSISTANCE FOR COUNTRIES DECERTIFIED.—If the President does not make a certification under subsection (b) with respect to a country or the Congress enacts a joint resolution disapproving such certification, then until such time as the conditions specified in subsection (f)(1) are satisfied—

"(1) funds may not be obligated for United States assistance for that country, and funds previously obligated for United States assistance for that country may not be expended for the purpose of providing assistance for that country; and

"(2) the requirement to vote against multilateral development bank assistance pursuant to subsection (a)(2) shall apply with respect to that country, without regard to the date specified in that subsection.

"(f) RECERTIFICATION.—

"(1) TIME OF RECERTIFICATION; CONGRESSIONAL ACTION.—Subsection (e) shall apply to a country until—

"(A) the President makes a certification under subsection (b) with respect to that country, and the Congress does not enact a joint resolution under subsection (d) disapproving the determination of the President contained in that certification; or

"(B) the President submits at any other time a certification of the matters described in subsection (b) with respect to such country, and the Congress enacts a joint resolution approving the determination of the President contained in that certification.

"(2) CONGRESSIONAL REVIEW PROCEDURES.—(A) Any joint resolution under this subsection shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

"(B) For the purpose of expediting the consideration and enactment of joint resolutions under this subsection, a motion to proceed to the consideration of any such joint resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

"(g) REALLOCATION OF FUNDS WITHHELD FROM COUNTRIES WHICH FAIL TO TAKE ADEQUATE STEPS TO HALT ILLICIT DRUG PRODUCTION OR TRAFFICKING.—

"(1) ADDITIONAL ASSISTANCE FOR COUNTRIES TAKING SIGNIFICANT STEPS.—If any funds made available for any fiscal year for security assistance are not used for assistance for the country for which those funds were allocated because of the requirements of this section or any other provision of law requiring the withholding of assistance for countries that have not taken adequate steps to halt illicit drug production or trafficking, the President shall use those funds for additional assistance for those countries which have met their illicit drug eradication targets or have otherwise taken significant steps to halt illicit drug production or trafficking, as follows:

"(A) INTERNATIONAL NARCOTICS CONTROL ASSISTANCE.—Those funds may be transferred to and consolidated with the funds made available to carry out this chapter in order to provide additional narcotics control assistance for those countries. Funds transferred under this paragraph may only be used to provide increased funding for activities previously justified to the Congress. Transfers may be made under this paragraph without regard to the 20-percent increase limitation contained in section 610(a).

"(B) SECURITY ASSISTANCE.—Any such funds not used under subparagraph (A) shall be reprogrammed within the account for which they were appropriated (subject to the regular reprogramming procedures under section 634A) in order to provide additional security assistance for those countries.

"(2) DEFINITION OF SECURITY ASSISTANCE.—As used in this subsection, the term 'security assistance' means assistance under chapter 2 (relating to the grant military assistance program), chapter 4 (relating to the economic support fund), or chapter 5 (relating to international military education and training) of part II or under the Arms Export Control Act (relating to foreign military sales financing).

"SEC. 488. PARTICIPATION IN FOREIGN POLICE ACTIONS.

"(a) PROHIBITION ON EFFECTING AN ARREST.—No officer or employee of the United States may directly effect an arrest in any foreign country as part of any foreign police action with respect to narcotics control efforts, notwithstanding any other provision of law.

"(b) PARTICIPATION IN ARREST ACTIONS.—Subsection (a) does not prohibit an officer or employee of the United States, with the approval of the United States chief of mission, from being present when foreign officers are effecting an arrest or from assisting foreign officers who are effecting an arrest.

"(c) EXCEPTION FOR EXIGENT, THREATENING CIRCUMSTANCES.—Subsection (a) does not prohibit an officer or employee from taking direct action to protect life or safety if exigent circumstances arise which are unanticipated and which pose an immediate threat to United States officers or employees, officers or employees of a foreign government, or members of the public.

"(d) EXCEPTION FOR MARITIME LAW ENFORCEMENT.—With the agreement of a foreign country, subsection (a) does not apply with respect to maritime law enforcement operations in the territorial sea of that country.

"(e) INTERROGATIONS.—No officer or employee of the United States may interrogate or be present during the interrogation of any United States person arrested in any foreign country with respect to narcotics control efforts without the written consent of such person.

"(f) EXCEPTION FOR STATUS OF FORCES ARRANGEMENTS.—This section does not apply to the activities of the United States Armed Forces in carrying out their responsibilities under applicable Status of Forces arrangements.

"SEC. 489. DEFINITIONS.

"As used in this chapter, the following terms have the following meaning:

"(1) LEGAL AND LAW ENFORCEMENT MEASURES.—The term 'legal and law enforcement measures' means—

"(A) the enactment and implementation of laws and regulations or the implementation of existing laws and regulations to provide for the progressive control, reduction, and gradual elimination of the illicit cultivation, production, processing, transportation, and distribution of narcotic drugs and other controlled substances; and

"(B) the effective organization, staffing, equipping, funding, and activation of those governmental authorities responsible for narcotics control.

"(2) MAJOR ILLICIT DRUG PRODUCING COUNTRY.—The term 'major illicit drug producing country' means a country that illicitly produces during a fiscal year 5 metric tons or more of opium or opium derivative, 500 metric tons or more of coca, or 500 metric tons or more of marijuana.

"(3) MAJOR DRUG-TRANSIT COUNTRY.—The term 'major drug-transit country' means a country—

"(A) that is a significant direct source of illicit narcotic or psychotropic drugs or other controlled substances significantly affecting the United States;

"(B) through which are transported such drugs or substances; or

"(C) through which significant sums of drug-related profits or monies are laundered with the knowledge or complicity of the government.

"(4) NARCOTIC AND PSYCHOTROPIC DRUGS AND OTHER CONTROLLED SUBSTANCES.—The term 'narcotic and psychotropic drugs and other controlled substances' has the same meaning as is given by any applicable international narcotics control agreement or domestic law of the country or countries concerned.

"(5) UNITED STATES ASSISTANCE.—(A) Except as provided in subparagraph (B), the term 'United States assistance' means assistance of any kind which is provided by grant, sale, loan, lease, credit, guaranty, or insurance, or by any other means, by any agency or instrumentality of the United States Government to any foreign country, including—

"(i) assistance under this Act, including programs under title IV of chapter 2 of this part (relating to the Overseas Private Investment Corporation);

"(ii) sales and financing under the Arms Export Control Act;

"(iii) sales under title I or III and donations under title II of the Agricultural Trade Development and Assistance Act of 1954 of nonfood commodities; and

"(iv) financing under the Export-Import Bank Act of 1945.

"(B) The term 'United States assistance' does not include—

"(i) international narcotics control assistance under this chapter;

"(ii) disaster relief assistance, including any assistance under chapter 9 of part I;

"(iii) assistance which involves the provision of food or medicine;

"(iv) assistance for refugees;

"(v) assistance under the Inter-American Foundation Act;

"(vi) assistance from the Child Survival Fund under section 104(c)(2) of this Act;

"(vii) assistance for narcotics education and awareness activities under section 126(b)(2) of this Act (but any such assistance shall be subject to the prior notification procedures applicable to reprogrammings under section 634A);

"(viii) activities authorized pursuant to the National Security Act of 1947 (50 U.S.C. 410 et seq.), the Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.), or Executive Order 12333; or

"(ix) commercial export promotion activities of the Department of Agriculture, including the Commodity Credit Corporation.".

(b) CONFORMING AMENDMENTS AND REPEAL OF OBSOLETE PROVISIONS.—

(1) 1988 INTERNATIONAL NARCOTICS CONTROL ACT.—The International Narcotics Control Act of 1988 (title IV of Public Law 100-690) is amended—

(A) in section 4003, by striking out "481(i)(3)" and inserting in lieu thereof "489(4)";

(B) in section 4306, by striking out "481(h)(2)(A)(i)" and inserting in lieu thereof "487(b)(1)(A)";

(C) in section 4309(b), by striking out "481(e)" and inserting in lieu thereof "486(a)";

(D) in section 4501 by striking out "4601 of this title" and inserting in lieu thereof "486(c) of the Foreign Assistance Act of 1961"; and

(E) by repealing section 4601.

(2) 1986 INTERNATIONAL NARCOTICS CONTROL ACT.—The International Narcotics Control Act of 1986 (title II of Public Law 99-570) is amended—

(A) by repealing all sections except for sections 2001, 2010, 2015, 2018, and 2029; and

(B) in section 2018(d), by striking out "481(i)(2) of the Foreign Assistance Act of 1961 (22 U.S.C. 229(i)(2))" and inserting in lieu thereof "489(2) of the Foreign Assistance Act of 1961".

(3) NARCOTICS CONTROL TRADE ACT.—The Narcotics Control Trade Act (19 U.S.C. 2492 and following) is amended—

(A) in section 802(b)(1)(A), by striking out "481(e)" and inserting in lieu thereof "486(a)";

(B) in section 802(b)(1)(A)(i)(IV), by inserting "illicit" before "production";

(C) in section 802(b)(1)(B)(iii), by striking out "treatment" and inserting in lieu thereof "education and treatment programs";

(D) in section 802(b)(1)(B)(v), by inserting "essential" before "precursor";

(E) in section 802(b)(2)(A), by striking out "481(e)(4)" and inserting in lieu thereof "486(a)(2)(D)";

(F) in section 802(b)(2)(D), by inserting "illicit" before "production";

(G) in section 804, by striking out "481(e)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2291(e)(1))" and inserting in lieu thereof "486(a) of the Foreign Assistance Act of 1961"; and

(H) in section 805, by amending paragraph (2) to read as follows:

"(2) the term 'major drug producing country' means a country that illicitly produces during a fiscal year 5 metric tons or more of opium or opium derivative, 500 metric tons or more of coca, or 500 metric tons or more of marijuana; and".

The SPEAKER pro tempore. Is a second demanded?

Mr. BROOMFIELD. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Florida [Mr. SMITH] will be recognized for 20 minutes and the gentleman from Michigan [Mr. BROOMFIELD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3611, the International Narcotics Control Act of 1989.

This bill is the product of a great deal of negotiation, and represents a bipartisan compromise. As a result, it does not make anyone entirely happy, but represents something we can all support. It is not a rubberstamp of the administration's request. It does not contain new economic aid for fiscal year 1990, as some of us had hoped, because the administration vehemently opposed increased economic aid for this fiscal year. But it does represent a step in the right direction, leaving a number of issues to be revisited early next year when Mr. Bennett submits his second strategy.

Let me just briefly outline what is in this bill. It basically consists of narcotics-related provisions from the House-passed foreign aid bill, H.R. 2655, modified to accommodate the Bennett request, along with a few new provisions. So most of what is in this bill has already been approved by the House once.

The bill authorizes, as requested, $125 million in military and law enforcement aid, as requested, for Bolivia, Colombia, and Peru. Of that amount, up to $12.5 million may be provided to police forces in those countries and up to $6.5 million may be provided for police training in those countries. All of this aid is subject to prior notification to Congress and to coordination with the international narcotics control program. It is also subject to those countries retaining democratic governments and to respect for human rights. These are modest but essential controls on this aid. We have also approved the other two waivers which the administration sought.

Other modest new provisions attempt to flesh out the Bennett plan by stating the sense of the Congress on the need for increased economic aid for the region, the need for a trade policy that is coordinated with our narcotics control objectives, the need to better control weapons flows to drug traffickers from the United States and other countries, and the need to address the debt problem in the region. We also ask DOD to acquire equipment which is appropriate for narcotics control purposes in the host countries.

Some things we could not include in this bill. Like many of my colleagues, I was disappointed at the absence of increased economic aid to these countries in the administration's request. If we have any degree of success on the enforcement side, it will be imperative to provide economic aid to alleviate the social, economic, and political consequences. Likewise, I am disappointed that there are no new initiatives to assist the judicial systems in those countries, a cause to which some of us have devoted a good deal of effort. Ultimately these countries cannot fight the traffickers effectively without functioning judicial systems. Unfortunately, budgetary restrictions and administration opposition to increased nonmilitary aid in fiscal year 1990 forced us to postpone those issues until next year. I hope at that time we will see a more comprehensive strategy.

In short, Mr. Bennett sent us a legislative skeleton, and we have put some flesh on it. We have done no legislative violence to the request. We have agreed to put off some issues until next year, when the administration hopefully has made some more decisions about implementing the strategy, and in the meantime have put reasonable ceilings and conditions on the requested aid so that we ensure it is used appropriately.

I would like to thank my colleagues who helped to craft this measure, especially BEN GILMAN, who as usual lent his common sense and bipartisan support to negotiating this bill. I urge all Members on both sides of the aisle to support this bill.

□ 1300

I certainly also want to thank the chairman and the ranking member on the Republican side, the gentleman from Michigan [Mr. BROOMFIELD], who as always has been a voice of steady reasonableness and calm in negotiating with the Republicans and with the administration.

I urge all Members on both sides of the aisle to support this bill as one of the components of the overall drug strategy that both the Congress and the administration want to implement in the fight against drugs.

Mr. BROOMFIELD. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of the International Narcotics Control Act of 1989, and I commend the committee chairman, the gentleman from Florida [Mr. FASCELL], the gentleman from New York [Mr. GILMAN], the gentleman from Florida [Mr. SMITH], and their colleagues on the narcotics task force for their good work on this bill.

I also want to pay special tribute to the gentleman from Pennsylvania [Mr. YATRON] for the unparalleled leadership he has provided in the fight against drugs this year and in years apart.

After initial disagreement over earlier drafts of the bill, I am pleased to say that this legislation was crafted in a bipartisan spirit. This is a drug bill that merits the strong support of our colleagues in the Congress.

H.R. 3611 represents our committee's efforts to provide implementing language for the international aspects of the President's new drug strategy. Congress mandated that the Office of National Drug Control Policy be established. It also required that a new antinarcotics strategy be prepared. Now is the time for Congress to join in the war on drugs by moving forward with this legislation. We cannot afford to hesitate for one moment in the international struggle against the drug lords.

During committee consideration of the draft bill, an effort was made to provide additional economic assistance to the Andean nations in fiscal year 1990. Those funds would have been taken from important antinarcotics programs designed to secure drug-producing regions.

The administration is deeply committed to providing additional economic assistance to those cocaine-producing nations. That assistance, however, would be provided in 1991 through 1994 and not in 1990. The delayed economic assistance would be an incentive designed to encourage the Andean governments to fully cooperate in the battle against narcotics. We all agree on the importance of development assistance and economic help for those poor nations. And I think we should follow the President's lead on this issue.

I commend this resolution to my colleagues and urge their support of this antinarcotics legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I thank the gentleman for yielding this time to me.

Mr. Speaker, I am pleased to rise in support of this important measure, the International Narcotics Control Act of 1989. As vice chairman of the Foreign Affairs Committee's Task Force on International Narcotics Control, I want to commend the task force's chairman, the gentleman from Florida [Mr. SMITH] for his untiring leadership and his willingness to formulate this bipartisan measure, one that we are proud of, in addition, to the support that we receive from our committee's distinguished chairman, the gentleman from Florida [Mr. FASCELL], and our committee's ranking minority member, the gentleman from Michigan [Mr. BROOMFIELD].

I also commend the administration for its willingness to work with the task force in resolving some of the problems in the original version of the draft legislation. I am pleased to report that this legislation is acceptable to all of us on both sides of the aisle. It provides implementing language for the President's Andean strategy and gives our Government additional authorities and resources to upgrade its antinarcotics efforts in Colombia, Peru, and Bolivia. Unfortunately, 80 percent of the cocaine entering our Nation comes from those three drug-producing and processing nations.

In addition to authorizing $115 million for the State Department's Bureau of International Narcotics Matters, H.R. 3611 provides $125 million for fiscal year 1990 in military assistance to Colombia, Peru, and Bolivia to fund the President's Andean initiative and requires the Defense Department to acquire equipment such as small boats, helicopters, and communications gear that is suited for narcotics control in the Andes.

This measure also establishes the Secretary of State as the coordinator of overseas antinarcotics assistance, increases maximum awards for information on international terrorism, and earmarks funds for testing and developing herbicides for coca eradication.

If we are to win the war against narcotics trafficking and drug abuse, then we must provide the Andean nations with the proper military assistance to help them effectively combat the drug traffickers who are conducting a wave of terror against their own people. Accordingly, I urge my colleagues to fully support this bipartisan measure.

Mr. SMITH of Florida. Mr. Speaker, I yield 3 minutes to the gentleman from Pennsylvania [Mr. YATRON], a member of the Foreign Affairs Committee and chairman of the Subcommittee on Human Rights and International Organizations.

Mr. YATRON. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in strong support of the International Narcotics Control Act. I want to commend the chairman of the Foreign Affairs Committee, Mr. FASCELL, for his outstanding leadership on this issue. I also want to commend my committee colleagues, Mr. GILMAN, Mr. SMITH of Florida, and Mr. BROOMFIELD whose efforts proved critical in crafting this bipartisan measure.

Mr. Speaker, it is difficult to overstate the danger posed to our society by the scourge of illicit drugs. Clearly, we must do more at home to reduce the demand for drugs. However, we must couple these efforts with an effective and sustained campaign against the international drug cartel.

Recent developments in Colombia and elsewhere in Latin America have dramatically illustrated the very real threat to democratic government and respect for human rights represented by these international drug traffickers. Their ruthless and depraved methods have no bounds. They have endeavored to intimidate whole societies. Their resources threaten to overwhelm the law enforcement capability of sovereign nations.

By providing $125 million for military and law enforcement aid to Colombia, Peru, and Bolivia, increased training, and various waivers with respect to debt payment arrears, I believe this legislation will make a meaningful contribution to the fight against international drug trafficking.

The American people clearly support a stronger stand against the international drug cartel. It is in our interest to help the courageous people of Colombia, Peru, and Bolivia, who refuse to be held hostage to the dictates of drug traffickers.

As a cosponsor of the International Narcotics Control Act, I firmly believe that this measure merits the enthusiastic support of every Member of this Chamber.

Mr. GILMAN. Mr. Speaker, I yield 4 minutes to the gentleman from California [Mr. LAGOMARSINO], one of our senior members on the Foreign Affairs Committee who has worked so long and hard in helping us to combat narcotics coming out of Latin America.

Mr. LAGOMARSINO. Mr. Speaker, I rise in support of H.R. 3611, the International Narcotics Control Act of 1989. As a senior member of the Foreign Affairs Committee, I am proud to have worked on this legislation and I strongly believe it will help fight the war on drugs by taking the battle right to the source of cocaine and crack—the coca fields and processing centers of Bolivia, Peru, and Colombia.

I also commend the gentleman from Florida [Mr. FASCELL], the gentleman from Florida [Mr. SMITH], and the gentleman from New York [Mr. GILMAN].

This legislation authorizes $125 million in funding for military and law enforcement aid to Peru, Colombia, and Bolivia. It also includes the key sections of the House-passed foreign aid bill relating to narcotics. Unfortunately, the Senate has not passed a foreign aid bill, and prospects for that happening in the near future are very dim. This legislation also includes new antinarcotics provisions, such as in-

creasing the rewards for antinarcotics information. Coupled with our other efforts to improve interdiction and significantly lessen the demand for drugs, this bill can help make a difference. It can help slash the supply of cocaine and its derivatives.

The heart of this bill is to help those coca-producing countries eradicate the production and processing of illegal and harmful narcotics. All three countries, Bolivia, Colombia, and Peru have clearly demonstrated their strong determination to combat this problem. Unfortunately, the power of the drug cartels, their association with violent terrorist organizations, and the relative difficult economic situation faced by all three democracies make their battle against drugs a harder and far more challenging one. Through this legislation and other American aid programs, we are helping Bolivia, Colombia, and Peru meet this challenge.

Recent events in Colombia show how powerful and prone to violence the drug rings really are. Colombia took an important step in cracking down on drug dealers and in allowing the extradition of drug kingpins to the United States. In response, the drug dealers and their Communist terrorist friends assassinated a leading Colombian presidental candidate, scores of judges and other officials, and launched an urban terrorist war against Colombia's civilian population. Despite the bombings, the Colombian people have stood by the Government. They want to fight drugs and have appealed to us to give them the wherewithal to do so. President Bush rushed emergency military aid to Colombia. This legislation supplements that emergency program with a longer term, more encompassing one.

Peru faces the combined threat of drug dealers and the "shining path" Maoist Communist terrorists. The intermixing of drug and terrorist operations makes the situation in Peru especially dangerous. As in Colombia, kidnapings, bombings, and murders are the tools of these narcoterrorists. Yet, the democratically elected Government and the Peruvian people have tried to fight back, as they have demonstrated again yesterday in standing up to the terrorists and voting. This measure before us today will help provide the Peruvians with the resources needed to fight effectively.

Bolivia, to date, has been spared the intense violence narcotics trafficking has brought to Colombia and Peru. Bolivia is keen on nipping this problem at the bud. I agree that this is a very wise strategy. The situation in Bolivia also shows why our aid is badly needed. Bolivian police are armed with World War II vintage rifles and have only a few helicopters to cover a territory, much of it a jungle, the size of Texas. The drug dealers have sophisticated automatic weapons, modern aircraft, and much money. They can outshoot, outrun, outhide and outbuy the Bolivian police and military. That situation needs to be reversed.

Bolivia also highlights the other problems associated with eradicating the production and processing of coca. Many of the coca farmers are not rich drug lords, but poor peasants. They have been attracted to growing coca for the price the leaf commands. In addition, drug dealers offer services that the debt-ridden Government cannot provide. Our AID programs, especially those supporting the Bolivian Government's economic reforms and free-market policies, help lessen the influence of the drug lords. Furthermore, while the "stick" of military action can be used to forcefully eradicate coca growing, a "carrot" for the peasant farmers is needed to make the transition to growing other crops more acceptable. Economic growth and a stimulated economy can be just such a carrot. This measure before us, while primarily providing more muscle for the stick, also has debt-reduction measures designed to sweeten the carrot.

It is also important to note that all three AID recipients, Bolivia, Colombia, and Peru, are fragile democracies. Much is at stake here. The drug lords and their Communist guerrilla associates would much prefer a Sandinista or Noriega type government. One they could run, launder their money through, and produce drugs with immunity. Such a state is a threat to American national security for this and many other reasons. These democracies have shown they are fighting the drug cartels and narcoterrorists. They need more help. They've asked not for American soldiers, but for aid they can use themselves. This bill provides this type of aid.

No one effort, no one legislative measure will solve the drug crisis. Our strategy encompasses many different but related approaches. While one of the most effective ways to combat drugs is to eliminate demand—no demand, no supply—the drug business is very market-oriented—by cutting supply, as this bill intends to do, we can help cut demand. I believe that fewer youths and adults will try and use drugs if they are expensive, a result of less supply. We do need to strike at both supply and demand simultaneously. Congress has instituted many new programs that focus on demand. I have strongly supported those measures. Today, we are helping strengthen the antisupply side. I strongly urge my colleagues to support H.R. 3611, the International Narcotics Control Act of 1989.

□ 1310

Mr. SMITH of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. FASCELL], the chairman of the committee, who has been so helpful on this bill.

Mr. FASCELL. Mr. Speaker, I thank the chairman for yielding me this time.

Mr. Speaker, I rise in strong support of this legislation, and I want to explain how well the task force concept has worked in the Committee on Foreign Affairs. I extend my appreciation to both the chairman, the gentleman from Florida [Mr. SMITH], and the vice chairman or cochairman, the gentleman from New York [Mr. GILMAN], the gentleman from Ohio [Mr. FEIGHAN], and other members on the task force.

Obviously the drug problem cuts across all geographical boundaries, and rather than have three or four subcommittees on the Committee on Foreign Affairs be concerned in dealing with various aspects of the legislation or handling it in the full committee, it made a lot more sense to establish a task force headed by the gentleman from Florida [Mr. SMITH], who has had a long interest antedating his service in the Congress with regard to the entire drug problem, and it has worked out very well, because we have constant pursuit of the issue both from the standpoint of oversight and from legislation that may be necessary.

All of the initiatives on the international side came out of our committee and out of this task force. I am very proud of that fact and very pleased to see the results being incorporated now both in the Presidential plan and in the congressional plan and that we are working together in a bipartisan sense to implement such a program. It is difficult at best. We have tried a lot of things. I do not say, of course, that they all worked, because some of them did not, and one of the aspects of the international matter as reviewed by the task force, Mr. Speaker, is a necessity to constantly assess what we are doing and to see whether or not we are accomplishing anything with that and not be afraid to terminate or change a program once it has been established even though it was established with the best of intentions if later facts determine that the program ought to be eliminated, modified, or in some other way revised. So that is one aspect that the task force has handled and will continue to do so.

Whatever the programs are that are either promoted by the administration or as a result of congressional initiatives, the Task Force on Foreign Affairs for Narcotics Abuse will certainly play its important part, and I congratulate all the members.

Mr. GILMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. OXLEY], who has been one of our very active members on our Select

Committee on Narcotics and who has been a long-time battler in this fight against narcotics abuse and control.

Mr. OXLEY. Mr. Speaker, I rise in support of H.R. 3611, the International Narcotics Control Act of 1989.

Maybe the most important, but overlooked portion of President Bush's national drug control strategy is the Andean initiative. This section outlines the steps that our country will take to fight the drug war at its source.

H.R. 3611 contains the administration requested waivers which permit law enforcement and other foreign assistance funds to go to Colombia, Peru, and Bolivia. I am pleased to see that the bill also provides the $125 million for military aid to these three countries, as the President requested.

This legislation also includes provisions which will increase the awards given to individuals who supply information on international terrorism. We have heard that the narcoterrorists have put contracts on the heads of some U.S. officials who are involved in the drug war. Anything that will help lead to information on the narcoterrorists' activities is positive and necessary.

I am also pleased to see language expressing support for a multilateral antinarcotics strike force. I have long supported this idea and believe that a strike force of this nature would help eradicate illegal crops, dismantle cocaine-manufacturing labs, and strike at the heart of the international drug cartels.

Finally, Mr. Speaker, I want to commend the people of the Andean nations who have decided to fight the drug lords. The stand that these individuals have taken is courageous and should be recognized. Colombia, in particular, should be commended for its fight against drugs, and I hope that other Andean governments will follow suit and rise up and fight the cartels. With the U.S. support contained in H.R. 3611, hopefully we will start to see some victories.

Mr. SMITH of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. RANGEL], chairman of the Select Committee on International Narcotics Abuse and Control.

Mr. RANGEL. Mr. Speaker, I would like to take this opportunity to congratulate the Committee on Foreign Affairs, specifically the task force headed by the gentleman from Florida [Mr. SMITH], and the gentleman from New York [Mr. GILMAN], and the leadership of the gentleman from Michigan [Mr. BROOMFIELD], and our distinguished chairman.

I think that history has indicated that this committee has always come up with the initiatives that are necessary to not only protect our national security but also to give assistance to our friends, especially our friends in South America that are putting up such a violent and courageous battle against the terrorists and the drug traffickers that we have in this country.

□ 1320

I am pleased, of course, that President Bush has given this item such a priority on his agenda, and has seen fit to abide by the mandate of Congress by appointing such a distinguished gentleman as Bill Bennett to head up and coordinate our entire policy, I assume, in this most important area.

I started to say foreign policy, but then I had to pause, because I do not know whether we have a foreign policy. For the last 9 years I have been seeking that one person, either in the Reagan administration or in the Bush administration, that I could go to for direction in terms of what we should be doing.

Secretary Shultz, of course, has been silent on this issue, because he was harboring the idea in his mind that he would have this massive foreign affairs relief program by legalizing drugs. Therefore, I could see why he was silent.

We do have a distinguished Secretary of State now, one that has made it abundantly clear that drugs are repugnant to everything that civilization stands for. Yet, somehow, unless I have missed it, his silence has been deafening.

We can legislate all we want to. One thing we cannot legislate is leadership. I do hope that as the Congress moves forward to meet the President more than half way, that we will see principles and policies enunciated by our Secretary of State that not only will be dealing with peace in the Middle East and arms control and vital issues that concern us all, but also to make this world safe for democracies that are willing to reject the idea they have to be held hostage by the drug traffickers.

Mr. Speaker, I wish to offer congratulations to this outstanding committee once again. It makes me proud to be a Member of Congress.

Mr. GILMAN. Mr. Speaker, I am pleased to yield as much time as he may consume to the gentleman from Pennsylvania [Mr. COUGHLIN], the ranking minority member of our Select Committee on Narcotics Abuse and Control who has also been a longtime battler on this issue.

Mr. COUGHLIN. Mr. Speaker, I want to join in commending the distinguished gentleman from Florida [Mr. SMITH] and my friend and colleague from New York [Mr. GILMAN], as well as the distinguished chairman of the House Committee on Foreign Affairs, the gentleman from Florida [Mr. FASCELL], and the distinguished ranking minority member, the gentleman from Michigan [Mr. BROOMFIELD] for bringing this legislation before the Congress, for their leadership, and the leadership of the Foreign Affairs Task Force for putting together this bill.

Mr. Speaker, this bill contains administration-requested waivers which will allow desperately needed assistance to flow to Colombia, Peru, and Bolivia, which are all fighting the battle against drugs in that part of the world.

Mr. Speaker, this is part of the President's drug strategy that was requested by Congress and was transmitted to the Congress on September 5 by the President. The legislation that is part of the strategy was submitted on September 20; was passed by the Senate by a vote of 97 to 2 on September 27; was the subject of a motion to instruct in this House that passed on October 11 by a vote of 402 of 15; and was the subject of a letter from the Speaker and majority leader, the gentleman from Missouri [Mr. GEPHARDT] to the other body dated October 20, which agreed to act expeditiously on this legislation.

I congratulate the leadership of the House for bringing this to us expeditiously, congratulate the members of this committee, and also praise the chairman of the Select Committee on Narcotics Abuse and Control, the gentleman from New York [Mr. RANGEL], for his support in considering this legislation so expeditiously.

Mr. Speaker, no nation has made greater sacrifices in the war against drugs than Colombia. The Colombian Government, in spite of assassinations and bombings and intimidation, has bravely stood firm in its effort to crack down on the scourge of drugs.

We must realize that Colombia's fight is also our fight. Colombia's brave martyrs have died not only for Colombia, but also for all of us who believe that ending the scourge of drugs is a goal worth fighting for.

The legislation, Mr. Speaker, authorizes $125 million in fiscal year 1990 for military aid for Colombia, Peru, and Bolivia, to fund the President's Adean Initiative.

The bill includes sense-of-Congress language urging NATO allies and Warsaw Pact countries to refrain from selling or transferring weapons to narcotic traffickers. It requests INTERPOL to study the possibility of creating a data base on international small arms sales. It requires a report to the Congress in 6 months.

The legislation, Mr. Speaker, establishes the Secretary of State as the coordinator of overseas antinarcotics assistance, increases maximum awards for information on international terrorism, and increases funding for developing and testing herbicides for coca eradication.

Mr. Speaker, we cannot let President Barco and the people of Colombia, nor the people of Peru and Bolivia, twist in the wind until next year. It is critical that we pass this legislation, that it be agreed upon by the other body, that we resolve differences that we have, and we send this legislation to the President before we adjourn this Congress.

Mr. Speaker, we cannot pick up, leave town and leave this legislation undone as part of the war against drugs, as part of the strategy that we in Congress have requested, and as part of the strategy that the President has presented to us. We cannot fail our allies in South America, particularly in Colombia, by failing to enact this legislation.

Mr. GILMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SMITH of Florida. Mr. Speaker, I yield himself such time as I may consume.

Mr. Speaker, every Member that has spoken has talked sincerely about the need that we have to really go beyond where we are in terms of the fight against drugs. There have been a lot of people over the years in this fight, at every level of government, Federal, State, local, municipal, down to the smallest individual at the very lowest level of enforcement, through the might of the Federal Government, the Coast Guard, the Air Force, the military, yet people want to know why we unfortunately are not winning the fight?

Each time we pass one of these pieces to the puzzle, we think we are going to make a giant step forward. We seem not to be able to do that. That is a chronic problem that stems from the fact that we got into this fight very late.

There are still many, many things which need to be done. One of the major problems, one of the major needs, is that we must come to grips with a real foreign policy, that tries to help the country where most of these drugs are grown.

Mr. Speaker, they have problems. You have heard what is happening in Columbia. You read about it in the newspapers. We know about Peru and Bolivia, the problems they have had, the growth of the coca bush, the growth of the traffickers' capabilities, the growth of their money resources, the growth of their capability in terms of arms and security to protect themselves, the growth of money laundering, and the growth of corruption.

Mr. Speaker, this has infected those countries. It has infected Mexico, where now more than 40 percent of all the drugs that go into this country actually come through.

They have been very smart at moving around. It used to be Miami was the main entry point. Now it is coming through California, because we got better in Florida about finding it.

Mr. Speaker, the bottom line is that no matter what we do, unless we are willing to stay with it, unless we are willing to help those countries come to grips, not only with their law enforcement problems, but then with their economic problems, we are not going to be able to get a major handle on this.

As the gentleman from New York [Mr. RANGEL] indicated, we are not going to win this fight either by knuckling under and making it legal. We will just have more addicts. Yes, it might be a little cheaper to buy, but the corollary is more people will ultimately buy it.

Mr. Speaker, we need to find better answers. We are also looking to the administration for answers. We are providing our piece of the puzzle. We are providing the answers that Members of Congress feel are important in the area of foreign affairs, but we need to do more.

I am sorry that Mr. Bennett has chosen over the last few weeks to start criticizing again, but he feels somehow hindered or hampered and does not feel that other people share the commitment that he has.

□ 1330

Well, I want to tell Mr. Bennett from this floor that there are an awful lot of people in this Congress who were there before he became the head of the drug policy in this country, who had that commitment and that we are still here and we are still intending to do the right thing when it comes to trying to stamp out the scourge of drugs, because we go home every weekend. Out of the almost 700,000 constituents I have most of them will tell you the No. 1 issue on their mind is drugs and the crime in the community that flows from that drug problem.

I have said it before and I will say it again they are more concerned about a crack attack in their neighborhood tomorrow than they are a nuclear attack. And when we come up with all the parts of the puzzle working together, and that is what we created that drug czar for, hopefully we will be able to see the light at the end of the tunnel.

In the meantime while the Committee on Foreign Affairs, and the task force which I chair have provided this piece of the puzzle, I believe it is going to be a very important piece. It is something that we created, and frankly has been to a large degree adopted by Mr. Bennett's plan after we put most of this in the foreign aid bill about 6 months ago. So we know it is capable of being worked, we know that people agree that it is good, solid, important legislation in the fight and we urge our colleagues ultimately to vote for it and to stand fast in this fight.

It is not going to be over that quick and it will not be painless, but we will win if we stick to it.

Mr. FEIGHAN. Mr. Speaker, as a cochairman of the international narcotics control task force, I want to commend Chairman FASCELL and Representative LARRY SMITH, chairman of the task force, for their leadership in bringing this bill to fruition. I would reiterate that much of the bill consists of the provisions we approved in the foreign aid bill. I would like to take a minute to highlight a few parts and to add my observations on where we stand in the drug fight.

First, the bill responds to Secretary Bennett's request. It provides authorizing language for the $125 million Andean initiative along with the requested waivers. I would point out that the waiver on aid to police forces applies only to the three Andean countries, only for those units that are organized for the specific purpose of narcotics enforcement, and only for the next fiscal year.

Second, the bill contains human rights language and other reporting requirements that will ensure that Congress is notified about the type and value of assistance provided; which units will receive assistance; and an explanation of how this aid meets our antinarcotics objectives.

While I support this bill, I must say that I am disappointed by the absence of economic assistance and the failure of the administration to come up and fight for more economic aid. The administration's rationale is that first we must assist these countries in reestablishing control of those areas dominated by the cartel—then we can provide economic assistance.

But our efforts on the enforcement side will be seriously hampered unless these nations see that the United States is able to provide tangible economic assistance to their countries. Our experience tells us that cooca farmers will continue growing coca, even in the face of increased enforcement actions, if there are no realistic alternatives to the drug trade. We have received assurances from the administration that a more detailed plan, outlining a multiyear, $2 billion effort will be submitted in February and I look forward to seeing that plan.

The task force and committee have been the vanguard in the House in giving the administration the tools it needs to fight the drug war. This committee has been there in the past and it is this committee that will be supporting that effort in the future. Our first step is passing H.R. 3611.

Mr. BRENNAN. Mr. Speaker, last week many of my colleagues came to the floor of the House to chastise the Congress for not moving fast enough on the President's drug war strategy. Many of them praised the administration for its efforts.

I would suggest that such praise is premature, if not inappropriate. The Bush antidrug plan with its very modest goals required a lot of work when it reached us. That is the primary reason for its delay.

However, four measures now have worked their way through the process and are before

us today. It is interesting to note that, in regard to the international drug control bill now under discussion, the Bush administration has stated only that they have no objection to it. I wonder how it is that one can be passive in a war and expect to win?

In addition to providing $115 million for international narcotics control programs, the international drug control bill provides $125 million in military aid to the Andean counties of Bolivia, Colombia, and Peru for antidrug purposes. This aid undeniably is a key factor in any plan to reduce drug use in the United States, particularly the use of cocaine.

Peru, Bolivia, and Colombia, in that order, are three of the world's prime producers and refiners of coca, the plant from which cocaine is derived. The United States is the end destination of virtually all of the coca of these nations. Eighty percent of the cocaine in the United States is shipped here from Colombia. Clearly, it is in our best interests to assist these countries in their antidrug efforts.

Of this funding, up to $19 million per country would go to special police narcotics units for equipment and training. Three million is earmarked for non-Andean Latin American countries for weapons for their police forces and for international military and education training.

However, while providing aid to these countries for their antidrug efforts, the bill is careful to include protections. Aid will not be made available to countries whose police forces engage in gross human rights violations.

In regard to the environment, the bill provides funding for the testing and use of safe, effective herbicides in aerial eradication. The President is required to monitor and report on the environmental and social impact of herbicides used.

Finally, it is required that the aid be closely monitored so as not to be funneled to counterinsurgency operations.

I urge my colleagues to join me in support of this important measure and the drug measures to follow. Hopefully the President will take a more active interest when they reach his desk.

Mr. SMITH of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Florida [Mr. SMITH] that the House suspend the rules and pass the bill, H.R. 3611, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SMITH of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3611 the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

WILDFIRE DISASTER RECOVERY ACT OF 1989

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1011) to provide for the establishment of the National Commission on Natural Resources Disasters, to provide for increased planning and cooperation with local firefighting forces in the event of forest fires, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1011

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Section 1. This Act may be cited as the "Wildfire Disaster Recovery Act of 1989".

TITLE I—NATIONAL COMMISSION ON WILDFIRE DISASTERS.

SEC. 101. FINDING AND POLICY.

(a) FINDINGS.—Congress finds that—

(1) the natural fire disasters that occurred in 1987 and 1988 in Western and Southeastern States burned nearly seven and one-half million acres of Federal, State, and private land;

(2) these fires have altered the ability of Federal Government agencies to effectively manage the lands for timber production, fish and wildlife habitation, watershed, and recreation for future use by the American public; and

(3) the communities in and surrounding the areas affected by the fires have suffered economic and social losses.

(b) POLICY.—It is hereby declared to be the policy of Congress to respond to these disasters and prepare for potential disasters by reviewing the effect of these disasters on natural resources and on the financial and cultural aspects of the affected communities and by adopting such policies as are needed to assist in an effective and efficient recovery of those communities.

SEC. 102. NATIONAL COMMISSION ON WILDFIRE DISASTERS.

(a) ESTABLISHMENT.—There is hereby established a National Commission on Wildfire Disasters (hereafter referred to as the "Commission") which shall study the effects of disastrous wildfires, resulting from natural or other causes, and make recommendations concerning the steps necessary for a smooth and timely transition from the loss of natural resources due to such fires.

(b) COMPOSITION.—(1) The Commission shall be composed of 25 members. Thirteen members shall be appointed by the Secretary of Agriculture with at least 1 from each of the following groups: the timber industry, non-industrial private forest landowners, state or local officials, employees of the Department of Agriculture, scientists from the academic community, wildlife biologists, members of private non-profit forestry organizations, members of environmental organizations, and community leaders. Twelve members shall be appointed by the Secretary of the Interior, with at least one from each of the following groups: state or local officials, employees of the Department of the Interior, scientists from the academic community, wildlife biologists, members of environmental organizations, members of private non-profit national park organizations, conservationists, community leaders, and fire ecologists.

(2) The two Secretaries shall each appoint no more than 3 members from any one State and shall each appoint at least 5 members from areas affected by wildfires since 1986.

(3) In making appointments under this subsection, the Secretary of Agriculture shall consider nominations submitted by the following Members of Congress:

(A) The chairman of the Committee on Agriculture of the House of Representatives.

(B) The ranking minority member of the Committee on Agriculture of the House of Representatives.

(C) The chairman of the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(D) The ranking minority member of the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(4) In making appointments under this subsection, the Secretary of the Interior shall consider nominations submitted by the following Members of Congress:

(A) The chairman of the Committee on Interior and Insular Affairs of the House of Representatives.

(B) The ranking minority member of the Committee on Interior and Insular Affairs of the House of Representatives.

(C) The chairman of the Senate Energy and Natural Resources Committee of the Senate.

(D) The ranking minority member of the Committee on Energy and Natural Resources of the Senate.

(c) VACANCY.—A vacancy on the Commission shall be filled by appointment in the manner provided in subsection (b) by the Secretary making the initial appointment.

(d) CHAIRPERSON.—The Commission shall elect a chairperson from among the members of the Commission by a majority vote.

(e) MEETINGS.—The Commission shall meet at the call of the chairperson or a majority of the members of the Commission.

SEC. 103. DUTIES.

(a) STUDY.—The National Commission on Wildfire Disasters shall study the effects of fires on—

(1) the current and future economy of affected communities;

(2) the availability of sufficient timber supplies to meet future industry needs;

(3) fish and wildlife habitats;

(4) recreation in the affected areas;

(5) watershed and water quality protection plans in effect within National Forest System lands;

(6) ecosystems in the areas;

(7) management plans of the affected National Forest System lands;

(8) national parks;

(9) Bureau of Land Management public lands;

(10) wilderness; and

(11) biodiversity of the affected areas.

(b) FINDINGS AND RECOMMENDATIONS.—On the basis of its study, the Commission shall make findings and develop recommendations for consideration by the Secretaries of Agriculture and the Interior with respect to the future management of National Forest System lands, national parks, Bureau of Land Management public lands, and community redevelopment activities and programs.

(c) REPORT.—The Commission shall submit to the Secretaries of Agriculture and the Interior, not later than December 1, 1991, a report containing its findings and recommendations. The Secretaries of Agri-

culture and the Interior shall forthwith submit the report to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition and Forestry of the Senate, the Committee on Interior and Insular Affairs of the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, and the report is authorized to be printed as a House Document.

SEC. 104. OPERATION IN GENERAL.

(a) AGENCY COOPERATION.—The heads of executive agencies, the General Accounting Office, the Office of Technology Assessment, and the Congressional Budget Office shall provide the Commission such information as may be required to carry out its duties and functions.

(b) COMPENSATION.—Members of the Commission shall serve without compensation for work on the Commission. While away from their homes or regular places of business in the performance of duties of the Commission, members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the Government service under section 5703 of title 5 of the United States Code.

(c) EMPLOYEES.—(1) To the extent there are sufficient funds available to the Commission and subject to such rules as may be adopted by the Commission, the Commission, without regard to the provisions of title 5 of the United States Code governing appointments in the competitive service and, except as provided in paragraph (2), without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to the classification and General Schedule pay rates, may—

(A) appoint and fix the compensation of a director; and

(B) appoint and fix the compensation of such additional personnel as the Commission determines necessary to assist it to carry out its duties and functions.

(2) No employee of the Commission shall be compensated at a pay rate greater than the rate received by an employee at the grade of GS-16 as described in section 5104(16) of title 5 of the United States Code.

(d) STAFF AND SERVICES.—On the request of the Commission, the heads of executive agencies, the Comptroller General, and the Director of the Office of Technology Assessment may furnish the Commission with such office, personnel or support services as the head of the agency, or office, and the chairperson of the Commission agree are necessary to assist the Commission to carry out its duties and functions. The Commission shall not be required to pay, or reimburse, any agency for office, personnel or support services provided under this subsection.

(e) EXEMPTIONS.—(1) The Commission shall be exempt from sections 7(d), 10(f), and 14 of the Federal Advisory Committee Act (5 U.S.C. App.).

(2) The Commission shall be exempt from the requirements of sections 4301 through 4305 of title 5 of the United States Code.

SEC. 105. FUNDING.

(a) ACCEPTANCE OF CONTRIBUTIONS.—Following the appointment of the members of the National Commission on Wildfire Disasters, notwithstanding the provisions of section 1342 of title 31 of the United States Code, the Secretary of Agriculture may receive on behalf of the Commission, from persons, groups, and entities within the United States, contributions of money and services to assist the Commission in carrying out its duties and functions. Any money contributed under this section shall be made available to the Commission to carry out this Act.

(b) LIMITATION ON CONTRIBUTION.—The Secretary of Agriculture shall promulgate regulations to assure that the aggregate amount of contributions from any one person, group, or entity shall not exceed 10 percent of the total amount of funds that will be contributed to the Commission.

(c) RECORDS.—The Secretary of Agriculture shall keep, and shall make available for public inspection during normal business hours, records that fully disclose a complete list of every person, group, and entity making a contribution under this section, the address of the contributor, the amount and type of each such contribution, and the date the contribution was made.

(d) EXCESS FUNDS.—Any amount of money available to the Commission under this section that remains unobligated upon termination of the Commission shall be deposited in the Treasury as miscellaneous receipts.

SEC. 106. TERMINATION.

The National Commission on Wildfire Disasters shall cease to exist 90 days following the submission of its report to the Secretaries of Agriculture and the Interior.

TITLE II—FOREST FIREFIGHTING PLANNING AND COOPERATION

SEC. 201. FINDINGS.

The Congress finds that—

(1) it is in the best interest of the Nation to take swift action to rehabilitate burned forests, and an assessment of the situation is necessary to accomplish this; and

(2) volunteers should be trained to assist where possible.

SEC. 202. REPORT ON REHABILITATION NEEDS.

Not later than 6 months after the date of enactment of this Act and annually thereafter, detailed reports by—

(1) The Secretary of Agriculture on the rehabilitation needs of each Forest Service Region, and

(2) The Secretary of the Interior on the rehabilitation needs of the Bureau of Land Management public lands on a

State-by-State basis and of each National Park Region, resulting from disastrous forest fire damage during the previous year shall be submitted to Congress. Each such report shall specify the needs with respect to reforestation, vegetation management, timber stand improvement, fish and wildlife habitat restoration, soil conservation, recreation, and wilderness resources.

SEC. 203. PLANNING FOR FIRE PROTECTION.

(a) VOLUNTEER FIREFIGHTERS.—The Secretaries of Agriculture and the Interior shall annually offer training programs to certify volunteers for suppressing forest fires on National Forest System lands, National Park System land and Bureau of Land Management public lands in the event that the appropriate Secretary determines that such volunteers are needed. In carrying out this subsection, the Secretary should utilize existing authorities to train volunteer firefighters for use in fire emergencies. The Secretaries should assess the capabilities of educational institutions and other public and private organizations to provide such training programs.

(b) DEFINITION.—For the purposes of this section, the term "educational institutions" shall include institutions established pursuant to the Act of July 2, 1862 (7 U.S.C. 301 et seq., commonly known as the "Morrill Act"), or the Act of August 30, 1890 (7 U.S.C. 321 et seq., commonly known as the "Second Morrill Act").

(c) MOBILIZATION OF LOCAL EQUIPMENT.—Not later than one year after the date of enactment of this Act—

(1) The Secretary of Agriculture shall submit to the Congress information with respect to regions of the National Forest System, and

(2) The Secretary of the Interior shall submit to the Congress information with respect to the Bureau of Land Management public lands on a State-by-State basis and each region of the National Park System.

that documents mobilization plans that provide for the use of firefighting equipment in case of fire emergencies that may occur in each such area that may be highly prone to disastrous forest fires.

(d) PRESUPPRESSION NEEDS.—Not later than one year after the date of enactment of this Act, information from the Secretary of Agriculture on presuppression needs for each region of the National Forest system and information from the Secretary of the Interior on the presuppression needs for each region of the National Park System and for each State unit of the Bureau of Land Management shall be submitted to Congress. These reports shall include needs, including an estimate of the funds required, for fire prevention, fuel reduction, training and seasonal fire crews.

SEC. 204. VOLUNTEER COMPENSATION FOR LOSSES AND DAMAGES.

(a) NATIONAL FORESTS.—Section 3 of the Volunteers in the National Forests Act of 1972 (16 U.S.C. 558c) is amended by adding the following new subsection:

"(d) For the purposes of claims relating to damage to, or loss of, personal property of a volunteer incident to volunteer service, a volunteer under this Act shall be considered a Federal employee, and the provisions of 31 U.S.C. 3721 shall apply.".

(b) NATIONAL PARKS.—Section 3 of the Volunteers in the Parks Act of 1969 (16 U.S.C. 18i) is amended by adding the following new subsection:

"(d) For the purposes of claims relating to damage to, or loss of, personal property of a volunteer incident to volunteer service, a volunteer under this Act shall be considered a Federal employee, and the provisions of 31 U.S.C. 3721 shall apply.".

(c) BUREAU OF LAND MANAGEMENT.—Section 307(f) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1737(f)) is amended to read as follows:

"(f) Volunteers shall not be deemed employees of the United States except for the purposes of—

(1) the tort claims provisions of title 28;

(2) subchapter 1 of chapter 81 of Title 5; and

(3) claims relating to damage to, or loss of, personal property of a volunteer incident to volunteer service, in which case the provisions of 31 U.S.C. 3721 shall apply.".

The SPEAKER pro tempore. Is a second demanded?

Mr. MORRISON of Washington. Mr. Speaker, I demand a second.

The SPEAKER. Without objection, a second will be considered as ordered.

There was no objection.

The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes, and the gentleman from Washington [Mr. MORRISON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 1011, as amended, the Wildfire Disaster Recovery Act.

During the summer and fall of 1987, disastrous fires swept through many parts of the Western States, destroying millions of acres of national forest lands and upsetting the lives of many of those who depend on these forests for their livelihoods. In the following year, many of us watched a similar scenario unfold as wildfires swept through Montana, Idaho, and Wyoming, nearly destroying one of the jewels of the National Park System—Yellowstone National Park.

These wildfires have had a devastating effect on the natural resources of the affected areas—the timber, fish and wildlife habitat, recreation, and wilderness resources. But the fires also have had a significant impact on communities in and around these areas whose economies depend on timber, recreation, and tourism from the forests, parks, and public lands that were destroyed by the fires.

H.R. 1011, as amended, would provide the means to promote a more efficient and effective recovery for the people and communities affected by the devastating wildfires of the past two years. In addition, the bill would lay the groundwork for better preparedness against the threat of future wildfires.

Title I of H.R. 1011, as amended, would establish a 25-member National Commission on Wildfire Disasters. Members of the Commission would be appointed by the Secretaries of Agriculture and the Interior—13 to be appointed by the former and 12 by the latter. Appointments are to reflect a broad range of the disciplines and expertise needed to fulfill the Commission's charge of studying how the wildfires affected national forests and parks and Bureau of Land Management public lands and associated communities, and making recommendations necessary to ensure a smooth and timely recovery from the devastating effects of these fires. In making appointments to the commission, each Secretary is to consider recommendations received from the chairman and ranking members of the respective House and Senate committees of jurisdiction.

The Commission members are to serve without compensation and the costs of establishing and administering the commission are to come solely from private contributions. In addition, the aggregate amount of contributions from any one person, group, or entity will not exceed 10 percent of the total amount contributed to the Commission.

The Commission is to complete its study and report to the Secretaries of Agriculture and Interior not later than December 1, 1991, on the results of its study and any recommendations it may offer based on its findings.

Title II of H.R. 1011, as amended, is intended to facilitate future forest firefighting planning and cooperation. To do so, the Secretaries are directed to complete annual reports on the rehabilitation needs resulting from forest fire damage for the public lands within their jurisdiction. In addition, each Secretary is directed to offer annual training programs to certify volunteers for suppressing forest fires in the event that such volunteers are needed.

Title II of H.R. 1011, as amended, would also require the Secretaries of Agriculture and Interior to submit reports to Congress within one year of enactment of the bill to document local mobilization plans for emergency firefighting equipment in areas of national forests, parks, and Bureau of Land Management public lands that are prone to forest fires. Finally, H.R. 1011, as amended, would designate volunteers engaged in firefighting on public lands, national forests, and national parks as Federal employees for the purposes of damage claims and loss of personal property incident to their volunteer services.

Mr. Speaker, H.R. 1011, as amended, should help the Forest Service, Park Service, and Bureau of Land Management aid those communities that were devastated by wildfires in 1987 and 1988 develop programs and plans for a full recovery. In addition, the bill will help improve the preparedness of all agencies in dealing with future wildfires.

I urge my colleagues to support H.R. 1011, as amended.

Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri, [Mr. VOLKMER], the chairman of the Subcommittee on Forests, Family Farms, and Energy of the Committee on Agriculture.

Mr. VOLKMER. Mr. Speaker, I rise in support of H.R. 1011, as amended, the Wildfire Disaster Recovery Act. Our colleague, the gentleman from California [Mr. HERGER], developed this proposal during the 100th Congress in response to devastating wildfires that swept through the West in 1987 and 1988. Through the creation of a national Commission to review the impacts of these wildfires, the bill seeks to enhance the role of local communities in advising the Federal Government regarding rehabilitation of the burned areas.

The bill was originally directed only at the National Forest System. However, at the suggestion of our colleagues on the Interior and Insular Affairs Committee, the scope of the study was increased to encompass lands undermanaged by the National Park Service and the Bureau of Land Management as well. This expansion of the Commission's charge will allow for a sensible, comprehensive review of the impacts of wildfires on all types of Federal lands.

The Commission, which would be composed of individuals representing a wide range of interests, would be financed through private contributions, and would submit a report to the Secretaries of Agriculture and the Interior containing findings and recommendations with respect to the future management of public lands.

Similar legislation was approved by the Agriculture Committee during the 100th Congress, but was not considered by the House. I commend the gentleman from California for his diligence in pursuing this effort, and I also appreciate the cooperation of the gentleman from Minnesota [Mr. VENTO], the chairman of the Public Lands Subcommittee, in working out some of his concerns with the bill.

Mr. Speaker, I support this bill and look forward to reviewing the report the Commission will submit.

Mr. MORRISON of Washington. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from California [Mr. HERGER], the author of this particular legislation.

Mr. HERGER. Mr. Speaker, this legislation was first introduced following fires that burned over 400,000 acres of national forest in my district 2 years ago. Last year, another series of fires burned nearly a million acres in Yellowstone National Park. In both cases, residents from the affected areas expressed the view that local resources and talents could have been utilized to minimize damage and assist in recovery.

In December 1988, a joint USDA/Interior Department fire management policy review team recommended that agencies increase opportunities for public involvement and coordination with State and local governments when revising or developing fire management plans. H.R. 1011 would do precisely this by assembling knowledgable people from all segments of our communities and timber-producing regions of the Nation. Their insights would be utilized to develop effective recommendations to the Secretaries of Agriculture and Interior regarding Federal policy.

This legislation is based on the experience of a local task force which we assembled in my district in response to the 1987 fires. I know firsthand that improved coordination and communication with those from fire-prone areas is helpful in preparing for and responding to the consequences of future fires.

I greatly appreciate the willingness of members of both the Interior and

29-059 O-90-22 (Pt. 20)

Agriculture Committees to work with us to ensure that this legislation will improve our Federal response to disastrous wildfires on all Federal lands. I especially want to thank the chairman and ranking member of the National Parks and Public Lands Subcommittee for working with me to enable this bill to come to the floor today.

I urge all of my colleagues to support this legislation.

Mr. MORRISON of Washington. Mr. Speaker, I yield 2 minutes to the gentleman from Idaho [Mr. CRAIG].

Mr. CRAIG. Mr. Speaker, I rise in support of H.R. 1011, the Natural Resources Disaster Recovery Act of 1989. I would like to thank the honorable chairman of the Agriculture Committee, Mr. DE LA GARZA, the chairman of the Subcommittee on Forest, Family Farms and Energy, Mr. VOLKMER, the chairman of National Parks and Public Lands, Mr. VENTO, and the author of this legislation, Mr. HERGER, for the fine work that they have done to bring this important piece of legislation to the floor.

In the past 3 years thousands of acres of timber have burnt in the Western United States. The impact of these devastating fires have had enormous impacts on the citizens of the West and the Nation as a whole.

H.R. 1011 requires the Secretaries of Agriculture and Interior to take a close look at the effects these fires have had on communities. The legislation creates a 25-person commission to undertake this evaluation and to report their findings back to Congress. A study of this sort is desperately needed and will be of great benefit in helping the Congress to understand and react in the future to the devastation that takes place to local economies and environments, as a result of wildfire.

A portion of this legislation calls for an evaluation of the effects wildfires, that have occurred in the last 3 years, have had on biodiversity in burned areas. I would like to make clear that the concept of biodiversity is not well defined, and that this legislation intends to only look at the effect fire has had on very specific areas. It is not intended to give authority to explore the definition or application of biodiversity on National Forest, National Parks or Public Lands as a whole.

Mr. Speaker, I urge passage of H.R. 1011.

□ 1340

Mr. MORRISON of Washington. Mr. Speaker, I yield myself such time as I may consume.

I urge the passage of this legislation, and would point out this National Commission on Wildlife Disasters is, in fact, temporary. We feel it is appropriate for the circumstances.

Mr. VENTO. Mr. Speaker, I support H.R. 1011, which would create a National Commission on Wild Fire Disasters. We have worked closely with the Agriculture Committee and with the minority to improve the bill to ensure that the Commission has a balanced composition and a balanced mandate. I appreciate the cooperation of Chairman VOLKMER, Chairman DE LA GARZA, and the ranking minority member on my subcommittee, Mr. MARLENEE, and Congressman HERGER, in supporting these changes.

I would like to highlight some important provisions to the bill that have been included in this rewrite.

First, the scope of the bill now encompasses lands and programs of the National Park Service and the Bureau of Land Management, as well as those of the Forest Service.

Second, the markup of the Commission has been expanded to include scientists from the academic community, wildlife biologists, fire ecologists, members of environmental organizations, members of private, nonprofit forestry and national park organizations and employees of the Departments of the Interior and Agriculture.

Third, the mandate of the Commission has been expanded to include the effects of wildfires on the current and future economy of affected communities, on national parks, on BLM public lands, on wilderness areas, and on the biodiversity of affected areas. As the Commission studies the effects of wildfire on biodiversity, it is our intent that the Commission use the definition developed by the Forest Service. In congressional testimony as well as other documents, the Forest Service defines biodiversity as "the variety of genes, species, plant and animal communities and processes through which organisms interact." Fire plays an important role in creating and maintaining this variety, and it is important that the Commission recognize this role and address it.

Fourth, in addition to reports on fire rehabilitation needs and fire equipment mobilization plans, the bill now directs the Secretaries of Agriculture and the Interior to submit a report to Congress on fire presuppression needs, as well. A decline during the past decade in fire prevention programs, fuels reduction efforts and the number of trained seasonal firefighters for initial attack to keep fires small, was a cause of the severity of the 1987 and 1988 fire seasons. The two Secretaries need to study this problem and report to Congress on how it can be corrected.

Fifth, and finally, the bill has been changed so that National Park Service and Bureau of Land Management volunteers, as well as Forest Service volunteers, would be compensated in case of loss of personal property while carrying out their duties as volunteers.

These improvements have made H.R. 1011 a bill which I can support. Although I still have some reservations about the bill, I am gratified by the bipartisan spirit of cooperation expressed by my colleagues in agreeing to these changes.

Mr. MORRISON of Washington. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and pass the bill, H.R. 1011, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: a bill to provide for the establishment of the National Commission on Wildfire Disasters, to provide for increased planning and cooperation with local firefighting forces in the event of forest fires, and for other purposes.

A motion to reconsider was laid on the table.

EARTHQUAKE DISASTER ASSISTANCE COVERAGE

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3589), to amend the Disaster Assistance Act of 1989 to provide assistance to agricultural producers suffering from earthquakes, as amended.

The Clerk read as follows:

H.R. 3589

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ANNUAL COSTS.

(a) NONPROGRAM CROPS.—Section 104(d)(1) of the Disaster Assistance Act of 1989 is amended by inserting "ornamentals affected by earthquakes and" after "(including".

(b) DEFINITIONS.—Section 112(1) of such Act is amended by inserting "earthquake," after "hurricane,".

SEC. 2. ORCHARDS.

(a) ELIGIBILITY.—Section 121(a) of the Disaster Assistance Act of 1989 is amended to read as follows:

"(a) LOSS.—Subject to the limitation in subsection (b), the Secretary of Agriculture shall provide assistance, as specified in section 122, to eligible orchardists that planted trees for commercial purposes but lost such trees as a result of freeze, earthquake, or related condition in 1989, as determined by the Secretary.".

(b) ASSISTANCE.—Section 122(1) of such Act is amended by inserting ", earthquake," after "freeze".

SEC. 3. FOREST CROPS.

(a) ELIGIBILITY.—Section 131(a) of the Disaster Assistance Act of 1989 is amended to read as follows:

"(a) LOSS.—Subject to the limitation in subsection (b), the Secretary of Agriculture shall provide assistance, as specified in section 132, to eligible tree farmers that planted tree seedlings in 1988 or 1989 for commercial purposes but lost such seedlings as a result of drought, earthquake, or related condition in 1989, as determined by the Secretary.".

(b) ASSISTANCE.—Section 132(1) of such Act is amended by inserting ", earthquake," after "drought".

SEC. 4. DISASTER ASSISTANCE FOR RURAL BUSINESS ENTERPRISES.

Section 401 of the Disaster Assistance Act of 1989 is amended—

(1) in paragraph (a)(1), by inserting "earthquake," after "excessive moisture,"; and

(2) in paragraph (c)(2), by striking out "$200,000,000" and inserting "$300,000,000".

The SPEAKER pro tempore. Is a second demanded?

Mr. MORRISON of Washington. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes and the gentleman from Washington [Mr. MORRISON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3589, to amend the Disaster Assistance Act of 1989 to provide assistance to agricultural producers suffering from earthquakes.

H.R. 3589 is intended to provide emergency assistance to agricultural producers and related businesses that were impacted by the Loma Prieta earthquake on October 17, 1989. The bill would extend the same benefits to victims of the earthquake as were provided farmers and agricultural businesses that were affected by drought and damaging weather earlier this year.

H.R. 3589 would amend the Disaster Assistance Act of 1989 to redefine damaging weather to include earthquakes. In this way, producers of program and nonprogram crops who suffered production losses in excess of specific thresholds would receive payments to cover a portion of their losses. Benefits would also extend to orchardists who lost trees due to the earthquake and to tree farmers, in the form of reimbursement for the cost of replanting tree seedlings lost due to the earthquake.

H.R. 3589 would also clarify that the definition of "nonprogram crops" for the purpose of qualifying for benefits under this bill, includes "ornamentals affected by earthquake." Growers of roses and cut flowers, especially those produced in greenhouses, suffered considerable damage due to the earthquake and would thus qualify for disaster benefits under H.R. 3589.

In addition, to help farmers and related businesses rebuild, those who suffered damage due to the earthquake would qualify for loans under the business and industry loan program administered by the Farmers Home Administration. H.R. 3589 would provide an additional $100 million in loan guarantees to support this program which would support loans for cleanup and salvage operations, repair of equipment and buildings, damage to inventory, and losses resulting from business interruptions that were associated with the earthquake.

Mr. Speaker, H.R. 3589 can provide needed assistance to agricultural producers and related businesses that suffered damage and losses due to the earthquake. This assistance is timely and important to help rebuild a critical part of American agriculture.

I urge our colleagues to support passage of H.R. 3589.

Mr. MORRISON of Washington. Mr. Speaker I yield myself such time as I may consume.

Mr. Speaker, I agree with the chairmen, the gentleman from Texas [Mr. DE LA GARZA]. This is a bill brought to Members by the distinguished chairman of the Committee on the Budget, the gentleman from California [Mr. PANETTA], and includes earthquakes as a cause of loss, and expands the definition to include a variety of agricultural products, which did suffer dramatic losses in the recent California earthquake.

It is worthy of our support.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to our distinguished colleague, the author of the legislation, the gentleman from California [Mr. PANETTA].

Mr. PANETTA. Mr. Speaker, I rise in support of H.R. 3589, the Earthquake Disaster Assistance Act of 1989.

The Loma Prieta earthquake, which was centered in Santa Cruz County, CA, did significant damage to the farms, packing houses, and processing facilities in my district. A full estimate of the damages resulting from the earthquake is not yet available. However, it is already clear that the damages will be substantial and the rebuilding process an expensive one.

Santa Cruz County grosses $168 million annually from agricultural production which is the mainstay of the county. A preliminary estimate of agricultural damages due to the earthquake in the county is $15 million. These losses were the result of damage to crops, storage and processing structures, farm and processing equipment, and business interruptions due to losses of supplies, labor, and transportation.

In Watsonville, a small agricultural community of 30,000, the quake did more than $2 million in damage. Apples were literally shaken off the trees; fresh strawberries and other produce were lost in storage due to power outages; and the quake leveled a 1-acre greenhouse containing miniature carnations.

In other parts of northern California, extensive damage was suffered by flower growers, wineries, fruit and vegetable canneries, and processing facilities.

H.R. 3589 would simply extend the same benefits to the producers of program and nonprogram crops, including ornamentals, affected by the earthquake, as were received by farmers who suffered losses due to damaging weather in other parts of the country. These benefits would include payments for losses in production suffered due to the earthquake as well as the availability of loan guarantees to help rebuild farms and businesses damaged by the quake. This aid is essential if the agricultural industry in northern California is to rebuild and the communities that are associated with this industry are to once again prosper.

Mr. Speaker, I want to thank the chairman of the Committee on Agriculture, Hon. E (KIKA) DE LA GARZA, and the ranking minority member, Hon. EDWARD MADIGAN, for helping to expedite consideration of H.R. 3589. Their concern and compassion for those who have suffered is greatly appreciated.

The Congress responded quickly to the needs of northern California by passing a relief package soon after the earthquake hit. For this, all Californians are grateful. Unfortunately, that relief package failed to provide the aid that farmers and agricultural businesses need to get back on their feet.

H.R. 3589 can provide that assistance. It is one more element in the formula that will be needed to help us recover from the devastating effects of the Loma Prieta quake.

I hope that the Members of the House can find it in their hearts to provide this help and vote in support of H.R. 3589.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. SPEAKER pro tempore. The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and pass the bill, H.R. 3589, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

AMENDMENTS TO MEAT AND POULTRY INSPECTION ACTS

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2134) to amend the Federal Meat Inspection Act to authorize the distribution of wholesome meat for human consumption that has been

condemned under that act to charity and public agencies, as amended.

The Clerk read as follows:

H.R. 2134

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DISTRIBUTION OF CERTAIN MEAT TO CHARITY AND PUBLIC AGENCIES.

Section 403(a) of the Federal Meat Inspection Act (21 U.S.C. 673(a)) is amended—

(1) in the first sentence, by redesignating clauses (1) through (3) as clauses (A) through (C), respectively;

(2) by designating the first through fourth sentences as paragraphs (1) through (4), respectively;

(3) in paragraph (2) (as so designated), by inserting after "entry of the decree," the following: "(A) be distributed in accordance with paragraph (5), or (B)"; and

(4) by adding at the end thereof the following new paragraph:

"(5)(A) An article that is condemned under paragraph (1) may as the court may direct, after entry of the decree, be distributed without charge to nonprofit, private entities or to Federal, State, or local government entities engaged in the distribution of food without charge to individuals, if such article—

"(i) has been inspected under this Act and found to be wholesome and not to be adulterated within the meaning of paragraphs (1) through (7) and (9) of section 1(m) and a determination is made at the time of the entry of the decree that such article is wholesome and not so adulterated; and

"(ii) is plainly marked 'Not for Sale' on such article or its container.

"(B) The United States may not be held legally responsible for any article that is distributed under subparagraph (A) to a nonprofit, private entity or to a Federal, State, or local government entity, if such article—

"(i) was found after inspection under this Act to be wholesome and not adulterated within the meaning of paragraphs (1) through (7) and (9) of section 1(m) and a determination was made at the time of the entry of the decree that such article was wholesome and not so adulterated; and

"(ii) was plainly marked 'Not for Sale' on such article or its container.

"(C) The person from whom such article was seized and condemned may not be held legally responsible for such article, if such article—

"(i) was found after inspection under this act to be wholesome and not adulterated within the meaning of paragraphs (1) through (7) and (9) of section 1(m) and a determination was made at the time of the entry of the decree that such article was wholesome and not so adulterated; and

"(ii) was plainly marked 'Not for Sale' on such article or its container.".

SEC. 2. DISTRIBUTION OF CERTAIN POULTRY PRODUCTS TO CHARITY AND PUBLIC AGENCIES.

Section 20(a) of the Poultry Products Inspection Act (21 U.S.C. 467(a)) is amended—

(1) in the first sentence, by redesignating clause (1) through (3) as clauses (A) through (C), respectively;

(2) by designating the first through fourth sentences as paragraphs (1) through (4), respectively;

(3) in paragraph (3) (as so designated), by inserting after "entry of the decree," the following: "(A) be distributed in accordance with paragraph (5), or (B)"; and

(4) by adding at the end thereof the following new paragraph:

"(5)(A) An article that is condemned under paragraph (1) may as the court may direct, after entry of the decree, be distributed without charge to nonprofit, private entities or to Federal, State, or local government entities engaged in the distribution of food without charge to individuals, if such article—

"(i) is capable of use as a human food;

"(ii) has been inspected under this Act and found to be wholesome and not to be adulterated within the meaning of paragraphs (1) through (7) of section 4(g) and a determination is made at the time of the entry of the decree that such article is wholesome and not so adulterated; and

"(iii) is plainly marked 'Not for Sale' on such article or its container.

"(B) The United States may not be held legally responsible for any article that is distributed under subparagraph (A) to a nonprofit private entity or to a Federal, State, or local government entity, if such article—

"(i) was found after inspection under this Act to be wholesome and not adulterated within the meaning of paragraphs (1) through (7) of section 4(g) and a determination was made at the time of the entry of the decree that such article was wholesome and not so adulterate; and

"(ii) was plainly marked 'Not for Sale' on such article or its container.

"(C) The person from whom such article was seized and condemned may not be held legally responsible for such article, if such article—

"(i) was found after inspection under this Act to be wholesome and not adulterated within the meaning of paragraphs (1) through (7) of section 4(g) and a determination was made at the time of the entry of the decree that such article was wholesome and not so adulterated; and

"(ii) was plainly marked 'Not for Sale' on such article or its container,".

The SPEAKER pro tempore. Is a second demanded?

Mr. MORRISON of Washington. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes, and the gentleman from Washington, [Mr. MORRISON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 2134, as amended, a bill to authorize the distribution of wholesome meat and poultry products for human consumption that has otherwise been condemned, to charitable private organization and public agencies for feeding the hungry.

For far too many years, this Congress has fought to keep up with the needs of the hungry in America. Yet, despite our efforts, many Americans continue go to bed hungry every night.

The problem of hunger in America has been exacerbated by the growth in recent years of the number of Americans whose incomes place them below the poverty level. Nearly 33 million Americans lived in poverty in 1987, including one out of every four children.

H.R. 2134, as amended, is intended to provide one more tool to aid those who seek to stem the increasing tide of hunger in America. This bill would permit the courts to donate certain meat and poultry products which are confiscated by the Government to private, charitable organizations and Government entities for the purpose of distribution to the hungry.

In accordance with the Federal Meat Inspection Act and the Poultry Products Insepction Act, meat and poultry products that are mislabeled or otherwise not in compliance with those acts must be confiscated and condemned by USDA inspectors. Should the owner of the product challenge the seizure in the courts and lose or agree to settle such matters in a manner which leaves the meat or poultry products in the Government's possession, the court is responsible for its disposal. Currently, the court has only two options for disposing of this product. It can either destroy it or, in cases in which the product is wholesome, it can sell it.

H.R. 2134, as amended , would provide the courts with a third option for disposing of wholesome, confiscated meat and poultry products by permitting the courts to donate them for feeding the hungry. In order to do so, the product must be deemed wholesome for human consumption by USDA inspectors and must be clearly marked "not for sale."

In those instances in which the court chooses to donate this product to private, nonprofit charitable organizations or Federal, State, or local entities engaged in the distribution of food to the hungry, H.R. 2134, as amended, would also protect the United States and the person from whom the product was seized and condemned from legal responsibility for the product if it is wholesome and properly marked.

Mr. Speaker, H.R. 2134, as amended, provides one more means of aiding the poor and the hungry. It offers a commonsense approach for using meat and poultry products that are fit for human consumption, but, due to mislabelling or other violation of law, must be condemned and disposed of by the Government.

I complement the gentleman from Florida [Mr. SMITH] for introducing this legislation and urge our colleagues to support the passage of H.R. 2134, as amended.

Mr. EMERSON. Mr. Speaker. I rise in strong support of H.R. 2134, a bill that amends the Federal Meat Inspection Act and the Poultry Products Act to authorize the distribution of wholesome meat to charitable and public agencies. This bill was introduced by our colleague, Mr. SMITH of Florida, and I congratu-

late him and support the measure before the House of Representatives today. I also wish to thank my chairman, the gentleman from Texas, for bringing this bill before the House today.

H.R. 2134 provides that meat or poultry that is condemned because it was misbranded, but is wholesome, may be donated to charitable organizations or entities providing food to needy families or individuals. The meat and poultry must be inspected under the applicable laws and must be wholesome and unadulterated. In addition, the bill before the House provides that the United States or the person from whom the article was seized may not be held legally responsible for any article distributed, provided proper inspection has occurred.

I have a particular interest in this bill and in ensuring that commodities are provided to needy families. One program that is of particular interest and governs the distribution of commodities is the temporary emergency food assistance program, better known as TEFAP. The purpose of TEFAP is twofold: To reduce inventories of Department of Agriculture commodities and to stabilize markets and to provide wholesome food to people in need.

Since the initiation of TEFAP, more than 5 billion pounds of commodities, worth more than $5 billion, have been provided to States for distribution to needy families and individuals. However, in 1988 the amount and the type of commodities available through USDA began to phase down due to the reduction in the level of available commodities. Because of my concern about TEFAP and knowing how important that program is, the Hunger Prevention Act of 1988 included a provision for additional commodities for TEFAP. A total of $240 million, over a 2-year period, was authorized. Additionally $112 million was authorized for the purchase of commodities for soup kitchens and food banks.

Examples of the types of commodities available include flour, cornmeal, butter, peanut butter, raisins, and canned pork.

In addition to the programs distributing commodities, the USDA is operating three demonstration projects, one of which is in Sikeston, MO, in which additional commodities are made available. The purpose of this demonstration project is to learn whether the food bank network is a viable outlet for the distribution of foods that are available sporadically due to market or other conditions. Meat and poultry made available through the bill before us today could fit very nicely into those food bank demonstration projects.

Again I congratulate my chairman and the gentleman from Florida for the bill before us today. I urge my colleagues to support H.R. 2134.

Mr. MORRISON of Washington. Mr. Speaker, I yield myself such time as I may consume.

I certainly agree with the comments of our distinguished chairman, the gentleman from Texas [Mr. DE LA GARZA]. These meat products are wholesome, but misbranded, both meat and poultry, and the opportunity to have the meat be utilized through our feeding, perhaps with the needy, is obviously very desirable.

I congratulate the gentleman from Florida [Mr. SMITH] for his leadership in this particular area.

Many Members who have worked in this area through the Committee on Agriculture are very pleased with the Temporary Emergency Food Assistance Program. Over $5 billion worth of agricultural items have been distributed to the needy in this country during the decade of the 1980's. This bill adds a new dimension to that, an appropriate dimension, and the Committee on Agriculture is proud to bring it to the full House.

I urge support for H.R. 2134.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the author of this legislation, the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. Mr. Speaker, I rise today in support of H.R. 2134, the Wholesome Meat to Charity Distribution Act. I want to thank the gentleman from Texas, the chairman of the Agriculture Committee, and the other gentleman from Texas, the chairman of the Agriculture Subcommittee on Livestock, Dairy, and Poultry, for their support and expeditious consideration of this important legislation.

On April 26, along with 16 other Members, I introduced the Wholesome Meat to Charity Distribution Act to fill a void in existing law. This legislation has a simple but pragmatic purpose: it will allow Federal courts to donate to charities meat which has been confiscated by the Government but is perfectly wholesome and capable of being used as food.

According to the current law, Federal courts are required to dispense with meat that has come into their possession by either destroying it or reselling it. My bill would provide the courts with a third option: donating the meat to charity.

In many cases, meat is seized by the Federal Government because it is fraudulently mislabeled as being of a higher quality than it is in reality. The fact that this meat has been mislabeled in no way impairs the quality or wholesomeness of the meat. As I mentioned earlier, the courts do not have the authority to donate this food to the neediest segments of American society. I find this situation totally unacceptable considering that millions of our constituents go hungry every day.

Last week when H.R. 2134 was marked up before the Agriculture Committee, subcommittee Chairman STENHOLM offered an amendment to the bill which I support. The bill as amended passed the full committee unanimously. The amendment was technical in nature with the exception of two substantive modifications. First, the bill as amended would apply the changes made by H.R. 2134 to the Meat Inspection Act to the Poultry Products Inspection Act. This will have the effect of allowing the courts to donate to charity wholesome poultry products which come into its possession.

Second, Chairman STENHOLM's amendment gives the Federal judge adjudicating the case the authority to require that the meat or poultry product at issue be reinspected prior to its dispensation to a charitable organization. This provision reaffirms my intention as the bill's author that none of the meat or poultry products affected by this act should be donated to charity unless it has been subjected to, and passed, every applicable inspection procedure prescribed by Federal and State laws. Any meat that fails to satisfy existing inspection procedures is prohibited from being distributed to charity under this act. Simply put, all meat which is donated under this act must pass the same tests as the meat you and I would buy in our local grocery store.

This legislation would cost the American taxpayer no money and would make a significant contribution to our Government's effort to fight hunger in this country. I would urge Members to support its passage.

Mr. Speaker, this bill came as a result of a case where 7,000 pounds of mislabeled meat was confiscated in Miami.

□ 1350

We had it put in the frozen food locker while the case was being adjudicated. A few weeks ago, the defendants, through a plea bargaining agreement, gave up possession and ownership of the meat to feed the Government, 7,000 pounds. The Federal judge, to her credit, and I want to commend her for it, gave this food to the Daily Bread Food Bank, claiming it as a constructive destruction by doing so. She had to engage in legal fiction to do this, but I want to tell my colleagues, Mr. Speaker, that we fed 35,000 people with this meat, and, believe me, the winner in this kind of situation are the hungry and the homeless people of America.

Mr. Speaker, I would urge Members to support its passage.

Mr. STENHOLM. Mr. Speaker, I am pleased to join several of my colleagues, including the distinguished Chairman of the House Committee on Agriculture, Congressman E (KIKA) DE LA GARZA, and the committee's ranking minority Member, Congressman ED MADIGAN, in supporting the passage of H.R. 2134, a bill that amends the Federal Meat Inspection Act and the Poultry Products Inspection Act to authorize the distribution of wholesome meat and poultry for human consumption that has been mislabelled under these acts to charity and public agencies.

This legislation, as amended, would seek to provide hunger aid to those in need by permitting the courts to donate certain meat and poultry products, which are confiscated by the Federal Government, to private, charitable organizations and government entities for the purpose of distribution to the hungry. In doing so, however, this legislation would provide that such products be properly marked and deemed both wholesome and safe for human consumption.

Under current law, the Federal Government is required to dispense with meat and poultry products that have come into its possession by either selling or destroying such products. This legislation would provide the courts with a third option: donating the confiscated wholesome products to charity.

Let me be quick to point out that any meat or poultry products donated to charity as provided under this legislation are still subject to Federal inspection requirements for wholesomeness and safety. Any such products that fail to satisfy existing Federal standards are prohibited from being distributed to charity under legislation.

In closing, I would like to express my sincere appreciation to Chairman DE LA GARZA and Mr. MADIGAN for their support and assistance with this needed legislation. Furthermore, Mr. SMITH of Florida and Mr. JOHNSON of South Dakota deserve considerable praise for developing the initiative and support surrounding H.R. 2134.

Mr. Speaker, I strongly encourage the Members of this body to support this needed legislation.

Mr. JOHNSON of South Dakota. Mr. Speaker, as an original cosponsor of H.R. 2134, I'm pleased to join in urging its passage today.

Our colleague from Florida is to be commended for taking the initiative on this issue after learning that over 7,000 pounds of beef could have been destroyed simply because it was mislabled with the wrong grade. Fortunately, the U.S. District Court of South Florida allowed the meat which had been confiscated by the Federal Government to be donated to a local food bank in Miami. This proposed change in the Federal Meat Inspection Act would provide the courts with the option of donating confiscated meat to nonprofit, charitable organizations or State, local and Federal entities involved in the free distribution of food to the needy. Currently the court has only two options available to it: either sell the meat or destroy it—something that I feel is unthinkable when there are people going to bed hungry in this country.

Again, it is my hope that you will support this bill. It contains provisions to ensure that the meat would be totally safe for human consumption before being donated, and once this has been assured, the United States and the private individuals involved would be released from any liability. This move is strongly supported by Second Harvest, a group which coordinates the distribution of food products to local food banks, and which has affiliates in many States, including my own State of South Dakota. I also want to thank American Meat Institute for giving their support to this effort as well.

Mr. Speaker, thank you, and I urge the passage of this legislation.

Mr. DE LA GARZA. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and pass the bill, H.R. 2134, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

The title was amended so as to read: "A bill to amend the Federal Meat Inspection Act and the Poultry Products Inspection Act to authorize the distribution of wholesome meat and poultry products for human consumption that are not in compliance with the Acts to charity and public agencies."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the three bills previously approved, H.R. 1011, H.R. 3589 and H.R. 2134.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DRUG-FREE SCHOOLS AND COMMUNITIES ACT AMENDMENTS OF 1989

Mrs. UNSOELD. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3614) to amend the Drug-Free Schools and Communities Act of 1986 to revise certain requirements relating to the provision of drug abuse education and prevention programs in elementary and secondary schools, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3614

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Drug-Free Schools and Communities Act Amendments of 1989".

SEC. 2. AUTHORIZATION OF APPROPRIATIONS.

Section 5111(a) of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3181(a)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (A)—

(i) by inserting after "part C" the following: "and section 5136"; and

(ii) by striking "and $20,000,000" and all that follows and inserting the following: "$20,000,000 for the fiscal year 1990, and $35,000,000 for each of the fiscal years 1991, 1992, and 1993."; and

(B) in subparagraph (B), by striking "$230,000,000" and inserting "$215,000,000"; and

(2) by adding at the end the following new paragraph:

"(3) There are authorized to be appropriated for purposes of carrying out section 5136 $15,000,000 for each of the fiscal years 1990, 1991, 1992, and 1993.".

SEC. 3. RESERVATIONS AND STATE ALLOTMENTS.

Section 5112 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3182) is amended—

(1) in subsection (a), by striking "From" and inserting "Except as provided in subsection (c)";

(2) in subsection (b), by striking paragraph (3) and redesignating paragraph (4) as paragraph (3); and

(3) by adding at the end the following new subsections:

"(c) DISTRIBUTION OF APPROPRIATIONS.—The Secretary shall distribute any amounts appropriated or otherwise made available to carry out this title for any fiscal year in the following manner:

"(1) In any year in which the total of such amounts is not more than the total amount appropriated or otherwise made available to carry out this title for the fiscal year 1989, the Secretary shall distribute such total amount as provided in subsections (a) and (b).

"(2) In any year in which the total of such amounts is greater than the total amount appropriated or otherwise made available to carry out this title for the fiscal year 1989, the amount in excess of the total amount appropriated or otherwise made available to carry out this title for the fiscal year 1989 shall be distributed as follows:

"(A) 50 percent of such amount shall be distributed to the States under subsection (b).

"(B) 50 percent of such amount shall be distributed to the States on the basis of the amounts received by each State under part A of title I of chapter 1 for the preceding fiscal year.

"(d) DEFINITION.—For the purposes of this section, the term 'State' means any of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico.".

SEC. 4. USE OF ALLOTMENTS BY STATES.

Section 5121 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3191) is amended—

(1) by amending subsection (a) to read as follows:

"(a) STATE PROGRAM.—For any fiscal year, the chief executive officer of a State shall use for a State program in accordance with section 5122 an amount equal to the lesser of—

"(1) 30 percent of the total amount paid to such State from its allotment under section 5112 for such fiscal year; and

"(2) the amount used by such officer for such program in the fiscal year 1989."; and

"(2) by adding at the end the following new subsection:

"(c) USE OF ADDITIONAL AMOUNTS.—Any amounts received by a State under section 5112(c)(2)(B) shall be used by the State educational agency to make grants to local educational agencies for purposes of carrying out programs in accordance with section 5125. The State educational agency shall

distribute any such amounts among the local educational agencies within the State on the basis of the amounts received by each such local educational agency under part A of title I of chapter 1 for the preceding fiscal year.".

SEC. 5. STATE PROGRAMS.

Section 5122 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3192) is amended—

(1) in subsection (a)—

(A) by striking "50 percent" in the matter preceding paragraph (1) and inserting "17 percent"; and

(B) by striking "local governments" and all that follows through "organizations" and inserting "parent groups, community action agencies, community-based organizations, and other public entities and private nonprofit entities";

(2) by amending paragraph (1) of subsection (b) to read as follows:

"(1) Not less than 50 percent of the funds available under section 5121(a) to the chief executive officer of a State for each fiscal year shall be used for the following:

"(A) Such officer shall first make grants to or enter into contracts with public entities or private nonprofit entities for purposes of providing innovative programs of drug abuse education for all juveniles in detention facilities within the State.

"(B) Such officer shall then—

"(i) make grants to or enter into contracts with public entities or private nonprofit entities for purposes of providing community-based programs of coordinated services that are designed for high-risk youths, including programs that use strategies to improve skills of such youths such as vocational and educational counseling and job skills training, giving priority to assisting community action agencies, community-based organizations, parent groups, and other entities which are representative of communities or significant segments of communities and which have the capability to provide such services; and

"(ii) make grants to private nonprofit organizations to develop new strategies to communicate antidrug abuse messages to youths.";

(3) by redesignating subsection (c) as subsection (d);

(4) by inserting after subsection (b) the following new subsection:

"(c) DRUG-FREE SCHOOL ZONES.—(1) Subject to paragraph (2), not less than 33 percent of the funds available for each fiscal year under section 5121(a) to the chief executive officer of a State—

"(A) in the case of a State that is in compliance with paragraph (2), shall be used to carry out a program to establish and maintain drug-free school zones for schools within the State; and

"(B) in the case of a State that is not in compliance with paragraph (2), shall be distributed in accordance with section 5112(c) to local educational agencies, intermediate educational agencies, and consortia for programs and activities in accordance with section 5125.

"(2)(A) A State shall be in compliance with this paragraph if it has in effect, within the time limitations established by subparagraph (B), a law—

"(i) establishing schools within the State as drug-free school zones; and

"(ii) establishing increased penalties for—

"(I) drug trafficking on school grounds; and

"(II) drug trafficking near school grounds that involves minors.

"(B) The law described in subparagraph (A) shall be enacted not later than—

"(i) the expiration of the 1-year period beginning on the date of the enactment of the Drug-Free Schools and Communities Act Amendments of 1989, in the case of a State in which the legislature meets not less often than annually; and

"(ii) the expiration of the 2-year period beginning on the date of the enactment of the Drug-Free Schools and Communities Act Amendments of 1989, in the case of a State in which the legislature meets biennially.

"(3) A program carried out with assistance under this subsection shall include—

"(A) the determination, with the assistance of municipal authorities and local law enforcement agencies, as appropriate, of the geographical boundaries of schools within the State and the posting of signs identifying school properties as drug-free school zones;

"(B) assisting teachers, administrators, athletic directors, and other school personnel in cooperating fully with law enforcement officials to punish violations of laws relating to drugs;

"(C) informing the community, with, to the extent practicable, the cooperation of the local news media, of the content and intent of the law described in paragraph (2) and the perimeters of the drug-free school zones;

"(D) employing, as a resource for advice and support with respect to implementation of the law described in paragraph (2), the services of the local or substate regional advisory council on drug abuse education and prevention established or designated by the local application submitted under section 5126(a); and

"(E) communication to students, teachers, athletic directors, and other school personnel by administrators that activities that are illegal and harmful to the health and well-being of the students will not be tolerated within each school and its surrounding environment."; and

(5) in paragraph (1) of subsection (d) (as redesignated by paragraph (3) of this subsection) by striking "or (b)" and inserting ", (b), or (c)".

SEC. 6. STATE APPLICATIONS.

Subsection (b) of section 5123 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3193) is amended—

(1) in paragraph (7), by inserting before the semicolon the following: ", and judicial officials";

(2) by striking "and" at the end of paragraph (10);

(3) by striking the period at the end of paragraph (11) and inserting "; and"; and

(4) by adding at the end of the following new paragraph:

"(12) include a plan for providing innovative programs of drug abuse education for all juveniles in detention facilities within the State as required by section 5122(b)(1)(A).".

SEC. 7. RESPONSIBILITIES OF STATE EDUCATIONAL AGENCIES.

Section 5124 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3194) is amended—

(1) by amending subsection (a) to read as follows:

"(a) GRANTS TO LOCAL AND INTERMEDIATE EDUCATIONAL AGENCIES.—(1) Each State educational agency shall use a sum which shall not be less than 90 percent of the amounts available under section 5121(b) for each fiscal year for grants to local educational agencies, intermediate educational agencies, and consortia in the State, in accordance with applications approved under section 5126.

"(2) From the sum described in paragraph (1), the State educational agency shall distribute funds for use among local educational agencies, intermediate educational agencies, and consortia in the State on the basis of the relative enrollments in public schools and private nonprofit schools served by such agencies and consortia.

"(3)(A) Not later than July 1 of each year, the State educational agency shall inform each local educational agency, intermediate educational agency, and consortium in the State of the amount allocated to such agency or consortium from amounts available under section 5121(b). If a local educational agency chooses not to apply to receive the amount allocated to such agency under this subsection, the State educational agency—

"(i) shall distribute such amount to the intermediate educational agency serving such local educational agency; or

"(ii) may, if it is able to facilitate the arrangement of a consortium among local educational agencies in the State that choose not to apply to receive the amounts allocated to such agencies under this subsection, distribute such amount to such consortium.

"(B) The State educational agency shall distribute to a local educational agency, intermediate educational agency, or consortium the amount allocated to such agency or consortium from amounts available under section 5121(b) upon the approval of an application for such agency under section 5126.

"(4)(A) Except as provided in subparagraph (B), upon the expiration of the 1-year period beginning on the date that a local educational agency, intermediate educational agency, or consortium under this subsection receives its allocation under this subsection—

"(i) such agency or consortium shall return to the State educational agency any funds from such allocation that remain unobligated; and

"(ii) the State educational agency shall reallocate any such amount to local educational agencies, intermediate educational agencies, or consortia that have plans for using such amount for programs or activities on a timely basis.

"(B) In any fiscal year, a local educational agency, intermediate educational agency, or consortium may retain for obligation in the succeeding fiscal year—

"(i) an amount equal to not more than 25 percent of the allocation it receives under this subsection for such fiscal year; or

"(ii) upon a demonstration of good cause by such agency or consortium, a greater amount approved by the State educational agency."; and

(2) in subsection (b)—

(A) in paragraph (2), by inserting after "materials" the following: "that clearly and consistently teach that illicit drug use is harmful"; and

(B) in paragraph (5), by striking "2.5 percent" and all that follows and inserting "5 percent of the amounts available under subsections (b) and (c) of section 5121.".

SEC. 8. LOCAL DRUG ABUSE EDUCATION AND PREVENTION PROGRAMS.

Section 5125 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3195) is amended—

(1) in subsection (a)—

(A) in paragraph (2), by inserting before the semicolon the following: ", which—

"(A) should, to the extent practicable, employ counselors whose sole duty is to provide drug abuse prevention counseling to students;

"(B) may include the use of drug-free older students as positive role models and instruction relating to—

"(i) self-esteem;

"(ii) drugs and drug addiction;

"(iii) decisionmaking and risk-taking;

"(iv) stress management techniques; and

"(v) assertiveness; and

"(C) may bring law enforcement officers into the classroom to provide antidrug information and positive alternatives to drug use, including decisionmaking and assertiveness skills";

(B) in paragraph (4)—

(i) by inserting "and intervention" after "drug abuse prevention"; and

(ii) by striking the semicolon at the end and inserting the following: ", which may include—

"(A) the employment of counselors, social workers, psychologists, or nurses who are trained to provide drug abuse prevention and intervention counseling; or

"(B) the provision of services through a contract with a private nonprofit organization that employs individuals who are trained to provide such counseling;";

(C) in paragraph (8), by striking "educational personnel" and inserting "school personnel";

(D) by striking "and" at the end of paragraph 13;

(E) by redesignating paragraph (14) as paragraph (15); and

(F) by inserting after paragraph (13) the following new paragraph:

"(14) in the case of a local educational agency that demonstrates that the agency provides sufficient drug and alcohol abuse education during regular school hours, after-school care programs that provide drug and alcohol abuse education for school aged children and that may include school-sponsored sports or recreational activities; and"; and

(2) by adding at the end the following new subsection:

"(c) COMBINATION OF FUNDS WITH FUNDS FROM OTHER PROGRAMS.—(1) Notwithstanding any other provision of law, a State educational agency may waive any requirement established with respect to a program assisted under this title in order to allow a local educational agency, intermediate educational agency, or consortium to combine, for purposes of providing activities relating to drug and alcohol abuse education, funds made available to such agency or consortium under this title with funds made available to such agency or consortium under a covered program.

"(2) For the purpose of this subsection, the term 'covered program' means a program assisted under any of the following:

"(A) The Community Services Block Grant Act.

"(B) Part D of title II of the Juvenile Justice and Delinquency Prevention Act of 1974.

"(C) Subtitle B of title III of the Anti-Drug Abuse Act of 1988.

"(D) Part B of title II of the Job Training Partnership Act.

"(E) Part B of title IV of the Job Training Partnership Act.".

SEC. 9. LOCAL APPLICATIONS.

Section 5126 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3196) is amended—

(1) in subsection (a)—

(A) in paragraph (1), by inserting before the period the following: "before the expiration of the 120-day period beginning on the date that the State educational agency notifies the local educational agency, intermediate educational agency, or consortium of the amount allocated to such agency or consortium under section 5124(a).''; and

(B) in paragraph (2)—

(i) in subparagraph (H), by inserting before the semicolon the following: "and with appropriate community-based organizations";

(ii) by striking "and" at the end of subparagraph (L);

(iii) by redesignating subparagraph (M) as subparagraph (R); and

(iv) by inserting after subparagraph (L) the following new subparagraphs:

"(M) describe how the applicant will ensure that the schools will be an important part of a community-wide effort to achieve a drug-free population;

"(N) describe how, to the extent practicable, assistance provided under this title will be used to provide trained counselors, social workers, psychologists, and nurses to carry out drug abuse prevention and intervention activities in addition to any individuals so employed by the applicant on the date of the enactment of the Drug-Free Schools and Communities Act Amendments of 1989;

"(O) provide assurances that the applicant will maintain and make available for distribution a list of local resources for substance abuse counseling and treatment;

"(P) provide assurances that the applicant has reviewed curricula that it intends to use and that such curricula will meet the needs of the schools served by the applicant;

"(Q) describe the training that will be provided for teachers and other personnel who are involved in the implementation of programs to be carried out by the applicant under this part; and"; and

(2) by amending paragraph (1) of subsection (b) to read as follows:

"(1) Each applicant shall annually submit to the State educational agency a progress report on the implementation of its plan. The progress report shall include—

"(A) the applicant's significant accomplishments under the plan during the preceding year;

"(B) the extent to which the original objectives of the plan are being achieved;

"(C) a discussion of the method used by the applicant to evaluate the effectiveness of its drug education program carried out under its plan; and

"(D) the results of the evaluation described in subparagraph (C).".

SEC. 10. REPORTS.

Subsection (a) of section 5127 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3197) is amended—

(1) in the first sentence, by striking "a biennial" and inserting "an annual";

(2) in paragraph (3)—

(A) by striking "and" at the end of subparagraph (F);

(B) by striking the period at the end of subparagraph (G) and inserting "; and"; and

(C) by adding at the end the following new subparagraph:

"(H) an evaluation of the effectiveness of State and local drug and alcohol abuse education and prevention programs.".

SEC. 11. TRAINING OF TEACHERS, COUNSELORS, AND SCHOOL PERSONNEL.

(a) AMENDMENT TO PART HEADING.—The heading for part C of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3198 et seq.) is amended to read as follows:

"PART C—TRAINING OF TEACHERS, COUNSELORS, AND SCHOOL PERSONNEL".

(b) PROGRAM AND ALLOCATIONS.—Subsection (b) of section 5128 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3198) is amended by striking "educational personnel" in the first sentence and inserting "school personnel".

SEC. 12. GRANTS TO INSTITUTIONS OF HIGHER EDUCATION.

(a) IN GENERAL.—Section 5131 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3211) is amended—

(1) in paragraph (4) of subsection (a), by striking "subsection (d)" and inserting "subsection (c)";

(2) by striking subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c), respectively; and

(3) by striking subsection (e).

(b) TRANSITION PROVISION.—Any amounts appropriated for the fiscal year 1990 for the purpose of making training grants under section 5131(b) of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3211) as such section existed on the day before the date of the enactment of this Act shall be used by the Secretary of Education for the purpose of making grants under section 5128 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3198).

SEC. 13. FEDERAL ACTIVITIES.

Subsection (b) of section 5132 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3212) is amended—

(1) by striking "and" at the end of paragraph (4);

(2) by striking the period at the end of paragraph (5) and inserting "; and"; and

(3) by adding at the end the following new paragraphs:

"(6) use private nonprofit organizations to develop innovative strategies to communicate antidrug abuse messages to youths and to eliminate drug abuse from the communities of the Nation; and

"(7) as necessary, evaluate programs assisted under this title.".

SEC. 14. EMERGENCY GRANTS.

Part D of the Drug-Free Schools and Communities Act (20 U.S.C. 3211 et seq.) is amended by adding at the end the following new section:

"SEC. 5136. EMERGENCY GRANTS.

"(a) PROGRAM AUTHORIZED.—The Secretary, in consultation with the Attorney General and the Secretary of Health and Human Services, shall make grants to eligible local educational agencies that demonstrate significant need for additional assistance for purposes of combating drug and alcohol abuse by students served by such agencies.

"(b) ELIGIBLE AGENCIES.—A local educational agency shall be eligible to receive a grant under this section if such agency—

"(1) receives assistance under section 1006; and

"(2) serves an area—

"(A) in which there is a large number of arrests or convictions of youths for drug or alcohol-related crimes;

"(B) in which there is a large number or high percentage of referrals of youths to drug and alcohol abuse treatment and rehabilitation programs; and

"(C) that has a significant drug and alcohol abuse problem, as indicated by other appropriate data.

"(c) AMOUNT OF GRANTS.—Each grant awarded under this section shall be in an amount that is not less than $100,000 and not more than $1,000,000.".

SEC. 15. DEFINITIONS.

Section 5141 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3221) is amended—

(1) in paragraph (1), by inserting before the period the following: ", including anabolic steroids";

(2) in paragraph (2), by inserting before the period the following: ", including anabolic steroids"; and

(3) by adding at the end the following new paragraph:

"(10) The term 'school personnel' includes guidance counselors, social workers, psychologists, nurses, librarians, and other support staff who are employed by a school or who perform services for the school on a contractual basis.".

SEC. 16. PARTICIPATION OF CHILDREN AND TEACHERS FROM PRIVATE NONPROFIT ELEMENTARY AND SECONDARY SCHOOLS.

Subsection (c) of section 5143 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3233) is amended—

(1) by striking "WAIVER;";

(2) by inserting after "SECRETARY" the following: "AND STATE EDUCATIONAL AGENCIES";

(3) by inserting "(1)" before "If by reason"; and

(4) by adding at the end of the following new paragraph:

"(2) If a State educational agency determines that a local educational agency, intermediate educational agency, or consortium, as appropriate, is failing to provide for the equitable participation of children or teachers from private nonprofit elementary or secondary schools in accordance with subsection (a) or (b), the State educational agency shall waive the requirements of such subsection with respect to such local educational agency, intermediate educational agency, or consortium and make appropriate arrangements for the equitable participation of such children or teachers.".

SEC. 17. NATIONAL DIFFUSION NETWORK.

Part D of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3221 et seq.) is amended by adding at the end the following new section:

"SEC. 5145. DISSEMINATION OF INFORMATION AND TECHNICAL ASSISTANCE.

"(a) GENERAL AUTHORITY.—The Secretary, through the National Diffusion Network established under section 1562, shall disseminate information and technical assistance with respect to drug abuse education and prevention programs of demonstrated effectiveness.

"(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $1,000,000 for each of the fiscal years 1990, 1991, 1992, and 1993 for the purpose of carrying out this section.".

SEC. 18. DEVELOPMENT OF EARLY CHILDHOOD EDUCATION DRUG ABUSE PREVENTION MATERIALS.

(a) AMENDMENT TO PART OF HEARING.—The heading for part F of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3227) is amended to read as follows:

"PART F—DEVELOPMENT OF EARLY CHILDHOOD EDUCATION DRUG ABUSE PREVENTION MATERIALS".

(b) PROGRAM AUTHORIZED.—Subsection (a) of section 5151 of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3227) is amended—

(1) by striking "and such other" and inserting "such other"; and

(2) by inserting before the period the following: ", and to parents of children participating in such programs".

SEC. 19. LEADERSHIP IN EDUCATIONAL ADMINISTRATION DEVELOPMENT.

Section 541(b) of the Higher Education Act of 1965 (20 U.S.C. 1109(b) is amended—

(1) by striking "and" at the end of paragraph (4);

(2) by striking the period at the end of paragraph (5) and inserting "; and"; and

(3) by adding at the end the following new paragraph:

"(6) developing skills and techniques for administering drug prevention and education programs.".

SEC. 20. ESTABLISHMENT OF GRANT PROGRAM FOR PROVIDING SERVICES TO CHILDREN WHOSE PARENTS ARE SUBSTANCE ABUSERS.

The Child Abuse Prevention and Treatment Act (42 U.S.C. 5101 et seq.), as amended by the Child Abuse Prevention Challenge Grants Reauthorization Act of 1989 (Public Law 101-126), is amended by adding after section 107 the following new section:

"SEC. 107A. EMERGENCY CHILD PROTECTIVE SERVICES GRANTS.

"(a) ESTABLISHMENT.—The Secretary shall establish a grant program to make grants to eligible entities to enable such entities to provide services to children whose parents are substance abusers.

"(b) ELIGIBLE ENTITIES.—Entities eligible to receive a grant under this section shall be—

"(1) State and local agencies that are responsible for administering child protective services or child abuse intervention services, including those agencies responsible for administering foster care, child welfare, child protective services, and child abuse intervention programs; and

"(2) community and mental health agencies and nonprofit youth-serving organizations with experience in providing child protective services.

"(c) APPLICATION.—

"(1) IN GENERAL.—To be eligible to receive a grant under this section, an entity shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may by regulation require.

"(2) ASSURANCE OF USE.—An application submitted under paragraph (1) shall—

"(A) contain an assurance that the applicant operates in a geographic area where substance abuse has placed substantial strains on social service and law enforcement agencies and has resulted in substantial increases in the need for services that cannot be met without funds available under this section;

"(B) identify the responsible agency or agencies that will be involved in the use of funds provided under this section;

"(C) contain a description of the emergency situation with regard to children of substance abusers who need services of the type described in this section;

"(D) contain a plan for improving the delivery of such services to such children;

"(E) contain assurance that such services will be provided in a comprehensive multidisciplinary and coordinated manner; and

"(F) contain any additional information as the Secretary may reasonably require.

"(d) USE OF FUNDS.—Funds received by an entity under this section shall be used to improve the delivery of services to children whose parents are substance abusers. Such services may include—

"(1) the hiring of additional personnel by the entity to reduce caseloads;

"(2) the provision of additional training for personnel to improve their ability to provide emergency child protective services related to substance abuse by the parents of such children;

"(3) the provision of expanded services to deal with family crises created by substance abuse;

"(4) the recruitment of additional foster care families;

"(5) the recruitment of additional adoptive families; and

"(6) the establishment or improvement of coordination between the agency administering the grant and—

"(A) child protection and welfare organizations;

"(B) hospitals and health care providers;

"(C) public health and mental health professionals;

"(D) judicial and law enforcement officers;

"(E) child advocates;

"(F) public educational institutions;

"(G) community-based organizations that serve substance abusing parents, including pregnant and post-partum females and their infants;

"(H) public housing officials;

"(I) providers of shelter to abused and homeless females and families; and

"(J) parents and representatives of parent groups.

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to make grants under this section, $40,000,000 in fiscal year 1990, and such sums as may be necessary in each subsequent fiscal year.".

SEC. 21. DRUG-FREE SCHOOLS AND CAMPUSES.

(a) IN GENERAL.—

(1) CERTIFICATION OF DRUG AND ALCOHOL ABUSE PREVENTION PROGRAM.—Title XII of the Higher Education Act of 1965 (20 U.S.C. 1001 et seq.) is amended by adding at the end of new section 1213 to read as follows:

"DRUG AND ALCOHOL ABUSE PREVENTION

"SEC. 1213. (a) Notwithstanding any other provision of law, no institution of higher education shall be eligible to receive funds or any other form of financial assistance under any Federal program, including participation in any federally funded or guaranteed student loan program, unless it certifies to the Secretary that it has adopted and has implemented a program to prevent the use of illicit drugs and the abuse of alcohol by students and employees that, at a minimum, includes—

"(1) the annual distribution to each student and employee of—

"(A) standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities;

"(B) a description of the applicable legal sanctions under local, State, or Federal law for the unlawful possession or distribution of illicit drugs and alcohol;

"(C) a description of the health risks associated with the use of illicit drugs and the abuse of alcohol;

"(D) a description of any drug or alcohol counseling, treatment, or rehabilitation programs that are available to employees or students; and

"(E) a clear statement that the institution will impose sanctions on students and employees (consistent with local, State, and Federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct required by paragraph (1)(A); and

"(2) a biennial review by the institution of its program to—

"(A) determine its effectiveness and implement changes to the program if they are needed; and

"(B) ensure that the sanctions required by paragraph (1)(E) are consistently enforced.

"(b) Each institution of higher education that provides the certification required by subsection (a) shall, upon request, make available to the Secretary and to the public a copy of each item required by subsection (a)(1) as well as the results of the biennial review required by subsection (a)(2).

"(c)(1) The Secretary shall publish regulations to implement and enforce the provisions of this section, including regulations that provide for—

"(A) the periodic review of a representative sample of programs required by subsection (a); and

"(B) a range of responses and sanctions for institutions of higher education that fail to implement their programs or to consistently enforce their sanctions, including information and technical assistance, the development of a compliance agreement, and the termination of any form of Federal financial assistance.

"(2) The sanctions required by subsection (a)(1)(E) may include the completion of an appropriate rehabilitation program.

"(d) Upon a determination by the Secretary to terminate financial assistance to any institution of higher education under this section, the institution may file an appeal with an administrative law judge before the expiration of the 30-day period beginning on the date such institution is notified of the decision to terminate financial assistance under this section. Such judge shall hold a hearing with respect to such termination of assistance before the expiration of the 45-day period beginning on the date that such appeal is filed. Such judge may extend such 45-day period upon a motion by the institution concerned. The decision of the judge with respect to such termination shall be considered to be a final agency action.".

(2) EFFECTIVE DATE.—(A) Except as provided in subparagraph (B), the amendment made by paragraph (1) shall take effect on October 1, 1990.

(B) The Secretary of Education may allow any institution of higher education until not later than April 1, 1991, to comply with section 1213 of the Higher Education Act of 1965 (as added by paragraph (1)) if such institution demonstrates—

(i) that it is in the process of developing and implementing its plan under such section; and

(ii) it has a legitimate need for more time to develop and implement such plan.

(b) AMENDMENTS TO DRUG-FREE SCHOOLS AND COMMUNITIES ACT OF 1986.—

(1) IN GENERAL.—Part E of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3171 et seq.) is amended by adding at the end of the following new section:

"SEC. 5145. CERTIFICATION OF DRUG AND ALCOHOL ABUSE PREVENTION PROGRAMS.

"(a) IN GENERAL.—Notwithstanding any other provision of law other than section 432 of the General Education Provisions Act and section 103(b) of the Department of Education Organization Act, no local educational agency shall be eligible to receive funds or any other form of financial assistance under any Federal program unless it certifies to the State educational agency that it has adopted and has implemented a program to prevent the use of illicit drugs and alcohol by students or employees that, at a minimum, includes—

"(1) age-appropriate, developmentally based drug and alcohol education and prevention programs (which address the legal, social, and health consequences of drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol) for students in all grades of the schools operated or served by the applicant, from early childhood level through grade 12;

"(2) conveying to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;

"(3) standards of conduct that are applicable to students and employees in all the applicant's schools and that clearly prohibit, at a mimimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on school premises or as part of any of its activities;

"(4) a clear statement that sanctions (consistent with local, State, and Federal law), up to and including expulsion or termination of employment and referral for prosecution, will be imposed on students and employees who violate the standards of conduct required by paragraph (3) and a description of those sanctions:

"(5) information about any available drug and alcohol counseling and rehabilitation programs that are available to students and employees;

"(6) a requirement that parents, students, and employees be given a copy of the standards of conduct required by paragraph (3) and the statement of sanctions required by paragraph (4);

"(7) notifying parents, students, and employees that compliance with the standards of conduct required by paragraph (3) is mandatory; and

"(8) a biennial review by the applicant of its program to—

"(A) determined its effectiveness and implement changes to the program if they are needed; and

"(B) ensure that the sanctions required by paragraph (4) are consistently enforced.

"(b) DISSEMINATION OF INFORMATION.—Each local educational agency that provides the certification required by subsection (a) shall, upon request, make available to the Secretary, the State educational agency, and to the public full information about the elements of its program required by subsection (a), including the results of its biennial review.

"(c) CERTIFICATION TO SECRETARY.—Each State educational agency shall certify to the Secretary that it has adopted and has implemented a program to prevent the use of illicit drugs and the abuse of alcohol by its students and employees that is consistent with the program required by subsection (a) of this section. The State educational agency shall, upon request, make available to the Secretary and to the public full information about the elements of its program.

"(d) REGULATIONS.—(1) The Secretary shall publish regulations to implement and enforce the provisions of this section, including regulations that provide for—

"(A) the periodic review by the State educational agencies of a representative sample of programs required by subsection (a); and

"(B) a range of responses and sanctions for local educational agencies that fail to implement their programs or to consistently enforce their sanctions, including information and technical assistance, the development of a compliance agreement, and the termination of any form of Federal financial assistance.

"(2) The sanctions required by subsection (a)(1)(4) may include the completion of an appropriate rehabilitation program.

"(e) Upon a determination by the Secretary to terminate financial assistance to any local educational agency under this section, the agency may file an appeal with an administrative law judge before the expiration of the 30-day period beginning on the date such agency is notified of the decision to terminate financial assistance under this section. Such judge shall hold a hearing with respect to such termination of assistance before the expiration of the 45-day period beginning on the date that such appeal is filed. Such judge may extend such 45-day period upon a motion by the agency concerned. The decision of the judge with respect to such termination shall be considered to be a final agency action.".

(2) CONFORMING AMENDMENTS.—Paragraph (2) of section 5126(c) of the Drug-Free Schools and Communities Act of 1986 (20 U.S.C. 3196(c)) (as amended by section 9 of this Act) is amended—

(A) by striking subparagraphs (E), (F), and (G); and

(B) by redesignating subparagraphs (H) through (R) as subparagraphs (E) through (O), respectively.

(3) EFFECTIVE DATE.—(A) Except as provided in subparagraph (B), the amendments made by paragraphs (1) and (2) shall take effect on October 1, 1990.

(B) The Secretary of Education may allow any local educational agency until not later than April 1, 1991, to comply with section 5145 of the Drug-Free Schools and Communities Act of 1986 (as added by paragraph (1)) if such agency demonstrates—

(i) that it is in the process of developing and implementing its plan under such section; and

(ii) it has a legitimate need for more time to develop and implement such plan.

The SPEAKER pro tempore. Is a second demanded?

Mr. GUNDERSON. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentlewoman from Washington [Mrs. UNSOELD] will be recognized for 20 minutes, and the gentleman from Wisconsin [Mr. GUNDERSON] will be recognized for 20 minutes.

The Chair recognizes the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill includes important proposals more directly to target scarce funds on disadvantaged areas; to direct the bulk of new funding to local school districts; to cap the funds that flow to the Governors and target them; and to permit local school dis-

tricts to mount joint drug abuse education programs with funds available from other related programs. I believe these changes improve the Drug Free Schools and Communities Act.

The bill also authorizes $40 million per fiscal year to be distributed though the Child Abuse Prevention and Treatment Act/National Center for Child Abuse and Neglect network. These funds will support child protection and other community-based entities which have experience in child protective services in providing a range of intervention services to prevent child abuse among children of substance abusers.

Let me indicate that this bill includes a controversial amendment that says that to be eligible to receive Federal funds, institutions of higher education and local education agencies must develop and implement programs to prevent the unlawful use and possession of illicit drugs and alcohol by students and employees. The Secretary can apply a series of remedies and sanctions up to, and including, termination of all Federal funds if this provision is not met.

Our bill differs from the Senate-passed version in a very important way on this particular issue. The bill passed by the other body requires that any school district receiving a dollar of Federal money must adopt a strong anti-drug policy, including the provision of courses for all students in all grade levels emphasizing prevention of illicit alcohol and drug abuse. Furthermore, that bill states that this requirement is binding notwithstanding any other provision of law.

The bill reported from our committee contains two important modifications of that provision. First, we explicitly make this new requirement subject to two other provisions of law forbidding the Federal Government from exercising any control over the curriculum of local school districts.

It is our firm belief that the Federal Government should not step in and dictate the curriculum in local school districts regardless of the worthiness of the cause, in this case preventing drug abuse. Federal aid to education was stymied for many decades, partially due to the fear that the Federal Government would control the local schools. Federal aid was achieved when the country was assured that Federal participation did not mean Federal control of curriculum. This bill reaffirms that principle.

The second change we have made eliminates the reference to curriculum and replaces it with a requirement that school districts provide a program emphasizing prevention of the use of illicit drugs and alcohol. Again, our motivation is to make clear that the Secretary cannot issue any regulations implementing this section which would permit the Federal Government to dictate the curriculum of local schools.

Mr. Speaker, our committee, on a bipartisan basis, has fashioned this bill which we believe better targets the use of Federal funds to preventing drug and alcohol abuse. We urge the support of our colleagues.

Mr. Speaker, it was my privilege to have included in the Drug-Free Schools and Communities Act a provision to allow funding for programs that bring law enforcement officers together with school children in the classroom. Based on my bill, H.R. 3626, this provision amends the Drug-Free Schools and Communities Act of 1986 to specifically allow funding of programs such as DARE [the Drug Abuse Resistance Education Program].

In the DARE Program, uniformed law enforcement officers teach classes in schools one day a week for 17 weeks. They use a carefully planned curriculum to teach kids about drugs and that also helps them have the wherewithal to resist the temptation entirely. This is accomplished through classes on decision making, assertiveness training, and the opportunity for improving one's self-esteem. It's much more than "Just Say No." DARE is a program with good solid lessons delivered by experienced, caring police officers.

Law enforcement officers in my congressional district have talked with me about this Nation's drug problem. They have tried scaring these kids. They've tried locking them up. But none of it has worked until they discovered the DARE program. They believe DARE offers one of the best hopes to prevent drug abuse by our youngsters.

My provision will allow DARE to be funded under the Drug-Free Schools Act, as well as other similar programs that highlight a partnership between the policy, schools and parents. This is the kind of program that will turn our kids around—DARE can give kids the skills they need to say no to drugs forever.

In addition, I would like to submit the following statement on the DARE Program for the RECORD.

DARE TO SAY NO TO DRUGS

DARE is an acronym for Drug Abuse Resistance Education. The DARE program brings schools, police, and parents together in a cooperative educational effort to teach children more than simply to say "no" to drugs.

DARE is taught by law enforcement officers who are in uniform but do not carry guns. Unfortunately, the level of sophistication among fifth and sixth grade students about drugs is frequently more advanced than that of the average classroom teacher. Veteran law enforcement officers, because of their training and experience, are better able to respond to the myriad questions posed by students.

In addition to teaching, the officers spend time with the kids during recess and lunch periods, providing a role model and building trust. DARE teaches kids that they can be popular without using marijuana or cocaine and that belonging need not require that they abandon their values. DARE teaches kids not just that they should refuse drugs and alcohol, but how to do so.

By the time our children are in junior high school, most have already been offered alcohol or drugs. Recent U.S. government figures show that 30 percent of 13-year-old boys and 22 percent of 13-year-old girls are current drinkers; 30 percent of our 10-year-olds feel some peer pressure to drink.

The earlier a youngster drinks, the more likely he or she is to drink more frequently later on, and to combine alcohol with other drugs. Once a drug problem has developed, it is difficult and expensive to treat.

Experts agree that the best approach—and the biggest challenge—is prevention. The program targets fifth and sixth graders because kids in this age group have not yet made life-altering decisions. DARE intervenes before the wrong choices are made.

Mr. GUNDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker and Members, I am one of those Members of Congress who has spent much of his congressional career trying to prevent further Federal directives on the State and local governments' agencies, including local education agencies or schools. But I think today we have something called a war on drugs, and, if we are serious about a war on drugs, it is going to be a Federal, State and local partnership.

The reality is, Mr. Speaker, that 39 percent of high school students have used illicit drugs over the last year. That is some 5.3 million high school students who have been using drugs of some type. Thirty-five percent of our high school students have reported that they have had five or more drinks in a row during the past 2 weeks, according to a recent survey.

Mr. Speaker, those statistics tell the story of why, if we are going to win the war on drugs, we need a war on drugs, and that means that we change the rules of the ball game.

I think we are all aware that in the past we have passed legislation which would require that as a condition of receiving Federal study financial assistance our colleges and universities are going to have some kind of drug abuse prevention program in effect. The legislation in front of us today, H.R. 3614, goes beyond that. This legislation would require that any school which received any Federal funds, as a condition of receiving those funds, is going to have to put in place a drug and alcohol abuse prevention plan.

Mr. Speaker, as a condition and a part of that plan we state five specific standards: No. 1, that there be an educational component; No. 2, that there be standards of conduct that prohibit the unlawful possession of drugs and alcohol; No. 3, that that school include a specific statement about sanctions for the improper and illegal use of

drugs and alcohol; No. 4, that we provide information about counselling to both the students and the employees of that school, and that there be a notification; No. 5, to both the employees and the students of the previous four standards or conditions.

Mr. Speaker, it is important, as the gentlewoman from Washington [Mrs. UNSOELD] has indicated, that everyone fully understand that we are not in the business of mandating a specific curricula to each and every local education agency in the country. However, we are mandating that they become partners in the war on drugs. We are asking them to develop within this context what is in their opinion the most positive, effective war on drugs education and prevention program within that local school.

However, Mr. Speaker, above and beyond that we are simply asking that they respond to the crisis at hand.

Perhaps the most encouraging note I received was a little letter I received last week from my 7-year-old niece in Decorah, IA. She said:

DEAR UNCLE STEVE, we have been studying drugs in our school, and I want you to know that those drugs are very bad, and I want you and everybody else to put in prison people who sell these awful drugs that hurt people.

□ 1400

Now, obviously, this was the analysis of an elementary student of what she had learned, but most important to me it was in evidence that the process had begun, that our young people were being educated as to the risks and the effects of those drugs.

What we are asking here today is that every public and private school begin that process.

Mrs. UNSOELD. Mr. Speaker, I yield such time as he may consume to the gentleman from West Virginia [Mr. RAHALL].

Mr. RAHALL. Mr. Speaker, I thank the gentlewomen from Washington for yielding this time to me.

Mr. Speaker, I rise in support of H.R. 3614, the National Drug-Free Schools and Communities Act of 1989, as amended.

I would like to take this opportunity to commend the chairman of the Education and Labor Committee, Mr. AUGUSTUS HAWKINS, and the distinguished minority member of the commitee, Mr. WILLIAM GOODLING, for the expeditious manner in which they were able to bring this bill out of committee to the floor for action by the whole House.

Mr. Speaker, the bill before us is an expansion of the National Drug-Free Schools and Communities Act, written specifically to take advantage of the additional Federal funds made available to help fight the war on drugs.

There is no better place to start than in our Nation's schools. If we begin early to teach our children about the evils of drug and alcohol abuse, and continue to do so with age-appropriate curriculum designed and implemented by the State and local government throughout a child's public school career, and up to and including their college career, we will have gone a long way toward establishing and maintaining drug-free schools, and eventually a drug-free society.

Having said that, I realize how impossible it sounds. How can we be sure that it will work, that a majority of young children, high school students, and college students in the coming months and in the years ahead will be less inclined to use and abuse illegal drugs if we authorize and implement a further expansion of the Drug-Free Schools and Communities Act?

The answer is that, of course, we can't be absolutely sure. But we must begin to educate against drug abuse now, at the earliest practical ages, for all our children. And while we are fighting against drugs being used on school grounds, in school rooms and hallways even, through our Drug-Free Schools and Communities programs, elsewhere in law others will be acting to implement programs to stop the flow of drugs from other countries across our borders—and to do this, we need more forceful laws on the books—both at the Federal and the State Government levels.

In other words, if we reduce the demand in this country, there will be no supplies necessary. It is as simple and as complex as that.

That is why my bill, the Drug-Free School Zones Act, is not premised merely upon the visible posting of signs stating that certain perimeters around a local school are drug free zones, but upon the premise that States not now having school safety zone laws will enact such laws, assuring the apprehension, trial, and sentencing of drug traffickers found selling or distributing drugs on or near school property.

Local school officials, teachers, administrators, parents, and local law enforcement officers must be enabled to work together in the knowledge that their actions to keep drug pushers off school grounds and out of school buildings are backed by the full force of State law.

We give school teachers and other school personnel vast responsibility when we deliver our children to them each and every day, to teach them, to nurture them, to keep them safe from harm. If States will enact school safety zone laws, and schools are enabled by working with local law enforcement and municipal authorities to establish visible, tangible evidence of where those laws are in effect at all times and that violators will be punished, we will have given them a little bit of authority to go along with the responsibility they bear toward our children.

Will my bill result in all 50 States passing such school safety zone laws? Not necessarily. But if they do not, their chief executive officers who now receive 30 percent of a State's annual allocation of drug-free schools and communities funds, will lose one-third of that annual allocation under my bill. The funds so forfeited by the Governors will revert to the use of local schools for the furtherance of their goals in fighting drug abuse through education and prevention programs for all ages.

My bill, as introduced, found that the success of the programs carried out with assistance provided under the Drug Free Schools and Communities Act of 1986 largely relies upon the cooperative efforts of school officials, families, communities, and law enforcement officials, and further that in order to achieve such success, each State must have in effect laws establishing increased penalties for drug trafficking on school grounds and drug trafficking near school grounds that involve minor children.

I know that my own State of West Virginia, and the Fourth District which I serve, have active task forces in place to work toward the establishment and maintenance of drug free schools. These consist of teachers, parents, members of the community at large, and students themselves.

I hope that my bill, which the members of the Education and Labor Committee were supportive of, and which has been included as part of H.R. 3614 as reported, will give those individuals and groups at the local school level the will to keep their commitment to drug free schools, and the wherewithal to carry out their work.

I have children in the public schools of Virginia, and I am intensely aware of the peer pressure that is or could be brought to bear upon them to join the abusers. I have a great stake in the outcome of this legislation before us today—the lives, the futures, the realization of the hopes and dreams of my children, both mine and theirs.

The West Virginia State Legislature had a bill before it last year calling for the establishment of drug free school safety zones, and attendant criminal penalties such as a 2-year minimum sentence, for drug traffickers found in violation of such laws on or near school safety boundaries. It is my genuine hope that this legislation will be reintroduced, and enacted by my State during its upcoming legislative session.

It is my hope that my colleagues will join me today in overwhelming support for passage of H.R. 3614.

Mr. GUNDERSON. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of H.R. 3614, the Drug Free Schools and Communities Act of 1989, and I would like to commend the distinguished chairman of our Education and Labor Committee, the gentleman from California [Mr. HAWKINS], and the ranking minority member, the gentleman from Pennsylvania [Mr. GOODLING], for their work on bringing this measure to the floor.

Mr. Speaker, throughout my tenure in Congress, I have been actively involved in the fight against illegal drug use and abuse, and perhaps the most disheartening battle front in this war is now being fought in our schoolyards and playgrounds. Our Nation's youth are falling prey to cracked ice dealers at an increasingly alarming rate.

Drug education and prevention in schools is the greatest weapon we possess to curb illegal drug use among our children. H.R. 3614 authorizes funds for the critical establishment and maintenance of drug-free school zones.

The bill also requires institutions of higher education and local education agencies to develop and implement a program to prevent the use of illicit drugs and abuse of alcohol by students and employees. The programs must include standards of conduct, an educational component, and information regarding counseling and rehabilitation programs.

Mr. Speaker, I firmly believe that the drug crisis is the No. 1 problem facing our Nation today. H.R. 3614 helps to fund a very important segment in our fight to curtail drug abuse in our schools and communities. Accordingly, I wholeheartedly support this measure and urge my colleagues to vote in favor of H.R. 3614.

Mrs. UNSOELD. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, I thank the gentlewoman for yielding me this time.

Mr. Speaker, I rise in support of H.R. 3614. I have had some experience in the general field involved here, which has to do with education of students with regard to drug abuse.

I asked Secretary Bennett, who was head of the Department of Education, if he would come out with some videos which would be helpful at the various levels of schooling; and the Department of Education did that. Then I tried to see if I could get those videos used by schools, and surprisingly, it has been very, very difficult to get that done. The Federal Government cannot really compel a curriculum for schools. The problem really rests in the fact that there are 6,000 or more school boards which are relatively autonomous throughout the United States. Each State, however, can compel certain educational standards to be used in criteria to be put in place.

Therefore, the purpose of my talk today really is to hope, and express the desire, that the schools in the various States will in fact be told by their State organizations, through State legislation, that there are certain minimum requirements in the field of education with regard to drugs; because I found out as a very practical matter that it is very difficult to get a particular school board to use these videos, which are free of charge and have been made available to them.

I have also found out that it is very difficult to get the States to pass legislation to compel this education.

I think this is a very serious problem that faces our country, so I hope that this plea that I am putting into the RECORD now will be heeded, that the school boards will be compelled by the States, in which they are, to really have a practical program in fighting drugs; because if you do not do this, you are going to find out that a lot of money is being spent without any real impact in places where it needs to be.

Now, you may say, why is that so? Well, the school boards sometimes only have one school. The school boards themselves may have nobody who has a particular background in fighting drugs, or even a very great competence in managing schools. The school boards are variously arrived at in different locations as to how they come into existence. And there is not any great push, as I find it, to have the schools compel the education that should be done in this field.

I know from my own school board, I finally got my own school board to compel the curricula in this field, but it was very uphill. I went before the school board and talked to the school board. They were very affirmative, except for a while they never did anything. So I kept pestering them with mail until finally they complied and compelled this video to be used.

Then I went to the State legislators in the State of Florida and asked them to pass a law that would require a minimum type antidrug education, and I found they were reluctant to do it, and no law was even introduced.

So I am saying to you that we cannot just pass good laws here and expect them to do all the good that we would like to have done, unless we do some degree of encouraging the States at least to themselves compel the use of the educational programs that are needed.

Mr. GUNDERSON. Mr. Speaker, I yield 4 minutes to the gentleman from Pennsylvania [Mr. COUGHLIN], the distinguished ranking member of the Select Committee on Narcotics Abuse and Control.

Mr. COUGHLIN. Mr. Speaker, I rise in strong support of H.R. 3614.

I certainly want to join in congratulating the gentlewoman from Washington [Mrs. UNSOELD] and the gentleman from Wisconsin [Mr. GUNDERSON], as well as the distinguished ranking minority member, the gentleman from Pennsylvania [Mr. GOODLING] who is here, and the distinguished chairman, the gentleman from California [Mr. HAWKINS] for bringing this bill to the floor. It is good bipartisan legislation. It has the support of all, and it is a very important element of the antidrug strategy.

□ 1410

Mr. Speaker, this legislation would require institutions of higher education as well as those in elementary and secondary education to provide and implement a drug-abuse program including user accountability in the schools of our Nation. This is an important part of that, as I said, of the President's drug strategy which was asked for by this Congress and which was transmitted to the Congress by the President on September 5. It is part of the legislation that has passed the Senate by a vote of 97 to 2 on September 27. It was the subject of a motion to instruct conferees that passed this body on October 11 by a vote of 402 to 15. It was also the subject of a letter from the Speaker and majority leader to the other body agreeing to undertake consideration of this legislation expeditiously. I congratulate the leadership for bringing this before us in an expeditious fashion and to enable us to send it over to the other body.

Mr. Speaker, let me just relate a very brief experience that I had with legislation that I worked on, and we passed in this body back 3 years ago to provide through the Department of Education audiovisual aids for our elementary and secondary schools. We did that. These were sent to every elementary and secondary school in the country, and in a poll that we took in my district of the use of this, we found that many of these were not being used. They were not being used because there is a tendency to be lethargic out in these educational institutions to have drug-abuse education, which is something new to them. To put some emphasis on that is new to them.

This legislation provides a very important tool in saying to our elementary and secondary schools and our colleges that we have to have drug education programs, not dictating to them the kind of education program or the curricula or anything like that, but just that we have to have a program, a good program, a real program that is in place to try and educate our young people about the dangers of drugs.

Mr. Speaker, I cannot emphasize the importance I attach to education in its

fight against drugs. We have tried for years to stop the supply, but in a time when there is tremendous money in the drug business, if we do not do something on the demand side, it gets increasingly difficult to stop the supply. The key part of stopping the demand is the educational effort we make, and particularly the effort to educate our children not to use these very dangerous drugs.

Mr. Speaker, this is good legislation. It is legislation that is critical that we pass in this House and work with the other body to send to the President before we leave Congress. It would be just terrible for us to leave the Congress, for us to leave town, unless we have completed work on this legislation, sent it to the President so we can, indeed, implement the drug war in a way in which it was intended.

Mrs. UNSOELD. Mr. Speaker, I have no further requests for time.

Mr. GUNDERSON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from New Hampshire [Mr. DOUGLAS].

Mr. DOUGLAS. Mr. Speaker, I wanted to rise in support of H.R. 3614, as amended, because it picks up a bill that several of us introduced back on November 1; namely, H.R. 3572, which is the Drug-Free College Campus Act. H.R. 3614, which is before us, as it went in only dealt with schools, and it did not cover college campuses.

On November 21, Members of this House, a bipartisan group, sponsored H.R. 3572, and it was through the good offices of the ranking minority member, the gentleman from Pennsylvania [Mr. GOODLING], that the language in that bill was folded in and became part of a bill that we will be voting on today. It is important, because Secretary of Education Bennett, who is now our drug czar, had made it very clear that there should be no conscientious objectors in the war on drugs. It is his report of September 5 that said that college campuses should join in the effort, that they should make sure their students understood the penalties for improper use of alcohol and for use of illegal drugs, that counseling and treatment programs be outlined by the campuses each year on an annual basis, and that the penalties on the campus include explusion and termination of attendance at a college or university. That is the very least that we can do, Mr. Speaker, to encourage every element of our society to become a part of the war on drugs.

Mr. Speaker, we cannot have anyone left out of the process, and if we are starting in the elementary schools, we need to work all the way up through the college level as well.

I was pleased to be joined in the sponsorship of H.R. 3572 by the minority whip of this House, the gentleman from Georgia [Mr. GINGRICH], by the gentleman from Illinois [Mr. HYDE], by the gentleman from Idaho [Mr. CRAIG], who is seated beside me, and a number of other Members who felt as I did that the President's war on drugs had to have a component that included the college campuses.

Through the Goodling amendment, H.R. 3614 now goes far beyond just high schools and schools and picks up our colleges and universities, as it well should.

I urge a vote to suspend the rules and to adopt H.R. 3614, Mr. Speaker.

Mr. GUNDERSON. Mr. Speaker, I yield 2 minutes to my distinguished colleague, the gentleman from Idaho [Mr. CRAIG].

Mr. CRAIG. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, let me extend my congratulations to the chairman of the full committee, my colleague from Pennsylvania, the ranking minority member, the gentleman from Pennsylvania [Mr. GOODLING], my colleague, the gentleman from Wisconsin [Mr. GUNDERSON], and, of course, to the gentleman from New Hampshire [Mr. DOUGLAS], who has just explained how in the latter days of this session we have been able to incorporate two very important pieces of legislation in the war on drugs, giving our Government, but most importantly, giving our young people of this country some very real tools, extremely valuable tools, with which to engage themselves in the war on drugs.

Mr. Speaker, we cannot let our college campuses or our schoolyards become the battleground. To have that happen not only means that we lose, but certainly our young people lose this battle that we are now engaging in in the war on drugs. They must be free. The fight cannot be engaged there, and I would hope that this legislation begins to works with local authorities and State authorities along with college and university administrations in assuring that that will not happen, that those campuses and those schoolyards and school-grounds will not become war zones.

It is critical through the educational process that young people understand the complications of becoming involved in this type of activity. They then become the educated adult society which in a very short time begins to develop that social intolerance that must be developed if we are to successfully engage ourselves and then, in fact, win this war on drugs.

I appreciate the effort and the work of my colleagues, and urge the passage of this legislation.

Mr. GUNDERSON. Mr. Speaker, I yield 2 minutes to our distinguished colleague, the gentleman from California [Mr. LAGOMARSINO].

Mr. LAGOMARSINO. Mr. Speaker, I rise in support of H.R. 3614, the Drug Free Schools and Communities Act of 1989, a very important part of the President's anti-drug program. More importantly, however, I rise in support of drug-free schools and communities and drug free-school children and neighbors.

Clearly, the future of the United States lies in the future leaders and citizens who are sitting in classrooms across the country right now. Today, our society is struggling against the effects of drug abuse and drug-related crime. Billions of dollars are being spent to interdict naroctics traffickers, arrest and convict both the drug kingpins and the neighborhood pushers, and to provide rehabilitative treatment for drug addicts. Nevertheless, all of these efforts will be wasted if future generations accept these problems as commonplace and do not learn and take to heart that drug use is both dangerous and destructive.

Millions of Americans are currently seeking treatment or help in their efforts to stop using drugs. For these people, it may not be too late to save their lives, and maybe even their families and jobs. Under the preventive programs for youth implemented through the drug-free schools and communities act, drug use will put fewer families, jobs and lives at stake. Though education is only one of the fronts on which the war against drug use must be fought, it is a very important one. Without the proper education, our other efforts will be wasted in time. With education we can win the war and focus our energies on development rather than destruction.

I urge my colleagues to support this bill and to continue to approach the problem of drug use from all angles, combining all of our Nation's resources to clean up the drug mess in this country and to teach our children never to let it happen again.

□ 1420

Mr. GUNDERSON. Mr. Speaker, at this time, to conclude the debate from our side of the aisle on this legislation, it is my privilege and honor to yield our remaining time to the distinguished ranking member of the full Committee on Education and Labor, the gentleman from Pennsylvania [Mr. GOODLING].

Mr. GOODLING. Mr. Speaker, I am pleased to be able to rise in support of H.R. 3614, the Drug Free Schools and Communities Act Amendments of 1989. We have all expressed at one time or another that our communities and schools have a critical role to play in eliminating drugs at the local level. Without the full participation of our local communities and schools, we are fighting the war against drugs with one arm tied behind us.

Fortunately, the Education and Labor Committee has reported a bill which does not leave us defenseless in

this battle. We have had in place for 3 years the Drug Free Schools and Communities Act, and are just beginning to learn what effect that legislation has had. Based on the information we have received from the Department of Education and local program administrators we have incorporated changes into the program to make it more efficient and effective. These changes include targeting new moneys to areas with greatest need; emphasizing a community wide approach; strengthening training provisions; and improving reporting and evaluation requirements.

In addition to fine tuning the program though, we have added an enforcement mechanism that backs up our resolve to have drug free schools and campuses. We cannot afford to take-it-or-leave-it attitude when it comes to the war against drugs in our schools. It is essential that our schools impress upon our youth the importance of being drug free.

In order to do this, we have included in this bill a provision that clearly conveys the seriousness of the problem, the extent of our concern, and the intensity of our resolve to make headway in the issue of drug and alcohol abuse. We cannot continue to rely on current practices. This is a different type of "war," which requires a strategy and approach that is different in kind. Unless we achieve some success in making our schools and campuses drug free, it will not matter how much money is put into buildings, equipment, teachers and training because we will have lost the most important element—our students.

The provision we have included is essentially the one which was included in the President's drug package, and which this body instructed DOT appropriations conferees to support by a vote of 402 to 15. It provides that if an institution of higher education or a local education agency does not develop and implement a program to prevent the use of illicit drugs and abuse of alcohol by students and employees, it is not eligible to receive any form of Federal financial assistance.

Recognizing the seriousness of this sanction, we allow a reasonable period of time during which such programs are to be developed and put in place. Further we make available to the Secretary a variety of strategies to employ prior to fund termination to assist schools and campuses to come into compliance with the requirements of the law. So long as school is making meaningful progress toward providing drug and alcohol abuse education to its students it is not at risk of losing its money. The school has to be deliberately negligent before funds will be withheld.

Such a provision has not been utilized before and reflects the seriousness with which we view the drug problem. We cannot afford to waste our youth. They are the most critical element with respect to the quality of our future as a nation and our ability to compete in the world marketplace.

I support this legislation. We have taken a major step in the right direction, and have added strength to a critical piece of our antidrug strategy. I encourage all of my colleagues to support this legislation, and demonstrate their commitment to a drug free America.

Mr. BRENNAN. Mr. Speaker, education and treatment are two of our prime objectives in reducing drug use in America and this bill addresses both. It demands our strong support.

Not only does the drug-free schools and communities amendments bill provide funding for schools for drug education programs, it also provides funds for child abuse programs to help the children of drug abusers. While treatment of the drug users is imperative, we cannot ignore the defenseless children who live with drug abuse every day through no choice of their own.

In addition, the bill targets disadvantaged school districts and allows the Secretary of Education to provide grants to areas of high intensity drug use, a problem that touches the very community surrounding this Capitol—the community in which we work and where many of us send our children to school.

I have said many times that we can demonstrate the effectiveness of our drug efforts right here in the District of Columbia. This bill would allow us to provide special resources for the District of Columbia, while also attending to the needs of the schoolchildren of Maine and rest of the Nation.

I urge my colleagues to join me in strong support of the drug-free schools and communities legislation before us.

Mr. POSHARD. Mr. Speaker, to win the war on drugs, we have to fight with the strength of education. That's why I am pleased to cosponsor and see us pass H.R. 3614, the drug-free schools and communities amendments, which make a strong statement about our willingness to take on this challenge and win.

When I was a classroom teacher, drug and alcohol abuse among students was nowhere near as common as it is now. And the students in my classes were not at risk in near the same way as they are now. I have left the classroom in body, but my heart is still there, still with the students who are faced with a very real and sinister threat to their ability to learn, grow and prosper. And it's still with the teachers and parents who have to work with the students to meet this challenge.

I support strong law enforcement efforts to stop the drug plague. But the real victory comes when we educate our young people to the dangers that exist in the drug world, to the mind, body and soul.

The drug-free schools and communities amendments offer real financial assistance to local school districts who must now shoulder so much of the responsibility for this effort. It targets the money to the local levels, flexible enough to allow each area to respond to the particular challenges it faces, strong enough to begin to set some real standards which will help the entire Nation win this fight.

In my rural district in southern Illinois, drugs are as much a problem as they are in the inner-city. We may not have the same volume of sales and activity, we luckily have not seen the same kind of violence associated with the drug activity as some larger areas have, but the constant threat these drugs pose are just as real, and the damage they take is every bit as real.

I also have a major university in my district, and I am pleased to know we have the support of the administration, faculty and student body of Southern Illinois University in winning this fight. It's proper that the amendments require the institutions of higher education to make available very important drug abuse information.

This bill makes a strong commitment at the local level to fighting drug use and abuse. Its effect is practical and symbolic at the same time, a combination of real assistance and penalties combined with an attitude of genuine concern for our children's futures. We are in this effort responding to the cry of parents and students across the country. I have heard it in sourthern Illinois, and I thank my colleagues in the House for acting.

I am pleased to be an original cosponsor of H.R. 3614. In passing this bill today I believe we make a real commitment to the education of young America on the perils of a lifestyle that includes drugs. This is the right place to start, because this is where we win the war.

Mrs. UNSOELD. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. MCDERMOTT). The question is on the motion offered by the gentlewoman from Washington [Mrs. UNSOELD] that the House suspend the rules and pass the bill, H.R. 3614, as amended.

The question was taken.

Mr. GUNDERSON. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mrs. UNSOELD. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on H.R. 3614, the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Washington?

There was no objection.

FORFEITURE AMENDMENTS ACT OF 1989

Mr. HUGHES. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3550) to amend section 524 of title 28, United States Code, with respect to the Special Forfeiture Fund, to amend section 511 of the Controlled Substances Act to make technical,

clarifying, and administrative changes, and for other purposes, as amended.

The Clerk read as follows:

H.R. 3550

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Forfeiture Amendments Act of 1989".

SEC. 2. AMENDMENTS RELATING TO THE SPECIAL FORFEITURE FUND.

(a) ASSETS FORFEITURE FUND AMENDMENT.—Section 524(c)(9) of title 28, United States Code, is amended—

(1) in the first sentence, by striking out "(9) There" and inserting in lieu thereof "(9)(A) There"; and

(2) by striking out the second sentence and inserting in lieu thereof the following:

"(B) Subject to subparagraph (C), in each of fiscal years 1990, 1991, 1992, and 1993, the Attorney General may transfer from the Fund not more than $150,000,000 to the Special Forfeiture Fund established by section 6073 of the Anti-Drug Abuse Act of 1988. Such transfers shall be made at the end of each quarter of the fiscal year involved and on a quarterly pro rata basis.

"(C) Transfers under subparagraph (B) may be made only from excess unobligated amounts and only to the extent that, as determined by the Attorney General, such transfers will not impair the future availability of amounts for the purposes under paragraph (1).

"(D) At the end of each of fiscal year 1990, 1991, 1992, and 1993, the Attorney General may retain in the Fund not more than $15,000,000, or, if determined by the Attorney General to be necessary for asset-specific expenses, a greater amount equal to not more than one-tenth of the total of obligations from the Fund in preceding fiscal year.

(b) SPECIAL FORFEITURE FUND AMENDMENT.—Section 6073(b) of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1509(b)) is amended to read as follows:

"(b) DEPOSITS.—Deposits in the Fund shall be made by transfer from the Department of Justice Assets Forfeiture Fund in the manner provided in section 524(c)(9) of title 28, United States Code.

(c) HIGH INTENSITY DRUG TRAFFICKING AREAS AMENDMENT.—Section 1005(c) of the Anti-Drug Abuse Act of 1988 (21 U.S.C. 1504(c)) is amended by adding at the end the following new paragraph:

"(4) Amounts in the Special Forfeiture Fund established by section 6073 of this Act shall not be available for any purpose after January 31, 1990, if the Director has not, by that date, made designations under paragraph (1)."

(d) REQUEST FOR SUPPLEMENTAL APPROPRIATION.—Not later than February 28, 1990, the President shall submit to the Congress a request for such supplemental appropriation as may be necessary for fiscal year 1990 for deposits in the Special Forfeiture Fund under section 6073(b) of the Anti-Drug Abuse Act of 1988.

SEC. 3. PROHIBITION OF CERTAIN TRANSFERS OF FORFEITED PROPERTY TO STATE AND LOCAL LAW ENFORCEMENT AGENCIES IF SUCH TRANSFERS CIRCUMVENT STATE LAW.

(a) PARTICIPATION REQUIREMENT.—Section 512(e)(3) of the Controlled Substances Act (21 U.S.C. 881(e)(3)) is amended to read as follows:

"(3) The Attorney General shall assure that any property transferred to a state or local law enforcement agency under paragraph (1)(A) has a value that bears a reasonable relationship to the degree of direct participation of the State or local agency in the law enforcement effort resulting in the forfeiture, taking into account the total value of all property forfeited and the total law enforcement effort with respect to the violation of law on which the forfeiture is based.".

(b) ANTI-CIRCUMVENTION REQUIREMENT.—Section 511(e) of the Controlled Substances Act (21 U.S.C. 881(e)) is amended by adding at the end the following new paragraph:

"(4) The Attorney General shall assure that property is not transferred following utilization of an adopted seizure process to circumvent any requirement of State law that limits the disposition of property forfeited to State or local agencies. An adopted seizure process is one in which investigative and prosecutive activity related to the seizure (other than activity relating to the actual forfeiture) was carried out exclusively by state and local agencies. In determining whether the transfer would be in circumvention of state law, the Attorney General may rely upon a written opinion of the attorney general of the pertinent State that such a process is not being utilized to circumvent State law. A decision by the Attorney General under this subsection is not subject to review by any court.".

(c) EFFECTIVE DATES.—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act. The amendment made by subsection (b) shall take effect on October 1, 1991.

SEC. 4. CLARIFICATION OF ATTORNEY GENERAL'S AUTHORITY TO WARRANT CLEAR TITLE UPON TRANSFER OF FORFEITED PROPERTY.

Section 524(c) of tile 28, United States Code, is amended—

(1) by redesignating paragraph (10) as paragraph (11); and

(2) by inserting after paragraph (9) the following new paragraph:

"(10) Following the completion of procedures for the forfeiture of property pursuant to any law enforced or administered by the department, the Attorney General is authorized, at his discretion, to warrant clear title to any subsequent purchaser or transferee of such forfeited property.".

SEC. 5. SUMMARY SEIZURE AND FORFEITURE OF MONEY AND SIMILAR ITEMS UNDER THE CONTROLLED SUBSTANCES ACT.

Section 511 of the Controlled Substances Act (21 U.S.C. 881) is amended—

(1) by redesignating subsection (l) as subsection (k); and

(2) by adding at the end the following new subsection:

"(l) Notwithstanding any other provision of this title, the Attorney General may carry out seizure and forfeiture of moneys in the manner provided with respect to seizure and forfeiture of conveyances by the Secretary of the Treasury under section 607 of the Tariff Act of 1930.".

The SPEAKER pro tempore. Is a second demanded?

Mr. GEKAS. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey [Mr. HUGHES] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. GEKAS] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the bill we bring to the floor of the House today, H.R. 3550, was crafted to parallel two provisions—section 6 and 7—of S. 1735, a Senate-passed bill which has been referred to our committee, as well as four other House committees.

S. 1735 was itself carved out of the Senate-passed version of H.R. 3015, the Transportation Appropriations Act. Most of this year's anti-drug funding, including the funding of the President's drug strategy, is contained in H.R. 3015.

Following Senate passage of H.R. 3015, several House legislative committees, including our own, objected to the fact that several anti-drug legislative items, including items requested by the President to help implement his strategy, were attached by the Senate to this appropriations bill, of national drug control policy.

This section, like the Senate bill, allows the transfer to take place on a quarterly basis, rather than waiting until the end of the fiscal year. It also maintains the right of the Attorney General to retain $15 million in the DOJ forfeiture fund to pay asset-specific expenses.

Section 2 makes some technical amendments and incorporates an amendment, offered by Senator CRANSTON, which would withhold the use of funds in the special forfeiture fund after January 31, 1990, if the drug director has not designated high intensity drug trafficking areas. It also contains a provision calling upon the President to submit a request for a supplemental appropriation for fiscal year 1990, which would be needed to spend the money to be transferred quarterly in fiscal year 1990.

Section 7 of S. 1735 effectively repeals section 6077 of the Anti-Drug Abuse Act of 1988, the adoptive forfeiture restrictions developed by our subcommittee on crime. The House has recently taken a position on this issue by the passage of H.R. 2806. As a result, H.R. 3550, with one change, incorporates H.R. 2806, instead of the the Senate repeal provision. The one change, in section 3(c), changes the effective date of the anti-circumvention requirement to October 1, 1991 from July 1, 1991. This change conforms with the agreement we made in the State, Justice, Commerce, and Judiciary appropriation bill (H.R. 2991).

Sections 4 and 5, also contained in H.R. 2806, are designed to expedite the forfeitures of large cash seizures and the Speaker agreed to ask the Senate to send these items to the House in a legislative, rather than an

appropriations bill. The Senate leadership agreed. The legislative items previously in H.R. 3015 were incorporated into S. 1735, which was passed and sent to the House. The Senate then receded from its disagreement with the House over these items in H.R. 3015, and they were dropped from that bill in conference.

The House leadership in exchange agreed to prompt House consideration of the proposals contained in S. 1735. Because of the referral of that bill to five House committees, it was determined that the most appropriate way to process these proposals would be for each committee to develop a separate bill or bills addressing those matters in S. 1735 within its jurisdiction.

H.R. 3550 addresses the two items in S. 1735 within the jurisdiction of our Committee. H.R. 3550 was jointly referred to the Committees on the Judiciary and Energy and Commerce. The Energy and Commerce Committee advises that it has no objection to the bill or to our bringing it to the floor today under suspension of the rules.

Section 2 of H.R. 3550 parallels section 6 of S. 1735. It adds one additional year—fiscal year 93—to the existing authority—fiscal year 1990, 1991, and 1992—of the drug czar to recommend to the Congress how to spend up to $150 million of excess funds transferred from the Department of Justice forfeiture fund to the special forfeiture fund. The special forfeiture fund, established by the Anti-Drug Abuse Act of 1988, is administered by the director of the office and gives the Attorney General authority to warrant clear title on civilly forfeited property.

I believe this is a noncontroversial bill.

I urge your support.

Mr. Speaker, I want to thank the gentleman from Pennsylvania [Mr. GEKAS] for his assistance in working with us in drafting this legislation, and the gentleman from Florida [Mr. MCCOLLUM] the ranking Republican, who has likewise worked hard in expediting this particular bill.

Mr. Speaker, I reserve the balance of my time.

Mr. GEKAS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to express my strong support for H.R. 3550. This bill is one piece, admittedly one very small piece, of the President's antidrug strategy. I want to thank the gentleman from New Jersey, BILL HUGHES, who, as chairman of the Subcommittee on Crime, gave expeditious consideration to those items in the Senate's antidrug bill (S. 1735) that were within the legislative jurisdiction of the subcommittee.

I am certain, Mr. Speaker, that there are many Members who will ask what this bill does in relation to the President's proposal for fighting drugs announced in early September. The answer to that question is quite simple. H.R. 3550 will reduce the time lag involved in spending moneys accumulated in the Department of Justice Asset Forfeiture Fund.

Under current law, the monetary proceeds resulting from the sale of forfeited assets are deposited in the Justice forfeiture fund. Forfeited cash also is deposited in the fund. Then, throughout the year, these funds are used to support the forfeiture system and to reimburse State and local law enforcement agencies for their cooperation in Federal forfeiture cases. However, the residual proceeds in the Justice forfeiture fund are not spent on Federal antidrug programs until the end of the fiscal year. In the Anti-Drug Abuse Act of 1988, Congress decided to transfer up to $150 million from the forfeiture fund at the end of each fiscal year to the Director of the Office of National Drug Control Policy. The Director—or "drug czar"—would determine how the funds should be spent. This fund controlled by the Director is called the special forfeiture fund. Today's bill authorizes the Justice Department to transfer available moneys to the special forfeiture fund on a quarterly basis instead of only at the end of the fiscal year. The $150 million cap would still apply.

Mr. Speaker, there are two specific provisions in this bill about which I would like to make comments. The first concerns section 2(d) which requires the President to submit to the Congress by February 28, 1990, a supplemental appropriations request for funds to be spent from the special forfeiture fund in this current fiscal year.

It should be pointed out that the conference report for the Department of Transportation appropriations bill, which has already passed this House, appropriates $115 million from the Special Forfeiture Fund for prison construction for fiscal year 1990. This was done in reponse to a request by Director Bennett. Therefore, section 2(d) only applies to those moneys in the Forfeiture Fund which have not already been appropriated for fiscal year 1990. In future years, it is my understanding that the President will submit to Congress his plans for expenditures from the Special Forfeiture Fund with his yearly budget submission. Congress will respond to this request with an appropriations bill, and the Director then will be authorized to spend the funds whenever he receives them in the following fiscal year. For example, in 1990, the President should include in his budget request the Director's desires for fiscal year 1991 Special Forfeiture Fund expenditures. By the time the fund receives deposits from the Justice Department after the first quarter of fiscal year 1991, the Director will be authorized to expend the deposited moneys.

The second provision about which I want to comment is the requirement in section 2(c) that the Director designate "high intensity drug trafficking areas" by January 31, 1990. This section prohibits the Director from expending moneys in the Special Forfeiture Fund after this date if he does not make the designation. The Anti-Drug Abuse Act of 1988 authorizes the Director to so designate any specific area of the United States as a high intensity drug trafficking area. This determination is to be based upon several factors, including the extent of drug trafficking in the area, the amount of resources committed by local law enforcement authorities to the problem, and the impact of the problem on other areas of the country.

The administration opposes section 2(c) because it requires the Director to make the designation, rather than allowing him to do so if he believes it is necessary. This requirement reverses the intention in last year's drug bill when Congress decided to make the high intensity provisions discretionary. The administration is requesting that this provision be dropped in conference, and I intend to support the President's request.

Mr. Speaker, H.R. 3550 also contains the provisions of H.R. 2806 which passed the House under suspension of the rules 4 weeks ago. Those provisions attempt to balance two important policy goals. The first goal involves the need of State and local law enforcement agencies to forfeit expeditiously the assets of drug traffickers and then to use the benefits of these forfeited assets against the traffickers. The second goal concerns the principle of respect for self-governance by the States. The result of this balance, which I believe is achieved by H.R. 2806 and now by H.R. 3550, is to cooperate with a State or local law enforcement agency in State forfeiture cases so long as such cooperation does not directly conflict with the expressed intentions of the State legislature.

Mr. Speaker, I am pleased that we are acting on this bill today, and I look forward to resolving differences with the other body this week so that we can get an antidrug package to the President before we go home for Thanksgiving. Again, I thank the gentleman from New Jersey.

□ 1430

Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. COUGHLIN], who has been a leader in the war on drugs from its inception.

Mr. COUGHLIN. Mr. Speaker, I thank the gentleman for yielding and for his work on this legislation, and I also thank and congratulate my friend and colleague, the gentleman from New Jersey [Mr. HUGHES], the distin-

guished chairman of the Subcommittee on Crime, and also the ranking member of that subcommittee, the gentleman from Florida [Mr. MCCOLLUM].

I also thank the leadership of the Committee on the Judiciary, the distinguished chairman, the gentleman from Texas [Mr. BROOKS], who we all hope will be rejoining us very soon in this body and its ranking member, the gentleman from New York [Mr. FISH], for bringing this legislation before us.

Again let me say this is part of the President's drug strategy, a strategy that we in this Congress requested and that the President transmitted to us at our request on September 5. He transmitted this legislation to the Congress on September 20. It was passed by the Senate, that is, legislation similar to this was passed by the Senate on a vote of 97 to 2 on September 27 and was the subject of a motion to instruct in this body on October 11 and passed by a vote of 402 to 15.

It was also the subject of a letter from the Speaker and the majority leader to the other body which agreed to consider this legislation expeditiously.

I am pleased to see that that has been done and that the legislation is before us.

Mr. Speaker, it is important legislation that should be completed before this Congress adjourns for the year. I hope it will receive a strong vote in this House and that any differences will be reconciled with the other body and that we will indeed send it to the President so that the drug czar will be in a position to use assets from the drug forfeiture fund in an orderly fashion for the operation of the Office of Director of Drug Policy.

I hope that that will be done promptly. It would not be proper for this House to adjourn for the year without completing the work on this important legislation.

Mr. Speaker, I ask that that be done. Again I thank the committee.

Mr. GEKAS. Mr. Speaker, I yield back the balance of my time.

Mr. HUGHES. Mr. Speaker, I yield myself such time as I may consume, and I thank the distinguished chairman of the full committee, the gentleman from Texas [Mr. BROOKS], for helping expedite this. Even though he has been under the weather, he has committed to having the full Committee on the Judiciary move this legislation expeditiously. He has done that. Also the ranking minority member, the gentleman from New York [Mr. FISH].

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of H.R. 3550, the drug forfeiture amendment, and I would like to commend the distinguished chairman of our Judiciary Committee, the gentleman from New Jersey [Mr. HUGHES].

Mr. Speaker, drug forfeiture represents a crucial, additional source of funding for the war against drugs. Currently, the drug czar receives deposits to the fiscal year. H.R. 3550 by authorizing a transfer of forfeiture funds on a quarterly basis, would expedite their availability, starting in January 1990.

The bill would further expedite the asset forfeiture process by authorizing the Attorney General to grant clear title to any buyer of seized property, and by allowing cash seizures of $100,000 or more to be subject to the Federal forfeiture process rather than the present judical process for cash seizures.

H.R. 3550 also addresses the critical issue of State and Federal "equitable sharing" of proceeds from seized assets. The equitable sharing provision is an integral part of the forfeiture program. Ensuring an equitable sharing succeeds in fostering greater Federal, State, and local law enforcement cooperation in drug cases. It is this kind of cooperation that is so important and which ultimately leads to successful drug seizures.

Accordingly, Mr. Speaker, I support this legislation and urge my colleagues to vote in its favor.

Mr. HUGHES. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from New Jersey [Mr. HUGHES] that the House suspend the rules and pass the bill, H.R. 3550, as amended.

The question was taken.

Mr. HUGHES. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. HUGHES. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous matter on H.R. 3550, the bill just considered.

The SPEAKER. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

QUARTERLY FINANCIAL REPORT PROGRAM EXTENSION

Mr. ACKERMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3629), extending the authority of the Secretary of Commerce to conduct the quarterly financial report program under section 91 of title 13, United States Code, through September 30, 1993.

The Clerk read as follows:

H.R. 3629

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 4(b) of Public Law 97-454 (13 U.S.C. 91 note) is amended by striking "7 years after such effective date." and inserting "after September 30, 1993.".

The SPEAKER pro tempore. Is a second demanded?

Mr. RIDGE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from New York [Mr. ACKERMAN] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. RIDGE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. ACKERMAN].

GENERAL LEAVE

Mr. ACKERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on H.R. 3629, the bill presently under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ACKERMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3629 was introduced by the chairman of the Subcommittee on Census and Population, Mr. SAWYER, and the subcommittee's ranking minority member, Mr. RIDGE. H.R. 3629 extends the authority of the Secretary of Commerce to conduct the Quarterly Financial Report Program.

Under section 91 of title 13, United States Code, the Secretary is required to collect and publish quarterly financial statistics of business operations and practices, including data on sales, expenses, profits, assets and liabilities, and other accounts generally used by businesses to measure financial condition.

Quarterly financial report data are critical building blocks for vital measurements of the Nation's economy, including the gross national product and the Federal Reserve Board's flow of funds accounts. Business analysts and decision-makers also use QFR data to analyze industry profitability for investment purposes and to compare their financial condition with industry trends.

The program was first established 42 years ago under the jurisdiction of the Federal Trade Commission. In 1983, Congress transferred responsibility for the Quarterly Financial Report Program to the Department of Commerce under Public Law 97-454.

The statutory authority for the program expires on January 12, 1990. H.R. 3629 extends the authority for

the program through September 30, 1993.

The Quarterly Financial Report is the most comprehensive report on corporate financial activity. Reauthorization of the program will ensure continuation of this principal economic indicator.

Mr. Speaker, I urge my colleagues to support the bill.

□ 1440

Mr. Speaker, I reserve the balance of my time.

Mr. RIDGE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in 1982, the authority for the administration of the Quarterly Financial Report was transferred from the Federal Trade Commission to the Secretary of Commerce. The day-to-day operations were then delegated to the agency most prepared to gather and report these figures: The Census Bureau.

The Quarterly Financial Report, better known as the QFR, provides the most current financial statistics on the performance of U.S. corporations and is used to make estimates of the gross national product. The QFR is the only quarterly source of information on our small businesses. Since its transfer to the Census Bureau, the QFR has maintained an excellent relationship with its users. In addition, the Bureau has strived to reduce the burden on the reporting corporations by using many of the techniques devised for decennial census.

Mr. Speaker, our bill merely extends the authority of the Secretary of Commerce to conduct the Quarterly Financial Report Program. This statutory authority is due to expire on January 12, 1990. H.R. 3629 extends this authority through September 30, 1993. As we are still aiming for a November adjournment, today is the only day we could schedule consideration of H.R. 3629. I fully support extension of the QFR Program and ask the House to suspend the rules and support this measure.

Mr. SAWYER. Mr. Speaker, H.R. 3629 extends the authority of the Secretary of Commerce to conduct the Quarterly Financial Report Program. I am pleased to be the sponsor of this legislation, along with my distinguished subcommittee colleague, Congressman RIDGE.

Under section 91 of title 13, United States Code, the Secretary is required to collect and publish quarterly financial statistics of business operations and practices, organization, management, and relation to other businesses. The report includes data on sales, expenses, profits, assets and liabilities, stockholders' equity, and other accounts generally used by businesses to measure financial condition.

The Quarterly Financial Report is a critical statistical indicator. It is the primary source of data for current estimates of the gross national product and national income. It is a major component of the Federal Reserve Board's flow of funds accounts and the sole source of unconsolidated nonfinancial corporate data for the Federal Reserve Board. It is the most current and comprehensive report on corporate financial activity.

In short, Quarterly Financial Report data are essential for calculating key Government measures of the national economy.

While timing of the Quarterly Financial Report Program is structured to meet the specific needs of key economic indicators, business analysts and decisionmakers also use QFR data to analyze industry profitability for investment purposes, compare their financial condition with industry trends, and analyze performance of the small business sector.

The Quarterly Financial Report Program was first established 42 years ago under the jurisdiction of the Federal Trade Commission.

In 1983, Congress transferred responsibility for the Quarterly Financial Report Program to the Department of Commerce under Public Law 97–454. The Secretary of Commerce delegated authority for the program to the Census Bureau, the Government's primary data collection agency.

The statutory authority for the Quarterly Financial Report Program expires on January 12, 1990. H.R. 3629 simply extends the program through September 30, 1993.

Over the past decade, the Government's ability to collect and publish accurate economic statistics has been eroded by budget cuts and agency staffing reductions. Voluntary cooperation by businesses in data collection efforts also has decreased due to cost and time considerations.

The Quarterly Financial Report Program has been structured to reduce the reporting burden on respondents by using sampling procedures instead of a complete canvass, collecting information readily available through traditional business financial statements, and accepting reasonable estimates if book figures are unavailable.

Reauthorization of the Quarterly Financial Report Program will ensure the accuracy and continuation of principal economic indicators that are the cornerstones of our ability to measure the current condition of our national economy and to plan for our future economic well-being.

Mr. RIDGE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ACKERMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from New York [Mr. ACKERMAN] that the House suspend the rules and pass the bill, H.R. 3629, as amended.

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

CALCULATION OF PREMIUM PAY

Mr. ACKERMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 215) to amend title 5, United States Code, with respect to the method by which premium pay is determined for irregular, unscheduled overtime duty performed by a Federal employee, as amended.

The Clerk read as follows:

H.R. 215

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 5545(c)(2) of title 5, United States Code, is amended to read as follows:

"(2) an employee in a position in which the hours of duty cannot be controlled administratively, and which requires substantial amounts of irregular, unscheduled overtime duty with the employee generally being responsible for recognizing, without supervision, circumstances which require the employee to remain on duty, shall receive premium pay for this duty on an annual basis instead of premium pay provided by other provisions of this subchapter, except for regularly scheduled overtime, night, and Sunday duty, and for holiday duty. Premium pay under this paragraph is an appropriate percentage, not less than 10 percent nor more than 25 percent, of the rate of basic pay for the position, as determined by taking into consideration the frequency and duration of irregular, unscheduled overtime duty required in the position.".

(b) The amendment made by subsection (a) shall apply with respect to overtime duty performed on or after the first day of the first applicable pay period beginning after September 30, 1990.

The SPEAKER pro tempore. Is a second demanded?

Mr. RIDGE. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from New York [Mr. ACKERMAN] will be recognized for 20 minutes, and the gentleman from Pennsylvania [Mr. RIDGE] will be recognized for 20 minutes.

The Chair recognizes the gentleman from New York [Mr. ACKERMAN].

GENERAL LEAVE

Mr. ACKERMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 215, the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. ACKERMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 215 would revise the method by which administratively uncontrollable overtime is calculated.

H.R. 215 was introduced by our distinguished colleague, Congresswoman MARY ROSE OAKAR and currently has 182 cosponsors.

Administratively uncontrollable overtime is compensation for those Federal employees who must work substantial amounts of irregular, unscheduled, overtime * * * the hours of which cannot be controlled administratively.

Such work is compensated at a maximum rate of 25 percent of an employee's base salary, with the exception that those earning more than a GS-10, step 1, salary are limited to 25 percent of a GS-10.

H.R. 215 simply removes the reference to GS-10 from current law, so that all employees eligible for this type of overtime would be compensated at 25 percent of their actual salaries.

The Committee on Post Office and Civil Service approved H.R. 215 by voice vote.

The bill has been amended in order to address concerns, expressed by the Committee on Appropriations, about the effective date. The amendment makes the bill effective with respect to overtime duty performed on or after the first day of the first applicable pay period beginning after September 30, 1990.

Mr. Speaker, I urge my colleagues to support H.R. 215, and I reserve the balance of my time.

Mr. RIDGE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to commend my colleague from Ohio for her leadership on this issue. I would also commend the ranking member of the Subcommittee on Compensation and Employee Benefits, Mr. MYERS, for his action on this issue.

Currently, Federal law requires that premium pay be limited to 25 percent of an employee's salary so long as he or she is below a GS-10. Those who are GS-10 or above must be limited to 25 percent of a GS-10's base pay. The inequity in the percentages of pay for overtime is apparent. An employee above a GS-10 classification receives a lower percentage of pay for overtime.

Under H.R. 215, Federal employees whose jobs involve administratively uncontrollable, irregular, and unscheduled overtime duty would be able to receive overtime pay at a flat rate of 25 percent of their base salary—no matter the grade classification. At a time when the Federal Government is experiencing a "quiet crisis" among its work force, the current compensation for administratively uncontrollable overtime is unjustified, unacceptable, and patently unfair. Current law actually punishes a Federal employee for achievement beyond the GS-10 classification.

I hope you will join me in supporting H.R. 215 and its correction of compensation for administratively uncontrollable overtime.

Mr. ACKERMAN. Mr. Speaker, I yield 5 minutes to the gentlewoman from Ohio [Ms. OAKAR].

Ms. OAKAR. Mr. Speaker, first of all I want to pay tribute to the gentleman from New York [Mr. ACKERMAN] who had the first hearings on this legislation almost 4 years ago. I want to also pay tribute to the members of the minority because this was a bipartisan approach, along with my chairman, the gentleman from Michigan [Mr. FORD]. I also want to thank the Committee on Appropriations, and in particular, the chairman, the gentleman from Mississippi [Mr. WHITTEN], and the gentleman from California [Mr. ROYBAL], and the gentleman from Iowa [Mr. SMITH], because sometimes those members on the committee on authorizing feel that we do not get a quid pro quo from appropriations, but this is a case where they really went beyond the call of duty. I want to thank them personally for it. Finally, I would like to give my special thanks to Senator DOLE for his efforts and to Senator GLENN for his support of this legislation in the other body. They are truly friends of federal law enforcement personnel. Mr. Speaker, I introduced this legislation again this year because I saw the inequity in the manner in which we pay our Federal law enforcement officers in terms of their unscheduled overtime. As a matter of fact, we really don't pay them as though it's overtime, and we are talking about people who are in agencies like the FBI, the CIA, DEA, the Secret Service, Park Police, and so on.

This is a time when these individuals are more needed than ever, and we are losing competent, qualified, and experienced people because their base pay is so limited, and the compensation is so poor. Relief from this inequity is long overdue for our Nation's Federal law enforcement officers.

Last year, as I mentioned, the gentleman from New York [Mr. ACKERMAN] had a very comprehensive hearing related to this problem. We heard testimony which described the disparity, on a national average, in pay between Federal law enforcement officers and their State and local counterparts. As an example, a rookie police officer with the New York Police Department, and he, I am sure, deserves it, but he earns more than an FBI agent who has considerably more experience. At the same time, FBI agents must have a college degree, face occasional transfer, generally undergo vigorous retraining exercises, and certainly are subjected to the most thorough background security check. So we learn that the various agencies are now experiencing some difficulty in attracting qualified individuals to service, and have a higher than usual attrition rate among experienced officers.

The Congressional Budget Office does estimate that this bill will cost about $80 million, beginning September 30, 1990. However, if we estimate the incredible costs associated with lost experience, and the need to continually retrain new people, then that really balances out.

Mr. Speaker, while H.R. 215 does not even begin to address the most serious problems relating to equity for our civil servants, both in law enforcement and other professions related to Federal service, it does impact, I think, and will favorably impact on our Nation's war on drugs and crime. Let Members not forget those who are called upon daily to fight this war.

These are our Federal law enforcement agents.

□ 1450

Mr. Speaker, I was very, very pleased to see the bipartisan support for this bill. I hope the administration will realize the wisdom of this bill because of the number of cosponsors, and the attrition and so forth that we are experiencing.

Once again I want to express my appreciation to the chairman of this committee, the minority leader of this committee and members of the full committee, and I also want to thank my staff because getting agreements with the Senate side, and the House side, and the Committee on Appropriations and so on is not very easy, I especially want to thank Joe Grimes for his previous work and Scott Frey for his current work. They deserve an awful lot of credit.

Mr. Speaker, I yield back the balance of my time.

Mr. RIDGE. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. GILMAN], our friend and colleague.

Mr. GILMAN. Mr. Speaker, I rise to join my colleagues in support of H.R. 215, legislation I believe is long overdue, introduced by my good friend, the gentlelady from Ohio, [Ms. OAKAR] and supported by the distinguished Chairman of the Committee on Compensation and Employee Benefits and the ranking minority member of the Subcommittee, the gentleman from Indiana [Mr. MYERS] and cosponsored by over 180 of our colleagues, including myself. This measure was reported out of our Committee on Post Office and Civil Service by a voice vote on October 25.

H.R. 215 revises the calculation of premium pay for administratively uncontrollable overtime [AUO] duty performed by some of our Federal employees, primarily affecting law enforcement officers. Other employees would be affected as well.

I would have preferred that this measure could have been implemented as soon as possible after enactment. However, I understand that an amendment has been accepted that delays the effective date until the beginning of the next fiscal year to allow the agencies involved time to make the necessary changes called for in the bill.

Current statutes require that an employee, whose rate of pay is below GS-10 on the General Schedule will receive 25 percent of his basic pay for their AUO time, but for those above GS-10 their overtime payments are limited to 25 percent of a GS-10 salary even though their basic pay may be much higher. This legislation corrects this to provide that the rate for AUO is 25 percent of their actual base salary. I support this change because I do not believe our employees should lose money because their Government needs them for temporary emergencies elsewhere or for surveillance of suspected criminal figures.

Understandably, the hours the covered employees work are not dictated by a work schedule but by what suspects do and when they do it. Our salary structure should be flexible enough to assist this part of our workforce and not to hinder them.

Primary among the recipients of the benefits of this bill would be law enforcement officers. But, the majority of those would be the Federal employees working to stop the flow of illegal drugs into the United States.

As we all recognize, when considering the impact of this particular type of criminal activity and all its related violence, it does not pay in the long run to be, as they say, "penny wise and pound foolish." This criminal activity must stop and the bill before us will allow the employees in the trenches to take their minds off how much money they are losing by being on AUO surveillance and allow them to concentrate on their jobs. It will, we have been assured, also greatly assist in recruiting and retaining employees engaged in this battle.

I commend the gentleman from New York [Mr. ACKERMAN] for his active and swift consideration of this bill and the House leadership, on both sides of the aisle, for expediting consideration of it and I am hopeful that our action today will give a necessary boost to the overall morale of our employees.

Mr. RIDGE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ACKERMAN. Mr. Speaker, I have no further requests for the time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. McDermott). The question is on the motion offered by the gentleman from New York [Mr. ACKERMAN] that the House suspend the rules and pass the bill, H.R. 215, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

NATIONAL MUSEUM OF THE AMERICAN INDIAN ACT

Mr. CLAY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2668) to authorize the establishment with the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes; as amended.

The Clerk read as follows:

H.R. 2668

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Museum of the American Indian Act".

SEC. 2. FINDINGS.

The Congress finds that—

(1) there is no national museum devoted exclusively to the history and art of cultures indigenous to the Americas;

(2) although the Smithsonian Institution sponsors extensive Native American programs, none of its 19 museums, galleries, and major research facilities is devoted exclusively to Native American history and art;

(3) the Heye Museum in New York, New York, one of the largest Native American collections in the world, has more than 1,000,000 art objects and artifacts and a library of 40,000 volumes relating to the archaeology, ethnology, and history of Native American peoples;

(4) the Heye Museum is housed in facilities with a total area of 90,000 square feet, but requires a minimum of 400,000 square feet for exhibition, storage, and scholarly research;

(5) the bringing together of the Heye Museum collection and the Native American collection of the Smithsonian Institution would—

(A) create a national institution with unrivaled capability for exhibition and research;

(B) give all Americans the opportunity to learn of the cultural legacy, historic grandeur, and contemporary culture of Native Americans;

(C) provide facilities for scholarly meetings and the performing arts;

(D) make available curatorial and other learning opportunities for Indians; and

(E) make possible traveling exhibitions to communities throughout the Nation;

(6) by order of the Surgeon General of the Army, approximately 4,000 Indian human remains from battlefields and burial sites were sent to the Army Medical Museum and were later transferred to the Smithsonian Institution;

(7) through archaeological excavations, individual donations, and museum donations, the Smithsonian Institution has acquired approximately 14,000 additional Indian human remains;

(8) the human remains referred to in paragraphs (6) and (7) have long been a matter of concern for many Indian tribes, including Alaska Native villages, and Native Hawaiian communities which are determined to provide an appropriate resting place for their ancestors;

(9) identification of the origins of such human remains is essential to addressing that concern; and

(10) an extraordinary site on the National Mall in the District of Columbia (U.S. Government Reservation No. 6) is reserved for the use of the Smithsonian Institution and is available for construction of the National Museum of the American Indian.

SEC. 3. NATIONAL MUSEUM OF THE AMERICAN INDIAN.

(a) ESTABLISHMENT.—There is established, within the Smithsonian Institution, a living memorial to Native Americans and their traditions which shall be known as the "National Museum of the American Indian".

(b) PURPOSES.—The purposes of the National Museum are to—

(1) advance the study of Native Americans, including the study of language, literature, history, art, anthropology, and life;

(2) collect, preserve, and exhibit Native American objects of artistic, historical, literary, anthropological, and scientific interest;

(3) provide for Native American research and study programs; and

(4) provide for the means of carrying out paragraphs (1), (2), and (3) in the District of Columbia, the State of New York, and other appropriate locations.

SEC. 4. AUTHORITY OF THE BOARD OF REGENTS TO ENTER INTO AN AGREEMENT PROVIDING FOR TRANSFER OF HEYE FOUNDATION ASSETS TO THE SMITHSONIAN INSTITUTION.

The Board of Regents is authorized to enter into an agreement with the Heye Foundation, to provide for the transfer to the Smithsonian Institution of title to the Heye Foundation assets. The agreement shall—

(1) require that the use of the assets be consistent with section 3(b); and

(2) be governed by, and construed in accordance with, the law of the State of New York.

The United States District Court for the Southern District of New York shall have original and exclusive jurisdiction over any cause of action arising under the agreement.

SEC. 5. BOARD OF TRUSTEES OF THE NATIONAL MUSEUM OF THE AMERICAN INDIAN.

(a) GENERAL.—The National Museum shall be under a Board of Trustees with the duties, powers, and authority specified in this section

(b) GENERAL DUTIES AND POWERS.—The Board of Trustees shall—

(1) recommend annual operating budgets for the National Museum to the Board of Regents;

(2) advise and assist the Board of Regents on all matters relating to the administration, operation, maintenance, and preservation of the National Museum;

(3) adopt bylaws for the Board of Trustees;

(4) designate a chairman and other officers from among the members of the Board of Trustees; and

(5) report annually to the Board of Regents on the acquisition, disposition, and display of Native American objects and artifacts and on other appropriate matters.

(c) SOLE AUTHORITY.—Subject to the general policies of the Board of Regents, the Board of Trustees shall have the sole authority to—

(1) lend, exchange, sell, or otherwise dispose of any part of the collections of the National Museum, with the proceeds of such transactions to be used for additions to the collections of the National Museum or additions to the endowment of the National Museum, as the case may be;

(2) purchase, accept, borrow, or otherwise acquire artifacts and other objects for addition to the collections of the National Museum; and

(3) specify criteria for use of the collections of the National Museum for appropriate purposes, including research, evaluation, education, and method of display.

(d) AUTHORITY.—Subject to the general policies of the Board of Regents, the Board of Trustees shall have authority to—

(1) provide for restoration, preservation, and maintenance of the collections of the National Museum;

(2) solicit funds for the National Museum and determine the purposes to which such funds shall be applied; and

(3) approve expenditures from the endowment of the National Museum for any purpose of the Museum.

(e) INITIAL APPOINTMENTS TO THE BOARD OF TRUSTEES.—

(1) MEMBERSHIP.—The initial membership of the Board of Trustees shall consist of—

(A) the Secretary of the Smithsonian Institution;

(B) an Assistant Secretary of the Smithsonian Institution appointed by the Board of Regents;

(C) 8 individuals appointed by the Board of Regents; and

(D) 15 individuals, each of whom shall be a member of the board of trustees of the Heye Museum, appointed by the Board of Regents from a list of nominees recommended by the board of trustees of the Heye Museum.

(2) SPECIAL RULE.—At least 7 of the 23 members appointed under subparagraphs (C) and (D) of paragraph (1) shall be Indians.

(3) TERMS.—The trustee appointed under paragraph (1)(B) shall serve at the pleasure of the Board of Regents. The terms of the trustees appointed under subparagraph (C) or (D) of paragraph (1) shall be 3 years, beginning on the date of the transfer of the Heye Foundation assets to the Smithsonian Institution.

(4) VACANCIES.—Any vacancy shall be filled only for the remainder of the term involved. Any vacancy appointment under paragraph (1)(D) shall not be subject to the source and recommendation requirements of that paragraph, but shall be subject to paragraph (2).

(f) SUBSEQUENT APPOINTMENTS TO THE BOARD OF TRUSTEES.—

(1) MEMBERSHIP.—Upon the expiration of the terms under subsection (e), the Board of Trustees shall consist of—

(A) the Secretary of the Smithsonian Institution;

(B) an Assistant Secretary of the Smithsonian Institution appointed by the Board of Regents; and

(C) 23 individuals appointed by the Board of Regents from a list of nominees recommended by the Board of Trustees.

(2) SPECIAL RULE.—At least 12 of the 23 members appointed under of paragraph (1)(C) shall be Indians.

(3) TERMS.—The trustee appointed under paragraph (1)(B) shall serve at the pleasure of the Board of Regents. Except as otherwise provided in the next sentence, the terms of members appointed under paragraph (1)(C) shall be 3 years. Of the members first appointed under paragraph (1)(C)—

(A) 7 members, 4 of whom shall be Indians, shall be appointed for a term of one year, as designated at the time of appointment; and

(B) 8 members, 4 of whom shall be Indians, shall be appointed for a term of 2 years, as designated at the time of appointment.

(4) VACANCIES.—Any vacancy shall be filled only for the remainder of the term involved.

(g) QUORUM.—A majority of the members of the Board of Trustees then in office shall constitute a quorum.

(h) EXPENSES.—Members of the Board shall be entitled (to the same extent as provided in section 5704 of title 5, United States Code, with respect to employees serving intermittently in the Government service) to per diem, travel, and transportation expenses for each day (including travel time) during which they are engaged in the performance of their duties.

SEC. 6. DIRECTOR AND STAFF OF THE NATIONAL MUSEUM.

(a) IN GENERAL.—The Secretary of the Smithsonian Institution shall appoint—

(1) a Director who, subject to the policies of the Board of Trustees, shall manage the National Museum; and

(2) other employees of the National Museum, to serve under the Director.

(b) OFFER OF EMPLOYMENT TO HEYE FOUNDATION EMPLOYEES.—Each employee of the Heye Museum on the day before the date of the transfer of the Heye Foundation assets to the Smithsonian Institution shall be offered employment with the Smithsonian Institution—

(1) under the usual terms of such employment; and

(2) at a rate of pay not less than the rate applicable to the employee on the day before the date of the transfer.

(c) APPLICABILITY OF CERTAIN CIVIL SERVICE LAWS.—The Secretary may—

(1) appoint the Director, 2 employees under subsection (a)(2), and the employees under subsection (b) without regard to the provisions of title 5, United States Code, governing appointments in the competitive service;

(2) fix the pay of the Director and such 2 employees without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates; and

(3) fix the pay of the employees under subsection (b) in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates, subject to subsection (b)(2).

SEC. 7. MUSEUM FACILITIES.

(a) NATIONAL MUSEUM MALL FACILITY.—The Board of Regents shall plan, design, and construct a facility on the area bounded by Third Street, Maryland Avenue, Independence Avenue, Fourth Street, and Jefferson Drive, Southwest, in the District of Columbia to house the portion of the National Museum to be located in the District of Columbia. The Board of Regents shall pay not more than ⅔ of the total cost of planning, designing, and constructing the facility from funds appropriated to the Board of Regents. The remainder of the costs shall be paid from non-Federal sources.

(b) NATIONAL MUSEUM HEYE CENTER FACILITY.—

(1) LEASE OF SPACE FROM GSA.—

(A) TERMS.—Notwithstanding section 210(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(j)), the Administrator of General Services may lease, at a nominal charge, to the Smithsonian Institution space in the Old United States Custom House at One Bowling Green, New York, New York, to house the portion of the National Museum to be located in the city of New York. The lease shall be subject to such terms as may be mutually agreed upon by the Administrator and the Secretary of the Smithsonian Institution. The term of the lease shall not be less than 99 years.

(B) REIMBURSEMENT OF FEDERAL BUILDINGS FUND.—The Administrator of General Services may reimburse the fund established by section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)) for the difference between the amount charged to the Smithsonian Institution for leasing space under this paragraph and the commercial charge under section 210(j) of such Act which, but for this paragraph, would apply to the leasing of such space. There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this subparagraph for fiscal years beginning after September 30, 1990.

(2) CONSTRUCTION.—

(A) MUSEUM FACILITY.—The Board of Regents shall plan, design, and construct a significant facility for the National Museum in the space leased under paragraph (1).

(B) AUDITORIUM AND LOADING DOCK FACILITY.—The Administrator of General Services shall plan, design, and construct an auditorium and loading dock in the Old United States Custom House at One Bowling Green, New York, New York, for the shared use of all the occupants of the building, including the National Museum.

(c) SQUARE FOOTAGE.—The facilities to be constructed under this paragraph shall have, in the aggregate, a total square footage of approximately 82,500 square feet.

(c) REPAIRS AND ALTERATIONS.—After construction of the facility under paragraph (2)(A), repairs and alterations of the facility shall be the responsibility of the Board of Regents.

(4) REIMBURSEMENT OF GSA.—The Board of Regents shall reimburse the Administrator for the Smithsonian Institution's pro rata share of the cost of utilities, maintenance, cleaning, and other services incurred with respect to the space leased under paragraph (1) and the full cost of any repairs or alterations made by the General Services Administration at the request of the Smithsonian Institution with respect to the space.

(5) COST SHARING.—

(A) GENERAL RULES.—The Board of Regents shll pay ⅓ of the costs of planning, designing, and constructing the facility under paragraph (2)(A) from funds appropriated to the Board of Regents. The remainder of the costs shall be paid from non-Federal sources.

(B) RESPONSIBILITIES OF NEW YORK CITY AND STATE.—Of the costs which are required to be paid from non-Federal sources under this paragraph, the city of New York, New York, and the State of New York have each agreed to pay $8,000,000 or an amount equal to ⅓ of the costs of planning, designing, and constructing the facility under paragraph (2)(A), whichever is less. Such payments shall be made to the Board of Regents in accordance with a payment schedule to be agreed upon by the city and State and the Board of Regents.

(C) LIMITATION ON OBLIGATIONS OF FEDERAL FUNDS.—Federal funds may not be obligated for actual construction of a facility under paragraph (2)(A) in a fiscal year until non-Federal sources have paid to the Board of Regents the non-Federal share of such costs which the Board of Regents estimates will be incurred in such year.

(6) DESIGNATION.—The facility to be constructed under paragraph (2)(A) shall be known and designated as the "George Gustav Heye Center of the National Museum of the American Indian".

(c) MUSEUM SUPPORT CENTER FACILITY.—The Board of Regents shall plan, design, and construct a facility for the conservation and storage of the collections of the National Museum at the Museum Support Center of the Smithsonian Institution.

(d) MINIMUM SQUARE FOOTAGE.—The facilities to be constructed under this section shall have, in the aggregate, a total square footage of at least 400,000 square feet.

(e) AUTHORITY TO CONTRACT WITH GSA.—The Board of Regents and the Administrator of General Services may enter into such agreements as may be necessary for planning, designing, and constructing facilities under this section (other than subsection (b)(2)(B)). Under such agreements, the Board of Regents shall transfer to the Administrator, from funds available for planning, designing, and constructing such facilities, such amounts as may be necessary for expenses of the General Services Administration with respect to planning, designing, and constructing such facilities.

(f) LIMITATION ON OBLIGATION OF FEDERAL FUNDS.—Notwithstanding any other provision of this Act, funds appropriated for carrying out this section may not be obligated for actual construction of any facility under this section until the 60th day after the date on which the Board of Regents transmits to Congress a written analysis of the total estimated costs of the construction and a cost-sharing plan projecting the amount for Federal appropriations and for non-Federal contributions for the construction on a fiscal year basis.

SEC. 8. CUSTOM HOUSE OFFICE SPACE AND AUDITORIUM.

(a) REPAIRS AND ALTERATIONS.—The Administrator of General Services shall make such repairs and alterations as may be necessary in the portion of the Old United States Custom House at One Bowling Green, New York, New York, which is not leased to the Board of Regents under section 7(b) and which, as of the date of the enactment of this Act, has not been altered.

(b) AUTHORIZATION OF APPROPRIATION.—There is authorized to be appropriated to the Administrator of General Services $25,000,000 from the fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)) to carry out this section and section 7(b)(2)(B).

SEC. 9. AUDUBON TERRACE.

(a) IN GENERAL.—The Board of Regents shall—

(1) assure that, on the date on which a qualified successor to the Heye Foundation at Audubon Terrace first takes possession of Audubon Terrace, an area of at least 2,000 square feet at that facility is accessible to the public and physically suitable for exhibition of museum objects and for related exhibition activities;

(2) upon written agreement between the Board and any qualified successor, lend objects from the collections of the Smithsonian Institution to the successor for exhibition at Audubon Terrace; and

(3) upon written agreement between the Board and any qualified successor, provide training, scholarship, technical, and other assistance (other than operating funds) with respect to the area referred to in paragraph (1) for the purposes described in that paragraph.

(b) DETERMINATION OF CHARGES.—Any charge by the Board of Regents for activities pursuant to agreements under paragraph (2) or (3) of subsection (a) shall be determined according to the ability of the successor to pay.

(c) DEFINITION.—As used in this section, the terms "qualified successor to the Heye Foundation at Audubon Terrace", "qualified successor", and, "successor" mean an organization described in section 501(c)(3) of the Internal Revenue Code of 1986, and exempt from tax under section 501(a) of such Code, that, as determined by the Board of Regents—

(1) is a successor occupant to the Heye Foundation at Audubon Terrace, 3753 Broadway, New York, New York;

(2) is qualified to operate the area referred to in paragraph (1) for the purposes described in that paragraph; and

(3) is committed to making a good faith effort to respond to community cultural interests in such operation.

SEC. 10. BOARD OF REGENTS FUNCTIONS WITH RESPECT TO CERTAIN AGREEMENTS AND PROGRAMS.

(a) PRIORITY TO BE GIVEN TO INDIAN ORGANIZATIONS WITH RESPECT TO CERTAIN AGREEMENTS.—In entering into agreements with museums and other educational and cultural organizations to—

(1) lend Native American artifacts and objects from any collection of the Smithsonian Institution;

(2) sponsor or coordinate traveling exhibitions of artifacts and objects; or

(3) provide training or technical assistance; the Board of Regents shall give priority to agreements with Indian organizations, including Indian tribes, museums, cultural centers, educational institutions, libraries, and archives. Such agreements may provide that loans or services to such organizations may be furnished by the Smithsonian Institution at minimal or no cost.

(b) INDIAN PROGRAMS.—The Board of Regents may establish—

(1) programs to serve Indian tribes and communities; and

(2) in cooperation with educational institutions, including tribally controlled community colleges (as defined in section 2 of the Tribally Controlled Community College Assistance Act of 1978), programs to enhance the opportunities for Indians in the areas of museum studies, management, and research.

(c) INDIAN MUSEUM MANAGEMENT FELLOWSHIPS.—The Board of Regents shall establish an Indian Museum Management Fellowship program to provide stipend support to Indians for training in museum development and management.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $2,000,000 for each fiscal year, beginning with fiscal year 1991, to carry out subsections (b) and (c).

SEC. 11. INVENTORY, IDENTIFICATION, AND RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS IN THE POSSESSION OF THE SMITHSONIAN INSTITUTION.

(a) INVENTORY AND IDENTIFICATION.—The Secretary of the Smithsonian Institution, in consultation and cooperation with traditional Indian religious leaders and government officials of Indian tribes, shall—

(1) inventory the Indian human remains and Indian funerary objects in the possession or control of the Smithsonian Institution; and

(2) using the best available scientific and historical documentation, identify the origins of such remains and objects.

(b) NOTICE IN CASE OF IDENTIFICATION OF TRIBAL ORIGIN.—If the tribal origin of any Indian human remains or Indian funerary object is identified by a preponderance of the evidence, the Secretary shall so notify any affected Indian tribe at the earliest opportunity.

(c) RETURN OF INDIAN HUMAN REMAINS AND ASSOCIATED INDIAN FUNERARY OBJECTS.—If any Indian human remains are identified by a preponderance of the evidence as those of a particular individual or as those of an individual culturally affiliated with a particular Indian tribe, the Secretary, upon the request of the descendants of such individual or of the Indian tribe shall expeditiously return such remains (together with any associated funerary objects) to the descendants or tribe, as the case may be.

(d) RETURN OF INDIAN FUNERARY OBJECTS NOT ASSOCIATED WITH INDIAN HUMAN REMAINS.—If any Indian funerary object not associated with Indian human remains is identified by a preponderance of the evidence as having been removed from a specific burial site of an individual culturally affiliated with a particular Indian tribe, the Secretary, upon the request of the Indian tribe, shall expeditiously return such object to the tribe.

(e) INTERPRETATION.—Nothing in this section shall be interpreted as—

(1) limiting the authority of the Smithsonian Institution to return or repatriate Indian human remains or Indian funerary objects to Indian tribes or individuals; or

(2) delaying actions on pending repatriation request, denying or otherwise affecting access to the courts, or limiting any procedural or substantive rights which may otherwise be secured to Indian tribes or individuals.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $1,000,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years to carry out this section.

SEC. 12. SPECIAL COMMITTEE TO REVIEW THE INVENTORY, IDENTIFICATION, AND RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS.

(a) ESTABLISHMENT; DUTIES.—Not later than 120 days after the date of the enactment of this Act, the Secretary of the Smithsonian Institution shall appoint a special committee to monitor and review the inventory, identification, and return of Indian human remains and Indian funerary objects under section 11. In carrying out its duties, the committee shall—

(1) with respect to the inventory and identification, ensure fair and objective consideration and assessment of all relevant evidence;

(2) upon the request of any affected party or otherwise, review any finding relating to the origin or the return of such remains or objects;

(3) facilitate the resolution of any dispute that may arise between Indian tribes with respect to the return of such remains or objects; and

(4) perform such other related functions as the Secretary may assign.

(b) MEMBERSHIP.—The committee shall consist of five members, of whom—

(1) three members shall be appointed from among nominations submitted by Indian tribes and organizations; and

(2) the Secretary shall designate one member as chairman.

The Secretary may not appoint to the committee any individual who is an officer or employee of the Government (including the Smithsonian Institution) or any individual who is otherwise affiliated with the Smithsonian Institution.

(c) ACCESS.—The Secretary shall ensure that the members of the committee have full and free access to the Indian human remains and Indian funerary objects subject to section 11 and to any related evidence, including scientific and historical documents.

(d) PAY AND EXPENSES OF MEMBERS.—Members of the committee shall—

(1) be paid the daily equivalent of the annual rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code; and

(2) be entitled (to the same extent as provided in section 5703 of such title, with respect to employees serving intermittently in the Government service) to per diem, travel, and transportation expenses;

for each day (including travel time) during which they are engaged in the peformance of their duties.

(e) RULES AND ADMINISTRATIVE SUPPORT.—The Secretary shall prescribe regulations and provide administrative support for the committee.

(f) REPORT AND TERMINATION.—At the conclusion of the work of the committee, the Secretary shall so certify by report to the Congress. The committee shall cease to exist 120 days after the submission of the report.

(g) NONAPPLICABILITY OF THE FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the committee.

(h) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $250,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years to carry out this section.

SEC. 13. INVENTORY, IDENTIFICATION, AND RETURN OF NATIVE HAWAIIAN HUMAN REMAINS AND NATIVE HAWAIIAN FUNERARY OBJECTS IN THE POSSESSION OF THE SMITHSONIAN INSTITUTION.

(a) IN GENERAL.—THE SECRETARY OF THE SMITHSONIAN INSTITUTION SHALL—

(1) in conjunction with the inventory and identification under section 11, inventory and identify the Native Hawaiian human remains and native Hawaiian funerary objects in the possession of the Smithsonian Institution.

(2) enter into an agreement with appropriate Native Hawaiian organizations with expertise in Native Hawaiian affairs (which may include the Office of Hawaiian Affairs and the Malama I Na Kupuna O Hawai'i Nei) to provide for the return of such human remains and funerary objects; and

(3) to the greatest extent practicable, apply, with respect to such human remains and funerary objects, the principles and procedures set forth in sections 11 and 12 with respect to the Indian human remains and Indian funerary objects in the possession of the Smithsonian Institution.

(b) DEFINITIONS.—As used in this section—

(1) the term "Malama I Na Kupuna O Hawai'i Nei" means the nonprofit, Native Hawaiian organization, incorporated under the laws of the State of Hawaii by that name on April 17, 1989, the purpose of which is to provide guidance and expertise in decisions dealing with Native Hawaiian cultural issues, particularly burial issues; and

(2) the term "Office of Hawaiian Affairs" means the Office of Hawaiian Affairs established by the Constitution of the State of Hawaii.

SEC. 14. GRANTS BY THE SECRETARY OF THE INTERIOR TO ASSIST INDIAN TRIBES WITH RESPECT TO AGREEMENTS FOR THE RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS.

(a) IN GENERAL.—The Secretary of the Interior may make grants to Indian tribes to assist such tribes in reaching and carrying out agreements with—

(1) the Board of Regents for the return of Indian human remains and Indian funerary objects under section 11; and

(2) other Federal and non-Federal entities for additional returns of Indian human remains and Indian funerary objects.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $1,000,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years for grants under subsection (a).

SEC. 115. GRANTS BY THE SECRETARY OF THE INTERIOR TO ASSIST INDIAN ORGANIZATIONS WITH RESPECT TO RENOVATION AND REPAIR OF MUSEUM FACILITIES AND EXHIBIT FACILITIES.

(a) GRANTS.—The Secretary of the Interior may make grants to Indian organizations, including Indian tribes, museums, cultural centers, educational institutions, libraries, and archives, for renovation and repair of museum facilities and exhibit facilities to enable such organizations to exhibit objects and artifacts on loan from the collections of the Smithsonian Institution or from other sources. Such grants may be made only from the Tribal Museum Endowment Fund.

(b) INDIAN ORGANIZATION CONTRIBUTION.—In making grants under subsection (a), the Secretary may require the organization receiving the grant to contribute, in cash or in kind, not more than 50 percent of the cost of the renovation or repair involved. Such contribution may be derived from any source other than the Tribal Museum Endowment Fund.

(c) TRIBAL MUSEUM ENDOWMENT FUND.—

(1) ESTABLISHMENT.—There is established in the Treasury a fund, to be known as the "Tribal Museum Endowment Fund" (hereinafter in this subsection referred to as the "Fund") for the purpose of making grants under subsection (a). The Fund shall consist of (A) amounts deposited and credited under paragraph (2), (B) obligations obtained under paragraph (3), and (C) amounts appropriated pursuant to authorization under paragraph (5).

(2) DEPOSITS AND CREDITS.—The Secretary of the Interior is authorized to accept contributions to the Fund from non-Federal sources and shall deposit such contributions in the Fund. The Secretary of the Treasury shall credit to the Fund the interest on, and the proceeds from sale and redemption of obligations held in the Fund.

(3) INVESTMENTS.—The Secretary of the Treasury may invest any portion of the Fund in interest-bearing obligations of the United States. Such obligations may be acquired on original issue or in the open market and may be held to maturity or sold in the open market. In making investments for the Fund, the Secretary of the Treasury shall consult the Secretary of the Interior with respect to maturities, purchases, and sales, taking into consideration the balance necessary to meet current grant requirements.

(4) EXPENDITURES AND CAPITAL PRESERVATION.—Subject to appropriation, amounts derived from interest shall be available for expenditure from the Fund. The capital of the Fund shall not be available for expenditure.

(5) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Fund $2,000,000 for each fiscal year beginning with fiscal year 1992.

(d) ANNUAL REPORT.—Not later than January 31 of each year, the Secretary of the Interior, in consultation with the Secretary of the Treasury, shall submit to the Congress a report of activities under this section, including a statement of—

(1) the financial condition of the Fund as of the end of the preceding fiscal year, with an analysis of the Fund transactions during that fiscal year; and

(2) the projected financial condition of the Fund, with an analysis of expected Fund transactions for the six fiscal years after that fiscal year.

SEC. 16. DEFINITIONS.

As used in this Act—

(1) the term "Board of Regents" means the Board of Regents of the Smithsonian Institution;

(2) the term "Board of Trustees" means the Board of Trustees of the National Museum of the American Indian;

(3) the term "burial site" means a natural or prepared physical location, whether below, on, or above the surface of the earth, into which, as a part of a death rite or ceremony of a culture, individual human remains are deposited;

(4) the term "funerary object" means an object that, as part of a death rite or ceremony of a culture, is intentionally placed with individual human remains, either at the time of burial or later;

(5) the term "Heye Foundation assets" means the collections, endowment, and all other property of the Heye Foundation (other than the interest of the Heye Foundation in Audubon Terrace) described in the Memorandum of Understanding between the Smithsonian Institution and the Heye Foundation, dated May 8, 1989, and the schedules attached to such memorandum;

(6) the term "Heye Museum" means the Museum of the American Indian, Heye Foundation;

(7) the term "Indian" means a member of an Indian tribe;

(8) the term "Indian tribe" has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act;

(9) the term "National Museum" means the National Museum of the American Indian established by section 3;

(10) the term "Native American" means an individual of a tribe, people, or culture that is indigenous to the Americans and such term includes a Native Hawaiian; and

(11) the term "Native Hawaiian" means a member or descendant of the aboriginal people who, before 1778, occupied and exercised sovereignty in the area that now comprises the State of Hawaii.

SEC. 17. AUTHORIZATION OF APPROPRIATIONS.

(a) FUNDING.—There is authorized to be appropriated to the Board of Regents to carry out this Act (other than as provided in sections 7(b)(1)(B), 8, 10, 11, 12, 14, and 15(c)(5))—

(1) $10,000,000 for fiscal year 1990; and

(2) such sums as may be necessary for each succeeding fiscal year.

(b) PERIOD OF AVAILABILITY.—Funds appropriated under subsection (a) shall remain available without fiscal year limitation for any period prior to the availability of the facilities to be constructed under section 7 for administrative and planning expense and for the care and custody of the collections of the National Museum.

The SPEAKER pro tempore. Is a second demanded?

Mr. GILLMOR. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Missouri [Mr. CLAY] will be recognized for 20 minutes, and the gentleman from Ohio [Mr. GILLMOR] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Missouri [Mr. CLAY].

GENERAL LEAVE

Mr. CLAY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous matter on H.R. 2668, as amended, the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. CLAY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2668, as amended, authorizes the establishment of the National Museum of the American Indian as a part of the Smithsonian Institution and provides for the transfer of the collection of the Museum of the American Indian, Heye Foundation to the Smithsonian. When completed the Museum will consist of a major facility on the Mall, immediately east of the Air and Space Museum; an auxiliary exhibit facility in New York City; and a storage and research facility in Maryland. The bill also provides for the repair of the Old U.S. Custom House in New York City. Additionally, the bill provides for the repatriation to certain Indian tribes and Native Hawaiians of certain human remains and funerary objects in the possession of the Smithsonian and authorizes appropriations for certain grants to Indian tribes to mitigate repatriation costs, and to promote Indian museum programs.

The bill authorizes the appropriation of $10 million in fiscal year 1990 and such sums as may be necessary in succeeding years for care and custody of the collection to be transferred to the Smithsonian and for planning, design and construction of the National Museum of the American Indian. The total costs for building the three new facilities for the National Museum of the American Indian are preliminarily estimated at $175 million of which one-third of the facility on the Mall and the lesser of two-thirds or $16 million of the facility in New York will be paid by non-Federal funds. The bill also authorizes the appropriation of $25 million from the Federal Building Trust Fund to GSA for repair of the Old U.S. Custom House. Because of the preliminary nature of the cost estimates, language has been included providing that funds may not be obligated for actual construction of the National Museum of the American Indian until the 60th day after the Smithsonian transmits to Congress a written analysis of the total estimated cost of construction and a cost-sharing plan projecting Federal appropriations and non-Federal contributions on a fiscal year basis.

The bill authorizes the appropriation of $1,250,000 in fiscal year 1991 and such sums as may be necessary in succeeding years for the Smithsonian to inventory and repatriate Indian remains. The bill authorizes the appropriation of $1 million for fiscal year 1991 and for succeeding years for grants to mitigate tribal repatriation costs. The bill authorizes the appropriation of $2 million for fiscal year 1991 and for succeeding years for grants to promote Indian museum programs. As amended, the bill includes an authorization for appropriations of $2 million for fiscal year 1992 and for succeeding years for an endowment to provide grants for repair and renovation of tribal museums.

Mr. Speaker, a number of people have worked very diligently to make this legislation possible. I wish to express my appreciation to Secretary Adams and his staff, to the Board of Trustees of the Heye Foundation and their staff, to officials of New York City and New York State, and to Indian groups such as the Native American Rights Fund and the National Congress of American Indians for their efforts on behalf of this bill. The Committee on House Administration has worked very closely with the Committee on Public Works and the Interior Committee in developing this legislation and I wish to express my appreciation to the Members and staffs of those Committees for their fine work. Finally, I wish to commend the senior Senator from Hawaii, Mr. INOUYE, and the Gentleman from Colorado, Mr. CAMPBELL, and their staffs for their dedicated efforts to make the National Museum of the American Indian a reality.

This legislation accomplishes a number of important objectives. First, it ensures the preservation for benefit of future generations of one of the greatest collections of Native American artifacts and objects in the world. More importantly, when completed, the National Museum of the American Indian will truly serve as a living memorial to Native Americans and their traditions. As such, the museum will not only promote a more accurate appreciation of Indians on the part of those of us who have come more recently to this country, but will provide Native Americans with greater access to and a surer understanding of their own heritage and will serve to further inspire the development of their cultures. I think it wholly appropriate that this legislation should reach the floor as we approach the Thanksgiving holiday season. In my view, it is high time that we accord the cultures of the first Americans with the respect and appreciation they deserve. The creation of the National Museum of the American Indian will go a long way toward that end and I urge that the House support this legislation.

Mr. GILLMOR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2668, the National Museum of the American Indian Act.

The Heye collection is one of the three largest collections of Native American artifacts anywhere in the world. By providing for the transfer of the Heye collection to the Smithsonian Institution, this legislation enables thousands of Americans access to a national treasure rich in history, which up to this point has been relatively hidden.

It is important to note that H.R. 2668 will not only provide a repository for one of the world's greatest collections of Indian artifacts, but will also serve as a "living memorial" to Native Americans.

H.R. 2668 provides significant means for research and scientific study of the American Indian culture. The bill also promotes opportunities for indians in museum studies, management and research. Through the board of trustees of the American Indian Museum, American Indians are assured a strong voice in the presentation of their culture, and traveling exhibits will enhance awareness of this culture nationwide.

□ 1500

I would like to point out that as we went through this legislation in committee there were a number of very difficult, very touchy issues, with which we had to deal. I would like to commend the chairman, the gentleman from Missouri [Mr. CLAY], for bringing those issues to a very satisfactory resolution.

Mr. Speaker, I support the passage of this proposal.

Mr. ANDERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, it is with great pleasure that I rise today to support H.R. 2668, the "National Museum of the American Indian Act."

H.R. 2668 fills a very important need in the United States, the creation of a national museum devoted exclusively to the history and art of native Americans. In Washington, we have a national museum devoted to natural history, a national museum devoted to art, a national museum devoted to space and flight. Now, we will have a national museum devoted to American Indians which will be a part of the Smithsonian Institution.

The Committee on Public Works and Transportation has been very involved with this project as it has evolved over the past several years. H.R. 2668 provides for the construction of three facilities for the museum. The first, and largest will be on the Mall here in Washington, between the Air and Space Museum and the Botanical Gardens. The second facility will be on two floors of the old U.S. Custom House in lower Manhattan in New York City. The third will be added space to the Smithsonian's Museum support center in Suitland, MD.

Of the project costs, ⅓ of the cost of the Mall facility will be raised from non-Federal sources, and ⅔ of the cost of the old U.S. Custom House facility will be from non-Federal sources. The city and State of New York have each agreed to contribute $8 million to the New York facility.

H.R. 2668 also provides for the conveyance of the collection of Indian artifacts accumulated by George Gustav Heye (pronounced: "High") from the Heye Foundation to the Smithsonian Institution. This collection contains approximately 1 million valuable pieces of American history. Unfortunately, the Foundation has been unable to preserve and maintain the collection in recent years, and many of the objects are beginning to disintegrate with time. Conveyance of these artifacts to the Smithsonian Institution will ensure their preservation to enable our children and grandchildren to learn more about our Native American heritage.

The enactment of this legislation will also begin to resolve a very serious and sensitive concern to Indians and Hawaiians. That issue concerns the return of Indian and Hawaiian human remains and funerary objects in the possession of the Smithsonian Institution to their tribes or descendants. Over the years, various agencies and institutions have given the Smithsonian approximately 18,000 human remains. The descendants of these individuals do not want their ancestors to be in a museum, they want them properly buried. H.R. 2668 will create a review process for the Smithsonian to examine the remains in their collection, and if a descendant of the deceased person or their tribe can be identified, then the remains will be turned over to them for proper burial. I am hopeful that this process will provide for the orderly conveyance of many of the Indian remains and funerary objects in the collection of the Smithsonian Institution to their families.

Mr. Speaker, I would like to take this opportunity to thank the leadership of both the Committee on House Administration and the Committee on Interior and Insular Affairs for the cooperation they have shown to achieve a bill that all three committees of jurisdiction can actively support. The result of this combined effort is legislation that has our united support.

Mr. Speaker, I urge all of our colleagues to support H.R. 2668, the "National Museum of the American Indian Act."

Mr. CLAY. Mr. Speaker, I yield 2 minutes to the gentleman from West Virginia [Mr. RAHALL].

Mr. RAHALL. Mr. Speaker, today marks a very special day for Indian people across this country. We will finally pay tribute to the first Americans by establishing a national museum of the American Indian on the National Mall.

This bill took many years of negotiations. I would like to congratulate Chairman UDALL and Senator INOUYE and BEN NIGHTHORSE CAMPBELL for their efforts in making this a reality. I want to also extend my appreciation to Mr. CLAY, Mr. ANDERSON, and Mr. Bosco for their efforts to see that this bill was brought to the floor expeditiously.

H.R. 2668 will transfer one of the largest collections of Indian art and artifacts to the Smithsonian. But more importantly, it will right some of the injustices done to Indian people over the years. There has been strong sentiment in Indian country that the Indian human remains which have been housed in museums across the country should be returned to their proper resting place. This bill includes a monumental agreement between Indian tribes and the Smithsonian which acknowledges the respect and equal treatment that Indian people have been striving for in respect to their cultural and spiritual beliefs and the return of Indian remains. I know from experience that this is a very sensitive issue to address and on behalf of Chairman UDALL I want to commend everyone who was involved in reaching this agreement.

Mr. CLAY. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, I thank the chairman very much for yielding me this time.

Mr. Speaker, this legislation does a lot of very fine things. One thing it does is present to the Smithsonian the very exciting, interesting collection in New York City of the Heye Museum. I have visited that several times and have been very inspired and stimulated by what I saw there, including a beautiful carved head of a deer probably 1,000 years old, found in Florida. Recently a similar artifact came up out of the St. Johns River where I represent northeastern Florida. It was an owl. It was not a small thing like the deer head. It was actually 13 feet tall, if I remember correctly, a very, very large totem.

Many exciting things exist like this which are not being properly displayed at the moment. This museum of the Indians on the Mall will open the minds of many people to the great beauty and ingenuity of our Indian ancestry and our tradition in this country.

I have introduced legislation to prevent the raiding or the exhuming of bodies and artifacts in native burial grounds in the United States, a thing long overdue, and associated with the thing we are doing here. It is not the same legislation. The legislation before us today is very valuable for itself, but there is an immediate need to stop the raiding of Indian mounds and the taking out of artifacts. We never justify that for ourselves, that is, we Anglo-Saxon descendants would not have justified it in the past with regard to our ancestors and we cannot justify it as to people who were here when our ancestors came here.

This is something that must stop. It is a profit thing that is very disgraceful, and strong legislation has been introduced on this subject matter, and I hope the Congress will soon address it.

Mr. Speaker, a museum to celebrate the history and culture of Native Americans is long overdue. We all know the important part Native Americans have played in American history and also about the mistreatment given them over the years. We must now emphasize their contributions to our society and treat their remains and burial artifacts as most Americans would wish for their own ancestors.

I applaud the section of H.R. 2668 that would allow for study and recommendation on the final disposition of Native American remains and burial goods held in the Smithsonian Institution. In the past years, Native Americans have fought for the proper treatment of their ancestors' remains. Why should Native Americans have to fight such battles, when most decent people would agree with the principle that everyone's forebears should rest in peace?

Congress should put an end to both shameless grave robbing and unauthorized excavation by enacting legislation to protect the burial grounds of Native Americans.

This year I have introduced the Native American Burial Site Protection Act that would prohibit the excavation of any Native American burial site, or the removal of its contents. The bill would allow some excavation if a State decides to exempt by law an area within its borders. This would allow Indian groups to work cooperatively with a State if there is some site they believe might be excavated for

some good reason, such as the reburial of remains.

I have also introduced H.R. 3412, which is sponsored in the Senate by our former colleague, Senator WYCHE FOWLER of Georgia. This bill, the National Preservation Policy Act, would tighten the laws protecting Indian gravesites. In addition, this comprehensive bill would also require Federal agencies to consult with Native American tribes in order to resolve any objections the tribe may have regarding disturbing sacred grounds.

These bills and the National American Indian Museum Act represent a new sensitivity to the culture and beliefs of Native Americans. It is long overdue.

Mr. CLAY. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. RANGEL].

Mr. RANGEL. Mr. Speaker, I thank the committee chairman, the gentleman from Missouri [Mr. CLAY] for giving me this opportunity and for guiding this important legislation through the Congress.

I would like to point out, if it has not already been discussed in the debate, that the Heye Foundation in this smallest collection is located in my congressional district. A trust did exist which said that it could not leave the State of New York. That trust has been interpreted by the law as not being violated because of a major portion of the collection going to the Customs Building, as the gentleman eloquently pointed out, which is in the district of my colleague, the gentleman from New York [Mr. WEISS].

I would like to point out that the Foundation, even though it has resided in the Heye Foundation in Audubon Terrace, that the collection really has been neglected, as the entire community has been neglected.

The primary goal here is to make certain that this valuable treasure is protected. I think this legislation, the goals and objectives that we want to reach, will achieve that goal.

But I also have a responsibility to make certain that my community is protected, a community which is denied many times an opportunity to review and to preserve some of its cultural gems, this having been one.

So we have been able to work out with the Heye Foundation through the counsel Ed Costikyan, through the spokespeople from the Smithsonian Terrace, and from people from the city of New York how we can make certain that we can take a jewel in the rough and make it sparkle again.

□ 1510

In that connection, at the present site of the collection, the Smithsonian would assist us in working with the city of New York to make certain that on that site a nonprofit organization will be able to use at least 2,000 square feet for a museum for Indian, African-American, Latin American culture, and to the extent that we are able to work out all of these things, I am convinced that this matter will be resolved to the best of all concerned.

Mr. ANDERSON. Mr. Speaker, I yield 3 minutes to the gentleman from New York [Mr. WEISS].

Mr. WEISS. Mr. Speaker, I rise in support of H.R. 2668—the National Museum of the American Indian Act. This legislation embodies the many compromises and accommodations that have now ended the decade-long dispute over the fate of the Museum of the American Indian.

The settlement outlined in this bill would transfer the museum's unparalleled collection to the Smithsonian. At the same time, it would ensure that the will of the founder, George Gustav Heye, which stipulates that there must be a permanent museum of his collection in New York, will be adequately fulfilled.

I will leave it to others to describe the national significance of the collection, the reasons for moving it out of its current home, the justification for putting an Indian Museum on the Mall in Washington, and the importance of a close relationship between the museum and Native American groups. I would like to focus my remarks on the issues in this legislation which directly relate to New York, and specifically to my congressional district.

H.R. 2668 provides for the establishment of an 82,500-square-foot facility, the George Gustav Heye Center of the National Museum of the American Indian, at the Old United States Custom House in lower Manhattan. This facility would allow for display of more of Mr. Heye's magnificent collection in New York City than is possible at the museum's current location, to the benefit of all city residents, while also satisfying the stipulation of the Heye trust. It should be noted that both the city and State of New York have agreed to assist with the cost of renovating the Custom House for this purpose.

Another important aspect of this legislation concerns the building that currently houses the Museum of the American Indian. Because the museum's facility at Audubon Terrace was in my congressional district until 1982, and is currently at the border of my district, I have followed very closely developments in this entire saga. I have long maintained that regardless of the resolution of the fate of the museum, it is imperative that the Audubon Terrace facility remain a cultural anchor for the surrounding Harlem community, as it has for so long as the home for the Heye collection.

I am pleased to say that H.R. 2668 contains language that would safeguard the future of that facility as a cultural presence, and it is for this reason that I joined as a cosponsor of the legislation. The bill provides that the successor entity to the museum of the American Indian at Audubon Terrace would be entitled to show artifacts and objects from the Smithsonian's traveling exhibit service. This provision is essential to ensure that the community surrounding Audubon Terrace does not lose everything in the transfer of the museum to the Smithsonian.

In closing, I would like to thank and congratulate the various groups and individuals who have worked so diligently on this legislation. The amicable resolution of the fate of the Museum of the American Indian Museum has been many years in the making. I am pleased to report that many of the concerns of those involved in this long and sometimes difficult process have been adequately addressed in H.R. 2668. I commend the good faith efforts of the participants in writing this legislation and urge its unanimous adoption.

Mr. GILLMOR. Mr. Speaker, I yield 3 minutes to the gentleman from Arizona [Mr. RHODES].

Mr. RHODES. Mr. Speaker, I rise in support of H.R. 2668, a bill to establish a National Museum of the American Indian.

At the outset, I would like to thank my colleagues on the Committee on House Administration and the Committee on Public Works and Transportation for their dedication and hard work to bring this bill to the floor. The enactment of H.R. 2668 is a historically significant event for several reasons.

This bill embodies a very delicate and complex agreement between a variety of governmental bodies for the safeguarding of a rare and priceless collection of American Indian art and artifacts. Upon enactment of H.R. 2668, this collection will be transferred from the Heye Foundation in New York to the Smithsonian Institution. Importantly, the private sector, not just the public sector, will be making significant financial contributions to the future care and display of the collection.

H.R. 2668 contains a critical agreement between the Smithsonian Institution and Indian tribes across the country concerning the repatriation of Indian human remains and funerary objects contained in the Smithsonian collection. This agreement could not have been achieved without the sensitive and temperate manner in which Secretary Adams of the Smithsonian Institution approached the issue, and Secretary Adams is to be commended for his role in this effort.

Finally, a central focus of H.R. 2668 is to celebrate the many vibrant native cultures alive and well across the country, and to have special emphasis on making the collection available for

exhibition not just in the District of Columbia, but in Indian and non-Indian communities around the country.

I urge my colleagues to support passage of H.R. 2668.

Mr. Speaker, in closing, I would like to commend the chairman of the full Committee on the Interior, the gentleman from Arizona [Mr. UDALL], as well as the gentleman from Colorado [Mr. CAMPBELL], for their strong support of this bill. Without their leadership, understanding, and assistance, we probably would not have been able to progress as far as we have, and I wish to thank them.

Mr. GILLMOR. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Speaker, H.R. 2668 would establish a National Museum of the American Indian within the Smithsonian Institution. This language reflects the provisions of a Memorandum of Understanding signed earlier this year between the Smithsonian and the museum of the American Indian-Heye Foundation located in New York City. The assets of the Heye Museum, recognized to be one of the largest and finest collections of Indian artifacts, will be transferred to the Smithsonian and will be the foundation of the new museum.

H.R. 2668 provides for the construction of three facilities for the new museum—a museum building on the Mall just east of the Air and Space Museum, 82,500 square feet of museum space in the U.S. Custom House in New York City, and additional facilities at the Museum Support Center in Suitland, MD. No more than two-thirds of the construction funds for The Mall museum may come from Federal appropriations so fund raising will be necessary. The city and State of New York will each contribute up to one-third or $8 million of the cost of converting the Custom House space. With this museum space, the Heye collection will remain an important part of New York's cultural life. Before any construction funds can be obligated, the Smithsonian must submit to Congress a report on the estimated total construction costs and a cost-sharing plan for Federal and non-Federal funds.

H.R. 2668 also authorizes a $25 million renovation project for the remain ing work that needs to be completed in the U.S. Custom House in New York. The Bankruptcy Court moved into the building 2 years ago as a result of a previous renovation project and this project will complete the rest of the building for occupancy by Federal agencies.

The remaining sections of the bill pertain to the organization and operation of the museum, the relationship of the new museum to other regional and tribal museums, and provisions regarding the repatriation of human remains in the possession of the Smithsonian to Indian tribes and Native Hawaiians. The issue of the return of the human remains was a particularly complicated one, and I am pleased that the solution which will be included in H.R. 2668 appears to satisfy both the Smithsonian and various Indian groups which have been seeking a resolution to this issue for a long time. I would note that our colleague BEN NIGHTHORSE CAMPBELL played an important role in these negotiations between Indian groups and Smithsonian Secretary Adams.

Mr. Speaker, passage of H.R. 2668 will be another step forward in protecting the Indian treasures of the Heye collection which are now in danger of deteriorating in inadequate and inaccessible space. But the museum is intended to be more than simply exhibits and displays. The National Museum of the American Indian on the Mall here in Washington and in New York City will provide many Americans with an opportunity to learn and understand more about the past, present, and future of American Indian life and culture.

Mr. GILLMOR. Mr. Speaker, I yield 1 minute to the gentleman from California [Mr. LAGOMARSINO].

□ 1520

Mr. GILLMOR. Mr. Speaker, I yield such time as he may consume to the gentleman from Arkansas [Mr. HAMMERSCHMIDT].

Mr. LAGOMARSINO. Mr. Speaker, I rise in support of H.R. 2668, legislation authorizing the establishment of the National Museum of the American Indian within the Smithsonian Institution. I also want to commend BEN NIGHTHORSE CAMPBELL of Colorado.

By providing for the study, research, collection, and exhibition of native American culture past and present, the National Museum of the American Indian will do much to heighten understanding and enhance appreciation for those who originally inhabited America. By restoring, preserving, and maintaining a multitude of Native American objects and artifacts, the historical significance of the American Indian will be preserved for present and future generations.

I also applaud language in the legislation which calls for the board of trustees of the museum to identify the geographic and tribal origins of the Indian skeletal remains currently in the Smithsonian. By calling for the board to consult with Indian religious leaders when recommending a policy of returning or repatriating the skeletal remains, this legislation assures proper treatment of those remains.

Mr. Speaker, the National Museum of the American Indian will ensure that future generations remember the American Indians' past, present, and future contributions. We need to create this memorial to native Americans.

Mr. HAMMERSCHMIDT. Mr. Speaker, H.R. 2668 represents literally years of discussion, negotiation, and compromise by the Smithsonian Institution, the Heye Museum in New York, American Indian organizations, New York officials, and the House and the Senate.

H.R. 2668 will create a National Museum of the American Indian within the Smithsonian Institution, which will be based on the transfer of the collection of the Museum of the American Indian-Heye Foundation in New York City to the Smithsonian. The Heye collection is acknowledged to be one of the world's finest collections of North and South American Indian art and artifacts.

Unfortunately, this great collection is exhibited in a small, little-visited museum or, in most cases, stored in inadequate facilities. There is continuing concern that the collection is deteriorating and that we might lose forever these brilliant artifacts.

The bill authorizes the construction of three facilities with a total of 400,000 square feet—exhibit space in a portion of the old U.S. Custom House in New York City, a new museum on The Mall, and an addition to the Smithsonian Museum Support Center in Suitland, MD. The city and State of New York have each agreed to contribute up to $8 million for the New York Museum. Private funds are required to be raised for The Mall museum and, depending on renovation costs, for the New York museum.

In addition, the Smithsonian must report to Congress on the estimated total construction cost before any construction funds are obligated. A cost-sharing plan for Federal and non-Federal contributions also is required to be submitted before the obligation of construction funds.

H.R. 2668 also provides for technical assistance to other museums, particularly tribal museums. Finally, the Smithsonian is directed to conduct an inventory and return identified native Hawaiian and Indian human remains now in its possession. This is a compromise reached this summer and I particularly want to commend our colleague, BEN NIGHTHORSE CAMPBELL, Secretary Adams of the Smithsonian, and various American Indian groups who worked on this agreement.

Mr. Speaker, not only will this museum bring greater understanding of the life and times of Indians in the past, but it can also be viewed as a proper monument and living memorial to the present and future of the American Indian. I am sure it will be a learning experience for all who will visit.

I want to commend the Committees on House Administration and Interior and Insular Affairs—the other committees which, along the Public Works Committee, have jurisdiction over H.R. 2668—for the spirit of cooperation that has existed between our three committees. I urge the House to adopt this important legislation today.

Mr. AKAKA. Mr. Speaker, as a cosponsor I rise in support of H.R. 2668, the National American Indian Museum Act. The passage of this bill will not only assist the Smithsonian Institution in dedicating a memorial to the native

American people, but also ensure that native American and native Hawaiian remains and funerary objects that the Smithsonian now holds in its collection will be returned to their place of origin.

Over a period of many years, human bones and funerary objects found in Hawaii were sent to the Smithsonian Institution to be studied and analyzed. Although the research has been completed long ago, the native Hawaiian bones and funerary objects remain in storage at the Smithsonian Institution. The native Hawaiian community has expressed its desire for the repatriation of items excavated from their original resting place.

This bill authorizes the inventory, identification, and return of native American and native Hawaiian remains and funerary objects from the Smithsonian Institution. Two groups which will assist in this effort are Malama I Na Kupuna O' Hawaii Nei and the Office of Hawaiian Affairs [OHA].

Malama I Na Kupuna O' Hawaii Nei is composed of native Hawaiian leaders and experts in Hawaiian culture and customs. Malama I Na Kapuna O' Hawaii Nei is committed to ensuring that the disposition of prehistoric Hawaiian burial remains and funerary items is consistent with our cultural beliefs and practices, and are protected from mistreatment and desecration. On October 28, this group was instrumental in organizing a seminar in Hawaii on Hawaiian religious beliefs associated with burials, and the significance of archaeological research. During this conference a consensus was reached in which the native Hawaiian community expressed its desire to receive all the native Hawaiian remains from the Smithsonian Institution, regardless of whether descendants step forward to accept the remains.

The second group, the Office of Hawaiian Affairs [OHA], will assist in both an administrative and instutitional capacity. OHA is a unique entity that was created by the 1978 State constitutional convention, and its trustees are elected only by native Hawaiians. Both groups will assist the community in the repatriation of the remains and funerary objects, and they will also ensure that this process is accomplished in a manner consistent with the sensitivities of the native Hawaiian community.

I urge my colleagues to support this bill.

Mr. RICHARDSON. Mr. Speaker, I would first like to commend Chairman UDALL and Mr. CAMPBELL who have both been instrumental in steering this very important issue through the legislative process. Thanks to their efforts, the National Museum of the American Indian will soon be a reality.

As a Representative with one of the largest native American constituencies in the Nation, I have a special interest in the National Museum of the American Indian. I am very pleased to see that the many months of work on this important legislation have culminated in a measure which is well crafted and has addressed the many concerns involved.

The Museum of the American Indian-Heye Foundation in New York City is presently the holder of the world's most extensive collection of native American art and artifacts. Unfortunately, the museum's shortage of space and resources has precluded adequate display of its impressive collection. Some of the museum's finest art work and artifacts have been stored away for decades—their educational and aesthetic value going to waste. Clearly, this impressive collection, American Indian culture and its contributions to American society, deserve greater attention and exposure. It is this exposure and tribute that the national museum will provide.

I am heartened by the direction the National Museum of the American Indian is taking. While bestowing proper tribute to the Indian culture of the past, the museum will have a strong and clear focus on native American accomplishments and contributions to contemporary American society. Too often Indian culture is considered a thing of history, a relic of the past. To correct this misperception, I believe it is important that the museum emphasize that Indian culture is alive and evolving—that native Americans are achieving excellence and recognition in every facet of American society. It appears the museum has this goal very much in mind.

When this bill was considered by the Committee on Interior, I expressed the need to involve native Americans at every level of the museum's development, production, and administration. The goals this museum hopes to achieve can only be realized if the native American community and its leaders are involved fundamentally and integrally. The committee took these concerns into account and I have been assured that native Americans will have a very high degree of involvement in all processes. The bill provides that of the 23 persons appointed to the Museum's Board of Trustees, 12 must be native Americans. Furthermore, it is my understanding that the Secretary of the Smithsonian is committed to assuring that an even greater number of native Americans will actually serve on the Board of Trustees.

The bill also includes several key provisions which will ensure that resources will reach tribes. For instance, grants will be awarded to tribes and other entities to assist with repatriation and an endowment fund will be established for the repair and renovation of tribal museums. Technical assistance and training for Indian people in the field of museum management and curating are also included in the bill. These provisions assure that tribes and native Americans from around the Nation will benefit from programs this legislation initiates.

Mr. Speaker, the time has come to make the National Museum of the American Indian a national priority. By passing this legislation we are taking one important step toward the day this museum becomes a reality.

Mr. CONTE. Mr. Speaker, I rise in support of H.R. 2668, the bill to authorize the establishment within the Smithsonian Institution of the National Museum of the American Indian. The prospect of creating such a museum has been considered by the Institution's Board of Regents, of which I am a member, on a number of occasions over the years.

In May 1987, Smithsonian Secretary Robert Adams sought encouragement from the Board, which was gladly given, to pursue the possibility of transferring the extraordinary collection of the Museum of the American Indian-Heye Foundation, to the Institution and use it as the basis of a great new national museum to commemorate the civilizations, traditions, and contemporary culture of those who first occupied our land. Secretary Adams has been unflagging in his determination to overcome the obstacles to realization of that possibility responding to the concerns of all those interested in the request. In May of this year the Secretary signed a memorandum of understanding with the trustees of the Heye Foundation that paved the way for the legislation that is before us now.

I would note here that also in May the Regents approved the introduction of a measure that would have achieved the same objective; many of its features appear in H.R. 2668. However, the bill under consideration has been improved by contributions from the American Indian community, by its assurance of a predominance of Indian representation on the new museum's Board of Trustees, and by the language crafted, again by Secretary Adams and our colleague, BEN CAMPBELL, among others, to provide for the inventory and repatriation of human remains of Indian people in Smithsonian collections.

Enactment of H.R. 2668 will be a landmark in creating a museum at the foot of Capitol Hill that will rank among the four largest in the Smithsonian complex and in establishing a mechanism for dealing with the return of ancestral remains to Indian people. More signficantly, however, its enactment will mark, and, in fact is the product of, a new attitude within the Federal family toward the first Americans. American Indians are now full partners in creating an institution reflecting their culture, and I am confident that this new museum will be a long lasting legacy and testament to the diverse and rich culture of Native Americans.

As a request of the Smithsonian Institution and as a Member of Congress, I am proud to be a part of this historic effort to preserve and continue an important element of our national identity.

Mr. MINETA. Mr. Speaker, I rise in support of the National American Indian Museum Act. My support for this measure is strong and I offer it not only as a Member of Congress, but also as a member of the Smithsonian Board of Regents. It is from the vantage point of a Regent that I can attest to the skill, endless hours of work and negotiations, and the enduring commitment that made the concept of a National American Indian Museum a reality. Specifically, I want to acknowledge the distinguished gentleman from Colorado and author of H.R. 2668, BEN NIGHTHORSE CAMPBELL; the honorable chair of the Interior Committee, MORRIS K. UDALL; the dedicated chair of the House Administration Subcommittee on Libraries and Memorials, BILL CLAY; and the hard working chair of the House Public Works and Transportation Subcommittee on Public Buildings and Grounds, DOUG BOSCO. In addition to these fine gentleman, I would note the respective full committee and subcommittee chairs who have worked hard and long on this bill, the ranking minority members, and my fellow House Members who serve as Smithsonian Regents, the Honorable JAMIE L. WHITTEN and SILVIO O. CONTE; all of whom have made this possible.

In passing H.R. 2668, we are not only creating on the Mall a national resource. We are also moving to symbolically give a people back the history that the U.S. Government

took away from them. In some small but significant way, by creating within the Smithsonian Institution a National Museum of the American Indian, we are healing a wound that has for too long been unattended. I am proud to have participated in the development of this measure and to have cosponsored it. I urge all my colleagues to support passage of H.R. 2668.

Mr. DORGAN of North Dakota. Mr. Speaker, I rise in strong support of H.R. 2668, which will not only establish a National Museum of the American Indian but also mandate that the Smithsonian Institution return certain of its Indian remains to tribes for proper reburial.

Both purposes of this bill address longstanding concerns of Indian tribes in this Nation. The rich history and cultural heritage of native Americans has received inadequate recognition, in part because no one museum has served as a singular repository and interpreter of the first Americans. The establishment of a National Museum of the American Indian will help to consolidate and preserve this special heritage. In particular, it will provide a home for the notable collection now housed in the Museum of the American Indian, Heye Foundation, which lacks both the exhibit space and operating resources to promote an awareness and appreciation of the American Indian.

My main interest in this bill, however, is the directive to the Smithsonian Institution to return identified Indian human remains and associated funerary objects for reinterment by Indian families or tribes. This results in part from legislation which I introduced at the request of Indian tribes in North Dakota. The thrust of my bill, H.R. 1124, was incorporated into section 12 of the museum bill.

The Smithsonian has contended that the remains it holds are of considerable scientific value. The fact is, however, that there remains are being denied proper burial. One hundred years is enough time to conduct a study. It's time to treat Indian remains with the same respect accorded those of all other groups in our society.

Standford University and the University of Minnesota have set the right example by repatriating Indian remains in their collections. Now it's time to require that the Smithsonian does likewise.

I want to commend my colleagues Chairman UDALL, Chairman ANNUNZIO, and Mr. CAMPBELL for their cooperation and leadership in bringing this legislation to the floor. In closing, I urge my colleagues to support this needed bill.

Mr. WALSH. Mr. Speaker, I am pleased to join with my colleagues in supporting the passage of H.R. 2668, the National Museum of the American Indian. As a cosponsor of this bill, I believe that we here in the House have taken a crucial step in preserving the grandeur and the rich cultural legacy of the American Indian for generations present, and generations to come.

I wish to commend the Senator from Hawaii, [Mr. INOUYE] the gentleman from Colorado [Mr. CAMPBELL] the gentleman from Missouri, [Mr. CLAY] and the gentleman from Ohio, [Mr. GILLMOR] for without their dedicated effort the National Museum of the American Indian would never have become a reality.

Located within my district in central New York is the Onondaga Reservation. The Onondaga Indians are one of five tribes comprising the Iroquois Confederacy.

During the 17th century, the Onondagas continued to build their villages in the same area as they did in the two preceding centuries—near a region between Cazenovia Lake and Onondaga Creek. Their principal hunting territory included all of Onondaga County from the area around Cazenovia Lake to Skaneateles Lake.

In 1788, the Onondagas signed a treaty ceding to the State all their lands in New York except a 100-square-mile tract of land in Onondaga County. This tract of land extended along Onondaga Creek from a point a few miles above the Onondaga village to Onondaga Lake where the city of Syracuse now stands.

The Onondagas continue to hold a portion of their ancestral land located south of Syracuse, although the tract is smaller than the original tract, as provided in the treaty of 1788.

The construction of the National Museum of the American Indian, will now allow the rest of the country to enjoy and experience the rich cultural contributions that the Onondaga Nation, as well as the Iroquois Confederacy has made to our Nation, as we in Central New York have always appreciated.

The Museum of the American Indian-Heye Foundation collection is one of the largest collections of art and artifacts in the world. It encompasses over one million pieces from aboriginal tribes of North, Central, and South America, and extends from prehistoric to contemporary times. The collection is currently located in Manhattan in a facility that displays about 2 percent of the entire collection. The rest is located in a warehouse in the Bronx. Because of the shortage of space, rare and priceless artifacts are crowded into display cases, which pose a hazard to the collection. This legislation not only authorizes the National Museum, which is to be located on the Mall, but an auxiliary exhibit facility located in the Old United States Customs House in New York City. Also, authorized is a storage and research facility in Suitland, MD.

Most importantly, the Smithsonian Institution has agreed to conduct an inventory and identification process with the intent to return bone and funerary objects to Indian tribes for traditional interment.

Again, this bill will provide a long-term solution to the future of the valuable American Indian-Heye Foundation collection. Indians are not just a group of people found in history books, rather they are a thriving and dynamic culture.

I believe this museum will bind us up as a Nation, reminding us all, Indian and non-Indian of our past, and the possibilities for our future.

Mr. FALEOMAVAEGA. Mr. Speaker, I rise today in support of H.R. 2668, which authorizes the establishment of the National Museum of the American Indian as a part of the Smithsonian Institution.

Although I am only a freshman Member of Congress, I know this legislation is the product of many years of discussion and negotiation. As with any legislation of this nature, there are many groups competing to protect their interests, and I am pleased to see that they were all able to compromise in true Samoan fashion.

In achieving this compromise, I wish to give special recognition to Chairman INOUYE, Chairman UDALL, Chairman CLAY, Congressman BEN NIGHTHORSE CAMPBELL, Secretary Adams, the Board of Trustees of the Heye Foundation, officials of the governments of New York State and New York City, and many Indian groups for their continued efforts.

I am delighted to see that the assets of the Heye Foundation will be better preserved, and at the same time, made available for more Americans to see.

I am delighted to see that part of the old U.S. Customs House in New York City will be renovated and used to display part of the collection.

I am delighted to see that the American Indian, after being forced to move from one desolate location to another, will finally have a place of recognition on the Mall here in our Nation's Capital.

But most importantly, Mr. Speaker, I am warmed throughout to see that many of the skeletal remains and funerary objects currently being held by the Smithsonian Institution will be available for return to Indian tribes. That action alone is something of which we in Congress should all be proud.

I appreciate the efforts of everyone who worked on this bill.

Mr. GILLMOR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CLAY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Missouri [Mr. CLAY] that the House suspend the rules and pass the bill, H.R. 2668, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title of the bill was amended so as to read: "A bill to establish the National Museum of the American Indian within the Smithsonian Institution, and for other purposes.".

A motion to reconsider was laid on the table.

Mr. CLAY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 978) to authorize the establishment within the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri.

Mr. GILLMOR. Mr. Speaker, reserving the right to object, I yield to the

gentleman from Missouri [Mr. CLAY] for the purpose of explaining the bill.

Mr. CLAY. Mr. Speaker, I thank the gentleman for yielding. S. 978 is the Senate companion bill establishing the National Museum of the American Indian. My intention is to substitute the provisions of H.R. 2668 as passed by the House. A motion to that effect is pending at the desk.

Mr. GILLMOR. Mr. Speaker, I thank the gentleman for his explanation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 978

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "National American Indian Museum Act".

FINDINGS

SEC. 2. The Congress finds that—

(1) there is no national museum devoted exclusively to the history and art of cultures indigenous to the Americas, specifically Indians, Eskimos, and Aleuts;

(2) although the Smithsonian Institution employs more than 6,000 people, operates 19 museums, galleries, and major research facilities, and sponsors extensive American Indian programs, none of its institutions are devoted exclusively to Native American art and history;

(3) the Museum of the American Indian, Heye Foundation, located in New York City, has an unequaled assemblage of more than 1,000,000 Indian art objects and artifacts and is one of the largest of such collections in the world;

(4) the library of the Museum of the American Indian, Heye Foundation, houses 40,000 volumes relating to the archaeology, ethnology, and history of Native American peoples;

(5) the collection of the Museum of the American Indian, Heye Foundation, of art, artifacts, specimens and books is inadequately housed in 3 separate facilities totaling 90,000 square feet, with 95 percent of the collection of art and artifacts stored in 20,000 square feet and the collection of books kept in a 15,000 square foot library;

(6) the collection of the Museum of the American Indian, Heye Foundation needs a minimum of 400,000 square feet to adequately exhibit and store art and artifacts and to provide space for scholars and researchers;

(7) the bringing together of the collection of the Museum of the American Indian, Heye Foundation, and the Native American collection of the Smithsonian Institution would—

(A) create an institution whose capabilities for exhibition and research would be unrivaled in scope and would give all Americans the opportunity to learn of the cultural legacy, historic grandeur, and contemporary culture of Indians; and

(B) provide—

(i) a meeting place for scholars,

(ii) a significant, national facility for the exhibition of Indian art and artifacts,

(iii) a stage for the performing arts,

(iv) curation and other learning opportunities for Indians, and

(v) traveling exhibitions to communities throughout the Nation;

(8) approximately 300 human remains of Indians collected from battlefields and burial grounds were sent to the Army Medical Museum by order of the Surgeon General of the United States Army and later transferred to the Smithsonian Institution where they are still stored;

(9) the Smithsonian Institution has acquired additional collections of Native American human remains through—

(A) archaeological excavations, and

(B) donations from individuals and museums;

(10) these collections have been estimated to contain the remains of approximately 18,000 Indians, Eskimos, Aleuts, and Native Hawaiians and the existence of these collections has concerned many Indian tribes and bands, Alaska Native villages, and Native Hawaiian families that are determined to provide an appropriate resting place for their ancestors;

(11) identifying the geographic and tribal origins of Indian and Alaska Native and Native Hawaiian human remains in the Smithsonian collections is essential to addressing these concerns; and

(12) an extraordinary site on the National Mall in the District of Columbia (U.S. Government Reservation No. 6) which has been reserved for the use of the Smithsonian Institution is available for construction of a suitable building to permanently house the collection of the National Museum of the American Indian.

DEFINITIONS

SEC. 3. For the purposes of this Act—

(1) The term "Indian" means an individual who is a member of an Indian tribe, including any individual who is an Alaska Native.

(2) The term "Alaska Native" means any Eskimo, Aleut, or Alaska Indian.

(3) The term "Indian tribe" means any tribe, band, nation, or other organized group or community of Indians, including any Alaska Native village (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act).

(4) The term "Native American" means the tribes, peoples, and cultures that are indigenous to North America, Central America, or South America, including Native Hawaiians.

(5) The term "Native Hawaiian" means any individual who is a descendant of the aboriginal people who, prior to 1778, occupied and exercised sovereignty in the area that now comprises the State of Hawaii.

(6) The term "Native Hawaiian organization" means any organization which—

(A) serves and represents the interests of Native Hawaiians, and

(B) has as a primary and stated purpose the provision of services to Native Hawaiians.

(7) The term "Museum" means the National Museum of the American Indian established under section 4.

(8) The term "Heye Museum" means the Museum of the American Indian, Heye Foundation.

(9) The term "Board of Trustees" means the Board of Trustees of the National Museum of the American Indian.

(10) The term "Board of Regents" means the Board of Regents of the Smithsonian Institution.

(11) The term "burial site" means any natural or prepared physical location, whether originally below, on, or above the surface of the earth, into which there was intentionally deposited, as a part of the death rites or ceremonies of a culture, the remains of a deceased individual.

(12) The term "funerary object" means any artifact or object, in the possession or control of the Smithsonian Institution—

(A) which was intentionally placed with a deceased individual, either at the time of burial or interment or at some subsequent time, as a part of the death rites or ceremonies of a culture, and

(B) which—

(i) is clearly associated with human remains subject to return pursuant to section 9, or

(ii) has been identified, through available evidence, as having been removed from a specific burial site.

ESTABLISHMENT OF THE MUSEUM

SEC. 4. (a) There is established within the Smithsonian Institution a living memorial to Native Americans and their traditions which shall be known as the "National Museum of the American Indian" and shall provide for—

(1) the advancement of the study of the Native peoples of the Americas and the study of their languages, literature, history, art, anthropology, and life;

(2) the collection, preservation, and exhibition of Indian objects of artistic, historic, literary, anthropological, and scientific interest related thereto;

(3) programs of Indian research and study; and

(4) the means of carrying on this work in the District of Columbia, the State of New York, and such other locations as may be appropriate.

(b)(1) The area bounded by Third Street, Maryland Avenue, Independence Avenue, Fourth Street, and Jefferson Drive, Southwest, in the District of Columbia, is appropriated to the Smithsonian Institution as the permanent site of a facility for the Museum. A facility for the Museum shall be constructed on such site.

(2) A significant facility for the Museum consisting of approximately 82,500 square feet, including auditorium and loading dock space shared with the General Services Administration, shall be established in the Old United States Custom House at One Bowling Green, New York, New York, and shall be designated "The George Gustav Heye Center of the National Museum of the American Indian".

(3) A facility for the conservation and storage of the collections of the Museum shall be established at the Museum Support Center of the Smithsonian Institution.

(c) The Board of Regents is authorized to—

(1) enter into a conveyance agreement with the Heye Foundation, the terms of which shall—

(A) provide for the transfer of title of those assets of the Heye Foundation described in the Memorandum of Understanding between the Smithsonian Institution and the Heye Foundation dated May 8, 1989, to the Smithsonian Institution for the benefit and use of the Museum;

(B) require that such assets be used for purposes consistent with the trust indenture

established by George Gustav Heye on May 10, 1916; and

(C) be governed by, and construed in accordance with, the laws of the State of New York to the extent permitted under the laws of the United States and the Constitution of the United States and under the jurisdiction of the United States District Court for the Southern District of New York;

(2) plan, design, and construct, or to acquire, the facilities described in subsection (b), which shall together aggregate at least 400,000 square feet;

(3) provide for the permanent acquisition of Native American objects and artifacts from the Heye Museum;

(4) purchase, accept, borrow, or otherwise provide for the temporary or permanent acquisition of Native American objects and artifacts from other museums or private collections; and

(5) preserve, maintain, restore, loan, or exchange objects and artifacts in the collection of the Museum.

BOARD OF TRUSTEES OF THE MUSEUM

SEC. 5. (a) There is established within the Smithsonian Institution the Board of Trustees of the National Museum of the American Indian.

(b) The Board of Trustees shall—

(1) recommend annual operating budgets for the Museum;

(2) provide advice and assistance to the Board of Regents on all matters relating to the administration, operation, maintenance, and preservation of the Museum;

(3) subject to the general policy established by the Board of Regents, have the sole authority to—

(A) loan, exchange, sell, or otherwise dispose of any part of the collections of the Museum, but only if the funds generated by such disposition are used for additions to the collections of the Museum or for additions to the endowment of the Museum,

(B) subject to the availability of funds and the provisions of annual budgets of the Museum, purchase, accept, borrow, or otherwise acquire artifacts and other property for addition to the collections of the Museum, and

(C) establish policy with respect to the utilization of the collections of the Museum for purposes that include, but are not limited to, research, evaluation, education, and method of display;

(4) subject to the general policy established by the Board of Regents, have authority to—

(A) establish policy with respect to the restoration, preservation, and maintenance of the collections of the Museum,

(B) solicit funds for the Museum and determine the purposes to which those funds shall be applied,

(C) approve expenditures from the endowment of the Museum, or of income generated from the endowment, for any purpose of the Museum, and

(D) consult with and advise the Director of the Museum on annual budgets to be recommended to the Board of Regents and otherwise consult with, advise, and support the Director in the operation of the Museum;

(5) adopt bylaws to carry out the functions of the Board of Trustees;

(6) designate a chairman from among the members of the Board of Trustees and such other officers as may be provided for by the Board of Trustees; and

(7) report annually to the Board of Regents on the acquisition, disposition, and display of Native American objects and artifacts and on other matters within the discretion of the Board of Trustees.

(c)(1)(A) The initial Board of Trustees shall consist of the following individuals:

(i) the Secretary of the Smithsonian Institution,

(ii) an Assistant Secretary of the Smithsonian Institution designated by the Board of Regents,

(iii) 8 individuals appointed by the Board of Regents, and

(iv) 15 individuals appointed by the Board of Regents from a list submitted by the board of trustees of the Heye Museum of candidates who are members of the board of trustees of the Heye Museum.

(B) At least 7 of the members of the Board of Trustees appointed by the Board of Regents under this paragraph shall be of Indian ancestry.

(C) Any vacancy on the Board of Trustees that is caused by the failure of a member of the Board of Trustees appointed under subparagraph (A)(iv) to complete the term of office of such member shall be filled by any individual appointed by the Board of Regents without regard to subparagraph (A)(iv), but subject to the requirements of subparagraph (B).

(D) The term of office of each of the members of the initial Board of Trustees appointed under clauses (iii) and (iv) of subparagraph (A) shall be 3 years.

(2)(A) Upon the expiration of the terms of office of the members of the initial Board of Trustees appointed under clauses (iii) and (iv) of paragraph (1)(A), the Board of Trustees shall thereafter consist of—

(i) the Secretary of the Smithsonian Institution,

(ii) an Assistant Secretary of the Smithsonian Institution designated by the Board of Regents, and

(iii) 23 individuals appointed by the Board of Regents from a list of nominees submitted by the Board of Trustees.

(B) At least 12 of the members of the Board of Trustees appointed under subparagraph (A)(iii) shall be of Indian ancestry.

(C)(i) Except as otherwise provided in this subparagraph, the term of office of each member of the Board of Trustees appointed under subparagraph (A)(iii) shall be 3 years.

(ii) Of the initial members of the Board of Trustees appointed under subparagraph (A)(iii), who succeed the members appointed under clauses (iii) and (iv) of paragraph (1)(A)—

(I) 7 members shall have a term of office of 1 year,

(II) 8 members shall have a term of office of 2 years, and

(III) 8 members shall have a term of office of 3 years.

The Board of Regents shall designate the term of office of each of these members at the time the member is appointed.

(3) Any member of the Board of Trustees appointed to fill a vacancy occurring prior to the expiration of the term of office for which his predecessor was appointed shall be appointed for the remainder of such term.

(d) A majority of the members of the Board of Trustees shall constitute a quorum and any vacancy on the Board of Trustees shall not affect the power of the Board of Trustees to function.

(e) Members of the Board of Trustees may be reimbursed for travel, subsistence, and other necessary expenses incurred by the members in the performance of their duties as members of the Board of Trustees.

DIRECTOR; STAFF

SEC. 6. (a) The Secretary of the Smithsonian Institution may appoint and fix the compensation and duties of the Director of the National Museum of the American Indian and of such other officers and employees of the Museum as may be necessary for the efficient administration, operation, maintenance, and preservation of the Museum.

(b) The Director of the Museum and 2 other employees of the Museum may be appointed and compensated without regard to the provisions of title 5 of the United States Code governing appointments in the competitive service and chapter 51, and subchapter III of chapter 53, of title 5 of such Code.

(c) All employees of the Heye Museum serving at the time of the transfer of its collections, endowment, and other property to the Smithsonian Institution shall be offered employment with the Smithsonian Institution under the usual terms of employment with the Smithsonian Institution and may be appointed without regard to the provisions of title 5 of the United States Code governing appointments in the competitive service and chapter 51, and subchapter III of chapter 53, of title 5 of such Code.

FACILITY IN NEW YORK

SEC. 7. (a) Notwithstanding any provision of law other than the provisions of this Act, the Administrator of General Services is authorized, upon such terms and for such periods as may be mutually agreed upon by the Administrator and the Secretary of the Smithsonian Institution, to furnish at a nominal charge to the Smithsonian Institution, for a period of not less than 99 years, space (as provided in section 4(b)(2)) in the Old United States Custom House at One Bowling Green, New York, New York. The Smithsonian Institution shall reimburse the Administrator for the Smithsonian Institution's pro rata share of the cost of utilities, maintenance, cleaning, and other services incurred with respect to such space and the full cost of any repairs or alterations requested by the Smithsonian Institution with respect to such space.

(b) The City of New York, New York, and the State of New York shall each contribute the lesser of—

(1) one-third of the total cost of the design, construction and renovation of the space in the Old United States Custom House at One Bowling Green, New York, New York, that is to be used by the Museum for the facility that is required to be established under section 4(b)(2), or

(2) $8,000,000.

(c) Notwithstanding any other provision of this Act or of any other law, the Board of Regents is authorized to charge the public a fee for admission to the facility of the Museum that is required to be established under section 4(b)(2).

(d)(1) All receipts from charges paid by the Secretary of the Smithsonian Institution under subsection (a) to the Administrator of General Services for the furnishment of the space described in subsection (a) shall be deposited into the fund established under section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)).

(2) There are authorized to be appropriated to the General Services Administration such sums as may be necessary to reimburse the fund established under section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)) for

the difference between the amount the Administrator of General Services charges the Secretary of the Smithsonian Institution under subsection (a) for the furnishment of the space described in subsection (a) and the amount the Administrator would otherwise charge for such space under section 210(j) of such Act.

(e) There are authorized to be appropriated to the General Services Administration $25,000,000 from the fund established under section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)) for the repair and alteration of the Old United States Customs House at One Bowling Green, New York, New York, but not for those portions of the building assigned by the Administrator of General Services to the Smithsonian Institution under terms and conditions agreed to under subsection (a) that make the Smithsonian Institution responsible for the repair and alteration of such portions of the building.

(f)(1) The Board of Regents shall—

(A) loan artifacts and exhibitions from the Smithsonian Institution to the successor to the Heye Foundation at Audubon Terrace, 3753 Broadway, New York, New York,

(B) provide training, technical assistance, scholarship support, and such other assistance as is deemed necessary to such successor to maintain and operate museum programs, and

(C) ensure that at least 2,000 square feet at Audubon Terrace is publicly accessible and physically suitable for related exhibition activities.

(2) The successor to the Heye Foundation at Audubon Terrace shall make a good faith effort to respond to community cultural interests.

(3) Fees associated with traveling exhibits of the Smithsonian Institution that are charged to the successor to the Heye Foundation shall be determined according to the ability of the successor to pay such fees.

RELATIONSHIPS WITH OTHER MUSEUMS; INDIAN PROGRAMS

SEC. 8. (a)(1) The Board of Regents is authorized to enter into agreements with museums, educational institutions, and cultural organizations to—

(A) loan Native American artifacts and objects from the collections of the Smithsonian Institution,

(B) sponsor and coordinate a variety of traveling exhibitions, and

(C) provide training and technical assistance.

(2) The Board of Regents shall, in carrying out its responsibilities under this subsection, give priority to agreements with Indian tribes, museums, cultural centers, educational institutions, libraries, and archives. Agreements entered into with such Indian entities may provide loans or services at minimal cost or no cost.

(b)(1) The Secretary of the Interior is authorized to make grants to Indian tribal museums for the purpose of renovating, repairing, or constructing facilities for the museums (including ventilation and security systems) to enable the museums to receive and exhibit objects and artifacts loaned to the museums from the collection of the National Museum of the American Indian.

(2)(A) There is hereby established within the Treasury of the United States a trust fund to be known as the "Tribal Museum Endowment Fund" (hereafter in this subsection referred to as the "Endowment Fund"), consisting of such amounts as may be deposited into the Endowment Fund under subparagraph (B) or credited to the Endowment Fund under subparagraph (D)(iii).

(B)(i) The Secretary of the Treasury is authorized to accept contributions to the Endowment Fund of any funds that were not derived from the Federal Government and shall deposit such contributions into the Endowment Fund.

(ii) Amounts appropriated to the Endowment Fund may be deposited into the Endowment Fund only to the extent that an equal amount of funds that were not derived from the Federal Government has been contributed to the Endowment Fund and deposited into the Endowment Fund under clause (i).

(C) The Secretary of the Interior shall be the trustee of the Endowment Fund, and shall submit an annual report to the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives on—

(i) the financial condition and the results of the operations of the Endowment Fund during the fiscal year preceding the fiscal year in which such report is submitted, and

(ii) the expected condition and operations of the Endowment Fund during—

(I) the fiscal year in which such report is submitted, and

(II) the 5 fiscal years succeeding such fiscal year.

Such report shall be printed as a House document of the session of the Congress to which the report is made.

(D)(i) The Secretary of the Treasury shall invest the funds in the Endowment Fund in interest-bearing obligations of the United States. For such purpose, such obligations may be acquired—

(I) on original issue at the issue price, or

(II) by purchase of outstanding obligations at the market price.

(ii) Any obligation acquired by the Endowment Fund may be sold by the Secretary of the Treasury at the market price.

(iii) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Endowment Fund shall be credited to, and form a part of, the Endowment Fund.

(E) The capital of the Endowment Fund shall not be available for expenditure. The amounts credited to the Endowment Fund under subparagraph (D)(iii) shall only be available for grants made under paragraph (1).

(F) The Secretary of the Interior is authorized and directed to pay out of amounts in the Endowment Fund that are credited to the Endowment Fund under subparagraph (D)(iii) such sums as are necessary to fund the grants made under paragraph (1).

(3) There are authorized to be appropriated for the Endowment Fund for each fiscal year beginning after fiscal year 1991, $2,000,000.

(c)(1) The Board of Regents is authorized to establish special programs to—

(A) serve Indian tribes and communities, and

(B) in concert with educational institutions (including Tribally Controlled Community Colleges), enhance the opportunities for Indians in museum studies, management, and research.

(2) The Board of Regents shall establish an American Indian Museum Management Fellowship program to provide stipends to Indians who are receiving training in museum development and management.

(3) There are authorized to be appropriated for each fiscal year $2,000,000 to carry out the provisions of this subsection.

INDIAN HUMAN REMAINS

SEC. 9. (a)(1) Subject to the provisions of this section and notwithstanding any other provision of law, the Board of Regents shall, in consultation and cooperation with traditional Indian and Native Hawaiian religious leaders and tribal government officials, initiate a process for the inventory of Indian and Native Hawaiian human remains and funerary objects in the collection or control of the Smithsonian Institution to identify, to the fullest extent possible, the geographic and tribal origins of such remains and objects. The identification of the human remains and funerary objects shall be based upon the best available scientific and historical documentation.

(2) If the identification process conducted under paragraph (1) has established by a preponderance of the evidence the Indian tribal origin of any particular human remains or funerary objects, the Board of Regents, as soon as possible, shall cause the affected Indian tribe or tribes to be notified of such identification.

(3) If the identification process conducted under paragraph (1) has established by a preponderance of the evidence the geographic origin of any particular human remains or funerary objects of Native Hawaiians, the Board of Regents, as soon as possible, shall cause notice of such identification to be made to a Native Hawaiian organization which has been certified by the Governor of the State of Hawaii as the appropriate entity to receive such notification.

(b)(1) If a preponderance of the evidence establishes that human remains in the possession or control of the Smithsonian Institution are of a particular Indian, or are of an individual who was culturally affiliated with a particular Indian tribe, the Board of Regents, upon request of the known descendants of such Indian, or such Indian tribe, as the case may be, shall expeditiously return such remains, and any funerary objects associated with such remains, to such descendants or Indian tribe.

(2) If a preponderance of the evidence establishes that human remains in the possession or control of the Smithsonian Institution are of a particular individual who is believed to be Native Hawaiian, the Board of Regents, upon the request of the known descendants of such individual, shall expeditiously return such remains, and any funerary objects associated with such remains, to such descendants.

(3) If a preponderance of the evidence establishes that funerary objects in the possession or control of the Smithsonian Institution, not associated with any human remains, were removed from a specific burial site of an individual culturally affiliated with a particular Indian tribe, the Board of Regents, upon the request of such Indian tribe, shall expeditiously return such objects to such Indian tribe.

(4) If a preponderance of the evidence establishes that funerary objects in the possession or control of the Smithsonian Institution, not associated with any human remains, were removed from a specific burial site of an individual believed to be Native Hawaiian, the Board of Regents, upon the request of the descendants of such individual, shall expeditiously return such objects to the descendants.

(c)(1) Within 120 days after the date of enactment of this Act, the Secretary of the

Smithsonian Institution shall establish a committee to monitor and review the implementation of the inventory and identification process required under subsection (a) and the restoration activities required under subsection (b).

(2) The committee established under paragraph (1) shall be composed of 5 members, 3 of whom shall be appointed from nominations submitted by Indian tribes and organizations. None of the persons appointed to the committee shall be Federal employees or officials or be affiliated with the Smithsonian Institution.

(3) The committee established under paragraph (1) shall be responsible for—

(A) monitoring the inventory and identification process conducted under subsection (a) to ensure a fair, objective consideration and assessment of all available relevant information and evidence,

(B) reviewing, upon its own motion or upon the request of any affected party, any finding relating to—

(i) the identity or origin of human remains or funerary objects, or

(ii) the return of such remains or objects,

(C) arbitrating disputes between Indian tribes relating to the return of human remains or funerary objects,

(D) consulting with Native Hawaiian religious leaders and Native Hawaiian organizations on matters within the scope of the work of the committee affecting Native Hawaiians; and

(E) performing such other related functions as the Secretary may assign to the committee.

(4) The Secretary shall ensure that the committee established under paragraph (1) and the members of the committee have full and free access to human remains and funerary objects under review and to associated scientific and historical documents.

(5) Members of the committee established under paragraph (1) shall be reimbursed at a rate equal to the daily rate for GS-18 of the General Schedule under section 5332 of title 5, United States Code, for each day (including traveltime) for which the member is actually engaged in committee business and for travel, subsistence, and other necessary expenses.

(6) The Secretary shall—

(A) designate one of the members of the committee established under paragraph (1) as chairman,

(B) establish such rules and regulations for the committee as may be necessary, and

(C) provide reasonable administrative and staff support necessary for the deliberations of the committee.

(7) The committee established under paragraph (1) shall terminate at the end of the 120-day period beginning on the day on which the Board of Regents certifies, in a report submitted to the Congress, that the work of the committee has been completed.

(d) Nothing in this section shall be interpreted as—

(1) limiting the authority of the Smithsonian Institution to return or repatriate human remains or funerary objects to Indian tribes or individuals or to Native Hawaiian individuals,

(2) delaying actions on repatriation requests that are pending on the date of enactment of this Act,

(3) denying or otherwise affecting access to the courts, or

(4) limiting any procedural or substantive rights which may otherwise be secured to Indian tribes or individuals or to Native Hawaiian individuals.

(e)(1) The Secretary of the Interior is authorized to make grants to Indian tribes for the purpose of assisting such Indian tribes in reaching and implementing agreements with the Smithsonian Institution, other Federal agencies, and non-Federal entities for the repatriation of human remains and funerary objects.

(2) The Secretary of the Interior is authorized to make grants to Native Hawaiian organizations for the purpose of assisting such organizations in reaching and implementing agreements with the Smithsonian Institution, other Federal agencies, and non-Federal entities for the repatriation of human remains and funerary objects.

(f) There are authorized to be appropriated—

(1) $1,000,000 for fiscal year 1991, and such sums as may be necessary for succeeding fiscal years, to carry out the inventory and identification process required under subsection (a),

(2) $250,000 for fiscal year 1991, and such sums as may be necessary for succeeding fiscal years, for the expenses of the review committee authorized under subsection (c), and

(3) $1,500,000 for fiscal year 1991, and such sums as may be necessary for succeeding fiscal years, for grants authorized under subsection (e).

PLEDGE

SEC. 10. The faith of the United States is pledged that the United States shall provide such funds as may be necessary for the design, construction, administration, maintenance, and operation of the Museum and the administrative expenses and costs of operating the Museum, including the protection and care of collections acquired by the Board of Trustees or the Board of Regents, so that the Museum shall at all times be properly maintained and, except as otherwise authorized in section 7(c), collections contained therein shall be exhibited regularly to the general public free of charge.

TRANSFER OF FUNDS

SEC. 11. Any funds appropriated to carry out the provisions of this Act may be transferred to the General Services Administration which, in consultation with the Smithsonian Institution, is authorized to enter into contracts and take such other actions, to the extent of the funds so transferred, as may be necessary to carry out the provisions of this Act.

AUTHORIZATION OF APPROPRIATIONS

SEC. 12. (a)(1) Subject to the provisions of paragraph (2), there are authorized to be appropriated to the Smithsonian Institution—

(A) $10,000,000 for fiscal year 1990, and

(B) such sums as may be necessary for each of the succeeding fiscal years,

to carry out the provisions of this Act for which no other specific authorization of appropriations is provided in this Act.

(2)(A) The total amount authorized to be appropriated for the construction of the facility described in section 4(b)(1) shall not exceed two-thirds of the total cost of such facility.

(B) The total amount authorized to be appropriated for the facility of the Museum established under section 4(b)(2) shall not exceed one-third of the total cost of such facility.

(b) Funds appropriated under the authority of subsection (a) for any period prior to the availability of the facilities described in section 4(b) shall remain available without fiscal year limitation for administrative and planning expenses and for the care and custody of the collections of the Museum and the Heye Museum.

(c) Notwithstanding any other provision of this Act, no funds may be appropriated for the purpose of constructing the museum facilities authorized by this Act until the Smithsonian Institution provides to the Congress and to the Administration an analysis of the total estimated cost of such construction and a cost-sharing plan projecting amounts for Federal appropriations and for non-Federal contributions.

MOTION OFFERED BY MR. CLAY

Mr. CLAY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. CLAY moves to strike out all after the enacting clause of the Senate bill, S. 978, and insert in lieu thereof the provision of H.R. 2668, as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read a third time, and passed.

The title of the bill was amended so as to read: "A bill to authorize the establishment with the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes."

A motion to reconsider was laid on the table.

A similar House bill, H.R. 2668, was laid on the table.

REAPPOINTMENT OF SAMUEL C. JOHNSON TO BOARD OF REGENTS OF SMITHSONIAN INSTITUTION

Mr. CLAY. Mr. Speaker, I move to suspend the rules and pass the joint resolution (H.J. Res. 357) providing for the reappointment of Samuel C. Johnson as a citizen regent of the Board of Regents of the Smithsonian Institution, as amended.

The Clerk read as follows:

H.J. RES. 357

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in accordance with section 5581 of the Revised Statutes of the United States (20 U.S.C. 43), the vacancy on the Board of Regents of the Smithsonian Institution, in the class other than Members of Congress, occurring by reason of the expiration of the term of Samuel Curtis Johnson of Wisconsin on December 4, 1989, is filled by the reappointment of the incumbent for a term of six years, effective December 5, 1989.

The SPEAKER pro tempore. Is a second demanded?

Mr. GILLMOR. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Missouri [Mr. CLAY] will be recognized for 20 minutes, and

the gentleman from Ohio [Mr. GILLMOR] will be recognized for 20 minutes.

The gentleman from Missouri [Mr. CLAY] is recognized.

Mr. CLAY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Joint Resolution 357, as amended, provides for the reappointment of Mr. Samuel Curtis Johnson for a second term to the Smithsonian Board of Regents.

The Board of Regents is the policy arm of the Smithsonian Institution. Its members typically serve two 6-year terms.

Mr. Johnson, a resident of Wisconsin, was initially appointed to the Board of Regents on December 5, 1983. The executive of a major corporation, he is a member of the Board's Executive Committee and has a variety of experiences in the management of foundations and philanthropic activities.

The reappointment of Mr. Johnson would provide added leadership to the policy and planning arm of the Smithsonian Institution.

Mr. Speaker, I reserve the balance of my time.

Mr. GILLMOR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Joint Resolution 357, as amended, providing for the reappointment of Samuel C. Johnson as a citizen regent of the Board of Regents of the Smithsonian Institution. Mr. Johnson was first appointed in 1983 to serve on the Board as a regent from Wisconsin. As the chairman and chief executive officer of the Johnson Wax Cos., Mr. Johnson brings to this Board a wide variety of business and international experiences which serve to enhance his contributions to this governing body. Mr. Speaker, Mr. Johnson has served the Smithsonian well in his first term and I urge my colleagues to support House Joint Resolution 357 for his reappointment.

Mr. MINETA. Mr. Speaker, I rise in support of the resolution to reappoint Samuel C. Johnson as a citizen member of the Board of Regents of the Smithsonian Institution. I have had the privilege of serving with Mr. Johnson for the past 6 years on the Board of Regents and can attest to the important contribution he has made to the Smithsonian. His knowledge and extensive experience in management and business have proven invaluable to the Smithsonian, as has his expertise in development activities and educational issues.

For these reasons, I am proud to be a cosponsor of House Joint Resolution 357 for Samuel Johnson's appointment as a Smithsonian Regent. I urge your support for the resolution.

Mr. CONTE. Mr. Speaker, I rise in support of House Joint Resolution 357 that provides for the reappointment of Samuel C. Johnson to the Board of Regents of the Smithsonian Institution.

I have served as a congressional member of the same Board with Mr. Johnson and commend to my colleagues his thoughtful intelligence and the breadth of experience he brings to the management of the affairs of the Institution.

Mr. Johnson is one of the three Regents who serves on the Executive Committee which plays a crucial role in the policy and operation of the Institution and Mr. Johnson is a full participant in its activities.

He also is a member of the Nominating Committee of the Board of Regents. This resolution would allow Mr. Johnson to serve another 6 years on the Board of Regents.

Samuel Johnson, chairman of Johnson's Wax Fund, Inc., has been a distinguished citizen member of the Board since 1983, and his reappointment would well serve the Smithsonian Institution as it enters the final decade of the 20th century.

The Board of Regents is composed of the Vice President, the Chief Justice of the United States, three Members each of the House of Representatives and the Senate, and nine other citizen members, two of whom shall be members of the District of Columbia. I am privileged to serve as House Regent.

Mr. Johnson's philanthropic activities set an example for others to follow as he has been named to chairman of the board of trustees, the Mayo Foundation; trustee emeritus and presidential councilor, Cornell University; member of the Nature Conservancy's International Advisory Committee; member, Council of Former Governor's, American Red Cross; and is currently a member of the Smithsonian's Board of Regents Executive Committee.

In 1980, Samuel Johnson was named "Philanthropist of the Year" by the National Society of Fund Raising Executives for his dedication to private philanthropy.

He has received numerous awards and honors including six honorary doctorate degrees including the University of Surrey (England) and Marquette University. He has been elected an honorary trustee of the American Craft Council, an honorary trustee of Ducks Unlimited, Inc. Mr. Johnson's strong conservation ethic, epitomized by this latter award, is especially noteworthy for a member of the Board of Regents, and one to which I am personally proud to share.

His service on the Board for the past 6 years has been distinguished and of tremendous benefit to the Smithsonian. His business expertise is invaluable in the many financial decisions the Government is required to make, and Mr. Johnson's interest in air and space matters has contributed greatly to the success of that program. Mr. Speaker, the Smithsonian is fortunate to have such a distinguished business man serve on its Board of Regents, and I urge my colleagues to join me in unanimously supporting this resolution reappointing Mr. Jim Johnson as a citizen Regent of the Smithsonian Institute.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CLAY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri [Mr. CLAY] that the House suspend the rules and pass the joint resolution, House Joint Resolution 357, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the joint resolution, as amended, was passed.

The title of the joint resolution was amended so as to read: "Joint resolution providing for the reappointment of Samuel Curtis Johnson as a citizen regent of the Board of Regents of the Smithsonian Institution."

A motion to reconsider was laid on the table.

REAPPOINTMENT OF JEANNINE SMITH CLARK TO BOARD OF REGENTS OF SMITHSONIAN INSTITUTION

Mr. CLAY. Mr. Speaker, I move to suspend the rules and pass the joint resolution (H.J. Res. 358) providing for the reappointment of Jeannine Smith Clark as a citizen regent of the Board of Regents of the Smithsonian Institution, as amended.

The Clerk read as follows:

H.J. RES. 358

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That, in accordance with section 5581 of the Revised Statutes of the United States (20 U.S.C. 43), the vacancy on the Board of Regents of the Smithsonian Institution, in the class other than Members of Congress, occurring by reason of the expiration of the term of Jeannine Smith Clark of the District of Columbia on August 25, 1989, is filled by the reappointment of the incumbent for a term of six years, effective August 26, 1989.

The SPEAKER pro tempore. Is a second demanded?

Mr. GILLMOR. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Missouri [Mr. CLAY] will be recognized for 20 minutes, and the gentleman from Ohio [Mr. GILLMOR] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Missouri [Mr. CLAY].

Mr. CLAY. Mr. Speaker, I yield myself such time as I may consume.

House Joint Resolution 358, as amended, provides for the reappointment of Mrs. Jeannine Smith Clark for a second term to the Smithsonian Board of Regents.

Mrs. Clark, a native of Washington, DC, was first appointed to the Board of Regents on August 26, 1983.

She is the founding chairperson of the Smithsonian Cultural Education Committee, and the current chairperson of the Commission of the National Portrait Gallery. In addition to her active participation on the Board, Mrs.

Clark has been an active participant in local and national civic affairs.

Mrs. Clark has served with distinction over the past 6 years and merits reappointment.

Mr. Speaker, I reserve the balance of my time.

Mr. GILLMOR. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Joint Resolution 358, as amended, providing for the reappointment of Jeannine Smith Clark as a citizen regent of the Board of Regents of the Smithsonian Institution. Mrs. Clark was first appointed in 1983 to serve on the Board as a regent from the District of Columbia. Her résumé cites a long and distinguished career of civic participation, not only within the Smithsonian community, but within the Nation's Capital community itself. Her breadth of experiences is commendable and make her a valuable member of the Board of Regents. I urge my colleagues to support House Joint Resolution 358 providing for Mrs. Clark's reappointment.

Mr. MINETA. Mr. Speaker, it is a pleasure for me to rise to support the reappointment of Jeannine Smith Clark as a citizen regent of the Smithsonian Institution. I have been fortunate enough to have served with Mrs. Clark on the Smithsonian Board of Regents during her first term and can attest to the major contributions she has made to the successful functioning of the Smithsonian. As a resident of the District of Columbia and active participant in an impressive number of cultural, educational, and civic activities, Jeannine Clark provides the Regents with a unique and important local perspective. That is why I have cosponsored House Joint Resolution 358 to reappoint Jeannine Smith Clark as a Smithsonian Regent. I urge your approval of this resolution.

Mr. CONTE. Mr. Speaker, I rise in support of House Joint Resolution 358 which provides for the reappointment of Jeannine Smith Clark to the Board of Regents of the Smithsonian Institution. This resolution would allow Mrs. Clark to serve another 6 years on the Board of Regents.

Jeannine Smith Clark is one of the two citizen members of the Board of Regents from the District of Columbia, a requirement mandated by law. She has served as a member of the Personnel Committee, as Chairman, National Portrait Gallery Commission, and as Chairman, Smithsonian Institution's Women's Committee. Jeannine Smith Clark is very active in citizen issues and projects in the District of Columbia, serving as chairperson of the District's Bicentennial Commission; founding chairperson of the Howard University Hospital Advisory Board; corporate board member for Children's Hospital National Medical Center; and Washington studio vice chairman for Recording for the Blind. Her unbounded dedication to serving the public, especially here in the District, is a quality that we need to maintain on the Board of Regents. Mrs. Clark's activism on behalf of worthy causes has not gone unnoticed.

She has been awarded a citation for Outstanding Leadership and Dedicated Service by the District of Columbia United Way; "Mother of the Year Award" by the D.C. Federation of Civic Associations; and the Smithsonian National Museum's Natural History Award for Meritorious Service.

Jeannine Smith Clark has an in depth knowledge on a broad range of subjects and has done research in the field of anthropology and history. She is affiliated with Association of African Studies, National Geographic Society, Children's International Summer Village and the United States Association of Museum Volunteers. Her background and experience strongly commend her to a second term on the Smithsonian Institution's Board of Regents.

I have served as a congressional member of the same Board with Mrs. Clark for the past 6 years and have been impressed by her intelligence, dedication, and graciousness. Mrs. Clark has been the guiding spirit of the Smithsonian's efforts, that are, indeed, bearing fruit, to enhance the cultural diversity of its staff and of its programming.

Mr. Speaker, I urge my colleagues to unanimously support this resolution which would make available to the Smithsonian an invaluable asset in the form of Jeannine Smith Clark.

Mr. GILLMOR. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CLAY. Mr. Speaker, I have no furher requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri [Mr. CLAY] that the House suspend the rules and pass the joint resolution, H.R. 358, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the joint resolution, as amended, was passed.

A motion to reconsider was laid on the table.

□ 1530

GENERAL LEAVE

Mr. CLAY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the joint resolutions, H.J. Res. 357 and H.J. Res. 358, just considered.

The SPEAKER pro tempore (Mr. MCDERMOTT). Is there objection to the request of the gentleman from Missouri?

There was no objection.

COPYRIGHT ROYALTY TRIBUNAL REFORM AND MISCELLANEOUS PAY ACT OF 1989

Mr. KASTENMEIER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3046) to reduce the number of commissioners on the Copyright Royalty Tribunal, to change the salary classification rates for members of the Copyright Tribunal and the United States Parole Commission and for the Deputy and Assistant Commissioners of Patents and Trademarks, and for other purposes as amended.

The Clerk read as follows:

H.R. 3046

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Copyright Royalty Tribunal Reform and Miscellaneous Pay Act of 1989".

SEC. 2. COPYRIGHT ROYALTY TRIBUNAL AND COPYRIGHT OFFICE.

(a) MEMBERSHIP OF THE COPYRIGHT ROYALTY TRIBUNAL; LAPSED TERMS; PAY.—Section 802(a) of title 17, United States Code, is amended to read as follows:

"(a) The Tribunal shall be composed of three Commissioners appointed by the President, by and with the advice and consent of the Senate. The term of office of any individual appointed as a Commissioner shall be seven years, except that a Commissioner may serve after the expiration of his or her terms until a successor has taken office. Each Commissioner shall be compensated at the rate of pay in effect for level V of the Executive Schedule under section 5316 of title 5.".

(b) COPYRIGHT OFFICE.—Section 701 of title 17, United States Code, is amended by adding at the end the following new subsection:

"(e) The Register of Copyrights shall be compensated at the rate of pay in effect for level IV of the Executive Schedule under section 5315 of title 5. The Librarian of Congress shall establish not more than 4 positions for Associated Registers of Copyrights, in accordance with the recommendations of the Reigister of Copyrights. The Librarian shall make appointments to such positions after consultation with the Register of Copyrights. Each Associate Register of Copyrights shall be paid at a rate not to exceed the maximum annual rate of basic pay payable for GS-18 of the General Schedule under section 5332 of title 5.".

SEC. 3. PAY RATES FOR PAROLE COMMISSION.

(a) CHAIRMAN.—Section 5315 of title 5, United States Code, is amended by adding at the end the following:

"Chairman, United States Parole Commission.".

(b) OTHER COMMISSIONERS.—Section 5316 of title 5, United States Code, is amended by adding at the end the following:

"Commissioners, United States Parole Commission (8).".

SEC. 4. PAY RATES FOR DEPUTY AND ASSISTANT COMMISSIONERS OF PATENTS AND TRADEMARKS.

Section 5316 of title 5, United States Code, is amended by adding at the end the following:

"Deputy Commissioner of Patents and Trademarks.

"Assistant Commissioner for Patents.

"Assistant Commissioner for Trademarks.".

SEC. 5. EFFECTIVE DATE; BUDGET ACT.

(a) EFFECTIVE DATE.—The amendments made by this Act shall take effect on the date of enactment of this Act.

(b) BUDGET ACT.—Any new spending authority (within the meaning of section 401 of the Congressional Budget Act of 1974)

which is provided under this Act shall be effective for any fiscal year only to the extent or in such amounts as are provided in appropriations Acts.

The SPEAKER pro tempore. Is a second demanded?

Mr. MOORHEAD. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Wisconsin [Mr. KASTENMEIER] will be recognized for 20 minutes, and the gentleman from California [Mr. MOORHEAD] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. KASTENMEIER].

Mr. KASTENMEIER. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, today I bring before the House the bill, H.R. 3046, the Copyright Royalty Tribunal and Miscellaneous Pay Act of 1989.

At the outset, I would like to thank the members of my subcommittee—the Subcommittee on Courts, Intellectual Property, and the Administration of Justice—for helping to develop this legislation. I would underline the efforts of the ranking minority member of the subcommittee, the gentleman from California [Mr. MOORHEAD] and the ranking minority member of the full Committee, the gentleman from New York [Mr. FISH].

H.R. 3046, as amended, is a housekeeping bill which, in the long run, will improve the functioning of four important Government entities: Three with important intellectual property responsibilities and one in the criminal justice arena. The proposed legislation, the outgrowth of hearings held by my subcommittee earlier this year, seeks to assure that high level officials at the Copyright Royalty Tribunal, the Copyright Office, the U.S. Parole Commission, and the U.S. Patent and Trademark Office receive salaries consistent with their counterparts in Government. H.R. 3046 also provides several structural reforms for the Copyright Royalty Tribunal.

First. The Copyright Royalty Tribunal: The Copyright Royalty Tribunal, located in the legislative branch of Government, was created by the Copyright Revision Act of 1976. The primary functions of the Tribunal are first, the distribution of funds collected for cable and satellite transmitted television signals and for jukeboxes and second, the setting of rates for the cable and jukebox compulsory licenses.

H.R. 3046 reduces the number of Commissioners on the Tribunal—from five to three—provides for lapsed terms so that a Commissioner may serve beyond the expiration of his or her term, until a new Commissioner is confirmed; and changes the salary classification rates for members of the Tribunal—from GS-18 of the General Schedule to Executive Level V. In this latter regard, Executive Level V is equal to the entry level for Presidential appointees in the executive branch.

When the Tribunal was created in 1976, GS-18 was the highest level for Civil Service employees. Subsequently, in 1978 Congress revised the supergrade system, supplementing it with the Senior Executive Service [SES]. Since then almost all GS-18 positions have been converted to SES. The GS-18 position, which once numbered in the thousands now number less than 80, mostly non-supervisory personnel in the executive branch. Although the pay levels for GS-18 is the same as that of Executive Level V, the President's Quadrennial Pay Commission recommended revisions in the Executive Level salary schedule and not the General Schedule. H.R. 3046 does not therefore result in a pay increase for the Commissioners of the Tribunal but it does pave the way if a pay raise occurs for high-ranking individuals in the congressional, executive and judicial branches.

Second, the U.S. Copyright Office: The U.S. Copyright Office, located in the Library of Congress, is responsible for administering the copyright law and the semiconductor chip protection law pursuant to title 17 of the United States Code. The Copyright Office is directed by the Register of Copyrights and several Associate Registers of Copyrights. The Office, being a part of the Library, is located in the legislative branch and is an excellent resource for Members of Congress.

H.R. 3046 provides that the Register is to be compensated at the rate of pay in effect for Level IV of the Executive Schedule, treating the Register similarly with the Commissioner of Patents and Trademarks. The bill also provides that the Librarian of Congress shall appoint Associate Registers of Copyrights in accordance with the recommendations of the Register of Copyrights in accordance with the recommendations of the Register of Copyrights to assist in the performance of the Register's duties. The Associate Registers shall be paid at a rate not to exceed the maximum annual rate of pay payable to GS-18 of the General Schedule. If the Library is reorganized at any time in the future, the subcommittee will be consulted and will, in turn, participate constructively in the reorganization. A reorganization might, for example, convert General Schedule position into SES positions, creating a situation where further amendments to the Copyright Office charter are necessary.

Third, the United States Parole Commission: The United States Parole Commission is an independent agency within the U.S. Department of Justice. It currently is comprised of nine members appointed by the President. Among the Commissioners, the President designates one to serve as Chair.

Although the Parole Commission is slated for abolition in 1992, it still serves a very important function for inmates sentenced before 1987. Therefore, H.R. 3046 transfers the Commissioner positions from GS-18 to Executive Level V; it also makes the Chair of the Parole Commission an Executive Level IV.

The need to amend the Parole Commission charter was originally brought to my attention by the gentleman from Maryland [Mr. HOYER], who deserves credit for this provision.

4. U.S. Patent and Trademark Office: Finally, the Patent and Trademark Office, within the U.S. Department of Commerce, administers laws relating to patents and trademarks to promote the progress of science and technology, to strengthen the national economy, and to benefit the public interest. H.R. 3046 upgrades three high-ranking Presidential appointees—the Deputy Commissioner, the Assistant Commissioner of Patents, and the Assistant Commissioner of Trademarks—from the General Schedule to Executive Level V. Again, the rationale for this change is the same as for the Copyright Royalty Tribunal, U.S. Copyright Office and the Parole Commission.

H.R. 3046 will not require additional budgetary outlays. I am aware of no opposition to the measure.

Given the current emphasis of this country in a more effective criminal justice system as well as improved intellectual property laws, it makes eminent good sense to treat high-level Government employees—especially those appointed by the President of the United States—with the respect that they deserve. As recently noted by Paul Volcker, in his capacity as chairman of the National Commission on the Public Service: the Federal Government * * * is increasingly unable to attract, retain, and motivate the kinds of people it will need to do the essential work of the republic in the years and decades ahead. H.R. 3046 is a short step in the right direction of solving this quiet crisis in Government. I am just thankful that the four Government entities affected by this legislation have, over the years, been ably led by individuals devoted to public service and have fulfilled their legislative charters in a time of budgetary stress. The bill is in part a tribute to their leadership, in part a message to keep up the good work. The Congress and this country need your services.

I urge your support of this important piece of legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. MOORHEAD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to commend our subcommittee chairman, the gentleman from Wisconsin [Mr. KASTENMEIER] for bringing this legislation to the floor and for his support in working out the adjustments for the Copyright Office.

With regard to the Copyrights Royalty Tribunal [CRT] bill (H.R. 3046) it is important legislation and is long overdue. Without this bill I am concerned with whether the CRT will be able to function, since they have been operating with only two Commissioners out of five, which is not good practice and may not even be a quorum. This legislation would reduce the number of Commissioners from five to three.

Another important part of this bill provides that the CRT Commissioners and the Patent and Trademark Deputy and two Assistant Commissioners who are presently compensated at a GS-18 level will be transferred to an Executive Level V.

Mr. Speaker, I would like to take this opportunity to commend the former Commissioner of Patents for a job well done. He took over that position in October 1985 and during his tenure, which ended last month he contributed significantly to the growth and protection of intellectual property both nationally and internationally. One of the many significant accomplishments he attained was reducing the time period a person has to wait before receiving a patent. In 1981 the PTO budget model showed that the pendency was headed for 48 months by the late 1980's. With the help and encouragements of our subcommittee chairman and the former Secretary of Commerce Malcolm Baldrige who reaffirmed the administration commitment to 18 months' pendency in May, 1989. It is with great pride that I advise this House that the goal of 18 in 1989 was met last month and I want to particularly congratulate and thank Don Quigg for his tremendous leadership and his staff of examiners for their tremendous effort and for all Don Quigg has done for the PTO during his term in office. He will be missed.

Presently the Commissioner of Patents is compensated at Executive Level IV. H.R. 3046 brings the compensation level of the Register of Copyrights into parity with the Commissioner of Patents. This change would not have any immediate fiscal consequences because all the positions are already at the maximum pay level.

Mr. Speaker, the Register of Copyrights not only presides over administrative rulemakings and the collection of cable TV's compulsory license royalties set by the Tribunal, but also supervises a staff of several hundred persons engaged in important task such as examining copyright registration applications, drafting legislation, advising the Congress and executive branch on matters of Copyright policy and representing the United States in international copyright matters.

In carrying out these responsibilities the Register has been assisted by three Associate Registers of Copyrights. One of these positions is currently vacant and there is some question whether the Library of Congress has sufficient authorized positions at the appropriate pay grade to fill it. H.R. 3046 would codify these positions and raise them from a level of GS-17 to a GS-18, bringing them into closer parity with their colleagues at the Patent and Trademark Office. This change would not have any immediate fiscal consequences because all the positions are already at the maximum pay level. Given the fact that the Copyright Office currently is handling 42 percent more claims to copyright than 10 years ago as well as increased responsibilities associated with United States adherence to the Berne Convention and an increased volume of legislation requiring analysis by the Copyright Office.

The Copyright Office is an important division of the Library of Congress, which, as we all know, is a tremendous resource arm of this body. If we expect this resource to continue to be available and do the job we expect of them we must provide them with the support and resources needed. I have been in touch with the Librarian of Congress who shares our commitment to a strong U.S. Copyright Office. The Librarian—Dr. Billington—has assured this committee that he will fully consider the needs of the Copyright Office in his review of senior management positions of the Library and will continue to work toward making that office an international example of efficiency and productivity. He has also assured this committee that he will consult with us when his review of the Library and the Copyright Office is completed.

Mr. Speaker, I am not aware of any opposition to this legislation and urge a favorable vote.

□ 1640

Mr. KASTENMEIER. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I would like to join in the remarks made by the gentleman from California [Mr. MOORHEAD] about the former Commissioner of Patents and Trademarks. Donald Quigg took over the helm of the Office in the fall of 1985 and guided its course for 4 years. During that time, the importance of patents and trademarks continued to grow in our society. In expert and unflappable fashion, the Commissioner presided over a large and growing Government enterprise, one with growing obligations in a constantly changing technological environment. Although I have had some difference with the Commissioner on certain policy issues, I commend him for a job well done and thank him for his service to the public.

In a related regard, another individual deserves our commendation. Edward Ray recently retired from the Copyright Royalty Tribunal, where he had served for almost 8 years. Mr. Ray chaired the Tribunal on several occasions, at least once under extremely difficult circumstances when the Tribunal was down to two Commissioners and under a great deal of public scrutiny. His leadership allowed the Tribunal to survive and even grow to its respected statute today. Mr. Ray deserves our tribute.

Mr. Speaker, I yield back the balance of my time.

Mr. MOORHEAD. Mr. Speaker, I yield myself such time as I may consume, and I certainly do join the gentleman from Wisconsin in commanding the service of Eddie Ray. He has done an outstanding job.

Mr. FISH. Mr. Speaker, I rise in support of H.R. 3046. In many respects this legislation is technical, in that it would reduce the size of the Tribunal from five to three, but three has been the size of the CRT for the last couple of years. We are merely codifying that practice. The bill would also transfer the salary levels of the Parole Commissioners, the Commissioners of the CRT, the Assistant Commissioners of the Patent Office and the Register of Copyrights from GS-18 to level V of the executive schedule, bringing them in parity with each other. The CRT is a small agency even though it divides the distribution of hundreds of millions of dollars and like the Copyright Office, it too is located in the legislative branch. Therefore, they look to this committee, not OMB, for budgetary assistance and guidance. The administration has no objection to this legislation. I commend the gentleman from Wisconsin [Mr. KASTENMEIER] and the gentleman from California [Mr. MOORHEAD] for their continued support and oversight of the Copyright and Patent Office.

Mr. Speaker, I would like to take a minute and applaud the job being done by our present Register of Copyrights, Ralph Oman. His expertise and assistance to the Judiciary Committee and the Congress is greatly appreciated and valued. We expect that Oifice to become more and more critical as we try and stem the tens of billions of dollars and thousands of jobs lost every year to the pirates of copyrights.

Also, Mr. Speaker, I would like to identify with the remarks of the gentleman from California [Mr. MOORHEAD] concerning the retirement of the Commissioner of Patents, Don Quigg. He, too, was very important to the committee as we went through the decade of the eighties, reorganizing and upgrading the Patent and Trademark Office. We owe him

our gratitude and our appreciation, and we wish him well in his retirement from a very distinguished patent attorney career.

Mr. Speaker, I urge a favorable vote on H.R. 3046.

Mr. MOORHEAD. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. KASTENMEIER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Wisconsin [Mr. KASTENMEIER] that the House suspend the rules and pass the bill, H.R. 3046, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill as amended was passed.

That title of the bill was amended so as to read: "A bill to reduce the number of Commissioners on the Copyright Royalty Tribunal, to change the salary classification rates for members of the Copyright Tribunal and the U.S. Parole Commission, for the Register and Associate Registers of Copyrights, and for the Deputy and Assistant Commissioners of Patents and Trademarks, and for other purposes."

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. KASTENMEIER. Mr. Speaker, I ask unanimous consent that all members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 3046, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

EMERGENCY DRUG ABUSE TREATMENT EXPANSION ACT OF 1989

Mr. WAXMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3630), to amend the Public Health Service Act with respect to the prevention and treatment of substance abuse, including establishing separate block grants with respect to substance abuse and mental health as amended.

The Clerk read as follows:

H.R. 3630

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Emergency Drug Abuse Treatment Expansion Act of 1989".

TITLE I—SEPARATE AUTHORIZATIONS OF APPROPRIATIONS FOR BLOCK GRANTS WITH RESPECT TO SUBSTANCE ABUSE AND MENTAL HEALTH

SEC. 101. ESTABLISHMENT OF SEPARATE AUTHORIZATIONS OF APPROPRIATIONS.

Section 1911 of the Public Health Service Act (42 U.S.C. 300x) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 1911. (a)(1) With respect to alcohol and drug abuse, for the purpose of carrying out this subpart and section 509D, there are authorized to be appropriated $953,000,000 for fiscal year 1990 and $703,000,000 for fiscal year 1991.

"(2) With respect to alcohol and drug abuse, for the purpose of carrying out sections 509D, 1921, and 1922, the Secretary shall obligate not less than 5 percent, and not more than 15 percent, of the amounts appropriated for a fiscal year pursuant to paragraph (1).

"(b)(1) With respect to mental health, for the purpose of carrying out this subpart and section 509D, there are authorized to be appropriated $252,000,000 for fiscal year 1990 and such sums as may be necessary for fiscal year 1991.

"(2) With respect to mental health, for the purpose of carrying out sections 509D, 1921, and 1923, the Secretary shall obligate not less than 5 percent, and not more than 15 percent, of the amounts appropriated for a fiscal year pursuant to paragraph (1).".

TITLE II—CATEGORICAL GRANTS WITH RESPECT TO SUBSTANCE ABUSE

SEC. 201. ESTABLISHMENT OF OFFICE FOR TREATMENT IMPROVEMENT.

(a) IN GENERAL.—Title V of the Public Health Service Act (42 U.S.C. 290aa et seq.) is amended by inserting after section 507 the following new section:

"OFFICE FOR TREATMENT IMPROVEMENT

"SEC. 507A. (a) There is established in the Administration an Office for Treatment Improvement (hereafter in this section referred to as the "Treatment Office"). The Treatment Office shall be headed by a Director appointed by the Secretary from among individuals with extensive experience or academic qualifications in the treatment of drug or alcohol abuse. The Secretary, acting through the Director of the Treatment Office, shall carry out this section.

"(b) With respect to alcohol and drug abuse, the Director of the Treatment Office shall—

"(1) collaborate with the Director of the Office for Substance Abuse Prevention in order to provide outreach services to identify individuals in need of treatment services, with emphasis on the provision of such services to racial and ethnic minorities, to adolescents, to pregnant and postpartum women and their infants, to individuals who abuse drugs intravenously, and to residents of publicly assisted housing;

"(2) collaborate with the Director of the National Institute on Drug Abuse and with the States to promote the study of the outcomes of treatment services in order to identify the manner in which such treatment services can most effectively be provided;

"(3) collaborate with the Director of the National Institute on Drug Abuse in order to promote the dissemination and implementation of research findings that will improve the delivery and effectiveness of treatment services;

"(4) evaluate plans submitted by the States pursuant to section 1916B in order to advise the Administrator on whether the plans adequately provide for the allocation of the treatment resources of the States;

"(5) carry out the program established in section 509E;

"(6) carry out the program established in section 509G(b), with emphasis on initiating and expanding programs for the provision of treatment services (including renovation of facilities, but not construction) in localities in which, and among populations for which, there is a public health crisis as a result of the inadequate availability of such services and a substantial rate of such abuse;

"(7) sponsor regional workshops on improving the quality and availability of treatment services;

"(8) provide technical assistance to public and nonprofit private entities that provide prevention and treatment services, including technical assistance with respect to the process of submitting to the Director applications for any program of grants carried out by the Director;

"(9) after consultation with organizations that represent providers of prehospital emergency medical services, carry out programs to train such providers with respect to responding to any emergency involving special problems that arise as a result of the abuse of alcohol or drugs by the victim of the emergency, including the problem of interacting with victims who are violent as a result of such abuse; and

"(10) encourage State and Federal agencies offering treatment opportunities for individuals addicted to drugs or alcohol to utilize and establish self-run, self-supported recovery homes based on the Oxford House Model, as described in section 1916A.

"(c) With respect to alcohol and drug abuse, the Director of the Treatment Office shall conduct or support programs—

"(1) to assist in the planning, initiation, administration, and expansion of programs for the provision of treatment services in rural communities through the provision of assistance to hospitals, community health centers, migrant health centers, health entities of Indian tribes and tribal organizations (as defined in section 1913(b)(5)), and other appropriate entities, and in providing such assistance, shall ensure that the assistance is equitably allocated among the principal geographic regions of the United States, subject to the availability of qualified applicants for the assistance;

"(2) to provide treatment services by making grants to grantees under any of sections 340, 329, and 330, and in making such grants, shall ensure that the grants are equitably allocated among the principal geographic regions of the United States, and between urban and rural areas, subject to the availability of qualified applicants for the grants;

"(3) improve coordination of the treatment resources of communities in order to ensure that the resources are applied in the manner most consistent with the needs of the communities, including referring individuals to the most appropriate provider of treatment services;

"(4) improve coordination between treatment facilities and agencies providing health, social, and employment services in order to assist, in a comprehensive manner, individuals undergoing treatment;

"(5) carry out activities to educate communities on the need for establishing treatment facilities within the communities;

"(6) encourage public and private entities that provide health insurance to provide

benefits for outpatient treatment services and for treatment services through other less intensive modes of treatment; and

"(7) develop programs to increase the number of health professionals providing treatment services and to promote the increased integration into the heath care system of the United States of programs for providing treatment services.

"(d) Grants under this section may be made only to public and nonprofit private entities.

"(e)(1) For the purpose of carrying out paragraph (1) of subsection (c), there is authorized to be appropriated $100,000,000 for each of the fiscal years 1990 and 1991.

"(2) For the purpose of carrying out paragraph (2) of subsection (c), there is authorized to be appropriated $50,000,000 for each of the fiscal years 1990 and 1991.".

(b) AVAILABILITY OF CERTAIN AMOUNTS.—Of the amounts made available under section 307, the Secretary shall reserve not less than 40 percent for carrying out subsection (c)(1), and not less than 20 percent for carrying out subsection (c)(2), of section 507A of the Public Health Service Act, as added by subsection (a) of this section.

SEC. 202. ESTABLISHMENT OF NATIONAL CAPITAL AREA DRUG ABUSE TREATMENT DEMONSTRATION PROGRAM.

Title V of the Public Health Service Act, as amended by section 201 of this Act, is amended by inserting after section 507A the following new section:

"MODEL COMPREHENSIVE PROGRAM FOR DRUG ABUSE TREATMENT

"SEC. 507B. (a) The Secretary, acting through the Director of the Office for Treatment Improvement, shall make a demonstration grant for the establishment, within the national capital area, of a model program for providing comprehensive treatment services for drug abuse.

"(b) The Secretary may not make a grant under subsection (a) unless, with respect to the comprehensive treatment services to be offered by the program under such subsection, the applicant for the grant agrees—

"(1) to ensure, to the extent practicable, that the program has the capacity to provide the services to all individuals who seek and would benefit from the services;

"(2) as appropriate, to provide education on obtaining employment and other matters with respect to assisting the individuals in preventing any relapse with respect to drug abuse, including education on the appropriate involvement of parents and sexual partners in preventing such a relapse;

"(3) to provide services in locations accessible to drug abusers and, to the extent practicable, to provide services through mobile facilities;

"(4) to give priority to providing services to individuals who abuse drugs intravenously, to pregnant women, to homeless individuals, and to residents of publicly-assisted housing;

"(5) with respect to women with dependent children, to provide child care to such women seeking treatment services for drug abuse;

"(6) to conduct outreach activities to inform individuals of the availability of the services of the program;

"(7) to provide case management services, including services to determine eligibility for assistance under Federal, State, and local programs providing health services, mental health services, or social services;

"(8) to ensure the establishment of one or more offices to oversee the coordination of the activities of the program, to ensure that treatment is available to those seeking it, to ensure that the program is administered efficiently, and to ensure that the public is informed that the offices are the locations at which individuals may make inquires concerning the program, including the location of available treatment services within the national capital area; and

"(9) to develop and utilize standards for certifying the knowledge and training of individuals, and the quality of programs, to provide treatment services for drug abuse.

"(c)(1) The Secretary may not make the grant under subsection (a) unless the applicant for the grant is an organization of the general-purpose local governments within the national capital area, or another public or nonprofit private entity, and the applicant submits to the Secretary assurances satisfactory to the Secretary that, with respect to the communities in which services will be offered, the local governments of the communities will participate in the program.

"(2) The grantee under subsection (a) may provide the services required by such subsection directly or through arrangements with public and nonprofit private entities.

"(d)(1) The Secretary may not make a grant under subsection (a) unless the applicant for the grant agrees, with respect to the costs to be incurred by the applicant in carrying out the purpose described in such subsection, to make available (directly or through donations from public or private entities) non-Federal contributions toward such costs in an amount equal to not less than $1 for each $4 of Federal funds provided under the grant.

"(2) Non-Federal contributions required in paragraph (1) may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by the Federal Government, or services assisted or subsidized to any significant extent by the Federal Government, may not be included in determining the amount of such non-Federal contributions.

"(e) The Director of the National Institute on Drug Abuse shall evaluate the effectiveness of the program carried out under subsection (a). In conducting the evaluation, the Director shall evaluate the extent to which the program has effectively utilized innovative methods for overcoming the resistance of the residents of communities to the establishment of treatment facilities within the communities.

"(f)(1) The Secretary shall make a determination of the appropriate criteria for carrying out the program required in subsection (a), including the anticipated need for, and range of, services under the program in the communities involved and the anticipated costs of the program. Not later than 90 days after the date of the enactment of the Emergency Drug Abuse Treatment Expansion Act of 1989, the Secretary shall submit to the Congress a report describing the findings made as a result of the determination.

"(2) Not later than 1 year after the date on which the grant is made under subsection (a), and annually thereafter, the Secretary shall submit to the Congress a report describing the extent to which the program carried out under subsection (a) has been effective in carrying out the purposes of the program.

"(g) For purposes of this section, the term 'national capital area' means the metropolitan Washington area, including the District of Columbia, the cities of Alexandria, Falls Church, and Fairfax in the State of Virginia, the counties of Arlington and Fairfax in such State (and the political subdivisions of such State located in such counties), and the counties of Montgomery and Prince Georges in the State of Maryland (and the political subdivisions of such State located in such counties).

"(h) Of the amounts made available in appropriations Acts for fiscal year 1990 for carrying out the programs administered by the Director of the Office for Treatment Improvement, the Secretary, acting through such Director, shall reserve not less than $35,000,000, and not more than $50,000,000, for carrying out this section.

"(i) For the purpose of carrying out this section, there are authorized to be appropriated such sums as may be necessary for fiscal year 1991.".

SEC. 203. REVISION IN PROGRAM FOR REDUCTION OF WAITING PERIOD FOR DRUG ABUSE TREATMENT.

(a) ADMINISTRATOR OF PROGRAM.—Section 509E(a) of the Public Health Service Act (42 U.S.C. 290aa-12(a)) is amended by striking "the Administrator" and inserting "the Director of the Office for Treatment Improvement".

(b) USE OF GRANT.—Section 509E of the Public Health Service Act (42 U.S.C. 290aa-12) is amended—

(1) by striking subsection (d) and redesignating subsection (c) as subsection (d); and

(2) by inserting after subsection (b) the following new subsection:

"(c) A grantee under subsection (a) may expend not more than 50 percent of the grant to develop and provide, directly or through arrangements with public and nonprofit private entities, follow-up services with respect to preventing the abuse of drugs by individuals to whom the entity has provided treatment services for such abuse.".

(c) FUNDING.—

(1) IN GENERAL.—Section 509E(f) of the Public Health Service Act (42 U.S.C. 290aa-12(f)) is amended—

(A) in paragraph (1), by striking "$100,000,000." and inserting "$165,000,000."; and

(B) in paragraph (3), by striking "$100,000,000" and inserting "$165,000,000".

(2) AVAILABILITY OF CERTAIN AMOUNTS.—Of the amounts made available under section 307, the Secretary shall reserve not less than 10 percent for carrying out section 509E of the Public Health Service Act.

SEC. 204. REVISION IN PROGRAM OF MODEL PROJECTS FOR REDUCING INCIDENCE OF ALCOHOL AND DRUG ABUSE AMONG PREGNANT AND POSTPARTUM WOMEN AND THEIR INFANTS.

(a) IN GENERAL.—Section 509F of the Public Health Service Act (42 U.S.C. 290aa-13) is amended by striking subsections (b) through (e) and inserting the following:

"(b) In making grants under subsection (a), the Director of the Office shall give priority—

"(1) to projects that will provide treatment services; and

"(2) to projects for which there are assurances satisfactory to the Director that non-Federal contributions will be available in excess of such contributions required in subsection (f).

"(c) With respect to treatment services for alcohol and drug abuse, the Director of the Office may not make a grant under subsection (a) for such services unless the applicant for the grant agrees that, directly or through arrangements with other public or nonprofit entities, the applicant will provide, for pregnant and postpartum women—

"(1) outreach services in the community involved to identify such women who are abusing alcohol or drugs and to encourage such women to undergo treatment for such abuse;

"(2) prenatal and postpartum health care for women undergoing such treatment;

"(3) with respect to the infants of such women, pediatric services for infants not exceeding 1 year of age;

"(4) child care, transportation, and other support services with respect to such treatment, including, as appropriate, visits to the home of such women;

"(5) as appropriate, referrals to facilities for necessary hospital services;

"(6) education on obtaining employment, and other appropriate follow-up services with respect to assisting such women in preventing any relapse with respect to alcohol or drug abuse;

"(7) case management services, including assistance in establishing eligibility for assistance under Federal, State, and local programs providing health services, mental health services, or social services; and

"(8) reasonable efforts to preserve and support the family unit and protect the infants involved.

"(d) The Director of the Office may not make a grant under subsection (a) unless the applicant for the grant agrees that the services required in subsection (c)—

"(1) will be provided at locations accessible to low-income pregnant and postpartum women; and

"(2) will be provided in the language and the cultural context that is most appropriate.

"(e) With respect to any health service under this section that is covered by the appropriate State plan approved under title XIX of the Social Security Act, the Director of the Office may not make a grant under subsection (a) unless—

"(1) the applicant for the grant will provide the health service directly, and the applicant has entered into a participation agreement under the appropriate State plan and is qualified to receive payments under such plan; or

"(2) the applicant for the grant has entered into a contract with an entity for the entity to provide the health service, and the entity has entered into such a participation agreement and is qualified to receive such payments.

"(f) The Director of the Office may not make a grant under subsection (a) unless the applicant for the grant agrees that, if a charge is imposed for the provision of services or activities under the grant, such charge—

"(1) will be made according to a schedule of charges that is made available to the public;

"(2) will be adjusted to reflect the income and resources of the woman involved; and

"(3) will not be imposed on any woman with an income of less than 100 percent of the official poverty line, as established by the Director of the Office for Management and Budget and revised by the Secretary in accordance with section 673(2) of the Omnibus Budget Reconciliation Act of 1981.

"(g) In making grants under subsection (a) for the provision of treatment services for alcohol and drug abuse, the Director of the Office shall ensure that the grants are reasonably distributed among projects that provide outpatient treatment and projects that provide residential treatment.

"(h)(1) The Director of the Office may not make a grant under subsection (a) unless the applicant for the grant agrees, with respect to the costs to be incurred by the applicant in carrying out the purpose described in such subsection, to make available (directly or through donations from public or private entities) non-Federal contributions toward such costs in an amount equal to not less than—

"(A) $1 for each $9 of Federal funds provided for the first year of payments under the grant; and

"(B) $1 for each $3 of Federal funds provided in any subsequent year of such payments.

"(2) Non-Federal contributions required in paragraph (1) may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by the Federal Government, or services assisted or subsidized to any significant extent by the Federal Government, may not be included in determining the amount of such non-Federal contributions.

"(i)(1) The Director of the Office may not, except as provided in paragraph (2), make a grant under subsection (a) unless the applicant for the grant agrees that the grant will not be expended—

"(A) to provide inpatient services, except with respect to residential treatment for alcohol and drug abuse provided in settings other than hospitals;

"(B) to make cash payments to intended recipients of services under the program involved;

"(C) to purchase or improve real property (other than minor remodeling of existing improvements to real property) or to purchase major medical equipment; or

"(D) to satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds.

"(2) If the Director of the Office finds that the purpose of the program involved cannot otherwise be carried out, the Director may, with respect to an otherwise qualified grantee, waive the restriction established in paragraph (1)(C).

"(j) The Director of the Office may not make a grant under subsection (a) unless the applicant for the grant agrees—

"(1) to submit to the Secretary an annual report that describes the utilization and costs of services provided under the grant;

"(2) to include in the report the number of women served, the number of infants served, and the type and costs of services provided; and

"(3) to include in the report such other information as the Secretary determines to be appropriate.

"(k) The Director of the Office may not make a grant under subsection (a) unless—

"(1) an application for the grant is submitted to the Secretary;

"(2) with respect to carrying out the purpose for which the grant is to be made, the application provides assurances of compliance satisfactory to the Secretary; and

"(3) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this section.

"(l) The period during which payments are made by the Director of the Office under a grant under subsection (a) may not exceed 5 years.

"(m) The Director of the Office shall, after consultation with the Director of the National Institute on Drug Abuse, periodically conduct evaluations to determine the effectiveness of projects supported under subsection (a)—

"(1) in reducing the incidence of alcohol and drug abuse among women receiving the services of such projects;

"(2) in reducing, in the infants of such women, the incidence of drug addiction and other adverse health conditions (including congenital conditions) resulting from the abuse of alcohol or drugs by their mothers; and

"(3) in enabling women who have received services pursuant to this section to provide appropriate care and support to their infants.

"(n) The Director of the Office shall annually submit to the Congress a report describing programs carried out pursuant to this section. Each such report shall include any evaluations conducted under subsection (m) during the preceding fiscal year.

"(o) For the purpose of carrying out this section, there is authorized to be appropriated $100,000,000 for each of the fiscal years 1990 and 1991.".

(b) GRANTEES.—Section 509F(a) of the Public Health Service Act (42 U.S.C. 290aa-13(a)) is amended by adding at the end the following new sentence: "Such grants may be made only to public and nonprofit private entities and to appropriately qualified Indian tribes and tribal organizations (as defined in section 1913(b)(5)).".

(c) AVAILABILITY OF CERTAIN AMOUNTS.—Of the amounts made available under section 307, the Secretary shall reserve not less than 30 percent for carrying out section 509F of the Public Health Service Act.

SEC. 205. REVISIONS IN PROGRAM FOR DRUG ABUSE PROJECTS OF NATIONAL SIGNIFICANCE.

Section 509G of the Public Health Service Act (42 U.S.C. 290aa-14) is amended—

(1) in subsection (a)(1)—

(A) in the matter preceding subparagraph (A), by striking "the Administrator" and inserting "the Director of the National Institute on Drug Abuse"; and

(B)(i) by adding "and" at the end of subparagraph (A), and by striking "; and" at the end of subparagraph (B) and inserting a period; and

(ii) by striking subparagraph (C);

(2) in subsection (b)—

(A) in paragraph (1)—

(i) by inserting after "Secretary" the following: ", acting through the Director of the Office for Treatment Improvement,";

(ii) by striking "States" the first place such term appears and inserting "States and other public or nonprofit private entities"; and

(iii) by striking "States" the second place such term appears and inserting "such entities"; and

(B) in paragraph (4), by striking "State" and inserting "public or nonprofit private entity"; and

(3) in subsection (c)(1), by striking "There are authorized" and all that follows and inserting the following: "For the purpose of carrying out this section, there is authorized to be appropriated $80,000,000 for each of the fiscal years 1990 and 1991.".

SEC. 206. TECHNICAL AND CONFORMING AMENDMENTS.

Part A of title V of of the Public Health Service Act (42 U.S.C. 290aa et seq.) is amended—

(1) in section 508(d)(1), by striking "sections 509, 509A, and 509F," and inserting "sections 509 and 509A,"; and

(2) in section 509F—

(A) in the heading, by striking "PREGNANT" and all that follows through "WOMEN" and

inserting "PREGNANT AND POSTPARTUM WOMEN";

(B) in subsection (a), by striking "pregnant" and all that follows through "women" and inserting "pregnant and postpartum women".

TITLE III—SEPARATE FORMULAS IN BLOCK GRANTS WITH RESPECT TO SUBSTANCE ABUSE AND MENTAL HEALTH

SEC. 301. ESTABLISHMENT OF SEPARATE FORMULAS.

(a) IN GENERAL.—Subpart 1 of part B of title XIX of the Public Health Service Act (42 U.S.C. 300x et seq.) is amended—

(1) in section 1912A, by amending the heading for such section to read as follows:

"ALLOTMENTS WITH RESPECT TO ALCOHOL AND DRUG ABUSE";

and

(2) by inserting after section 1912A the following new section:

"ALLOTMENTS WITH RESPECT TO MENTAL HEALTH

"SEC. 1912B. (a)(1) Subject to subsections (b) and (f), the Secretary shall, with respect to mental health, determine the amount of the allotment under this subpart for a State for a fiscal year in accordance with the following formula:

$$A\left(\frac{X}{U}\right)$$

"(2) For purposes of the formula specified in paragraph (1), the term "A" means the difference between—

"(A) an amount equal to the amount appropriated pursuant to section 1911(b)(1) for allotments under this subpart for the fiscal year involved; and

"(B) an amount equal to 1.5 percent of the amount referred to in subparagraph (A).

"(3) For purposes of the formula specified in paragraph (1), the term 'U' means the sum of the respective terms 'X' determined for each State under paragraph (4).

"(4)(A) For purposes of the formula specified in paragraph (1), the term 'X' means the product of—

"(i) an amount equal to the term 'P', as determined for the State involved under subparagraph (B); and

"(ii) the greater of—

"(I) 0.4; and

"(II) an amount equal to an amount determined for the State in accordance with the following formula:

$$1-.35\left(\frac{S}{N}\right)$$

"(B) For purposes of subparagraph (A)(i), the term 'P' means the sum of—

"(i) an amount equal to the product of—

"(I) 0.4; and

"(II) an amount equal to the number of individuals in the State who are between 18 and 24 years of age (inclusive), as indicated by the most recent data collected by the Bureau of the Census; and

"(ii) an amount equal to the product of—

"(I) 0.6; and

"(II) an amount equal to the number of individuals in the State who are between 25 and 44 years of age (inclusive), as indicated by the most recent data collected by the Bureau of the Census.

"(C) In the case of the several States, for purposes of the formula specified in subparagraph (A)(ii)(II), the term 'S' means the quotient of—

"(i) an amount equal to the most recent 3-year average of the total taxable resources of the State involved, as determined by the Secretary of the Treasury; divided by

"(ii) an amount equal to the term 'P', as determined for the State under subparagraph (B).

"(D) In the case of the several States, for purposes of the formula specified in subparagraph (A)(ii)(II), the term 'N' means the quotient of—

"(i) an amount equal to the sum of—

"(I) the sum of the respective amounts determined for each of the several States under subparagraph (C)(i); and

"(II) an amount equal to the most recent 3-year average of the total taxable resources of the District of Columbia, as determined by the Secretary of the Treasury; divided by

"(ii) an amount equal to the sum of the respective terms 'P' determined for each of the several States, and for the District of Columbia, under subparagraph (B).

"(E) In the case of the District of Columbia, for purposes of the formula specified in subparagraph (A)(ii)(II)—

"(i) the term 'S' means the quotient of—

"(I) an amount equal to the most recent 3-year average of the total personal income in such District, as determined by the Secretary of Commerce; divided by

"(II) an amount equal to the term 'P', as determined for such District under subparagraph (B); and

"(ii) the term 'N' means the quotient of—

"(I) an amount equal to the most recent 3-year average of the total personal income in the United States, as determined by the Secretary of Commerce; divided by

"(II) an amount equal to the sum of the respective terms 'P' determined for each of the several States, and for the District of Columbia, under subparagraph (B).

"(b) Each State shall, with respect to mental health, receive a minimum allotment under this subpart of the lesser of—

"(1) $4,000,000; and

"(2) an amount equal to 100 percent of the amount the State received, with respect to mental health, under section 1913 for fiscal year 1988 (as such section was in effect for such fiscal year).

"(c)(1) Subject to paragraph (2), the allotment, with respect to mental health, under this subpart for a territory of the United States shall be the product of—

"(A) an amount equal to the amounts reserved under paragraph (3)(A); and

"(B) a percentage equal to the quotient of—

"(i) the population of the territory, as indicated by the most recently available data; divided by

"(ii) the aggregate population of the territories of the United States, as indicated by such data.

"(2) Each territory of the United States shall, with respect to mental health, receive a minimum allotment under this subpart of the greater of—

"(A) $50,000; and

"(B) an amount equal to 100 percent of the amount the territory received, with respect to mental health, under section 1913 for fiscal year 1988 (as such section was in effect for such fiscal year).

"(3)(A) The Secretary shall reserve for the territories of the United States 1.5 percent of the amounts appropriated pursuant to section 1911(b)(1) for allotments under this subpart for each fiscal year.

"(B) If the amounts reserved under subparagraph (A) for a fiscal year are insufficient for providing the territories of the United States with the minimum allotments specified in paragraph (2), the Secretary shall, from the amounts specified in such subparagraph, reserve such additional amounts as are necessary for providing the minimum allotments (and the percentage specified in subsection (a)(2)(B) shall be deemed to be adjusted to equal the percentage of the total amounts reserved under this paragraph).

"(d) For purposes of subsections (a), (b), and (f), the term 'State' means each of the several States and the District of Columbia.

"(e)(1) If the amounts allotted to a State under this section for a fiscal year are less than the amounts allotted to the State for fiscal year 1989 with respect to mental health, the State may transfer amounts from the allotment under section 1912A for the fiscal year to the allotment under this section for the fiscal year, subject to paragraph (2).

"(2) The total amount transferred under paragraph (1) for a fiscal year may not exceed an amount equal to the difference between—

"(A) the amount allotted to the State for fiscal year 1989 with respect to mental health; and

"(B) the amount of the allotment under this section for the fiscal year.

"(f)(1) For fiscal years 1990 through 1992, if the amount available for allotment from appropriations under section 1911(b)(1) does not exceed the amount applicable under subsection (g) for the fiscal year involved, the amount of the allotment, with respect to mental health, under this subpart for the State for such fiscal year shall be the product of—

"(A) the amount available for allotments to the States from appropriations under section 1911(b)(1) for such fiscal year; and

"(B) a percentage equal to the quotient of—

"(i) an amount equal to the amount of the allotment, with respect to mental health, under this part for the State for fiscal year 1984; divided by

"(ii) an amount equal to the amount appropriated for allotments, with respect to mental health, under this part for fiscal year 1984.

"(2) For the fiscal years referred to in paragraph (1), if the amount available for allotment from appropriations under section 1911(b)(1) exceeds the amount applicable under subsection (g) for the fiscal year involved—

"(A) the amount of such excess shall be allotted in accordance with subsection (a), except that the amount referred to in subsection (a)(2)(A) shall be deemed to be an amount equal to the amount of such excess; and

"(B) the amount equal to such applicable amount shall be allotted in accordance with paragraph (1).

"(g) For purposes of subsection (f)—

"(1) the amount applicable for fiscal year 1990 is $123,000,000;

"(2) the amount applicable for fiscal year 1991 is $98,000,000; and

"(3) the amount applicable for fiscal year 1992 is $49,000,000.".

(b) APPLICATION OF FORMULA.—Effective October 1, 1992, subsections (f) through (g) of section 1912B of the Public Health Serv-

ice, as added by subsection (a) of this section, are repealed.

SEC. 302. REVISIONS IN FORMULA WITH RESPECT TO SUBSTANCE ABUSE.

(a) DETERMINATION OF URBAN POPULATION.—Section 1912A(a)(4)(B)(i)(II) of the Public Health Service Act (42 U.S.C. 300x-1a(a)(4)(B)(i)(II)) is amended by striking "as indicated" and all that follows and inserting the following: "as determined by multiplying the total population of the State, as indicated by the most recently available data, by a percentage equal to the percentage that, under data from the most recent decennial census conducted by the Bureau of the Census, is constituted by the ratio of the population of the State living in urbanized areas to the total population of the State;".

(b) MINIMUM ALLOTMENT FOR STATES.—Section 1912A(b) of the Public Health Service Act (42 U.S.C. 300x-1a(b)) is amended by striking paragraphs (1) and (2) and inserting the following:

"(1) $5,000,000; and

"(2) 105 percent of the amount the State received, with respect to alcohol and drug abuse, under this section for fiscal year 1989.".

(c) MINIMUM ALLOTMENT FOR TERRITORIES.—Section 1912A(c)(2) of the Public Health Service Act, as amended by Public Law 101-93, is amended—

(1) in subparagraph (A), by striking "$100,000" and inserting "$50,000"; and

(2) in subparagraph (B)(i), by inserting ", with respect to substance abuse," after "received".

(d) TRANSITION PERIOD.—Section 1912A(f) of the Public Health Service Act (42 U.S.C. 300x-1a(f)) is amended to read as follows:

"(f) For purposes of subsection (e)—

"(1) the amount applicable for fiscal year 1990 is $137,000,000;

"(2) the amount applicable for fiscal year 1991 is $102,000,000; and

"(3) the amount applicable for fiscal year 1992 is $51,000,000.".

SEC. 303. SET-ASIDE FOR WOMEN IN PROGRAM OF ALLOTMENTS WITH RESPECT TO SUBSTANCE ABUSE.

Section 1916(c)(14) of the Public Health Service Act (42 U.S.C 300x-4(c)(14)) is amended—

(1) by inserting after "allotted" the following: ", with respect to alcohol and drug abuse,";

(2) by striking "10 percent" and inserting "25 percent"; and

(3) by inserting before the period the following: ", which treatment services were not available prior to fiscal year 1989".

SEC. 304. REQUIREMENT OF AVAILABILITY OF TREATMENT SERVICES TO PREGNANT WOMEN.

Section 1916(c) of the Public Health Service Act (42 U.S.C 300x-4(c)) is amended by adding at the end the following new paragraph:

"(22) The State agrees—

"(A) to ensure that treatment services for the abuse of alcohol or drugs are available to each pregnant woman in the State who seeks and would benefit from such services; and

"(B) in carrying out subparagraph (A)—

"(i) to identify facilities in the State that provide such treatment services to such women, to publicize the availability to the women of services from the facilities, and to provide to the Secretary a list of the facilities; and

"(ii) to require that, in the event that a treatment facility has insufficient capacity with respect to any such woman, the facility refer the woman to the State for referral to a facility with the capacity to provide treatment services.".

SEC. 305. REQUIREMENTS WITH RESPECT TO INFANTS BORN TO SUBSTANCE ABUSING WOMEN.

Section 1916(c) of the Public Health Service Act, as amended by section 304 of this Act, is amended by adding at the end the following new paragraph:

"(23) The State agrees—

"(A) to establish procedures to ensure that a newborn infant of any woman determined by a qualified treating health care professional to be abusing alcohol or any drug, be tested and evaluated to determine if such infant has fetal alcohol syndrome, physical drug dependency, or other congenital condition caused by the substance abuse; and

"(B) if such testing and evaluation indicate that such an infant has such a syndrome, condition, or dependency, to take appropriate action—

"(i) under applicable State law to assure the health and safety of such infant; and

"(ii) to provide necessary health care services to such infant and his or her mother.".

SEC. 306. REQUIREMENTS WITH RESPECT TO ACQUIRED IMMUNE DEFICIENCY SYNDROME.

Section 1916(c) of the Public Health Service Act, as amended by section 305 of this Act, is amended by adding at the end the following new paragraph:

"(24) The State agrees that it will establish procedures to ensure that entities receiving funds under this part for drug abuse treatment services will routinely offer and encourage any individual receiving such treatment services to undergo counseling and testing with respect to infection with the etiologic agent for acquired immune deficiency syndrome. Such counseling and testing is to be undertaken voluntarily and with the informed consent of the individual and is not to be required as a condition of receiving other services. Test results shall not be used to deny appropriate drug treatment services. Information regarding such counseling, testing, and test results shall be confidential. Such counseling and testing shall include:

"(A) Appropriate pre-test counseling, including—

"(i) counseling on measures for the prevention of exposure to and transmission of the etiologic agent;

"(ii) counseling on the accuracy, reliability, and significance of test results;

"(iii) encouragement of such individuals, as appropriate, to undergo testing;

"(iv) information on the benefits of such testing, including the medical benefits of early diagnosis and treatment of the infection;

"(v) information on the applicable confidentiality protections regarding such counseling, testing, and resulting test results, including information on the availability of anonymous counseling and testing, if any; and

"(vi) information on the applicable protections against discrimination against infected individuals.

"(B) Such confirmatory and diagnostic tests as may be necessary to confirm the infection and, if the individual is infected, to inform the individual of the appropriate course of prophylaxis and treatment.

"(C) Appropriate post-test counseling, including—

"(i) review of the counseling provided before testing;

"(ii) if the individual is not infected, counseling regarding appropriate follow-up and further testing;

"(iii) if the individual is infected, the benefits of locating any person by whom the individual may have been infected or whom the individual may have exposed to infection;

"(iv) if the individual is infected, the availability, if any, of the services of public health authorities with respect to locating and counseling persons described in clause (iii); and

"(v) if the individual is infected, the availability in the geographic area of any appropriate services with respect to health care, including prophylaxis, early intervention, mental health, and social and support services.".

SEC. 307. PROJECTS WITH RESPECT TO CRITICAL NEEDS IN DRUG ABUSE PREVENTION AND CONTROL.

Of the amounts appropriated for fiscal year 1990 for allotments, with respect to alcohol and drug abuse, under subpart 1 of part B of title XIX of the Public Health Service Act, the Secretary shall make available $250,000,000 for carrying out programs with respect to the prevention and treatment of alcohol and drug abuse. The amounts reserved under this section shall not be subject to the requirements of subsection (a)(2) of section 1911 of the Public Health Service Act, as added by section 101 of this Act.

SEC. 308. TECHNICAL AND CONFORMING AMENDMENTS.

(a) SECTION 1912A.—Section 1912A of the Public Health Service Act, as amended by Public Law 101-93, is amended—

(1) in subsection (a)—

(A) in paragraph (1), by striking "shall determine" and inserting "shall, with respect to alcohol and drug abuse, determine";

(B) in paragraph (2)(A), by striking "section 1911" and inserting "section 1911(a)(1)"; and

(C) in paragraph (4)(B), in clauses (ii) through (iv), by inserting a comma after "(inclusive)" each place such term appears;

(2) in subsection (c)—

(A) in paragraph (1), in the matter preceding subparagraph (A), by inserting ", with respect to alcohol and drug abuse," after "shall"; and

(B) in paragraph (3), by striking "section 1911" and inserting "section 1911(a)(1)";

(3) in subsection (d)(1), by inserting ", with respect to alcohol and drug abuse," after "allotted"; and

(4) in subsection (g)(1)(A), by striking "provided in subparagraph (B)," and inserting "provided in subparagraph (B) and in section 1912B(d),".

(b) REMAINING SECTIONS.—Subpart 1 of part B of title XIX of the Public Health Service Act, as amended by Public Law 101-93, is amended—

(1) in section 1913(b)(1), in the matter after and below subparagraph (B), by striking "subsection (a)" and inserting "this subpart";

(2) in section 1914(a)(1)—

(A) by striking "allotment under section 1912A" and inserting "allotments under this subpart"; and

(B) by adding at the end the following new sentence: "In the expenditure of such payments for purposes authorized in this subpart, payments received from the allotment under section 1912A may be expended only for such purposes with respect to alcohol and drug abuse, and payments received

from the allotment under section 1912B may be expended only for such purposes with respect to mental health.";

(3) in section 1915(a), in the matter preceding paragraph (1), by striking "and amounts transferred" and all that follows through "may be used" and inserting "may, subject to subsection (a)(1) of such section, be used";

(4) in section 1916—

(A) in subsection (a), by amending the first sentence to read as follows: "In order to receive the allotments under this subpart, each State shall submit to the Secretary a single application.";

(B) in subsection (b), by striking "section 1912A" and inserting "this subpart"; and

(C) in subsection (c)—

(i) in paragraph (1), by striking "alloted to it under section 1913" and inserting "allotted to it under this subpart"; and

(ii) by striking paragraph (6);

(5) in section 1916A(a), in the matter preceding paragraph (1), by inserting "with respect to alcohol and drug abuse" after "section 1914"; and

(6) in section 1917(b)(3), in the last sentence, by striking "section 1912A" and inserting "this subpart".

TITLE IV—STATEWIDE SUBSTANCE ABUSE TREATMENT PLAN

SEC. 401. ESTABLISHMENT OF REQUIREMENT.

(a) IN GENERAL.—Title XIX of the Public Health Service Act is amended by inserting after section 1916A (42 U.S.C. 300x-4a) the following new section:

"SEC. 1916B. STATEWIDE SUBSTANCE ABUSE TREATMENT PLAN.

"(a) NATURE OF PLAN.—To receive its allotment for a fiscal year under section 1912A, a State shall develop, implement and submit, as part of the application required by section 1916(a), an approved statewide Substance Abuse Treatment Plan, prepared according to standards issued by the Secretary, that shall contain—

"(1) a single, designated State agency for formulating and implementing the Statewide Substance Abuse Treatment Plan;

"(2) a description of the mechanism that shall be used to assess the needs for substance abuse treatment in localities throughout the State including the presentation of relevant data;

"(3) a description of a statewide plan that shall be implemented to expand treatment capacity and overcome obstacles that restrict the expansion of treatment capacity (such as zoning ordinances), or an explanation of why such a plan is unnecessary;

"(4) a description of performance-based criteria that shall be used to assist in the allocating of funds to substance abuse treatment facilities receiving assistance under this subpart;

"(5) a description of the drug-free patient and workplace programs, that must include some form of drug testing, to be utilized in substance abuse treatment facilities and programs;

"(6) a description of the mechanism that shall be used to make funding allocations under this subpart;

"(7) a description of the actions that shall be taken to improve the referral of substance abusers to treatment facilities that offer the most appropriate treatment modality;

"(8) a description of the program of training that shall be implemented for employees of treatment facilities receiving Federal funds, designed to permit such employees to stay abreast of the latest and most effective treatment techniques;

"(9) a description of the plan that shall be implemented to coordinate substance abuse treatment facilities with other social, health, correctional and vocational services in order to assist or properly refer those patients in need of such additional services; and

"(10) a description of the plan that will be implemented to expand and improve efforts to deter women from knowingly abusing drugs during pregnancy, to contact and treat pregnant women who abuse drugs, and to provide appropriate follow-up services to their affected newborns.

"(b) SUBMISSION OF PLAN.—The plan required by subsection (a) shall be submitted to the Secretary annually for review and approval. The Secretary shall have the authority to review and approve or disapprove such State plans, and to propose changes to such plans.

"(c) GUIDELINES.—

"(1) IN GENERAL.—The Secretary, in consultation with the States, shall develop guidelines for each area to be covered by the State plan prepared under subsection (a).

"(2) CONFORMITY.—Beginning in fiscal year 1991, no payment shall be made to a State from its allotment under section 1912A unless such State has submitted a plan under this section that is in reasonable conformance with the guidelines developed under paragraph (1), except that with respect to the performance criteria for treatment facilities described in subsection (a)(4), the State plan shall provide a reasonable time for such conformance.

"(3) MONITORING.—The Secretary shall monitor the compliance of the State with the plan submitted under this section and provide technical assistance to assist in achieving such compliance.

"(d) SUBMISSION OF PROGRESS REPORTS.—Each State shall submit reports, in such form, and containing such information as the Secretary may, from time to time, require, and shall comply with such additional provisions as the Secretary may from time to time find necessary to verify the accuracy of such reports and not overly burdensome on the State.

"(e) WAIVER OF PLAN REQUIREMENT.—At the discretion of the Secretary, the Secretary may waive any or all of the requirements of this section on the written request of a State, except that such waiver shall not be granted unless the State implements an alternative treatment plan that fulfills the objectives of this section.

"(f) MODEL STATE PLAN.—The Director of the Office for Treatment Improvement shall establish a model State substance abuse treatment plan to guide States in establishing State plans under subsection (a), and shall provide technical assistance to assist States in complying with such plan.

"(g) ADMINISTRATIVE COSTS.—Expenses incurred for the training of individuals as required under any plans submitted under this section shall not be included in determining the costs of administering funds made available under section 1914 with respect to alcohol and drug abuse.".

(b) STANDARDS.—The Secretary shall issue standards for plans under section 1916B of the Public Health Service Act (as added by subsection (a)) not later than 6 months following the date of enactment of this section.

(c) EFFECTIVE DATE.—Section 1916B of the Public Health Service Act (as added by subsection (a)) shall become effective on October 1 of the first fiscal year beginning after the date on which standards under subsection (b) are published in the Federal Register.

The SPEAKER pro tempore. Is a second demanded?

Mr. MADIGAN. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from California [Mr. WAXMAN] will be recognized for 20 minutes and the gentleman from Illinois [Mr. MADIGAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. WAXMAN].

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on H.R. 3630, the legislation under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to present to the House H.R. 3630, the Emergency Drug Abuse Treatment Expansion Act of 1989.

Today the House is considering the third major drug abuse bill in 4 years. It is doing so because of the importance that combating drug abuse is held by the Congress and the American people. It is doing so because the President has prepared his first national drug strategy and has requested enactment of legislation to facilitate the strategy's success.

However unlike previous drug bills, for the first time Congress is allocating significant new levels of Federal funding to curb the demand for drugs. Additional funds for drug treatment and prevention are long overdue.

The recently passed Department of Transportation appropriations bill for fiscal year 1990 provides an additional $700 million for drug and alcohol abuse prevention and treatment programs. Over half the increase—$415 million—is allocated for increases in the alcohol and drug abuse and mental health services block grant, boosting that program to approximately $1.2 billion. In addition, the DOT appropriations bill provided funding for a number of new categorical programs which the administration had proposed: $40 million to expand a categorical waiting list program; $30 million to provide crisis treatment grants to communities in need; $40 million in drug treatment improvement grants; and $40 million in drug treatment demonstration grants.

Several of these activities lack clear statutory authorization. Congressional action is required if they are to be properly administered. The authorization for these activities is provided by the bill.

Mr. Speaker, in preparing this legislation the committee was concerned that a $415 million increase in the ADM block grant in a single year is unmanageable. If the entire increase is allocated exclusively to the block grant, that program will exceed $1.2 billion and make it one of the largest programs within the Public Health Service.

Earlier this year the President submitted his proposed drug abuse budget. It was the President's considered judgment that States could only productively spread an increase of $165 million in fiscal year 1990. The funding levels contained in H.R. 3630 are consistent with the President's recommendations. Since States will be unable to properly expend more than $165 million in additional block grant funding next year, H.R. 3630 provides new authority to focus resources—through categorical grants—on some of the enormous problems which States have been unable or unwilling to properly address. Programs that would receive additional funding include:

First, $100 million in assistance to rural communities beset by drug abuse and requiring the startup or expansion of treatment services. This is a new program which will directly address for the first time the need to bring high quality drug treatment services to our Nation's rural communities;

Second, $75 million to initiate drug treatment services that are capable of treating the growing increase in the number of addicted mothers and their infants. The increasing number of addicted babies occupying our neonatal intensive care wards is clear evidence of our failure to put in place programs that can effectively treat pregnant addicts and insure the birth of drug-free babies.

Third, $50 million in assistance to primary health care providers to provide drug and alcohol assistance, such as community health centers, migrant health-care centers, and homeless health-care centers. Primary health-care providers are on the front lines of the drug abuse battlefield, particularly in the medically underserved areas of the inner city and rural community. Funds under this program would be equally divided between rural and urban areas.

Fourth, $25 million in additional funding for the highly successful waiting list program created in the 1988 drug bill. This program targets Federal funds at drug treatment programs with documented demand for treatment.

Tackling the drug abuse pandemic requires multiple solutions and strategies. It is abundantly clear from our hearings that the reason there are inadequate treatment services for pregnant women and in rural communities is because States have failed to view them as priority populations. The overwhelmingly majority of drug and alcohol treatment funds come from State and local sources. Historically, the Federal contribution represents a relatively small share of available funding. As such, Federal funding should be used to fill gaps in State programs rather than widen them. Providing States a 30-percent increase—$165 million in block grant support over fiscal year 1989—is a generous increase in what is increasingly a revenue sharing program. The committee does not believe that the States can use additional funds productively. In fact, such a large infusion of Federal funds—a 75-percent increase in a single year—may have the unintended effect of supplanting State raised revenues and making the drug treatment problem only a Federal effort.

In addition, the legislation establishes an Office for Treatment Improvement within ADAMHA modeled after the highly successful Office for Substance Abuse Prevention. Establishment of the new Office has already been proposed by the Department and will be given authority to administer the new drug treatment categorical programs proposed by the administration and proposed in this legislation.

Finally, the legislation gives a long overdue boost to efforts establishing a genuine national model drug abuse treatment system within the Nation's Capital and the surrounding communities of Virginia and Maryland. Despite the expenditure of billions during the 1980's to combat drug abuse, little has been done to develop a comprehensive regional approach to the provision of effective and accessible treatment services. There has been much talk and promises. Plans have been written, but until now, the money for such a bold initiative hasn't been available. Section 202 of the bill requires that the Director of the new Office for Treatment Improvement develop a model treatment system in the National Capital Area. The information gleaned from such a project will have direct relevance to the provision of high quality, accessible services in communities across the Nation.

I urge support for the legislation and reserve the balance of my time.

Mr. Speaker, I reserve the balance of my time.

Mr. MADIGAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as we are all made aware every night watching the news, the drug problem is rapidly getting worse. Drug-related crime is at alarmingly high rates, especially here in the streets of the District of Columbia. Drug use is destroying the fabric of many of our Nation's families and turning many neighborhoods into war zones. And, tragically, as many as 200,000 babies are born each year to mothers who use drugs. Today's drugs are potent, cheap, and available to almost anyone who wants them.

On September 5, President Bush introduced a national drug control strategy. In terms of treatment, the strategy calls for increasing the number of treatment slots, improving the effectiveness of treatment by holding programs accountable, and finding ways to get more drug-dependent individuals into treatment. This legislation helps achieve these goals.

I am supporting this legislation so that the President's drug strategy in the treatment area can move forward in an expeditious manner.

However, I and my fellow Republicans have some concerns with certain aspects of the legislation. We strongly disagree with taking money from the block grant and allocating it to categorical grants. Let me add that our position is strongly endorsed by the National Governors' Association.

Shifting some $250 million from the alcohol and drug abuse block grant to discretionary categorical programs reduces the flexibility of States to address the needs of their population. It would circumvent the State planning process, prevent States from prioritizing their own needs, and lead to a loss of State oversight and accountability. It takes the initiative away from local people who have the best grasp of their local environment and shifts it to Federal bureaucrats.

On the other hand, the block grant ensures that the citizens of all States will benefit from new resources, rather than allowing categorical grants to favor particular States who have the needed sophistication in grant writing. For example, in one of the new categorical grant programs Congress created in the 1988 Anti-Drug Abuse Act, approximately 50 percent of the moneys went to just three States—California, New York, and Florida. And, 34 States received no money whatsoever. Moreover, the consideration of grant proposals and announcements of awards under this program took a full fiscal year. In contrast, the block grant program provides immediate money to all States through a well established State network for prevention and treatment that can readily serve as the backbone in the uninterrupted delivery of well-planned, coordinated treatment services.

At full committee, I offered an amendment whose purpose was to shift the categorical moneys back into the block. This amendment received

the full support of Republican members of the committee and picked up the support of three Democratic members. It failed by just two votes. At conference, we intend to work with our colleagues from the Senate to correct this deficiency in the legislation.

Mr. Speaker, despite these reservations, we support this bill. If our treatment system is to do the job required of it, the system must be expanded and improved. This legislation will help get more drug-dependent people into treatment programs and therefore requires the bipartisan cooperation of all Members of Congress.

□ 1550

Mr. WAXMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of our time.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. COUGHLIN].

Mr. COUGHLIN. Mr. Speaker, this is the fourth bill that we will consider today that is part of the President's drug-control strategy, and I want to commend the very distinguished chairman, the gentleman from California [Mr. WAXMAN], and the gentleman from Illinois [Mr. MADIGAN], my friend and colleague, for bringing this bill to the floor today.

Mr. Speaker, this is important legislation. It is legislation that I hope that we can complete before this Congress adjourns, this session of Congress adjourns.

This legislation, there are parts of it that are part of the President's drug-control strategy which was passed by the Senate by a vote of 97 to 2 on September 27. It was a subject of a motion to instruct that passed this House on October 11 by a vote of 402 to 15. It was also the subject of a letter from the Speaker and the majority leader dated October 20 promising expeditious consideration of this legislation, and I am pleased that the committee has acted to expeditiously bring this legislation before us, and I hope that we can complete enactment of the legislation before Congress adjourns.

Mr. Speaker, this legislation does, as I said, implement the President's legislative package for the national drug control strategy, it considers the increased appropriation of over $700 million for drug and alcohol abuse prevention and treatment contained in the Department of Transportation appropriation bill originally, and it considers the Senate passed S. 1735, which establishes new categorical programs for pregnant addicts and makes changes in the funding for the ADM block grant.

Now, Mr. Speaker, I would have preferred if this bill had not gotten into the thicket of revising the formulas for the funding formulas for ADM block grants. I am afraid that might bog us down and not enable us to finish the legislation this fall. I would have also preferred to have seen the legislation simply provide for grants to the States instead of the categorical programs that are here. Although some believe we need categorical programs because the States are not serving pregnant women or the homeless or those waiting for treatment, and I know that Pennsylvania, for one, has developed a statewide strategy to combat drug abuse on all fronts and has taken the lead in the categorical grant areas we are addressing in this legislation. For example, Pennsylvania currently uses both ADM block grant funds and State funds to develop programs for pregnant women and to address the waiting list situation.

I am glad, however, this legislation has come to fruition. I hope that we can resolve the differences between the House and the Senate on these questions and that we can promptly proceed to resolve these differences and to pass the legislation because it is very much needed legislation.

Mr. MADIGAN. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I am pleased to rise in strong support of this measure. Treatment and rehabilitation is an area that is very urgently needed. We need to expand programs, we need to find better ways of treating and rehabilitating, and we certainly need the funding to do it.

For that reason, Mr. Speaker, I am pleased to support the measure.

Mr. MADIGAN. Mr. Speaker, one of the most important tools for making the treatment of drug addicts and alcoholics successful can be and is the self-run, self-supported recovery house. In the last Congress, we included a provision that required each State to set up a revolving fund to provide loans to start houses based on the very successful Oxford House model. Yesterday in the Washington Post Magazine, Peter Carlson wrote an excellent article on the Oxford House experience.

Mr. Speaker, I ask unanimous consent that the text of that article be printed in the RECORD immediately following my remarks.

The SPEAKER pro tempore (Mr. MCDERMOTT). Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. MADIGAN. Mr. Speaker, since the passage of the Anti-Drug Abuse Act of 1988, Oxford House has done a remarkable job in helping to educate State and Federal officials about the self-run, self-supported Oxford Houses. They have visited 31 States to present technical assistance workshops. They conducted a 2-day national conference in August which was attended by representatives of 45 States. They have increased the number of Oxford Houses from 18 to 54—primarily using their own resources. In addition, they have organized a national network of houses and a national loan collection and data collection service that will facilitate mass replication of these cost-effective self-help houses within the next few months.

As I told this body last year, the Oxford House concept offers a way to prevent relapse by individuals trying to recover from alcoholism and drug addiction. More than 80 percent of the individuals who are accepted into an Oxford House do not use alcohol or drugs again. It is easy to understand why Oxford House works. They are democratically run, self-supporting, and they expel any individual who returns to using alcohol or drugs.

The Oxford Houses are rented in good neighborhoods, and the 15-year experience of the movement shows the power of self-help. I have included an amendment in this bill which requires the Secretary to put an emphasis on the development of this cost-effective tool for combating alcoholism and drug addiction. Not only should the Secretary make certain that the Oxford House National Organization has sufficient resources to expand and provide quality control for the expansion, but he should also enlist the support of other Federal agencies such as VA, the Department of Justice, and the Department of Labor. Each of those agencies has treatment programs which could achieve better results if more Oxford Houses were available to provide an alcohol- and drug-free, supportive living environment for recovering alcoholics and drug addicts after the completion of their formal treatment. I am convinced that the mass replication of Oxford Houses will greatly reduce the revolving door problem that affects many treatment programs.

The article follows:

THE OXFORD HOUSE EXPERIMENT

(By Peter Carlson)

Roommates wanted: To live in group house in good neighborhood. Must be recovering addicts or alcoholics willing to work hard, pay their own way—and help each other stay clean.

Paul Molloy invaded New Jersey in the cheapest rented car he could find, a beat-up Ford with no side-view mirror and a steering wheel that emitted ominous sounds whenever he turned it. He brought along piles of pamphlets, a videotape, a portable computer, an overhead projector, a cellular car phone as big as a shoe box, three recovering drug addicts and his financial adviser, a very respectable middle-aged businessman who jokes that trying to manage the paltry finances of Molloy's organizations, Oxford House, Inc., may yet drive him to drugs.

They got lost a few times in the streets around Princeton, but that didn't bother Molloy. He just kept puffing on his pipe and grinning impishly. He figures getting lost is

just another opportunity to cruise side streets looking for houses he can rent and fill up with recovering drunks and drug addicts.

Paul Molloy—former associate Republican counsel to the House Energy and Commerce Committee, former Republican counsel to the Senate Commerce Committee, former corporate attorney, former drinker of two-fifths of Canadian Club a day, former wife-beater, former mental patient, former street drunk—is now, at 51, a man driven by a grand vision: He wants to see thousands of self-supporting, self-governed homes for recovering alcoholics and addicts operating all over America.

And he's well on his way to realizing that grand vision.

Since 1975—when Molloy and a dozen other recovering drunks took over a halfway house that Montgomery County was closing for lack of money—he's helped set up 28 "Oxford Houses" in the Washington area and another 10 scattered around more distant parts of Maryland, Pennsylvania, Missouri, Vermont and Massachusetts. Not only that, but he also used his Capitol Hill connections to convince Congress to pass a law requiring every state to set up a $100,000 revolving fund to lend money to groups of recovering addicts so they can set up similar houses.

Now faced with a cutoff of federal Alcohol, Drug Abuse and Mental Health Administration block grants if they don't set up the funds, the states are deluging the Oxford House office—which is located in Molloy's basement in Silver Spring—with demands that he come and teach them how to do it. Which is why Molloy and his team invaded New Jersey on this sunny September morning.

They drove to Trenton, bounded past the bored cop sitting at the front door of a decrepit old government building and started transforming a dreary conference room into the stage for what Molloy calls his "dog and pony show." They set up their computer and their overhead projector, popped the Oxford House videotape into a VCR and sat waiting for antidrug bureaucrats to drift in from around the state. Igniting his ever-present pipe and smiling contentedly, Molloy looked confident. And why not? He'd come to deliver a message far more optimistic than most dispathes from the front lines of the war on drugs:

"I guarantee you it will work, and it will cost you nothing," he said. "The houses work in each and every case if you put them in good neighborhoods and throw out anybody who relapses."

Herbert sits on the edge of the couch and makes a confession: "Guys, I'm really sorry to tell you this, but this weekend I relapsed."

He tells the story: He was on his way to a Narcotics Anonymous meeting when he passed the parking lot on 16th Street NW where he used to cop his crack. "And I saw the guy I used to buy from and so on and so on. . . ."

He doesn't need to supply all the gory details. The other eight residents of the Oxford House on Garrison Street in Chevy Chase, D.C., are all recovering addicts too. They're sitting in their living room, which looks like something in a frat house. On the bulletin board is a photograph of some cheerfully obscene graffiti, and in the corner is Fred the Pig, a porcine statue wearing a baseball cap, a sword and a dungaree jacket with a Jesse Jackson button. This kind of interior decorating causes residents of some of the more staid Oxford Houses refer to the one on Garrison Street as "Animal House." That suits these guys just fine. They think the Oxford Houses with air conditioning and spotless wall-to-wall carpeting are a tad too uptight for their taste anyway. Every Oxford House is autonomous, and each takes on its own style. But they all have one thing in common: They evict anybody who drinks or uses drugs. Which is why Herbert knows he's got to leave tonight.

"So what's your plan?" somebody asks him.

Herbert says he's going to live with a relative for a few days. After that, he figures, he'll end up in a shelter. "If I stayed here over the weekend, it would never have happened, man," he says. "Now more than ever, I understand the importance of Oxford House."

"Don't beat yourself up, man," Big Mike tells him. "It doesn't help."

What will help, says John, is going to NA meetings every day and avoiding anybody still doing dope.

"You can stop by any time," Chris says. "And I really want to see you reapply."

"I really want to reapply," Herbert says. He gets up to go, and Big Mike gives him a hug. "I love you, man," he says. One by one, the other guys hug Herbert and wish him luck.

Walking out the door, Herbert passes a guy who just got out of a rehab program and heard that there's a vacancy in the house. Two other applicants are already waiting in the basement to be interviewed.

Pacing in a semicircle a cord's length from the telephone in the Oxford House office, Paul Molloy was talking to a reporter who had called from Burlington, Vt., where two Oxford Houses had just opened. The reporter was learning that you don't interview Molloy, you just sit back and let him roll. Molloy was rolling into one of his favorite stories: how he wrote the law that set up Amtrak while chasing shots of Canadian Club with bottles of Budweiser in the old Carroll Arms bar on Capitol Hill.

"I wrote everything on these napkins, and my secretary would bring them back to the Senate Office Building and type 'em up. And the sweat off the Budweiser bottles caused some inkblots on those napkins. And I'm sure it's in those inkblots that were the words that would have made Amtrak profitable." He burst out laughing. "But that's what you get when you have a drunk writing laws."

Back then, in the late '60s, Molloy was, he told the reporter, a "yuppie of my day." He was an attorney for the Senate Commerce Committee, and his wife, Jane, whom he'd met while on the University of Vermont debating team in the late '50s, was an attorney for an anti-poverty program. They were living in Silver Spring, raising five kids and trying to hide the fact that Molloy's drinking was out of control. At work, he got in trouble for insulting important pols. At home, he beat Jane. It went on like that for years until the end of 1973, when he overturned the Christmas tree in a drunken rage and then went through the family record collection, sorting out Jane's albums and smashing them. At that point, she had him committed to the psych ward of Holy Cross Hospital and filed for divorce.

After seven months in two hospitals that he likes to call "nut houses," Molloy was released. He ended up living in a seedy hotel in Washington and drinking like a man determined to drown himself. One night, he staggered out of a bar on Pennsylvania Avenue at closing time, seething with hatred for his wife and his life. He pulled his wedding ring off his finger and flung it into the night. Then, seized with contrition, he crawled around the gutters searching in vain for it.

"I'd ended up about as low as a Republican counsel to a Senate committee can end up," he said.

After a couple of months on the street, Molloy entered a halfway house for alcoholics on Fiddler Lane in downtown Silver Spring. Finally, he'd admitted to himself that he was an alcoholic, that he couldn't beat the bottle by himself. He started attending Alcoholic Anonymous meetings and putting his life back together. He even managed to land a job as a lawyer for the House Energy and Commerce Committee. But he still wasn't secure in his sobriety. You could only stay in the halfway house for six months. Molloy had watched a dozen men leave when their time was up, and he'd seen 11 of them back on the booze within 30 days. He figured it could happen to him too.

And then the house manager announced that Montgomery County was going to close the place for lack of money. That news scared the hell out of Molloy and the other five men living in the house.

How could they do this to us? Molloy and the others complained at AA meetings. Here we are, trying to change our lives, and the heartless bureaucrats are throwing us out into the street. How can they do this?

Self-pity is not a quality tolerated for long at AA meetings, and pretty soon somebody asked, Why don't you stop whining and rent it yourself?

But we don't have any money.

I'll loan you the money for the first month's rent, said one AA member.

But how are we going to pay a house manager and a cook?

Why don't you do it yourselves?

The thought had never occurred to them. But what choice did they have? So the original half-dozen residents recruited seven more recovering drunks and rented the house. Determined to run the place democratically, they elected officers and divided up the chores and the expenses. They voted to repeal the six-month time limit and abolish curfews and other petty rules from the old regime, replacing them with two simple laws: You can't drink or take drugs, and you have to work and pay rent. And they named the place Oxford House, a tribute to the Oxford Group, a religious organization that influenced the founders of AA.

"We were a little afraid," says John O'Neill, a freelance writer who was the first president of that first Oxford House. "We didn't know if we could act responsibly, which shows how low our self-esteem was. We agreed to kick out anybody who drank or used drugs, but we didn't know if we could do it. The inclination is to give 'em another chance. But we did it. The first guy who drank, we put him out, bag and baggage. And that set the precedent."

As that first Oxford House struggled to survive, unseen enemies were trying to destroy it. "People working directly for the alcoholism programs were making anonymous phone calls, sending in the fire marshals and the environmental protection people," recalls Riley Regan, director of New Jersey's Division of Alcoholism, who was then Montgomery County's alcoholism director. "They were motivated by a concern that 'My God, this might be able to work without our brilliance,' and they were beating up

on me regularly, saying, 'You gotta kick these guys out of there.' "

The harassment only served to psyche up the residents. "We had a chip on our shoulders because the professionals in Montgomery County said it wouldn't work," O'Neill says. "We really wanted to make it work just to demonstrate that we could." They painted the place, put up curtains and asked Regan to pay a visit. He did, and he found that the place was clean and the people were sober. "I told the staff that we should leave them alone," he recalls, "and they just might get some drunks sobered up."

After six months of operation, the Oxford House had a surplus of $1,200 in its treasury, and President O'Neill asked the members to decide what they should do with it. Buy a color TV? A stereo? Pay less rent? Instead, the residents voted to use the money to rent a second house. "We had something good, and we wanted to duplicate it," O'Neill recalls. "The impetus for expansion was the telephone: It would ring again and again. We had a safe place to live, and others wanted to get in. But there was no room at the inn. And so the idea was to do it again."

Perusing the paper, O'Neill spotted an ad for a house at 41st and Fessenden. He circled it, tossed the paper to Molloy and said, "Let's go."

That was in May 1976. They rented the place, seeded it with a few guys from the first house and recruited new residents at AA meetings. The second Oxford House worked as well as the first, and soon, fueled by a messianic fervor, they opened a third, a fourth, a fifth. By the end of 1977, 11 Oxford Houses were operating in Washington and Montgomery County. Some houses held men, some women. The only attempt at a coed house collapsed: One of the men began dating several of the women, and soon nearly everybody was tumbling off the wagon. But that was the sole failure. The other houses quickly became self-governing and self-supporting.

"We knew real fast that we had something good, and we knew it was replicable because we'd done it," O'Neill recalls. "A year earlier, nobody would listen to me because I was a babbling drunk. Suddenly I was leasing houses, taking people in, leading meetings, participating in the management of the house. So it was a heady time."

For Paul Molloy, the Capitol Hill veteran, it was a lesson in democracy. Residents of the first Oxford House had accepted self-government only because they had no other choice. But they quickly came to believe that it was self-government that made the houses work. "There's something about peer pressure that works better than rules and regulations," Molloy says.

Then, unable to resist turning a serious idea into a laugh line, he adds, "You've got to let the inmates run the asylum."

In the living room of the Garrison Street Oxford House, the residents are interviewing the first applicant for Herbert's place. Other candidates are down in the basement, waiting their turn.

The rent, John explains, is $265 a month, plus a $100 security deposit. Then he asks the standard opening question: Why do you want to live in an Oxford House?

"A drug-free, alcohol-free community is what I need," says the applicant, who washed out of the military on a sea of booze and drugs. Now he's in a 30-day rehabilitation program at the Psychiatric Institute of Washington, but his 30 days are almost up. "I get out Sunday," he says, "and I'm trembling a bit."

Where will you live if you don't get in here? somebody asks.

"With my mother," he says. Unfortunately, she lives in a drug-infested neighborhood in Anacostia. "I just hope I can convince you guys this is the place for me."

There's a knock at the door. It's another applicant, this one accompanied by his mother. They too are led downstairs to wait.

The second candidate is a blond Southern Californian who looks like he rode in on a surfboard. He just got out of a 30-day rehab, and he's staying with his uncle. "I need to live with sober people," he says.

He doesn't know much about Oxford House, so Gary explains: "The house is run democratically. If you get in, you'll have one-ninth say in what goes on here, and you'll have one-ninth of the responsibility . . ."

"If you don't get in, keep plugging away," John says. "It's the best thing that ever happened to me. By far."

The third candidate is a middle-aged alcoholic railroad worker who just got out of rehab yesterday. He was living with a woman, but he doesn't want to go back to her. "All my friends are alcoholics or drug addicts. I love 'em, but I don't want to go that way."

Do you have any problems with living in a group house? somebody asks.

He shakes his head no. "I can get along with anybody."

"You gotta be involved with it," Gary says. "You hang with us, you go to meetings with us. You'll find it's better for your recovery. This room has had different faces in it, and the ones who stuck are the ones who got involved. If there's anything that's gonna pull you away, tell us now . . ."

In 1977, after 2½ years in Oxford Houses, Paul Molloy moved out. So did John O'Neill and most of the other founding members. They still loved the organization—it saved their lives, they eagerly admit—but they needed to move on. "We reached a point," Molloy says, "where we just didn't want to be bothered."

For the next decade, Molloy didn't have much to do with Oxford House. He was putting his own life back together. In 1981, he left the House Energy and Commerce Committee for a lucrative post with Isham, Lincoln and Beale, which was, until it dissolved in 1988, one of the country's oldest law firms. And he began the slow, painful process of working his way back into the family that his drinking had nearly destroyed. For years, there were two separate families—Paul and the kids, and Jane and the kids—with separate vacations and separate holidays. But by the mid-'80s, tensions had cooled enough to permit a Christmas truce, and the whole family celebrated the holiday together. Soon Paul and Jane started dating. In 1987, Jane and the kids moved into Paul's house in Silver Spring—and Jane rented her place in Kemp Mill to a group of women who wanted to start an Oxford House.

Then, on June 18, 1988, 13 years after their divorce, the Molloys remarried, and Jane presented Paul with a new wedding ring to replace the one he'd hurled into the darkness over Pennsylvania Avenue in drunken despair years earlier.

As he repaired his own life, Molloy daydreamed about working for Oxford House again, injecting some new energy into the organization. Not that it was failing. It wasn't. In the previous decade, the profile of the average Oxford House resident had changed—now 60 percent were addicted to drugs other than alcohol—but the concept continued to work. Impressed, local rehabilitation programs were routinely encouraging their patients to apply at Oxford Houses. "They're very supportive environments for people coming out of treatment programs," says Joe Marmo, director of the Adult Drug Abstinence Program at the Psychiatric Institute of Washington. "It's a wonderful support system." Meanwhile, Oxford Houses were earning a good reputation among landlords, a group not known for fondness for drunks and addicts. "They're beautiful tenants," says Colette McDonald, co-owner of a development company that rents one Silver Spring home to an Oxford group and volunteered to rent two Baltimore properties to Oxford House. "We'll rent them as many as we can because it's a good cause, and they're good people and good tenants. They all get jobs and they all pay their rent."

Deep in his Republican soul, Paul Molloy was proud of that reaction—here, by God, were some people who didn't want government handouts—but he also believed that the country needed Oxford Houses and that Oxford House needed money to expand. So he sat down with Madigan and several House Staffers and came up with a compromise: a mandatory $100,000 fund in each state to provide loans to start "self-run and self-supported recovery housing throughout the country."

"We believe we have discovered a cost-effective program that has had great success in reducing relapse," Madigan told his congressional colleagues.

And in the fall of 1988, Paul Molloy's grand vision became the law of the land.

When Tim Mailly read that new law, he groaned.

"Who dreamed this up?" he thought. A $100,000 fund to provide loans of up to $4,000 for recovering alcoholics and drug addicts to rent houses? And run them without supervision? "They're crazy!"

Mailly, business manager of the Vermont Office of Alcohol and Drug Abuse, had reason to be skeptical. He'd run halfway houses for addicts, and they'd never worked very well. The residents avoided employment as long as possible, and then when they finally got a job and were asked to contribute to the support of the house, they usually moved out. A self-described cynic, Mailly couldn't imagine recovering addicts running their own houses.

"My reaction was, 'I'll set the fund up, and I'll just leave it there and never do anything with it.' That was my original intention."

Then he read some Oxford House literature, and he was impressed: The houses had been working for almost 15 years. So he called Paul Molloy. "Jeez, he can talk," Mailly says laughing. "He's really proud of his program, and he's out selling it. Paul's a salesman."

A good one, apparently. Last spring, the state of Vermont hired Oxford House to send up some organizers to help set up four houses. The cost to the state $35,000. "In this day and age, that's a steal," Mailly says.

On June 1, two Oxford House residents—Steve Polin, 37, a former Justice Department paralegal and a recovering cocaine addict, and Jack Strong, 72, a retired Air Force colonel and recovering alcoholic—arrived in Vermont. The first thing they did was drive to East Dorset to make a pilgrimage to the grave of Bill Wilson, the founder of AA. Then they started searching for houses and for recovering addicts to fill

them. Within two weeks, they had a men's house going in Burlington. A month later, a women's house opened in Colchester. A third house is due to open this month.

So why should these houses exist only in the Washington area? Paul Molloy asked himself. There ought to be Oxford Houses all over the country. John O'Neill agreed. After working at a big Washington public relations firm for several years, O'Neill had quit the rat race in 1984, built himself a cabin in California and started thinking about what really mattered in his life. His answer was Oxford House. So he moved back to Washington and started talking to Molloy about expanding the organization.

Their first opportunity came by pure chance.

Molloy was walking down Connecticut Avenue one summer day in 1987 when he happened to meet Fred Rooney, a former Democratic congressman from Pennsylvania.

Are you still dealing with those drunk houses? Rooney asked.

Molloy said he was.

Rooney, now a Washington consultant, said he wanted to sell his house in Bethlehem, Pa. Would Oxford House buy it?

Oxford House doesn't buy property, Molloy said, But we'd love to rent it.

Within a few months, Rooney's house had become an Oxford House, the first one outside the Washington area. It thrived and soon spawned a second house in Bethlehem. Molloy was thrilled. It proved that the concept would work outside Washington. Rooney was thrilled too. Like many Washington landlords, he'd worried how the neighbors would react to the house, and, also like the Washington landlords, he found there was no problem. "There are no complaints from the neighbors," he says. "Everybody loves them. It's a fantastic house."

Soon Rooney was avidly touting Oxford House to his old friends in Congress. So, of course, was Paul Molloy. In 1988, when the House was drafting an anti-drug bill, Molloy and his old friend Rep. Edward Madigan (R-Ill.) talked about adding a provision to use some federal grant money to help start new Oxford Houses around the country.

Eagerly, Molloy brought the issue to the Oxford House board, which is composed of the president of each house. They hated the idea. Government money means government control, they said, which means rules and regulations and bureaucrats to please. That'll be the end of self-support and self-governance. Besides, everything the government touches turns to . . .

Ian McDonald, then the director of the White House Drug Abuse Policy Office, heard the same sentiments when he visited the Oxford House on Northampton Street: "They expressed hostility about what the government would do to this program, which was working."

Watching that process, Tim Mailly started shedding some of his cynicism. "Before you knew it, [the residents] were all working," he says. "They feel like they're involved in it, that they have some stake and that they can stay as long as they want. And that's important."

While Polin and Strong were setting up houses in Vermont, John O'Neill and Nkosi Jackson, a resident of an Adams-Morgan Oxford House, were helping to start two houses—one male and one female—in Kansas City, Mo.

"They're doing well," says Lois Olson, director of the Missouri Division of Alcohol and Drug Abuse, which oversees the program. Still, she has worries about Oxford House. "It's a great concept," she says, but she fears that government money might ruin it. "Bureaucrats can get hold of things and put all kinds of regulations and provisos on them and end up killing a good thing."

That's a fear frequently voiced by those watching Oxford House expand, and it's not an unreasonable one. After all, the first Oxford House succeeded in spite of government, not because of it. The first month's rent was lent by a friend from AA, not by a faceless government bureaucracy. "Instead of one group of alcoholics helping another, now the state is helping them," says Paul Behnke, director of Arkansas' drug abuse programs. "All of a sudden Oxford House is getting a lot of money in grants to help them get these houses going. It's no longer one person helping another."

Paul Molloy laughs at such talk. A lot of money in grants? Oxford House is so broke that he has received only one month's pay in the last half-year. In fact, his wife has taken to posting the kids' college tuition bills on the refrigerator as a subtle reminder of financial realities.

Molloy understands the concerns about bureaucracy, but he believes it's a necessary evil. "You've got to be pragmatic. You can't expand unless you're highly organized. There's no way you can take this model and replicate it on a mass basis without a high degree of organization."

Besides, he says, the central office is designed to wither away within three years. "Our goal is to get rid of us. We're not needed. It will take three years to create several thousand houses, and then it's up to the houses themselves to decide what kind of central operation they want. I know that my own involvement will stop on July 1, 1992."

On that day, Molloy swears, he'll quit Oxford House cold turkey and find some other kind of work. Preferably work that provides a paycheck more than once every six months.

At the weekly meeting of the Garrison Street Oxford House, the issue is Tim. He hasn't been around the house much, he's been avoiding NA meetings, and he's seeing an old girlfriend who's still doing hard drugs.

"You're at a turning point," John says. "I've been there myself and by the grace of God I made it. People have made suggestions to you, and you've chosen not to take them. We have to deal with the disruption that has caused . . ."

"You're totally obsessed with her, it's like a drug," says Little Mike, who is Tim's roommate. "You're inching closer to the line, and one of these days you're going to step over, and you're gone . . ."

"Were you high last night?" Paul asks.

"I haven't been high, I haven't used," Tim says. His voice is heavy with emotion. "I was depressed. I've been depressed."

"I love you, man," Rick says, "and it really hurts to see your life go down the drain. All it takes is one wrong move."

"I tried, I tried," Tim says. His voice breaks and he begins to sob. "I got hung up on her. It's just like everybody says. I gotta drop her off and get back into the program."

Gary suggests a solution: If Tim attends an NA meeting with somebody from the house every day for the next three months, he can stay. If not, he'll be thrown out.

"I'd be more than happy to," Tim says.

With that settled, Little Mike brings up the next item on the agenda: "Who's gonna cut the grass?"

At his "dog and pony show" in Trenton, Paul Molloy told the Oxford House story—and his own—complete with dramatic flourishes and comic relief. He even managed to work in the anecdote about the Amtrak bill and the inkblots on the napkins. And his joke about how the residents of the first house had planned to call it "Sobriety Haven in Town" until they realized what the acronym would spell. When he finished, he introduced the three Oxford House veterans he'd brought along.

"My name is John, and I'm a recovering addict," said John Seeland, 33, who had a good job selling computers before cocaine and booze caught up with him. He'd kicked the habit a few times, but he always went back to it until he moved into the Garrison Street Oxford House three years ago. "The guys there cared about me, and they took me around to meetings and introduced me to their friends. That's when my recovery began. After three years, I've slowly progressed to the point where I'm helping the new guys who come in now. And they still help me, mainly just by reminding me how crazy you are when you first come in."

"I never learned to work clean and sober before," said Steve Polin, who moved into an Oxford House three years ago after doing 22 months in a federal prison on cocaine charges. "Oxford House taught me how to learn to do that."

"I couldn't have stayed straight if it wasn't for that house," said Susan DiGiovanni, 29, a recovering Dilaudid addict who is so excited about Oxford House that she has helped to start six of them. "Those girls helped me and showed me the way, and took me to meetings when I didn't want to go, and guided me and loved me. It's not an institution, it's a family."

"I feel like I'm at a revival meeting," joked Riley Regan, the New Jersey official who had convened the gathering. But Regan, who had, in his days as a Montgomery County official, watched the birth pains of the first Oxford House, couldn't resist doing a bit of testifying himself. "It works," he said, "and I just hope the various bureaucracies don't find ways of putting up barriers to stop this." He also announced that he planned to use New Jersey's $100,000 loan fund to start at least one Oxford House in each of the state's 21 counties.

Charles van der Burgh had an even grander goal in mind. Van der Burgh, 48, Oxford House's money man and technological wizard, used a computer, an overhead projector and a dozen charts and graphs to demonstrate how the state's revolving fund could produce 100 Oxford Houses in 50 months—if all the houses made their monthly loan payments on time.

It was a complicated presentation, and Molloy couldn't resist translating it into a one-liner. "It's a variation of the Ponzi scheme," he said.

There was just one voice of dissent. "The concept bothers me a little bit," said a man who runs a referral service for drug treatment centers. He couldn't believe that recovering addicts with only six months or a year of clean time were ready to help people getting out of 30-day rehabs. "There's not much clean time there," he said. "There isn't anything to go on."

"The fears I hear you expressing," said Steve Polin, "are typical of the halfway house community: How does this thing work

if there's nobody there to police these people? One of the reasons Oxford House works is precisely because there are no authority figures there. There's nobody to blame for your problems. It's peer pressure. The authority comes from the group and from what you want to do for your sobriety."

Watching this debate, Paul Molloy puffed his pipe and smiled. "It's a difficult concept to explain," he said, "but once you get it working, you'll have your own experience and your own group of experts, and you'll see that it will spread very quickly."

A couple of hours later, he was back in that rattletrap rented Ford, heading for Wilmington, Del., to see a man who might know about some houses he could rent.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield?

Mr. MADIGAN. I yield such time as he may consume to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, I yield the time just yielded to me to the gentleman from Ohio [Mr. ECKART] who played an important role in the development of this legislation.

Mr. ECKART. Mr. Speaker, the crisis for which we are here today on the floor involving its demonstration in our communities in the form of drug abuse and substance abuse obviously needs the full attention of this Nation and the Congress. There are a few people for whom they do not have any choice as to whether or not to address it however. Among those are prehospital emergency medical personnel who find themselves, like many in the counseling community and the medical community, on the front line of this war. Provisions in this legislation, which the gentleman from Illinois [Mr. MADIGAN] and the gentleman from California [Mr. WAXMAN] have so graciously consented to include, provide for an appropriate training regimen for prehospital emergency medical professionals to obtain the kind of training and curriculum that will help them to come to grips with this powerful new force in our community. We have discovered in several new major communities across this Nation a new phenomenon, and that is physical abuse of emergency medical personnel when they come to try to assist an individual who is involved in drugs or substance abuse. The provisions of this legislation go a long way toward helping these front-line emergency medical professionals deal with this new crisis in a meaningful and responsible new way, and I am grateful for this assistance to these individuals.

Mr. MILLER of California. Mr. Speaker, I rise in support of the Emergency Drug Abuse Treatment Expansion Act of 1989, particularly its provision for model projects for reducing incidence of alcohol and drug abuse among pregnant and postpartum women and their infants.

This legislation responds to the desperate lack of available drug treatment to all who seek it. In particular, the bill expands treatment opportunities for pregnant and postpartum women, for whom the shortage of treatment programs is exceptionally severe. In fact, the majority of pregnant women who seek drug treatment cannot obtain it—either because of long waiting lists or hesitation by the provider to treat pregnant women.

Beyond increasing treatment opportunities, the bill attempts to remove the external barriers which deny pregnant and postpartum women and their children services. To do so, the legislation promotes a case management system in which the providers help women and their children fight their way through the complicated process of obtaining services. Not only must the providers offer drug treatment, and medical and social services, but they must also help coordinate services beyond the program by determining the mother's eligibility for other Federal, State, or local services. Specifically, the bill requires that providers offer child care facilities, transportation, prenatal, and postpartum health care, pediatric care for the infants throughout the first year, and parenting education, to be eligible for the grant.

Behind today's legislation are endless stories of pregnant women who struggled to receive drug treatment but in the end could not. Each was ultimately thwarted by any of the mentioned barriers.

I am reminded of the story of a pregnant addict in California who had to travel 130 miles every day to a drug treatment program, which had no child care or even prenatal care. Although she was on welfare, she was forced to pay $200 a month for the care. Understandably, it grew more difficult to find rides every day, a babysitter for her other child, and the money for payments—so her visits grew erratic. Eventually, the treatment program released her, and there was no other program to take her. She returned to using drugs, and the baby was born drug exposed, although healthy. The district attorney criminally charged her for drug use.

This story flies in the face of common sense, common decency, and common fairness. Despite the recent trend to prosecute mothers for substance use during pregnancy, the real criminal is clearly a Nation that fails to provide these women treatment—particularly when they seek it.

The Nation is extremely concerned about the distressing increase in the number of children born exposed to drugs, as this bill reflects. Earlier this year, the Select Committee on Children, Youth and Families, which I chair, released a survey which found hospitals reporting three to four times the number of drug exposed births as in 1985, even with undercounting. Similarly, a recent National Association of Perinatal Research and Education [NAPARE] study estimated that as many as 375,000 drug-exposed infants will be born in 1989 alone.

Largely responsible for this increase is crack-cocaine—a drug so potent that one in six who are exposed to it become addicted. Since 1980 crack has in general become the drug of choice, with 55 to 90 percent of pregnant substance abusers reporting or testing positive for cocaine use, according to the Select Committee survey. In New York City, 1988 data shows that cocaine use among pregnant women is 20 times higher today than in 1980. This is crack at work.

The key to preventing drug-exposed births, as this bill suggests, is to attack the demand for this drug by providing treatment. However, our survey and hearing found a desperate lack of available treatment for pregnant women. Two-thirds of the hospitals surveyed reported that they had no place to send their pregnant substance abusers for treatment. Likewise, a study of treatment programs in New York found that 54 percent refused treatment to pregnant addicts, 67 percent would not treat pregnant addicts on Medicaid, and 87 percent denied treatment to pregnant addicts on Medicaid addicted to crack.

The Nation should be giving addicted mothers drug treatment not arrest warrants. According to experts in the field, fear of prosecution and of losing their babies to the State inhibits pregnant women from seeking drug treatment and, worse yet, prenatal care. It is the hope of this legislation that pregnant substance abusers will feel not only encouraged to seek treatment, but safe to do so.

The burden to provide care for these women does not rest solely on the Government. Community by community, the entire Nation must unite in the war against drugs and in caring for this population in need. The legislation today, through requiring programs to match Federal dollars, attempts to foster a sense of community responsibility for its citizens, which in the long run is how this war on drugs will be won.

I am pleased that Congress is acting to remedy the costly problem of lack of available drug treatment for pregnant and postpartum women and their children. The goal is treatment on demand, and its attainment is imperative. Our veritable future depends on it.

ADM BLOCK GRANT: MENTAL HEALTH PIECE

While I am pleased by the increased attention to and support of programs to prevent and treat substance abuse, I must express concern about continued underfunding of the mental health portion of the block grant. By authorizing $252,000,000 for fiscal year 1990—the same as last year—this bill continues an unacceptably low authorization level.

As the Select Committee has documented, as many as 9.5 million youth alone suffer from serious emotional problems; yet the majority (80 percent) receive either inappropriate treatment or none at all. Given recent upward trends in child abuse, homelessness, and drug abuse—coupled with cuts in basic programs for children and families over the past decade—there is little indication the need for mental health treatment (or prevention) efforts will decrease. Rather, our Nation faces a generation of youth at tremendous risk of developmental and psychological problems, which in turn threatens the very fabric of our society.

As an original sponsor of a 10 percent setaside for children's mental health services approved by Congress last year, I do not want to see the block grant further diminished. Instead, I encourage my colleagues to join me in seeking opportunities to increase the availability of community-based prevention and treatment services for those who suffer or are at risk for emotional problems.

Mr. GILMAN. Mr. Speaker, I am pleased to rise in support of H.R. 3630, the Emergency Drug Abuse Treatment Expansion Act of 1989, and I would like to commend the gentleman from Michigan [Mr. DINGELL] for his efforts on bringing this bill to the floor.

Mr. Speaker, H.R. 3630 expands funding in the area of drug abuse treatment, and I would like to especially support the language of H.R. 3630 which pertains to pregnant women.

The drug scourge in America has taken on a horrifying new aspect, as pregnant drug users are giving birth to drug addicted babies. These babies are innocent victims or our Nation's drug problem.

This bill increases the authorization for the demonstration program for pregnant women from $25 to $100 million in both fiscal years 1990 and 1991 and requires the development of treatment programs for pregnant women.

Mr. Speaker, our Nation's drug treatment and rehabilitation is not adequate. Rehabilitation experts have been reminding us that there is no sure treatment program for a crack addict. Our Nation cannot afford to turn a deaf ear to any drug abuser. This bill is a step in a positive direction, the direction of increased awareness and attention to the treatment and rehabilitation of drug abusers.

I urge my colleagues to join me in supporting this bill.

Mr. FAUNTROY. Mr. Speaker, I rise in support of H.R. 3630. The Emergency Drug Treatment Act of 1989 comes to us at a very opportune time. It addresses at the national level, the basic needs of a population group that is expanding day by day.

In particular, Mr. Speaker, H.R. 3630 calls for the establishment of National Capital Area Drug Abuse Treatment Program. It directs that $35 to $50 million be placed in reserve for the establishment of the program in the National Capital area. I applaud this effort and urge my colleagues on both sides of the aisle to vote for passage of H.R. 3630.

Mr. Speaker, no one here today is more concerned about the problem fo drug abuse and violence in the National Capital area than this gentleman. During the last 5 years I have chaired no less than 10 investigative oversight and legislative hearings on the subject of drug use, abuse, trafficking, education, and prevention. In the 99th, and again in the 100th Congress, I introduced legislation for the establishment of the Washington Metropolitan Area Drug Authority. Unfortunately, Mr. Speaker, these efforts were thwarted at every turn in action taken by the White House, the Justice Department and the minority members of the committee. And yet, I am ever hopeful that we will be able to bring about such a cooperative effort. Mr. Speaker, I am pleased the section defining the National Capital area was amended during full committee to reflect the language in the WMADA—Washington Metropolitan Area Drug Authority—bill. Also, Mr. Speaker, I want to express my gratitude to the Subcommittee on Health and the Environment for designating the Washington metropolitan area as the recipient of this special grant.

Mr. OXLEY. Mr. Speaker, I rise in reluctant support of H.R. 3630, the Emergency Drug Abuse Treatment Expansion Act of 1989. While this bill provides the necessary moneys for substance abuse treatment, it unfortunately redirects needed dollars in a way that may actually delay the delivery of that treatment.

I support the bill's provisions which require the States to have drug treatment plans which include availability and accountability for quality of treatment slots as a condition for Federal treatment funding. I also support the overall authorization levels called for in this bill, as it will give substance abuse treatment programs $965 million in fiscal year 1990 and $715 million in fiscal year 1991.

Unfortunately, I question the wisdom of taking $250 million out of the drug abuse block grants and placing it into categorical grants. Categorical grants severely limit the flexibility of States to spend treatment funds as they need. Categorical grants also prevent States from prioritizing their money and will undoubtedly lead to a loss of State oversight and accountability. Maybe most detrimental, however, is the fact that categorical grants will result in significant delays in getting the money out to the treatment facilities.

As a member of the Select Committee on Narcotics Abuse and Control, I have heard testimony repeatedly that States such as my State of Ohio, need treatment money and they need it now. We have also heard that States must have flexibility to meet local needs. Unfortunately, categorical grants will both delay funds and prevent the flexibility that States desperately need.

There are some good things about H.R. 3630. I am pleased that the bill recognizes that drug abuse problems are not solely located in the urban areas. Districts such as mine, which is predominately rural in nature, also have drug abuse problems. For this reason, I am pleased that H.R. 3630 extends certain programs for rural areas. I also am pleased to support efforts to ensure that States are doing all they can to deter pregnant women from using drugs.

In conclusion, Mr. Speaker, I believe H.R. 3630 is a good bill, but I hope the categorical grant section can be altered in conference so that the States have the flexibility and quick response time they need to put substance treatment funds to good use.

Mr. STARK, Mr. Speaker, the bill before us is a good first step in our efforts to fight an effective, constructive war on drugs. I happen to have strongly agreed with President Bush's State of the Union address, when he stated, "we will never win the war on drugs unless we stop demand for drugs." There is now a bipartisan consensus that the demand-side of the equation offers most promising, successful aspects of our drug war.

Currently, the administration admits that only one in seven addicts who seek to pay for available, affordable substance abuse treatment is able to receive help. In plain numbers: there are 5 million addicts in need of help; 1.5 million addicts will seek available, affordable treatment annually; yet, we have only 250,000 treatment slots available to help them.

Waiting lists for treatment are far too long—ranging from 1 month to 18 months. This is shameful, especially in light of data revealing that 10 percent of all cocaine users consume 50 percent of the total volume of this drug.

Every time an addict is turned away, we're asking for the number of felony crimes to increase. Every time a heroin addict is turned away, we're asking for the number of felony crimes to increase. Every time a heroin addict is turned away, we're asking for the spread of the AIDS in our heterosexual population to increase.

Yet, the disparity between States in the amount of spending for drug and alcohol treatment is disgraceful: Texas is dead last, spending $1.43 per person; Alaska spends the most, at over $50 per person. Access to drug and alcohol treatment should not depend on one's zip code.

The bill before us requires that a treatment on request program be developed, to be used as a model for every other community in the country.

This bill requires making some very important changes. It requires:

Quality standards for substance abuse treatment providers.

Requirements that addicts who complete treatment ought to stay drug free and participate in outpatient counseling.

A better system by which addicts are directed to the appropriate form of substance abuse treatment.

While H.R. 3630 answers many immediate concerns, the real challenge of funding true treatment on request in all communities and fighting a better war on drugs still must be addressed.

Mr. MADIGAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California [Mr. WAXMAN] that the House suspend the rules and pass the bill, H.R. 3630, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

□ 1600

AUTHORIZING FUNDS FOR CONSTRUCTION OF A MOUSE RESEARCH LABORATORY

Mr. WAXMAN. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1390) to authorize funds to be appropriated for the construction of a mouse research laboratory, and for other purposes, as amended.

The Clerk read as follows:

S. 1390

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AUTHORITY FOR CONTRACT FOR CONSTRUCTION OF BIOMEDICAL RESEARCH FACILITIES.

(a) IN GENERAL.—Of the aggregate amounts appropriated for fiscal years 1990 and 1991 to carry out the purposes of title IV of the Public Health Service Act through the National Institutes of Health, the Secretary of Health and Human Services, acting through the Director of the National Institutes of Health, may reserve not more than $25,000,000 for entering into a contract with

a public or nonprofit private entity for constructing facilities for the purpose of the development and breeding of specialized strains of mice (including inbred and mutant mice) for use in biomedical research.

(b) COMPETITIVE AWARD PROCESS.—The contract under subsection (a) may be awarded only on a competitive basis after review in accordance with section 4(a).

SEC. 2. TWENTY-YEAR OBLIGATION WITH RESPECT TO BREEDING OF SPECIALIZED MICE FOR BIOMEDICAL RESEARCH.

(a) IN GENERAL.—The Secretary may not enter into a contract under section 1 unless, subject to subsection (b), the applicant for the contract agrees that—

(1) throughout the 20-year period beginning 90-days after the date of the completion of the construction of facilities pursuant to the contract, the facilities will be utilized only for the purpose described in section 1(a);

(2) during such period, the applicant will, to the extent practicable, develop and breed such mice in numbers sufficient to assist in meeting the need for such mice in biomedical research conducted or supported by the Secretary; and

(3) during such period, the applicant will, upon the request of the Secretary, sell such mice to the Secretary for purposes of such research at a price reasonably related to the cost of the production of the mice.

(b) TRANSFER OF OBLIGATION.—

(1) IN GENERAL.—With respect to the obligation under subsection (a), the contractor under section 1 (and any transferee or purchaser under this subsection) may—

(A) transfer the obligation to a public or nonprofit private entity if the proposed transferee has entered into a contract with the Secretary to assume the obligation; and

(B) convey its interest in the facilities involved if the proposed purchaser of the interest is a public or nonprofit entity that has entered into a contract with the Secretary to assume the obligation.

(2) TRANSFER PRIOR TO COMPLETION OF CONSTRUCTION.—If, for purposes of paragraph (1), a transfer or conveyance is proposed to be made before the completion of the construction of facilities pursuant to section 1, the Secretary may not authorize the transfer or conveyance unless the agreement involved provides that the transferee or purchaser will assume all remaining responsibilities under any agreements made pursuant to this Act by the contractor under such section and the Federal Government.

(3) TERMINATION OF OBLIGATION.—If, for purposes of paragraphs (1) and (2), a transfer or conveyance is made in accordance with such paragraphs, the obligation pursuant to subsection (a), and all other responsibilities pursuant to this Act, of the transferor involved shall terminate.

(c) REQUIREMENT OF STATUS AS PUBLIC OR NONPROFIT PRIVATE ENTITY.—The Secretary may not enter into any agreement under subsection (a) or (b) unless the agreement provides that the obligation involved includes the requirement that the obligation may be satisfied only by a public or nonprofit private entity.

(d) ASSURANCES OF SUFFICIENT FINANCIAL RESOURCES.—

(1) ORIGINAL CONTRACTOR.—The Secretary may not enter into a contract under section 1 unless the applicant for the contract provides assurances satisfactory to the Secretary that, throughout the 20-year period described in subsection (a), the applicant will have access to financial resources sufficient to comply with the agreement under such subsection.

(2) TRANSFEREES AND PURCHASERS.—The Secretary may not approve a transfer or conveyance under subsection (b) unless the transferee or purchaser provides assurances satisfactory to the Secretary that, throughout the remaining portion of the 20-year period described in subsection (a), the transferee or purchaser will have access to financial resources sufficient to comply with its obligation pursuant to such subsection.

SEC. 3. REQUIREMENT OF MATCHING FUNDS.

(a) IN GENERAL.—The Secretary may not enter into a contract under section 1 unless the applicant for the contract agrees, with respect to the costs to be incurred by the applicant in carrying out the purpose described in such section, to make available (directly or through donations from public or private entities) contributions toward such costs in an amount equal to $1 for each $3 of Federal funds provided pursuant to the contract under section 1.

(b) DETERMINATION OF AMOUNT OF CONTRIBUTION.—Contributions required in subsection (a) may be in cash or in kind, fairly evaluated, including existing plant and equipment or services throughout the 20-year period described in section 2(a)(1) (and including such specialized strains of mice as the Secretary may request for purposes of biomedical research). Amounts provided by any agency of the Federal Government other than the Department of Health and Human Services, and services assisted or subsidized by any such agency, shall be included in the amount of such contributions.

SEC. 4. ADDITIONAL REQUIREMENTS.

(a) SUBMISSION AND APPROVAL OF CONSTRUCTION PLAN.—

(1) IN GENERAL.—The Secretary may not enter into a contract under section 1 unless the applicant for the contract submits to the Secretary a plan for the construction of facilities pursuant to such section and unless the Secretary approves the plan. The Secretary may not approve such a plan unless the plan has been recommended for approval by the panel convened under paragraph 2(A).

(2) EXPERT PANEL FOR ADVISING SECRETARY WITH RESPECT TO PLAN.—

(A) The Secretary shall convene a panel of appropriately qualified individuals for the purpose of providing architectural, financial, and scientific advice to the Secretary regarding appropriate standards and specifications for the construction, financing, and use of facilities pursuant to section 1. The panel may not approve a plan submitted under paragraph (1) unless the panel determines that amounts provided in the contract under section 1 will not, during the twenty-year period described in section 2(a), be expended to increase significantly, relative to April 1989, the sale of mice other than mutant and inbred strains of mice necessary for the conduct of biomedical research.

(B) Members of the panel convened under paragraph (1) who are officers or employees of the United States may not receive compensation for service on the panel in addition to the compensation otherwise received for duties carried out as such officers or employees. Other members of such panel shall receive compensation for each day (including traveltime) engaged in carrying out the duties of the panel. Such compensation may not be in an amount in excess of the maximum rate of basic pay payable for GS-18 of the General Schedule.

(b) SITE OF CONSTRUCTION.—The Secretary may not enter into a contract under section 1 unless—

(1) the applicant for the contract provides to the Secretary a description of the site for the construction of facilities pursuant to such section; and

(2) the Secretary determines that title to the site is vested in the applicant or that the applicant has a sufficient possessory interest in such site for the twenty-year period described in section 2(a).

(c) REQUIREMENT OF APPLICATION.—The Secretary may not enter into a contract under section 1 unless—

(1) an application for the contract is submitted to the Secretary;

(2) the application contains the agreements required in this Act and provides assurances of compliance satisfactory to the Secretary; and

(3) the application otherwise is in such form, is made in such manner, and contains such agreements, assurances, and information as the Secretary determines to be necessary to carry out this Act.

SEC. 5. FAILURE TO COMPLY WITH AGREEMENTS.

(a) REPAYMENT OF PAYMENTS.—

(1) IN GENERAL.—The Secretary may, subject to subsection (c), require the contractor under section 1 to repay any payments received under such section by the contractor that the Secretary determines were not expended by the contractor in accordance with the agreements required to be contained in the application submitted by the contractor pursuant to section 4(c).

(2) OFFSET AGAINST CURRENT PAYMENTS.—If a contractor under section 1 fails to make a repayment required in paragraph (1), the Secretary may offset the amount of the repayment against the amount of any payment due to be paid under such section to the contractor.

(b) WITHHOLDING OF PAYMENTS.—

(1) IN GENERAL.—The Secretary may, subject to subsection (c), withhold payments due under section 1 if the Secretary determines that the contractor under such section is not expending payments received under such section in accordance with the agreements required to be contained in the application submitted by the contractor pursuant to section 4(c).

(2) TERMINATION OF WITHHOLDING.—The Secretary shall cease withholding payments under paragraph (1) if the Secretary determines that there are reasonable assurances that the contractor under section 1 will expend amounts received under such section in accordance with the agreements referred to in such paragraph.

(3) EFFECT OF MINOR NONCOMPLIANCE.—The Secretary may not withhold funds under paragraph (1) from the contractor under section 1 for a minor failure to comply with the agreements referred to in such paragraph.

(c) OPPORTUNITY FOR HEARING.—Before requiring repayment of payments under subsection (a)(1), or withholding payments under subsection (b)(1), the Secretary shall provide to the contractor under section 1 an opportunity for a hearing conducted within the State in which facilities are constructed pursuant to such section.

SEC. 6. RECOVERY PROCEEDINGS FOR VIOLATION OF REQUIREMENT WITH RESPECT TO MINIMUM PERIOD OF BREEDING OF SPECIALIZED MICE.

(a) RIGHT OF RECOVERY.—If the contractor under section 1, or any transferee or purchaser under section 2, violates its obligation under such section (including any violation under subsection (c) of such section),

the United States shall be entitled to recover an amount equal to the sum of—

(1) an amount determined in accordance with paragraph (1)(A) of subsection (b); and

(2) an amount determined in accordance with paragraph (2)(A) of such subsection.

(b)DETERMINATION OF AMOUNTS.—

(1) FEDERAL PERCENTAGE OF FAIR MARKET VALUE.—

(A) The amount referred to in paragraph (1) of subsection (a) is the product of—

(i) an amount equal to the fair market value, during the period in which recovery is sought under subsection (a), of the facilities constructed pursuant to section 1, as determined in accordance with subparagraph (B); and

(ii) a percentage equal to the quotient of—

(I) the total amounts provided by the Federal Government for the construction of such facilities; divided by

(II) the total costs of the construction of such facilities.

(B) For purposes of subparagraph (A)(i), fair market value shall be determined through—

(i) an agreement entered into by the United States and the entity from whom the United States is seeking recovery under subsection (a); or

(ii) an action brought in the district court of the United States for the district in which the facilities involved are located.

(2) INTEREST.—

(A) The amount referred to in paragraph (2) of subsection (a) is an amount representing interest on the amount determined under paragraph (1). Such interest shall accrue during the period described in subparagraph (B) and shall accrue at a rate determined by the Secretary on the basis of the average of the bond equivalent of the weekly 90-day Treasury bill auction rate.

(B) The period referred to in subparagraph (A) is the period—

(i) beginning on the date of the violation of the obligation under section 2, or if the entity involved provides notice to the Secretary of the violation not later than 10 days after the date of the violation, beginning on the expiration of the 180-day period beginning on the date that the notice is received by the Secretary; and

(ii) ending on the date on which the United States collects the amount determined under paragraph (1).

(c) WAIVER OF RECOVERY RIGHTS.—The Secretary may waive, in whole or in part, the right of the United States to recover amounts under this section for good cause shown, as determined by the Secretary.

(d) CLARIFICATION WITH RESPECT TO LIEN ON FACILITIES.—The right of recovery of the United States under subsection (a) shall not constitute a lien on the facilities involved with respect to which such recovery is sought.

SEC. 7. DEFINITION.

For purposes of this Act, the term "Secretary" means the Secretary of Health and Human Services.

SEC. 8. TECHNICAL AMENDMENT WITH RESPECT TO AUTHORITY FOR CONSTRUCTION OF FACILITIES.

Section 496 of the Public Health Service Act (42 U.S.C. 289e) is amended—

(1) by striking the first sentence;

(2) by inserting "(a)" after the section designation; and

(3) by adding at the end the following new subsection:

"(b)(1) None of the amounts appropriated under this Act for the purposes of this title may be obligated for the construction of facilities (including the acquisition of land) unless a provision of this title establishes express authority for such purpose and unless the Act making appropriations under such provision specifies that the amounts appropriated are available for such purpose.

"(2) Any grants, cooperative agreements, or contracts authorized in this title for the construction of facilities may be awarded only on a competitive basis.".

The SPEAKER pro tempore. Is a second demanded?

Mr. MADIGAN. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from California [Mr. WAXMAN] will be recognized for 20 minutes, and the gentleman from Illinois [Mr. MADIGAN] will be recognized for 20 minutes.

The Chair recognizes the gentleman from California [Mr. WAXMAN].

GENERAL LEAVE

Mr. WAXMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on S. 1390, the Senate bill now being considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to present to the House S. 1390, legislation authorizing funding for the construction of a mouse research laboratory.

On May 10, 1989, a fire swept through the mouse breeding facility of the Jackson Laboratory in Bar Harbor, ME. The fire destroyed the laboratory's animal production facility including the loss of over 400,000 research mice and 54,500 square feet of breeding space.

In a September 1989, report entitled "The Production and supply of Inbred Strains of Mice for Biomedical Research," an outside panel of consultants to the National Institutes of Health, concluded that: "The lost capability (of the Jackson Laboratory) does represent a significant loss of a resource to important national research efforts. It does constitute a national resource." The NIH panel recommended that steps be taken to rebuild the lost breeding facility and that production be restored as rapidly as possible.

Mr. Speaker, it is clear from the subcommittee's investigation of this matter that the NIH and many segments of the biomedical research community are dependent upon the unique strains of mutant and inbred mice developed at the Jackson Lab. Indeed, the subcommittee has received hundreds of letters from researchers across the Nation expressing concern about the loss to science that the Jackson Laboratory fire represents. Organizations such as the American Cancer Society, American Diabetes Association, and the National Organization of Rare Diseases have written urging that the Federal Government take steps to help the Jackson Laboratory resume production.

On August 4, 1989, S. 1390 was reported unanimously by the Senate. The legislation authorized the Secretary of Health and Human Services to award a $25 million competitive grant for the purpose of building a breeding facility for unique strains of mice. The subcommittee reviewed that Senate bill and while supporting the general intent of the legislation, believed that additional provisions were necessary to protect the substantial Federal investment in this important project. The committee amendment addressed five points absent from the Senate bill.

First, although Federal assistance is reserved for award of a competitive grant, the original Senate bill made no provision for cost sharing. The committee believed the successful applicant should share in the costs of building the new breeding facility. The committee amendment requires that 25 percent of the project construction costs be raised from private sources. This requirement is consistent with requirements for construction projects supported by the National Cancer Institute.

Second, the applicant is required, over a 20-year period, to operate the facility for the purpose of developing and breeding specialized strains of mice for use in biomedical research. In addition, the committee amendment requires that the successful applicant operate the facility in a manner which will assure that the requirements of biomedical research conducted and supported by the NIH will receive priority.

Third, funds for the project will be made available from the annual appropriations of the National Institutes of Health although contributions could be solicited from other Federal agencies. Although the scientific community preferred that funds for this project come from new, supplemental appropriations, the committee believes this is unrealistic. The breeding facility is of principal benefit to the National Institutes of Health and research supported through its extramural grant program. Although the committee amendment encourages NIH and the applicant to seek contributions from other Federal agencies, it is unrealistic to expect additional funding to be provided NIH for extramural construction. This policy is consistent with the fiscal year 1990 NIH appropriation which included $15 million in limited funding for authorized extramural construction projects.

Fourth, the amendment clarifies that the authorization of $25 million is considered to be a ceiling on the maximum amount of Federal support that may be provided to this special project. The Director of NIH has discretion in determining the specific level of Federal funding that will be made available for construction of the new breeding facility. The legislation provides that the maximum level of Federal support may not exceed $25 million but the Director is authorized to make a determination of the actual amount. It is our expectation that the NIH will work closely with the House and Senate Appropriations Committees in determining the actual level of Federal support required by this important project. Peer review, through establishment of an advisory panel with experts in the construction of such facilities, will provide essential, objective information on the appropriate size of the facility and recommended level of Federal support.

Finally, the committee amendment responds to a concern of the NIH's expert panel that "Any support from Government sources must contribute solely to restoration of the prior capability and not confer any further commercial advantage." The committee amendment requires that as a condition of Federal support the applicant not expand the level of its commercial production beyond the level in effect prior to the May 1989 fire. Federal assistance is intended for the sole purpose of enabling continued production of rare, mutant, and inbred strains of mice which are necessary for the conduct of biomedical research.

Mr. Speaker, passage of S. 1390 is important to the United States' continued leadership in the health sciences. I urge support for the legislation and reserve the balance of my time.

Mr. MADIGAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in May 1989, a fire at the Jackson Laboratory facility destroyed one of the world's leading suppliers of research mice. This facility produced highly specialized strains of mutant and inbred mice needed for research on cancer, AIDS, and other serious human diseases. As no other facility in the world can produce more than about a dozen of Jackson Laboratory's 1,700 strains of mice, an estimated $700 million of federally supported biomedical research has been affected. The National Institutes of Health have recognized the Jackson Laboratory as a unique national resource.

I support this legislation which authorizes up to $25 million for the construction of facilities for the purpose of breeding specialized strains of mice. Under this bill, these funds will be awarded on a competitive basis with full peer review of the construction plans. Also, the successful applicant will have to provide assurances to the Secretary of HHS concerning the entity's ability to efficiently operate the facility. I believe that authorizing these funds under the usual peer review process of HHS will provide for the successful completion of a new facility.

This legislation is supported by the administration and the National Institutes of Health.

I urge my colleagues to join me in supporting this bill.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WAXMAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Maine [Mr. Brennan].

Mr. BRENNAN. Mr. Speaker, I rise today to urge my colleagues to support S. 1390, a bill that will help restore a major component of this Nation's effort in biomedical research.

I thank the distinguished chairman, the gentleman from California [Mr. WAXMAN], and the ranking member, the gentleman from Illinois [Mr. MADIGAN] for their able support on this very important issue.

In May of this year, a very devastating fire took place at the Jackson Laboratory in Barr Harbor, ME. The laboratory is a nonprofit institution that has served as a national resource providing 98 percent of the genetically refined inbred and mutant strains of mice that are very important in biomedical research, most of which are not available from any alternative source.

In September, officials of the National Institutes of Health met to discuss the problems created by the fire. The NIH officials concluded that the fire represents a very significant loss of a resource to important national research efforts, and recommended that the Federal Government provide funding quickly to help restore this resource.

Earlier this year, the Appropriations Committee provided funding for NIH to carry out a process to channel funds to meet the challenge posed by the damage of that fire. This authorizing legislation is required if NIH is to have all the tools necessary to ensure that the many medical laboratories throughout the country can continue their work into cancer research and other areas that rely on the supply that was lost in May.

Again, I want to commend the committees for their excellent work, the quick action that they took to make it possible to restore this lab to where it should be for the very important work that it does in cancer research; so I strongly urge support for S. 1390, which is of such great importance to the state of Maine, but I think even more importantly, to the entire Nation.

Mr. WAXMAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. McDERMOTT). Does the gentleman from Illinois wish to consume any additional time?

Mr. MADIGAN. Mr. Speaker, I have received word that the gentlewoman from Maine [Ms. SNOWE] wishes to speak on the bill. I understand that everyone else who wishes to speak has done so. I am not sure what the procedure is now, since I am a person of few words, a very soft-spoken person, not used to engaging in the normal type of Irish rhetoric that someone might attribute to a person having the last name that I have. I just do not know how to go on and on and keep talking.

I understand that the gentleman from California, the very respected chairman of my subcommittee, has quite a reputation for his ability to filibuster. I know that he can see that I am struggling here and dying on the vine.

Mr. WAXMAN. Mr. Speaker, will the gentleman yield to me?

Mr. MADIGAN. I am happy to yield to the gentleman from California.

Mr. WAXMAN. Mr. Speaker, if I have that reputation, it is certainly not deserved, but I would like to take a few minutes, if the gentleman will permit, to discuss a number of health issues while we await our colleague.

This bill before us is an important bill. It is a fairly modest one in terms of the scope which it covers, the issues that are before us pending in the Congress, but it is a bill that does address a need by the researchers in this country for a special breed of mice that evidently at the present time seems to come from this facility in Maine, which unfortunately due to fire has been destroyed, but with the authorization that we would provide, the Secretary might then assist them or some other facility that may wish to come in and compete, to provide that strain of mice so that researchers will have it available to them.

It is part of the larger effort in this country to provide support for biomedical research. I know that my friend, the gentleman from Illinois, and many others in the Congress of the United States have strongly supported research efforts.

□ 1610

The work done at NIH is something we can all be justifiably proud of in terms of the hope it brings for the future to lead to cures, control, prevention of some of these diseases. The investment that we make in biomedical research has already paid off enormously with the breakthroughs that have now come about, and I think will offer even more promise for the future

in both prevention, cure, and control of these diseases.

With these words, I would like to yield back to the gentleman from Illinois for any comments he wishes to make as we await our colleague's appearance in the House Chamber.

Mr. MADIGAN. Mr. Speaker, since I am not in a position to object, may I just say in continuation that the reputation of the gentleman from California obviously is well deserved, not only with regard to his ability to express himself so succinctly, and I believe I am being given a hand signal that the gentlewoman from Maine honors us with her presence.

Mr. Speaker, I yield such time as she may consume to the gentlewoman from Maine [Ms. SNOWE].

Ms. SNOWE. Mr. Speaker, I thank the gentleman from Illinois and the gentleman from California for their indulgence in giving me time to address this very important issue to the State of Maine.

Mr. Speaker, I rise today in support of S. 1390, the legislation authorizing the $25 million grant from the National Institutes of Health. I am out of breath.

Mr. Speaker, let me just say that this is very important legislation to address the Jackson Lab fire that took place last May and to continue providing its highly valued services to the national biomedical services.

I am sorry, I am out of breath, and I will have difficulty to further address this issue, but I really want to thank the gentleman from Illinois.

Mr. Speaker, I rise today in strong support of S. 1390, legislation authorizing a $25 million grant from the National Institutes of Health [NIH] for the construction of a facility designed to breed and distribute specialized mice used in certain kinds of research. Adopting this bill will, we hope, enable the Jackson Laboratory in Bar Harbor, ME, to recover from the disastrous effects of a tragic fire last May—and to continue providing its highly valued services to the Nation's biomedical research community.

But before I begin my remarks on S. 1390, I want to express my gratitude to the bipartisan leadership of the Energy and Commerce Subcommittee on Health and the Environment, Chairman HENRY WAXMAN, ranking minority member, and ED MADIGAN.

Throughout the process that brought us here, these two distinguished gentlemen have repeatedly demonstrated their commitment to providing the Nation's biomedical research facilities with the resources they need. On behalf of Jackson Lab and everyone who depends upon this remarkable facility, I want to recognize their fine work and commend them for their extraordinary efforts on this issue.

Mr. Speaker, there is a compelling need for the prompt passage and enactment of S. 1390: Jackson Laboratory is the top-rated research facility in America dedicated to studying the genetics of mammals. For more than 60 years, the laboratory has been on the cutting edge of national research into molecular biology, genetics, immunology and cell biology.

Recognizing its special status, the National Cancer Institute has designated Jackson Lab as a laboratory cancer research center. In addition to its own cancer work, Jackson Lab also conducts experiments into developmental biology and the aging process.

However, while conducting important research work of its own, the lab also supplies scientists in the United States and around the world with more than 2 million genetically defined inbred and mutant mice a year.

In fact, Jackson Lab maintains, breeds, and distributes a staggering total of 1,700 different strains of these research animals, all of which are used in research on AIDS, cancer, arthritis, diabetes, atherosclerosis, muscular dystrophy, and other serious illnesses.

Sadly, the accidental fire on May 10, 1989 completely ruined the laboratory's building with most of its animal breeding space, severely damaged an additional 25,000 square feet of the lab's facilities, and killed 400,000 mice. As a result, every major medical research facility in the United States was immediately—and adversely—affected.

Because Jackson Lab supplies more than 11,000 research laboratories with the mice they need for experiments, representing more than 20 percent of the market, the fire's effect on biomedical research was catastrophic. Hundreds of millions of dollars in federally funded pharmaceutical and biotechnology research and development work has been harmed.

Some experiments depending on Jackson Lab mice have either been postponed or, in some cases, cancelled due to the blaze.

The laboratory will be seeking the $25 million grant, provided for by S. 1390 under a competitive-bid process, to help finance the cost of constructing a temporary mouse production facility. The grant would also be used to assist in the construction of a permanent facility for the long-term production and distribution of mice.

In addition to the public funding that Jackson Laboratory seeks, the lab has also organized an aggressive private sector fundraising effort to help finance the recovery costs. In fact, S. 1390 contains provisions requiring that over the next 2 years the grant's recipient raise 25 percent of the total rebuilding costs in private sector funds.

With the passage and enactment of S. 1390, Jackson Lab will be able to apply for NIH appropriations to rebuild itself. Without this measure and these funds, hundreds of millions of dollars in vitally important research work will be jeopardized.

Failing to adopt S. 1390 means losing ground in the battle against some of mankind's most pressing disorders. Enacting this measure will allow important biomedical research work on AIDS, cancer, arthritis, and other diseases to continue moving forward, so that we can hopefully eradicate some of our most troubling disorders.

With this need in mind, Mr. Speaker, I hope that all of my colleagues in the House will join with me in supporting S. 1390.

Mr. MADIGAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from California [Mr. WAXMAN] that the House suspend the rules and pass the Senate bill, S. 1309, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the Senate bill, as amended, was passed.

The title of the Senate bill was amended so as to read: "An Act to provide for the construction of biomedical facilities in order to ensure a continued supply of specialized strains of mice essential to biomedical research in the United States, and for other purposes.".

A motion to reconsider was laid on the table.

POSTHUMOUS CITIZENSHIP FOR ACTIVE DUTY SERVICE ACT OF 1989

Mr. MORRISON of Connecticut. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 150) to amend the Immigration and Nationality Act to provide a procedure for an alien who dies while serving on active-duty with the United States armed forces during certain periods of hostilities to be considered a citizen of the United States at the time of the alien's death, as amended.

The Clerk read as follows:

H.R. 150

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Posthumous Citizenship for Active Duty Service Act of 1989".

SEC. 2. POSTHUMOUS CITIZENSHIP THROUGH DEATH WHILE ON ACTIVE-DUTY SERVICE IN THE ARMED FORCES DURING WORLD WAR I, WORLD WAR II, THE KOREAN HOSTILITIES, THE VIETNAM HOSTILITIES, OR IN OTHER PERIODS OF MILITARY HOSTILITIES.

(a) IN GENERAL.—Chapter 2 of title III of the Immigration and Nationality Act is amended by inserting after section 329 (8 U.S.C. 1440) the following new section:

"POSTHUMOUS CITIZENSHIP THROUGH DEATH WHILE ON ACTIVE-DUTY SERVICE IN THE ARMED FORCES DURING WORLD WAR I, WORLD WAR II, THE KOREAN HOSTILITIES, THE VIETNAM HOSTILITIES, OR IN OTHER PERIODS OF MILITARY HOSTILITIES

SEC. 329A. (a) PERMITTING GRANTING OF POSTHUMOUS CITIZENSHIP.—Notwithstanding any other provision of this title, the Attorney General shall provide, in accordance with this section, for the granting of posthumous citizenship at the time of death to a person described in subsection (b) if the Attorney General approves an application for that posthumous citizenship under subsection (c).

"(b) NONCITIZENS ELIGIBLE FOR POSTHUMOUS CITIZENSHIP.—A person referred to in subsection (a) is a person who, while an alien or a noncitizen national of the United States—

"(1) served honorably in an active-duty status in the military, air, or naval forces of the United States during any period described in the first sentence of section 329(a),

"(2) died as a result of injury or disease incurred in or aggravated by that service, and

"(3) satisfied the requirements of clause (1) or (2) of the first sentence of section 329(a).

The executive department under which the person so served shall determine whether the person satisfied the requirements of paragraphs (1) and (2).

"(c) REQUESTS FOR POSTHUMOUS CITIZENSHIP.—A request for the granting of posthumous citizenship to a person described in subsection (b) may be filed on behalf of the person only by the next-of-kin (as defined by the Attorney General) or another representative (as defined by the Attorney General). The Attorney General shall approve such a request respecting a person if—

"(1) the request is filed not later than 2 years after—

"(A) the date of the enactment of this section, or

"(B) the date of the person's death, whichever date is later;

"(2) the request is accompanied by a duly authenticated certificate from the executive department under which the person served which states that the person satisfied the requirements of paragraphs (1) and (2) of subsection (b); and

"(3) the Attorney General finds that the person satisfied the requirement of subsection (b)(3).

"(d) DOCUMENTATION OF POSTHUMOUS CITIZENSHIP.—If the Attorney General approves such a request to grant a person posthumous citizenship, the Attorney General shall send to the individual who filed the request a suitable document which states that the United States considers the person to have been a citizen of the United States at the time of the person's death.

"(e) NO BENEFITS TO SURVIVORS.—Nothing in this section or section 319(d) shall be construed as providing for any benefits under this Act for any spouse, son, daughter, or other relative of a person granted posthumous citizenship under this section.".

(b) CLERICAL AMENDMENT.—The table of contents of such Act is amended by inserting after the item relating to section 329 the following new item:

"Sec. 329A. Posthumous citizenship through death while on active-duty service in the armed forces during World War I, World War II, the Korean hostilities, the Vietnam hostilities, or in other periods of military hostilities.

The SPEAKER pro tempore. Is a second demanded?

Mr. SMITH of Texas. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Connecticut [Mr. MORRISON] will be recognized for 20 minutes, and the gentleman from Texas [Mr. SMITH] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 150 is legislation introduced in the House by the gentleman from Massachusetts [Mr. DONNELLY].

This bill, which is supported by the Bush administration, is cosponsored by 44 Members of the House, and former President Reagan urged the adoption of this kind of legislation. The bill would simply state that men or women who give their lives in the defense of the United States as members of the U.S. Armed Forces are to be considered U.S. citizens at the time of their death. It would be a conferring of citizenship as an honorific action by the U.S. Government in recognition of the sacrifice involved. It does not confer benefits on the survivors and has no budgetary implications, but it makes a very strong statement that individuals who have not yet become citizens but who fight for this country and who, in the line of active duty, lose their lives ought to be honored by having earned the citizenship of the United States by their sacrifice.

I think this is legislation which is very well crafted to the purpose and very well conceived by the gentleman from Massachusetts.

Mr. Speaker, I yield 3 minutes to the gentleman from Massachusetts [Mr. DONNELLY].

Mr. DONNELLY. Mr. Speaker, as the author of this legislation, I rise in strong support of H.R. 150. I would like to thank Mr. MORRISON, the chairman of the Immigration Subcommittee, and the full Judiciary Committee for favorably reporting this legislation to the House floor.

Mr. Speaker, H.R. 150 is modest, straightforward legislation and should, I suggest, be the law of the land. It establishes a procedure under which an alien who dies while on active duty with the U.S. Armed Forces would be considered a U.S. citizen at the time of death. Under the bill, the next-of-kin or another representative of the decrease determined by the Attorney General could apply for citizenship for the deceased.

My interest in this legislation dates back to 1984, when I filed legislation on behalf of an individual who lived in my district and was killed in the Vietnam war. This individual was a resident alien from Scotland and was killed while serving on active duty on July 7, 1967. My private relief bill was signed into law by President Reagan in October 1984.

At that time, President Reagan said that he supported a generic rule in our immigration laws which applied this policy to all aliens or noncitizen nationals who are killed in the line of duty while serving as American soldiers. He said, "We cannot repay these men for their sacrifice, valor, or patriotism; but it is only right that we bestow on each of them our Nation's highest honor: American citizenship." President Reagan submitted proposed legislation to the 99th Congress to make this change in the law.

H.R. 150, consequently, follows this proposal. The bill provides that any alien or noncitizen national of the United States who served honorably as a member of the Armed Forces during World War I, World War II, The Korean war, or the Vietnam war, and died as a result of that service, is deemed to be a U.S. citizen at the time of their death.

According to the Department of Defense, their casualty file does not distinguish aliens. However, in a letter to me, they suggest that approximately 2 percent of all casualties from 20th century wars were nonresident aliens. I would ask unanimous consent that a copy of the Defense Department's letter to me be included in the RECORD at this point.

Mr. Speaker, I am including a copy of the Defense Department letter in the RECORD as follows:

THE OFFICE OF THE ASSISTANT
SECRETARY OF DEFENSE,
Washington, DC, November 31, 1989.

Hon. BRIAN J. DONNELLY,
House of Representatives,
Washington, DC.

DEAR MR. DONNELLY: This is in reply to your request to obtain statistics on the number of resident aliens who have been killed in the line of duty while serving in the U.S. Armed Forces and advising that you have introduced H.R. 150 which would grant those individuals affected posthumous U.S. citizenship.

Unfortunately, the casualty file maintained by the Department of Defense does not provide the capability to distinguish resident aliens. While there is a category for citizenship, in the past entries have been annotated as U.S. citizens and the Department of Defense has not drawn any distinctions between casualties based upon citizenship.

We do collect data on accessions based upon citizenship, however. Based upon ac-

cession data, in FY88, 8,100 of our 400,000 accessions were resident aliens. We have no reason to believe that this as a percentage has varied significantly in the past and it can be assumed that the percentage of casualties is comparable. I have enclosed a department of Veterans Affairs list of deaths by war era.

While we are unable to provide the specific data you have requested I trust our estimate will assist.

Sincerely,

FRANCIS E. JEPSON,
Captain, SC, USN, Director, Personnel Administration and Services (Military Manpower and Personnel Policy).

Enclosure.

AMERICA'S WARS STATISTICS GIVEN IN VA RELEASE

The Veterans Administration has released a compilation of the number of participants in America's Wars as of December 31, 1970. The tally also includes the number of deaths in service and veterans and dependents on compensation and pension rolls as of that date.

The following are the wars and statistics:

American Revolution (1775-1784)

Participants	290,000
Deaths in Service	4,000

Last Veteran:
Daniel F. Bakeman, Freedom, N.Y.
Died April 5, 1869 Age 109

Last Widow:
Catherine S. Damon, Plymouth Union, Vt.
Died November 11, 1906 Age 92

Last Dependent:
Phoebe M. Palmeter, Brookfield, N.Y.
Died April 25, 1911 Age 90

War of 1812 (1812-1815)

Participants	287,000
Deaths in Service	2,000

Last Veteran:
Hiram Cronk, Ava, N.Y.
Died May 13, 1905 Age 105

Last Widow:
Carolina King, Cheektowaga, N.Y.
Died June 28, 1936 Age ?

Last Dependent:
Esther A.H. Morgan, Independence, Ore.
Died March 12, 1946 Age ?

Mexican War (1846-1848)

Participants	79,000
Deaths in Service	13,000

Last Veteran:
Owen Thomas Edgar, Washington, D.C.
Died September 3, 1929 Age 98

Last Widow:
Lena James Theobald, Louisiville, Ky.
Died June 20, 1963 Age 89

Last Dependent:
Jesse G. Bivens, Alton, Ill.
Died November 1, 1962 Age 94

Civil War (1861-1865)

Participants (Union)	2,213,000
Deaths in Service (Union)	364,000

Last Union Veteran:
Albert Woolson, Duluth, Minn.
Died August 2, 1956 Age 109

Last Confederate Veteran:
Walter W. Williams, Houston, Tex.
Died December 19, 1959 Age 117

Dependents on Compensation and Pension Rolls

(Approximately 65% Union, 35% Confederate)

Widows	478
Children	357

Indian Wars (Approx. 1817-1898)

Participants	106,000
Deaths in Service	1,000
Living Veterans	1

Veterans and Dependents on Pension and Compensation Rolls

Widows	148
Children	22
Veterans	1

Spanish-American War (1898-1902)

Participants	392,000
Deaths in Service	11,000
Living Veterans	4,000

Veterans and Dependents on Pension and Compensation Rolls

Widows	38,837
Children	1,726
Veterans	3,901

World War I (1917-1918)

Participants	4,744,000
Deaths in Service	116,000
Living Veterans	1,466,000

Veterans and Dependents on Pension and Compensation Rolls

Parents	1,164
Widows	620,753
Children	38,421
Veterans	724,338

World War II (Sept. 6, 1940-July 25, 1947)

Participants	[1] 16,535,000
Deaths in Service	406,000

[1] Persons who served in more than one war period are counted as participants in each.
[2] Includes 19,145 parents of deceased peacetime veterans.
[3] Includes 26,881 widows of deceased peacetime veterans.
[4] Includes 22,544 children of deceased peacetime veterans.
[5] Includes 184,043 peacetime veterans who are receiving disability compensation.

Let me stress, Mr. Speaker, that this legislation involves no new benefits, and has no budgetary effects it would be, if passed into law and signed by President Bush, a simple statement of policy that these brave individuals were, in every sense of the word, American citizens, I would suggest that this noncontroversial measure should be the law of the land, and I urge the House to pass it.

In closing, let me note that a bipartisan group of 51 Members of the House have cosponsored this legislation with me. Former President Reagan has endorsed the concept I urge the legislation's adoption, and I would urge the Senate to act expeditiously on it as well. Once again, let me thank the gentleman from Connecticut [Mr. MORRISON] for has attention to his extraordinary cooperation.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are here today to consider H.R. 150.

H.R. 150 was amended and passed unanimously by the Subcommittee on Immigration, Refugees, and International Law. It was also passed unanimously by the full Judiciary Committee.

H.R. 150, as amended at the subcommittee, provides posthumous naturalization for any alien who died as a result of injuries or diseases while on active duty in World War I or II, the Korean war, Vietnam, or during other designated periods of military hostitity. Application must be made by family members or a designated

person within 2 years after the date of enactment or after the date of the alien's death.

H.R. 150 has been amended to prohibit any survivor from receiving any benefits as a result of this act.

And H.R. 150 has been amended sufficienty to satisfy the administration's earlier concerns.

I urge my colleagues to support H.R. 150.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MORRISON of Connecticut. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Connecticut [Mr. MORRISON] that the House suspend the rules and pass the bill, H.R. 150, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

□ 1620

GENERAL LEAVE

Mr. MORRISON of Connecticut. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on the bill, H.R. 150, just passed.

The SPEAKER pro tempore, (Mr. MCDERMOTT). Is there objection to the request of the gentleman from Connecticut?

There was no objection.

FILIPINO WORLD WAR II VETERANS NATURALIZATION ACT OF 1989

Mr. MORRISON. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 525) to permit the naturalization of certain Filipino war veterans, as amended.

The Clerk reads as follows:

H.R. 525

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Filipino World War II Veterans Naturalization Act of 1989".

SEC. 2. NATURALIZATION OF NATIVES OF THE PHILIPPINES THROUGH ACTIVE-DUTY SERVICE IN THE ARMED FORCES DURING WORLD WAR II.

(a) WAIVER OF CERTAIN REQUIREMENTS.—Clauses (1) and (2) of section 329(a) of the Immigration and Nationality Act (8 U.S.C. 1440(a)) shall not apply to the naturalization of any person—

(1) who was born in the Phillippines and who was otherwise a noncitizen national of the United States residing in the Philippines before the service described in paragraph (2);

(2) who served honorably in an active-duty status in the military, air, or naval forces of the United States, including the Philippine Army, the Philippine Scouts, and recognized guerrilla units, at any time during the period beginning September 1, 1939, and ending December 1, 1946;

(3) who is otherwise eligible for naturalization under section 329 of such Act; and

(4) who applies for naturalization during the 2-year period beginning on the date of the enactment of this Act.

(b) WAIVER OF RESIDENCY REQUIREMENT.—Section 340(d) of the Immigration and Nationality Act (8 U.S.C. 1451(d)) shall not apply to a person who is naturalized pursuant to subsection (a).

The SPEAKER. pro tempore. Is a second demanded?

Mr. SMITH of Texas. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Connecticut [Mr. MORRISON] will be recognized for 20 minutes, and the gentleman from Texas [Mr. SMITH] will be recognized for 20 minutes.

The Chair recognized the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. Mr. Speaker, I yield myself such time as I many consume.

Mr. Speaker, H.R. 525 is introduced by the gentleman from California [Mr. DYMALLY]. This bill would permit the naturalization of Filipino veterans who fought valiantly in the Second World War for the United States as well as for their homeland of the Philippines.

Over 40 years ago Congress extended a promise to these Filipino soldiers by amending the Nationality Act of 1940 and allowing them to apply for naturalization.

Unfortunately, the opportunity to apply was rescinded when an executive decision was made to remove the naturalization examiners from the Philippines for a 9-month period during which applications could have been made.

Many lawsuits have arisen from that decision. In 1988 the Supreme Court ruled in the case of INS versus Pangilinan. The Court ruled it had no power to confer citizenship rights since Congress, in the exercise of its exclusive constitutional authority over naturalization, imposed limitations as to the time for filing naturalization petitions pursuant to the act. For that reason, many Filipino veterans have been cut off from any opportunity to exercise the naturalization rights which Congress extended to them back in the 1940's.

Mr. Speaker, we have the opportunity today in this legislation to extend to these heroic Filipino veterans the right to apply for United States citizenship 40 years after the time when we intended to have that go in effect.

This legislation is supported by the administration, by the American Legion, by the Filipino Ambassador to the United States, and by the United Filipino-American World War II Veterans Association.

In considering the legal immigration reform bill in this session of the 101st Congress, the Senate has passed similar legislation as amended.

The Veterans' Administration estimates that there are approximately 60,000 World War II veterans who may avail themselves of the benefits of this legislation. In order to avail themselves of the benefits of this legislation, the individuals will need to travel to the United States and make application for this naturalization process.

Mr. Speaker, I believe that this legislation is long in coming and long overdue, but will accomplish a purpose of fairness in keeping a promise that this country made to these individuals when we very much needed and wanted their assistance to fight the Japanese in the Philippines during the Second World War.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are here today to consider H.R. 525.

H.R. 525 was amended and passed unanimously by the Subcommittee on Immigration, Refugees, and International Law. It was also passed unanimously by the full Judiciary Committee.

H.R. 525 allows Filipinos who have served honorably in active-duty status in the U.S. military, air or naval forces during World War II to naturalize. Also included are Filipinos who served in the Philippine Army, the Philippine Scouts and the recognized guerrilla units.

The applicant must otherwise be eligible for naturalization and must apply during the 2-year period beginning on the date of enactment. Section 304(d) requiring U.S. residency of newly naturalized citizens is waived as to applicants under H.R. 525.

The administration supports H.R. 525. And I urge my colleagues to support H.R. 525.

Mr. Speaker, I yield such time as he may consume to my colleague the gentleman from California [Mr. CAMPBELL], who is one of the authors of this legislation and has worked hard to ensure its passage.

Mr. CAMPBELL of California. Mr. Speaker, I thank the gentleman from Texas and the gentleman from Connecticut, and I rise in support of H.R. 525.

I would like to begin by recognizing the superb work of the gentleman from California [Mr. DYMALLY], who has carried this legislation in previous Congresses, and with whom I was privileged to work.

Let me note as well the effort of Mr. Eltapon, a leader of the Filipino community, whose expert assistance in draftsmanship assisted and allowed this resolution to proceed.

Mr. Speaker, today we redeem a pledge that was made at a time when we needed assistance and the Filipinos came to our assistance and the assistance of themselves and all the free world.

The estimated number of Filipino veterans who will take advantage of this is in the order of 80,000 who actually served in the Armed Forces of the United States, plus 50,000 guerillas and scouts.

Mr. Speaker, I appreciate the kindness and efforts of my colleague, the gentleman from California [Mr. DYMALLY] in accepting my language to extend the benefits, not only to those who served in the Armed Forces of the United States, but in the guerrillas and scouts of the Philippines as well.

Another provision which I am grateful to have seen included that was in the bill I introduced, H.R. 2407, extends for 2 years the application time period. I regret, however, that there is not as much accommodation as we might have had. I regret, for example, that we do not have officials of the Immigration and Naturalization Service authorized to travel to the Philippines and take applications there. That distinction is regrettable.

Nevertheless, this legislation is quite an important step, because it opens up what had been closed for so long and in such an unfair way.

This legislation puts no burden on the American taxpayer. It does not open up a class of individuals previously not eligible for medical benefits or Social Security benefits. What it does is to say when we make a promise, we Americans stand by our word, and in the instance of the promise we made to the Filipinos, today we redeem that pledge.

Mr. Speaker, I conclude with one last request to all Members in this Chamber. In that this bill does not include a provision that had been in H.R. 2407 to publicize the availability of this benefit of U.S. citizenship in the Philippines, I call on all Members to do their best to publicize the availability of this privilege in their own districts in the Filipino community so that the word can get out to those 80,000 to 50,000, whose numbers continue to dwindle as the years pass.

A final statement, it is with honor I submit my support for this bill today, and I appreciate the kindness of all Members who have worked on this.

Mr. SMITH of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. MORRISON of Connecticut. Mr. Speaker, I yield 3 minutes to the gentleman from Florida [Mr. BENNETT].

Mr. BENNETT. Mr. Speaker, I am happy to join in this legislation. In World War II I had the privilege of being an American soldier fighting side by side with the Filipinos.

We took Baguio, which was the summer capital of the Philippines.

At that point I left the American troops and went with the guerrillas and fought side by side with guerrillas in the Filipino Islands. So I have a great deal of personal knowledge about the good fighting qualities of these people. I have a great deal of gratitude for the fact that I am alive today because of them. I have a feeling of great joy in the idea that these people will become American citizens if they decide to do so.

Mr. Speaker, they certainly are prepared for that, with the background of their history, by the sacrifices they have made as allies with us in World War II, and by their dedication to the ideas of freedom, democratic processes, and inspirational activities for what is best for mankind.

Among my closest friends are Filipinos that I met during that period of my life. I am very deeply grateful to them.

I am very happy with this opportunity being made available to them. I appreciate the kindness of the gentleman from Texas [Mr. SMITH] in allowing me to make these remarks.

Mr. SMITH of Texas. Mr. Speaker, I yield such time as he may consume to the gentleman from New York [Mr. GILMAN].

Mr. GILMAN. Mr. Speaker, I rise to express my strong support for H.R. 525, and I commend the gentleman from California [Mr. DYMALLY], and the gentleman from California [Mr. CAMPBELL] for introducing this important legislation and I commend the distinguished subcommittee chairman, Mr. MORRISON and the ranking minority member, the gentleman from Texas [Mr. SMITH] for their support.

On July 26, 1941, President Roosevelt issued a military order, pursuant to the Philippines Independence Act of 1934, calling members of the Philippines Commonwealth Army into the service of the U.S. Forces of the Far East under the command of Lt. Gen. Douglas MacArthur.

H.R. 525 waives certain provisions of the Immigration and Nationality Act to allow those Filipinos who fought honorably in an active-duty status in the U.S. military, air or naval forces during World War II to become naturalized U.S. citizens.

I urge all my colleagues that share my belief that veterans of the U.S. Armed Forces should receive equal benefits for equal service to support H.R. 525 and send a clear message to our Filipino friends that the Philippine veterans' contributions have not gone unnoticed.

Hopefully, in the not too distant future, we will also extend veterans' benefits to all of our Filipino veterans. They deserve no less for their dedication and sacrifices.

Mrs. SAIKI. Mr. Speaker, I rise today in full support of H.R. 525, the Filipino war veterans naturalization bill.

I commend Congressman DYMALLY for having introduced this legislation. I believe we owe a debt of gratitude to Filipinos who served in the U.S. Armed Forces and fought for our country during World War II. This legislation also allows Filipinos who served in the Philippine Army, the Philippine Scouts, and recognized guerrilla units to be naturalized.

These individuals assisted this Nation during one of the most critical periods in American history. Their service to our country was all that we could expect of any citizen, and more than we should expect of citizens of other nations.

I feel that offering these individuals special naturalization status is the least we can do to show our gratitude for their unswerving support of this country. I urge my colleagues to show vigorous support for this measure.

Ms. PELOSI. Mr. Speaker, as a cosponsor of H.R. 525, I rise to urge my colleagues to support this bill, which would enable certain Filipino veterans who served with the United States forces in World War II to become naturalized citizens of the United States.

From the onset of the United States' active involvement in World War II, Philippine infantry forces stood side by side with American forces in a common cause. Many times, Filipino fighting units formed the backbone of the defense against invading Japanese ground forces. Often suffering under extremely adverse conditions and from high casualty rates, the courageous actions of the Filipino forces prolonged the defense of vital installations, including the Bataan Peninsula. Their contribution to the successful outcome of the war effort in the Pacific is immeasurable.

Tragically, these distinguished war heroes have been discriminated against in their quest for naturalization. Most of these heroes are at or near retirement age and have established families in this country. Human beings who risked their lives to assist the United States should be allowed to participate in the democratic process which they fought to protect—anything less would be a grave injustice.

Mr. Speaker, today we have an opportunity to rectify this injustice by passing H.R. 525 and enabling these brave veterans to become citizens of the United States. This past weekend, on Veterans Day, we honored all veterans of our military forces. It is fitting that we now honor those Filipino veterans who stood side by side with us in our hour of need. I urge my colleagues to vote for H.R. 525.

□ 1630

Mr. SMITH of Texas. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MORRISON of Connecticut. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Connecticut [Mr. MORRISON] that the House suspend the rules and pass the bill, H.R. 525, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to provide for the naturalization of natives of the Philippines through active-duty service in the Armed Forces of the United States during World War II.".

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MORRISON of Connecticut. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

ARMED FORCES IMMIGRATION ADJUSTMENT ACT OF 1989

Mr. MORRISON of Connecticut. Mr. Speaker, I move to suspend the rules and pass the bill (HR. 639) to amend the Immigration and Nationality Act to provide for special immigrant status for certain aliens who have served honorably in the Armed Forces of the United States for 4 years, as amended.

The Clerk read as follows:

H.R. 639

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Armed Forces Immigration Adjustment Act of 1989".

SEC. 2. SPECIAL IMMIGRANT STATUS FOR ALIENS WHO HAVE SERVED HONORABLY (OR ARE ENLISTED TO SERVE) IN THE ARMED FORCES OF THE UNITED STATES FOR AT LEAST 12 YEARS.

(a) IN GENERAL.—Section 101(a)(27) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)) is amended—

(1) by striking "or" at the end of subparagraph (H),

(2) by striking the period at the end of subparagraph (I) and inserting "; or", and

(3) by adding at the end the following new subparagraph:

"(J) an immigrant who has served honorably on active duty in the Armed Forces of the United States after October 15, 1978, and after original lawful enlistment outside the United States (under a treaty or agreement in effect on the date of the enactment of this subparagraph) for a period or periods aggregating—

"(i) 12 years and who, if separated from such service, was never separated except under honorable conditions, or

"(ii) 6 years, in the case of an immigrant who is on active duty at the time of seeking special immigrant status under this subparagraph and who has reenlisted to incur a total active duty service obligation of at least 12 years,

and the spouse or child of any such immigrant if accompanying or following to join the immigrant.".

(b) NUMERICAL LIMITATION.—

(1) IN GENERAL.—Subject to paragraph (2), the number of individuals who may be granted special immigrant status under section 101(a)(27)(J) of the Immigration and Nationality Act in any fiscal year (other than as a spouse or child described in such section) may not exceed—

(A) in the case of aliens who are nationals of a foreign state for which there is a numerical limitation treaty or agreement (as defined in paragraph (3)), the annual limit specified in such treaty or agreement as of the date of the enactment of this Act, or

(B) in the case of aliens who are nationals of any other state, 100.

(2) EXCEPTION FOR ALIENS CURRENTLY MEETING REQUIREMENTS.—The numerical limitations of paragraph (1) shall not apply to individuals who meet the requirements of section 101(a)(27)(J) of the Immigration and Nationality Act as of the date of the enactment of this Act.

(3) NUMERICAL LIMITATION TREATY OR AGREEMENT.—In paragraph (1), the term "numerical limitation treaty or agreement" means a treaty or agreement in effect on the date of the enactment of this Act which authorizes and limits the number of aliens who are nationals of such state who may be enlisted annually in the Armed Forces of the United States.

The SPEAKER pro tempore. Is a second demanded?

Mr. SMITH of Texas. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Connecticut [Mr. MORRISON] will be recognized for 20 minutes, and the gentleman from Texas [Mr. SMITH] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Connecticut [Mr. MORRISON].

Mr. MORRISON of Connecticut. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 639 introduced by the gentleman from California [Mr. MINETA] a bill intended for a similar purpose was introduced by the gentleman from Virginia [Mr. PICKETT].

We have drawn heavily on the contributions of both bills in formulating H.R. 639 as it is now presented to the House. This bill has the strong support of the administration and of the Navy.

The legislation would provide special immigrant status for those individuals whose enlistment into the U.S. Armed Forces took place outside of the United States. Generally speaking, this enlistment only occurs in the United States but there are exceptions which apply to the Philippines by treaty, the Marshall Islands and the Federate States of Micronesia by agreement.

Currently 3,024 Filipinos and 10 individuals from the freely associated states are permitted to enroll as members of the U.S. Armed Forces and would be affected by this legislation.

Prior to October 15, 1978, these individuals were able to naturalize under section 329 of the Immigration and Nationality Act for active duty service during hostilities.

However, upon the declaration and the ending of the period of hostilities applicable to the Vietnam war, that is October 15, 1978, that right to make this application terminated. As a result of the termination of these benefits the naval officers would no longer be able to take advantage of U.S. citizenship when they had enlisted from outside of the United States.

This bill would alleviate the problem by allowing these individuals to gain permanent resident status after 12 years of service or after 6 years which is followed by a reenlistment period of 6 years.

This will free individuals who are in active service in the Navy from a number of restrictions on the kind of service that they can provide, the kind of duties to which they can be assigned and the kind of promotion opportunities which they may have.

This is in keeping with the policy of the Defense Department in continuing its recruitment of individuals under the treaty with the Philippines. It provides a much-needed opportunity for those individuals in being able to take full advantage of their service and benefit to the U.S. Armed Forces to take full advantage of the talent of these individuals.

This legislation will be very helpful and has been described as such by the Department of Defense.

Mr. Speaker, I hope it will have the unanimous support of the House.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are here today to consider H.R. 639.

H.R. 639 was amended and passed unanimously by the Subcommittee on Immigration, Refugees, and International Law. It was also passed unanimously by the full Judiciary Committee.

H.R. 639 grants special immigrant status to aliens who have served honorably or are enlisted to serve in the armed forces of the United States for at least 12 years. Any alien who has already served 6 years on active duty and has reenlisted for another 6 years of active duty, will be eligible.

Spouses and children of successful applicants may accompany the alien.

All appropriate numerical limits apply, including relevant treaties or agreements. For all other countries, the limit is 100 per country.

The administration supports H.R. 639, as amended.

And I urge my colleagues to support H.R. 639.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. MORRISON of Connecticut. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Connecticut [Mr. MORRISON] that the House suspend the rules and pass the bill, H.R. 639, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended was passed.

The title was amended so as to read: "A bill to amend the Immigration and Nationality Act to provide for special immigrant status for certain aliens who have served honorably (or are enlisted to serve) in the Armed Forces of the United States for at least 12 years.".

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. MORRISON of Connecticut. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to request of the gentleman from Connecticut?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Debate has been concluded on all motions to suspend the rules.

Pursuant to clause 5, rule I, the Chair will now put the question on each motion to suspend the rules on which further proceedings were postponed earlier today.

Votes will be taken in the following order: H.R. 3614, by the yeas and nays, and H.R. 3550, by the yeas and nays.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

DRUG-FREE SCHOOLS AND COMMUNITIES ACT AMENDMENTS OF 1989

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 3614, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Washington [Mrs. UNSOELD] that the House suspend the rules and pass the bill, H.R. 3614, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 371, nays 0, not voting 62, as follows:

□ 1700

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. BYRON. Mr. Speaker, on rollcall No. 346, I was detained in traffic, and had I been present I would have voted "yea."

PERSONAL EXPLANATION

Mrs. JOHNSON of Connecticut. Mr. Speaker, I was absent from the House during rollcall vote No. 346, and had I been present I would have voted in the affirmative.

PERSONAL EXPLANATION

Mr. INHOFE. Mr. Speaker, I was meeting in my district with officials from HUD, the Corps of Engineers, and the city of Sand Springs. During that meeting we corrected a housing problem that affected 181 Sand Springs homes. As such, I missed the vote on H.R. 3614, Drug Free Schools and Communities Act of 1989. Had I been here, I would have voted "yes."

H.R. 3614, which reauthorizes funding for programs established under the Drug-Free Schools and Communities Act of 1986 is an important part of the President's drug strategy. In my district of Tulsa OK, we have had phenomenal success with drug prevention education in our elementary and junior high schools. In particular, programs such as DARE and Operation AWARE have provided students in the first district with a strong foundation to say no to drugs.

If we are ever going to win the war on drugs, we need to support programs which teach our children the dangers of drug abuse before they become abusers. Therefore, I strongly support passage of H.R. 3614.

PERSONAL EXPLANATION

Mr. MAVROULES. Mr. Speaker, as a member of the National Commission on Drug-Free Schools on which you asked me to serve, I committed to hosting a hearing on November 13–14 in the Boston, MA area several weeks ago. As a result, I was unavailable to cast my vote during House consideration of H.R. 3550 and H.R. 3614, had I been present I would have voted "yea" on these rollcall votes, 446 and 447 respectively.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, the Chair announces that he will reduce to a minimum of 5 minutes the period of time within which a vote by electronic device may be taken on the additional motion to suspend the rules on which the Chair has postponed further proceedings today.

FORFEITURE AMENDMENTS ACT OF 1989

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 3550, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey [Mr. HUGHES] that the House suspend the rules and pass the bill, H.R. 3550, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 375, nays 0, not voting 58, as follows:

[Roll No. 347]

□ 1711

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. SKELTON. Mr. Speaker, I was present, and the gavel came down before I had the opportunity to vote on Rollcall No 347. Had I voted, I would have voted "yea."

PERSONAL EXPLANATION

Mr. DORGAN of North Dakota. Mr. Speaker, due to a death in my family, I missed two record votes. Had I been present, I would have voted "aye" on both H.R. 3614, Drug Free Schools and Communities Act of 1989, and H.R. 3550, drug forfeiture amendments.

PERSONAL EXPLANATION

Mr. NELSON. Mr. Speaker, had I been present I would have voted "aye" on rollcalls 346 and 347.

PERSONAL EXPLANATION

Mr. WATKINS. Mr. Speaker, I was absent on several votes. Had I been present I would have voted "Yea" on rollcall No. 346. "Yea" on rollcall No. 347.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas [Mr. Alexander] is recognized for 5 minutes.

Mr. ALEXANDER. Mr. Speaker, yesterday I chaired an important conference on alternative fuels and the environment at Arkansas State University in Jonesboro, AR.

This important meeting focused on how farmers in Arkansas and across America can play a role in the coming transition to alternative motor fuels, which will clean America's air and reduce the Nation's dependence on foreign oil.

It brought agricultural and business leaders from Northeast Arkansas together with energy and environmental experts from around the Nation, including former Secretary of Energy James Schlesinger, to discuss the potential of fuel from the farm.

The conference was judged to be a success, and I will share more about it with my colleagues at a future time.

Unfortunately, because of my attendance at the conference I was absent from the House for rollcalls 346 and 347.

Rollcall 346 was on passage on H.R. 3614, the drug-free schools and communities amendments, and rollcall 347 was on passage of H.R. 3550, the Drug Forfeiture Amendments Act. Had I been present, I would have voted for both measures.

H.R. 3614 would direct nearly all new money above the fiscal year 1989 level for the Drug-Free Schools and Communities Program to local school districts. It would also require schools and institutions of higher education receiving Federal funds to adopt a drug-free school policy, and would create a program to assist children of substance abusers.

H.R. 3550 would extend the important authority for transfer of up to $150 million a year from the asset forfeiture fund in the Department of Justice to the special forfeiture fund under control of the drug czar. In return, it would require Secretary Bennett to designate certain high-intensity drug trafficking areas under the authority of the 1988 drug law not later than February 1, 1990. H.R. 3550 would also clarify the relationship between Federal and State forfeiture law.

Both of these bills will provide continued support of the troops in the war on drugs, and I support them wholeheartedly.

PERSONAL EXPLANATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. HOUGHTON] is recognized for 5 minutes.

Mr. HOUGHTON. Mr. Speaker, I ask the RECORD to indicate that, although I missed voting on H.R. 3614 and H.R. 3550, rollcall Nos. 346 and 347, had I been present for those votes I would have voted "yea."

□ 1710

NOTICE OF MOTION TO INSTRUCT CONFEREES ON H.R. 3299

(Mr. TAUKE asked and was given permission to address the House for 1 minute.)

Mr. TAUKE. Mr. Speaker, I would like to serve notice that I am going to propose a motion to instruct conferees on H.R. 3299, the conference committee having been constituted over 20 days. My motion will be to instruct the conferees to substitute, in lieu of title III of the Education and Labor Committee section, those provisions of the Ways and Means Committee section to expand the title XX block grant and the earned-incomed tax credit.

REPORT ON S. 974, NEVADA WILDERNESS PROTECTION ACT OF 1989

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 101-353) on the resolution, House Resolution 974, providing for the consideration of the Senate bill (S. 974) to designate certain lands in the State of Nevada as wilderness, and for other purposes, which as referred to the House Calendar and ordered to be printed.

REPORT WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2939, FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT 1990 AND AGAINST CERTAIN AMENDMENTS IN DISAGREEMENT

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 100-352) on the resolution (H. Res. 288) waiving certain points of order against consideration of the conference report on H.R. 2939 and against certains amendments reported from conference in disagreement which was referred to the House Calendar and ordered to be printed.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF HOUSE CONCURRENT RESOLUTION 147

Mr. MARTINEZ. Mr. Speaker, I ask unanimous consent that my name be removed from the list of cosponsors of House Concurrent Resolution 147.

The SPEAKER pro tempore. (Mr. OWENS of Utah). Is there objection to the request of the gentleman from California?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF HOUSE CONCURRENT RESOLUTION 147

Mr. LEVIN of Michigan. Mr. Speaker, I ask unanimous consent that my name be withdrawn as cosponsor of House Concurrent Resolution 147.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

PERSONAL EXPLANATION

Mr. BUECHNER. Mr. Speaker, I ask the RECORD indicate that, although I missed votes on H.R. 3614 and H.R. 3550, that had I been present for those votes I would have voted in the affirmative.

SUMMARY OF REPORT BY AMNESTY INTERNATIONAL ON HUMAN RIGHTS ABUSES BY SANDINISTA GOVERNMENT IN NICARAGUA

(Mr. LAGOMARSINO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAGOMARSINO. Mr. Speaker, I am inserting into the RECORD today a summary of the most recent report issued by Amnesty International about human rights abuses in Nicaragua by the Sandinista government.

While the report acknowledges some "notable improvements"—largely due to actions taken to support the reforms leading to elections in February—Amnesty International expressed concern about reports this year of human rights abuses that include summary killings and "disappearances."

In one of its key finding, Amnesty International reports that during the cease-fire that was in effect for the past 19 months, until Daniel Ortega announced its cancellation, there was no sign of a decline in "non-combat" killings and "disappearances" of civilians blamed on security forces. The report also refers to dozens of unarmed peasants being summarily executed during operations by Sandinista troops against Contra rebels.

This Amnesty International report serves to support the contention that Daniel Ortega's action to cancel the cease-fire is motivated more by fear or opposition to his government than by alleged Contra attacks.

[From the Washington Post, Nov 9, 1989]

RIGHTS GROUP CITES ABUSES IN NICARAGUA

LONDON, November 8—Nicaraguan troops have summarily executed dozens of unarmed peasants during operations against the contra rebels in remote border regions in the last three years. Amnesty International said in a report released Thurday.

The human rights organization also said that reports persist of forced recruitment, torture and executions of civilians by the

U.S.-backed rebels but that such abuses have dropped sharply in the past year.

Amnesty International praised the Nicaraguan government for prosecuting and jailing some soldiers for unlawful killings of civilians pledging to investigate other such killings, improving legal protection for detainees, and freeing more than 2,000 political prisoners since 1986.

It also said, however, that since a cease-fire was declared in April 1988, there has been no sign of a decline in non-combat killings and "disappearances" of civilians blamed on security forces. The Nicaraguan government rescinded the cease-fire last week.

Army units allegedly have killed dozens of unarmed civilians in provinces bordering Honduras and Costa Rica and in Indian-dominated regions on the Atlantic Coast, where fighting against the contra once was intense, the report said.

In many cases, the victims allegedly were singled out "in punishment or reprisal for no other reason than their suspected sympathy or support for the insurgent forces," the report said. Witnesses also have alleged that unarmed peasants have been shot to death while fleeing army patrols seeking to enforce military conscription, it said.

"It appears that, following the withdrawal of contra forces, some military units . . . are resorting to killings during operations to identify or neutralize networks of suspected contra support and sympathizers," the report said.

It says the precise circumstances of the killings are often difficult or impossible to establish because there are no independent witnesses.

The authorities contend that, in some cases, soliders acted in self-defense because victims were suspected of being armed, hostile or dangerous. Military investigations have suggested other killings were criminal acts involving "personal quarrels, or the reckless firing of weapons by drunken soldiers."

The report documents 56 cases of unlawful executions.

It cited how the mutilated bodies of five Catholic lay preachers were found a day after they were allegedly abducted by troops searching house-to-house for suspected contras in the village of Apantillo on March 21, 1988. A military commission cleared army troops in nearby Matiguas of involvement, but villagers insisted the troops were responsible.

Amnesty International said it based its findings on three visits to Nicaragua, and its sources included relatives of those killed, missing or imprisoned.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. OWENS] is recognized for 5 minutes.

[Mr. OWENS of New York addressed the House. His remarks will appear hereafter in the Extension of Remarks.]

TAKE PRIDE IN ACTIONS AND DEEDS OF OUR PRESIDENT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois [Mr. MCEWEN] is recognized for 5 minutes.

Mr. MCEWEN. Mr. Speaker, on more than one occasion in the past year I have been moved to come to the well and speak a word about the performance of our President and our First Lady, and I have been remiss in doing so. But I think that with the conversation of this recent past weekend it is appropriate to take pride in the actions and deeds of our President, George Bush.

Mr. Speaker, as we know what happened this past weekend with the tearing down of the Berlin Wall, for all intents and purposes, this is, indeed, the greatest time in the history of man, for perhaps never in history has there not been a major confrontation or competition between political systems.

Over the past 30 months we have seen a total collapse as to the intellectual debate, as to the superiority of democracy over any other political system, and as a result of that, we see thoughout Eastern Europe today the collapse of a totalitarian system that has brought only misery and despair to the world.

As we watch what is happening in Poland and rejoice at what is happening in Hungary and thrill at the actions this weekend in East Germany as well as the changing of the leadership in Bulgaria and elsewhere, I believe it is appropriate for our national leadership, particularly the President and Secretary of State, to stand by our principles and to articulate the cause to which we are dedicated but yet not to gloat for this is, indeed, a very fragile and tenuous time.

□ 1720

An article in the newspaper this past weekend pointed out that out of 246 consumer basic staples that are necessary for convenient life in Moscow, things like cooking oil and soap and toilet paper, out of 246 that are judged basic consumer-necessary items, 221 are not available in Moscow.

We also understand that in the Soviet Union they are on the threshold of having a severe coal shortage as we face the new winter. Indeed, the situation there is very very tenuous at best.

So the General Secretary of the Communist Party that is leading the nation at the time has asked to meet with President Bush a few weeks from now. I believe that it is in our interest to stand by our principles, as I said, but yet not to encourage a destabilization that would bring the competition to Mr. Gorbachev, which is the military, to power.

As Members know, there are three basic political forces in the Soviet Union: the KGB, the Party, and the military. Mr. Gorbachev represents the leadership of the party. The military, the competition, basically through Mr. Yazov, has been seeking every opportunity to undermine him, and as a result Mr. Shevardnadze and Mr. Gorbachev have taken opportunities to point out the errors of the military wing, in Afghanistan, to encourage those in the Warsaw Pact to disassociate themselves if they so choose, thus weakening the military arm.

As we enter into this winter period and see the potential for riots throughout the Soviet Union in the next 90 to 150 days, we see the potential for a reaffirmation of control of the Soviet Union by the military wing.

That, ladies and gentlemen, would not be in the best interests of peace and stability throughout the world in my judgment.

Mr. Bush, the President of the United States, understands that well. He wishes to go through this time without giving an opportunity for those opponents to Mr. Gorbachev to say, "You can see that the ultimate goal of the United States is the destruction of the Soviet Union. You can see the boasting of the President. Therefore it is necessary for us to reassert our strength that we had under the Brezhnev regime."

Mr. Speaker, I say all of that to say this: This past weekend Sam Donaldson and Tony Coelho and certain other television commentators took a great deal of effort to attack the President for not having done more.

We have seen that when the President did not gloat and did not tweak the nose of the Chinese leadership, that they sought every effort to say that the reason they had to roll the tanks into Tiananmen Square was because of the things the United States did. They sought to make the United States the scapegoat, even though there was no reason or justification.

Mr. Bush and our Secretary of State, Mr. Baker, understand that well. They will not give that sword to the Soviet Union adversaries of Mr. Gorbachev. I believe they are behaving in a manner that makes all of us dedicated to peace and freedom, democracy and enterprise, proud, and I believe that Mr. Donaldson and Mr. Coelho and those other spokesmen for the politics of the left could do better by rearticulating the cause to which we are committed and less time attacking the President, who thus far has done a superb and stellar job in leading our Nation thus far.

The SPEAKER pro tempore (Mr. OWENS of Utah). Under a previous order of the House, the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

[Mr. ANNUNZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.]

AMERICA'S CHALLENGE TO HELP BUSINESS

The SPEAKER pro tempore. Under a previous order of the House, the gen-

tlewoman from Maryland [Mrs. BENTLEY] is recognized for 60 minutes.

Mrs. BENTLEY. Mr. Speaker, the United States is in an economic war. To win this war we need to marshall our forces. The weapons to use, are our ideas and the resources of our buinesses and government.

In 1986 I introduced a bill to create a Marshall Plan for the United States, just as we created one for Europe after World War II. Remember after the war we helped build up Europe and Japan, now it is our turn—we need to do it here—now.

Until now, we have not been utilizing the best of our God-given talents. American businessmen have been innovative and creative. We have been the salesmen of the world. Historically, no challenge has been too great for us. We still accept a challenge—only we have been fighting a battle with one hand tied behind our back.

That hand tied behind our back has been the lack of resources of our Government combined with some of our own people engaged in selling off the country. While these former Government officials are selling their services to the Japanese, they are telling us what we must do to be good enough to win this economic war. Generally their advice is why we can and should get along with the Japanese, why we need them, and why the Japanese do better than Americans.

The message that comes through loud and clear is one that we often have given to our young people. We tell them you need to learn how to do this and when you learn—then and only then can you have your privileges.

Well, I have a message for all those so-called experts. We have learned, we do know how to do things—and we can win. Americans will roll up their sleeves and win this economic war. We have been in tight spots before and have turned the battle. But it means all Americans working together in behalf of America and not other countries.

I come from a State where we are very aware of what the American spirit can do. It was at Fort McHenry with the bombardment of the British that we turned the battle and saved the day for the future United States. It was there that Francis Scott Key wrote the Star Spangled Banner. We Americans did it before—we won the battle—and we can do it again.

We are now living in a global electronic village where ideas are the tools of competition and the structure of society. Our ideas are more important than ever for this Nation to keep its power. We not only need the tools to manufacture and produce in this country, but we must keep faith in ourselves that we have the ability now to meet this unprecedented economic challenge.

Our so-called Japanese experts—some of the best former stars in government and business—have found a way to continue their power by teaching the Japanese how to buy and takeover American firms. What strikes me is the Japanese do not sell their companies. They do not have groups of Japanese teaching Americans how to buy Japanese properties.

Only in America are Americans coaching our friendly adversary, Japan, on how to acquire our cultural industries, our films and media, our real estate, businesses, and schools in the United States. Only in America are the best using their talents in a $100 million lobbying campaign of the Federal Government and conducting a public relations campaign to sell Japan to the American people.

The Washington Post carried a story on November 10, 1989 about this exact issue. The story, U.S. Experts on Japanese Often Have Economic Ties with a subhead Critics Believe Objectivity Is Being Lost explains exactly what I am talking about.

It stated, "Last week, when two leading business organizations from Japan and the United States released a report on how to manage the trade problem between the two countries, a press release announced that former U.S. Trade Representative William D. Eberle led the U.S. side while Nissan Motor Co. Chairman Takashi Ishihara led the Japanese group."

What the press release did not say was that Eberle is president and half-owner of a Washington consulting firm, Manchester Associates Ltd. that lists Nissan as a major client.

The story went on, "The resulting dual roles are an example of how a number of American experts on Japan in business, academic, and politics have turned in recent years to Japan for clients or funding, while at the same time applying their special knowledge in the growing debate on U.S.-Japanese relations."

"While many observers defend such funding as perfectly benign, others worry that it could skew the debate about what America's Japan policy should be. Eberle said there was nothing improper about playing a leading role in a debate while his client was on the other side."

That is just the problem. Mr. Eberle is not actually playing a leading role in the debate—he is being paid by a foreign company representing an ally who is engaged in an economic war with us.

Let me remind you that I have stated before about Suburo Okita, a former Foreign Minister of Japan and distinguished opinion-maker on international issues, and what he wrote in his memoirs in 1985.

Okita's explanation is a striking clue to what drives Japan and "the feelings of those who, in 1943 already recognized the war was lost and looked ahead to the postwar challenges.

In that 1985 book, Okita wrote about the 1943 Japanese belief that "an army in uniform is not the only sort of army. Scientific technology and fighting spirit under a business suit will be our underground army. The Japanese-American war can be taken as the khaki losing to the business suits."

This explanation by a former Foreign Minister of Japan is most revealing. Just 4 short years ago, in 1985, he was calling this time a time of war waged by an underground army in business suits. It couldn't be stated much more clearly—we are in a war, only we call it an economic war.

We have always been free in America to pursue our interests, to live the America dream, as long as we do not hurt another citizen. Today in this economic war that choice is not being given to American business because of lack of support from the Government.

Before he left office Charles Wick, the former Director of the United States Information Office made a speech about the freedom of ideas. He said, the "Information Revolution"—which are ideas—"has transformed today's struggle into a high-tech global 'war of ideas.' It is a global war of ideas that transcends all national universities—even language."
